

Agenda
 General Education Council
 November 13, 2023
 3:30 to 5:00 PM
 THH 124

- Welcome
- Approval of minutes from October 16, 2023
- Assessment – Start audit of methods.
- Description of voting methods.
- Current GEC Proposals – Changes and Additions (20-min/proposal)

Course	Requested GEC Designation	Notes	Presenter(s)
CHEM 1320 – Foundations of Chemistry	030	Many students repeat CHEM 1341; CHEM 1320 will provide foundational knowledge and skills to improve student success	Bill Brittain / Sean Kerwin
EDP 1350 – Effective Learning	Component Area – Communication Emphasis (090 and 091)	The current course is a free elective for students and is typically recommended for students that need to improve their academic standing.	Russell Hodges
PHYS 2325 – Mechanics	030 and Component Area – Life and Physical Sciences Emphasis (090 and 093)	We are breaking the course apart into a lecture course (PHYS 2325) and a lab course (PHYS 2125). PHYS 2325 is being created as a representation of the current state of the "lecture" portion of PHYS 1430. No substantive changes to the course material or format are intended.	Hunter Close

Course	Requested GEC Designation	Notes	Presenter(s)
PHYS 2326 – Electricity and Magnetism	030 and Component Area – Life and Physical Sciences Emphasis (090 and 093)	We are breaking the course apart into a lecture course (PHYS 2326) and a lab course (PHYS 2126). PHYS 2326 is being created as a representation of the current state of the "lecture" portion of PHYS 2425. No substantive changes to the course material or format are intended.	Hunter Close

- New business
- Next meeting, November 13, Room THH 124 – continue review of current GEC proposals.
- Adjournment
