

CHERRIOS BIRD FEEDERS

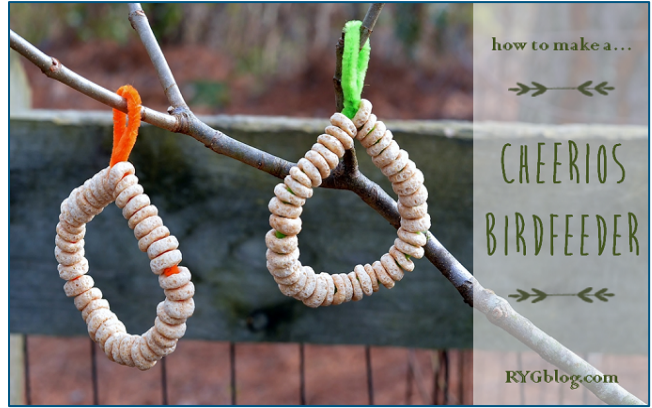

How to Create a simple bird feeder.

Supplies Needed:

- Pipe Cleaners or string
- Cheerios

Directions:

1. Bend back one end of the pipe cleaner to keep the Cheerios from falling off.
2. Then, have your kiddos string the Cheerios onto the pipe cleaner until there are about two inches left on one end (or about 40 Cheerios if you want to turn it into a counting activity).
3. Next, depending on the age of your kids, you may want to take over the final assembly by centering the Cheerios on the pipe cleaner, and then bringing the two ends together and twisting them to create a circle of Cheerios.
4. Then, twist the sections of pipe cleaners with no Cheerios together to make a smaller circle that will serve as the hanger.
5. Note: You could fill the entire pipe cleaner with Cheerios and just hang it directly on a tree.
6. Then have your kids take their creations outside to hang on your trees for the birds to enjoy!
