Do the outside investment advisors or managers have the authority to make investment decisions without obtaining prior approval?

Managers have the authority to make investment decisions within their asset class and according to TSUS investment policy guidelines, without obtaining prior approval. The Investment Consultant has no investment authority.

2. Does the institution use soft dollar, directed brokerage or directed commission, commission recapture, or similar arrangements (these arrangements typically involve using brokerage commissions as a means of paying for other related investment services through credits of a portion of brokerage commissions paid rather than through direct payments, or using selected brokers who will rebate a portion of commissions they receive on trades for the investor)? If the answer to this question is yes, the institution must summarize briefly the guidelines that govern the use of such arrangements.

Systematic Financial Management, L.P. uses soft dollar arrangements. All trades are subject to best execution. As part of the quarterly reporting package, Systematic Financial

Management, L.P. provides a quarterly trade report that details the brokerage firms and commission rates used for soft dollar trades for that quarter.

3. Is the institution associated with an independent endowment or foundation? If the answer to this question is yes, the institution must provide contact information (name and address) for the individual[s] who manage the independent endowment or foundation. The institution must also provide, if available, the market value of the endowment's or foundation's investments. Yes
