Accessing Amazon Business

How do I access my Amazon Business account?

Please see the specific instructions in the email sent to you by the Purchasing Department on the day you were granted access to Amazon Business. **If you have used the Amazon account tied to your @txstate.edu email address for personal purchases, pay close attention to the instructions to ensure no personal information and purchase history is merged into this business account.**

If directed by my administrator, how do I deregister my account?

1. Log into your Business Account
2. Download an order history report for the past 6-12 months via Business Analytics from your drop-down menu
3. Click the following link to deregister your existing account:
<https://amazon.com/gp/b2b/manage/deregister>

4. Once you are done, navigate to Jaggaer and select the Amazon Business tile to Punchout. Then, follow the appropriate steps and prompts to convert your account.

I tried to deregister my account but it says “I don’t have permissions to close this account.” How should I proceed?

The reason you do not have permissions to close your account is because you are not the administrator of the account you are tied to. Please reach out to the administrator on the existing account and have them remove you. If you are unsure of who your account administrator is, please contact Customer Service [HERE](#).

When I access Amazon Business for the first time, I am prompted to log in with a password. I do not know my login information.

You may be asked to enter a password because you have an existing Amazon account with your [Company E-mail] email address. If you cannot remember the password, please select the “forgot password” button to reset. If you are still having trouble resetting the password, please call Amazon Business Customer Service at 1-888-281-3847. Once your password has been reset, you will follow the instructions and prompts to either separate your order history or convert your existing account into a Business account.

You can ignore this address if you do not see the correct option available. Your order will only ship to the address selected in your Jaggaer itself, not Amazon Business.
