Pandemic/Post Pandemic Work Groups (#771)

Dr. Lloyd and the work group chairs provided status updates and discussed questions that have been raised by work group members. Dr. Emilio Carranco presented preliminary recommendations from the Health, Wellness, and Safety Work Group. Dr. Vedaraman Sriraman presented preliminary recommendations from the Continuity of Education Work Group. Ms. Cristine Black presented preliminary recommendations from the Continuity of Housing Work Group. Dr. Angela Ausbrooks presented preliminary recommendations from the Faculty and Staff Morale Work Group. Cabinet members discussed each set of recommendations and provided feedback for the chairs to take back to their committees for consideration.

Dr. Walt Horton presented recommendations from the Continuity of Research Work Group, and Mr. Don Coryell and Mr. Travis Comer presented recommendations from the Continuity of Athletics Work Group. Both sets of recommendations were approved by Cabinet members.

Because the Continuity of Student Life and the Commencement Planning Work Groups were newly formed, Dr. Cavitt and Dr. Sriraman, respectively, sought clarification and guidance from the Cabinet members on their work groups' charges.

RTA: 5/28/20 Follow-up to discuss action items resulting from the President's Cabinet meeting on May 22, 2020, where work group chairs provided preliminary recommendations.
