

HOW TO USE TRICARE PRIME AT THE TEXAS STATE STUDENT HEALTH CENTER

To use your Tricare Prime® insurance at the Student Health Center, call your Primary Care Manager (PCM) and ask them to request an authorization for you to be seen at the Student Health Center for a specific injury, illness, or service that you need. Your PCM and/or Regional Contractor will determine if your request can be approved. Give the PCM the following information about the Student Health Center:

- Group NPI: 1003953050

It is your responsibility to ensure a valid authorization is on file before receiving services at the Student Health Center. You will be responsible for all charges incurred when there is no active authorization on file.

ADDITIONAL DETAILS FOR OBTAINING AUTHORIZATION

1. The parent/sponsor must contact the Primary Care Manager (PCM) and explain that the dependent is currently enrolled at Texas State University and would like to be seen at the Student Health Center for a specific injury, illness, or service.
2. The PCM will ask for the following information:
 - Clinic name: Texas State University Student Health Center
 - Group NPI: 1003953050
 - Physical Address: 298 Student Center Dr. San Marcos, TX 78666
 - Fax: 512-245-9288
3. The PCM will then work with the regional contractor for the prior authorization.
4. The parent/sponsor may also contact the regional contractor for prior authorization or register on the Humana Military/Health Net Website to request, renew and track Authorizations.
