

DEPARTMENT OF GEOGRAPHY COLLOQUIUM

Friday, September 30, 2016

2:00 — 3:00 pm

Evans Liberal Arts 116

Creating a Research Program of Geographic Intra-Disciplinarity... and Why

by Dr. Kelley Crews

Associate Professor, Department of Geography & the Environment, University of Texas at Austin

Dr. Crews' research and teaching focus on 1) land change science in strongly seasonal systems, 2) integration of satellite- and field-derived measurements; and 3) health, vulnerability, and resilience of socio-ecological systems in developing states. She proudly practices "muddy boots" remote sensing and has over 18 years field experience in the global tropics, with much of her recent work focusing on Botswana.

For more detailed information please contact Dr. Jason Julian Jason.Julian@txstate.edu
(Colloquium Coordinator) or call at 512.245.2170.
