**FOR THE FISCAL YEAR ENDED**  
**August 31, 2013**

Performing Arts Center Opening February 2014

Sitting at the intersection of University Drive and Moon Street, the new Performing Arts Center at Texas State University serves as a new front door to the campus. Designed by the architectural firm of Morris Architects, the 71,300 square-foot facility features two, professional quality performance venues—the Patti Strickel Harrison Theatre that seats 400 patrons and the Recital Hall that seats 300 patrons. With instructional space as well as design and production spaces, the new Performing Arts Center is well-equipped to meet the educational and artistic production needs of our academic units as it serves the broader San Marcos community.

## **PATTI STRICKEL HARRISON THEATRE**

The 400-seat venue will feature innovative lighting technology providing new educational and creative opportunities for students, faculty, and staff of the College of Fine Arts and Communication. Included are several modern, yet functionally traditional lighting fixtures as well as several LED and/or automated lighting fixtures making the theatrical lighting capabilities of Texas State University competitive with peer institutions.

## RECITAL HALL

Students in Texas State's School of Music will perform in the modern recital hall – quite a step up from the existing, 149-seat recital hall housed in a renovated gymnasium. The new hall will host student and faculty performances, the fast-rising Texas State Opera Theatre program as well as national touring artists through the Encore University Performing Arts series.

## GRAND LOBBY

This beautiful addition to Texas State will connect our campus to the larger community and give Texas State a stunning gateway into the south central portion of campus, while providing a proper performing venue for the talents of our students and faculty.

NOTES TO THE BASIC FINANCIAL STATEMENTS

## EDWARD GARY STREET PARKING GARAGE

A 455-space parking garage is also part of the project, and the block of Edward Gary between the garage and the Center will become a tree-lined walkway, in keeping with the Campus Master Plan's goal of turning the campus from "gray to green."

**NOTE 1: Summary of Significant Accounting Policies**

**BASIS OF PRESENTATION**

---

The accompanying financial statements of Texas State University–San Marcos (Texas State) have been prepared in compliance with Texas Government Code Annotated, Section 2101.011, in accordance with the applicable requirements established by the Comptroller of Public Accounts and Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standard Board (GASB).

Financial reporting for the university is based on all GASB pronouncements, as well as Financial Accounting Standards Board (FASB) Statements and Interpretations, Auditing Practices Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989 are not followed in the preparation of the accompanying financial statements.

**NATURE OF OPERATIONS**

---

Texas State is a public student-centered Emerging Research University dedicated to excellence in serving the educational needs of the diverse population of the State of Texas and the world beyond. The university offers degrees in 96 undergraduate programs, 87 graduate programs and 12 doctoral fields. Through research, instruction, and other activities that advance essential knowledge and dissemination of that knowledge, the university strives to fulfill its mission.

**REPORTING ENTITY**

---

The financial reporting entity consists of the primary government organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete. The Texas State University-San Marcos Research Foundation and the Harold M. Freeman Educational Foundation are included in the financial statements of Texas State as blended component units.

Texas State is governed by the Board of Regents for The Texas State University System and is included in their financial statements as a component unit. The Texas State University System is a component of the State of Texas and is reported by the State of Texas in the proprietary fund.

**MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

---

The basis of accounting determines when revenues and expenses are recognized and reported in the financial statements. Three primary financial statements are presented with supporting schedules: The Statement of Net Position, the Statement of Revenue, Expenses and Changes in Net Position, and the Statement of Cash Flows. The accompanying statements have been prepared using the economic resources measurement focus and accrual basis of accounting as prescribed in GASB Statements 34/35. Under the accrual basis, revenues are recognized when earned and expenses are recognized when an obligation has been incurred.

As an agency of the State of Texas, Texas State is reflected as a special-purpose government engaged in only business type activities. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods or services and focus on determining operating income, changes in net assets, financial position, and cash flows. Operating items are distinguished from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the principle of ongoing operations. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All significant inter-agency transactions have been eliminated.

**RESTRICTED NET POSITION**

---

When both restricted and unrestricted net assets are available for use, restricted resources are generally used first, and then unrestricted resources are used as they are needed.

**NOTES TO THE BASIC FINANCIAL STATEMENTS**

---

**USE OF ESTIMATES IN THE PREPARATION OF BASIC FINANCIAL STATEMENTS**

---

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A significant estimate for scholarship discounts and allowances is made by the university. Allowances are determined by using the Alternate Method as issued by National Association of College and University Business Officers in the *Advisory Report 2000-05*. This method resulted in a total estimate of \$81,509,308.55 for the university's discounts and allowances related to tuition and fees.

**CURRENT AND NON-CURRENT ASSETS**

---

Current assets are those considered available for appropriation and expenditure within one fiscal year. Examples of expendable financial resources include cash, various receivables, and short-term investments. All other assets are considered non-current.

**CASH AND CASH EQUIVALENTS**

---

For reporting purposes, this account includes cash on hand, cash in local banks, cash in transit, and cash in the treasury. Cash equivalents are defined as short-term, highly liquid investments that are both: (a) readily convertible to known amounts of cash and (b) so near maturity they present insignificant risk of changes in value due to changes in interest rates. Only investments with an original maturity of three months or less are considered cash equivalents.

**ACCOUNTS RECEIVABLE**

---

The university's accounts receivable primarily relate to tuition and fee charges to students and to auxiliary enterprise services provided to students, faculty, and staff. Restricted receivable amounts, related to reimbursement of expenditures from various federal, state, and private sources, are amounts pledged to the university by donors, net of allowances.

**CONTRACTS AND GRANT AWARDS**

---

Contract and grant awards are accounted for in accordance with the requirements of GASB Statements 34/35. Federal contract and grant awards not collected as of fiscal year-end are reported as Federal Accounts Receivable on the Statement of Net Position.

**INVESTMENTS**

---

In accordance with GASB Statement No. 31, investments are reported at fair market value in the Statement of Net Position. Fair value is defined as the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

**INVENTORIES AND PREPAID ITEMS**

---

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost.

Payments made for services that will benefit periods beyond the current accounting period are recorded as prepaid items. Prepaid scholarships represent funds paid in the current period relating to the following period.

The consumption method of accounting is used to account for inventories and prepaid items that appear in the Proprietary Fund types. The cost of these items is expensed when the items are consumed.

**CAPITAL ASSETS AND RELATED DEBT ACTIVITY**

---

Purchases for assets with an estimated useful life in excess of one year exceeding the university's capitalization thresholds are recorded as capital assets at their acquisition cost on the date of acquisition. Donated assets with an estimated useful life in excess of one year exceeding the university's capitalization thresholds are recorded as capital assets at their fair market value on the date of acquisition. Intangible capital assets are defined as assets that lack physical substance, are nonfinancial in nature and have an initial useful life extending beyond a single reporting period. Routine repairs and maintenance that do not increase the value of buildings are charged to operating expense in the year in which the expense was incurred.

The university's capitalization thresholds are:

<b>Asset Category</b>	<b>Capitalization Threshold</b>
Land, land improvements, and land use rights	All acquisitions are capitalized
Books and materials for the university's academic and research library	All acquisitions are capitalized
Works of art and historical treasures not held for financial gain	All acquisitions are capitalized
Furniture, equipment, and vehicles	\$5,000
Buildings, building improvements, facilities and other improvements	\$100,000
Purchased computer software and land use rights <sup>(A)</sup>	\$100,000
Infrastructure	\$500,000
Internally generated computer software	\$1,000,000

(A) Applies only to land use rights considered to have a limited useful life (TERM.)

Assets are depreciated or amortized over the estimated useful life of the asset using the straight-line method as follows:

Buildings, Infrastructure and Facilities	10-30 years
Furniture and Equipment	4-15 years
Vehicles	5-10 years
Other Assets	15 years
Purchased and Internally Developed Software	5 years
Other Tangible Assets	10 years
TERM Land Use Rights	10 years

All land, land improvements, land use rights, and works of art and historical treasures not held for financial gain are considered to have an indefinite useful life. Because these assets are inexhaustible, they are not depreciated.

New bonded indebtedness is issued by the Texas State University System Revenue Financing System. The System Administration Office and each component institution within the system comprise the Revenue Financing System. Although the university must repay the debt that was issued on its behalf, the associated bond liability is reported in total by the System Administration Office and is not included in the liabilities of the university in the university's financial statements. Debt service requirements reported by the System Administration Office and attributable to Texas State are disclosed in Note 6, Bonded Indebtedness.

**ACCOUNTS PAYABLE**

---

Accounts payable represents the liability for the value of assets or services received at the Statement of Net Position date for which payment is pending.

**OTHER PAYABLES**

---

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions.

**DEFERRED REVENUES**

---

Deferred revenues represent payments received in advance of providing goods or services.

**UNAUDITED**  
**Texas State University-San Marcos (754)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS**

---

**LONG-TERM LIABILITIES**

---

General long-term liabilities are not limited to liabilities arising from debt issuances, but may also include non-current liabilities on lease-purchase agreements and other commitments that are not recorded as current liabilities. In Proprietary Fund types, long-term debt, and other long-term obligations are reported as liabilities in the applicable Business-Type Activities or as a Proprietary Fund type in the Statement of Net Position.

**EMPLOYEES' COMPENSABLE LEAVE BALANCES**

---

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Compensable leave liabilities are reported as either short-term (current) or long-term (non-current) in the Statement of Net Position. Long term is the portion of vacation balance which was not earned in the given fiscal year. Short term is the portion earned during the fiscal year. If the amount earned during a fiscal year is greater than the balance, then the entire balance is considered short-term. An expense and liability for proprietary fund types are recorded as the benefits accrue to employees.

No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

**NET POSITION**

---

The difference between assets and liabilities is 'Net Position' on the proprietary fund statements.

**INVESTED IN CAPITAL ASSETS, NET OF RELATED DEBT**

---

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

**RESTRICTED NET POSITION**

---

Restricted net position consists of restricted assets less liabilities and deferred inflows of resources related to those assets. This represents resources that are constrained to a particular purpose and either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

**UNRESTRICTED NET POSITION**

---

Unrestricted net position is the residual amount of the net position not included in the net investment in capital assets or the restricted net position. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified. Substantially all unrestricted net assets are designated for academic and research programs and initiatives, and capital projects.

**Credit Risk for Investments**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Systems' investment policy requires that investments in debt securities be rated by two nationally recognized rating organizations. For Non-Operating Funds, the rating must be in the top three investment grade ratings, AAA to A, at the time of purchase. For Endowment Funds, the rating may be AAA to BBB. Since Texas State has an investment advisor with oversight responsibilities, the portfolio may also invest no more than 20% of the fixed income endowment portfolio in below investment grade securities. Risk is further limited by term limitations, and maximum single purchase and maximum aggregate position percentages.

As of August 31, 2013, the credit quality distribution for securities with credit risk exposure was:

**Employees' Compensable Leave**

Accrued Compensated Absence is the institution's liability for unpaid overtime accrued by classified employees and unused vacation time for all employees. Any obligation to university personnel is paid at the time an employee is dismissed, resigns, or separates from the university, provided the employee has had six months of continuous employment with the State. An expense and liability are recorded annually as the benefits accrue to employees. A maximum accrual of 532 hours of vacation is allowed for employees with 35 or more years of service. For the fiscal year ended August 31, 2013 the accrued liability totaled \$10,712,193.50 for vacation and/or overtime. The university made lump sum payments totaling \$986,902.01 for accrued vacation and/or overtime to employees who separated from State service during the fiscal year ending August 31, 2013. Sick leave, the accumulation of which is unlimited, is earned at the rate of eight hours per month and is only paid when an employee is off due to illness or to the estate of an employee in the event of his/her death. The maximum leave that may be paid to an employees' estate is one-half of the employees' accumulated entitlement or 336 hours, whichever is less.

Bonds Payable obligations are described in detail in Note 6.

Capital Lease obligations are described in detail in Note 8.

**NOTE 6: Bonded Indebtedness**

During the fiscal year ending August 31, 2103 Texas State issued a notice of redemption and redeemed the outstanding principal amount related to Housing System Revenue Bonds Series 1986. All remaining bonded indebtedness for Texas State University-San Marcos is issued by System Administration through the Texas State University System Revenue Financing System. System Administration and each component institution within the system are members of the Revenue Financing System. The Board of Regents pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that is lawfully available to the board for payments on Parity Debt.

System Administration issued the debt; therefore, the bonds payable attributable to the institution are included with the Bonds Payable reported by System Administration. The institution must repay the debt that was issued on its behalf; consequently, the following debt amortization schedule is presented for informational purposes only.

### **Our Mission**

Texas State University is a public, student-centered, Emerging Research University dedicated to excellence in serving the educational needs of the diverse population of Texas and the world beyond.

### **Our Shared Values**

In pursuing our mission, we, the faculty, staff, and students of Texas State University, are guided by a shared collection of values. Specifically, we value:

- An exceptional undergraduate experience as the heart of what we do;
- Graduate education as a means of intellectual growth and professional development;
- A diversity of people and ideas, a spirit of inclusiveness, a global perspective, and a sense of community as essential conditions for campus life;
- The cultivation of character and the modeling of honesty, integrity, compassion, fairness, respect, and ethical behavior, both in the classroom and beyond;
- Engaged teaching and learning based in dialogue, student involvement, and the free exchange of ideas;
- Research, scholarship, and creative activity as fundamental sources of new knowledge and as expressions of the human spirit;
- A commitment to public service as a resource for personal, educational, cultural, and economic development;
- Thoughtful reflection, collaboration, planning, and evaluation as essential for meeting the changing needs of those we serve.

The mission statement was approved by The Texas State University System Board of Regents on August 24, 2012 and by the Texas Higher Education Coordinating Board at its January 24, 2013 meeting.
