Interior advertising space is available on the Bobcat Shuttle. The Bobcat Shuttle provides advertising opportunities to campus departments, student organizations, and external organizations and businesses.

The shuttle system serves major student apartment complexes, as well as campus including special events such as football shuttle service and graduation. Interior displays give you high visibility with a consistent and diverse daily audience. Visit shuttle.txstate.edu to view all the current bus routes throughout campus and the city of San Marcos.

SIGN SPECIFICATIONS

Advertisers are responsible for the design and production of their advertisements. All signage must conform to the specifications outlined below.

Digital ad copy must be a high-resolution PDF file or similar vector graphic:

- Ads must be sized 33”(W) x 11”(H)
- Ads must be least 300 dpi
- A total of 45 advertisements (43 + 2 extra in case of damage or loss) should be produced for installation in all buses with ad space.

Either of the following production methods is acceptable:

- 0.020 - 0.030 Styrene or equivalent (Preferred)
- 100# or 110# card-stock encapsulated with 5 mil laminate (campus partners only)

Campus Departments & Student Organizations may have laminated ads produced at Print and Mail Services, however this is not suggested for ads running longer than 1 month, due to durability issues. Campus Departments & Student Organizations may want to contact the Office of University Marketing for design and production assistance.

Allow .5” margin at the top and bottom of sign art to avoid important ad messaging from being covered by the bus sign frame; do not place important text, phone numbers or logos inside these areas. The finished product must be exactly 11” high, including trimmed lamination.
