# College: College of Applied Arts <br> Academic Plan 2012-2017 

## I.

Introduction

State your department/school/college mission statement.
The mission of the College of Applied Arts is to prepare undergraduate and graduate students for careers through programs of high quality in academic, professional, and technical areas; to further faculty excellence in teaching supported by quality scholarship; and to enhance our involvement with local, state, national, and international constituencies.

Outline briefly your "vision" for the 2012-2017 planning cycle.
Our vision of the College of Applied Arts is to continue to offer and develop the highest quality of academic programs that are complimented with research and service opportunities for faculty and students. We project to increase annual enrollment at a rate of three to five percent and serve new and emerging student populations using traditional and technological instructional delivery modes. Students will be provided guidance and advice to ensure that we retain them and they reach their highest potential personally, socially and professionally. We will continue to strategically review our infrastructure needs as we incrementally identify faculty offices, enhance labs, add graduate assistants as we selectively enhance or add new programs. In addition, we will continue to solicit external funding opportunities to leverage the research skills of the faculty and students, build our research infrastructure and use our designation as a Hispanic Serving Institution.

Using University goals and initiatives as a guide, list and briefly describe your top five priorities for the 2012-2017 planning cycle and indicate the university initiative/goal to which the unit's initiative is linked.

1. The College will promote quality by building and supporting a distinguished faculty, managing enrollment growth and strengthening the University culture of research. (Goal 1, 3)
2. The College will increase enrollment at a rate of $3-5 \%$ per year during this planning cycle with an emphasis on maintaining undergraduate enrollment, and building and strengthening graduate education programs by adding programs, improving quality and using technology to deliver instruction to meet emerging demands. (Goal 2, 3)
3. Expand funded research by collaborating with state and federal agencies, corporations and foundations, leveraging indirect costs and our Hispanic Servicing Institution status to impact diversity, and the economic and cultural development of the region. (Goal 2, 4)
4. Promote collaboration between students, faculty, and agencies to enhance learning opportunities and internships, and promote studentcentered education that will prepare students for professional opportunities. (Goal 3, 4)
5. Engage faculty and graduate students in the solicitation of external funding to expand the research infrastructure and build interdisciplinary collaborative teams with Nutrition, Agriculture, Psychology, Biology, and Exercise Science that will achieve maximum use of research facilities. (Goal 5)

Based on unit goals, list the number of new (not replacement) faculty lines you plan to request in the 2012-2013 academic year and in the remaining 2-5 years.

| Sciences | 3 GAs | 9 | graduate assistantships to support new Masters degree in <br> Merchandising and Consumer Studies. Expand lab facilities to <br> increase external funding and strengthen inter-disciplinary research <br> opportunities in nutrition. |

| Agriculture | 1 | Lab Equipment | 500,000 |
| Occupational Education | 3 | Maintenance \& Operations | 18,000 |

## II. Process

Describe, in a brief paragraph, the process used to develop your plan, including the nature and extent of faculty involvement.
The College disseminated to department chairs and faculty the initial first draft of the strategic plan and comments and suggestions were submitted on behalf of the college.

Secondly, the College Dean and Chairs reviewed the goals of the strategic plan and assessed the State of the College during the last five years to review achievements in terms of new programs, faculty positions, research and training grants received, learning outcomes, faculty, scholarship, service, teaching and enrollment patterns for each undergraduate and graduate program.

Chairs met with faculty to discuss specific departmental needs and projections. They reviewed, passed results and growth patterns to identify their top departmental priorities in terms of faculty positions, graduate assistantships, new programs, and physical space needs and infrastructure.

The Dean listened to the Chairs and reviewed the priorities of each department in terms of new faculty, graduate assistantships, enrollment growth, new program development, external funding opportunities, international activities, Hispanic Serving Institution status and improving and expanding learning opportunities for students. A final draft was shared with Chairs for additional comments.

| Maintenance Need | Reason for Need | Cost | Result of Funding |
| :---: | :---: | :---: | :---: |
| CJ - Increased funding for 8 PhD stipends plus 4 Master student stipends | Graduate programs currently are underfunded given the rapid growth of Criminal Justice over time. The lack of adequate graduate stipends could | \$270,000 | Increased funding of doctoral students will ensure meeting required THECB targets for the PhD program; increased funding of MSCJ teaching assistants to a level which will ensure every large class will have adequate instructional support. |
| SOWK - The virtual reality lab will need space, a lab coordinator, a computer design expert, and computer products | The virtual reality lab has great potential to strengthen our teaching in military social work, leadership development, teaching skills in disaster maintenance and other | $\begin{aligned} & \$ 300,000 \text { over } 5 \\ & \text { years } \end{aligned}$ | The virtual reality lab will make the School much more contemporary and competitive in external research funds, as well as in teaching strength and ability to collaborate with community partners. |
| FCS - M\&O | Increased lab sections require additional food and other supplies to be purchased. | \$2,500 | Cover operating costs. |
| FCS - M\&O | Funds to maintain and repair laboratory equipment. | \$15,000 | Maintain equipment function. |
| FCS - Costs associated with CIDA accreditation and site visit | Maintain CIDA accreditation of the ID program. | \$13,000 | Program will be prepared for site visit of accrediting body to assure accreditation. |
| FCS - Card swipe/reader technology | For student access to studios and resource room 24/7. Current system of key checking is becoming difficult to manage. | \$15,000 | Easy and secure access to studios and resource room for ID students. |
| FCS - Renovation of 3 design studios | To bring them up to date with industry and accreditation requirements. | \$50,000 | State of the art facilities to facilitate innovative pedagogy. |

| FCS - Expansion of the Child <br> Development Center | The CDC has a waiting list for child <br> care of 222 kids including 33 not <br> born yet. Demand for the <br> observation/research/teaching <br> components has also increased with <br> increased university enrollment. |  | Facilities that match the demand for multiple services/roles of <br> the Child Development Center. |
