1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. It is recommended that some of the general education core curriculum courses be taken over one or more summer sessions.

2. Students choose their career path in consultation with the Head of the Musical Theatre program.
3. A minimum of 36 advanced hours are required.
4. All Theatre students are encouraged to participate in theatre production activities each semester.
5. Students in the program are always on probation, with their work and progress continually evaluated.
6. Students must maintain a minimum GPA of 2.8.

### Minimum required: 125 semester credit hours

### Admission Requirements
1. The Bachelor of Fine Arts (B.F.A.) major in Theatre with a concentration in Acting requires admission to the university and admission to the program. For more information visit: http://www.theatreanddance.txstate.edu/Undergraduate-Degrees/BFA-Theatre--Acting.html
2. Admission to the B.F.A. major in Theatre with a concentration in Acting is highly competitive and based on an audition/interview with members of the B.F.A. Acting Program faculty. Prospective students audition during their senior year of high school. This is a four-year sequential curriculum and transfer students are not accepted unless specially invited by the B.F.A. Acting faculty.

### General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students in the program are always on probation; their work and progress are formally evaluated by faculty annually. Students must maintain a minimum GPA of 2.5.

Minimum required: 120 semester credit hours

**Admission Requirements**

1. The Bachelor of Fine Arts (B.F.A.) major in Theatre with a concentration in Film Production requires admission to the university and admission to the program.

2. Admission to the concentration will be based on the following criteria:
   a. Application form. See Theatre and Dance website for application dates. [https://www.theatreanddance.txstate.edu/Undergraduate-Degrees/BFA-Film-Production/Apply.html](https://www.theatreanddance.txstate.edu/Undergraduate-Degrees/BFA-Film-Production/Apply.html)
   b. Overall GPA of 2.50
   c. “B” or better in TH1353 Film Production Practices and TH1320 Filmmakers History of Film
   d. A portfolio of three video works (produced in the Film Production Practices course).

3. Students currently in the BFA Theatre program are eligible to apply for the Film Production concentration.

**General Requirements**

1. The Bachelor of Fine Arts (B.F.A.) major in Theatre with a concentration in Film Production requires admission to the university and admission to the program.

2. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum ([http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/](http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/)) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

3. A minimum of 36 advanced hours are required.

4. All Theatre students are encouraged to participate in theatre production activities each semester.

5. Students in the program are always on probation; their work and progress are formally evaluated by faculty annually. Students must maintain a minimum GPA of 2.5.

**Minimum required: 125 semester credit hours**

**Admission Requirements**

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number.
See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. An all-level (EC-12) teacher certification in the theatre program consists of a minimum of 41 semester hours, with at least 24 hours advanced.

3. All Theatre students are encouraged to participate in theatre production activities each semester.

4. In addition to the major requirements, students must also complete a Minor in Education. The Minor requires 21 hours including 6 hours in TH that count toward this requirement. All coursework must be completed prior to EDST 4380 and EDST 4381.

5. Teacher certification students in Theatre must maintain an overall GPA of 2.75, a major GPA of 2.75, and a GPA of 2.75 in all required education courses as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor. Students who fail to do so will be advised into another program.

6. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

**Total Hours: 125**

1 Non-specified advanced TH classes are chosen in consultation with academic advisor.

2 During the summer between their junior and senior years, B.F.A. Teacher Certification majors take TH 4365, TH 4327, and TH 4320.

### Admission Requirements

1. The Bachelor of Fine Arts (B.F.A.) degree with a major in Theatre with a concentration in Technical Production requires admission to the university and admission to the program. For more information
Minor in Dance

visit: http://www.theatreanddance.txstate.edu/Undergraduate-Degrees/BFA-Theatre–Technical-Production.html

2. Admission to the B.F.A. with a major in Theatre with a concentration in Technical Production is based on successful completion (with a grade of C or better) in TH 1350 and in TH 2330. Upon successful completion of these two courses, the student will be allowed to enroll in TH 3390 and, in some cases, may be concurrently enrolled in TH 2330 and TH 3390.

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. All Theatre students are encouraged to participate in theatre production activities each semester.
3. Students must complete a minimum of 60 hours in Theatre courses, of which 36 are required.
4. A grade of "C" or better is required in all Theatre courses.
5. Students in this emphasis are encouraged to complete a non-course based internship during the summers after their Sophomore and Junior years.
6. Students in the program will be evaluated after each semester by Technical Production faculty and staff to assess progress and determine continuation in the program. Students must maintain a minimum GPA of 2.5.

**Department Chairs/Program Chairs/School Directors**

Medical Laboratory Science—Rodney E. Rohde, Ph.D.
Communication Disorders—Lori L. Stritz, M.A. (Interim Chair)
Health Administration—C. Scott Kruse, Ph.D.
Health Informatics and Information Management—David L. Gibbs, Ph.D.
Nursing—Theresa Garcia, Ph.D. (Interim Director)
Physical Therapy—Karen Gibbs, Ph.D. (Interim Chair)
Radiation Therapy—Megan L. Trad, Ph.D.
Respiratory Care—S. Gregg Marshall, Ph.D.

The College of Health Professions prepares students for careers in the healthcare field. Through its professional, technical, clinical and academic programs, the college serves as an advocate for change and technical improvement in the field. The college also serves as a catalyst to expand and improve public perceptions of healthcare.

Undergraduate programs are available in clinical laboratory science, communication disorders, healthcare administration, health information management, health sciences, nursing, radiation therapy, and respiratory care. Graduate programs are offered in communication disorders, healthcare administration, health information management, nursing, physical therapy, and respiratory care. The college has a number of cooperating teaching sites with more than 1200 affiliations with hospitals and other healthcare facilities.

All programs offered in the College of Health Professions, except the B.S. with a major in health sciences, have specific admission requirements in addition to Texas State admission requirements. Most programs also have requirements for student liability insurance and immunizations. Background checks and drug testing may be required.

**Academic Advising Center**
Encino Hall, Room 302
T: 512.245.3506 F: 512.245.1615
www.health.txstate.edu/advising (http://www.health.txstate.edu/advising/)

The College of Health Professions Undergraduate Academic Advising Center provides academic advising to current and prospective undergraduate students considering a major in the College of Health Professions. Academic advisors provide guidance and information to current and prospective students regarding the selection of an undergraduate major or minor, program admission requirements, long term planning for degree completion and career goals, and campus resources to assist students in achieving their goals.

**Health Sciences (HS)**

**HS 3374. Principles of Accounting for Healthcare Managers.**
This course provides an introduction to accounting useful in healthcare facilities and agencies, and demonstrates the application of accounting principles and techniques in the healthcare field.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**HS 4327. Legal Concepts of Healthcare.**
This course provides an overview of legal, regulatory, and ethical issues in healthcare. Topics include patient consent, privacy, confidentiality, torts, contract law, corporate liability, employment, labor, malpractice, antitrust, fraud and abuse, and key federal regulations. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

**HS 4379. Introduction to Financial Management for Health Sciences.**
This course is designed to prepare health professionals for managerial positions in healthcare organizations by providing sufficient knowledge of industry financial matters so they can provide input to the organization’s chief executive officer.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Encino Hall Room 350-B

Facebook: www.facebook.com/txstate.cls (https://www.facebook.com/txstate.cls/)
Twitter: @TXST_CLS

The Bachelor of Science in Clinical Laboratory Science (BSCLS) degree with a major in Clinical Laboratory Science prepares students to function as clinical laboratory scientists (medical laboratory scientists) or medical technologists in a wide variety of settings from physician office laboratories to modern tertiary care hospital laboratories. The clinical laboratory scientist can become an indispensable top-level laboratory worker, a supervisor, a specialist, a researcher, or an educator.

The requirements during the first two years of study include courses in biology, chemistry, and mathematics, along with courses in the humanities and social and behavioral sciences. The junior and senior years combine clinical experiences in the affiliated clinical laboratories with advanced academic study in the CLS disciplines.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Graduates of the program are eligible to take the national certification examination for the Medical Laboratory Scientist (MLS) given by the Board of Certification of the American Society for Clinical Pathology (ASCP).

**Immunization Requirements**

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider. Certain Immunizations are required prior to beginning classes in the CLS program and before the student can be placed in a clinical or internship assignment. Information on these requirements and forms may be obtained through the program office.

**Background Check and Drug Screening**

Prior to beginning classes in the CLS program, students are required to have a background check. As a condition for placement in professional
practice sites, students will be required to have a and drug screening and meet other requirements set by individual sites. Information on the background check and drug screening process will be provided by the CLS Program.

**Clinical Placement (rotation) Requirements**

The Clinical Laboratory Science (CLS) Program at Texas State provides clinical placements for all CLS students entering the clinical year (senior year / 2nd year of post baccalaureate) in good academic standing. Clinical placements are carefully and methodically assigned while taking into account transportation issues, types of clinical affiliates, and student characteristics. In the event a clinical affiliate is unable to fulfill their prior obligation, alternative clinical rotations will be sought at other affiliate institutions. In the very unlikely event alternative clinical rotations are unable to be secured; affected students will be reassigned to the first available rotation site. The next available clinical rotation will occur as soon as possible but no later than one year from the time the rotation was cancelled. If the clinical rotation cancellation occurs after clinical rotations have commenced, the affected student will be placed first in the queue to receive the first available clinical rotation slot that will occur no later than one year after the cancellation. If the clinical rotation cancellation occurs prior to the start of clinical rotations, affected students will be selected based on GPA calculated from performance in the CLS courses. Students with the lowest GPAs will be required to relinquish their clinical rotation slots which will delay clinical rotations.

**Bachelor of Science in Medical Laboratory Science (B.S.M.L.S.)**

- Major in Medical Laboratory Science (p. 415)

**Courses in Clinical Laboratory Science (CLS)**

CLS 3305. Introduction to Clinical Laboratory Techniques.
Clinical Laboratory Science students will be introduced to techniques, procedures, and instrumentation commonly used in clinical laboratories. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions|Lab Required|Writing Intensive
Grade Mode: Standard Letter

CLS 3323. Clinical Microscopy and Analysis of Body Fluids.
Study of body fluids present in the various anatomical compartments of the body as they differ in health and disease. Physical and chemical tests, and microscopic examination of select body fluids are performed.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 3326. Medical Parasitology.
This course includes lecture and laboratory instruction in medically important parasites producing disease in humans with emphasis on epidemiology, life cycles, identifying characteristics, and pathology of these parasites.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions
Grade Mode: Standard Letter

CLS 3410. Clinical Chemistry I.
This course is designed to acquaint the clinical laboratory science student with some of the concepts, techniques, procedures, and instrumentation used in clinical chemistry.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 3412. Hematology/Coagulation I.
This course includes qualitative and quantitative evaluation of formed elements of the blood and studies in coagulation abnormalities.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 3424. Clinical Immunology.
Principles of immune response and underlying immunologic procedures of diagnostic value are discussed. Lectures and laboratory emphasize detection, identification, nature of antigens and antibodies, and the antigen-antibody reactions encountered.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 4177A. Community Health Education through Laboratory Science.
This service learning course is designed to teach students about best practices in community health and community health education from a laboratory science perspective. Students will learn about cultural humility in healthcare, social determinants of health, and how clinical laboratory professionals can be integrated into a variety of public health initiatives.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tu - Health Professions|Topics
Grade Mode: Credit/No Credit

CLS 4225. Laboratory Management and Supervision.
Lectures and discussions of general principles of management and supervision of the clinical laboratory and its personnel. (WI).
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu - Health Professions|Writing Intensive
Grade Mode: Standard Letter
CLS 4241. Molecular Diagnostics.
This course consists of an introduction to the principles, methodologies, and applications of molecular diagnostic procedures used in clinical laboratories. Emphasis is placed on the procedures used in the identification of infectious agents that cause human disease, the diagnosis of inherited diseases, and the diagnosis of cancer.
2 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

CLS 4318. Hematology II.
In-depth study of theoretical and practical aspects of clinical hematology and hemostasis with emphasis on principles, methodology, problems encountered, and clinical applications.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 4321. Directed Study in Clinical Laboratory Science.
An indepth study of a narrow range of topics or a related problem in the clinical laboratory sciences. Topics to be announced; may be repeated for credit when topics vary.
3 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions|Lab Required
Grade Mode: Credit/No Credit

CLS 4333. Bridge to Clinical Practice.
This course includes the study of professional and technical requirements for clinical laboratory science students and their role as part of the healthcare team. Students will demonstrate entry-level technical competency. The student’s knowledge of all course material presented from the beginning of the CLS program through the spring semester will be evaluated. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

CLS 4340. Clinical Microbiology II.
Study of medically important fungi, viruses, chlamydiae, rickettsiae, and advanced topics in clinical microbiology. Automated identification of microorganisms, database management, and epidemiologic techniques will be discussed.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 4341. Molecular Diagnostics.
This course consists of an introduction to the principles, methodologies and applications of molecular diagnostic procedures used in clinical laboratories. Emphasis is placed on the procedures used in the identification of infectious agents that cause human disease, in the diagnosis of inherited diseases, and the diagnosis of cancer.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

Directed independent research covering the principles of research and development of clinical laboratory methodology. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required|Writing Intensive
Grade Mode: Standard Letter

CLS 4364. CLS Clinical Practice II.
This course offers a continuation of CLS Clinical Practice I which includes structured clinical experience assigned on an individual basis for observation, study, and practical application of techniques and methodology in the clinical laboratory.
3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

CLS 4370. Clinical Chemistry II.
A study of the theoretical and practical aspects of clinical chemistry. Manual and automated laboratory procedures for quantitative analysis of various body fluids.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 4440. Clinical Microbiology I.
Study of pathogenic and nonpathogenic bacteria, fungi, and viruses with special emphasis on methods of isolation from body fluids, cultural and differential biochemical characteristics of body pathogens.
4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CLS 4460. Immunohematology.
Study of theoretical and practical consideration of major blood groups with emphasis on grouping and typing, antibody detection and identification, compatibility testing and component therapy in blood transfusion service.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter
CLS 4463. CLS Clinical Practice I.  
Structured clinical experience assigned on an individual basis for observation, study, and practical application of techniques and methodology in the clinical laboratory.  
4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions  
Grade Mode: Standard Letter  

CLS 4465. CLS Clinical Practice II.  
This course exposes students to structured clinical experiences assigned on an individual basis for observation, study and practical application of techniques and methodology in the clinical laboratory. This course exposes students to real life situations not available in a didactic classroom or student laboratory. In addition, it also provides a review of previously learned didactic courses.  
4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions  
Grade Mode: Standard Letter  

Minimum required: 120 semester credit hours  

Admission Requirements  
1. The Bachelor of Science in Medical Laboratory Science (B.S.M.L.S.) degree with a major in Medical Laboratory Science requires admission to the university and admission to the program. For more information visit: http://www.health.txstate.edu/cls/degrees-programs/undergraduate.html  
2. University application deadlines are different than the Medical Laboratory Science (M.L.S.) program deadline. Any student entering Texas State may declare the bachelor of science with a major in health sciences and a Pre-Medical Laboratory Science concentration as their major. It is recommended that students arrange academic advising at least once prior to making application, and, if possible, arrange to learn about the profession through clinical laboratory tours, personal research, and interviewing a practicing M.L.S. professional. Admission and acceptance to Texas State and declaration of a pre-M.L.S. concentration does not guarantee admission to the B.S.M.L.S. program. Admission to the program is competitive and selective. The academic sequence begins during the fall semester of the junior year. Students are selected in the spring semester of their sophomore year. Enrollment is limited by student/faculty ratios and clinical placement availability.  
3. The deadline for submission of applications to the M.L.S. program is February 15th. A typical cohort size of 20 students will be admitted. Applicants will be notified of their status by April 30th or sooner. The criteria for student selection for the junior class includes scholastic ability, particularly in the sciences, essays, and a personal interview, and not on the basis of gender, race, color, religion, veteran status or condition of disability, or national origin. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program to qualify for admission.  
4. Potential applicants are encouraged to complete the University process early (six to eight weeks prior to the M.L.S. application deadline of February 15th) to facilitate review of transcripts during the M.L.S. program application process.  
5. A minimum overall GPA and science and mathematics GPA of 2.50; however, an overall GPA and a science and mathematics GPA of 3.0 is recommended in order to be competitive in the application process. Applicants must be in good academic standing to apply to the M.L.S. Program. Students on academic probation or suspension will not be considered. The science and mathematics GPA is calculated based on grades in the following nine courses which must be completed prior to submitting the M.L.S. application:  

<table>

or MATH 1329 Mathematics for Business and Economics II  
or MATH 2321 Calculus for Life Sciences I  
or MATH 2417 Pre-Calculus Mathematics  
or MATH 2471 Calculus I  

6. Science and mathematics courses require a minimum grade of "C" or higher.  
7. Students may have a maximum of nine hours of core and prerequisite coursework remaining prior to beginning the M.L.S. program.  
8. Completion of the M.L.S. application packet for admission is required by the deadline (February 15th).  
9. Successful interview of selected candidate with admission committee is also required.  
10. Health records and a background check are necessary before being allowed to start the program. Specific immunizations and drug testing are necessary before clinical placements.  

General Requirements  
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.  
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).  
3. Nine hours of writing intensive (WI) courses are required for graduation.  
4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.  
5. To graduate with a B.S.M.L.S., students must successfully complete all MLS courses in a lock-step sequence with a “C” or higher. Each MLS course is offered only once each academic year; therefore, progress in the program is affected should a student fall out of the sequence due to failure to successfully complete a course. A student who falls out of sequence (whether due to illness, course failure, or other reasons) will be delayed one year to repeat the course. Students with a grade of less than a “C” in a MLS course will be stepped out.
of the program and individuals must reapply to the program the following year. To be considered for program readmission, all original program admission criteria and an approved schedule for retaking courses must be met. In addition, a student may repeat a MLS course only once. If the student does not earn a grade of at least "C" upon repeating the course, the student cannot continue in the program.

6. All non-MLS courses must be completed prior to the senior year, 2nd semester (spring), due to students beginning off-campus clinical rotations.

7. Requirements for B.S.M.L.S. completion and graduation include a Texas State GPA of 2.0 with a MLS major GPA of 2.25.

8. During the second semester (spring) and final semester (summer) of the senior year, students are required to successfully complete five clinical laboratory rotations/experiences in MLS Clinical Practice courses. These courses require that the students spend clinical time in other facilities, primarily hospitals and reference laboratories, away from campus. Students must furnish their own transportation, and if necessary, housing. Because of the time and distances involved, typically no courses other than those listed in the MLS Program can be taken in the final two semesters of the senior year.

The Department of Communication Disorders, located in Round Rock, is dedicated to excellence in teaching, research, and clinical practice in speech-language pathology and audiology. We are committed to innovative instruction, expansion of knowledge, and community-based collaboration to create a vibrant and supportive learning community that engages and inspires students, faculty, staff, and clients. Advanced clinical and educational training, grounded in evidence-based practices (EBP) and practice-based practices (PBP), prepares students in the undergraduate program for entry into graduate school.

The Department of Communication Disorders provides undergraduate students with the academic background to successfully enter a graduate program in speech-language pathology or audiology. The undergraduate curriculum provides knowledge in normal and disordered speech, language, swallowing and hearing processes. Coursework in the major is supported by additional courses in psychology, counseling, biology, physics, and statistics.

### Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must document current, specific immunizations before the student can be placed in a clinical or internship assignment in their respective program. Information on these requirements and forms to be supplied may be obtained through the school office.

### Background Check

As a condition for participation in clinical aiding, in which direct client contact is required, students are required to have a background check. Information on the background check process will be provided by the department. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

## Bachelor of Science in Communication Disorders (B.S.C.D.)

- Major in Communication Disorders (p. 419)

### Courses in Communication Disorders (CDIS)

#### CDIS 1331. Introduction to Communication Disorders.

Study of speech, hearing, and language development and its disorders; descriptions of communicative disorders and their etiologies for the speech-language pathologist, health professional, and classroom teacher.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

#### Course Attribute(s):

- Dif Tui- Health Professions

#### Grade Mode:

- Standard Letter
CDIS 3312. Neuroanatomy for Communication Disorders.  
This is a lecture course that examines the organization of the brain, spinal cord, and peripheral nervous system. Significance of the areas of the nervous system that are primary or secondary for speech, language and hearing are the main focus of this course.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions  
Grade Mode: Standard Letter

CDIS 3325. Anatomy and Physiology of the Speech Production System.  
Description of structure and function of the speech production system with emphasis on physical problems in speech, language, and hearing.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions  
Grade Mode: Standard Letter

CDIS 3459. Phonetics.  
The course is designed to analyze normal and abnormal phonological processes in children and adults. Proficiency in transcription using the alphabet of the International Phonetic Association is emphasized.  
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Dif Tui- Health Professions|Lab Required|Writing Intensive  
Grade Mode: Standard Letter

CDIS 3462. Speech Sound Disorders.  
The study of principles and procedures for the identification, description, assessment, and treatment of speech sound disorders in children. Students will observe demonstrations of assessment and treatment procedures during lab. (WI) Prerequisites: CDIS 3325 and CDIS 3459 both with grades of "C" or better.  
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions|Lab Required|Writing Intensive  
Grade Mode: Standard Letter

CDIS 3469. Hearing Science.  
The study of acoustics, auditory physiology and perception of sound. Includes discussion of auditory sensitivity, signal detection, psychoacoustic methods, perception of pitch and loudness, binaural hearing and speech perception. Associated laboratory promotes reinforcement of concepts addressed in lecture through review, problem solving and weekly assignments.  
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions|Lab Required  
Grade Mode: Standard Letter

CDIS 3475. Speech Science.  
Normal processes of speech production will be addressed from anatomic, physiologic, kinematic, aerodynamic, acoustic, and perceptual perspectives. Measurement and analysis techniques, instrumentation, and experimental paradigms used to study speech production and perception will be emphasized. Prerequisites: CDIS 3325 and CDIS 3459 both with grades of "C" or better.  
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions|Lab Required  
Grade Mode: Standard Letter

CDIS 4301. Advanced Independent Study.  
In-depth study of selected topics in Communication Disorders for the exceptionally motivated student. Work done on an independent basis with faculty member and only with prior departmental permission.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions  
Grade Mode: Standard Letter

CDIS 4317. Service Delivery in Communication Disorders.  
Provides a foundation of clinical management to prepare CDIS students to work in a variety of settings. Emphasis will be placed on techniques of goal and objective sequencing, report writing, evaluation of services, ethics, and interdisciplinary collaboration. Prerequisite: CDIS 3462 and CDIS 4330 and [CDIS 4350 or CDIS 4466] all with grades of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive  
Grade Mode: Standard Letter

CDIS 4330. Speech and Language Development.  
Course to acquaint students with acquisition of speech and language in children. Basic information from linguistics, psycho-linguistics, psychology, and communication are examined for children in various stages of development.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions  
Grade Mode: Standard Letter

CDIS 4335. Bilingual Speech Sound Disorders.  
Typical development of Spanish-English bilingual/bidialectal children's articulation and phonology will be discussed. Assessment and intervention of articulation and phonology with bilingual/bidialectal children will also be addressed. The information and theoretical foundations serve as a guide for students to critically evaluate and clinically apply research in bilingual populations. Prerequisite: Instructor approval.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Health Professions  
Grade Mode: Standard Letter
CDIS 4370. Aural Rehabilitation.
Principles and procedures in the habilitation and rehabilitation of hearing impaired children and adults. (Wi) Prerequisites: CDIS 4420 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

CDIS 4371. An Introduction to Stuttering and Voice Disorders.
This is an introductory course on childhood-onset stuttering and voice disorders. Specific to stuttering, students will learn the etiology, assessment and treatment of childhood-onset stuttering. Specific to voice disorders, students will learn the basic anatomy and physiology of voice, normal voice, types of voice disorders, their assessment and treatment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

CDIS 4379. International Multicultural Experience in Communication Disorders.
This is an Education Abroad opportunity where students compare and contrast speech-language-hearing service delivery models in the United States with those from different countries. Emphasis is on social, linguistic and cultural factors that impact assessment and treatment of communication disorders. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

CDIS 4344. Clinical Practicum in Communication Disorders.
Supervised clinical practicum in speech-language pathology. Must be taken each semester student participates in any supervised clinical practicum in speech-language pathology. Prerequisites: CDIS 1331 and CDIS 3459 and [CDIS 3462 or CDIS 4466] all with grades of "C" or better. Corequisite: CDIS 4330 with a grade of "C" or better.
3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Developmentally Intensive
Grade Mode: Credit/No Credit

CDIS 4345. Survey of Neurogenic Communication Disorders.
An introduction to acquired speech, language, cognitive and swallowing disorders resulting from brain injury. Basic neuroanatomy and physiology are reviewed, followed by discussion of the etiology, diagnosis, treatment, and prognosis of these disorders. Emphasis is placed on aphasia, motor speech disorders, right hemisphere syndrome, traumatic brain injury, dementia and dysphagia. Prerequisite: CDIS 3312 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

CDIS 4350. Survey of Neurogenic Communication Disorders.
The study of principles and procedures for the identification, description, assessment and remediation of language disorders in infants, children, and adolescents. Students will observe demonstrations of assessment procedures and types of language disorders within the context of clinical procedures. Describing observed behaviors and analyzing language samples will be emphasized. Prerequisite: CDIS 3312 with a grade of "C" or better.
4 Credit Hours. 4 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CDIS 4420. Diagnostic Audiology.
This course is designed to relate anatomy and physiology of the auditory system and the science of acoustics to the study of normal and pathological auditory function. Laboratory experience in administration and interpretation of audiological tests. Discussion of professional opportunities in the field of audiology and provision of audiological service to special populations will be held. Prerequisite: CDIS 3469 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CDIS 4466. Language Disorders.
The study of principles and procedures for the identification, description, assessment and remediation of language disorders in infants, children, and adolescents. Students will observe demonstrations of assessment procedures and types of language disorders within the context of clinical procedures. Describing observed behaviors and analyzing language samples will be emphasized. Prerequisite: CDIS 3312 with a grade of "C" or better.
4 Credit Hours. 4 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

CDIS 4680. International Multicultural Experience in Communication Disorders.
This is a Study Abroad opportunity allowing students to compare speech-language-hearing clinical and educational models in the United States with those from other countries. Emphasis is on social, linguistic, economic and cultural factors that impact assessment and treatment. This course combines time-on-campus with a multi-week, international learning experience. (MULT).
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions|Multicultural Content
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

Admission Requirements

1. The Bachelor of Science in Communication Disorders (B.S.C.D.) degree with a major in Communication Disorders requires admission to the university and admission to the program. For more information
visit: http://www.health.txstate.edu/cdis/prospective-students/Admissions.html

2. Students start out as Bachelor of Science in Health Sciences, pre-communication disorders concentration majors. Once the student is accepted into the Junior/Senior sequence, the major becomes Communication Disorders (CDIS)

3. Admission to the CDIS junior/senior-level courses is competitive and selective. Enrollment is limited by student/faculty ratios in both academic and clinical components of the program.

4. Students must be in overall good standing to apply.

5. An overall GPA of 3.0 is required to be considered for admission.

6. The application for admission is submitted to the department by May 15th. Admission decisions are made after the end of Summer I. All students will be notified by letter of the CDIS. Undergraduate Admission Committee's decisions. Student selection is made on academic performance and not on the basis of race, color, religion, gender, age, or national origin.

7. Students must have completed a minimum of 50 hours of courses from the freshman and sophomore courses listed on the CDIS degree plan. The 50 hours must be completed before the end of the Summer 1 session in the same academic year in which the student wishes to begin the Junior/Senior sequence.

8. A minimum grade of C in support and major classes listed as part of the freshman/sophomore years in the plan below. These classes must be completed by the end of the Summer 1 session in the same academic year in which the student wishes to begin the junior/senior sequence.

9. Students are ranked by their GPA in the following five required classes and admission to the junior/senior year is based on this ranking. Preference for admission is given to students who have not repeated any of the five courses. These classes must be completed by the end of the Summer 1 session in the same academic year in which the student wishes to begin the Junior/Senior sequence. The following courses must be taken in the 50 hours to be considered for admission:

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

5. Students must have attained a major GPA of 2.75 to graduate.

6. The junior/senior-level CDIS course sequence begins during the fall semester only. CDIS courses must be taken in the sequence identified in the degree plan.

7. After admission into the Junior/Senior sequence, failure to enroll in all of the recommended CDIS courses for that semester as identified by an advisor in conjunction with the Degree Plan will delay graduation at least a year.

8. If a student has not earned the minimum major GPA requirement of 2.75 for graduation and has not earned “C” or higher in all CDIS courses, the student will be allowed to re-take CDIS courses only until the student achieves the GPA of 2.75. CDIS students are NOT permitted to re-take CDIS courses if they have earned C's or higher in the courses. If a grade below “C” in a junior- or senior-level CDIS courses is earned, the student will not be allowed to continue as a Communication Disorders student and must change majors to something other than CDIS. This change will be done in conjunction with the student's CDIS academic advisor and the College of Health Professions' Advising Center.

Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare professional.
provider and must take certain immunizations before the student can be placed in a clinical or residency assignment. Information on these requirements and forms to be supplied may be obtained through the school office.

Background Check and Drug Screening
As a condition for placement in all professional practice sites, students are required to have a background check and/or drug screen to meet requirements set by individual sites. Information on the drug screening process will be provided by the School of Health Administration. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code will affect eligibility for placement in field experience.

Bachelor of Healthcare Administration (B.H.A.)
- Major in Healthcare Administration (p. 424)

Minor
- Healthcare Administration (p. 427)

Subjects in this school include: HA (p. 422), HP (p. 424)

Courses in Healthcare Administration (HA)

HA 3308. Healthcare Organization.
Overview of the healthcare system and the role hospitals have played and continue to play in the future. Analysis of organizational structure of a hospital and other healthcare agencies, administrative and management elements necessary for policy determination, decision making, and control to achieve institutional goals and objectives.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 3309. Ethics in the Health Professions.
This course introduces the student to a sound foundation in well-established ethical theories and a familiarity with terms, concepts and issues in ethics as applied to the health professions. Also provides practical methods for proceeding from considered reflection to informed action in solving ethical problems. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

HA 3311. Independent Study in Healthcare Administration.
An in-depth study of a single topic or problem confronting the healthcare industry. This course affords the student an opportunity to focus on a topic/problem or group of related problems impacting healthcare managers. This course may be repeated for credit with a different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 3315. Healthcare Administration History, Culture, and Language.
An introduction to the historical and cultural development of modern healthcare administration in contemporary American society. Special attention is given to the mores of health services delivery including critiques and use of professional behavior and language. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Multicultural Content
Grade Mode: Standard Letter

Introduction to the following functions of supervisory management: planning, organizing, staffing, influencing, and controlling; as well as the connective processes of decisionmaking, coordinating, and communicating in healthcare organizations. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

HA 3329. Human Resources in Healthcare Management.
Human resource management as applicable to the healthcare field. Course will cover human resource planning, staffing, job requirements, job descriptions, sources of labor supply, training and education programs, salary administration, employee communications, legal considerations, union-management relations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 3340. Management of Health Information Systems.
Provides an introduction to information systems for healthcare facilities and agencies. Covers determining what information is needed by whom; designing information flows, procurement of computer/telecommunication resources, assuring information security, and continuing management of information systems supporting healthcare delivery.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
HA 3341. Project Management & Professional Development in Healthcare.
This course examines the professional development and project management processes as applied to the healthcare industry. Emphasis is placed on staff development, needs analysis, task analysis, development of training and continuing education programs for healthcare personnel. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

HA 3344. Patient Care Management & Quality Improvement in Health Care Integrated Delivery Systems.
This course is an introduction of integrated delivery systems and their operations. It includes an examination of patient care management and the patient experience. A framework for understanding healthcare quality efforts is also an integral part of the course.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

This course includes a review of the laws pertaining to healthcare institutions, physicians, and other healthcare workers who contribute to patient care. Tort and contract law are emphasized. The course addresses policy issues and ethics through topics like patient rights, reproduction, and end of life decisions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

Provides an introduction to accounting useful in healthcare facilities and agencies, and demonstrates the application of accounting principles and techniques in the healthcare field. Prerequisite: HP 3325 and [ECO 2301 or ECO 2314] both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

A concentration in the fundamentals of healthcare financial management including the financial organization of nonprofit facilities, sources of operating revenue, management of working capital, and the allocation, control and analysis of resources. Prerequisite: HA 3375 with a grade of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 4121. Problems in Healthcare Administration.
In-depth study of a singular problem considered to be of immediate concern to the health care industry. Special emphasis is placed on problems unique to managers in the field of health administration. May be repeated with permission of department chair.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 4141. Healthcare Comprehensive Exam Review and Administration including Field Placement Orientation.
A course in which each of the respective faculty will review their portion of the comprehensive examination that all HA majors are required to successfully pass during their final semester of study. The comprehensive exam will be administered at the conclusion of the course. In addition, students will be prepared to move from the classroom setting to a workplace scenario.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

HA 4221. Problems in Healthcare Administration.
In-depth study of a narrow range of topics considered to be of immediate concern to the health care industry. Special emphasis on problems unique to managers in the field of health administration. May be repeated with permission of department chair.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 4305. Healthcare Services Marketing.
The course applies the principles of services marketing to healthcare organizations. The course will present tools to identify and close the gaps that exist between customer expectation of services and the services provided and to ensure quality of health care.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 4315. Health Services Operations Management.
An introduction to methodologies used to seek solutions to health administration problems which affect technical and professional personnel. Designed to place emphasis on techniques most directly applicable to models of administration and management decision making.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter
HA 4318. Employment Law in Healthcare Management.
This course examines the legal aspects of healthcare human resource management. Each of the major federal and state enactments impacting human resource management will be studied in depth. Prerequisite: HA 3329 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HA 4320. Seminar in Healthcare Administration.
Current trends and problems in health administration affecting health administration technical and professional personnel. Designed to place emphasis in selected areas of administration and management. Research paper and presentation is required of each student. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

HA 4322. Public Health Administration.
This course introduces the healthcare manager to public health and its role in preventing illnesses and improving the health of the community. Students will learn about the role of the manager in disease prevention and how to participate and lead community efforts for the wellness of the community.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

This capstone class integrates accounting, finance, marketing, MIS, and organizational behavior in the creation of sustainable competitive advantage. Health care case studies will be used to illustrate key concepts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

HA 4441. Practicum Internship B.
Studies tailored to particular interests and needs of individual students. A variety of experiences may be used to enrich the program for students with special needs or demonstrated competencies. This course is taken in the final semester of study.
4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

Designed for students who have limited or no previous background in healthcare management/administration. Includes rotation through selected major departments, culminating in a major project. This course is taken in the final semester of study.
8 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

Courses in Health Professions (HP)

HP 3302. Biostatistics.
The course introduces major statistical concepts and procedures as applied to clinical science students with an emphasis on inferential statistics. Topics include: descriptive statistics, hypothesis testing, comparison statistics, relationship statistics, association statistics, and beginning epidemiological ratios. Students are introduced to major statistical packages. Prerequisite: MATH 1315 or MATH 1319 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

The course introduces major statistical concepts and procedures as applied to healthcare administration students with an emphasis on descriptive statistics. Topics include: healthcare statistical terminology, descriptive statistics, hypothesis testing, comparison statistics, relationship statistics, and association statistics. Prerequisite: MATH 1315 or MATH 1319 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

HP 4440. Practicum Internship A.
Students with specialization in management participate in a health services based practicum. Experiences in providing opportunities for observation, participation, and practical application of administrative or management skills in the institutional setting are required. Must have a 2.25 major GPA and have completed all junior year major courses.
4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

Minimum required: 120 semester credit hours

Admission Requirements

1. Any student admitted to Texas State may declare Pre-Healthcare Administration as the major. To declare Pre-Healthcare as a major, contact the Health Professions Advising Center or School of Health Administration.

2. Continuation into the Healthcare Administration major is guaranteed to students who:
   a. have an overall GPA of 2.00;
   b. are in good academic standing at Texas State;
c. have successfully completed their general education core curriculum; and
d. have completed the following support courses with a "C" or higher: MATH 1315 or an equivalent, ECO 2301 or 2314, HP 3325 or an equivalent, and HA 3308.

3. To declare Healthcare Administration as the student’s major and continue into junior level, first semester Healthcare Administration courses, the student must complete a change of major form with the School of Health Administration. Students can begin their junior level, first semester Healthcare Administration courses in a fall or spring semester only.

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

5. All students are required to complete a residency for the B.H.A. The Joint Commission requires accredited healthcare facilities to complete criminal background checks on all employees. Therefore, a background check is required during your 3rd semester (enrollment in HA 4141) prior to the residency semester. If there is any reason that could prevent your placement at a facility, you will be asked to meet with the B.H.A. Program Director and/or the Field Placement Coordinator to determine if you will be able to complete the residency requirement. Issues with the background check could impact residency placement and ability for employment in the healthcare industry.

6. All students must pass an EXIT exam administered in HA 4141.

7. All students are required to have attained a grade of "C" or higher in each HA course. Students are required to take HA courses in a prescribed sequence. All 3000-level courses must be completed before enrolling in any 4000-level courses. All 4000-level courses must be completed before enrolling in field placement.

8. Students are allowed to repeat each HA course once, and only once, to improve their grade. In the event that B.H.A. students do not make a "C" or better when repeating a course, they will be suspended from the major. B.H.A. students suspended from the B.H.A. program have a right of appeal and should contact the B.H.A. Director.

9. All students are required to pass an EXIT exam administered in HA 4141 before enrolling in field placement.

10. All students must have attained a 2.00 Texas State GPA or better and 2.25 HA GPA or better.

The minor in Healthcare Administration requires 18 semester credit hours. The Healthcare Administration minor is designed to complement the student’s major with the objective of providing an introductory curriculum, which can assist the student in gaining employment in healthcare and healthcare related career fields. This objective can be achieved by building on general education core foundations; offering scheduling flexibility for non-traditional students; introducing students to health services management functions through the mastery of certain skills including communication, decision-making, and coordination, unique to healthcare administration; and preparing students for graduate study. The minor requires 18 hours including:

**Code** | **Title** | **Hours**
---|---|---
HA 3308 | Healthcare Organization | 3
HA 3324 | Supervisory Management for Healthcare Managers | 3
HA 3347 | Essentials of Healthcare Law | 3

**Total Hours:** 18

1. HA 3308 must be taken prior or concurrent with other HA courses.

Health Information Management (HIM) improves the quality and efficiency of healthcare delivery through the management and application of information and technology. HIM programs prepare students to work in a digital health profession which focuses on health data, analytics, information governance, health informatics, compliance, privacy, cybersecurity, artificial intelligence, and the management of associated resources and technology. The HIM profession addresses the structure, application, and translation of data into usable forms of information such as the electronic health record (EHR), required by interdisciplinary healthcare teams to improve patient outcomes.

Graduates from the Bachelor of Science in Health Information Management (BSHIM) program work in multiple settings throughout the healthcare industry and beyond. These settings include the continuum of care delivery organizations such as hospitals, clinics, physician practices, long-term care, mental health, and other ambulatory care facilities. The profession has recently seen significant expansion in nonpatient care settings, with careers in managed care, insurance companies, electronic health record systems vendors, cybersecurity firms, consulting services, government agencies, higher education institutions, and pharmaceutical companies. With a strong component of online information exchange, many HIM professionals can work remotely either part-time or full-time.

BSHIM graduates are well prepared to continue their studies in graduate-level programs in HIM, health informatics, data analytics, or other related disciplines. The department offers a fully online Master of Health Information Management (MHIM) degree with a variety of options and concentrations.

The BSHIM program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). Upon completion of the degree, graduates of the program are eligible to sit for the Registered Health Information Administrator (RHIA) examination offered by the American Health Information Management Association (AHIMA).
The department is also recognized by the Healthcare Information and Management Systems Society (HIMSS) as an Approved Education Partner.

The department offers a Minor in Health Information Management and a Minor in Health Informatics. The minor programs fit well with majors in Health Sciences and other disciplines in the College of Health Profession and across university. The minor programs do not establish eligibility for the RHIA credential. Students completing the BSHIM degree automatically qualify for the Minor in Health informatics which is comprised of courses built into the major.

The BSHIM degree is offered in multiple delivery format options: traditional in-person, face-to-face courses on the Round Rock Campus and fully online. All options lead to the same degree and have the same academic requirements. Fulltime students may complete the BSHIM degree in four years.

The curriculum is organized as a two-plus-two program with completion of general education core curriculum and program prerequisite coursework prior to beginning the two-year professional phase. Once qualified for the professional program, the final two years consist of the required HIM coursework reinforced with a professional practice experience assignment at an appropriate affiliated site. Students who have achieved the Registered Health Information Technician (RHIT) credential or graduated from a CAHIIM accredited HIT program may qualify to receive academic credit toward the BSHIM degree for previous coursework.

Immunization Requirements
It is a policy of the College of Health Professions that each student must provide a Health Report form completed by a physician or licensed healthcare provider, providing evidence of specific immunizations before the student can be placed in a professional practice experience assignment. Information on these requirements and forms may be obtained through the Department of Health Information Management.

Background Checks and Drug Screening
As a condition for placement in professional practice experience sites, students may be required to have a background check and/or drug screening and/or meet other specific requirements as set by individual sites. Information on these requirements may be obtained through the Department of Health Information Management.

Courses in Health Informatics (HI)

**HI 3310. Health Informatics.**
This course provides an introduction to health informatics and information management to include hardware components, systems architecture, operating systems, languages, software applications, tools, electronic health record systems, and related concepts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

**HI 3311. Databases in Healthcare.**
This course provides an overview and introduction to healthcare databases and data management. Topics in the course will include database theory, information infrastructure, and data analytics. Implementing healthcare information systems and decision making will also be examined.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

**HI 4401. Advanced Health Informatics and Security.**
This course includes the integrated use of health information technology throughout the healthcare organization. Students will evaluate how technology impacts the overall hospital operations from both clinical and administrative perspectives. Students will also use planning and assessment tools to simulate health information technology system implementation and explore securing those systems.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

Courses in Health Information Management (HIM)

**HIM 2360. Medical Terminology.**
Recognizing and understanding the vocabulary of the health care professions. Emphasis on medical prefixes, suffixes, and word roots as used in oral and written communications.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

**HIM 3301. Hospitals and Health Systems.**
This course will explore the organizational structure and delivery of healthcare in hospitals and health systems and the associated roles of HIM professionals.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
HIM 3310. Health Informatics.
This course provides an introduction to health informatics and information management to include hardware components, systems architecture, operating systems, languages, software applications, tools, electronic health record systems, and related concepts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 3311. Databases in Healthcare.
This course provides an overview and introduction to healthcare databases and data management. Topics in the course will include database theory, information infrastructure, and data analytics. Implementing healthcare information systems and decision making will also be examined.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 3350. Legal Aspects of HIM.
A study of the legal issues of Health Information Management with focus on statutory and regulatory requirements, case law and practical applications. Special legal problems associated with access to patient information, disposition of records, confidentiality and privacy, reporting requirements and compliance with current state and federal legislation are emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 3364. Coding and Classification Systems.
This course provides an introduction to ICD, CPT and other classifications and nomenclatures. Emphasis will be placed on the assignment of diagnosis and procedure codes. Management and use of encoding systems is examined. Prerequisite: Instructor approval.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

HIM 3367. Disease and Medical Science.
This course provides an introduction to the general disease process. Stress is placed upon the occurrence of disease, the signs and symptoms of disease, the test values and findings of disease, and the therapeutic treatment of disease.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 3380. Quality Management for HIM.
This course provides an overview of regulatory agency requirements for quality improvement, utilization management, and risk management. Methods for integrating these procedures for credentialing and peer review are explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 3390. Principles of Management in HIM.
This course provides a study of the principles of management in healthcare and related organizations. The course provides the opportunity to apply the fundamentals of management including ethical decision making and human resources in the expanded role of the HIM Professional.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 3463. Foundations of Health Information Management.
This course is an introduction to the foundational principles of health information management. The content, structure, processing, use, analysis, and management of the health record will be explored. Instruction will include the use of the electronic health record and other common health information management software applications.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 4101. Problems in Health Information Management.
Comprehensive study of selected problems related to professional practice issues and changes in the health information management field. Emphasis will be on problem solving and application of management skills. May be repeated with permission of department chair.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

This course applies the principles of Information Governance to guide the HIM professional’s evolving role in the transition from paper to electronic health records and managing the increasing volume of electronic health data. Topics include data architecture, analytics, integrity, quality and decision support; enterprise content management; and consumer informatics. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter
HIM 4331. Research and Data Analytics for HIM.
This course provides an introduction to research methods and experimental inquiry to acquaint the student with skills to critique and conduct studies in the health information management domains. The course will also provide the foundation for compiling, analyzing, and displaying statistics related to the delivery of healthcare.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 4363. Comparative Record Systems.
Theory and procedures for the maintenance and regulation of patient health information records in non-hospital medical care facilities to include long term care, ambulatory care, psychiatric care, rehabilitation and prison record keeping systems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 4364. Coding and Compliance for HIM.
This course provides a continued study of coding and classification systems including the role of mapping among clinical terminologies. Compliance activities and methods will be covered for HIM topics to include code audits, fraud and abuse, and clinical documentation improvement.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

HIM 4370. Finance and Reimbursement Methodologies for HIM.
Course will address the reimbursement cycle from patient registration to claims billing with an emphasis on federal regulations and the role of HIM regarding payment systems. Topics will include accounting principles, budget processes, cost/benefit analysis, healthcare finance, compliance strategies, charge-master and casemix management, and payment systems and plans.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 4383. Seminar in Health Information Management.
Problem-solving course designed to assimilate actual internship encounters and theory. Emphasis is on integration of knowledge and making transition to the applications required to function as a health information manager.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 4385. Health Information Management Practicum.
Assignments made to promote uniformity and competency levels required of entry-level health information management professionals with practical application of administrative, management, and problem-solving skills required to complete projects and portfolio material. (WI).
3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Credit/No Credit

HIM 4388. Practicum.
Faculty-led administrative training for the associate degree health information progression student. Emphasis is placed on analysis of HIM personnel functions, interdepartmental relations, use of health information technology, and committee assignments. Full-time participation of the student is required.
3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Writing Intensive

HIM 4389. Professional Practice Experience.
Supervised management experience and training in a healthcare or related setting. Student will participate in administrative, management, and problem-solving activities in the institutional setting. Full-time participation is required. Option for health information associate degree and post-baccalaureate students. (WI).
3 Credit Hours. 1 Lecture Contact Hour. 40 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

HIM 4390. Contemporary Leadership Principles for HIM.
An analysis of the expanded role of the Health Information Management professional in the healthcare environment and application of the principles involved. Topics include strategic planning and forecasting, marketing, entrepreneurialism, leadership, motivation, consensus building, workforce diversity, change management, work redesign/reengineering, and project management. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Writing Intensive

HIM 4393. Project Management for Health Information Management.
This course provides pragmatic guidance in the management of HIM projects by analyzing critical success factors and skills required to organize, plan, monitor, and control projects in healthcare settings. Cost and schedule estimation techniques are presented together with proposal writing, negotiation, communication, risk management, HIM technology assessment, and quality measurement. (WI) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
HIM 4401. Advanced Health Informatics and Security.
This course includes the integrated use of health information technology throughout the healthcare organization. Students will evaluate how technology impacts the overall hospital operations from both clinical and administrative perspectives. Students will also use planning and assessment tools to simulate health information technology system implementation and explore securing those systems.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

HIM 4501. Professional Practice Experience.
Supervised management experience and training in a healthcare or related setting. Student will participate in administrative, management, and problem-solving activities in the institutional setting. Full-time participation is required in addition to scheduled campus visits. (WI).
5 Credit Hours. 1 Lecture Contact Hour. 40 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Credit/No Credit

Minimum required: 120 semester credit hours

Admission Requirements
1. The Bachelor of Science in Health Information Management (B.S.H.I.M.) degree with a major in Health Information Management requires admission to the university and admission to the program. Any student admitted to Texas State may declare pre-HIM as their major. To declare pre-HIM as a major, contact the College of Health Professions Advising Center. For more information visit: http://www.health.txst.edu/him (http://www.health.txst.edu/him/).
2. Any student meeting the requirements for the HIM major must complete an online application to the program (https://www.health.txst.edu/him/admissions/Application.html). For academic advising, students should contact the College of Health Professions Advising Center or the Department of Health Information Management.
3. Students completing the required courses for the BSHIM major will also earn the built-in Minor in Health Informatics (http://mycatalog.txstate.edu/undergraduate/health-professions/information-management/health-informatics-minor/).
4. Students must have completed the majority of the general education core curriculum and other prerequisite coursework listed below before being allowed to declare the HIM major:

<table>
<thead>
<tr>

5. Students must have a maximum of nine hours of general education core curriculum and prerequisite coursework remaining to declare the HIM major.
6. Students must have a minimum GPA of 2.50 and a minimum 2.0 Texas State GPA to declare the HIM major.
7. Credit for previous HIM coursework, credentials, and/or work experience will require a review of the student's transcripts and approval by the Department Chair.
8. Due to course sequencing and the scheduling of the professional practice experience assignment, students who drop out of the program for one or more semesters will be required to obtain approval from the Department Chair to progress.
9. Immunization Requirements - It is the policy of the College of Health Professions that each student must provide a health report completed by a physician or licensed healthcare provider, and must take specific immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and the required forms may be obtained through the department office.
10. Background Check and Drug Screening - As a condition for placement in some professional practice sites, some students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the background check/drug screening process will be provided by the department. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students completing this program will earn the BSHIM degree with a Minor in Health Informatics (http://mycatalog.txstate.edu/undergraduate/health-professions/information-management/health-informatics-minor/) as a part of the curriculum.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
6. To graduate with a B.S.H.I.M., students must successfully complete all HIM and HI courses with a “C” or higher. HIM courses are normally taken in a lock-step sequence. Most courses are offered only once each academic year; therefore, progress in the program may be delayed if a student falls out of sequence due to failure to successfully complete the HIM and HI courses with the required “C” or higher. Due to course sequencing and the scheduling of the professional practice experience assignment, students who drop out of the program for one or more semesters will be required to obtain approval from the Department Chair to progress.
7. All students must have attained a 2.0 or higher Texas State University GPA with a minimum of 2.25 GPA in the HIM major and the Health Informatics minor courses to graduate.

8. During the second semester of the senior year students are required to take a five-week professional practice experience course. This course requires that the students spend a minimum of five weeks in other institutions (hospitals or healthcare related organizations) away from campus. Or, students who have already completed an associate degree in health information or another bachelor’s degree or who have significant healthcare experience are required to complete a two-week professional practice experience course. Students must furnish their own transportation and housing. Due to the time and distances involved, no courses other than those listed can be taken in the final semester of the senior year.

The St. David's School of Nursing at Texas State University will provide innovation teaching strategies and state-of-the-art technology. The curriculum is designed to accommodate the latest teaching technologies and learning strategies to provide students with the skills, knowledge and abilities needed for professional nursing practice in the 21st century.

The BSN curriculum is 120 hours, including 61 hours of Texas State core curricular and prerequisite courses; and 59 hours of nursing courses. The nursing courses are offered in a lock step format over five semesters beginning at the junior level. Academic study in nursing is combined with clinical experiences in affiliated clinical settings, as well as hours spent in the simulation laboratories in the School of Nursing building. The curriculum is designed to accommodate the latest teaching technologies and learning strategies to provide students with the skills, knowledge and abilities needed for professional nursing practice in the 21st century.

The second undergraduate nursing program offered is a hybrid BSN completion program (RN to BSN). This program is for students who hold an associate's degree in nursing from an associate college. The BSN completion curriculum includes 30 hours of upper division nursing courses. The didactic courses are primarily offered online with strategically placed face-to-face experiences. The curriculum is designed for flexibility with the option of full or part-time study. Students can finish in as little as two semesters or as many as six semesters with extension by permission from the undergraduate program director. This program is only offered if sufficient enrollment is met.

Our graduates are prepared to pursue clinical excellence and certification by the American Nurses Credentialing Center (ANCC) and to continue formal education for the Master of Science in Nursing degree and/or Doctorate in Nursing. Nursing programs offered in the St. David’s School of Nursing are accredited by the Commission on Collegiate Nursing Education (CCNE).

Academic Progression
Students enrolled in the undergraduate nursing programs are required to earn a grade of at least 75% (C or higher) in all courses in the BSN curriculum. Students must have a minimum GPA of 2.50 in their nursing coursework to graduate from the BSN program.

BSN courses are offered in a lock-step sequence. Each course will be offered only once each academic year; therefore, progress in the program will be delayed if the student fails or drops/withdraws from a course. A student may repeat a nursing course only one time. Following a second nursing course failure or withdrawal from a nursing course beyond the census date (12th class day), a student will be dismissed from the nursing program, but not Texas State University.

Immunizations and Basic Life Support
It is a policy of the College of Health Professions that each student will complete a Health Certificate and Immunization Test Form. These forms must be signed by a physician or licensed healthcare provider. Students
must stay current on immunizations. Basic Life Support for Healthcare Professionals must also be completed and remain current.

**Criminal Background Check and Drug Screen**

The traditional BSN student will undergo two background checks. The first criminal background check conducted through the Board of Nursing is required prior to admission to the St. David’s School of Nursing. The second background check, conducted by a third-party vendor, is required by our clinical partners and a valid social security number must be submitted. Both traditional and RN to BSN students must complete the third-party background check and drug screen as part of the admission process. All nursing students are subject to random, or for cause, drug and alcohol screens throughout the program.

**Bachelor of Science in Nursing (B.S.N.)**

- Major in Nursing (p. 437)
- Major in Nursing (RN to BSN Online Completion Program) (p. 439)

**Courses in Nursing (NURS)**

**NURS 3110. Health Assessment Across the Life Span Practicum.**

This course requires demonstrated competency in the performance and documentation of physical assessments of well individuals and nursing care plans using the nursing process, critical thinking, and evidence-based practice. Apply teaching/learning principles in meeting the education needs of patients and demonstrate measures to maintain confidentiality of personal health information.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions

Grade Mode: Credit/No Credit

**NURS 3121. Essentials of Nursing Care Practicum.**

This course requires the use of nursing process and clinical reasoning principles to provide safe, effective, patient-centered care. Evidence-based practices will be used when performing essential nursing skills and procedures to care for patients experiencing acute and chronic alterations in health status.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions

Grade Mode: Credit/No Credit

**NURS 3200. Healthcare Systems.**

Access and barriers to healthcare, past and current healthcare policy, and the professional nurse’s role in policy and delivery of healthcare, will be emphasized. Qualitative and quantitative research in relation to healthcare systems, evidence based nursing practice, and ethical topics will be discussed.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions

Grade Mode: Standard Letter

**NURS 3210. Health Assessment Across the Life Span.**

Conducting health histories and physical assessments of well individuals and developing nursing care plans that include patient age-specific health promotion, illness prevention, and risk factors will be emphasized. Assessments will encompass cultural domains, diversity, belief systems, and the implications for traditional as well as complementary and alternative healthcare.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions

Grade Mode: Standard Letter

**NURS 3221. Psychiatric Mental Health Nursing Practicum.**

This course utilizes clinical experiences to promote application of the nursing process in providing quality care to those experiencing mental health issues across the life span. Competency in using evidence-based practices to promote health, prevent disease, and manage illness will be developed.

2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions

Grade Mode: Credit/No Credit
NURS 3300. Foundations of Professional Nursing Practice.
This course explores the history of nursing in the context of the evolving healthcare system. Laws, regulations, and ethical guidelines impacting nursing licensure and professional practice will be examined. The delivery of patient and family-centered, evidence-based, and safe quality care will be explored. (WI) (MULP).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Multicultural Perspective|Writing Intensive
Grade Mode: Standard Letter

NURS 3302. Research and Ethics.
Introduction to critical appraisal of qualitative and quantitative research, and application of research and evidence-based processes used to improve decision-making and patient care outcomes across health settings. Integration of theory, information systems, clinical judgment, interprofessional perspectives and analysis of ethical conduct provide a foundation for learning the research process. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

NURS 3360. Psychiatric Mental Health Nursing.
This course applies theories, concepts, knowledge, and skills for the comprehensive nursing care of those coping with mental health issues. Building on a liberal education, this course integrates theories of mental illness, psychopathology, and current research findings as they relate to the presentation of symptoms and holistic management of care.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

NURS 3341. Acute Nursing Care of Adults.
This course focuses on the use of evidence-based practice and clinical reasoning and judgment to provide collaborative care to adult patients experiencing acute, rapidly changing, life-threatening alterations in health status.
4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

NURS 3430. Pathophysiology and Pharmacology for Nurses.
Introduction and overview of pathology, clinical pharmacology and pharmacotherapeutics, including how major drugs are used therapeutically for age-specific clients. Other topics to be covered include drug laws and regulations, patient and nurse safety.
4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

NURS 3440. Nursing Care Across the Life Span.
This foundational course focuses on the use of clinical reasoning and judgment to provide collaborative care to patients across the life span experiencing chronic and acute alterations in health status. Content is presented based on evidence-based practice and the prevalent health needs of patients. Prerequisite: NURS 3430 with a grade of "C" or better.
4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

NURS 4160. Maternal and Newborn Nursing Practicum.
This course is the clinical companion to NURS 4160. Concepts, knowledge, and skills taught in NURS 4160 will be applied to both simulation lab and clinical settings. Evidence-based, developmentally and culturally appropriate nursing care in a variety of patient-care settings will be emphasized.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

NURS 4170. Pediatric Nursing Practicum.
This course is the clinical companion to NURS 4270. Concepts, knowledge, and skills taught in NURS 4270 will be applied in the simulation lab and clinical settings. Evidence-based, developmentally and culturally appropriate nursing care in a variety of patient-care settings will be emphasized.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

NURS 4201. Professional Growth and Empowerment.
This course focuses on issues related to professional practice, career planning, personal goal setting, and empowerment of self and others. Factors related to job performance, performance expectations and evaluation, reality orientation, and commitment to lifelong learning will be discussed.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

NURS 4204. Policy, Ethics, and Advocacy in Professional Nursing Practice.
This course explores the baccalaureate prepared nurse's role informing the public policy process. Nursing jurisprudence, principles of nursing ethics, patient safety advocacy, standards and scope of nursing practice, professional boundaries, nursing peer review, and whistleblower protections are emphasized to prepare students to influence the U.S. Health Care System and society.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
NURS 4205. Healthcare Information Technology in Nursing Practice. This course emphasizes nursing informatics and technology used in healthcare settings to research, support and implement safe quality patient care. Nursing administrative applications, pre-care and care support, electronic health records, clinical information systems, telehealth, informatics promoting community and consumer health, HIPAA, and technology to enhance collaboration in healthcare are covered.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Standard Letter

NURS 4211. Nursing Care in Complex Health Practicum. This course focuses on providing care to patients with complex health alterations and life situations. Nursing care to patients in a variety of settings will be provided using the concepts of therapeutic communication and collaborative interventions with a focus on the complexity of the patient's or family's needs.
2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Credit/No Credit

NURS 4260. Maternal and Newborn Nursing. This course applies the nursing process and evidence-based practice to the care of maternal and newborn patients in a variety of healthcare settings. The course emphasizes the use of the nursing process to provide care to individuals and families that is developmentally and culturally focused.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Standard Letter

NURS 4270. Pediatric Nursing. This course applies the nursing process and evidence-based practice to the care of pediatric patients in acute, outpatient and non-acute care settings. The course emphasizes the use of the nursing process to provide care to individuals and families that is developmentally and culturally appropriate.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Standard Letter

NURS 4280. Community and Population Health Nursing Practicum. Clinical experiences will expose students to a variety of community and public health environments, health programs and policies in order to learn how nursing care is delivered to populations in community settings.
2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Credit/No Credit

NURS 4302. Role Transition to Professional Nursing. This didactic course focuses on role responsibility and accountability for transition into baccalaureate nursing practice. Emphasis is given to core professional standards and ethical values fundamental to nursing. Principles of professional communication, critical thinking, and role socialization will be integrated within an organizational context for professional growth. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions|Writing Intensive
Grade Mode: Standard Letter

NURS 4303. Safety and Quality in an Interprofessional Environment. This course emphasizes the professional nurses’ role in application of evidence based quality improvement and risk reduction strategies that promote safe environments while maximizing resources and opportunities for positive patient outcomes. Participation in highly effective Interprofessional teams is emphasized with concepts applied to local, national and international health issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Standard Letter

NURS 4311. Nursing Care in Complex Health. This course explores traditional and contemporary nursing concepts related to complex health alterations, compensations, and environments across the life span. Therapeutic communication, education, and collaborative interventions with diverse individuals and groups are emphasized including the use of complementary and alternative modalities to meet the needs of patients.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions|Lab Required
Grade Mode: Standard Letter

NURS 4341. Leadership and Management of Nursing Care Practicum. Leadership and management skills in a variety of nursing care situations will be applied. Nursing unit leadership and staff assignments based on assessment of client needs, resources, priorities, and competencies of staff will be covered. Assessment and evaluation of the provision of evidence-based nursing care will be performed.
3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions
Grade Mode: Credit/No Credit

NURS 4351. Leadership and Management of Nursing Care. Students discuss leadership and management theories related to organizational nursing roles, including competencies required for complex change, performance improvement, and transformational leadership. Organizational contexts, structure, processes, and culture, in leading and directing patient centered care are examined, along with relationships between governance structures, practice environments, and positive patient outcomes. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui-Health Professions|Writing Intensive
Grade Mode: Standard Letter
NURS 4380. Community and Population Health Nursing.
This course explores concepts of Community-Oriented Nursing Practice with an emphasis on using the nursing process to assess the health of communities and diverse populations. Public Health Nursing Practice and Community-Based Nursing Practice are discussed with an emphasis on health promotion and the prevention of disability and disease.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

Admission Requirements
1. The Bachelor of Science in Nursing (B.S.N.) degree with a major in Nursing requires admission to Texas State University prior to submitting the St. David's School of Nursing application. For more information visit: http://www.nursing.txstate.edu/
2. Texas State students interested in pursuing the Bachelor of Science in Nursing degree will be enrolled in the Bachelor of Science in Health Sciences pre-nursing concentration upon entry into Texas State University. A separate admission application for the Bachelor of Science in Nursing program is required.
3. The BSN admission application for the Nursing program opens in September every fall semester. One hundred (100) to one hundred and fifty (150) students are admitted each fall.
4. Applicants must have a nursing prerequisite GPA of 3.0 or higher. A minimum grade of “C” is required for NUTR 2360 and HDFS 1351 or PSY 3300. The nursing prerequisite GPA is calculated based on grades in the following courses:

<table>
<thead>
<tr>

</tbody>
</table>

5. Applicants must also have a Science GPA for 3.0 or higher. Science courses require a minimum grade of “C” for admission. Applicants may have “CR” for BIO 1330 or CHEM 1341, but not both courses. A maximum of 8 attempts (including W) on the 5 science courses listed below, with no more than 2 attempts on any one science course, is permitted. There can be a maximum of 18 remaining prerequisite credit hours, (including no more than 2 of the 5 science courses) left to complete in the spring and summer semesters before final admission to the St. David’s School of Nursing. At least 3 science courses must be completed with a minimum grade of “C” prior to applying to the program and cannot be included in the 18 remaining prerequisite hours. The science GPA is calculated based on grades in the following courses:

<table>

</table>

6. An application fee must accompany the St. David's School of Nursing application.
7. Additional criteria include a personal persuasive essay, scores from the Test of Essential Academic Skills (TEAS) test version 7, pre-nursing entrance assessment, and an interview of selected candidates with the admissions committee.

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. For transfer students, 34 semester credit hours may be transferred from a Texas public institution of higher education for the Nursing Field of Study and be applied to the Bachelor of Science in Nursing degree with a major in Nursing at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

</table>
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
6. To graduate with a B.S.N., a student must successfully complete all nursing courses with a “C” or better in addition to completing all prerequisite courses.
7. All students must have attained a 2.0 or higher Texas State University GPA with a minimum of a 2.50 GPA in the Nursing major to graduate.
8. All students must complete the B.S.N. program in three years from the time of first admission.
9. Each nursing course is offered only once each academic year; therefore, progress in the program is delayed if the student fails a course. A student may repeat a nursing course only once. A second nursing course failure or withdrawal from nursing courses will result in the student being dismissed from the nursing program. However, the student is not dismissed from Texas State University.

Admission Requirements

1. Application for admission to the registered nurse to Bachelor of Science in Nursing online completion program (R.N. to B.S.N.) must be made to the St. David’s School of Nursing in addition to the university admission procedures. Students will be admitted each fall. Admission to the R.N. to B.S.N. online completion program requires admission to the university and admission to the program. For more information visit: http://www.nursing.txstate.edu/
2. Students must hold unencumbered registered nurse license in a state or region that is approved through the National Council of State Boards of Nursing.
3. All applicants must have a nursing school GPA of 2.5 and an overall GPA of 2.5 to apply.
4. Completion of 42 hours of general education core curriculum requirements, including the following major-specific core requirements or field of study complete:
   - PSY 1300 or SOCI 1310
   - MATH 1315
   - CHEM 1341
5. Completion of 18 hours of support coursework or field of study complete:
   - BIO 2400 or BIO 2440
   - BIO 2451
   - BIO 2452
   - NUTR 2360
   - PSY 3300 or HDFS 1351
6. Students who earned an Associate in Applied Science Nursing degree (A.D.N.) from a regionally accredited community college will be awarded 30 semester credit hours toward the B.S.N. online completion.
7. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

Minimum required: 120 semester credit hours

General Requirements

1. Students have three years to complete the degree requirements.

Total Hours: 30

This integrated bachelor's and master's degree program is found in the graduate catalog. For information regarding the program please click here (p. 2179).
www.health.txstate.edu/PT (http://www.health.txstate.edu/PT/)

The Department of Physical Therapy, located in Round Rock, is a graduate department offering a Doctor of Physical Therapy (DPT) degree with a major in Physical Therapy. For more information, contact the Department of Physical Therapy or visit http://www.health.txstate.edu/pt (http://www.health.txstate.edu/pt/).

The requirements for admission to the DPT degree program include:

1. completion of a baccalaureate degree with a minimum 3.0 GPA in the last 60 hours of coursework completed for that degree,
2. minimum 3.0 GPA in all science courses,
3. minimum 3.0 GPA in prerequisite courses,
4. competitive GRE on verbal and quantitative, and
5. completion of all prerequisite courses, including general psychology, abnormal or developmental psychology, statistics, medical terminology, human physiology and anatomy or human structure and function, vertebrate physiology or physiology of exercise, general chemistry I and II, and general physics I and II.

This program is accredited by the Commission on Accreditation in Physical Therapy Education.

**Course in Physical Therapy (PT)**

**PT 3400. Human Structure and Function.**
A study of the structure and function of the human body with emphasis on the skeletal, muscular, and nervous systems. Course focuses on anatomy and physiology of body systems of special interest to students preparing to be health professionals. Laboratory study of the human cadaver is included.

4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions|Lab Required

Grade Mode: Standard Letter

Avery Bldg Room 353

The radiation therapist is a key member of the professional team, which uses various forms of radiation to treat cancer patients. Radiation therapy may be used alone, or in combination with surgery or chemotherapy, and is the treatment of choice for cure of many cancers. Because of sustained contact with patients, the radiation therapist has considerable responsibility in patient care, dietary counseling and treatment evaluation. The radiation therapist must also appreciate the significant psychological impact that cancer has on patients and their families. The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The curriculum complies with the professional curriculum of the American Society of Radiologic Technologists.

The Bachelor of Science in Radiation Therapy (B.S.R.T.) degree with a major in Radiation Therapy, is a two- and one-half year program beginning in the junior year. The junior and senior years combine clinical experiences in the affiliated radiation therapy facilities with advanced academic study in the professional disciplines. The program is designed to prepare students for the technical, theoretical, and psychological aspects of this career. Students acquire the technical skills necessary to plan, deliver, and record a prescribed course of radiotherapy. Upon completion of the degree, students are eligible to apply to the ARRT national registry examination.

Any student entering Texas State may declare a Bachelor of Science (B.S.) Major in health Science (Pre-Radiation Therapy Concentration) as their major. Admission to Texas State does not guarantee admission to the program. Admission to the program is competitive and selective. It is recommended that students arrange academic advising at least once prior to making application. The academic sequence begins during the fall semester. Enrollment is limited by student/faculty ratios in the clinical components of the program. The deadline for submission of applications is January 15.

**Immunization Requirements**

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must take certain immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and forms to be supplied may be obtained through the program office.

**Criminal Background Check/Drug Screening**

As a condition for placement in some professional practice sites, students are required to have a background check and/or drug screening and meet other requirements set by individual sites. Information on the process of drug screening will be provided by the program. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for state license status following graduation and may affect admission consideration to the Radiation Therapy program.

**Bachelor of Science in Radiation Therapy (B.S.R.T.)**

- Major in Radiation Therapy (p. 443)

**Courses in Radiation Therapy Technology (RTT)**

RTT 3120. Clinical Simulation Lab I.

Students are provided instruction and simulated practice in a controlled laboratory setting. This course provides first-year students foundational clinical set-up skills from which to build on during the clinical learning practicum course.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.

Course Attribute(s): Dif Tui- Health Professions

Grade Mode: Standard Letter
RTT 3121. Clinical Simulation Lab II.
Students are provided instruction and simulated practice in a controlled laboratory setting. This course provides instruction, demonstration and participation in immobilization, positioning and simulation with the aid of an anthropomorphic phantom. Students will learn aspects of simulation for basic treatment delivery applications.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3220. Directed Clinical Learning I.
Students will observe the basic operations of the radiation oncology clinic while interacting with the multidisciplinary team involved in providing treatment and care. The student will be introduced to oncology terminology, equipment, and techniques used for treatment. Learning is achieved through direct patient care, with instruction, demonstration and direct supervision.
2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3221. Directed Clinical Learning II.
Students will gain additional skills in clinical procedures, interaction with patients and professional personnel. Students apply knowledge from previous clinical learning experience under the supervision of a registered radiation therapist. Students are tested on intermediate clinical radiation therapy skills.
2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3300. Patient Care in Radiation Oncology.
This course will focus on basic nursing concepts involved in providing care for the cancer patient. Topics to be included in the class will be cancer as a chronic health problem, social roles and cancer, multidisciplinary approach to patient care, psychosocial dimension of cancer, in-treatment examinations, follow-up examinations, emergency management, chemotherapy and nutritional aspects of treating patients with cancer.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3301. Introduction to Radiation Oncology.
An overview of radiation oncology and the role of the radiation therapist. Presentations will orient the student to the physical and biological basis of radiation equipment, procedures, tumor pathology, and patient interaction. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions Writing Intensive
Grade Mode: Standard Letter

RTT 3302. Radiologic Science and Medical Imaging.
This course will cover the principles governing production of radiation, interaction of radiation with matter, and protection of the radiation worker and patient from exposure. Basic principles of x-ray equipment, exposure factors, latent image formation, and processing of radiographs are presented. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3310. Physics of Radiation Therapy I.
Students will learn the principles of radiation physics as they apply to the treatment and care of the cancer patient. Course will include a thorough review of x-ray production, fundamental principles, concepts and terminology. Topics studied include measurements, general principles, structure of the atom, structure of the matter, electrostatics, magnetism, electrodynamics, electromagnetism, rectification and production and properties of radiation and radiographic techniques.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3314. Radiation Therapy Sectional Anatomy.
The course provides instruction in identifying cross-sectional anatomy to develop the ability to make anatomic correlations between multiple planes of view. Major organs, lymphatics, vessels are emphasized as related to the clinical significance in the field of radiation therapy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 3350. Radiobiology.
This course will cover the principles of cell response to radiation, including tissue sensitivity, survival, repair and the latent effects of irradiated tissue. Topics to be covered include the development of radiation science, cellular targets for radiation action, target theory, physical/ chemical factors affecting radiation response, biological factors, repair and recovery, fractionated doses and dose rate, early/ acute effects of whole body exposure, late/chronic effects of whole body exposure, and radiation protection dose guidelines.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4120. Clinical Simulation Lab III.
Students are provided instruction and simulated practice in a controlled laboratory setting. A continuation of RTT 3121. This course provides instruction, demonstration, and participation in immobilization, positioning and simulation with the aid of an anthropomorphic phantom. Students will learn aspects of simulation for basic intermediate treatment delivery applications.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
RTT 4121. Clinical Simulation Lab IV.
Students are provided instruction and simulated practice in a controlled laboratory setting. A continuation of RTT 4120. This course provides instruction, demonstration and participation in immobilization, positioning and treatment simulation. Students will learn aspects of simulation for basic, intermediate, and some advanced treatment delivery applications.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4122. Clinical Simulation Lab V.
Students are provided instruction and simulated practice in a controlled laboratory setting. A continuation of RTT 4121. This course provides instruction, demonstration and participation in immobilization, positioning and treatment simulation. Students will learn aspects of simulation for basic, intermediate, and some advanced treatment delivery applications.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4189. Radiation Therapy Literary Scholarship and Manuscript Writing.
This intensive writing course provides instructions in research strategies, critical review and analysis of peer reviewed publications. An introduction to scholarly resources and professional manuscript development using peer reviewed journal guidelines for the profession of radiation therapy. This course prepares students for RTT 4191 Radiation Therapy Seminar. (WI).

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

RTT 4190. Professional Issues in Radiation Therapy.
This capstone course provides a comprehensive review of the program curriculum and clinical practice in the field. Current radiation therapy treatment management techniques and issues are presented for analysis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4191. Radiation Therapy Seminar.
This course is a continuation of RTT 4189. The course provides instruction in the completion of a final draft for the student’s technical manuscript. The course work builds from the completed manuscript and draws from the material and knowledge gained in RTT 4189 to develop a formal presentation.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4220. Directed Clinical Learning III.
Students will continue to develop skills during this clinical course. Progressive interaction with patients and professional personnel are monitored as students practice radiation therapy in a supervised setting. Additional areas include problem solving, identifying machine components and basic side effect management. Students will demonstrate competence in beginning, and intermediate procedures.

2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4221. Directed Clinical Learning IV.
The course provides students the opportunity to continue to develop confidence and increased skill in simulation and treatment delivery. Students will demonstrate competence in beginning, intermediate, and some advanced procedures through supervised clinical instruction, progressing through a competency-based educational sequence.

2 Credit Hours. 1 Lecture Contact Hour. 24 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4222. Directed Clinical Learning V.
The students will complete their clinical training by practicing all the skills they have learned in the classroom, lab, and clinical practicum. The students will continue demonstrating proficiency while completing the Skills Competency Checklist.

2 Credit Hours. 1 Lecture Contact Hour. 24 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4291. Radiation Therapy Registry Review.
This course provides a comprehensive review of the program curriculum and clinical practice in the field. Current radiation therapy treatment management techniques and issues are presented for analysis.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4310. Physics of Radiation Therapy II.
Students will continue to learn the principles of cell response to radiation. Topics covered will include properties of x-ray and gamma radiation, radiation units, x-ray production, photon interactions, beam characteristics, radioactivity, treatment units, and particle irradiation.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
RTT 4330. Quality Assurance.
Students will study quality assurance tests related to patient charts, treatment accessories, patient communication devices, machine reading and safety devices. Emphasis on quality control procedures to include Continuous Quality Improvement (CQI), Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and responsibilities of each team member in relation to quality assurance duties.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4331. Operational Issues in Radiation Therapy.
Course content is designed to focus on various radiation therapy operational issues. Accreditation, CQI development and assessment techniques will be presented. Human resource issues and regulations impacting the radiation therapist will be examined. Topics include the role of network information systems within the radiation oncology department. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

RTT 4360. Dosimetry I.
This course will cover the basic concepts in treatment planning and clinical dosimetry. Students will learn to identify treatment preparation processes and needs for beam modifying devices. Students will also be taught isodose charts for several treatment arrangements and be able to calculate a variety of external beam treatment formulas.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RTT 4361. Dosimetry II.
Students will learn additional concepts in treatment planning and clinical dosimetry addressed in Dosimetry I. Computerized treatment planning applications will enhance the understanding of medical dosimetry.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Lab Required
Grade Mode: Standard Letter

RTT 4370. Clinical Radiation Oncology I.
The first of a two-part course, this course advances the student's knowledge of neoplastic disease management. Instruction will focus on the regional anatomy and physiology, epidemiology and etiology, detection and diagnosis, diagnostic procedures, histopathology, patterns of spread principles of treatment, staging, and prognosis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

Admission Requirements
1. The Bachelor of Science in Radiation Therapy (B.S.R.T.) degree with a major in Radiation Therapy requires admission to the university and admission to the program. For more information visit: http://www.health.txstate.edu/rtt/
2. Any student may declare Pre-Radiation Therapy as their major. Admission to Texas State does not guarantee admission to the program. Admission to the program is competitive and selective. It is recommended that students arrange academic advising at least once prior to making application.
3. The academic sequence begins during the fall semester. Enrollment is limited by student/faculty ratios in the clinical components of the program.
4. The deadline for submission of applications is January 15.
5. Satisfactory completion of all general education core curriculum and a minimum overall GPA of 2.75 is required for admission.
6. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
7. Completion of the application packet is required for admission.
8. Three letters of reference and a career goal statement are required for admission.
9. Successful interview of selected candidates with admission committee.
10. Twenty-four hours of clinical observation with completed evaluation on file by January 15.
11. Students must be able to perform the 13 Technical Standards indicated by the American Disabilities Act (refer to program website or department for more information).
12. Previous misdemeanor or felony convictions will affect admission to the program.
13. Applicants must have a science and support course GPA of 3.0 or higher. No more than 2 attempts on any one science course is permitted. An applicant may repeat only one of the courses on this list. Courses included in the science and support course GPA computation include:

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

5. To graduate with a B.S.R.T., a student must successfully fulfill the general education requirements and complete all RTT courses with a “C” or better. RTT courses are offered in a lock-step sequence. Each course is offered only once each academic year; therefore, progress in the program is affected should a student fall out of the sequence due to failure to successfully complete a course. A student who falls out of sequence (whether due to illness, course failure, or other reasons) will be delayed one year to repeat the course.

6. A student may repeat a RTT course only once. If the student does not earn a grade of at least “C” upon repeating the course, the student cannot continue in the program.

7. The student must meet the requirements for clinical competency as described in the Directed Clinical Learning syllabi.

8. All students must have attained a 2.0 or higher Texas State University GPA with a minimum of a 2.75 GPA in the Radiation Therapy major to graduate.

**Total Hours: 120**

1. If US 1100 is waived, the student must have 120 hours to graduate. See College Advising Center.

Willow Hall Room 214
Round Rock Campus
200 Bobcat Way
Round Rock, TX
T: 512-716-2682 F: 512-716-2805
www.health.txstate.edu/rc (http://www.health.txstate.edu/rc/)

The Bachelor of Science in Respiratory Care (BSRC) degree prepares students to practice as nationally credentialed respiratory care practitioners and take their place as a key healthcare team member. Skilled in assessing patients with breathing disorders in the emergency room, intensive care units and many other areas in healthcare facilities, respiratory therapists work directly with physicians on newborn, pediatric or adult patients to analyze oxygen levels and breathing difficulty. Therapists administer prescribed medications to relieve breathing distress, provide pulmonary/lung therapies, and conduct lung diagnostics for all ages. Graduates find employment in many settings such as hospitals, pulmonary rehabilitation clinics, doctors’ offices, sleep labs, homecare, and air-life transport teams as they work with patients in the emergency room, newborn/pediatric/adult intensive care units, and many other areas.

Respiratory care (RC) majors attend lab and lecture classes on the Round Rock campus and gain clinical experience in Austin-area hospitals. Students successfully admitted to the program must complete the sequenced curriculum within the cohort group. Individuals taking core courses prior to applying for admission to the RC program should contact the College of Health Professions’ Advising Office and request a change of majors to Bachelor of Science in Health Sciences - Pre-Respiratory Care. The BSRC Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC) and qualifies graduates to sit for national board credentialing exams to become a Registered Respiratory Therapist (RRT) through the National Board for Respiratory Care immediately upon completion.

Students having already completed an associate degree in Respiratory Care from another university or college are eligible to apply for admission to the BSRC Online Completion Program at Texas State for bachelor degree completion. Once accepted to the university and the BSRC Online Completion Program, this 100% online program admits student every fall, spring, and summer semester without the need to come to the Texas State campus. The online degree completion program features 8-week courses and has a program completion time of one year for the full-time student. Enrollment is open each fall, spring and summer semesters. For information on this option, please contact the BSRC Online Completion program director.

The department also offers a Master of Science in Respiratory Care (MSRC) degree with concentrations in Leadership and Polysomnography
Technology (sleep diagnostics). Both concentrations provide 24 semester hours of core courses that build leadership and knowledge of research with 12 semester hours of either Leadership or Polysomnography studies. The Leadership track prepares credentialed therapists for mid-management leadership roles in the hospital as department managers, clinical educators, supervisors, and other opportunities. Individuals credentialed in Polysomnography (PSG) or sleep diagnostics provide diagnostic and therapeutic treatment for those suffering from sleep disorders such as obstructive sleep apnea, insomnia, narcolepsy, and other conditions. The (PSG) course of study prepares individuals to sit for national sleep board credentialing exams immediately upon completion.

A rolling enrollment allows students to enter the MSRC program each fall, spring, and summer. Admission to the MSRC program requires the applicant to have previously earned the RRT credential and completed a bachelor's degree from a regionally accredited institution. Please refer to The Graduate catalog for admission requirements and course descriptions.

Immunization Requirements

It is a policy of the College of Health Professions that each student must provide the College Health Report completed by a physician or licensed healthcare provider and must complete specific required immunizations before being placed in a clinical or internship assignment. Information on these requirements and forms may be obtained through the departmental office.

Background Checks and Drug Screening

As a condition for placement in some professional practice sites, all students are required to have a background check and/or drug screening to meet requirements of individual sites. Information on the drug screening process will be provided by the department to clinical facilities as required. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for state respiratory care practitioner license status following graduation and future employment in healthcare.

Bachelor of Science in Respiratory Care (B.S.R.C.)

- Major in Respiratory Care (p. 449)
- Major in Respiratory Care (R.R.T. to B.S.R.C. Online Completion Program) (p. 451)

Courses in Respiratory Care (RC)

RC 2213. Introduction to Respiratory Care.
This course offers an in-depth overview of the respiratory care profession to acquaint the student with the responsibilities of the respiratory therapist as part of healthcare team. Progression of the profession, career opportunities, past and future impact of profession on patient recovery and health maintenance, and medical gas therapy will be covered.

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3112. Pharmacology.
A comprehensive study of pharmacology principles. Receptor theory, clinical applications of medications, and historical analysis of first-generation medications will be covered. Current medication trends and recommendations are also examined.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

This course examines the most common pulmonary function tests, their techniques, and the pathophysiology that may be evaluated by each test. Pulmonary function equipment, calibration, and the American Thoracic Society guidelines will be discussed. Laboratory practice of performing the tests will be provided to develop skills for testing patients.

1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3313. RC Clinical Practice I.
This course provides an introduction to respiratory care clinical skills, including vital signs, chest assessment, infection control, aerosolized medication delivery, oxygen therapy, hyperinflation therapy, and airway clearance. This course prepares the student for direct patient care to be performed in more advanced courses. Direct patient care is performed under close supervision.

3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3314. Respiratory Care Instrumentation.
Through lectures and lab exercises, students are acquainted with concepts of design, function, and operation of basic respiratory care equipment. Oxygen cylinders, regulators, flowmeters, oxygen analyzers, oximeters, oxygen adjuncts, humidifiers, nebulizers, airways, and pressure cycled ventilators will be covered. The course also covers respiratory pharmacology, decontamination of equipment, and arrhythmia recognition.

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3315. Cardiopulmonary - Renal Anatomy & Physiology.
This course provides an in-depth human gross anatomy study of the cardiac, respiratory, and renal systems. Clinical application of pulmonary anatomy and physiology will also be explored.

3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
RC 3316. Fundamentals of Respiratory Care.
This course provides a study of theories and modalities utilized in delivering, monitoring, and evaluating basic respiratory therapeutics to patients with compromised respiratory function in various healthcare settings. Aspects of artificial ventilation, arterial blood gas analysis, lung volume diagnostics, and hyperinflation intervention will be covered in patient scenarios.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3321. Cardiopulmonary Pathology.
As an introduction to the assessment, treatment, and pathophysiology of respiratory diseases, this course focuses on the signs, symptoms, etiology, pathophysiology, diagnosis and treatment of selected diseases. Utilizing clinical simulation software to develop critical thinking regarding assessment, diagnostic data gathering. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

This course provides students with an in-depth study of selected respiratory care techniques with an emphasis on the care of critically ill patients. Critical skills and knowledge of mechanical ventilation, bedside diagnostic techniques, patient monitoring, and rehabilitation are explored in the critical care setting.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3323. RC Clinical Practice II.
Students perform clinical procedures and interact with patients and professional personnel in a healthcare institution under the supervision of a respiratory therapist. Students gain direct patient care experience as presented in medical/surgical and pediatric clinical situations. Preparatory instruction is provided for mechanical ventilation and other critical care procedures.
3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3324. Critical Care Instrumentation.
A comprehensive study of advanced equipment and technology utilized in the critical care, homecare, pulmonary rehabilitation and blood gas lab settings. Lectures and class activities will detail hardware for hemodynamic monitoring, supplemental oxygen administration, noninvasive monitoring, blood gas measurement, quality control and assurance and mechanical ventilator concepts.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3332. Hemodynamics.
This course is an advanced study of cardiovascular hemodynamic measurements. Normal cardiovascular physiology and measures are examined, as well as variations caused by disease. Current clinical trends and practices in hemodynamic procedures are also explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3333. RC Clinical Practice III.
A supervised clinical education experience in which the student administers advanced respiratory therapeutics to patients in the adult critical care setting. Diagnostic and monitoring procedures, including arterial blood gases, bedside physiologic monitoring, airway care, advanced pulmonary function testing, ventilator management will be performed according to physician orders.
3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 3334. Neonatal Respiratory Care.
An in-depth study of neonatal utero development, fetal lung development, fetal circulation, and cardiovascular changes at birth. Neonatal respiratory emergencies, neonatal respiratory diseases and management, congenital defects, and respiratory care procedures specific to the neonate will be discussed. A specific emphasis on neonatal mechanical ventilation will be included.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4211. Respiratory Care Research.
This course provides an introduction to applied experimental design, research ethics, and data analysis focusing on the respiratory care profession. Students will participate in each step the research process from developing a personal research hypothesis and research design through IRB submission. Prerequisite: HP 3302 or equivalent.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4216. Disease Management.
The course offers an in-depth description of common therapeutic modalities and treatment protocols used to offset the anatomic alterations and pathophysiologic mechanisms activated by selected disorders. Students will develop an understanding of how therapies work to offset the anatomic alterations of lungs caused by disease. Prerequisite: Instructor approval.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
RC 4221. Leadership and Management for Respiratory Care Professionals.
This course is designed to comprehensively examine the dynamic evolution of respiratory care as a profession. The role of the respiratory care professional in the areas of leadership, management, and professional ethics will be explored with regards to the profession's impact on legislation, regulation, and politics. (WI).
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

RC 4222. RC 4223. ICU Internship.
Through affiliations with agencies, hospitals and selected treatment centers, the student interns in the intensive care setting by providing patient care and administering critical care therapeutics. Analysis and clinical application of advanced ventilator care of patients is emphasized along with patient care diagnostics and management in the ICU.
2 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Credit/No Credit

RC 4224. Research Seminar.
This course is a study of the research process from a review of research design to methodology implementation including data collection, statistical analysis, and presentation of a research proposal on a topic in the respiratory care discipline. The course provides direct research experience culminating in a research paper and presentation. Prerequisite: RC 4211 with a grade of "C" or better.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4225. Specialization Internship.
This course provides the student with an internship opportunity to gain clinical experience in sub-specialty areas including pediatrics, adult intensive care, neonatal intensive care, pulmonary function testing, home care/durable medical equipment, subacute care, pulmonary rehabilitation, polysomnography, education, and research. Specific specialty offerings will be based on clinical availability.
2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Credit/No Credit

RC 4209. Pulmonary Diagnostics.
The course examines various pulmonary diagnostic techniques and the pathophysiology associated with each diagnostic measurement in disease management and clinical research. The course will provide an in-depth presentation of clinical indications for various diagnostic analyses including the ethical responsibilities associated with clinical research. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4311. Interdisciplinary Healthcare.
This course introduces the respiratory care student to the role that respiratory therapists play within the interdisciplinary healthcare team. The course will allow students to gain experience in developing and applying strategies to improve patient outcomes through the inclusion of the respiratory therapist with various appropriate healthcare disciplines. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

RC 4312. Critical Care Clinical Simulation.
Students will analyze concept review in preparation for national board examinations and evidence-based care. Classroom and laboratory instruction will demonstrate cumulative review of the Therapist Multiple Choice and the Clinical Simulation Examination national board exams. Clinical simulation case studies will be assessed reflecting real-life patient scenarios.
3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

This course provides an in-depth study of specific adult mechanical ventilators addressing traditional and proposed ventilator classification, various methods of operation, parameter interrelationships and ventilator patient monitoring. Lectures and class activities will focus on ventilator analysis of several contemporary volume-, time-, pressure- and flow-cycled ventilators with advanced graphics interpretation required.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4316. RC 4317. Pulmonary Rehabilitation.
This course is designed to introduce students to the medical, ethical, and insurance reimbursement issues of pulmonary rehabilitation, homecare, and sleep diagnostic facilities. The role of therapists in case management, treatment requirements, and discharge planning along with the impact of legislation, regulations, and politics will be explored.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter
RC 4318. Independent Study in Respiratory Care.
This course provides the student an in-depth study on a topic or healthcare problem impacting respiratory care. The course may be repeated for credit with a different emphasis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4322. RC Practitioner Seminar.
Students will research and present selected case studies by students to physicians, therapists, and colleagues. Presentations will emphasize total patient management with etiology, symptoms, pathophysiology, diagnosis, and treatment of specific diseases including asthma, pulmonary embolism, CHF, COPD, ARDS, neurologic diseases, inhalational injury, pneumonia, sleep disordered breathing, AIDS, and drug overdose. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

RC 4324. Sleep Medicine and Polysomnography.
This course introduces the respiratory care student to sleep medicine and polysomnography. The course will present topics on sleep stages, sleep architecture, and sleep disorders. Basic and advanced treatment options of selected sleep disorders will be discussed. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

This course will provide the Respiratory Care student with advanced knowledge on the management of the neonatal patient in the critical care environment. The course will expose the student to advanced therapeutics and mechanical ventilation strategies. Course content will prepare the student for the role of neonatal specialist. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions
Grade Mode: Standard Letter

RC 4334. Adult Critical Care.
This course provides professional enrichment for practitioners with a conceptual foundation for adult critical care medicine. The course will provide an in-depth presentation of advanced respiratory therapy therapeutics and procedures caring for adults in the intensive care unit. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Health Professions|Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

Admission Requirements
1. The Bachelor of Science in Respiratory Care (B.S.R.C.) degree with a major in Respiratory Care requires admission to the university and admission to the program. For more information visit: http://www.health.txstate.edu/rc/

2. Application for admission to the Respiratory Care (R.C.) undergraduate program must be made to the R.C. department in addition to regular university admission procedures.

3. All applicants must have an overall GPA of 2.50 to apply.

4. It is highly recommended that individuals interested in applying for the R.C. program complete RC 2213 prior to application.

5. Admission is competitive and enrollment is limited depending on student/faculty ratios in the clinical phase of the program.

6. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program in order to qualify for admission.

7. The priority admission application period for the Respiratory Care program begins November 1 and closes December 15. The general application period begins November 1 and closes May 1.

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

5. All RC courses must be taken in a lock-step sequence and completed with a grade of "C" or higher in order to progress to the next semester in the curriculum. Students with a grade of less than a “C” in a RC course will be ineligible to continue the program and must reapply to the program the following year. To be considered for program readmission, all original program admission criteria must be met. If readmitted, an assessment of clinical skills will be required to determine appropriate clinical placement in the curriculum sequence.

6. Requirements for B.S.R.C. completion and graduation include a Texas State GPA of 2.0 with a RC major GPA of 2.25.

**Total Hours: 120**
Minimum required: 120 semester credit hours

Admission Requirements

1. The Bachelor of Science in Respiratory Care (B.S.R.C.) degree with a major in Respiratory Care requires admission to the university and admission to the program. For more information visit: http://www.health.txstate.edu/rc/

2. Application for admission to the R.R.T. to B.S.R.C. online completion program must be made to the Department of Respiratory Care in addition to regular university admission procedures. Students will be admitted each fall, spring, and summer semester.

3. Students must obtain the R.R.T. credential from the National Board for Respiratory Care prior to enrolling into their final semester in the program.

4. All applicants must have an overall GPA of 2.25 to apply.

5. Admission is competitive and enrollment is limited.

6. Students who earned the R.R.T. credential and who have graduated from a regionally accredited community college will be awarded 35 semester credit hours toward the B.S.R.C. completion.

7. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

General Requirements

1. All courses must be taken in sequence and completed with a grade of "C" or better in order to progress to the next semester in the curriculum.

2. Completion of 11 hours of support coursework is required prior graduation:
   - BIO 2400 or BIO 2440
   - BIO 2430
   - HP 3302, HP 3325, SOCI 3307, PSY 2301, MATH 2328, or CJ 3347

3. Completion of 42 hours of general education core curriculum, including the following major-specific core courses, is required prior to graduation:
   - PSY 1300 or SOCI 1310 for the Social and Behavioral Sciences Component Code 080
   - MATH 1315, MATH 1319, MATH 1329, MATH 2417, or MATH 2471 for the Mathematics Component Code 020
   - CHEM 1341 for the Life and Physical Sciences Component Code 030
   - PHYS 1310, PHYS 1315, PHYS 1320, or PHYS 1325 for the Life and Physical Sciences Component Code 030

The College of Liberal Arts provides students with the foundation for a liberal education, preparing graduates to think independently, to choose freely, to base personal and professional decisions on a broad understanding of history and culture, and to live full, rewarding lives. Recognizing the central importance of liberal education, the university requires that more than fifty percent of the general education core curriculum be taken in the College of Liberal Arts, and students increasingly declare majors or minors in one of the college's nine departments or special programs.

The College of Liberal Arts offers the Bachelor of Arts in each of its nine departments: Anthropology, English, Geography, History, Philosophy, Political Science, Psychology, Sociology, and World Languages and Literatures. The Bachelor of Science is awarded in Anthropology, Geography, Psychology, and Sociology. The college also offers two special degrees: The Bachelor of Arts in International Studies (B.A.I.S.), and the Bachelor of Public Administration (B.P.A.). The college houses nineteen interdisciplinary minors: African American Studies, Aging

Academic Advising Center

Flowers Hall Room 322
Telephone: 512-245-1852 Fax: 512-245-7949
www.liberalarts.txstate.edu/advising/ (https://www.liberalarts.txstate.edu/advising/)

The College of Liberal Arts Advising Center is committed to providing effective guidance and accurate information to a diverse student community. In a supportive and collaborative environment, academic advisors encourage students to take an active role in achieving their educational and professional goals. From new student orientation to graduation, advisors are available to assist students as they navigate a variety of academic and administrative issues.

Through individual advising sessions, advisors help students select courses, understand degree requirements, and plan for graduation. Depending on students’ unique needs, advisors may also provide information on major-specific concentrations, teaching certification options, education abroad opportunities, GPA calculation degree applicability of transfer courses, and strategies for overcoming academic probation and suspension. Although advising center staff are well-versed on campus resources and institutional policies, students may need to contact other departments for specific guidance related to financial aid, billing, veteran’s benefits, and student support services.

Students are encouraged to schedule an appointment with an advisor at least once per academic year; however, academic advisors are available year-round and offer flexible options to meet students’ advising needs. In addition to individual advising sessions, drop-in advising is offered during times of peak registration, and a number of helpful advising resources can be found on the College of Liberal Arts Advising Center website.

Undergraduate Academic Center Room 478

The Center for Diversity and Gender Studies in the College of Liberal Arts administers the Diversity Studies minor, African American Studies minor, and the Women’s Studies minor at the undergraduate level. The Center helps prepare students to work and live in a pluralistic society through curricular and co-curricular activities workshops, programs, events and research projects. In addition, it assists faculty with resources and professional development activities to encourage the infusion of multiculturalism in the curriculum through a Multicultural Curriculum Transformation and Research Institute. It houses a resource area with more than 1000 books, articles, and syllabi. The Center is home to its own online professional peer reviewed Journal of Research on Women and Gender. Through private donations, Diversity and Gender Studies offers an annual scholarship to students. The director of the Center works in collaboration with an advisory council of faculty, staff and students representing several Texas State colleges and departments.

Key issues for prospective minors to consider:

- This minor will prepare students with a unique body of knowledge, cultural competence, and communication skills that will prepare them for a diverse and changing workforce.
- Enrich students’ learning about cultural pluralism and improve the interpersonal and other skills.
- Well-rounded graduates have included in their liberal arts education a greater-knowledge of their cultural history and traditions.

Minors

- African American Studies (p. 453)
- Diversity Studies (p. 454)
- Women’s, Gender, and Sexuality Studies (p. 456)

Subjects in this center include: AAS (p. 452), DVST (p. 453), WS (p. 453)

Courses in African American Studies (AAS)

AAS 2310. Introduction to African American Studies.
Course provides an overview of black culture in America from an interdisciplinary approach, employing scholarship from history, literature, music, visual and performing arts, folklore, religion, sociology, psychology, philosophy, economics, and political science. It introduces epistemological considerations, theories, and methods that form the field of African American and African Diaspora Studies. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

AAS 3310A. Blacks, Film, and Society.
This course examines Black American cinema between 1919 and the present and how film can help society better understand black history, black culture, and the black experience in America. The course also explores what each film teaches Blacks about Blacks and what film teaches Whites and other groups about Blacks.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

AAS 3350. Black Queer Experience.
This course will introduce students to the historical study of Black LGBTQ peoples. We will use primary sources such as letters, journals, newspaper articles, and blues songs, along with historical and interdisciplinary scholarship and films, to learn about the experiences of same-sex loving and gender-transgressing Black people. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
AAS 3399. Negotiating the Color Line.
This course examines how Black Americans have negotiated the Black-White color line from the 1800s to the present day.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AAS 4320. Global Perspectives on the African Diaspora.
Course connects the transatlantic slave trade, contemporary migrations, their legacies, and speaks to the broader issues of the African diaspora in relation to previous and ongoing struggles of black people for rebirth, progress, justice, and racial uplift. Examines African Diasporic women's definition of feminism while suggesting no universal black feminism. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

AAS 4377. Intersections of Race, Class, Gender, and Sexualities.
This course critically examines how race, class, gender, and sexuality intersect to shape the lived experiences of a wide array of communities in the United States. Students cannot receive credit for both WS 4377 and AAS 4377. (WI) Prerequisite: AAS 2310 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Courses in Women’s Studies (WS)

WS 3376. Introduction to Women's, Gender, and Sexuality Studies.
This course introduces students to the key concepts of women’s, gender, and sexuality studies with a focus on the diversity of cultural experiences within the United States. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

WS 3377. Gender, Sex, and Power.
This course examines the relationship between gender, sex, and power in cross cultural contexts to investigate key debates and current research within the field of Women's, Gender, and Sexuality Studies. Gender roles in societies outside the U.S. will be examined. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

WS 4377. Intersections of Race, Class, Gender, and Sexualities.
This course critically examines how race, class, gender, and sexuality intersect to shape the lived experiences of a wide array of communities in the United States. Students cannot receive credit for both WS 4377 and AAS 4377. (WI) Prerequisite: WS 3376 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Courses in Diversity Studies (DVST)

DVST 3301. Introduction to Diversity Studies.
The course is a general, multi-disciplinary and comparative survey of U.S. diversity issues. It highlights the traditional minorities, such as African, Latino/a American, Native, and Asian Americas, as well as European American ethnic groups. It also explores issues related to religion, age, sexual orientation, gender identity, and physical ability/disability. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

DVST 3320. Introduction to Global Diversity Issues.
This course provides an understanding of relationship between U.S and other nations in terms of economics, politics, and culture. Students will examine how colonialism shaped developed and underdeveloped nations, investigate grassroots activism in response to globalization and will examine how policies formulation by one country has consequences for other countries. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

The minor in African American Studies requires 18 semester credit hours. The African American Studies minor (AAS) is an interdisciplinary course of study that focuses on the Black experience in the United States and throughout the African diaspora. Our central mission is to prepare students to critically understand, conduct research, and interpret the complex histories, societies, and cultures of people of African descent.

The minor in Diversity Studies requires 18 semester credit hours. The minor provides for an interdisciplinary approach to Diversity Studies with conceptual frameworks for exploring new perspectives which recover the history and creative expressions previously excluded by the traditional approaches to higher education. The minor fosters students’ development of self, voice, and moral vision to prepare students to live and work effectively in a pluralistic society and a global world. Students will explore issues related to race, ethnicity, gender, religion, age, sexual orientation, and physical ability and disability. Using the courses available students may design a special focus based on their interest or career path. Relevant courses may be substituted with approval from the director of the Center for Diversity and Gender Studies. The two required core courses (6 hours) are DVST 3301, which offers a general, multidisciplinary and comparative survey of diversity, and DVST 3320, which provides students with a global view of diversity issues.

SPAN 3305  Latin American Literatures I
SPAN 3306  Latin American Literatures II
SPAN 3371  Latin American Civilization
SPAN 4330  The Latin American Novel
SPAN 4370  Hispanic Literature of the Southwest
TH 3339  Latinx Theatre and Performance
WS 3376  Introduction to Women’s, Gender, and Sexuality Studies

Total Hours  18

The minor in Women’s, Gender, and Sexuality Studies requires 18 semester credit hours. Drawing on recent scholarship on women, gender, and sexuality, this interdisciplinary minor provides a flexible, coherent program that enables students to consider the significance of gender and sexuality to human society.

A minor in Women’s, Gender, and Sexuality Studies offers students the opportunity for exciting intellectual growth. The minor provides a valuable specialty to prepare students for opportunities in a variety of fields, including business, counseling, education, government, health and medicine, human resources, law, politics, psychology, social work, and graduate studies. The Women’s, Gender, and Sexuality Studies minor helps students recognize their opportunities in a rapidly changing society and flexibly complements any major.

The required core courses introduce students to the foundational theories of women’s, gender, and sexualities studies. Topics courses, offered on a selective basis, may also count toward the minor with permission from the Women’s, Gender, and Sexuality Studies Program Director.

Total Hours  18

Derrick Hall Room 101
T: 512.245.2339
www.txstate.edu/internationalstudies (http://www.txstate.edu/internationalstudies/)

Demand for globally aware graduates with knowledge of international business, cultural and area studies, and language skills continues to increase. Globalization has created a need for people with cultural understanding and international perspective in business, law, diplomacy, and communications technology, NGO’s and other fields. The Bachelor of Arts in International Studies (B.A.I.S.) prepares students for these and other opportunities.

In addition to its academic programs, the Center offers students internship, service learning and study abroad opportunities.

**Peace Corps Prep**

Peace Corps Prep is a certificate program for undergraduates who wish to build on the four competencies (training/experience in a work sector, foreign language skills, intercultural competence, and professional and leadership development) that Peace Corps looks for in its applicants. The certificate also gives students a competitive edge when applying for Peace Corps service.
for Peace Corps service. The program is open to all majors. While
the program does not guarantee acceptance into the Peace Corps,
undergraduates will gain skills that are an advantage in the application
process, and in other international development work. Being part of the
program demonstrates to any future employer that participating students
think and act with global understanding and cultural awareness.

**Academic Advising**

Majors receive advising assistance from the College of Liberal Arts
Academic Advising Center, and a full time academic program coordinator
at the Center. The Center works with the Office of Career Services to
prepare students for internationally focused careers in various fields,
and with the College of Liberal Arts Academic Advising Center to ensure
students' timely graduation.

**Graduation Requirements**

All B.A.I.S. majors are required to maintain a TXST GPA of 2.75, a
major GPA of 3.00, complete the Texas State general education core
curriculum, the International Studies Core, and the International Studies
major courses. Additionally, all undergraduate students pursuing the
B.A.I.S. degree are required to complete a global academic experience.
The requirement can be fulfilled by an education abroad course or an
International Studies Internship, IS 4387, that entails international
work, service, or group research. The Center’s director and academic
coordinator will work closely with B.A.I.S. majors to find the best options
for faculty-led or independent international study. B.A.I.S. majors
are not required to complete a minor. Students must meet all course
prerequisites. Please see the College of Liberal Arts, and the Degrees and
Programs sections of this catalog for specific information on the general
education core curriculum, and special requirements for the B.A.I.S.

B.A.I.S. majors are required to complete the special requirements in
science, modern language, and English Literature. For B.A.I.S. majors,
the list of approved additional science courses under that section is
expanded to include statistics. Approved statistics courses are:

**Courses in International Studies (IS)**

A senior-level seminar that explores international topics through reading,
writing, research and group discussion. Students will be expected to
produce a significant research paper. This course is required for all
International Studies majors and should be taken in the senior year of
undergraduate study. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Content|Writing Intensive
Grade Mode: Standard Letter

IS 4387. International Studies Internship.
A semester-long work and study experience in a local, national, or foreign
setting. Internships must be approved by the director of the Center for
International Studies. May be repeated for credit. Prerequisite: Instructor
approval.
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
IS 4390. Problems in International Studies Research.
The instructor and student create an in-depth research project on a topic of interest to both participants.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

IS 4687. International Studies Internship.
A semester long work and study experience in a local, national, or foreign setting. Internships must be approved by the director of the Center for International Studies. Repeatable once for credit. Prerequisite: Minimum 3.0 Texas State GPA.
6 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree requires three additional hours of English literature; and three hours of mathematics, science, logic, or computer science courses.

3. Students are required to complete a global academic experience that can be fulfilled by an education abroad course or IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. To satisfy graduation requirements, students must have at least a 2.75 Texas State GPA and a 3.00 GPA in the International Relations major.

* Prerequisites and restrictions may apply to the following courses.

**Minimum required: 120 semester credit hours**

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree requires three additional hours of English literature; and three hours of mathematics, science, logic, or computer science courses.

3. Students are required to complete a global academic experience that can be fulfilled by an education abroad course or IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. To satisfy graduation requirements, students must have at least a 2.75 Texas State GPA and a 3.00 GPA in the International Studies major.

1. All five semesters of language requirements must be in the same language.
2. One course from the following may be chosen to satisfy the Mathematics Component Code 020: MATH 1315 (TCCN 1314), MATH 1319 (TCCN 1324), MATH 1329 (TCCN 1325), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).
3. An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

* No more than 3 courses may be taken from the same discipline/prefix. Prerequisites and restrictions may apply to the following courses.

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree requires three additional hours of English literature; and three hours of mathematics, science, logic, or computer science courses.
3. Students are required to complete a global academic experience that can be fulfilled by an education abroad course or IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. To satisfy graduation requirements, students must have at least a 2.75 Texas State GPA and a 3.00 GPA in the International Studies major.

**Total Hours** 18

1. The six hours of advanced electives are to be selected from an approved list that is available in the Center for International Studies. Please contact an advisor for this list.

Students wishing to satisfy coursework in the minor through participation in Texas State Affiliated programs through the Education Abroad Office must complete all of the following steps:

1. Declare International Studies as a minor before going abroad.
2. Attend a General Information Session through the Education Abroad Office.
3. Complete the Transfer Credit Agreement Form.
4. Complete the Texas State Affiliated Program Application.
5. Submit the Transfer Credit Agreement Form to the Center for International Studies (Center) and meet with the Director, Associate Director, or Academic Advisor of the Center to review the completed Transfer Credit Agreement Form. A completed Transfer Credit Agreement form should include prospective courses from the affiliated institution and the Texas State equivalency. All courses evaluated via Transfer Credit Agreement Form must be approved by the Director or Associate Director of the Center. The Center will review courses with the following prefixes (pending evaluation as an Elective Advanced course - ELADV) – ANTH, ECO, FIN, GEO, HIST, IS, MC, MGT, MKT, PA, PHIL, POSI, PS, and SOCI. Additional courses outside of approved prefixes will be evaluated on a case-by-case basis.
6. Submit the Texas State Affiliated Program Application to the Education Abroad Office with a copy to the Center.
7. Apply through your respective Affiliated Provider.

Enrolling in courses not indicated on Transfer Credit Agreement may result in courses not being counted towards degree program. Such courses may be ineligible for financial aid. Any new course selection will require an updated Transfer Credit Agreement form that must be reviewed and approved by the Center.

Brazos Hall Room 212

The Center for the Study of Southwest, established in February 1990 in the College of Liberal Arts, has a threefold mission: curriculum development, public outreach, and research. Its 18-hour interdisciplinary minor, administered jointly with the Department of English, was approved in 1992. The Center draws faculty from varied disciplines (Art, Biology, English, Geography, History, and others); it disseminates information about its programs and research through *Southwestern American Literature*, a biannual journal devoted to the literature and culture of the Greater Southwest, and *Texas Books in Review*, a journal that monitors publications from or about Texas.

The Center for the Study of the Southwest, funded in part by grants from the National Endowment for the Humanities and the Houston Endowment, promotes the exchange of knowledge about regional issues among individuals, communities, and institutions across the U.S. Southwest and northern Mexico. The Center encourages students, teachers, and the general public to understand the power of place to build identity, honor diversity, strengthen community, and celebrate the human spirit.

**Minor**

- Southwestern Studies (p. 474)

The minor in Southwestern Studies requires 18 semester credit hours. Students are required to take at least two of the core courses for the minor. No more than three courses in a single department may count toward this minor. A course may not be used to satisfy both a major and a minor requirement. Relevant Honors and topics courses may be substituted with permission from the Director of the Center for the Study of the Southwest.

www.txstate.edu/anthropology (http://www.txstate.edu/anthropology/)

Anthropology is the study of human cultural and biological variation and evolution. It is a holistic discipline taking into consideration all aspects of human existence. In a general sense, anthropology is concerned with determining what humans are, how they evolved, and how they differ from one another. Anthropology at Texas State is divided into three major subfields: cultural anthropology, biological anthropology, and archaeology and we offer coursework and training in each of these areas.

Undergraduate Anthropology majors choose between two degrees: The Bachelor of Arts and the Bachelor of Science. The undergraduate curriculum for students seeking the BA and BS degrees in Anthropology is structured to ensure that all students receive the knowledge to achieve the educational outcomes prescribed by the faculty, as well as allow for flexibility in training so that the personal goals of each student is achieved. Students pursuing either degree have the opportunity to participate in department field schools and/or internship program.

Graduates can be found in a surprising array of fields and careers, such as corporations, all levels of government, educational institutions and non-profit associations. Post-graduate employment includes Education/Outreach, Archeology, Cultural Resource Management (CRM), Historic Preservation, Museum/Curation/Project Design, Community Development, Advocacy (human rights/social justice), Human/Social Services, Management Consulting/Organizational Development/Training, Computers/Software Development/Information Technology, Design (products and/or services), International Development/Affairs, Forensics, Mass Communication, Law/Criminal Justice/Law Enforcement, Administration/Management, Ethnography, Evaluation/Assessment, Health (international/public health), Environment and Natural Resources,

**Bachelor of Arts (B.A.)**
- Major in Anthropology (p. 482)

**Bachelor of Science (B.S.)**
- Major in Anthropology (p. 483)

**Minor**
- Anthropology (p. 484)
- Social Impact through Applied Research (http://mycatalog.txstate.edu/undergraduate/liberal-arts/anthropology/social-impact-applied-research-minor/)

**Courses in Anthropology (ANTH)**

**ANTH 1312. Cultural Anthropology.**
In this course students examine the nature of cultural variation of populations in the present and recent past. Its subjects include social, political, economic, and ideological aspects of human cultures. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080|Multicultural Content
Grade Mode: Standard Letter
TCCN: ANTH 2351

**ANTH 2101. Biological Anthropology Laboratory.**
This laboratory course accompanies Biological Anthropology. It provides students with hands-on experience with the materials and methods of biological anthropology. Students examine human genetic and anatomical variability, anatomical and behavioral similarities and differences among living primates, human skeletal anatomy, and evidence for human evolution from the fossil record.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ANTH 2101

**ANTH 2301. Biological Anthropology.**
This lecture and accompanying laboratory course examine fundamental aspects of the biological nature of humans. Course content is divided into topics devoted to explaining the scientific method, evolutionary theory, genetics, speciation, variation and adaptation, nonhuman primates, and human evolution.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: ANTH 2301

**ANTH 2302. Introduction to Archaeology.**
This lecture and accompanying laboratory course examine the basic principles of archaeology. It includes a study of the kinds of sites; classification of stone artifacts; methods of archaeological survey and excavation; methods of dating by geological, faunal, and radiometric means; and the theoretical approach to archaeology. Corequisite: ANTH 2102.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: ANTH 2302

**ANTH 3101. Writing Anthropology.**
This course offers tutelage in professional scholarly writing, word processing software, library research, scientific and ethnographic writing styles, and effective use of anthropological literature. Because it provides core skills presupposed by advanced anthropology courses, students should enroll in it alongside their first writing-intensive anthropology electives.
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

**ANTH 3201. Professionalization in Anthropology.**
This course surveys the breadth of careers open to people holding anthropology degrees. Issues discussed include professional ethics, specialized skill sets, the transferable skills of liberal arts degrees, broad trends in the labor market, and steps toward pursuing relevant careers.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**ANTH 3301. Principles of Cultural Anthropology.**
This course is an ethnographically-based analysis of major theoretical positions and debates in contemporary anthropology. (WI) Prerequisites: ANTH 1312 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ANTH 3302. Introduction to Linguistic Anthropology.
This course provides an introduction to the study of linguistic anthropology. We will focus on the origin of language and its evolution and diversity, the interactions between language, culture and society, and modes of communication. This course will enhance a student's awareness of the complex interrelationships between language and other aspects of culture. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3303. Applied Cultural Anthropology.
In this course students learn the methods applied cultural anthropologists use to address social problems such as poverty, sustainable development, conflict, climate change, community health, workplace and product design, education, and cultural heritage, as well as the value "thinking anthropologically" has for a wide range of careers.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3304. Bioarchaeology.
Bioarchaeology is the study of human skeletal remains in relation to the archaeological record. In this course students will study theories and methods used in the analysis of human skeletal remains in bioarchaeology to reconstruct patterns of subsistence, diet, disease, demography, biological relatedness, and physical activity of past populations.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 3305. Magic, Ritual and Religion.
An examination of magic and religion in cultures of the world with an emphasis on recent works dealing with mysticism and the occult. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3306. World Prehistory.
This course presents a survey of the prehistoric human record throughout the world. It focuses upon the achievements of early and modern humans, world colonization events, and the development of complex societies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3307. History of Evolutionary Thought.
This course discusses the impact of evolutionary discourse within the context of its history. Students will develop a thorough understanding of evolution and its importance to anthropology, as well as to other scientific disciplines. (WI) Prerequisites: ANTH 2301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course surveys Cultural Resource Management (CRM) archaeology, the conservation and investigation of archaeological remains as mandated by federal and state laws. The course covers the history of CRM and its legal and regulatory framework, organization, methods, funding, employment prospects, and ethical and practical dilemmas.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3309. Cultures Through Film.
Through films, lectures, and discussions, students explore the various ways that ethnographic film interprets the cultural environment and social interactions of small-scale cultures around the world. We will also discuss anthropological interpretations of how historically U.S. (American) culture has dealt with concepts of the "other" and supernatural phenomena through film. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3311. Disease and Society.
In this course students examine infectious diseases and the effect they have on human societies. The course is organized into case studies of specific infectious diseases, which focus on the biology and epidemiology of a disease as well its social impact.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3313. Aztec: Native Americans and Empire.
This course presents an understanding of Aztec culture through archaeology, the interpretation of art, religion, and architecture, and the formation of a highly specialized and stratified society with an imperial administration. The course will emphasize an intellectual and religious outlook in intimate contact with the earth, sky, and the seasons.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ANTH 3314. Latin American Cultures.
This course examines different aspects of Latin American indigenous cultures from a variety of theoretical perspectives in anthropology. Emphasis is on the Maya, and different theoretical perspectives provide different interpretations of data. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 3315. Archaeology of the Southwest.
An examination of the prehistory and early cultures of the Greater Southwest from the first arrival of humans as early as 20,000 years ago to the coming of the Spaniards in the 16th century. The course covers several mammoth kill sites at the end of the Pleistocene; the emergence of Archaic hunters and gatherers and the appearance of agriculture about two thousand years ago, leading to the three major cultures in the southwest-the Mogollon, the Hohokam and the Anasazi, the last in multistoried pueblos and cliff dwellings. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3316. The Origin and Evolution of Human Behavior.
This course presents our current understanding of Old World Paleolithic Archaeology. The origin and evolution of hominin behavior, the initial colonization of the Old World, and the development of modern human behavior will be discussed for each continent. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 3317. Rock Art Field Methods.
This course will train students in rock art field methods. They will gain first-hand experience recording rock art sites through photography, field sketches, mapping, and written inventories. Students will generate a visual and written description of the art, which they will use to infer and explain past human behavior.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3318. Texas Archaeology.
This course will present our current understanding of Texas archaeology. The environmental and social contexts of prehistoric, protohistoric, and historic records of Native American and Spanish occupations in Texas are discussed. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 3322. Peoples and Cultures of Africa.
This course is a general introduction to the contemporary peoples and cultures of Africa. Students will examine the social structure, economy, political systems, and religions of African cultures in the context of the radical economic and social transformations affecting the area. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3324. Mexican American Culture.
This course provides exploration of Mexican American culture with an emphasis on the US-Mexico transborder region. The course integrates history, anthropology, and ethnic studies to capture the broad diversity of Mexican American experiences. Some of the topics covered include identity, social movements, Chicana feminism, transnational migration, spirituality, and cultural expressions such as visual art, film, music, and performance. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3325. Medical Anthropology.
This course focuses on how illness identities are culturally constructed, how adaptations or maladaptations to local environments affect health, how political and economic forces influence health and health behaviors, and how the practice of medical anthropology can contribute to solving urgent health issues around the world.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3327. Anthropology of Religion and Fundamentalism.
This course provides students with current and historical approaches to the anthropology of religion with a particular emphasis on fundamentalism. It focuses on the development of religious fundamentalism in different cultural contexts, geopolitical situations, and religious traditions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3330. Archaeological Curation and Collections Management.
This course provides technical training in and an understanding of the principles and methods of curating and managing archaeological collections. Students review the history of archaeological curation in the United States as well as relevant laws and regulations. Additional topics covered include types of repositories and storage facilities, costs of curation, policies, collection rehabilitation, archival processing, basic preventative conservation strategies, and using archaeological collections to educate the public.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter
ANTH 3331B. Anthropology in Practice.
This course introduces students to the application of anthropological ideas, methods, and skills in multiple employment sectors. Students will develop key job skills in communication, teamwork, networking, professional development, and project management.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ANTH 3331D. Dental Anthropology and Oral Biology.
The biological development of the cranio-facial structures will be presented with emphasis on hard tissue anatomy and diseases. Dental traits will be discussed in relation to human evolutionary concepts. Forensic methods that support identification of human remains are emphasized. This course is appropriate for anthropology students and pre-professional dentistry. Prerequisite: ANTH 2301 or [BIO 1130 and BIO 1330] any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ANTH 3331E. Anthropology and the Law.
This course explores the role of law as an instrument of social change, justice, and human rights. Topics include law as a social system, understanding legal reasoning, identifying key actors, how law influences change, how law is depicted in popular culture, and how law influences anthropological research.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ANTH 3331F. Nonverbal Communication-Gestures.
Communication involves the use of 'invisible' words and gestures, or 'visible actions.' This course focuses on gestures, what they are, how they are used, what role they play in communication and in thinking, and their cultural underpinning. Students will learn the theoretical and methodological issues involved in studying different gestures across societies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ANTH 3331G. The Archaeology of Cannibalism and Sacrifice.
Students in this course explore kinds of violence in past societies considered especially shocking or controversial in the contemporary, developed West: human sacrifice and the consumption of the human dead. Avoiding exoticism and suspending moral evaluation in favor of anthropological inquiry, we will consider cannibalism and sacrifice as cultural expressions of universal human drives and preoccupations and as historically specific solutions to common problems in social organization. We will examine archaeological and ethnohistoric case studies drawn from a wide range of time periods, cultures, and regions in an effort to identify and explain diversity and commonalities among such practices.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Intensive
Grade Mode: Standard Letter

ANTH 3331I. Race and Biological Anthropology.
In this course students will learn where race concepts originated, examining the worldview and scientific mindsets that guided biological anthropology into the 21st century. We will explore how social race has become biological, put forth pragmatic solutions in the context of anthropology research, and help develop an informed scientific practice.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Intensive
Grade Mode: Standard Letter

ANTH 3331J. Innovation, the Future & Society.
This course explores the nature of innovation under late capitalism via entrepreneurship. Drawing on the anthropology of business, design, organizations, economics and technology, students will review with a critical lens how people strive for better futures and what anthropology can do to improve these efforts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ANTH 3332. Myths and Moundbuilders.
This course presents an anthropological approach to Native Americans of the Southeastern United States, their culture and beliefs. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
ANTH 3335. The Anthropology of Native American Belief Systems.
In this course students use anthropological approaches to investigate past and present Native American belief systems in order to determine the temporal range and evolving complexity of Native American religious and ritual expression.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3336. Community Research Project.
This course gives students the opportunity to conduct hands-on anthropological research on a variety of topics in local communities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3337. Language and Linguistics.
This course is concerned with the theoretical and methodological study of language, what constitutes the knowledge of a language, how this knowledge is acquired, and how it is used. Other areas of interest include the properties of human language, its representation in the mind, learnability, origin, and change.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3338. Geoculture.
This course will teach students how to interpret sediments and the nature of sediment accumulation at archeological sites. Course topics include sedimentology, natural depositional environments, weathering processes and soil development, stratigraphic analysis, and archaeological site formation processes. (WI) Prerequisite: ANTH 2302 or GEOL 1410 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3339. Contemporary Film and Global Culture.
This course examines the relationship of recent film to both national culture and our increasingly globalized world culture. It focuses on the relationship between the creators of film, their intended audiences and the cultural context of both of these. It explores the way that film relates to current issues.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

An examination of the long and diverse record of human and nonhuman biological adaptations as viewed from the fossil record. It examines the functional and ecological challenges that may have been responsible for the path of human development.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3342. Primate Behavior.
In this course, students will learn about the behavior, ecology and conservation of nonhuman primates (lemurs, lorises, monkeys, and apes).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3343. Human Variation and Adaptation.
This course examines the physical variation observable within and between human populations. It emphasizes a functional approach whereby variation is examined in relation to biological adaptation. It explores the biological mechanisms responsible for change and evaluates the potential of biological components in human behavior.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3345. Archaeology of Mesoamerica.
This course examines the development of culture from early hunters and gatherers through the appearance of agriculture to the rise of civilization. The focus of the course is on the emergence of complex society among groups such as the Olmec, Aztec, and Maya. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 3347. Archaeology of North America.
This course describes human settlement of North America from the end of the Pleistocene to European discovery. It considers early occupation of arctic, plains, and forested regions and development during archaic times of Adena, Hopewell, and Mississippian societies in the Southeast and Mogollon, Hohokam, and Anasazi in the Southwest.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

In this course, students will learn about the ecology and conservation of rainforest flora and fauna, with particular emphasis on primates.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3349. The Incas.
The Incas were the largest Pre-Columbian empire in the Americas and this course will explore the origins of this civilization and how they conquered such a large area of South America. Using archaeological and historic information the class will examine various aspects of Inca society including religion, economics, and kingship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ANTH 3350. Gender and Sexuality in Cross-cultural Perspective. 
This course explores historical and contemporary issues related
to gender and sexuality from cross-cultural perspectives. It will focus on
cultural constructions of gender and sexuality and explore key themes in
queer anthropology as well as US minority and Global South feminisms
through expressive and documentary forms including music, film, art and
performance. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3351. Anthropology of Peace and Violence. 
This class explores anthropological perspectives on peace and violence.
It focuses on understanding violent practices within both traditional and
current day societies including everyday violence and warfare. It explores
the contributions of social structure, gender, religion, race, and ethnicity
to violence. It examines efforts to build peace and reconciliation.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

ANTH 3352. Language and the Body. 
This course focuses on how language shapes our identities and deeply
held beliefs about our bodies. Students will have an opportunity to
engage in discourse analysis of media representations as well as
collect and analyze their own conversational data using the methods of
linguistic and cultural anthropology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3353. Human Structure and Function. 
Students study the structure and basic function of the human body with
emphasis on the skeletal, muscular, and nervous systems. This course
provides a basis for other courses in biological anthropology.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 3354. Archaeology of Andean Civilizations. 
This course examines the cultures of the Andes Region of South America
with an emphasis on pre-Columbian and contemporary peoples of the
area.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3355. Historical Archaeology. 
This course is designed to provide students with an intensive overview
of historical archaeology method, theory, and artifacts in Texas and
North America. Using the methods and theories of historical archaeology, 
students analyze historical narratives, which incorporates research, 
documents, and material culture from historic period sites.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 3356. Economic Anthropology. 
Reviews central issues in economic anthropology, using both case
studies and theoretical writings. Analyzes production, exchange,
distribution, consumption, property, economic surplus, inheritance,
and types of economic structure. Materials will cover huntergathere- 
societies, simple agricultural societies, pre-capitalist complex state
societies, and issues of development in nonindustrialized countries.
(MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ANTH 3357. Forensic Anthropology. 
In this course students will learn about planning, organizing, and carry-
ning out archaeological field investigations from survey to excavation to
specialized data recovery. The focus is on the research strategies,
techniques and logistics necessary to design and accomplish successful
field research. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3358. Human Evolutionary Anatomy. 
This course is designed to give students an anatomical background to
the study of human evolution with a focus on the comparative anatomy
of apes, living humans, and fossil hominins.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 3359. The Art and Archaeology of the Olmec. 
This course will present our current understanding of the art and
archaeology of the Olmec culture, the earliest known civilization in North
America. The Olmec culture is considered the influential foundation for
later Mesoamerican civilizations such as the Maya and the Aztec.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3360. Anthropology of Youth. 
This class will provide an overview of issues in adolescent and emerging
adult health and development in national and international contexts.
Drawing from several disciplines including anthropology, education,
public health, psychology, and sociology, we will critically examine
existing research on youth and discuss underlying assumptions, research
methodologies, and findings.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3361. Archaeological Field Methodology. 
This course will present our current understanding of the art and
archaeology of the Olmec culture, the earliest known civilization in North
America. The Olmec culture is considered the influential foundation for
later Mesoamerican civilizations such as the Maya and the Aztec.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 3362. Forensic Anthropology. 
Forensic Anthropology is the recovery and analysis of human skeletal
remains for modern legal inquiry. This course is an overview of the field of
Forensic Anthropology illustrated with real forensic cases.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
ANTH 3381. Human Osteology.
The foundation of biological anthropology is the study of the human skeleton. This is a lab-intensive course in which students will learn how to identify skeletal elements, both whole and fragmentary.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 3382. Archaeology of the Earliest Americans.
Precisely when the first people arrived in the Americas, where they came from, and how they got here are the subjects of longstanding debate. In this class we will draw upon archaeological, biological, linguistic, and environmental evidence to reconstruct the earliest human prehistory of the New World.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4303. Human Speech Sounds.
This course is an introductory overview of human speech production and perception from an anthropological perspective. It describes speech anatomy and pays particular attention to the description of the acoustic and articulatory properties of speech as it occurs in real time. Students will study articulatory, acoustic, and auditory phonetics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4304. Language, Culture and Society.
This course seeks to introduce students to the fundamentals of linguistic anthropology, and the use of linguistics in anthropological fieldwork through lecture, discussion, and “hands on” class exercises.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4309. Culture, Medicine and the Body.
This course explores how the human body, functions of the body, and the practices of medicine and healing are situated and contextualized within cultural frameworks. Case studies cover body and health-related topics over the life course, from birth to death. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4310. Theories and Issues in Anthropology.
This course explores major theoretical and historical developments in anthropology, highlighting the discipline's unique four-field perspective that includes archaeology, biological and cultural anthropology, and anthropological linguistics. Topics stress the importance of anthropological thought in key scientific discoveries and cultural debates. Prerequisites: ANTH 1312 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4315. Archaeological Artifact Identification and Analysis.
This course will train students to describe and analyze artifacts commonly recovered from archaeological sites. Current theories covering the production and analysis of chipped and ground stone tools, ceramics, bone and other materials will be presented, and scientific analytical methods discussed. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4320. Rise of Civilization.
This course consists of a definition of civilization and its components, its geographic setting, and the roles of religion, art, and the institution of the "Divine King" in the development of dynamic state societies in Egypt, Sumeria, the Indus Valley, and China in the Old World and that of the Olmec in Mexico and Chavin in Peru. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ANTH 4326. Field Methods in Forensic Anthropology.
In this course students will learn how to locate, excavate and recover human remains, associated personal effects, and other materials in order to ensure legal credibility for all recoveries. Prerequisite: ANTH 3381 with a grade of "D" or better.
3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4337. Theory in Linguistic Anthropology.
In this course students will be introduced to the major theories of linguistics through reading and discussing classic and contemporary literatures. Particular attention will be given to how the various theories have influenced linguistic anthropology. (WI) Prerequisites: ANTH 1312 or ANTH 3302 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4339. Theoretical Concepts in Archaeology.
This course provides a broad survey of theory in archaeology as it is practiced throughout the world. It includes both historical perspectives and contemporary usage. (WI) Prerequisite: ANTH 2302 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ANTH 4360. Directed Study.
A one-semester course of independent reading, tutorial sessions, and individual research projects. Open to superior students by invitation of the professor and with the consent of the chair of the department. May be repeated for credit with permission of instructor.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

ANTH 4361. Field Methods in Cultural Anthropology.
This course teaches students how to conduct field research in cultural anthropology. Topics include research ethics, problem formulation, participant observation, interviewing, and other techniques for data collection and analysis. Students will conduct their own field research project under the instructor's supervision. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ANTH 4363. Methods in Primate Research.
In this course, students will learn about the methods used to study primates in captive and field settings.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 4381. Paleopathology.
This course focuses on the study of diseases and maladies of ancient populations, and will survey the range of pathology on human skeletons from trauma, infection, syphilis, tuberculosis, leprosy, anemia, metabolic disturbances, arthritis, and tumors. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course is for students who wish to advance their osteological skills. Students will learn how to identify isolated and fragmentary skeletal remains to estimate age, sex, ancestry, stature, and health of an individual in past and present contexts. Prerequisite: ANTH 3381 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

ANTH 4390. Internship in Anthropology.
This course provides students with professional development through work or research-related experience. After consulting the internship coordinator, students choose placements matching their interests and develop individualized internship contracts. Interns meet to discuss career preparation and anthropological topics related to each intern's activities, keep a journal, and submit a final report. Prerequisites: Minimum 2.5 Major GPA and instructor approval.
3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingWriting Intensive
Grade Mode: Standard Letter

ANTH 4600. Bioarchaeology Field and Laboratory Methods.
In this course students will be trained in the documentation, contextual assessment, and recordation of human skeletal remains in bioarchaeological settings. Students will engage in research projects, gaining practical laboratory and field experience. Prerequisite: ANTH 3381 with a grade of "D" or better or instructor approval.
6 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

ANTH 4630. Archaeological Field School.
This course is designed to train students in the skills and techniques of modern archaeological survey and excavation of prehistoric sites. May be repeated for credit, but only six hours may be applied toward the major.
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat ProcessingLab Required
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. Life and Physical Sciences component courses may not include ANTH 2101 or ANTH 2301.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature; three hours of mathematics, science, logic, or computer science courses (not to include ANTH 2301); a minor; and six hours of 2000-level modern language courses. Most students will have to complete the 1410 and 1420 language courses as prerequisites before attempting the 2310 course.
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).
5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. This major requires 32 semester credit hours of Anthropology courses which 18 hours must be advanced courses. Students may not receive more than six hours of credit in ANTH 4630 to satisfy Anthropology major requirements. Students must complete one of the following theory-based Anthropology courses:

<table>

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Twelve hours of writing intensive (WI) courses are required for graduation.

3. Students must select a minor from the following list of lab-based science minors: biology, chemistry, physics, geology, geography, computer science, or mathematics.

4. All students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. This major consists of 35 semester credit hours of Anthropology courses, 18 of which must be advanced. Students may not receive more than six hours of credit for ANTH 4630 to satisfy Anthropology major requirements. Students must complete one of the following Anthropology theory-based courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 3301</td>
<td>Principles of Cultural Anthropology</td>

</tr>
</tbody>
</table>

7. Students must complete one of the following statistics courses:

   CJ 3347, GEO 3301, PSY 2301, or SOCI 3307.

8. Students are required to achieve a major GPA 2.50 for graduation.
9. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

Faculty in the Department of English teach, conduct research in, and advance the discipline of English Studies, including rhetoric and composition, creative writing, technical communication, film and media studies, literature and language. They prepare undergraduate students to pursue further education and/or careers; to think, write, and speak clearly; to produce authoritative scholarship and inspiring creative work; to read with pleasure, skill, and understanding; and to appreciate the power and subtlety of discourse in various media.

While gaining a broad liberal education, English majors also learn practical skills that provide a base for almost any career. Graduates traditionally enter the fields of education, journalism, publishing, or communications. They also work for computer, engineering, and public relations firms or pursue careers in politics and government. An English background provides excellent training for law school and other graduate programs.
Bachelor of Arts (B.A.)

- Major in English (p. 492)
- Major in English (Creative Writing Emphasis) (p. 494)
- Major in English (Film Emphasis) (p. 497)

- Writing (p. 506)
- Second Teaching Field in English (Grades 7-12) (p. 506)

English (ENG)

Requirements in first-year English must be completed before a student takes any other English course.

ENG 1300. Developmental Writing.
Basic composition skills. For students who have not satisfied TSIP requirements or for those who need developmental work before taking English 1310. Credit earned for this course does not count toward any degree offered by the university.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Developmental/Remedial
Grade Mode: Developmental

ENG 1310. College Writing I.
Expository writing as a means of exploring and shaping ideas. Emphasis on critical reading and the improvement of essays through revision. (MULP) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Communication Core 010|Multicultural Perspective|Multicultural Content
Grade Mode: Standard Letter
TCCN: ENGL 1301

ENG 1320. College Writing II.
Continuation of English 1310. Expository writing as a means of analyzing and understanding texts. Research paper required. Requirements in sophomore English must be completed before a student takes any advanced work in English. (MULP) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Communication Core 010|Multicultural Perspective|Multicultural Content
Grade Mode: Standard Letter
TCCN: ENGL 1302

ENG 1321. Writing for Sustainable Change.
This service-learning writing course focuses on supporting sustainable community initiatives in the local area. All writing assignments target real-world audiences in order to advance existing and/or proposed community projects. Writing assignments reflect a variety of genres, including multimodal texts and group-authored projects. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Communication Core 010|Writing Intensive
Grade Mode: Standard Letter
TCCN: ENGL 1302

ENG 2310. British Literature before 1785.
Students study representative authors and works of British literature from the beginnings through the Neoclassical Period.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive
Grade Mode: Standard Letter
TCCN: ENGL 2322

ENG 2320. British Literature since 1785.
Students study representative authors and works of British literature from the Romantic Period to the present.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive
Grade Mode: Standard Letter
TCCN: ENGL 2323

ENG 2330. World Literature before 1600.
Students study representative authors and works of literature from the ancient world to the early modern world. Readings may come exclusively from the Western tradition or from various literary traditions, such as those of Africa and Asia.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive
Grade Mode: Standard Letter
TCCN: ENGL 2332

ENG 2340. World Literature since 1600.
Students study representative authors and works of literature from the modern world. Readings may come exclusively from the Western tradition or from various literary traditions, such as those of Africa and Asia.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive
Grade Mode: Standard Letter
TCCN: ENGL 2333
ENG 2359. US Literature before 1865.
Students survey representative authors and works of US literature from
the beginnings to the Civil War.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core
090|Lang, Phil & Culture CAO 094|Writing Intensive

TCCN: ENGL 2327

ENG 2360. US Literature since 1865.
Students survey representative authors and works of US literature from
the Civil War to the present.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core
090|Lang, Phil & Culture CAO 094|Writing Intensive
Grade Mode: Standard Letter
TCCN: ENGL 2328

ENG 2371. U.S. Literature: Writing Identities.
In this course students survey writers and texts that reflect a variety
of identities and traditions throughout U.S. history, from the colonial
era to the present. Students read and analyze literary texts; develop an
appreciation of literature as an art form; and gain an understanding of the
role of literature in its historical, social and cultural contexts.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Component Area Core
090|Lang, Phil & Culture CAO 094|Writing Intensive
Grade Mode: Standard Letter

ENG 2301. Critical Approaches for English Majors.
This course introduces the critical methods and practices underpinning
rhetorical and literary analysis within various branches of English Studies
and develops the skills of reading, writing, and research. It is required for
majors and open to minors and should be taken in the first semester of
upper division classes. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3302. Film and Video Theory and Production.
This course covers the study of film and narrative theory combined with
the practice of videography and video editing. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ENG 3301. Critical Approaches for English Majors.
This course is an introduction to screenwriting that combines the study
of published film texts with workshop practice in writing for film. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3303. Technical Writing.
This course concerns writing in technical professions. It emphasizes
planning, writing, revising, editing, and proofreading proposals, reports,
instructions, and other forms of professional communication for a variety
of audiences. (WI) Prerequisite: ENG 1310 or ENG 1320 or ENG 1321 any
with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Communication Core 010|Writing Intensive
Grade Mode: Standard Letter

ENG 3304. Professional Writing.
The principles of expository writing adapted for the workplace. Prepares
students in non-technical fields to write documents commonly used in
professional settings. Students compile a writing portfolio suitable for a
job search or for application to professional school. Computer technology
included. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3305. Life Writing.
This course covers approaches to and/or practices of life writing in
rhetoric and writing studies, including autoethnography, narrative inquiry,
counterstorytelling, literacy narratives, scholarly personal writing, or
personal writing. Specific content and focus vary by section. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3306. Writing for Film.
This course is an introduction to screenwriting that combines the study
of published film texts with workshop practice in writing for film. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3307. Introduction to the Study of Film.
This course provides an introduction to basic film terms and concepts,
various theoretical approaches to the study of film, and to important
debates within film theory. Its focus will include, but is not limited to,
theories of spectatorship, the debate between formalism and realism,
psychoanalytic and feminist theories, and cultural approaches to film.
This course should be taken before other upper-division film courses.
(MULT) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
ENG 3308. Advanced Topics in Film.
This course offers a focused examination of film as text, with an
emphasis on critical, theoretical, cultural, historical, generic, and/or
stylistic aspects. Specific content and focus vary by section and may
include the history of classical Hollywood cinema; silent film; world,
European, or national cinemas; or the documentary. This course may be
repeated once for credit when its topic varies. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural
Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3309. The Southwest in Film.
A survey of films of the Southwest, emphasizing the history and cultural
diversity of the region as represented on screen. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course concerns the study and practice of advanced expository
writing, with a focus on achieving rhetorical dexterity and effective
communication. Specific content and focus vary by section and may
include The Essay, Nature Writing, Argument, Writing for the Government,
or Online Communication. This course may be repeated once for credit
when its emphasis varies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ENG 3312. Internship in English Studies.
Course offers a supervised work experience related to students’ career
interests. Prerequisites: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit

ENG 3313. Scientific Writing.
The course teaches composition techniques that include planning,
organization, revision, usage, and audience identification necessary for
writing in science and/or social science fields. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3314. Introduction to Creative Writing.
A critical seminar for writers of fiction, poetry, and articles. Creativity,
criticism, and revision are emphasized. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3315. Film Adaptation Studies.
This course offers a comparative study of film adaptations from other
media. Specific content and focus vary by section. This course may be
repeated once for credit when its topic varies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural
Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3316. Approaches to Writing and Rhetoric.
This course focuses on approaches central to the study and practice
of writing and rhetoric. Specific content and focus vary by section and
may include Composition Theory, Theories of Technical Communication,
Chicana/o/x Rhetorics, or Literacy Studies. This course may be repeated
when its emphasis varies for up to 9 hours of English credit. (MULT)(WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural
Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3317. The Development of English.
Origin and growth of the English language with particular attention
to phonological, morphological, and grammatical changes; history of
dialects, spelling, and dictionaries; sources of vocabulary. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ENG 3318. The Short Story.
The short story throughout the world since Poe and Gogol. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3319. The European Novel.
Major continental novelists from Cervantes to the present, read in
translation. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3320. Modern Poetry.
Modern poetry in English and English translation. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ENG 3325. Literature in Translation.  
This course examines major works of literature, in translation, since the eighteenth century. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3326. US Drama on Film.  
This course examines masterpieces of US drama and the films that have been made from them. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3327. Early Global Drama in English.  
This course studies examples of global drama from Aeschylus to Ibsen. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3328. Modern Global Drama in English.  
This course studies examples of world drama in English from Ibsen to the present. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3329. Studies in Mythology.  
This course examines myths in various contexts, such as ancient and/or contemporary cultures, mythic patterns in modern literature, and myths produced in popular culture. Specific content and focus vary by section. This course may be repeated once for credit when its topic varies. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3331. Black Literature.  
This course studies selected Black poetry, drama, fiction, and other cultural texts. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3332. Early US Literature.  
This course examines selected US literature from its colonial beginnings to 1865. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3335. US Literature, 1865-1945.  
This course examines selected US literature from the Civil War to World War II. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3336. US Literature, 1945 to the Present.  
This course examines elected US literature from World War II to the present. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3337. The American Novel.  
A study of the novels and pertinent criticism from the beginnings in America. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3338. The American Novel.  
A study of the novels and pertinent criticism from the beginnings in America. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3340. Special Topics in Language and Literature.  
This course covers a variety of topics proposed and taught occasionally by different English faculty members. Specific content and focus vary by section; past emphases have included Early Modern Evil, Sexing the Word, and The Beatles. This course may be repeated twice for credit when its emphasis varies. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3341. Studies in Global Literature.  
This course examines selections from ancient and/or modern literature from around the globe. Specific content and focus vary by section, and the course may be repeated once for credit when its topic varies. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

ENG 3342. Editing.  
A study of editing, to include instruction in making editorial changes, preparing MSS for typesetter, marking galley and page proof; fundamentals of layout and design (typeface, paper, headlines, etc.); problems and possibilities in desktop publishing, and the current status of electronic publications.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter
ENG 3343. The Interdisciplinary Approach to Literature.
The study of a single author, e.g. Saul Bellow, Charles Dickens, Flannery O'Connor, or Virginia Woolf, from an interdisciplinary perspective. Repeatable once, in special situations, when topic varies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ENG 3344. Chicana/o/x Narrative and Social History.
This course examines narratives by people of Mexican descent living in the United States. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3345. Southwestern Studies I: Defining the Region.
The first of two courses in a broad interdisciplinary survey of geophysical, cultural, social, literary, and political history of the Southwest that emphasizes regional and ethnic expressions of culture in architecture, art, economics, law, literature, philosophy, politics, and technology. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3346. Southwestern Studies II: Consequences of Region.
The second of a two-course sequence in a broad interdisciplinary survey of geophysical, cultural, social, literary, and political history of the Southwest, emphasizing regional and ethnic expressions of culture in architecture, art, economics, law, literature, philosophy, politics, popular culture, religion, social science, and technology. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ENG 3347. American Poetry.
Study of American poetry from its beginnings to present. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3348. Creative Writing: Fiction.
A seminar for writers of fiction, with emphasis on creativity, criticism, and revision. (WI) Prerequisite: ENG 3315 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3349. Creative Writing: Poetry.
A seminar for writers of poetry, with emphasis on creativity, criticism, and revision. (WI) Prerequisites: ENG 3315 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3350. Global Medieval Literature.
This course examines medieval contexts, genres, and writings across Europe and beyond. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3351. Early Medieval Literature of the British Isles.
An introduction to Old English life and writings from early culture through Beowulf (texts in modern translation). (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3352. Medieval English Literature.
Studies of important non-Chaucerian writings in the Middle Ages, some in modern translations. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Major poets and prose writers from More to Spenser. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3354. Shakespeare.
Selected plays from the earliest through Hamlet. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Prose and poetry from Donne and Bacon to Milton and Dryden. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 3356. British Literature, 1688-1750.
This course explores late-seventeenth- and early eighteenth-century literature and the development of literary genres. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course explores later eighteenth-century poetry and prose and the beginnings of the Romantic movement. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course explores early nineteenth-century literature and the development of modernism. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ENG 3362. The British Romantics.  
Course explores British poetry and prose of the Romantic Age. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3365. The British Victorian Period.  
British poetry and prose of the Victorian period, 1837-1900. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3368. The British Novel.  
Course explores British prose fiction. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3370. Twentieth- and Twenty-First Century British Literature.  
This course examines selected British poetry, fiction, and drama since 1900. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3371. Queer and Trans Texts.  
This course examines texts engaged with LGBTQIA2S+ culture in various media. Specific content and focus vary by section. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3372. Race and Ethnicity in Texts.  
This course examines depictions, representations, and engagements with race and ethnicity in a variety of texts. Specific content and focus vary by section. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3373. Gender and Sexualities in Texts.  
This course examines depictions, representations, and engagements with gender and sexualities in a variety of texts. Specific content and focus vary by section but may include feminist, queer, trans, and/or men's studies approaches. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3374. Women Writers of the Middle Ages.  
Religious and secular writings by women from the early Church through the 15th century. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3375. Children's Literature.  
A survey of traditional and contemporary literature for children with attention to literary history, aesthetic qualities, and critical approaches. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3376. Adolescent Literature.  
A survey designed to provide a critical philosophy and working repertoire of literature for adolescents. (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3377. Women's Writing.  
This course examines selected writing by women, in various genres and from a variety of historical periods. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3385. Teaching English Language Arts in the Secondary Classroom.  
This course familiarizes future teachers with the discipline of English as a formal field and the practice of teaching English Language Arts. It is a required part of the student teaching sequence and prepares students for the English TExES (Texas Examination of Educator Standards). (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter

ENG 3389. Independent Study in Language and Literature.  
This course consists of an independent study with an individualized reading list, research project, and tutorial sessions, focused on a special problem in language and/or literature. (WI) Prerequisites: Instructor approval.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing  
Grade Mode: Standard Letter

ENG 3392. Women Writers of the Middle Ages.  
Religious and secular writings by women from the early Church through the 15th century. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Writing Intensive  
Grade Mode: Standard Letter
ENG 3393. Postcolonial Literatures.
This course examines postcolonial literatures, such as Canadian, Caribbean, African, South Asian, or Australian, with discussion of aesthetic, cultural, and political issues surrounding them. Texts will be in English. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 4310. Modern English Syntax.
A study of English syntax as described by traditional, structural, and transformational grammarians, with major emphasis on transformational generative syntax.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Selected works in autobiography and biography. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 4325. Literature of the Southwest.
The literature of Texas and the surrounding territory; various types of non-fiction prose, fiction, and poetry. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ENG 4334. US Romanticism.
Course explores the US Romantic movement of the 19th century, with consideration of important authors, intellectual backgrounds, and literary relationships. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 4334. Approaches to a US Author.
This course examines the works of a US author, e.g. Gloria Anzaldúa, Cormac McCarthy, bell hooks, or Toni Morrison. Specific content and focus vary by section, and the course may be repeated once for credit when its emphasis varies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ENG 4345. Approaches to a Global Author.
This course examines the works of a global author, e.g. Dante Alighieri, Anita Desai, Paolo Friere, or Chinua Achebe. Specific content and focus vary by section, and the course may be repeated once for credit when its emphasis varies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ENG 4348. Senior Seminar in Fiction Writing.
Workshop in writing fiction and evaluating manuscripts. Students produce portfolio of creative work. (WI) Prerequisite: ENG 3348 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ENG 4349. Senior Seminar in Poetry Writing.
Workshop in writing poetry and evaluating manuscripts. Students produce portfolio of creative work. (WI) Prerequisite: ENG 3349 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

ENG 4350. Senior Seminar in Film.
This course integrates perspectives from English film and media studies, including film criticism, history, theory, screenwriting, and practical video skills. Each student will choose a focus, and all students will critique scholarly research, screenplays, and video projects that demonstrate concepts learned. Specific content and focus vary by section, and this course may be repeated once for credit when its emphasis varies. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ENG 4351. Chaucer and His Time.
The works of Chaucer and their significance in an important literary and social era. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
ENG 4355. The Later Shakespeare.
The problem comedies, through the tragedies, to the plays of the final years; emphasis on reading in depth the plays, significant critical materials, and selected plays by Shakespeare's contemporaries. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 4358. Milton.
Milton's longer poems and most important prose writing. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

ENG 4385. Advanced Studies in Children's or Adolescent Literature.
This course studies children's or adolescent literature. Possible topics include a historical period, a geographical area, a genre, a single author, or a theoretical approach, with attention to developing critical and research skills. Specific content and focus vary by section, and this course may be repeated once when emphasis varies for up to six hours of English credit. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 are recommended prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Total Hours: 120

1 Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2 ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

3 An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2322), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

Advanced English Courses
Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses, one of which must be a 4000-level course. Students must take at least one advanced course from four of the five groups listed below as well as nine hours of electives from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 are recommended prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The
A transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**Total Hours: 120**

1 Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2 ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

3 An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 222), ENG 2320 (TCCN ENGL 232), ENG 2330 (TCCN ENGL 233), ENG 2359 (TCCN ENGL 237), ENG 2360 (TCCN ENGL 238), ENG 2371

**Advanced English Courses**

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses. Students must take at least one advanced course from three of the four non-writing groups listed below (A, B, C, or D), and three specified courses from Group E: ENG 3315 and either ENG 3348 and ENG 4348 (fiction track) or ENG 3349 and ENG 4349 (poetry track). They also select one three-hour elective from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 are recommended prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Bachelor of Arts (B.A.) Major in English (Film Concentration)

Electives (as needed) 6 Minor 6

Elective (as needed) 3

Total Hours: 120

1 Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2 ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

3 An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

Advanced English Courses

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses, one of which must be a 4000-level course. Students in the Emphasis in Film must take at least one advanced course from three of the four non-film groups listed below (A, B, C, and E) plus nine hours in film: three hours of ENG 3307 and 6 hours of other film courses. Students also select one three-hour elective from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

*1 May fall into other groups depending on specific course content.

### Minimum Hours: 120 Semester Credit Hours

#### Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/).

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (http://mycatalog.txstate.edu/undergraduate/degree-program-information/) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Nine hours of writing intensive (WI) courses are required for graduation.

5. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. ENG 1310 (http://mycatalog.txstate.edu/search/?P=ENG%201310) and ENG 1320 (http://mycatalog.txstate.edu/search/?P=ENG%201320) are recommended prerequisites to all other English courses.

6. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a "C".

7. This degree program is designed to prepare students for secondary teacher certification in English and requires that students pursue a double major by declaring and completing requirements for both the major in English and the major in Education. The following courses are required for the major in Education:

### Total Hours

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/ (https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F%data=0%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNwOzqOMTubQv3iFRel&reserved=0).

9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**Total Hours: 120**

1. Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

2. ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

3. An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

### Advanced English Electives

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses. Students must take at least one advanced course from Group A and one from Group C, two courses from Group B, and two specified courses from Group E: ENG 3319 or ENG 4310, and ENG 3389. They also select a three-hour elective from any group. In selecting their advanced courses, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

**Minimum required: 120 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 are recommended prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of
Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

### Advanced English Courses

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses, one of which must be a 4000-level course. Students must take one advanced course from three of the four non-writing groups (Groups A, B, C, and D) plus nine hours of electives in writing and rhetoric. In choosing their nine hours of electives in writing and rhetoric, majors with the emphasis in writing and rhetoric must take three hours of theory (ENG 3318, repeatable); three hours of practice (ENG 3303, ENG 3304, ENG 3305, ENG 3311, or ENG 3342); and three hours of theory or practice. They also select one three-hour elective from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

The minor in English requires 24 semester credit hours. Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than 6 hours of sophomore literature may count toward the English minor. Minors must take advanced courses from at least two different groups (Group A—British Literature, Group B—US Literature, Group C—Global Literatures, Group D—Media, Genre, and Visual Studies, or Group E—Writing Studies and Practice).

### Electives

Choose 12 hours of advanced ENG courses

| Total Hours | 24 |

The minor in Media Studies requires 18 semester credit hours. No more than three courses, including core courses, in a single department may count toward this minor. A course may not be used to satisfy both a major and a minor requirement. Students should check with individual departments for course prerequisites. Relevant Honors courses and special topics courses may be substituted with permission from the Director of Media Studies.

The minor in Medieval and Renaissance Studies requires 24 semester credit hours. No more than three courses, including core courses, in a single department may count toward this minor. A course may not be used to satisfy both a major and a minor requirement. Students should check with individual departments for course prerequisites. Relevant Honors courses and special topics courses may be substituted with permission from the Director of Medieval and Renaissance Studies.

This minor is administered by the Center for the Study of the Southwest. For information regarding the requirements please click here (p. 474).

The minor in Writing requires 24 semester credit hours. Students may choose an emphasis in creative writing or professional writing, or they may take courses in both types of writing. Students should consult course descriptions for prerequisites to ENG 3348, ENG 3349, ENG 4348, and ENG 4349.

Students majoring in English may not minor in writing.

</table>

Total Hours: 30

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).
The Geography major under the Bachelor of Arts or the Bachelor of Science degrees provides flexibility in designing unique programs for students with highly specialized career or graduate study objectives. Students electing to follow this major are strongly encouraged to work with a faculty member with experience in their special area of interest.

Major in Geographic Information Science

The general philosophy of the program stresses the importance of a content-rich background in geography along with principles and techniques of Geographic Information Science: GIS; remote sensing; visualization; cartography; spatial modeling; and quantitative methods. The Bachelor of Science major in Geographic Information Science was developed and structured for positions in local, state, and federal agencies, commercial companies, planning departments, engineering firms, utility companies, and many others. To prepare for GIScience careers, many students perform internships with government agencies or private firms as part of their academic program.

Major in Geography Resource and Environmental Studies

The Bachelor of Science major in Geography Resource and Environmental Studies provides students for a wide variety of government and private sector occupations relating to resource conservation and/or environmental management. Graduates pursue careers with employers such as the Texas General Land Office, the Texas Commission on Environmental Quality, the Texas Department of Transportation, Texas Parks and Wildlife, the National Geographic Society, the Lower Colorado River Authority, the San Antonio Water System, Motorola, Valero Energy, and various private – sector environmental consulting firms.

Major in Geography Urban and Regional Planning

Planning is a diverse profession, which draws upon fields of knowledge and technical skills closely related to geography. The Bachelor of Science major in Urban and Regional Planning provides the means to evaluate and facilitate programs that benefit our neighborhoods, communities, cities, and regions. Population growth, economic development, transportation, education, public services, and the environment are a few of the essential factors evaluated by planners. Many of our graduates are employed as planners in Texas, as well as within other states and countries.

Major in Geography Water Resources

The Bachelor of Science major in Geography Water Resources provides a focused study of the physical, chemical, social, political, and economic factors of water resources from the geographic perspective. As water resources become ever more critical to the nation, and in particular Texas and the Southwest Borderlands, this degree program addresses the increasing need for professionals in this crucial field. Graduates are highly sought after by government agencies, from local, state to federal, industries that have large water demands, agricultural interests and private consulting firms that specialize in water resource issues. The Lower Colorado River Authority, the Guadalupe-Blanco River Authority, the Edwards Aquifer Authority, and the San Antonio Water System all employ graduates of the program.

Major in Physical Geography

The Bachelor of Science major in Physical Geography emphasizes the physical science elements of geographical study. This major prepares students for employment in applied climatology and meteorology, oceanography, geomorphology, resource evaluation, environmental analysis, and areas where an understanding of the complex relationship between nature and society is required. Students considering graduate studies in Physical Geography or any of the earth and atmospheric sciences should select this degree option.

Bachelor of Arts (B.A.)

• Major in Human Geography (p. 517)

Bachelor of Science (B.S.)

• Major in Geographic Information Science (p. 518)
• Major in Geography (p. 519)
• Major in Geography Natural Resources and Environmental Studies (p. 520)
• Major in Geography Urban and Regional Planning (p. 521)
• Major in Geography Water Resources (p. 523)
• Major in Physical Geography (p. 524)

Minors
• Environmental Studies (p. 527)
• Geographic Information Science ([http://mycatalog.txstate.edu/undergraduate/liberal-arts/geography/geo-info-sci-minor/](http://mycatalog.txstate.edu/undergraduate/liberal-arts/geography/geo-info-sci-minor/))
• Geography (p. 527)
• Geology (p. 527)
• Nature and Heritage Tourism (p. 527)

Subjects in this department include: GEO (p. 508), GEOL (p. 515), NHT (p. 516)

Courses in Geography (GEO)

**GEO 1105. Meteorology Laboratory.**
Laboratory observations, calculations, and exercises of meteorological data and phenomena. Prerequisite: GEO 1305 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: GEOL 1147

**GEO 1305. Meteorology.**
An introduction to atmospheric science providing information on the properties of the atmosphere, the scientific principles that govern weather and climate, and interactions between the atmosphere and the other components of the Earth system.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030
Grade Mode: Standard Letter
TCCN: GEOL 1347

**GEO 1309. Introduction to Cultural Geography.**
This course introduces students to the geographical perspective and focuses on spatial distributions of human activities and investigates underlying geographical processes that account for present and past cultural patterns such as population, folk and popular culture, language, religion, gender, ethnicity, politics, urban and rural land use, and economic development. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GEOG 1302

**GEO 1310. World Geography.**
This course stresses the similarities and differences of the major world regions. Emphasis is given to human behavior in a spatial context. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080|Multicultural Content
Grade Mode: Standard Letter
TCCN: GEOG 1303

**GEO 2110. Physical Geography Laboratory.**
This is a laboratory course that includes exercises and calculations to apply principles and concepts covered in introductory physical geography lecture classes. These include geographic tools, weather and climate, soils and biogeography, and geomorphology. Open only to students who have taken the lecture class at another college/university. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better and instructor approval.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

**GEO 2310. Global Environmental Change.**
This course introduces the global perspective to examine Earth's environment and its systems, dynamics, and risks. Students use principles of scale, space, and distributions to analyze the changes in the environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

**GEO 2410. Introduction to Physical Geography.**
A systematic study of the various elements that make up the Earth's physical environment, weather, climate, vegetation, soil, and landforms. Prerequisites: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

**GEO 2420. Introduction to Geographic Information Techniques.**
The course will introduce the foundations of geographic information systems (GIS), global positioning systems (GPS), remote sensing, cartography, data analysis, and other tools and methods used by geographic information scientists. Maps, data collection, using and creating Internet content, and data analysis and display will be topics in the course.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
This course is an introduction to Geographic Information Systems (GIS), a tool for integrating and analyzing spatial data to visualize relationships, seek explanations and develop solutions to pressing problems. The foundations and theory of GIS will be emphasized. Prerequisites: MATH 1315 or MATH 1317 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.  
4 Credit Hours.  2 Lecture Contact Hours.  4 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter

GEO 2427. Management and Implementation of GIS.  
This course addresses strategies for successful GIS management and implementation in an organization-wide context and is organized around four primary issues: implementation planning, data management, technology assessment, and organizational setting. Prerequisite: GEO 2426 with a grade of "C" or better.  
4 Credit Hours.  2 Lecture Contact Hours.  4 Lab Contact Hours.  
Course Attribute(s): Lab Required  
Grade Mode: Standard Letter

GEO 3301. Research Methods in Geography.  
This course provides an introduction to quantitative and qualitative research methodology, data collection and analytical techniques. Topics include descriptive, inferential, spatial quantitative statistics and qualitative methods such as case studies and content analysis. The course will introduce students to software applications that are designed for organizing, analyzing and visualizing data. Prerequisite: MATH 1315 or MATH 1317 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Grade Mode: Standard Letter

GEO 3303. Economic Geography.  
This course investigates the geographic organization of economic activity with emphasis on the interconnections from global to local scales. Technological advances, resource creation and destruction, supply and demand, distribution and development, environmental impacts, and economic justice are addressed. Theoretical models are used to interpret past and current situations.  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Grade Mode: Standard Letter

GEO 3305. Climatology.  
Introduction to the elements of climate and their use in environmental monitoring and analysis. Prerequisite: GEO 2110 or GEO 2410 or GEO 1305 and MATH 1315 any with a grade of "C" or better.  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Grade Mode: Standard Letter

GEO 3307. Geography of Europe.  
The course presents a systematic and regional investigation of the physical and cultural processes and phenomena that have created the characteristic landscapes of Europe. Topics include the climate, landform regions, trade, transportation, urban growth, population change, and the evolution of economic integration in the region. (MULT).  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

GEO 3308. Latin America.  
A regional survey of the physical and cultural geography of Latin America. (MULT).  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

GEO 3309. United States and Canada.  
This course provides a systematic and regional analysis of the United States and Canada with emphasis on contemporary economic, environmental, political, and social issues. (MULT) (WI).  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter

GEO 3310. Urban Geography.  
The study of city systems, form, and development with emphasis on functional patterns, economic base, industrial location, service, and social area analysis.  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Grade Mode: Standard Letter

GEO 3313. Natural Resource Use and Management.  
This course uses environmental concepts at all geographic scales to identify and analyze patterns and processes of resource use, and discusses management strategies to solve present and future concerns related to natural resources. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Grade Mode: Standard Letter

GEO 3320. Community and Regional Planning.  
This course examines the practice, history and development of community and regional planning in the U.S. focusing on specific methods and legal frameworks of community planning and cultivating sustainable development. (WI) (MULT).  
3 Credit Hours.  3 Lecture Contact Hours.  0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content|Writing Intensive  
Grade Mode: Standard Letter
An analysis of energy sources, their distribution and characteristics, and the problems associated with their use and management. (WI)
Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 3323. Researching the City.
This course covers data collection and analysis of urban life, and the factors considered in locating industry, business, housing, and community facilities. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 3328. Geography of North Africa and the Middle East.
A regional treatment dealing with the physical features and cultural activities of the people in North Africa and the Middle East. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3329. Geography of Texas.
A physical and cultural geography of Texas with special emphasis on human resources and economic activities. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 3332. Geography of South and Southeast Asia.
This course is a systematic and regional overview of the physical and human geography of the countries of the Indian subcontinent and Southeast Asia. Topics include the monsoons, cultural diversity, rapid economic development, agricultural systems, and environmental problems. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

GEO 3333. Geography of East Asia.
This course provides a regional overview of the physical and human geography of the countries of East Asia. This course also systematically examines the countries of this region by closely examining such topics as the impacts of high population densities and intensive land use practices. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

GEO 3335. Oceanography.
An introductory course about the physical, chemical, geologic, and biologic characteristics of the oceans and coastal areas. Emphasis will be placed on the role of the oceans as a component of the global environment. Prerequisite: BIO 1320 or BIO 1330 or GEO 2110 or GEO 2410 or GEOL 1410 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3340. Political Geography.
Political geography concerns the interrelationship between political activities and spatial distributions. Topics include the concept of the state, international spheres of influence and confrontation, boundaries, contemporary world issues and problems, and geographic aspects of electoral politics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3349. World Population.
An in-depth study of the spatial distribution and movement of human populations. The course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3351. Health Geography.
This course introduces concepts of health, health care, disease, and illness from a geospatial perspective. The course examines how people and societies interact geographically with the natural, social, and built environment in ways that result in varying degrees of health. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

A geographical analysis of ethnic groups in the United States with emphasis on their settlement patterns, spatial interactions, and current problems. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
GEO 3411. Maps and Mapmaking.
An introduction to reference and thematic map use and design. The course introduces basic cartographic mapping techniques for quantitative and qualitative data, teaches about geospatial analysis and interpretation, and enables students to design basic maps. Prerequisite: MATH 1315 or MATH 1317 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Introduction to the acquisition, mensuration, interpretation, and mapping of aerial photographs and satellite images for environmental monitoring and inventorying. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 3425. Geomorphology.
This course in Geomorphology investigates linkages between landscape forms and processes with emphasis on weathering, fluvial, aeolian, karst, and coastal processes. There will be various activities, including fieldwork, where students will demonstrate their grasp on fundamental processes in geomorphology. Prerequisite: GEO 2110 or GEO 2410 or GEOL 1410 any with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 3426. Advanced GIS.
This course builds on the principles introduced in GEO 2426 and presents an in-depth examination of the technical aspects involved in spatial data handling, analysis, and modeling. Prerequisite: GEO 2426 and GEO 3301 both with grades of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 3434. Water Resources.
This course analyzes within a geographical perspective, the formation, use, conservation, and management of water resources. The students will develop a working knowledge of the hydrologic, water quality, legal, economic, political, and societal factors that determine water availability, hazards, use, demand, and allocation. Prerequisite: GEO 2110 or GEO 2410 or [CHEM 1141 and CHEM 1341] any with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4190. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4290. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4306. Geography of the Southwest.
Though primarily defined by aridity, the southwestern United States is extremely diverse in its environments and its people. This course explores how people have related to this land. This course also examines current issues and future trends in natural resources and cultural processes in the region. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course examines cultural and political ecology, which employs concepts of culture formation/change and biological ecology to understand processes of adaptation and the influences of social/political power. It provides a holistic means to interpret pre-modern, non-western, and agrarian cultures as well as modern cultures as relates to their biophysical environment. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

GEO 4310. Regional Field Studies.
Observation, description, and analysis of a geographical environment based upon offcampus study in that environment. May be repeated once, provided the second study is in a different region, for a total of 6 semester hours. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter
GEO 4313. Environmental Management.
This course provides an analysis of the causes of environmental problems, from local to global scale, and the evaluation of attempts at management and solutions of those problems. Emphasis will be placed on the role that geography can play in environmental degradation and management. Prerequisite: [GEO 2110 or GEO 2410] and [GEO 3313 or GEO 3321 or GEO 3434 or GEO 4350 or GEO 4352] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4314. River Basin Management.
The purpose of this course is to study principles and practices of large-scale river basin management. Emphasis is on integrated management of land and water resources, including economic development and environmental protection issues. (WI) Prerequisite: GEO 3434 or GEO 4325 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4316. Landscape Biogeography.
Investigation of present-day and post-Pleistocene spatial patterns of plants, animals, and biogeo graphical processes. Human interactions with biogeo graphical patterns is also addressed, as are methods for reconstructing Holocene patterns of biogeographic distribution. Course to be taught over every other year. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4317. Water Resources Planning.
This course examines water resources planning case studies related to water quality protection/mitigation and state/regional water supply planning from a policy practitioner’s perspective. Students explore watershed and water supply planning to understand the elements involved, stakeholders, and strategy recommendations pursued including water-use conservation and efficiency measures. Prerequisite: GEO 3434 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4321. Cities and Urban Design.
This course explores the interplay of intentional and natural processes shaping urban landscapes. It provide an introduction to the roles of spatial thinking and collaborative decision making in urban planning and design. (MULT) Prerequisite: GEO 3310 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GEO 4322. Interpretive Environmental Geography.
Students learn principles, themes, and techniques for effective interpretation of environmental information to audiences ranging from park visitors to professional conferences. Interpretive themes are drawn from geographic concepts including the physical and cultural landscapes and cultural ecology. Techniques emphasize effective use of traditional and digital presentation methods. (WI) Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4323. Conservation Leadership.
This course offers an in-depth introduction to the conservation movement and the philosophy, establishment, and operation of institutions engaged in that movement. Problems and attributes of leadership will be emphasized along with the operational implications, ethical issues and other considerations for successful implementation at non-governmental, local, state, and federal levels.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4325. Fluvial Processes.
Students analyze modern principles of river processes and forms within a geographical perspective. This course examines the fundamental mechanics of fluvial channels with an emphasis on quantitative geographic evaluation of their processes. The course emphasizes natural scientific perspectives and includes linkages to ecology, engineering, resources management, and policy. Prerequisite: GEO 3425 or GEO 3434 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4326. Parks and Protected Places.
This course serves as an in-depth introduction to the philosophy, establishment, and operation of Public Parks, Wildlife Refuges, Protected Areas, Non-Governmental Preserves and Historic Sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4328. Geography of the Russian Realm.
This course presents a regional and systematic overview of the physical and human geography of the countries of the former Soviet Union. The course examines in depth issues such as the legacy of the degraded landscape and environmental problems left by decades of Soviet industrialization. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
GEO 4331. Geography of Food and Agriculture.
This course critically evaluates local and global food systems, considering the implications of varying forms of production and consumption. Topics explored are related to sociocultural, economic, and environmental landscape change, the role of agriculture in both rural and urban places, and sustainability writ large. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4334. Groundwater Resources.
This course examines, within a geographical perspective, the major concepts and principles that control groundwater availability and use. Students will analyze aquifer characteristics that determine water quantity and quality. Constraints on aquifer use including environmental, economic, societal, and legal factors will be analyzed for optimizing aquifer management and water-use policy. Prerequisite: GEO 3434 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4335. Directed Research.
This course allows students to pursue advanced geographic research not offered in the present curriculum. Permission and project approval must be obtained from the supervising faculty member prior to registration. This course may be repeated for credit, but a student may not exceed six hours of credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4336. Transportation Systems.
This course is an examination of the evolution of urban transportation systems, policies, institutions, and methods in the United States. Principles, procedures, and techniques of transportation planning in the State of Texas are covered and students are introduced to the literature in transportation geography and methods of transportation analysis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4338. Planning Practicum.
This capstone course focuses on methods and procedures used for planning and managing urban development on the local level. Topics include municipal ordinances, the development/renovation process and relationships between development, capital improvements and the local economy. Prerequisite: GEO 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4339. Environmental Hazards.
Analysis of environmental hazards with respect to human use of the land. Includes geologic hazards and problems caused by floods and meteorological conditions. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4340. Fundamental Themes in Geography.
Students will become familiar with the K-12 Geography Texas Essential Knowledge and Skills (TEKS) and the national geography content standards, identify instructional resources and materials, design instructional units, and fully develop grade level appropriate inquiry based lessons and student assessments. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4341. Water Policy.
This course covers the evolution of water policy from the awareness of issues, through the political and legal process, to the implementation of specific plans, programs, and facilities. Prerequisite: GEO 3434 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4350. Solid Waste Planning and Management.
A survey of the methods of solid waste disposal including waste storage, collection, transportation and disposal, and their short-and long-range effects on the environment. A practical course in the planning, implementation, and management of alternate methods of sanitary waste disposal. Prerequisite: GEO 2110 or GEO 2410 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4352. Air Quality Management.
This course provides an assessment and analysis of air quality including types, sources, and effects of air pollutants as well as principles governing their dispersal and management. These aspects are analyzed considering physical science, economic, legal, and social factors. Prerequisite: [CHEM 1141 and CHEM 1341] or GEO 2110 or GEO 2410 or GEO 3305 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GEO 4355. Geography of Crime.
This course provides understanding of geographical aspects of crime and criminal behavior. Students are exposed to theories and analysis methods and models explaining and predicting crime spatial patterns. Computer exercises give students hands on experience on crime pattern analysis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
GEO 4356. Urban Infrastructure Management.
This course examines life-cycle management of technology-enhanced urban infrastructure. Buildings, transportation systems, water and waste treatment facilities, and energy and communication grids are considered. Sensor data and other factors are analyzed to establish repair and rehabilitation strategies to improve an asset's functionality, safety, and economic value. (WI) Prerequisite: CE 3360 or GEO 2426 and GEO 3301 or either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

GEO 4380. Internship in Geography.
On-the-job training in a public or private-sector agency. Students must apply to the department internship director at least six weeks prior to registering for the internship course. This course may be repeated one time for additional internship credit.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4390. Independent Study.
Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEO 4393A. Environmental Compliance.
This course examines the implementation and enforcement of environmental statutes and regulations from a geographic perspective that includes physical environmental, cultural, social, economic, and legal parameters. The course focuses on current environmental requirements as applied to contemporary regulatory challenges including widely applicable innovative compliance strategies. (WI) Prerequisite: GEO 3321 or GEO 4343 or GEO 4350 or GEO 4352 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

GEO 4393B. Business Geography.
This course provides an exploration of the geospatial analysis of business activities in the United States with emphasis on site location, market segmentation and material/product tracking.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEO 4393E. Race, Class, and the American City.
This course examines historical and contemporary intersections of race and class as they have been shaped by and continue to influence urbanization in the United States while emphasizing geographical understandings of space and place. Topics include segregation, immigration, civil rights, housing, crime, race and the environment, community development, and cultural.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEO 4393F. Geographies of the Holocaust and Genocide.
This course examines the Holocaust as a complex historical event and frames the Holocaust in the context of, and in comparison to, other genocides. The course is explicitly geographical in methods and subject matter, focusing on how the Holocaust and genocide are planned, implemented, and experienced differently in different places.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEO 4393G. Geographic Elements of Environmental Law.
A survey of environmental laws related to land, air, and water pollution. The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems. Prerequisite: GEO 3321 or GEO 3434 or GEO 4350 or GEO 4352 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

GEO 4411. Advanced Cartographic Design.
This advanced course in cartography focuses on thematic map design. The objective is to produce a cartographic portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 with a grade of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

This course is an introduction to the digital image processing of satellite scenes including restoration, enhancement, classification and machine learning, change detection, and mapping for environmental monitoring and inventorying. (WI) Prerequisites: GEO 3301 and GEO 3416 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
GEO 4417. Digital Terrain Modeling.
The course focuses on the mapping, transformation, mensuration, visualization, and applications of digital elevation models in Geography. Prerequisite: GEO 2426 and GEO 3416 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4420. GeoProgramming.
This course develops advanced GIS concepts, techniques, analysis skills (e.g. spatial data manipulation), and provides hands-on experience with geoprocessing in GIS software programs. The course focuses on the application of basic programming skills to solve real-world GIS problems. Prerequisite: GEO 3426 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4422. Web Mapping.
The course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 3411 with a grade of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4424. GPS and GIS.
Students will learn to plan and conduct fieldwork using Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisites: GEO 3411 or GEO 3426 either with a grade of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4427. GIS Consulting Practicum.
This course requires students to work on a substantive GIS project in partnership with external clients in the GIS workforce. Through project-based teamwork, students develop GIS career skills and demonstrate competence in GIS techniques at the professional level. Prerequisite: GEO 3426 with a grade of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEO 4430. Field Methods.
Methods and techniques for observing, measuring, recording, and reporting on geographic phenomena are investigated in this course. Students will learn the use of instruments and materials in the collection of data for mapping and field research in the local area. (WI) Prerequisites: [GEO 2110 or GEO 2410] and GEO 3301 both with grades of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

Courses in Geology (GEOL)

GEOL 1410. Physical Geology.
The study of materials making up the Earth, the processes that act upon them, and the results of these processes; the development of tools for the interpretation of earth's history and structure, and the major geologic concepts.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: GEOL 1403

GEOL 1420. Historical Geology.
A continuation of physical geology leading to consideration of the geologic history of the Earth (with special emphasis on North America), the evolution of life, the continents through geologic time and the principles and procedures used in the interpretation of earth history. Prerequisite: GEOL 1410 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Lab Required
Grade Mode: Standard Letter
TCCN: GEOL 1404

GEOL 3410. Sedimentation and Stratigraphy.
This course will allow students to study the principles of weathering, transportation, deposition, and lithification of sediments. Primary structures and textures of sediments are used to determine environments of deposition. Students will identify the recognition and classification of strata into stratigraphic units. Prerequisite: GEOL 3450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

GEOL 3430. Structural Geology.
This course examines the description, classification, and origin of Earth structures and the stresses involved in their formation. Students will explore solutions of structural geology problems using analytical geometry, geologic maps, contouring of data, and preparation of cross sections. Prerequisites: GEOL 1420 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
GEOL 3450. Earth Materials.
This course provides an introduction to crystal chemistry, physical properties, and identification of major rock-forming minerals, sedimentary, igneous, and metamorphic rocks. It brings together wide-ranging fundamental and key concepts in mineralogy and petrology to understand rocks and minerals and how they relate to the broader Earth, materials, and environmental sciences. Prerequisite: GEOL 1410 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

GEOL 4121. Directed Study.
Independent study of a particular subject area in geology. Specific topic to be discussed and agreed upon prior to registration. May be repeated once with different emphasis and professor for additional credit. Prerequisite: GEOL 1420 with a grade of "C" or better and instructor approval.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEOL 4320. Topics in Field Geology.
This course provides on-site directed investigations of geology in locations remote from campus. Prerequisite: GEOL 1420 with a grade of "C" or better.
3 Credit Hours. 1 Lecture Contact Hour. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

GEOL 4321. Directed Study.
This course is designed to provide a student with an opportunity to conduct independent research for credit in consultation with his or her Geology instructors. The course may be repeated once with a different content or instructor. Prerequisite: GEOL 1420 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

GEOL 4330A. Introduction to Petroleum Geology.
This course discusses the origin and distribution of conventional and unconventional petroleum resources, source rocks, types of traps and seals, reservoir rock properties, exploration methods (seismic data analysis and interpretation, formation evaluation, subsurface mapping), reservoir characterization and modeling, reserves calculations. Prerequisite: GEOL 1420 with a grade of "C" or better. Corequisite: GEOL 4121 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4330B. Planetary Geology.
This course is a survey of the application of geologic principles to the rocky planets and satellites in the solar system. Prerequisite: GEOL 1420 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4330C. Survey of Economic Mineral Deposits.
This is a survey of the geology of economic resource derived from the Earth including metals, nonmetals, energy related resources and ground water. Topics include genesis of economic deposits, methods of prospecting, methods of extraction, refining, and environmental impact. Prerequisite: GEOL 3450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4330D. Tectonics and Geology of the USA.
Study of the geology of the USA from the tectonic point of view. The different tectonic processes including continental extension and formation of an ocean, convergence and mountain building, volcanism and seismic activity will be studied and illustrated using mostly examples based on the geology of the USA. Prerequisite: GEOL 1420 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

GEOL 4421. Hydrogeology.
This course will provide the student with an introduction to the science of hydrogeology, a conceptual and quantitative understanding of groundwater from a geological/mathematical/geochemical perspective, and experience with hydrogeology applications. (WI) Prerequisites: GEOL 1420 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

Courses in Nature and Heritage and Tourism (NHT)

NHT 4301. Planning and Development of Nature and Heritage Tourism.
This course applies basic planning and development principles to the special issues of nature and heritage tourism. Particular emphasis is placed on locational analysis, site analysis, and planning for sustainable use. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
NHT 4302. Internship in Nature and Heritage Tourism.
Students will work in private or public sector settings to gain practical experience in the planning, development and management of nature and/or heritage tourism. NHT internships frequently require students to develop and deliver content (online and/or in-person) to increase recipients’ awareness of and appreciation for geography and the environment. Students will be expected to perform at high professional standards and will interpret the internship experience within the context of current literature. Prerequisite: NHT 4301 with a grade of "C" or better.
3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/) offered at Texas State. Recommended minors are Nature and Heritage Tourism, Geographic Information Science, Geology, Anthropology, Sociology, Political Science, History, and Sustainability Studies; however, other minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.

4. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. This major requires a minimum of 32 semester credit hours of Geography courses.

6. Required Geography major courses include the following 14 hours:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 1309</td>
<td>Introduction to Cultural Geography</td>
<td>3</td>

</tr>
</tbody>
</table>

*Students may also choose courses from the Human Geography Core and Required Regional Geography lists that were not taken to satisfy those requirements.

10. Geography required elective courses (3 hours) are to be selected in consultation with an academic advisor.

11. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

12. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

13. Nine hours of writing intensive (WI) courses are required for graduation.

Total Hours: 120

¹ Students must complete 6 hours of the same modern language (2310 and 2320). Most students complete 1410 and 1420 as prerequisites before attempting 2310.
² English Literature Courses: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), or ENG 2371

Minimum required: 120 semester credit hours

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor area from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/) offered at Texas State. Various minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.

3. This major requires a minimum of 36 semester credit hours of Geography courses.

4. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 TXST GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.

5. Required major courses include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 1309</td>
<td>Introduction to Cultural Geography</td>
<td>3</td>
</tr>
<tr>
<td>or GEO 1310</td>
<td>World Geography</td>
<td></td>
</tr>
<tr>
<td>GEO 2410</td>
<td>Introduction to Physical Geography</td>
<td>4</td>
</tr>
<tr>
<td>GEO 2426</td>
<td>Fundamentals of Geographic Information Systems</td>
<td>4</td>
</tr>
<tr>
<td>GEO 3301</td>
<td>Research Methods in Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

6. Required Geography core courses include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3411</td>
<td>Maps and Mapmaking</td>
<td>4</td>
</tr>
<tr>
<td>GEO 3416</td>
<td>Remote Sensing and Earth Observation</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4326</td>
<td>Advanced GIS</td>
<td>4</td>
</tr>
</tbody>
</table>

7. Required 4000-level Geography includes at least three courses from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 4411</td>
<td>Advanced Cartographic Design</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4412</td>
<td>Digital Image Processing and Machine Learning</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4420</td>
<td>GeoProgramming</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4422</td>
<td>Web Mapping</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4424</td>
<td>GPS and GIS</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4427</td>
<td>GIS Consulting Practicum</td>
<td>4</td>
</tr>
<tr>
<td>GEO 4380</td>
<td>Internship in Geography</td>
<td>3</td>
</tr>
<tr>
<td>or GEO 4430</td>
<td>Field Methods</td>
<td></td>
</tr>
</tbody>
</table>

Students cannot take both GEO 4380 and GEO 4430 to count towards 4000-level requirement.

8. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
9. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

10. Nine hours of writing intensive (WI) courses are required for graduation.

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor area of study from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/) offered at Texas State. Recommended minors are Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, and Physics; however, other minors may be appropriate depending on a student’s interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.

3. To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA. Students must make a grade of “C” or better in all Geography courses that are to be counted for credit toward their major.

4. Geography required elective courses (22 hours) are to be selected in consultation with an academic advisor.

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Nine hours of writing intensive (WI) courses are required for graduation.

<td></td>
</tr>
</tbody>
</table>

Students may select one regional course as a Geography Elective from the following:

- GEO 3307 Geography of Europe
- GEO 3308 Latin America
- GEO 3309 United States and Canada
- GEO 3328 Geography of North Africa and the Middle East
- GEO 3329 Geography of Texas
- GEO 3332 Geography of South and Southeast Asia
- GEO 3333 Geography of East Asia
- GEO 4306 Geography of the Southwest
- GEO 4328 Geography of the Russian Realm

9. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
10. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
11. Nine hours of writing intensive (WI) courses are required for graduation.

Total Hours: 120

1. A Mathematics course may be chosen from the following to satisfy the Mathematics Component Code 020 for this major: MATH 1315 (TCCN MATH 1314), MATH 1317 (TCCN MATH 1316), MATH 1319 (TCCN MATH 1324), MATH 1329 (TCCN MATH 1325), MATH 2321 (TCCN MATH 1323), MATH 2417 (TCCN MATH 2412), or MATH 2471 (TCCN MATH 2413)
2. An English Literature course may be chosen from the following to satisfy the Component Option Code 090/094 for this major: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), or ENG 2371.

### Minimum required: 120 semester credit hours

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this
catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This major requires students to select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/) offered at Texas State. Students interested in entering the professional planning field are strongly advised to consider a minor in Public Administration, Business Administration, or Construction Science and Management; however, other minors may be appropriate depending on a student’s interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.

3. This major requires a minimum of 36 semester credit hours of Geography courses.

4. To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of “C” or better in all Geography courses that are to be counted for credit toward their major.

5. Required major courses include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 1309</td>
<td>Introduction to Cultural Geography</td>
<td>3</td>
</tr>
<tr>
<td>or GEO 1310</td>
<td>World Geography</td>
<td></td>
</tr>
<tr>
<td>GEO 2410</td>
<td>Introduction to Physical Geography</td>
<td>4</td>
</tr>
<tr>
<td>GEO 2426</td>
<td>Fundamentals of Geographic Information Systems</td>
<td>4</td>
</tr>
<tr>
<td>GEO 3301</td>
<td>Research Methods in Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

6. Required Geography core courses include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3310</td>
<td>Urban Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3320</td>
<td>Community and Regional Planning</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4321</td>
<td>Cities and Urban Design</td>
<td>3</td>
</tr>
<tr>
<td>GEO 4338</td>
<td>Internship in Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

7. Required Geography techniques courses include at least one course from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3411</td>
<td>Maps and Mapmaking</td>
<td></td>
</tr>
<tr>
<td>GEO 3416</td>
<td>Remote Sensing and Earth Observation</td>
<td></td>
</tr>
<tr>
<td>GEO 3426</td>
<td>Advanced GIS</td>
<td></td>
</tr>
<tr>
<td>GEO 4380</td>
<td>Internship in Geography</td>
<td></td>
</tr>
<tr>
<td>GEO 4430</td>
<td>Field Methods</td>
<td></td>
</tr>
</tbody>
</table>

8. This major also requires an additional three hours of ENG 3303 with a grade of “C” or higher.

9. Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3303</td>
<td>Economic Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3313</td>
<td>Natural Resource Use and Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3321</td>
<td>Energy Resource Management</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3323</td>
<td>Researching the City</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3340</td>
<td>Political Geography</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3349</td>
<td>World Population</td>
<td>3</td>
</tr>
<tr>
<td>GEO 3353</td>
<td>American Ethnic Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

GEO 3426 | Advanced GIS                         | 4     |
GEO 3434 | Water Resources                      | 4     |
GEO 4310 | Regional Field Studies               | 3     |
GEO 4313 | Environmental Management             | 3     |
GEO 4314 | River Basin Management               | 3     |
GEO 4326 | Parks and Protected Places           | 3     |
GEO 4336 | Transportation Systems               | 3     |
GEO 4339 | Environmental Hazards                | 3     |
GEO 4341 | Water Policy                         | 3     |
GEO 4350 | Solid Waste Planning and Management  | 3     |
GEO 4380 | Internship in Geography              | 3     |
GEO 4430 | Field Methods                        | 4     |

Select a maximum of 3 credit hours from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 1305</td>
<td>Meteorology</td>
<td></td>
</tr>
<tr>
<td>GEO 1309</td>
<td>Introduction to Cultural Geography</td>
<td></td>
</tr>
<tr>
<td>GEO 1310</td>
<td>World Geography</td>
<td></td>
</tr>
<tr>
<td>GEO 2310</td>
<td>Global Environmental Change</td>
<td></td>
</tr>
</tbody>
</table>

Any 3000-4000 level course

Students may select one regional course as a Geography Elective from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEO 3307</td>
<td>Geography of Europe</td>
<td></td>
</tr>
<tr>
<td>GEO 3308</td>
<td>Latin America</td>
<td></td>
</tr>
<tr>
<td>GEO 3309</td>
<td>United States and Canada</td>
<td></td>
</tr>
<tr>
<td>GEO 3328</td>
<td>Geography of North Africa and the Middle East</td>
<td></td>
</tr>
<tr>
<td>GEO 3329</td>
<td>Geography of Texas</td>
<td></td>
</tr>
<tr>
<td>GEO 3332</td>
<td>Geography of South and Southeast Asia</td>
<td></td>
</tr>
<tr>
<td>GEO 3333</td>
<td>Geography of East Asia</td>
<td></td>
</tr>
<tr>
<td>GEO 4306</td>
<td>Geography of the Southwest</td>
<td></td>
</tr>
<tr>
<td>GEO 4328</td>
<td>Geography of the Russian Realm</td>
<td></td>
</tr>
</tbody>
</table>

10. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

11. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

12. Nine hours of writing intensive (WI) courses are required for graduation.

The Environmental Interpretation Certificate provides the recipient with a relevant background in environmental interpretation to prepare students to work as interpretive guides in park and other tourism venues and work in the professional areas of public information/education in resource management agencies.

Applicants to the Environmental Interpretation Certificate program are required to be a Texas State University Undergraduate degree seeking or post-baccalaureate student in good standing.

The certificate in Environmental Interpretation requires 16 semester credit hours. Students must complete the following courses with no grade less than a “C” and an overall average for the five classes of at least a 2.5.

Total Hours 16

The Geographic Information Science Certificate provides the recipient with a working knowledge of Geographic Information Science (GISci) in sufficient detail that they are prepared for professional positions involving the theoretical and applied aspects of implementing and administering a Geographic Information Science.

To the prospective employer, the certificate is a professional endorsement that the recipient has received five university level courses on issues fundamental to the design, implementation, and management of Geographic Information Science. A formal certificate issued by the Texas State's College of Liberal Arts and a statement on the recipient's Texas State transcript recognize successful completion of the program.

Applicants to the Geographic Information Science Certificate program are required to be a Texas State University undergraduate degree seeking or post-baccalaureate student in good standing.

The certificate in Geographic Information Science requires 19-20 semester credit hours. Students must complete the following courses with no grade less than a "C" and an overall average for the five classes of at least a 2.5.

- GEO 4317 Water Resources Planning
- GEO 4323 Conservation Leadership
- GEO 4334 Groundwater Resources
- GEO 4339 Environmental Hazards
- GEO 4380 Internship in Geography

**Total Hours**: 16-17

The minor in Geography requires 19 semester credit hours. Texas State Geography offers a wide range of content courses that can provide distinct career preparation and competitive advantages to many majors. Students pursuing a Geography minor may choose to focus their studies in these areas: Urban Planning and Land Development; Water Studies; Geographic Information Science; Regional International Studies; Physical Geography/Earth Science; Environmental Resource Management; or Cultural Geography and Demographics. Minors are encouraged to consult with a Geography Department Academic Advisor to select courses to design the Geography minor.

www.txstate.edu/history

As an undergraduate major, the discipline of History provides students with the knowledge and skills necessary to participate in our increasingly global society and economy. Emphasizing societies, cultures, and politics in the United States and around the world, the History Program helps to impart understandings of human motivation and interaction which form an essential background for all current activities whether they are in the realm of business, law, journalism, politics, education, or public history (i.e. National Park Service, museum work, historical restoration, etcetera). In addition to gaining knowledge in their subject areas, students also develop skills in intensive reading and expository writing, as well as in logical and analytical, evidence-based thinking. As a consequence, students acquire a variety of skills that make them highly adaptable and valued by today's employers.

Academic Advising

The Department of History provides extensive academic advising services that include both group and individual advising. Through these sessions, the academic advisor can offer detailed program and course information, which can help students successfully complete their graduation requirements in a timely manner. All History majors are encouraged to seek advice about program requirements and course selection each semester. To schedule an appointment, please contact the History Department Office.

Bachelor of Arts (B.A.)

- Major in History (p. 542)
- Major in History (Secondary Education; Teacher Certification in History, Grades Seven through Twelve, with Double Major in B.A. Education)
- Major in History (Secondary Education; Teacher Certification in Social Studies, Grades Seven through Twelve, with Double Major in B.A. Education)
• Major in History (Two Fields Teacher Certification in History, Grades 7-12) (p. 553)

Minors
• History (p. 556)
• Peace and Social Justice (p. 556)
• Second Teaching Field in History (Grades 7-12) (p. 557)

Courses in History (HIST)

HIST 2310 or HIST 2311, HIST 2320, HIST 2312, HIST 2327, HIST 2328, HIST 2381, and HIST 2382 are open to all students regardless of classification. However, it must be understood that HIST 2310 or HIST 2311 and HIST 2320 or HIST 2312 will not satisfy the legislative requirement in American history. Students majoring in fields other than history would be well advised to begin with HIST 1310, HIST 1320, HIST 2327, HIST 2328, HIST 2381, or HIST 2382.

HIST 1310. History of the United States to 1877.
A general survey of the history of the United States from its settlement to the end of Reconstruction. (WI) (MULT) (MULP).
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): American History Core 060|Multicultural Perspective|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 1301

HIST 1320. History of the United States, 1877 to Date.
A general survey of the history of the United States from Reconstruction to present. (WI) (MULT) (MULP).
3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): American History Core 060|Multicultural Perspective|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 1302

HIST 2310. Western Civilization to 1715.
A general survey of western civilization from earliest times to the end of the 17th century. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2311

HIST 2311. History of World Civilization from the 17th Century.
A general survey of world civilization from the 17th Century to the present. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2321

HIST 2320. Western Civilization, 1715 to Date.
A general survey of western civilization from the Treaty of Utrecht to the present. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2320

HIST 2327. History of Mexican America to 1865.
This course is a survey of the economic, social, political, intellectual, and cultural history of Mexican Americans/Chicanx to 1865. Topics the course addresses include: conquest and mestizaje; the rise and fall of native and African slavery; colonial Mexico's relationship to other global economies, the development of New Spain's/Mexico's northern frontier, how gender and power shaped the emergence of Mexican identities, independence movements, mission secularization, Texas independence, the U.S.–Mexico wars, and U.S. expansion and civil war.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): American History Core 060|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2327

HIST 2328. History of Mexican America from 1865.
This course is a survey of the economic, social, political, intellectual, and cultural history of Mexican Americans/Chicanx since 1865. Topics the course addresses include: the making of borders and borderlands, the impact of the Treaty of Guadalupe Hidalgo, and uses gender to explain migration and citizenship and expulsion, nineteenth-century activism and displacement, industrialization and the making of a transnational Mexican working class, the Mexican Revolution, urbanization, WWII and organized advocacy, the Chicano Movement, changing identifications, globalization, and immigration restriction.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): American History Core 060|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2328
HIST 2381. African American History to 1877.
This course is a survey of the social, political, economic, cultural and intellectual history of people of African descent in the formation and development of the United States to the Civil War/Reconstruction period. African American History to 1877 includes the study of African origins and legacy, trans-Atlantic slave trade and the experiences of African Americans during the Colonial, Revolutionary, Early National, Antebellum, and the Civil War/Reconstruction Era. This course presents African American history as an integral part of U.S. History.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): American History Core 060|Writing Intensive
Grade Mode: Standard Letter
TCCN: HIST 2381

HIST 2382. African American History from 1877.
This course is a survey of the social, political, economic, cultural, and intellectual history of people of African descent in the United States from the end of the Reconstruction period to the present. African American History since 1877 examines segregation, disenfranchisement, civil rights, migrations, industrialization, world wars, the Harlem Renaissance, and the conditions of African Americans in the Great Depression, Cold War, and post-Cold War eras. This course enables students to understand African American history as an integral part of US history.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): American History Core 060|Writing Intensive
Grade Mode: Standard Letter

HIST 3310. History of Europe, 1815-1919.
The background, course, and results of World War I, with emphasis on imperialism, diplomatic alliances, and nationalistic rivalries from the Congress of Vienna to the Paris peace settlements. (MULT) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3311. History of Europe Since 1919.
The rise of Communism, Fascism, and Nazism; the background of World War II, and the post-war problems of peace. (MULT) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3312. Renaissance and Reformation.
The cultural, political, and economic changes that marked the transition from the Middle Ages in Europe to the modern period; special attention to the decline of the medieval church and the Protestant revolt. (MULT) (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3313. Europe During the Old Regime, 1600-1760.
A study of European society and institutions in the 17th and 18th centuries with special attention to the development of absolute and constitutional monarchy, the scientific revolution, and the intellectual ferment of the Enlightenment. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 3314. Revolutionary Europe, 1760-1815.
A study of the dynamics of revolutionary change in France and the rest of the European continent from the period of the Seven Years War through the fall of Napoleon Bonaparte. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 3315. History of England to 1603.
The development of the English nation from prehistoric times to the end of the Tudor Dynasty in 1603. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

The English nation and the British Empire from 1603 through the modern era. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 3317. U.S. Women's History to 1877.
This course surveys the diversity of women's experiences in the United States from the colonial era to 1877. The social, economic, political, and intellectual realms of women's worlds, both public and private, are explored. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 3318. U.S. Women's History since 1877.
This course surveys the diversity of women's experiences in the United States from 1877 to the present. The social, economic, political, and intellectual realms of women's worlds, both public and private, are explored. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
HIST 3319. History of Brazil.
This course surveys the history of Brazil, from pre-Columbian times until the present, with a focus on the development of a national culture. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3320. History of Mexico.
A survey of the national period of Mexican history from the independence movement to the present. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

A study of the colonial period of Latin America from the early Spanish and Portuguese colonization to the beginning of the period of independence. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3324. Latin America from Independence to Present.
This course examines the history of Latin America from independence to present. Explores the challenges of formation and consolidation of the new states; of economic policy and development; the rise of Populism and the age of reforms; revolutions and revolutionary movements; and present challenges. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3325G. Modern Revolutions in Latin American History.
This course will focus on the historical antecedents and events surrounding the Mexican, Guatemalan, Cuban, Chilean, and Nicaraguan revolutions. The purpose is to analyze these five revolutions and to come to an understanding of the current problems facing Latin America. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 3325I. Resistance and Rebellion in Colonial Latin America.
This research-based course analyzes the political dynamics of resistance, rebellion, and social control within Latin American colonial societies, from the pax colonial of the seventeenth century to the Age of Andean Insurrection of the second half of the eighteenth century. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multi-cultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 3326. The Southern Cone of Latin America.
A topical survey of Argentina, Chile, Brazil, and Uruguay which stresses the political balance, geopolitical interests, and forces of commonality and division that have influenced this region since the colonial period. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3327. History of Mexico to 1848.
A survey of Mexico from prehistoric times to the Treaty of Guadalupe Hidalgo. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3328. Militarism in Latin America.
This course provides an in-depth survey of militarism and the causes and processes of transition to democracy in Latin America. Students examine the major characteristics of different types of military regimes in Latin America with particular attention to the military regimes in Argentina, Chile, Brazil, and Uruguay, and their relinquishing of power for democratic transitions. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 3329. Spanish Borderlands, 1521-1821.
A survey of the history of the Spanish frontier in North America and its hinterlands from the earliest explorations to the end of Spanish rule in 1821. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 3332. History of Early Modern Spain from 1492 to 1808.
This course traces the history of Spain and its transoceanic empire from the reign of the Catholic Monarchs, Isabel I of Castile and Fernando II of Aragon, in the late fifteenth century to the Peninsular War against Napoleon's invading forces in the early nineteenth century. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 3333. History of Modern Spain from 1808 to Present.
This course covers over two hundred years of Spanish history, beginning during Europe's revolutionary era through Spain's fall into fascism, its transition to democracy and integration into the European Union. Students will engage with issues related to Spain's history and culture, considering issues of religion, race, gender, sexuality, nationalism, and class. (WI).

HIST 4318Y. The Global Teenager.
This course covers the historical development of the category of the teenager across the globe, exploring the similarities and differences of the teenage experience across a variety of regional contexts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4318Z. Podcasting History: Making Marginalized Voices Heard.
In this course students will work collaboratively to create history podcasts on topics related to race, gender, class, nationality, and sexuality for public audiences. Students will learn relevant software and cultural history research methods, as well as how to script and record podcasts.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
HIST 4320. Origins of Christianity.
A survey of the development of the institutional church from the founding of the first primitive communities of believers to the rending of Christian unity in the 16th century. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course surveys important phenomena in nineteenth and twentieth-century French history that have had an impact on the development of the modern world. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4325. Islamic History to 1798.
This course explores the history and culture of the Arab and Muslim peoples in the Middle East and North Africa from the late 6th century to Napoleon's invasion of Egypt in 1798. Emphasis is placed on the interrelationships of indigenous socio-economic structures and intellectual developments in Islamic theology and Shari'a law. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4326. The Modern Middle East.
This course emphasizes economic social and intellectual developments in the Arab Middle East and North Africa in the 19th and 20th centuries. Some attention will be paid to Iran in the period after World War II. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4327. The Problem of Palestine.
Examination of Arab Palestine. Ottoman records to 1914, Israel's creation in 1948, and Jordan's loss of control of the West Bank and Gaza in 1967 will be surveyed. The Palestinian Diaspora, Yasar Arafat's leadership, and the "Intifada," also will be examined. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4328. History of India.
This course is an introduction to the history of India from ancient times to the creation of the modern nation-state of India. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4331. Piracy Through the Ages.
An activity based on greed, and sometimes survival, piracy has existed since humans took to the seas. This course investigates the global history of piracy beginning with the Vikings. The history of piracy in the Caribbean, Asia, and the Mediterranean will be covered and compared to the piracy of today. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4332. European Colonialism.
This course explores the worldwide development of European colonial systems since the fifteenth century. The course emphasizes how native peoples responded to European attempts to introduce economic, political, and cultural prerogatives in a variety of world settings such as South and Southeast Asia, Africa, and North and South America.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4333. The History of Russia and Eurasia to 1917.
A survey of Kievan Rus, Muscovy, and the Russian Empire to 1917. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4334. The History of Russia and Eurasia from 1917 to Present.
A survey of the history of the former Soviet Union and post-Soviet society from 1917 to the present. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4335. 20TH CENT EAST EUR.
A survey of the history of Eastern Europe. May be repeated with a different emphasis. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

HIST 4336. Germany from 1815 to Present.
The political, social, economic, and cultural development of Germany since Napoleonic times. Includes the Confederation period, unification under Bismarck, the Second Empire, National Socialism, and the post-war period. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
HIST 4337. Germany and National Socialism, 1918-1945.
Survey of German history and the Nazi movement. Topics covered will include the Weimar Republic, Hitler’s rise to power, everyday life in Nazi Germany and in peace and war and the Holocaust. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4341. The History of Modern Britain.
This course examines the history of imperial Britain from the early nineteenth century to the present day. Students analyze the cultural and intellectual foundations of modern British society, including the growth of its industrial economy, the development of representative politics, and the evolution of its relationship with empire.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4343. Modern China, 1600 to the Present.
A survey of the political, social, economic, and intellectual history of China from 1600 to the present. Emphasis on the issues of domestic troubles and external aggression, and on the revolutionary changes in the 19th and 20th centuries. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

HIST 4344. Modern Japan, 1600-Present.
A survey of the political, social, economic, and intellectual history of Japan from 1600 to the present. Focus on the radical changes in the state, society, and economy in the 19th and 20th centuries and on the impact of these changes on Japan’s status in the world today. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

HIST 4345. Postwar Japan.
This course explores Japan’s development from the 1940s through the 1970s. The emphasis is on the continuities and discontinuities from the wartime to the postwar regime, American influence on policies and discourses on post-occupation society, the legacies of the war in culture and society, and the repercussions of economic affluence. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4346. Modern Korea.
This course is a survey of the political, social, economic, and intellectual history of modern Korea, focusing on the external aggression and internal transformation between 1876 and 1910, the impact of the Japanese rule, the split into two Koreas in 1945, and the North/South developments and interactions since then. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

HIST 4347. History of Hong Kong.
This course is a survey of the political, social, economic, and intellectual history of Hong Kong from 1842 to the present. Focus is on British colonial rule, the Handover in 1997, and the current status of the Hong Kong Special Administrative Region of the People’s Republic of China. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

HIST 4348. Mahatma Gandhi and Nonviolence.
This course will offer students the opportunity to explore Mahatma Gandhi’s leadership of the movement against British colonialism in India and the legacy of Gandhi’s strategies of non-violent non-cooperation in other political movements of the twentieth century. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content Writing Intensive
Grade Mode: Standard Letter

HIST 4349. History of Drugs.
This course examines the impact of drugs on societies, how drug use has changed throughout history corresponding to major changes in society, and the ways in which drugs have influenced international trade and political economics. Psychoactive substances (from stimulants to hallucinogens) have played a major role in shaping human societies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
HIST 4350A. Slavery and Emancipation in the Americas.
An Atlantic and continental perspective of the institutionalization of the slave trade, the adaptation of the plantation system and the evolution of slave laws, the various models of emancipation in the Americas, followed by the modified forms of indigenous and foreign slave labor adopted in the Americas. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350D. Empire and Identity in Central Asia.
This course explores the historical development of local, ethnic, and national identity in Central Asia from the 13th-century Mongol conquest to the present. The course concludes with explorations of the transnational links within the region and the challenges and possibilities for the five Central Asian republics in the post-Soviet era. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350E. Gender in Latin American History.
This course surveys the role of gender in Latin American history, from pre-conquest to the present. It analyzes Latin American politics, culture, and economics, and gives particular attention to the creation and resistance of social norms. The course strengthens analytical skills through extensive discussion and writing. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350K. Gender & Militarization in the Arab World.
For women and men in the modern Arab world, national identity and sovereignty – or civil war – influence how they live. This class takes advantage of cutting-edge scholarship on the twentieth-century Middle East to hone students’ skills in historical analysis. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350R. Workers and Work in the Arab World.
Of 255 million people in 22 predominantly-Arab countries in North Africa and the Middle East, over the past 150 years, most have worked at some kind of job or another. In this course we will consider how labor politics introduce state regulations to gender, national and sexual identities. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

Home to the world’s largest city, Edo, at the end of the eighteenth century, Japan has been influenced over many centuries by a vibrant and distinctive urban culture. Through works of history, fiction, film, geography, and urban planning, this course introduces students to the characteristics and development of Japanese urban.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350V. History of Pakistan.
This course is an introduction to the history and culture of Pakistan. Broadly covering the 5000 year history of the region, from origins, the introduction of Islam and creation of the modern state, the course focuses on the cultural developments of the region, along with highlights of major political developments. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4350Y. Development of Secularism in Ottoman Empire and Modern Turkey.
The emergence of Turkey as a secular state is a peculiar example among the countries with predominantly Muslim populations. This course aims to provide students with an historical survey of the secularization of the Ottoman state and the development that led to the emergence of modern Turkey.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

HIST 4352. Black Women and Black Protest in America.
This course traces the participation of Black women in every stage of Black protest in America from slavery and Reconstruction thru the Civil Rights and Black nationalist movements to present day. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
HIST 4353. WWI: The Great War.
This course covers the history of the First World War by examining the experiences of both soldiers and civilians across multiple continents. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A study of the interplay of economic, social, political, and cultural forces that shaped American society from the end of World War II to the presidential election of 1968. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

A study of the interplay of economic, social, political and cultural forces that have shaped American society from 1968 to the present. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4362. Peace and Nonviolence Movements.
This course explores the origins, development, and impact of peace and nonviolence movements globally. It examines the roles that religion, class, gender, race, ethnicity, and nationalism have played in shaping social and political perceptions of injustice and public attitudes toward movement goals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A specialized study of the military problems of the United States since 1789 and their impact upon non-military problems. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4365. Age of Revolution in North America, 1763-1789.
A history of the American people during the age of the American Revolution, from the beginning of the crisis with Britain to the adoption of the Constitution. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

A survey of conflicting American attitudes about the desirability of a strong central government, rapid economic growth, aggressive national expansion, and human slavery in a democratic society. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4368. War and Society.
A study of the relationship of war with social and cultural institutions from the 18th century to the present. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4369. Introduction to Ethnohistory.
This course familiarizes students with the ethnohistorical method, a multidisciplinary approach to the study of the historical, social, and cultural processes undergone by indigenous peoples before, during, and after contact with nation-states. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4371. Introduction to American Indian History.
This course promotes understanding of the role played by the native peoples of North America in the history of the United States. Among the subjects to be covered through lectures and discussions: initial migrations and cultural development; impact of European conquest; adaptation; removal and reservation life; 20th century adjustments. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4372. Latina/o/x Histories.
This course is a survey of the political, economic, and social-cultural role of Latinas/os in the United States. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

HIST 4373. Economic and Social History of the Americas.
Comparative history of the Americas with special attention to the United States, Canada, and Mexico. Explores different patterns of economic growth and their impact on societies and international relations. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
HIST 4374A. History of American Sexualities.
This course examines the history of sexuality in the United States from the colonial period to the end of the twentieth century. The course emphasizes the diversity of sexual behaviors, the role of sexual regulation, and modes of thought in the past.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

HIST 4374B. History Lab: European Cinema and Film Festival.
In this course, students will collaborate on a significant faculty-directed research project or public history project as part of a team. Students will learn research methods, project design strategies, and implementation skills. Projects can include working on peer-reviewed research, symposium organization, and/or exhibitions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

HIST 4375A. Critical Issues in Texas History.
Emphasis will be on significant critical issues in Texas history. Topics will include: Mexican independence, Texas and U.S. expansion, the Texas Revolution and the Mexican War, the Civil War and Reconstruction, Spindletop, the Depression and WWII, and the rise of urban, high-tech Texas. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

HIST 4375B. African-American Experience in Texas.
People of African ancestry have played a role in Texas history since Estebanico accompanied Cabeza de Vaca in exploring the region in the 1530s. As slaves, soldiers, and cowboys, Afro-Texans have participated in the state's development while being at the center of controversies regarding rights, racemixing and economic opportunity. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

HIST 4376. The History of Texas Music.
Examination of the evolution of music in Texas and the American Southwest, emphasizing how music reflects the richly diverse ethnic and cultural heritage of the region. It also considers the importance of ethnic identity and other social, political, and economic factors in shaping the Southwest, its people, and its music. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course introduces students to the history of U.S. social justice movements. It defines activism as individual, community, and political acts designed to create social, political, and economic change at both the local and national levels. The course explores a series of topics, including the Black Freedom Movement, Chicano Movement, Indigenous Peoples Movement, voting rights, labor movements, and student activism, among other topics in U.S. social movement history.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

HIST 4379. Internship in Public History.
This course offers a supervised work experience related to students' career interests in historical institutions. Prerequisite: Departmental approval.
3 Credit Hours. 3 Lecture Contact Hours. 8 Lab Contact Hours.
Grade Mode: Credit/No Credit

HIST 4380. Historical Resources and Practices.
This course is required for students seeking teacher certification in History. This course is an introductory methods course designed to familiarize students with general historical practice and its application in secondary teaching. (WI) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

HIST 4388. Problems in History.
This is an independent study course open to advanced students on an individual basis. Repeatable for credit with different emphasis. (WI) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

HIST 4399. Senior Seminar.
This course is required for History majors not seeking teaching certification. In this course students refine skills and techniques essential to the historical profession. Students analyze primary and secondary sources, apply methods, and write a term paper. Prerequisite: 24 semester credit hours in History with a grade point average of at least 2.25 in those hours. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (http://mycatalog.txstate.edu/undergraduate/general-education-
core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. The History courses HIST 2327 (http://mycatalog.txstate.edu/search/?P=HIST%202327), HIST 2328 (http://mycatalog.txstate.edu/search/?P=HIST%202328), HIST 2381 (http://mycatalog.txstate.edu/search/?P=HIST%202381), and HIST 2382 (http://mycatalog.txstate.edu/search/?P=HIST%202382) are for general education core curriculum credit only and cannot apply toward the History major.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. This major requires 33 semester credit hours including the following History courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 1310</td>
<td>History of the United States to 1877</td>

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. In choosing advanced History electives, students are required to complete one course from Group A (World History), one course from Group B (European History), one course from Group C (U.S. History), and three courses from any Group as long as no more than three courses are taken from any one group. (See Group lists below).

9. For transfer students, 12 semester credit hours in History (or equivalents) may be transferred from a Texas public institution of higher education for the History Field of Study and be applied to the Bachelor of Arts degree with a major in History at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**GROUP D - HISTORY CAPSTONE AND TEACHER CERTIFICATION PREPARATION**
| HIST 4380 | Historical Resources and Practices                                     | 3         |
| HIST 4399 | Senior Seminar                                                        | 3         |

1. Course is listed in multiple groups based on content from a variety of regions; however, such courses may only apply to one group upon completion.
2. HIST 4388 is an independent study and may be applied to Group A, B, or C depending on content.
## Minimum Hours: 120 Semester Credit Hours

### Admission Requirements
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/).

### General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. The History courses HIST 2327 (http://mycatalog.txstate.edu/search/?P=HIST%202327), HIST 2328 (http://mycatalog.txstate.edu/search/?P=HIST%202328), HIST 2381 (http://mycatalog.txstate.edu/search/?P=HIST%202381), and HIST 2382 (http://mycatalog.txstate.edu/search/?P=HIST%202382) are for general education core curriculum credit only and cannot be applied to the History major.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (http://mycatalog.txstate.edu/undergraduate/degree-program-information/) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a “C”.
6. This program is designed to prepare students for secondary teacher certification in History and requires students to pursue a second major in Education. The following courses are required for the major in History:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 1310</td>
<td>History of the United States to 1877</td>
<td>3</td>
</tr>
<tr>
<td>HIST 1320</td>
<td>History of the United States, 1877 to Date</td>
<td>3</td>
</tr>
<tr>
<td>HIST 2311</td>
<td>History of World Civilization to the 17th Century</td>
<td>3</td>
</tr>
<tr>
<td>HIST 2312</td>
<td>History of World Civilization from the 17th Century</td>
<td>3</td>
</tr>
<tr>
<td>HIST 3372</td>
<td>Texas History: A Survey</td>
<td>3</td>

<td>3</td>
<td></td>
</tr>
<tr>
<td>HIST Group C - U.S. History</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>HIST Group A or Group B</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

7. This degree program is designed to prepare students for secondary teacher certification in History and requires that students pursue a double major by declaring and completing requirements for both the major in History and the major in Education. The following courses are required for the major in Education:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CI 2310</td>
<td>Education for Change</td>
<td>3</td>
</tr>
<tr>
<td>CI 3325</td>
<td>Adolescents and Society</td>
<td>3</td>
</tr>
<tr>
<td>CI 4332</td>
<td>Secondary Teaching: Curriculum and Technology</td>
<td>3</td>
</tr>
</tbody>
</table>

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/ (https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F&data=02%7C01%7CCholschuh%40txstate.edu%7C9bbf815b943a454a19a608db656f08553%7Cb19c134a14c94d4caf65c420f94%7C0%7C0%7C636791988354269026&ddata=1mFrHq4PpAsueZ4L69PPbQiwNw%3D&reserved=0).
9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list:

**Minimum Hours: 121**

**Semester Credit Hours**

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/).

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. The History courses HIST 2304, HIST 2305, HIST 2306, HIST 2307, HIST 2308, and HIST 2309 are for general education core curriculum credit only and cannot apply toward the History major.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (http://mycatalog.txstate.edu/undergraduate/degree-program-information/) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum, the additional science may be satisfied through the completion of GEO 2410 in the major, and the second major in Education fulfills the minor requirement.

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Nine hours of writing intensive (WI) courses are required for graduation.

5. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a "C".

6. This program is designed to prepare students for secondary teacher certification in History Social Studies Composite and requires students to pursue a second major in Education. The following courses are required for the major in History Social Studies Composite:

<table>

HIST 4376  The History of Texas Music  3
HIST 4377  Social Justice and Reform Movements in the United States  3
HIST 4388  Problems in History  3

1 Course is listed in multiple groups based on content from a variety of regions; however, such courses may only apply to one group upon completion.
2 HIST 4388 is an independent study and may be applied to Group A, B, or C depending on content.

Minimum required: 129 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. The History courses HIST 2327, HIST 2328, HIST 2381, and HIST 2382 are not allowed for History major credit. Those History courses are for general education core curriculum credit only.
3. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
4. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).
5. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).
6. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
7. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.
8. This major is designed to prepare students for secondary teacher certification in History and a second teaching field. Students must complete all requirements associated with an approved second teaching field.
9. This major requires 33 History hours including the following History courses:

<table>

Total Hours: 33

10. In addition to the major, minor, and second field requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
11. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.50 in all assigned courses in the professional sequence with no grade below a “C”.
12. For transfer students, 21 semester credit hours in History (for the teacher certification track) may be transferred from a Texas public institution of higher education for the History Field of Study and be applied to the Bachelor of Arts degree with a major in History at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**Electives**

Choose 12 hours of advanced History courses

| Total Hours | 24 |

1. In choosing advanced electives, students are required to complete one course from Group A (World History), one course from Group B (European History), one course from Group C (U.S. History), and one additional course from any Group.

The minor in Peace and Social Justice Studies requires 18 semester credit hours. This minor is an interdisciplinary minor that focuses on practical questions of how to realize peace and justice in the everyday world. It is designed to provide students with a historical perspective on injustice and corresponding movements for social justice and on the philosophy and methods of nonviolent protest and conflict resolution. It cultivates the knowledge and skills necessary to build peace with justice locally, at the family and community level, while also preparing students for a wide range of occupations in governmental and nongovernmental organizations that focus on diplomatic problem-solving and mediation of disputes.

Total Hours: 27

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

www.txstate.edu/philosophy

The two disciplines that have a home in this department, Philosophy & Religious Studies raise some of the most fundamental questions about our world and ourselves-questions about the nature of reality, knowledge, morality, God, and society. Students study the thinking of major scholars on such matters and learn to think critically and clearly on their own. Our small classes cultivate student-faculty mentoring, research and learning. Our faculty - professional philosophers and scholars of religion, authors and leaders in the field - work one-on-one with students, encouraging independent research and professional preparation. And our co-curricular activities and organizations build strong rapport and camaraderie between our students, most notably by participation in dialogue. By fostering a love of learning, an appreciation of the value of critical and reflective thinking, and a collaborative intellectual community; we help prepare our students to become engaged, reflective citizens and lifelong learners while preparing them for graduate study or careers in government, law, the non-profit sector, business, or education.

The Department of Philosophy serves our majors and minors by providing an intensive and flexible course of study through which they rigorously engage in reflection and dialogue, logical analysis, conceptual interpretation, and develop and critique texts, arguments, and ideas. We help them develop a broad competence in critical thinking and analysis of arguments. Philosophy and Religious Studies students pursue the study and understanding of diverse positions and perspectives, and are encouraged to consider the relevance of their course of study for their post-graduate plans.

Since philosophy is the home of the study of logic and the principles of good argumentation, it lends itself well to being joined with virtually any course of study. Philosophy students are highly valued for their communication skills, their ability to make ethical decisions and their adaptability in new situations. Through the study of philosophy, we learn how to explain why we know what we know and believe what we believe. Not only does this ability make us stand out as citizens and leaders, it also helps us navigate life's choices and better understand our world.

Religion intersects with all areas of culture including politics, science, economics, and law. This intersection of religion and culture is reflected in a wide variety of careers found across the spectrum of cultural work, human services, education, and the arts, such as hospital chaplaincies, secondary education, legal support work, and journalism. Furthermore, the conditions of globalization mean that there will be increasing demand for job candidates who can negotiate culturally diverse work environments. Knowledge of the world’s religions is needed in business, law, health, law enforcement, and politics both national and international. Religious literacy is essential to responsible citizenship, and increasingly demanded by employers.

Our graduates have pursued careers in business, journalism, law, medicine, education, public safety, and the arts. In these cases our former students realize that the successful practitioner is a good thinker, a clear communicator, and a culturally aware and morally responsible person. The courses of study offered in this department offer opportunities for students to develop their critical and creative powers, other students develop an interest in becoming professional philosophers or scholars of religion, and enroll in some of the nation’s best graduate programs in philosophy or religious studies.

For those students with special interests in a particular area, the department offers the following recommendations:

**Pre-Professional Study of Philosophy**

Students interested in pursuing graduate work in philosophy are advised to complete the B.A. with a major in Philosophy and to take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 3320</td>
<td>Ethics</td>
<td>3</td>
</tr>
<tr>
<td>PHIL 3340</td>
<td>Philosophical Logic</td>
<td>3</td>
</tr>
</tbody>
</table>
Students with a primary interest in Western thought should also develop a language proficiency in Spanish, French or German. Those interested in Asian philosophy are advised to study Japanese or Chinese, and those who wish to pursue Medieval or Islamic thought should study Arabic.

Pre-Law and the Study of Philosophy
Pre-law students often pursue an undergraduate major in philosophy, often as a second major. Given the importance that both philosophy and law attach to analysis, argumentation, and the evaluation of evidence, adding a major in philosophy serves students well as they prepare and complete entrance exams and interviews, and also in the study and practice of law. Pre-law students should also consider taking the following electives:

<table>
<thead>
<tr>
<th>Code</th>

Subjects in this department include: PHIL (p. 559), REL (p. 564)

Courses in Philosophy (PHIL)

PHIL 1305. Philosophy and Critical Thinking.
A study of universal philosophical problems and their solutions with a view toward developing clear thinking about knowledge, belief, and value. Approximately one half of this course will focus on the student's critical thinking skills. Credit cannot be given for both PHIL 1305 and PHIL 3301. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 1301

PHIL 1320. Ethics and Society.
Study of ethics, its recent focus on social problems, and new fields of inquiry, including environmental ethics, ethics in business, professions, technology and sport. Also such global issues as poverty, minority rights, and stem cell research. Emphasis on development and application of principles of critical thinking and moral reasoning. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 2306

PHIL 2311. History of Philosophy Before 1600.
Early Greek, Roman, and medieval systems of thought. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 2316

PHIL 2312. History of Philosophy Since 1600.
Modern philosophical thought through the 19th century. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 2317

PHIL 2330. Elementary Logic.
A study of the nature and forms of correct reasoning, both deductive and inductive.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PHIL 2303

PHIL 3314. American Philosophy.
Examination of contributions of Americans to perennial philosophical issues. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3315. Contemporary Philosophy.
Selected readings in late 19th and 20th century philosophy: existentialism, positivism, analytic philosophy, phenomenology, and pragmatism. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3316. Existentialism and Phenomenology.
A study of the nature of human experience and existence in the philosophies of Kierkegaard, Nietzsche, Husserl, Heidegger, Sartre, Merleau-Ponty, and Camus. Topics will include freedom, dread, emotion, death, other minds, faith, and the past as experienced by the individual. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3317. Science and Religion.
An examination of modern science and religion, and an analysis of the issues and ideas involved in the relationships between them. (WI) (MULT) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 3318. Reason, God, and Nature.
This course is an analysis of the concept of God, terms predicated on God, and theological propositions. Topics include determining the nature of religious utterances and comparison of religious claims with those of everyday life, scientific discovery, morality, and imaginative expression. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PHIL 3320. Ethics.
This course is a study of classical and contemporary philosophical inquiries into our knowledge of the "good" and the grounds of moral obligation. (WI) Prerequisite: [PHIL 2311 or PHIL 2312] and PHIL 2330 both with grades of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course is an exploration of philosophical dimensions of contemporary moral problems such as abortion, euthanasia, poverty, animal rights, nuclear war, and privacy in a computer age. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3322. Professional Ethics.
This course is a study of major topics in business and professional ethics, including what a profession is, whether it differs from business, and what is involved with the moral education, social responsibilities, and ethical standards of professionals and business people. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3323. Environmental Ethics.
Study of ethical issues associated with the environment including nature, use, preservation, and restoration of the environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHIL 3324. Meaning of Life.
Investigation of major theories of the meaning of life in Western and Eastern philosophies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3325. Philosophy of Sex and Love.
Critical survey of major thinking on sex and love from ancient to modern times. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3326. Philosophy and Sport.
This course is an examination of philosophical issues in sport, including the social significance of sport, ethical issues, gender equity, sport and race, mind and body in sport, aesthetics, sport and self-knowledge, and the connection of sport and philosophy. (WI) (MULT) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 3331. Philosophy of Law.
This course is an examination of the major theses which have been set forth in the history of jurisprudence including foundations of law, natural law, legal positivism, and the judicial process. (WI) Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3332. Social and Political Philosophy.
This course is a critical examination of major theories concerning the organization of societies and governments. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 3333. Feminist Theory.
In this course students examine major feminist theories including liberal feminism, Marxist feminism, radical feminism, and post-modernist feminism with an eye especially to revealing the complexity and diversity of contemporary feminist thought. (MULT) (WI). Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 or WS 3376 or WS 3377 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 3334. Philosophy of Economics.
In this course students are introduced to the various theoretical frameworks that have and continue to inform scholarship in philosophy of economics. Participants explore differences and commonalities between distinct theoretical traditions (including liberal, Marxist, post-structuralist, positivist, neo-liberal, rational choice) and learn to critically examine the nature of economic phenomena and the possibilities of knowledge in economics. Participants also develop tools to appraise economic outcomes, institutions, and processes. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PHIL 3340. Philosophical Logic.
Study of the logic of propositions through prepositional calculi, formal proofs, and first-order functional calculi. Also included is an investigation into the philosophical assumptions and implications of formal systems and the axiomatic method as used in logic and mathematics, including the concepts of completeness and consistency. Prerequisite: PHIL 2330 or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PHIL 3351. Philosophy and Literature.
The course explores the relation between philosophy and literature. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4301. Applied Philosophy.
This course explores the practical application of methods and teaching of philosophy to religion, science, morality, politics, art, or literature. The study of one or more of these areas will demonstrate how philosophy contributes to the identification of issues as well as their resolution. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4302. Dialogue.
Study of literature about the nature, purpose, and significance of dialogue along with active participation in the dialogues of the Department of Philosophy’s Dialogue Series. (WI) Prerequisite: PHIL 1305 with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PHIL 4303. Philosophy of Technology.
This course is a study of philosophical and ethical dimensions of technology including the nature of technology and technological progress, the relation of humans to the technological environment, whether technology is value-laden, and the social character of technology. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4304. Philosophy of Language.
Students will examine the nature, structure, and uses of language and its role in conceptualizing and attempting to solve perennial philosophical problems. Features of language such as meaning, reference, truth, verification, and speech acts will be investigated and applied to issues of metaphysics and ontology, epistemology, ethics, and theory construction. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4327. Bioethics.
In this course students will study ethical issues, dilemmas, codes of conduct, and social responsibilities of healthcare professionals and bioresearchers. Additionally, students will critically examine issues of ethics and justice in healthcare systems, clinical practice, and biotechnology. (WI) Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4350. Philosophy of the Arts.
This course is a critical and historical analysis of the nature of aesthetic experience and creative genius. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4351. Philosophy of Education.
Study of major philosophical theories on nature, values, and purpose of education. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4355. Philosophy of Science.
This course is a study of the major theories concerning the nature and value of science and the scientific method. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4356. Philosophy of Knowledge.
This course is a study of the major theories concerning knowledge, belief, certainty, and perception. (WI) Prerequisite: [PHIL 2311 or PHIL 2312] and PHIL 2330 both with grades of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PHIL 4360A. Ethics and Dementia. This course provides an opportunity to examine ethical challenges posed by dementia for those with dementia, family members, caregivers, healthcare systems, policy makers, and others. Participants will critically explore ethics and dementia in clinical, social/cultural, everyday life, policy, end-of-life, and individual perspectives. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360B. Moral Psychology. This course provides an introduction to the major theories, issues, and research relevant to the field of moral psychology. Drawing from a variety of fields—philosophy, social psychology, cognitive psychology, developmental psychology, and evolutionary theory—we will investigate what morality is, how it develops, and how it functions in society. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360C. Philosophy, Nonviolence, Sustainability, and Social Change. In this course students will study themes and concepts related to nonviolence, sustainability, and social change. Participants will critically examine the works of thinkers such as Thoreau, Addams, Tolstoy, Gandhi, King, and Chavez. (WI) (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360D. Military Ethics. This course is a systematic study of ethical issues in military life and military action, and of such concerns as the relation of the military to the nation state and the relation of the military to civil society. Additional topics include ethical issues in cyber warfare, the military and privacy, and ethical issues of military life and actions across cultures and nations. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360E. Ethics and Philosophy of Friendship. In this course students will explore the nature, meaning, and theories of friendship. Participants examine historical and contemporary accounts of friendship, with special attention given to the ethical dimensions of each account. Additional topics include the intersection of friendship with marriage and partnership, professional relationships, work, disabilities, race, sexuality, and religion. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4360F. Biopolitics, Governmentality, and Ungovernability. This course is an introduction to (1) biopolitics, or the government of life, (2) governmentality, or the frameworks, modalities, and mechanisms of governance, and (3) ungovernability, or the limits of and resistances to governance.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361A. Philosophy of Biology. In this course students will explore foundational questions in biology concerning the justification of biological theories, methods and concepts. Possible topics include concepts of fitness, units of selection, adaptationism, species, phylogenetic inference, homology, developmental systems, neuroscience, behavioral evolution, cooperation, altruism, evolutionary psychology, evolutionary ethics, cultural evolution, and race and gender. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361B. Philosophy of the Human Sciences. This course is a survey of current debates about the structure, nature, role, methodologies, scope, and aim of the human sciences. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours. Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
PHIL 4361C. Philosophy of Emotion.
In this course students examine the understandings of emotions as developed in the history of philosophy, including topics such as somatic theories, cognitive theories, and philosophical accounts of feelings, mood, and other affective experiences. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361D. Philosophy of Mind.
In this course, students analyze historical and contemporary philosophical attempts to explain the mind. Prerequisite: PHIL 1305 or PHIL 1320 with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361E. Philosophy and Ethics of Virtual Reality.
In this course, students investigate philosophical and ethical issues in virtual reality.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4361F. Ethics of Artificial Intelligence and Big Data.
In this course, students will explore ethical dimensions of Artificial Intelligence and Big Data.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4362A. History of Analytic Philosophy.
Students in this course will examine major thinkers, works, theories, and problems of analytic philosophy. Topics will include the philosophy of language, logic, philosophy of mathematics, philosophy of mind, philosophy of science, metaphysics, epistemology, ethics, metaethics, and philosophical methodology. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4362B. 19th-Century Philosophy.
This course offers a detailed introduction to central figures of 19th-century European philosophy such as Hegel, Marx, Kierkegaard, and Nietzsche in the context of their responses to the Enlightenment, the condition of modernity, the growth of democracy, nationalism, capitalism, Darwin, secularization, and the critical project of Kant. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4363A. Philosophy and Science Fiction.
In this course students will examine intersections between philosophy and science fiction around topics such as the nature of reality, the existence and nature of the divine, the limits of human knowledge, the meaning of free will, the notions of personhood, the nature of morality, and the meaning of life. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PHIL 4370. Metaphysics.
This course is a systematic study of metaphysical problems by examination of classical and modern texts. Topics considered will involve being and unity, mind and matter, God, causation and necessity, free will and determinism. (WI) Prerequisite: [PHIL 2311 or PHIL 2312] and PHIL 2330 both with grades of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PHIL 4371. Asian Philosophy.
The course covers mainly Chinese and Indian philosophy, such as Confucianism, Taoism, Buddhism. How do people in the orient look at the meanings of life, the nature of the world and their place in the world? This course shall shed light on these issues. May be repeated for credit. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 4372. Latin American Philosophy.
Study of ancient Latin American thought, including Mayan, Aztec, Toltec, and Incan, pre- and post conquest Latin American philosophy, contemporary Latin American philosophy, and the thinking of Latin Americans in the U.S. (WI) (MULT) Prerequisite: PHIL 1305 with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
PHIL 4373. Themes in Africana Philosophy.
In this course students will examine philosophy and philosophical practice as it emerges from the historical experiences of African Americans and the African Diaspora. Participants in the course will evaluate how the African-American philosophical tradition alters conventional philosophical accounts of subjectivity, knowledge, time, language, history, embodiment, memory, and justice. (WI) (MULT)
Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PHIL 4388. Problems in Philosophy.
Independent study of specific problems in philosophy. Open to students on an individual or small group basis by arrangement with the Department of Philosophy. Problem area, bibliography, and study paper outline are to be approved by the instructor. May be repeated once for additional credit. Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

Courses in Religion (REL)

REL 1300. World Religions.
This course is a survey and comparative study of some of the major religious traditions and practices of the world including Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, Confucianism, and the Indigenous Religions. Students learn to analyze problems from different perspectives, and gain skills useful for working with diverse populations. Recommended as an entry course for religious studies minors. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lang, Phil & Culture Core 040|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
TCCN: PHIL 1304

REL 2310. Introduction to the Hebrew Bible.
An introduction to the contemporary academic study of the Hebrew Bible ("Old Testament") and related Near Eastern and Second Temple Jewish literature. Representative texts will be examined using the historical and literary methods of scholarship. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

An introduction to the contemporary academic study of the New Testament, including apocryphal and post-canonical works. Representative texts will be examined using the historical and literary methods of scholarship.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

REL 2321. Founders, Prophets and Saints.
Critical analysis of the life, works, and thought of a major religious figure, e.g., Jesus, Paul, Luther, St. Teresa, Maimonides, the Baal Shem Tov, Mohammad, al-Ghazzali, Rumi, Buddha, Gandhi. May be repeated for credit. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

REL 2330. What is Religion?.
In this course, students examine different theories and claims about what religion is and does. Participants examine competing views and approaches to see what is persuasive. Students are introduced to methodologies in religious studies, learn to analyze problems from different perspectives, develop critical thinking competencies, and gain skills useful for working with diverse populations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 2350. Mediterranean and European Religions.
This course is a survey of religions that originated in the Near East, Mediterranean, and Europe, with emphasis on the ancient to medieval periods. The course includes Judaism, Christianity, and Islam, in the contexts of Egyptian, Persian, Greco-Roman, and old European traditions. Students learn to analyze problems from different perspectives, and gain skills useful for working with diverse populations. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

REL 2360. Asian Religious Traditions.
This course is a survey of the major religious traditions originating in Asia: Hinduism, Buddhism, Taoism, and others. Basic doctrines and practices will be covered in an historical framework. Students learn to analyze problems from different perspectives, and gain skills useful for working with diverse populations. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
REL 3320. Judaism.
This course surveys the history, practices, core texts, and major movements of Rabbinic Judaism, from the destruction of the Second Temple to the contemporary global scene. Some attention is also given to earlier Israelite religion, dissident movements, mysticism, and Jewish communities beyond the Euro-American zone.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 3330. Religious Controversy in America.
Students in this course analyze religious controversies and crises in America from the colonies to the present in order to interpret the role of religion in American history, culture, law, and politics. Topics include the Salem Witch Trials, the Jim Jones massacre, and Ten Commandments monuments on government property. Students develop communication competencies and learn to critically interpret data (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course investigates New Religious Movements (NRMs) primarily within the contemporary American context. Controversial and emerging religions can be approached from many angles. Accordingly, the course introduces students to a variety of theoretical perspectives and approaches for studying NRMs. Students are encouraged to develop communication competencies and to learn to critically interpret data (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

The course features a thematic selection of literary and artistic works in order to examine the connections and disconnections between the aesthetic and religious aspects of human culture. Students develop communication competencies. May be taken twice for credit with different topics. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

REL 3342. The Homeric Epic: The Iliad and the Odyssey.
A close reading of the Iliad and the Odyssey in English translation, with emphasis on philosophical and religious issues. Prominent topics include the gods, religious rituals, heroic ethics, and the human condition. The course also considers the concept of a classic in religion and literature. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

REL 3361A. Religion and Film.
This course examines how religions are reflected in film and how films have taken on some of the functions of religion. Students develop communication competencies. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

REL 3361B. Mysticism.
This course explores the dimension of mysticism that pervades both Western and Eastern religious traditions. We will analyze the nature of mystical experiences through a study of key figures and texts, and examine its peculiar relationship to language, arts, and human subjectivity and its place in the wider social context. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

REL 3361C. Philosophical Issues in Judaism, Christianity, and Islam.
This course provides a comparative perspective on philosophical issues that arise in Judaism, Christianity, and Islam, including the nature of God, reason and revelation, and religious ethics. Readings are drawn from both classical and contemporary sources. Students learn to analyze problems from different perspectives, develop critical thinking competencies, and gain skills useful for working with diverse populations. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

REL 3370. Mythology and Cosmology.
This course examines human efforts to address questions of cosmic origins, with a global, comparative survey of cosmogonic (creation) myths and a historical approach to modern cosmology. It examines the features and functions of mythopoetic and scientific thought, and reflects philosophically on questions of origin and meaning. Students gain skills useful for working with diverse populations and learn to analyze problems from different perspectives. May be taken twice for credit with different topics. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

REL 3372. Apocalypticism.
An historical-cultural survey of end-of-the-world literature, art, and thought in Western Civilization, from ancient Judaism and Christianity to the present. Historical and scientific methods provide the framework for this course. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
REL 3381. The Philosophical and Spiritual Heritage of India.
Indian philosophers predominantly present a spiritual, multi-dimensional outlook on the nature of reality and human consciousness; they combine reason, experience, yoga and meditation as methods of inquiry. This course explores Indian spiritual philosophy from the time of the ancient Vedas to the contribution of modern sages. Students gain skills useful for working with diverse populations. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

REL 3383. An Introduction to Chinese Religions.
This course examines the religious history of China from 3000 BCE to the present-day. It covers beliefs, practices, and histories of the four major religious communities in China—Buddhism, Daoism, Confucianism, and “Popular Religion”—as well as expressions of minority religions in China such as Islam and Christianity. Students gain skills useful for working with diverse populations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

REL 3385. Buddhism.
This course surveys the main ideas, myths, symbols and practices of the diverse forms of Buddhism. Students explore and evaluate the manner in which Buddhist perspectives have influenced social values and arts in the South East and East Asian cultures. Students gain skills useful for working with diverse populations. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

REL 3386. Yoga: Principles and Practice.
This course is an in-depth study of the principles and the practice of yoga. Students explore the yogic conception of the mind and the body and how it relates to psychoanalytical and neuroscientific frameworks. Students also examine the parallels between the discipline of yoga and practices in other religious traditions. Students gain skills useful for working with diverse populations and learn to analyze problems from different perspectives.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course is a survey of religious beliefs and practices relevant to embodiment, health, disease, disability, aging, and death. The approach is comparative, with non-exclusive emphasis on Jewish and Christian primary material. Students develop critical thinking and communication competencies, and gain skills useful for working with diverse populations. Prerequisite: PHIL 1305 or PHIL 1320 and REL 1300 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course provides a rigorous grounding in the intellectual tradition of academic religious studies. It includes the major theorists and a sustained examination of the problem of method. This course is strongly urged for RS minors and students intending graduate work in the field. Prerequisite: ANTH 3305 or ANTH 3322 or ANTH 3326 or ANTH 3332 or ANTH 3349 or ANTH 4320 or ARTH 2301 or ARTH 2302 or ENG 3329 or HIST 3312 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. The Bachelor of Arts (B.A.) degree with a major in Philosophy requires 30 hours including the following Philosophy courses:

Total Hours: 120

### Minimum required: 120 semester credit hours

#### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of mathematics, science, logic, or computer science courses, a minor, and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. The degree program requires 30 hours of major coursework, with at least 21 hours of coursework in REL courses and at least 18 of the 30 hours at the 3000 or 4000 level.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. Graduating seniors must submit a portfolio of their work and participate in an exit interview with the Religious Studies faculty. Details about the portfolio are available in the Department’s main office.

**Total Hours** 18

The minor in Value Studies requires 18 semester credit hours. The minor allows a student with special interests in value theory to pursue a course of study, which culminates in an independent research project in value studies. This project may be a study of a theoretical issue in value studies or something of an applied nature; students may affiliate with people in various work environments or service learning settings to identify value conflicts and suggest resolutions.

www.polisci.txstate.edu (http://www.polisci.txstate.edu)

Political science is the study of government, the most important decision-making part of society, and of the social, economic, and other institutions and practices that influence this decision-making process. On the one hand, it is a discipline that can trace its roots to the ancient Greek political community, the polis; but it is also a modern social science, which uses techniques such as content analysis, public opinion surveys, and statistical analysis to create and evaluate generalizations about how government and people behave.
As a liberal arts discipline, the department is dedicated to developing analytical skills, effective oral and written communication, and promoting critical thinking. Students are encouraged to reflect not simply on their career goals, but also on what type of persons they want to become, and on their rights and duties as citizens. The department's internship program prepares students for the transition from college to career by offering opportunities to earn academic credit and gain practical experience working for various federal, state, local, or non-profit community agencies.

Political science prepares students for careers in various fields, not only in government, law, and education but also in business, journalism, urban planning, and many fields on which public policies have a significant effect.

In addition to bachelor degree options in political science and public administration, the department offers master's degree programs in political science, public administration, and legal studies, including a paralegal studies certificate. Undergraduate students have opportunities to begin graduate study while completing their undergraduate degree through 3+2 degree plan options.

Recognition of Student Scholarship

The Annual Professor Henderson Award
The Department of Political Science annually presents the Professor Henderson Award to the graduating Political Science major with the highest overall GPA (the award may be for either a December or May graduate of the current academic year). The award has the purpose of recognizing and honoring a student of Political Science who has, as a student at Texas State, displayed academic excellence and character in the tradition and values cherished and exhibited by Richard B. Henderson, Distinguished Professor Emeritus.

The Howard M. “Prof” Greene Award
This award honors an academic mentor in politics to Lyndon B. Johnson and thousands of other Texas State alumni and goes to one or more graduating Political Science majors who have earned overall Texas State grade-point averages of 3.9 or above.

Interested students who believe they may be eligible for these awards should consult with the Department Chair.

Bachelor of Arts (B.A.)
- Major in Political Science (p. 580)

Bachelor of Public Administration (B.P.A.)
- Major in Public Administration (p. 582)

Minors
- Political Communication (p. 583)
- Political Science (p. 583)
- Public Administration (p. 584)

Subjects in this department include: POSI (p. 571), PS (p. 571), PA (p. 579)

Courses in Political Science (POSI)

A survey of the principles of political science, of the American system of government, and of the origins and development of the constitutions of the United States and Texas. Satisfies the legislative requirements for teacher certification.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Govt/Pol Science Core 070
Grade Mode: Standard Letter
TCCN: GOVT 2306

This course is a study of functions performed in the American system of government, both national and state, within the framework of the U.S. and Texas Constitutions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Govt/Pol Science Core 070
Grade Mode: Standard Letter
TCCN: GOVT 2305

Courses in Political Science (PS)

PS 2304. Introduction to Political Science.
This course is an introductory survey of the discipline of political science, focusing on the history, scope, and methods of the field and the substantive topics in the discipline. Prerequisite: POSI 2310 or POSI 2320 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PS 3300. Basic Political Ideas.
This course examines fundamental ideas of the Western political tradition including conservatism, liberalism, socialism, democracy, and totalitarianism.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3301. Basic Political Institutions.
This course examines political institutions emphasizing the fundamentals of political science research/analysis, the tools used in bibliographical research, and methods of locating and presenting data for comparing political institutions.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PS 3311. American Political Thought: From the Colonial Period to Civil War.
This course examines the development of American political ideas from the colonial period through the Civil War. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3312. American Political Thought: From Reconstruction to Present.
This course examines the development of American political ideas from Reconstruction to the present. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3313. Contemporary Political Theory.
This course examines selected theories, ideologies, and movements in 20th and 21st century political theory. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3314. Politics and Personality.
This course is an undergraduate seminar exploring the relationship between political behavior and human motivation. Topics include: psychological perspectives and political theory, personality and political orientation, and the political personality. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3315. Quantitative Research in Political Science.
This course introduces statistical theories and quantitative analyses, and examines methodological concepts, definitions and procedures, various hypotheses testing and integrated research applications in the discipline of Political Science. Prerequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1317 or MATH 1319 or MATH 2321 or MATH 2471 or MATH 2471 or HON 2302A or HON 2302B any with a grade of "C" or better. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3321. Campaigns and Elections.
This course examines the dynamics of American political campaigns and elections at the federal and state level. The analysis and discussion will include theoretical evaluations of voting, campaigns, and elections as well as technical and practical information about campaign strategies. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3322. Political Parties and Party Politics.
This course examines the American political party system, including its history and organization, suffrage, nominations, elections, campaigns, and the related areas of public opinion and pressure group activities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3323. Congress and the Legislative Process.
This course examines the dynamics of lawmaking and legislative politics in the United States. This course analyzes, compares, and evaluates the structure, party organization, rules of procedure, and actual operation of the Congress and of selected state legislatures (including Texas). Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3324. The American Presidency.
This course examines, in depth, both the presidency of the United States and the individuals who have held it.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3325. State and Local Government.
This course examines the organization, functions, and powers of state, county, and municipal governments in the United States with particular reference to patterns of such governments in Texas. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3326. Issues and Interest Groups: Power and Pressure in America.
This course examines selected issues at the state and national level and the interest groups which attempt to influence governmental decisions about them. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PS 3327. The American Founding.
This course examines the origins, nature, and foundations of the American Constitutional system with special emphasis on the Federalist and Anti-Federalist debates and the writing of the Constitution.
Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3334. Civil Law in American Society.
This course examines the structure and functions of government, especially the judiciary, together with the laws regulating private social relations, (e.g., property law, tort law, etc.), and the relations between legal policies and societal goals and regulations. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3328. Politics in Film.
This course examines films which explicitly address political issues such as racism in the United States, the conflict between public duty and private conscience, politics and media manipulation, and the role of perception in all the actions people take.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3341. Comparative Politics.
This course introduces students to the subfield of comparative politics through an examination of recent political history, political institutions, party systems, and public policies of some of the world's most important countries (including the United Kingdom, Germany, France, Russia, China, Iran, India, South Africa, Mexico and others).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3331. The Supreme Court and the Judicial Process.
This course examines the judiciary, focusing upon the politics of judicial selection and the decision-making process of the judiciary as well as the position of the judiciary in the entire political process. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3342. African Politics.
This course examines the government and politics of African political systems in light of the traditional political cultures, the colonial and post-colonial experience and the diversity of regime experimentation with special attention to the struggle for genuine democracy. (WI) (MULT)
Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course examines and analyzes, through a constitutional case study approach, the fundamental principles of governmental structure with an emphasis on the office and powers of the President, Congress, and inter-governmental relationships in the main body (Articles I through VII) of the U.S. Constitution. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course is a comparative analysis of political systems in Latin America, examining the impact of sociocultural and economic factors on political attitudes and behaviors. Special emphasis will be placed on the political systems of Mexico, Cuba, and Brazil. (WI) (MULT)
Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course examines the area of constitutional interpretation commonly known as civil liberties or the relations between the individual and the government. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3344. Government and Politics of Europe.
This course examines the political history and political institutions of Europe and the European Union. Special emphasis will be placed on the political systems in the United Kingdom, France, Italy, Germany, and Russia. (WI) (MULT)
Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
PS 3345. Government and Politics of Russia.
This course examines the domestic and foreign policy of the former
Soviet Union, examined both historically and analytically. (WI) (MULT)
Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course examines political development in the nations of Far East
and South Asia, special consideration will be placed on the political
systems of China, Japan, and India. (MULT) Corequisite: PS 3300 or
PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course examines the political and economic significance of
Southeast Asia through comparative analysis; it will include an empirical
and conceptual examination of the political dynamics of the region. (WI)
(MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 3348. Revolution and Nationalism.
This course examines the phenomena of modern revolution and
nationalism focusing on different countries in various geographical
areas such as the Middle East, Latin America, and others. This course is
repeatable once with a different emphasis for an additional three credit
hours. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of
"D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural
Content|Writing Intensive
Grade Mode: Standard Letter

This course examines some key insights in party and party system theory
and practice. Latin America is the regional referent for examining themes,
and country examples are studied in depth to illustrate the theory.
Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 3351. Introduction to International Studies.
This course examines critical interdisciplinary questions pertaining to all
courses in the International Studies Program. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 3352. Theories of International Politics.
This course examines theories and concepts in the study of international
relations. Major theoretical works and illustrative case studies will be
critically analyzed. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 3353. Issues in World Politics.
This course examines major issues in world politics, international
relations, and comparative politics. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 3354. United States-Latin America Relations.
This course examines United States-Latin America relations as a subset
of US global relations and US foreign policy. This course will examine
policies, problems, and attitudes with a detailed analysis of U.S. relations
with selected countries. (WI) (MULT) Corequisite: PS 3300 or PS 3301
either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4310A. Natural Law and Virtue Ethics.
This course examines the development of natural law and virtue ethics
theory from ancient through contemporary thought. Corequisite: PS 3300
or PS 3301 or PS 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Intensive
Grade Mode: Standard Letter

PS 4310B. Topics on Freedom of Speech and Thought.
This course considers freedom of speech and thought as foundational
conditions in liberal conceptions of human flourishing. The course will
combine a close reading of modern and contemporary authors with
an analysis of recent controversies implicating these freedoms, such
as debates about hate speech and political correctness. Corequisite:
PS 3300 or PS 3301.
3 Credit Hours. 0 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing
Intensive
Grade Mode: Standard Letter

PS 4311. Ancient and Medieval Political Thought (Greeks to 1600).
This course examines classical and medieval political theory from Plato
to Machiavelli. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a
grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
PS 4312. Modern Political Theory (1600 - 1900). This course examines the development of modern political ideas; and the meaning and relationships of the significant ideologies of our time including democracy, capitalism, the welfare state, socialism, fascism, and communism. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4313. The Holocaust. This course is an undergraduate seminar on The Holocaust. Topics include: victims and perpetrators, antisemitism, and representation of The Holocaust in film and fiction. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4314. Liberalism and Its Critics. This course examines the origins, nature, and evolution of one of the most influential intellectual traditions in modern Western political theory, liberal individualism, as well the views of its critics. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4315. The Politics of Dystopia. This course examines the idea of political utopia and the many ways in which it might be twisted into a darker, less-than-perfect society. Content will focus, in particular, on the relationship between fictional dystopias in novels and films, and political reality in 21st-century America. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4320A. American Political Culture. The course will explore selected problems related to American political culture through an examination of Alexis de Tocqueville's classic study, Democracy in America. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PS 4320B. The Evolution of the United States Constitution. This course studies the relationship between politics and the US Constitution. Emphasis is placed on the evolution of the US Constitution from a political, historical, and theoretical perspective.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PS 4321. American Foreign Policy. This undergraduate seminar examines the roles of major institutions, American political culture, and the international setting in the making of American foreign policy. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4322. African American Politics. This course examines the political, cultural, and historical facets of the African American experience. The course will include a study of appropriate constitutional law cases, representation, identity, urban politics, protest movements, and ideology. Particular attention will be given to how these themes develop in Texas and the Southwest. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4323. Latina/o Politics. This course examines the participation of Latinos in US politics. Both formal political participation in electoral politics and involvement in grassroots and social movements are considered. While all Latino groups will be considered, the course has a special emphasis on the Mexican/Chicano experience in Texas and the Southwest. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4324. Women in Politics. This course examines the role of women in political life. The course will examine women's influence on politics as well as how various public policies affect women. Topics may include feminism, electoral politics, political representation, and the internal politics of women's groups. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
PS 4325. Texas Politics.
This course examines the history, culture, institutions, issues, and policies of the Texas political system. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4326. Media and Public Opinion.
This course examines how the media influences public opinion and voting behavior. Specific topics include media functions in campaigns and elections, media bias, new media, and media effects on political attitudes and behaviors. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4327. Religion and American Public Life.
This course examines how religious beliefs and groups have influenced the course of American democratic experience, and the ongoing debate regarding the proper role of religion in American public life. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course examines the issues of political economy prominent in American public life. Emphasis will be placed on the constitutional, partisan, and sectional aspects of such issues as the Bank of the United States, slavery, gold standard, the Great Depression, banking, income distribution, and the Affordable Care Act. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4333. Issues in Law and Public Policy.
This course examines selected legal issues by focusing on their relationship to public policy. Alternative views, social consequences, political responses, and legal issues resulting from alternative positions are considered. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4334. Legal Theories and Research.
This course examines the American Legal System. Emphasis will be placed on the origins and development of law, the different sources of law, the process of legal research and analysis, and methods for interpreting and applying constitutional, statutory and case law. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4330A. Environmental Law & Policy.
This course examines the institutions, implementation, and regulation of American environmental law and policy. Laws and regulations explored can cover jurisdictions ranging from municipal, regional, state, federal, and international levels. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat|Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PS 4331. Islamic Law and Politics.
This undergraduate seminar is an examination of the origins, development, divisions, law, and politics of Islam. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4340A. Government and Politics of Japan.
This course is a comparative analyses of political systems in Japan, examining the impact of sociocultural and economic factors on political attitudes and behaviors. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat|Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
PS 4340B. Authoritarian Regimes.
While democracy became the most common political regime type around the world in the 1990s, many authoritarian regimes have continued to persist or have emerged in countries such as China, Cameroon, Saudi Arabia, Russia, and Venezuela. How do these regimes emerge and function in the presence of popular demands for democratization and leadership changes from authoritarian regime elites? How do authoritarian regimes collapse and what are the prospects for democracy in current authoritarian regimes? How do authoritarian regimes act in international relations? This course applies these broad questions to past and present authoritarian regimes around the world. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PS 4340C. Comparative Political Institutions.
This course introduces students to the effect of institutions on political outcomes in developing countries. The role of formal institutions, informal institutions, and institutional weaknesses to understand political dynamics will be explored and analyzed.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PS 4340D. Mexican Politics.
The course delves into Mexico’s XX century authoritarian period and its transition to democracy, including the workings of Mexico’s institutions in the post 2000 era, and the evolution of US-Mexican relations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PS 4340E. Civil War.
This course provides an in-depth look at how civil wars begin and end, the dynamics in the conduct of civil wars, and the domestic and international consequences of civil wars. Case studies of post-WWII civil wars around the world will be used to illustrate theories of civil war and to speculate on the likely onset or termination of civil war in particular countries.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

PS 4340F. Civil-Military Relations in Comparative Politics.
This course examines the primary empirical and normative theories of civil-military relations. Students will investigate the state of civil-military relations in the United States and around the globe. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4342. Economic Development in Latin America.
This course examines the economic history of and current obstacles to economic development in Latin America. It explores the Import Substitution Industrialization Era, the debt crisis of the 1980s, free market economics, and the nature and revival of economic populism. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4343. Politics of Democratization in Developing Countries.
This course examines the third wave of democratization in the developing world and the multiple challenges facing these new democracies. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4344. The Politics of Extremism.
This undergraduate seminar examines international terrorism and extremist politics in America. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4345. Model International Institution Competition.
This course is an applied introduction to diplomacy focusing on issues relevant to international institutions, in which students will engage in debate and role-playing. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4346. Organization of American States.
This course is an introduction to major issues of the OAS including its functions and limitations and the evolving relations among member-states.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course examines current issues of national and international importance from political, economic, and social perspectives. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter
This course examines historical and spatial patterns of conflict (including war, terrorism, and economic coercion) from the perspectives of Realist, Idealist, and Marxian schools of thought. It will also examine strategies for conflict prevention and resolution such as deterrence, arms-control, collective security, and “building democracy.” (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4352. International Law.
This course will examine the nature, functions, sources, scope, practice, and development of public international law as both a legal and political process. Students will research contemporary international problems and participate in a Moot International Court of Justice. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PS 4353. International Organizations.
This course examines the historical roots of international organizations, the development of the League of Nations, and the evolution of the United Nations. The nature, process, and function of contemporary international organizations will be analyzed. Non-governmental organizations, transnational organizations, and multi-national corporations will be assessed. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course examines the institutional structure of interstate economic relations, trade and monetary regimes, foreign investment, foreign aid, and development policies of governments. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course examines the decision-making processes and the substantive debates pertaining to issues of modern American national security policy and strategy. Emphasis may be placed on the theory of strategy and grand strategy, great power challenges from Russia and China, transnational threats, and the tools of power such as the use of military, intelligence, economic, and diplomatic means to advance strategic goals. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4379. Independent Study.
This course is an individualized study including independent reading and/or research on various problem areas of political science. Instructor will approve specific problem area, bibliography, and student paper outline. Prerequisite: Instructor approval. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4380. Internship in Government.
This course is designed for students to gain practical experience while participating in the ongoing work of a selected governmental or nonprofit unit. Interns will work under the joint direction of faculty and intern supervisors. One hundred fifty hours of service during the semester is required of interns. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PS 4398. Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics.
This course is designed to ensure familiarity with basic concepts and approaches used in the study of politics. This course is required of all B.A. students seeking a teaching certification; it may be taken as a substitute for PS 4399 for Political Science non teacher certification majors. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PS 4399. Senior Seminar in Political Science.
This course includes intensive reading, research, writing, and discussion focusing on different sub-fields in political science and is required of all political science majors. May be repeated once for additional credit with different instructor and department approval. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive
Grade Mode: Standard Letter

PS 4680. Internship in Government.
This course is designed for students to gain practical experience while participating in the ongoing work of a selected governmental or nonprofit unit. Interns will work under the joint direction of faculty and intern supervisors. Three hundred hours of service during the semester is required of interns. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.
6 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
Courses in Public Administration (PA)

PA 3300. Introduction to Public and Nonprofit Administration.
This course introduces students to the fundamentals of public and nonprofit administration including the context, nature, and structure of public and nonprofit administration in America; management of public organizations; and challenges of the future.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 3301. Political Institutions and Public Service.
This course examines the fundamental political institutions and values of American democracy. The role of public service as it relates to government and nonprofit administration is emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 3310. Public Finance Administration.
This course introduces students to fiscal administration and budgeting at different levels of government and nonprofit organizations in the United States. The course includes a wide range of theoretical and applied aspects of fiscal policy and financial administration. Both expenditures and revenues are examined. Prerequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 or HON 2302A or HON 2302B any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PA 3311. Analytical Techniques.
This course introduces quantitative analytical methods and fundamental statistics ranging from descriptive to inferential procedures. Emphases will be placed on appropriate analytical techniques, use of software for data analysis, interpretation of results and crafting of professional reports based on data analysis. Prerequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 or HON 2302A or HON 2302B any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PA 3314. State and Local Government.
This course examines state and local government structure, organization, functions, powers and processes. The role of American and Texas state and local government institutions in the formulation and implementation of public policy will be covered. Corequisite: PA 3301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 3330. Public Personnel and Human Resource Administration.
This course introduces the laws, context, procedures, personnel structures, techniques, and challenges associated with managing personnel in government and nonprofit organizations. Emphases will be placed on strategic planning for human resources, position classification, selection, recruitment, compensation and benefits, training, performance appraisal, collective bargaining and other aspects of personnel management.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 3340. Administrative Law.
This course examines the rules, context, procedures, personnel structures, techniques, and challenges associated with managing personnel in government and nonprofit organizations. Emphases will be placed on strategic planning for human resources, position classification, selection, recruitment, compensation and benefits, training, performance appraisal, collective bargaining and other aspects of personnel management.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 3350. Public Policy Process.
This course examines the theories, processes and practices of public policy formulation, implementation and evaluation. Emphasis may vary and include but not be limited to environment and sustainability issues, energy, social and economic policies.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 3351. Urban Management and Regional Policy.
This course provides a critical introduction to the key aspects of regional and urban management and policy. Students will study how urban administration practices and regional policies influence the form and function of American cities. Corequisite: PA 3301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PA 4340. Issues in Law and Public Policy.
This course examines contemporary legal issues and their relationship to public policy. Emphasis may include environmental protection, sustainability, climate change, voting rights, capital punishment, gun rights, and electronic challenges to privacy rights from the perspective of bureaucratic functions and non-profits. Corequisite: PA 3301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 4352. Comparative Public Administration.
This course surveys the field of Public Administration emphasizing aspects of administration and public policy systems in the US and compares them with administration and public policy systems of other countries. Corequisite: PA 3301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course examines the role of American business in public policy. It examines how the public, private and nonprofit sectors interact in the policy process. This includes ways in which policy and politics shape business and nonprofit culture and how businesses and nonprofits influence policy implementation through contracting. Corequisite: PA 3301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course examines key ethical and cultural challenges in public service, including service in government and in nonprofit and voluntary organizations. Content includes but is not limited to ethical theory and analysis, and examination of ethical issues in areas such as healthcare, privacy, accountability, education, research, planning, elections, and policy. Corequisite: PA 3301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PA 4389. Internship in Public Administration.
This course provides students with meaningful work in public administration as interns in public or nonprofit organizations. Under faculty supervision, students complete 150 hours of service and conclude their internship by completing a report on their work experience. (MULT) Prerequisite: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural
Content|Writing Intensive
Grade Mode: Standard Letter

PA 4398. Research in Public Administration.
This course will examine basic concepts and approaches used in the study of public administration. Emphasis will be placed on identifying, locating, and employing resources to assist in understanding public administration at all governmental levels. Prerequisites: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. For transfer students, 12 semester credit hours in government and mathematics (or their equivalents) may be transferred from a Texas public institution of higher education for the Political Science and Government Field of Study and be applied to the Bachelor of Arts degree with a major in Political Science at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

www.psych.txstate.edu

The Department of Psychology offers an outstanding undergraduate program attracting more than 2,100 majors and a large number of minors. The curriculum provides both structure and flexibility with a required sequence of core courses and many electives to serve students' personal interests. Students have many opportunities to gain research experience in faculty laboratories and job experience in faculty coordinated internships. Students can also develop leadership, communication, and team building skills via membership in the Psychology Association and the Texas State University Chapter of Psi Chi, the International Honor Society in Psychology.

Departmental faculty members are highly qualified as teachers, scholar-researchers, and mentors. They are committed to helping students succeed. Faculty have received numerous awards and honors including the Presidential Award for Excellence in Teaching, which is the highest level of recognition in teaching at Texas State University, and the Presidential Seminar Award, which is the highest level of recognition in research at Texas State University.

The department has a strong commitment to faculty-student research. Students can gain quality research experience by participating in a variety of research projects. The breadth and quality of faculty research is a valuable resource for students as they acquire strong research skills and partner in the advancement of knowledge.

Psychology graduates with B.A. or B.S. degrees hold positions in business, government, health, and education. A large number of graduates pursue further education in psychology as a science or as profession by enrolling in masters or Ph.D. programs. Employment as a psychologist in clinical psychology and some other fields requires a doctoral degree. For more information planning courses for a suitable program, the "Guide for Psychology Majors" is available at www.psych.txstate.edu. (http://www.psych.txstate.edu)

**Course Prerequisite Sequence**

The Department of Psychology strictly enforces all course prerequisites. Adherence to the following course sequence is necessary for completion of the B.A. and B.S. degrees. This sequence requires four separate semesters (or summer terms), because course prerequisites may not be taken concurrently.

1 Or its equivalent, with a grade of "C" or higher.

**Note:** Psychology majors are required to select a minor outside the major, thus, a Psychology major may not declare a minor in Forensic Psychology, General Psychology, or Sport Psychology.

**Bachelor of Arts (B.A.)**

- Major in Psychology (p. 589)

**Bachelor of Science (B.S.)**

- Major in Psychology (p. 590)

**Minors**

- Forensic Psychology (p. 591)
- Psychology
- Sport Psychology (p. 592)

**Courses in Psychology (PSY)**

PSY 1300. Introduction to Psychology.
A survey of the major principles derived from research on human and animal behavior. Topics studied include learning, thinking, motivation, emotion, personality, the senses, perception, and the form and functions of the nervous system. PSY 1300 with a grade of "C" or better is required for most other Psychology courses.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080
Grade Mode: Standard Letter
TCCN: PSYC 2301
PSY 2100. Professional Seminar.
This course examines the characteristics of Psychology as a discipline and profession. Coverage includes current trends in Psychology and its subfields, degree options in Psychology and its subfields as they relate to professional and/or career issues, and how to be an intelligent consumer of discipline-specific data and information. Prerequisite: PSY 1300 with a grade of "C" or better.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 2101. Introduction to Statistics Laboratory.
This statistics laboratory course provides an introduction to descriptive and inferential statistics used in psychological research with an emphasis on data analysis techniques through the use of computer applications (ex., SPSS, R, etc.). Prerequisite: PSY 1300 with a grade of "C" or better. Corequisite: PSY 2301 with a grade of "C" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 2301. Introduction to Statistics.
The course provides an introduction to statistical methods in behavioral sciences with special emphasis on application to psychological research. The topics covered include descriptive and inferential statistics used in psychological research with an emphasis on data analysis techniques through the use of computer applications (ex., SPSS, R, etc.). Prerequisite: PSY 1300 and [MATH 1312 or MATH 1315 or MATH 1317 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: PSYC 2317

PSY 2311. Psychology of Human Sexuality.
A psychological and physiological examination of the human sexual experience from conception through old age. Current research findings serve as a basis for study. Major consideration is given to the human sexual system, the sexual act, sexual attitudes and behavior, and sexual complications. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: PSYC 2306

PSY 3300. Lifespan Development.
Survey of the psychology of human development from the pre-natal period through adulthood. Emphasis placed on cognitive, motivational, and physiological processes of development in childhood and adolescence. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3312. Adolescent Psychology.
A developmental psychology course designed to examine the complex characteristics of human cognitive and emotional life during the period of adolescence. Emphasis is directed toward the basis of behavior, interpersonal relationships, development, growth, and motivation. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3313. Psychology of Adulthood and Aging.
The development of individuals in the post-adolescent period, particularly after middle age. Topics studied include social, psychological, and physiological changes and problems associated with the aging process. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3314. Psychology of Consciousness.
This course is an introduction to the study of consciousness from the perspective of psychology, neuroscience, and the natural sciences. Topics reviewed include philosophical foundations, cognitive and neuroscientific approaches, the physical correlates of consciousness, introspection, sleep and dreaming and altered states of consciousness. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3315. Psychopathology.
An introduction to the study of psychopathology: (1) issues in defining and evaluating it, (2) examples, (3) theories and research attempting to categorize, describe, and explain it, and (4) approaches used to prevent or change it when it is deemed a problem by the individual and/or society. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3316. Personality Psychology.
A comprehensive introduction to research, theory, and application in the field of personality. Individual differences and situation influences are examined concerning authoritarianism, achievement motivation, anxiety, intelligence, self-concept, interpersonal attraction, aggression, sexuality, and altruism. An integrative model is suggested for describing and predicting human behavior. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
PSY 3321. Sensation and Perception.
An introduction to the processes of perception. Topics will include perceptual measurement, the physiological bases of perception, basic visual processes, and basic haptic, olfactory, and gustatory processes. Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3322. Brain and Behavior.
This course covers research findings and theoretical concepts concerned with the physiological, anatomical, and pharmacological bases of behavior. Topics include sensory systems, the physiological mechanisms of motivation, and the physiological correlates of associate processes such as learning. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3323. Evolution and Behavior.
The course provides a contemporary understanding of human behaviors, emotions, and cognitions through an examination of Darwin's theories of natural selection, sexual selection, and mental evolution. Relevant interdisciplinary perspectives from philosophy, history, anthropology, archaeology, biology, ethology, and genetics are incorporated. Prerequisites: PSY 1300 and PSY 3300 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3325. Psychology of Persuasion.
This course uses a socio-psychological perspective to understand the dynamics of persuasion and propaganda. It applies selected theories and research on social influence, persuasion and attitude change to such areas as political and educational campaigns, product advertising, mass media and public opinion. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3331. Social Psychology.
The study of how people influence each other. The course covers such topics as conformity, inter-personal attraction, prejudice, and aggression. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3332. Psychology of Women.
The special problems and demands made on the woman within modern western culture. Topics studied include status, roles, values, opportunities, expectations, stress, and self-realization of the modern woman. (MULT) (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

PSY 3333. Industrial Psychology.
The study of applying psychological knowledge and techniques to the modern industrial environment. Topics studied include employee needs, attitudes, selection, testing, boredom, motivation, anxiety, and job satisfaction. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3334. Psychology of Human Diversity.
Explanations about how the environment, genetics and culture shape human differences, and how these differences are linked to world progress and understanding are addressed. (WI) (MULT) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

PSY 3335. Forensic Psychology.
Examines the relationships between psychology and the processes of the American courtroom. Sample issues to be addressed include; (a) What psychological theories are used to explain jury decisionmaking? (b) How accurate is the memory of eyewitnesses? (c) How do characteristics of defendants influence juries? Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3336. Sport Psychology.
This course examines the relationships, psychological concepts, and individual's thoughts regarding sports, health and exercise. Sample topics include (1) current theoretical perspectives of personality factors at sports and exercise, (2) why people engage in sports, (3) exercise adherence, (4) mental skills, and (5) the psychological effects of sports and exercise. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3337. Psychology of Prejudice, Discrimination, and Hate.
This course will explore psychological theories and factors that underlie prejudice, discrimination, and hate. Although the course will focus primarily on these issues as they have developed and influence realities in the United States, global issues will also be explored. (MULT) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
PSY 3338. Service Learning: Protecting the Vulnerable.
This course examines clinical, legal and psychosocial conditions of adults who, due to mental illness, developmental impairments, brain injuries or aging, are declared “incapacitated” and have court-appointed guardians. Students will serve as the probate court representatives who inspect living conditions and services for individuals under the court-ordered guardianships. Prerequisite: PSY 1300 with a grade of "C" or better and instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers the acquisition and use of knowledge, contemporary research on perception, pattern recognition, memory, thinking, problem solving, and language comprehension. (WI) Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

The course provides theory, research, and application of psychological principles that affect humans in education, business, and personal life. Emphasis is placed on effective use of reinforcement, classroom management, self-control, relaxation, and assertiveness. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3361. Health Psychology.
Surveys contemporary theory and research on body/mind interaction in physical and mental health. Emphasis on personality, psychosocial, and stress factors in physical health. Other topics include the effects of physical health on psychological well being, pain management, longevity and aging, and coping with illness and dying. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3402. Experimental and Research Methods.
This course introduces students to basic instruction in experimental design, data collection, and technical report writing in Psychology. By examining applications of various methodologies, this course provides information on the steps involved in crafting and executing empirical research projects as well as instruction on procedures and software. (WI) Prerequisite: PSY 1300 and PSY 2101 and PSY 2301 all with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3404. Advanced Research Methods.
The course provides students with the opportunity to conduct original research in psychology using best practices in research methods. Course requirements include obtaining IRB approval, conducting research, analyzing results and presenting findings in a professional setting. (WI) Prerequisite: PSY 1300 with a grade of "C" or better and PSY 3402 with a grade of "B" or better and instructor approval.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 3418. Psychological Tests and Measurements.
The course provides an introduction to basic principles, research, and theories on testing and measurement of psychological constructs. It includes validity, reliability, item analysis, administration, scoring, and interpretation of existing tests and measures, and construction of new measures including surveys and other psychological instruments. Prerequisites: PSY 1300 and PSY 2101 and PSY 2301 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

PSY 3434. Learning and Memory.
A study of memory and learning in humans and animals. Attention is given to comparative cognition, cognitive and neuropsychological aspects of memory, and memory deficits. (WI) Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

This course focuses on Glasser's concepts of Choice Theory and Reality Therapy. This course explores how the “total behaviors” and choices we make impact our lives, the kinds of relationships we want to have with others, health and quality of the life. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

PSY 4352. Introduction to Clinical Psychology.
Overview of clinical psychology. Emphasis on current theories and methods of individual psychotherapy. Class discussions of readings, films, audiotapes, and live examples illustrating approaches. Experiential learning via class exercises in pairs and small groups and by role-playing both therapist and client in a series of helping sessions. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
PSY 4390B. Emotion and Human Behavior.
This course will provide an advanced understanding of the multifaceted phenomenon of emotion and its effect on human behavior. Students will be introduced to the philosophical and theoretical underpinnings of emotion, the various individual emotions (e.g., fear, anger, happiness) and will learn how emotion can affect physical and psychological health.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PSY 4390N. Psychopharmacology.
This course reviews psychopharmacology topics including: neuronal and chemical mechanisms underlying drug action; environmental factors modulating the impact of drugs on emotion, cognition, perception and behavior; the processes underlying drug dependency, tolerance, and withdrawal; and the implications for drug abuse treatment and prevention strategies, especially concerning adolescents. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PSY 4390P. Human Factors and Ergonomics.
This course examines characteristics of people that are applicable to the design of systems and technological devices. This course will illustrate how methods and principles of human factors and ergonomics enhance the usability, safety and performance of human-machine systems. Prerequisite: PSY 1300 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PSY 4390Q. Introduction to Developmental Disabilities.
This course will provide students with perspectives on the causes, manifestations, and treatment of developmental disabilities throughout the lifespan. Historical views and societal issues will be investigated along with current practices and research. Prerequisite: PSY 1300 and PSY 3315 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

PSY 4396. Internship in Psychology.
Extensive field work in a professional setting related to psychology. May be repeated once for additional credit. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 10 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. For transfer students, 18 semester credit hours may be transferred from a Texas public institution of higher education for the Psychology Field of Study and be applied to the Bachelor of Arts degree with a major in Psychology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. For transfer students, 18 semester credit hours may be transferred from a Texas public institution of higher education for the Psychology Field of Study and be applied to the Bachelor of Science degree with a major in Psychology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

1. Students minoring in Biology are required to complete BIO 1330 & BIO 1130 and BIO 1331 & BIO 1131.
2. Foundation course for all serious study of psychology; much material covered in later courses depends on a thorough knowledge of topics in these courses. Students must complete a three-semester prerequisite sequence prior to taking PSY 4391 and Group C courses. PSY 1300 is a prerequisite for all other PSY courses (except PSY 2311).
3. One course from the following may be chosen to satisfy the Mathematics Component Code 020: MATH 1312 (TCCN 1342), MATH 1315 (TCCN 1314), MATH 1317 (TCCN 1316), MATH 1319 (TCCN 1324), MATH 2321 (TCCN 2313), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).
4. An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

The minor in Forensic Psychology requires 21 semester credit hours. Forensic is defined as “evidence” or “relating to, used in, or appropriate for courts of law.” This minor looks at forensic issues from both psychological and criminal justice perspectives. The minor is suitable for criminal justice majors or any individual wishing to pursue a background in psychology and criminal justice. The minor also would be good preparation for those individuals wishing to pursue pre-law or social work and for individuals considering graduate coursework in forensic psychology. This minor is not allowed in the Bachelor of Arts major in Psychology. Enrollment in the following required PSY courses assumes that students will have completed PSY 1300 as part of their social and behavioral science component of the general education core curriculum. If not, PSY 1300 is a prerequisite for PSY 3315, PSY 3316, PSY 3331, and PSY 3335. The prerequisite requirements for CJ 3329 and CJ 4340 will be waived only for students pursuing this minor. This is justified by the...
fact that students will be exploring many of the issues covered in those requisite courses in the psychology coursework portion of the minor.

The minor in Sport Psychology requires 21 semester credit hours. Sport Psychology examines the relationships between psychological concepts, theories and an individual's thoughts toward health and exercise. Current theoretical perspectives of personality factors in exercise, why people exercise, exercise adherence, mental skills and the psychological effects of exercise will be investigated. The minor will focus on topics such as methods of training and coaching, teamwork and leadership, motivation and stress, and social issues in sport. Students will study the relationships between brain biology and behavior. Students will learn to apply psychological theories and perspectives toward understanding thoughts about exercise, an individual's willingness to exercise, choice of exercise, and to assess the relationships between physical health and mental health. This minor is not allowed in the Bachelor of Arts major in Psychology.

Enrollment in the required PSY courses assumes that majors will have completed PSY 1300 as part of their social and behavioral science component of the general education core curriculum. If not, PSY 1300 is a prerequisite for PSY 3321, PSY 3331, PSY 3350, PSY 3361, PSY 3322, and PSY 3336.

www.soci.txstate.edu (http://www.soci.txstate.edu)

Sociology is the scientific study of individuals and groups within society. Through research and critical examination, sociologists study human interaction and social institutions to answer society's most complex questions. The Department of Sociology is home to student-centered faculty who bring diverse research interests into the classroom. Students have the opportunity to take courses from content areas of race and social class, gender and sexuality, criminology and social deviance, aging and dementia, popular culture, social movements, sustainability, and the environment. Sociology remains essential to a liberal arts education by preparing students to think critically about the world around them while applying practical skills in research methods and data analysis.

Sociology majors may choose the Bachelor of Arts in Sociology or the Bachelor of Science in Applied Sociology. The B.A. degree prepares students for professional or graduate study in the liberal arts tradition; whereas the B.S. provides practical research skills for students who wish to attend graduate school or to enter the work force upon graduation. Both degrees require 39 hours of Sociology coursework; however, the B.S. in Applied Sociology affords students the opportunity to complete an internship prior to graduation. Throughout the internship, students learn how to connect their classroom education to employment or graduate school opportunities.

Both degree programs include a data analysis course where students will use statistical software packages to learn how to collect, analyze, interpret, and present data on a variety of social phenomena. Qualitative and quantitative research courses teach students practical methods for conducting research while enhancing critical thinking and writing skills. Graduates are prepared for a variety of employment opportunities, including law, management, education, non-profit and community work, data analysis, politics and public administration, social services, and human resource management in business, government and industrial settings.

The Department of Sociology provides academic advising and encourages all students - declared and prospective - to take advantage of these services. Suggested degree plans, while helpful in planning an academic schedule, should not be used in lieu of academic advising.

Courses in Latina/o (LATS)

LATS 2300. Introduction to Latina/o Studies.
This course is an introduction to Latina/o studies, which includes an emphasis upon the historical origins, the demographic changes, and contemporary issues facing Latinas/os. It will focus on the development of Latina/o ethnicities, identities, and their impact in American society. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course is an independent study course in Latina/o Studies with readings, research, and tutorials for students pursuing projects outside the context of regularly offered courses. Students engage in learning about Latina/o Studies through readings, research, an oral presentation, and the creation of a bibliography approved by the instructor. (WI)
Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

LATS 4325. Latina/o Identities, Communities and Social Change.
This course examines the social continuities, sociopolitical and geographic complexities, and diversities of Latina/os in the U.S. It focuses on crucial issues confronting Latina/os such as the role of race, culture, identity, community development, and leadership practices influencing public policy. (MULT) Prerequisite: LATS 2300 with a minimum grade of a "C".
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

Courses in Sociology (SOCI)

SOCI 1310. Introduction to Sociology.
A survey of the basic concepts in sociology including social organization, culture, socialization, groups, and human population leading to the development of a sociological perspective of human behavior. SOCI 1310 and SOCI 3300 may not both be counted for credit. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Soc & Behav Sciences Core 080|Multicultural Content
Grade Mode: Standard Letter
TCCN: SOCI 1301

The application of descriptive and inferential statistics of behavioral science data.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3317. Popular Culture and Society.
The content of popular culture, including movies, television, genre novels, popular music, fads and fashion, sports, contemporary folklore, festivals and celebrations, clothing and body decoration, and related cultural material, is examined and analyzed for social significance. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3318. Applied Data Analysis.
This course introduces the student to some of the uses of various existing statistical software packages including proper application, limitations, and interpretations of results. Prerequisite: SOCI 3307 with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3320. Population Dynamics.
A study of the composition of the world's population, focusing on growth, problems, politics, and controls. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3322. Sociology of Latinos and Immigration.
This class will examine the impact that immigration and migration have on the growth of the Latino population as well as current debates surrounding immigration and its future in the U.S.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3323. Sociology of Consumption.
Consumption is an integral part of social life in the United States, shaping how we see ourselves and others. While consumption can enhance consumers' lives, it is linked to a host of social and environmental problems. This course critically examines such problems and explores alternatives to the way of life that is consumerism.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3324. Social Stratification.
The study of inequality as it relates to occupational, educational, religious, political, and other social activities. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
SOCI 3325. Social Deviance.  
Theoretical and descriptive analysis of the major types of deviant behavior.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

SOCI 3327. Sociology of Racial and Ethnic Relations.  
This course focuses upon sociological perspectives in understanding race, ethnicity, and the relations between minority and majority groups with special reference to the American scene. (MULT) (MULP).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Perspective Multicultural Content  
Grade Mode: Standard Letter

SOCI 3328. Complex Organizations.  
The study and analysis of complex organizations, bureaucracies, and professions and their influence on individuals and society and its institutions.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

SOCI 3329. Life Course Sociology.  
This course examines major sociological approaches to the study of the human life course. Theoretical approaches reviewed include age stratification, the life course perspective, and constructivist and critical approaches to the life course.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

SOCI 3330. Globalization and Development.  
This course covers the sociology of globalization and development. Students will learn about theories of globalization; the effects of globalization on cultural, economic and political life; and factors at different levels of analysis affecting socioeconomic development, security, human rights, and democracy around the world. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

SOCI 3331. Social Movements.  
This course examines social movements – the repeated display of collective action outside sanctioned political channels to bring about social change. Different theoretical approaches to social movements are reviewed to determine how movements organize, attract members, utilize resources, ideologically frame their issues, and engage in unconventional tactics to influence public policy.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

This course explores the dynamic and interactive relationships between music, culture, and society. Popular American music - from blues, gospel, ragtime, jazz, country, and swing to rock, disco, punk, alternative, and rap - will be analyzed as reflections of culture, as society’s “voice,” and as a powerful instrument of socialization and social change. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

SOCI 3334. Mind and Society.  
This course provides an overview of mental health and illness with an emphasis on how social environments and structures influence mental well-being. The course explores the causes and consequences of mental health disorders. The course examines policies and programs aimed at improving mental health in society.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

SOCI 3337. The Family.  
A comparative study of the family in various cultures, both historical and contemporary, with attention to the family in terms of social organization, social change, and social disorganization. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

SOCI 3338. Family Problems.  
This course applies sociological knowledge to common problems encountered in families: spouse and child abuse, elder abuse, catastrophic illness, suicide, unemployment, poverty, teen pregnancy, aging and gender issues. Worldwide traditions and norms affecting the institution of the family are also reviewed. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

SOCI 3340. Sociology of Sport and Leisure.  
The theories and research in leisure and popular culture will serve as the broad framework. An emphasis will be placed on the sub-area of sport sociology, including such topics as sport and aggression, competition, children, women, minorities, professionalism, and others. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

SOCI 3343. Criminology.  
The various theories of crime, the cause of crime, areas of crime, treatment of criminals through the courts, punishment, reform, education, probation, and parole, and means of crime prevention. (MULT).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter
SOCI 3347. Juvenile Delinquency.
Delinquency in modern society, basic factors and conditions of juvenile delinquency, and the problem of delinquency control. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3349. Drugs and Society.
A sociological examination of the social context of drug abuse with emphasis on the social factors, processes, and institutions that impact drug abuse. Applications of sociological theories and research methods will be studied. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3350. Gender and Society.
This course examines the relations between gender roles throughout the world. Special attention is given to changes in these roles and the consequences of such changes for societies, including familial, marital, and sexual relationships. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3353. Urban Society.
A study of urbanization as a social phenomenon with attention to traditional sociological studies of the community. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3358. Work and Society.
This course will explore sociological studies of work and occupations, including the structure of work, economic changes, and concerns of workers such as earnings, promotions, and unemployment. It is divided into three main topics: the social organization of work, current work trends, and inequalities at work. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

An examination of the social determinants and consequences of human health, morbidity, and mortality, including considerations of health institutions, organizations, professionals, and clients. Social epidemiology of human diseases and mortality and changing relationships of acute and chronic diseases are stressed. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content, Writing Intensive
Grade Mode: Standard Letter

SOCI 3365. Society and Environment.
This course addresses issues emerging from the reciprocal relationship between society and its environment. The impacts of social and economic organization, social class, and government policies on the physical and social milieu will be examined in order to produce a better understanding of social and environmental interactions. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3367. Sustainable Cities.
This course uses sociological insight to develop a broader understanding of key concepts and debates about the sustainability of cities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3372. Food and Society.
This course surveys the sociological study of food. Students will examine how people in societies socially construct "food"; how people obtain food and the implications of this process for our health, economy, and environment; and how food relates to issues of race-ethnicity, social class, and gender. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3375M. Latinos and Aging.
This course offers an understanding of the growing Latino aging population in American society, highlighting issues related to their social, familial, economic, physical, and mental well-being. This course will also cover social programs, health and human service needs, and social policies affecting Latino elders. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing, Multicultural Content, Topics
Grade Mode: Standard Letter

SOCI 3375N. Urban Sociology in Comparative Perspective.
Topics include the historical development of cities, cities as engines of culture, planning, and gentrification. The comparative emphasis permits analysis of London in light of corresponding phenomena in American cities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing, Topics
Grade Mode: Standard Letter

SOCI 3375O. Culture and Society in Comparative Perspective.
Topics include cultural change and diffusion and social concerns such as inequality, gender, popular culture, etc. The comparative emphasis permits analysis of these phenomena in England vis-à-vis the United States.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing, Topics
Grade Mode: Standard Letter

SOCI 3375P. Latin American Social History.
This course examines Latin America’s social history as a dynamic, changing, and complex field of study. It examines how people are affected by and affect the social conditions of the region. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing, Multicultural Content, Topics
Grade Mode: Standard Letter
This course is an introduction to the tools and concepts central to the
sociological study of religion and religiosity. It takes a global perspective
on religions, inspecting the ideas of classic and modern sociological
theorists concerning the various roles, functions, conflicts, prejudices and
symbols of religion.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics
Grade Mode: Standard Letter

SOCI 3383. Aging and Society.
This course is an introduction to the sociology of aging and social
gerontology. It employs a multicultural perspective to examine diversity in
the aging process as influenced by societal forces. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 3384. The Sociology of Death and Dying.
A study of the sociological and social psychological perspectives on
death and dying in contemporary societies with particular emphasis on
the meanings of death, on dying as a social process, and on death in the
context of both social organization and the life cycle.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3390. Technology and Society.
The subject of this course is the relationship between technologies
and social institutions. Topics covered may include but are not limited
to theories of sociotechnical change, diffusion, social constructivism,
modernity and rationalism, and case studies of transformative
technologies such as the clock, the car, and the birth control pill.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

SOCI 3395. Sociology of Sexuality.
Sexuality is explored from a social constructionist perspective, in
contrast to essentialist and biological determinist perspectives
dominating the Western understanding of sexual roles and behavior.
Sexual identity, desire, behavior, response, and health are viewed as
socially constructed, largely in response to concerns about societal order.
(MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SOCI 4306. Sociological Theory.
This course examines classical sociological theories and the
contemporary theories that follow from them. The major approaches
covered are functionalism, conflict theory, symbolic interaction, and
phenomenology. (WI) (MULT) Prerequisite: Departmental approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SOCI 4308. Quantitative Research Methods.
Basic issues in social research are introduced, while emphasizing design
and analysis of quantitative research studies. Research exercises
culminate in a major research paper analyzing secondary data from
The General Social Survey. Critique of published research articles is
also required. (WI) Prerequisite: SOCI 3307 with a grade of "D" or better.
Corequisite: SOCI 3318 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SOCI 4309. Qualitative Research Methods.
This course examines issues in the sociological research process with
an emphasis on qualitative methods. Students will design, propose,
and submit a qualitative study based on an extensive review of the
sociological literature. (WI) Prerequisite: Departmental approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SOCI 4360. Directed Study.
A course of independent study open to superior students. May be
repeated with different emphasis. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

SOCI 4690. Internship in Applied Sociology.
This course is a supervised work experience related to students’ career
interests. Requirements include seminars and a 300-hour internship for
15 weeks during long semesters or 10 weeks in the summer. This course
is limited to BS majors who meet all prerequisites and can be taken for
credit only once.
6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the
degree plan below along with the statewide component code number.
See the General Education Core Curriculum (p. 55) section of this
catalog for the Texas State requirements and options in the core
curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements,
the Bachelor of Arts degree (p. 58) (B.A.) requires three additional
hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language
courses, and a minor.

3. Students must select a minor from the approved list
of Undergraduate Minors (http://www.mycatalog.txstate.edu/
undergraduate/minors/).
4. For transfer students, 12 semester credit hours in Sociology (or their equivalents) may be transferred from a Texas public institution of higher education for the Sociology Field of Study (FOS) and be applied to the Bachelor of Arts degree with a major in Sociology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list. In the case where there is no Texas State University course number equivalent to a FOS number, an advanced elective will be counted.

Total Hours: 12

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. Nine hours of writing intensive courses are required for graduation.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. Students in the B.A. major in Sociology are required to complete the following Sociology courses:

<table>

<td>6</td>
</tr>
</tbody>
</table>

The remaining 15 hours of upper division sociology coursework should be related to their occupational goals or free SOCI advanced electives. Courses should be chosen with the advice of the undergraduate academic advisor.

3. In addition to general education core curriculum and degree requirements, students must complete two semesters of coursework in the same foreign language (1410, 1420) unless they successfully completed two years of foreign language in high school, and must complete one additional English sophomore literature course or ENGL 3303 or ENGL 3304.

4. For transfer students, 12 semester credit hours in Sociology (or their equivalents) may be transferred from a Texas public institution of higher education for the Sociology Field of Study and be applied to the Bachelor of Science with a major in Applied Sociology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list. The minor in Latina/o Studies requires 18 semester credit hours. The Latina/o Studies minor is an interdisciplinary program for students to learn about social, political, economic, historical and cultural processes that impact Latina/o communities in the United States. Using a complement of courses from disciplines across the university, this minor will: (1) offer an academic and scholarly foundation for students to understand the experiences of Latinas/os using a global perspective; (2) educate students about the cultural competency skills necessary to work with Latina/o communities; and (3) expose students to the theoretical and research methodologies in Latina/o Studies.

The minor in Studies in Popular Culture requires 18 semester credit hours. The minor is designed to acquaint students with trends in American popular culture. Techniques of research, social meanings and consequences of popular culture are the major foci of the minor.

Courses for the Studies in Popular Culture minor were selected because they deal with significant aspects of everyday life ranging from mass media through the history of cultural trends and phenomenon. The courses selected deal with subjects that both are influenced by and influence popular culture.

The minor requires 18 semester credit hours. Sustainability Studies examines the human dimensions of the environment and sustainability in an interdisciplinary context. The program goals include providing students with an opportunity to explore the connections between social and physical systems, developing skills consistent with critical analysis and interdisciplinary knowledge for students who seek careers in sustainability, and a mechanism for students to learn about sustainability and to apply that knowledge to real-world problems.

The Department of World Languages & Literatures offers courses in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, and Spanish. Instruction focuses on the acquisition of proficiency in the language and on the development of knowledge of the culture, traditions, and literature of the speakers of the language. The department also offers several study abroad opportunities. Students who major in French, German, or Spanish complete 24 hours of upper division coursework and may simultaneously earn teacher certification. Students who minor in French, German, or Spanish complete 15 hours of upper division coursework, and students who minor in Arabic, Japanese, or Chinese complete 12 hours of upper division coursework. For language coursework that is not offered at Texas State, the "MODL" course prefix is used as a transcript placeholder to allow students to receive transfer credit for successful completion of the language coursework from other universities. "MODL" is also used for students who receive the requisite score on the ACTFL-OPI exam in a language for which no prefix exists. The "MODL" course is not an academic credit bearing course.

Individuals with proficiency in a second language are always in demand in both the public and private sectors. They facilitate communication among people and nations and make possible the free interchange of information and ideas. Career opportunities abound in such diverse fields as international business, international law, foreign affairs, translation, interpretation, politics, publishing, journalism, broadcasting, and teaching. Job candidates with advanced foreign language skills and an international perspective generally receive greater consideration from potential employers.

Modern Languages Requirement

Students seeking a Bachelor of Arts (B.A.) degree are required to successfully complete an intermediate proficiency level in a language of their choice. Students with limited language background may need to complete the first year of the language (1410 and 1420) before beginning the intermediate level (2310 and 2320). Contact the Department of World Languages & Literatures for information concerning placement exams for beginning and intermediate language coursework. Students can choose from the following language courses:

1 Students who choose Spanish to satisfy their B.A. language requirement must earn a grade of "C" or better in each course (SPAN 1410, SPAN 1420, SPAN 2310, and SPAN 2320) to advance to the next level course.

Bachelor of Arts (B.A.)

- Major in French (p. 616)
- Major in French (Secondary Education, Teacher Certification in French, Early Childhood through Grade Twelve, with Double Major in B.A. Education)
- Major in German (p. 619)
- Major in German (Secondary Education; Teacher Certification in German, Early Childhood through Grade Twelve, with Double Major in B.A. Education)
- Major in Spanish (p. 621)
- Major in Spanish (Hispanic Literature and Culture Concentration) (p. 622)
- Major in Spanish (Secondary Education; Teacher Certification in Spanish, Early Childhood through Grade Twelve, with Double Major in B.A. Education)
- Major in Spanish (Spanish for the Professions Concentration) (p. 625)
- Major in Spanish (Spanish Linguistics Concentration) (p. 626)

Minors

- Arabic (p. 628)
- Chinese (p. 628)
• French
• German (p. 628)
• Italian (http://mycatalog.txstate.edu/undergraduate/liberal-arts/world-languages-literatures/italian-minor/)
• Japanese (p. 628)
• Spanish (p. 629)

Subjects in this department include: ASL (p. 602), ARAB (p. 602), CHI (p. 603), FR (p. 604), GER (p. 607), ITAL (p. 609), JAPA (p. 610), LAT (p. 611), LING (p. 612), POR (p. 612), RUSS (p. 612), SPAN (p. 613).

Courses in American Sign Language (ASL)

Note: American Sign Language courses are taught by extension.
For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

ASL 1410. Beginning American Sign Language I.
Introduction to understanding and using American Sign Language within the cultural framework of the deaf community. Students who take ASL 1410 toward degree requirements must also complete ASL 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SGNL 1401

ASL 1420. Beginning American Sign Language II.
Continued practice in understanding and using American Sign Language within the cultural framework of the deaf community. Students who take ASL 1410 toward degree requirements must also complete ASL 1420. Prerequisite: ASL 1410 with a grade of "D" or better. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SGNL 1402

ASL 2310. Intermediate American Sign Language I.
Continued development and review of American Sign Language within the cultural framework of the deaf community. Prerequisite: ASL 1420 with a grade of "D" or better. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SGNL 2301

ASL 2320. Intermediate American Sign Language II.
More advanced practice in American Sign Language within the cultural framework of the deaf community. Prerequisite: ASL 2310 with a grade of "D" or better. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: SGNL 2302

Courses in Arabic (ARAB)

Note: Arabic courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

ARAB 1410. Beginning Arabic I.
Introduction to listening, speaking, reading, and writing skills within an Arabic cultural framework. Students who take ARAB 1410 toward degree requirements must also complete ARAB 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 1411

ARAB 1420. Beginning Arabic II.
Continued practice in listening, speaking, reading, and writing skills within an Arabic cultural framework. Students who take ARAB 1410 toward degree requirements must also complete ARAB 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 1412

ARAB 2310. Intermediate Arabic I.
Continued development and review of all language skills within an Arabic cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 2311

ARAB 2320. Intermediate Arabic II.
More advanced practice in all language skills with greater emphasis on reading within an Arabic cultural framework. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ARAB 2312
ARAB 3301. Levantine Arabic.
An introduction to Arab dialects with a focus on Levantine Arabic (Jordan, Syria, Lebanon, and Palestinian territories). The course will emphasize oral communication and using the dialect correctly in its cultural context. It will also compare Levantine Arabic to Modern Standard Arabic. Repeatable once with different content. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

ARAB 3302. Media Arabic.
Introduction to Arab media designed to advance students' proficiency in Arabic. It will present cultural characteristics of Arab media and describe how those characteristics differ from those of US media. The course will increase students' vocabulary knowledge and enable them to understand various Arab media sources. Repeatable once with different content. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

ARAB 3303. Business Arabic.
This course focuses on the use of written Arabic in business contexts, as well as economic, demographic, and cultural factors that influence commercial interactions in the Arabic-speaking world. (MULT)
Prerequisite: ARAB 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ARAB 3304. Arab Civilization and Culture.
Students study the civilizations and cultures of the Arab world. The course provides background for understanding Arab societies. (MULT)
Prerequisite: ARAB 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

ARAB 4390. Studies in Arabic Language and Culture.
In this course students will conduct an independent study project on Arabic language or culture. (MULT) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

Courses in Chinese (CHI)
Note: Chinese courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

CHI 1410. Beginning Chinese I.
Introduction to listening, speaking, reading, and writing skills within a Chinese cultural framework. Students who take CHI 1410 toward degree requirements must also complete CHI 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: CHIN 1411

CHI 1420. Beginning Chinese II.
This course provides continued instruction and practice in listening, speaking, reading, and writing skills within a Chinese cultural framework. Students who take CHI 1410 toward degree requirements must also complete CHI 1420. (MULT) Prerequisite: CHI 1410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: CHIN 1412

CHI 2310. Intermediate Chinese I.
This course provides continued development and review in listening, speaking, reading, and writing skills within a Chinese cultural framework. (WI)(MULT) Prerequisites: CHI 1420 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: CHIN 2311

CHI 2320. Intermediate Chinese II.
This course provides more advanced practice in all language skills with greater emphasis on reading within a Chinese cultural framework. (WI)(MULT) Prerequisites: CHI 2310 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: CHIN 2312

CHI 3301. Conversational Chinese.
This course is designed to improve oral communication skills in Chinese using current video and text media. The course will include the development of vocabulary and grammar necessary for communication and will focus on selected cultural themes. Students' group video projects will be posted on a course blog. Course may be repeated once for credit when topics vary. (WI)(MULT) Prerequisites: CHI 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter
CHI 3302. Chinese for Business.
This course focuses on the use of written and spoken Chinese in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions. Students learn to use formal Chinese to write reports, job-related letters, and emails and to give presentations. (MULT) Prerequisite: CHI 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

CHI 3303. Chinese for Media.
This course focuses on the study of Chinese-language media to enhance understanding of political affairs and social concerns while developing students' oral and written language skills. The course includes materials from various types of media outlets from across the Chinese-speaking world. (MULT) Prerequisite: CHI 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course engages students in translation as a method of improving their reading ability in Chinese as well as developing the cultural competence needed to render the nuances of Chinese texts into English. The course emphasizes key concepts of translation theory and methodology. Texts include media articles, literature, and professional or technical texts. Prerequisite: CHI 3302 or CHI 3303 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

CHI 3305. Modern Chinese Literature and Film.
This course offers a survey of Chinese and Taiwanese literature and film in the Chinese language since the beginning of the 20th century. Readings include poems, short stories, and essays in styles as varied as revolutionary, romantic, modernist, satirical, popular, and experimental. Major themes of discussion include tradition and modernity, masculinity and femininity, elite and popular, individual and national identities, class consciousness, and tensions between Chinese and Western culture. This course is taught in Chinese. Written texts are level-appropriate excerpts or abridged editions of original works. Films are shown in Chinese with English subtitles. The course includes a service-learning component. Prerequisite: CHI 3302 or CHI 3303 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Students will conduct an independent study project in Chinese language or culture. (MULT) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

Courses in French (FR)

FR 1410. Beginning French I.
Introduction to listening, speaking, reading, and writing skills within a French cultural framework. Students who take FR 1410 toward degree requirements must also complete FR 1420. (MULT). Prerequisite: CHI 2320 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 1411

FR 1420. Beginning French II.
Continued practice in listening, speaking, reading, and writing skills within a French cultural framework. Students who take FR 1410 toward degree requirements must also complete FR 1420. (MULT) Prerequisite: FR 1410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 1412

FR 1421. Beginning French for Speakers of Spanish.
This course introduces speakers of Spanish to listening, speaking, reading, and writing skills within a French-speaking cultural framework. Students apply their knowledge of Spanish to communicate more effectively in French. Students may not apply credit to their degree plans for both FR 1420 and FR 1421.
4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FR 2310. Intermediate French I.
Students will continue to develop and review all language skills within a French and Francophone cultural framework. (MULT) Prerequisite: FR 1420 or FR 1421 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 2311

FR 2311. Intermediate French for Speakers of Spanish I.
This course facilities Spanish speakers to continue to develop and review all language skills within a French-speaking cultural framework. Spanish speakers will apply their knowledge of Spanish to communicate more effectively in French. Students may not apply credit to their degree plans for both FR 2310 and FR 2311. Prerequisite: FR 1420 or FR 1421 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
FR 2320. Intermediate French II.
Students will practice more advanced language skills with greater emphasis on reading within a French cultural framework. (MULT) Prerequisite: FR 2310 or FR 2311 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: FREN 2312

FR 2321. Intermediate French for Speakers of Spanish II.
This course exposes students to the practice of more advanced language skills with greater emphasis on reading within a French-speaking cultural framework. Spanish speakers will apply their knowledge of Spanish to communicate more effectively in French. Prerequisite: FR 2310 or FR 2311 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

FR 2303. French Composition and Conversation.
This course introduces students to extended writing and conversation in French. Students will examine contemporary French and Francophone life from a variety of focuses: social, cultural, and professional. This course will prepare students for taking other advanced literature, cultural, and business courses in French. (MULT) Prerequisite: FR 2320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 3305. Acting French.
An introduction to upper division courses in French designed to strengthen reading skills and oral command of the language through the study and performance of short French plays from the classical to the contemporary period. (MULT) Prerequisite: FR 2320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FR 3306. Masterpieces of French Literature.
Masterpieces of French literature in various genres from different periods with emphasis on the modern period. Repeatable for credit with different emphasis. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 3308. French Translation I.
This course introduces students to translation from French to English. Students identify key translation techniques, interpret and discuss French texts, and propose translations for them. They compare, analyze and evaluate translations and revise their own work based on suggestions. This course prepares students for a course in specialized translation. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 3310. French Pronunciation and Intonation.
Study and intensive practice of problems in French pronunciation and intonation. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FR 3341. Advanced Grammar in French.
A study of more advanced grammatical, syntactical, and stylistic problems in mastering the French language with the aim of strengthening students' command of the structure of French and developing skills for more effective writing. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course introduces students to the history of French Cinema from the medium's origins in 1895 to the late 1950s. Students will learn about major developments in film narrative and technology in France from the silent to the classic eras. May be repeated for credit when topic varies. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

This course introduces students to the history of cinema of the French-speaking world from the late 1950s to the present. May be repeated for credit when topic varies. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
FR 3381. Business French I.
A course designed for students interested in business related careers. The course will help students to become familiar with basic French business language and the specifics of Francophone business cultures. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

FR 4308. French Translation II.
This course provides a theoretical framework for the advanced study of translation and an introduction to specific fields such as legal, business, financial, technical and medical translation as well as localization. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 4304B. French Genre Fiction.
This course focuses on the study of specific fictional works associated with a particular genre (e.g., crime fiction, the fantastic, and science-fiction) and the authors who are exemplars of that narrative category. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4330A. History of French Media.
This course introduces students to a survey of the history of the French press from the early modern to the post-World War II period. Topics include the roles of ideology and collective memory, of illustration and caricature, of propaganda and censorship, and of the development of the French intellectual figure. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4304C. Francophone Literature, Cinema, and Culture.
This course introduces students to the richness and diversity of the Francophone world through the study of its literature, film, and art. Prerequisite: FR 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4330B. Contemporary Issues in French Media.
This course focuses on contemporary French media – printed, broadcast, and online – from the postwar period to the present. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4304D. Iconic Figures of the French-Speaking World.
This course introduces students to major historical periods and/or cultural movements through the examination of an iconic figure-actual or allegorical-that served as a catalyst of events and cultural productions in the French-speaking world. The course may be repeated for credit when topic varies.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Topics|Writing Intensive
Grade Mode: Standard Letter

FR 4341. French Composition and Stylistics.
Students will incorporate their more advanced grammatical and syntactical skills with the study of style in the writing of compositions in French. Writing exercises will explore a variety of expository techniques from description, narration, dialogue, portraits, to the writing of letters. (MULT) (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 4350A. French Poetic Realist Cinema.
This course will study the films and directors associated with Poetic Realism, the film style of the 1930s in France and an important precursor to Italian Neo-realism. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics
Grade Mode: Standard Letter
FR 4350C. French Directors' Series.
This course offers students an in-depth examination of the films, themes, and styles associated with specific contemporary or classic French directors. Taught in English. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

This course is a survey of the cultural institutions of France or the French-speaking world. Repeatable for credit with different emphasis. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

FR 4390. Studies in French Culture, Language, or Literature.
A course designed to offer students an opportunity to pursue independent studies in special areas of interest beyond those of other catalog courses. The course is generally available only to graduating seniors who have completed at least two advanced courses or graduate students with special needs. May be repeated once for additional credit. (MULT) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

Courses in German (GER)

GER 1410. Beginning German I.
Introduction to listening, speaking, reading, and writing skills within a German cultural framework. Students who take GER 1410 toward degree requirements must also complete GER 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Multicultural Content
Grade Mode: Standard Letter
TCCN: GERM 1411

GER 1420. Beginning German II.
Continued practice in listening, speaking, reading, and writing skills within a German cultural framework. Students who take GER 1410 toward degree requirements must also complete GER 1420. (MULT) Prerequisite: GER 1410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Multicultural Content
Grade Mode: Standard Letter
TCCN: GERM 1412

GER 2310. Intermediate German I.
Continued development and review of all language skills within a German cultural framework. (MULT) Prerequisite: GER 1420 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GERM 2311

GER 2320. Intermediate German II.
More advanced practice in all language skills with greater emphasis on reading within a German cultural framework. (MULT) Prerequisite: GER 2310 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: GERM 2312

GER 3304A. German Cinema.
This course explores German film, history, and theory. Emphasis is placed on the interrelation of German and American uses of the medium. The course includes classic style (1910s), German Expressionism (1920s), cinema of Nazi Propaganda (1940s), the period of reconstruction (1950s), and the German New, and New New Waves. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

GER 3304B. German Colonialism, Orientalism, and Exoticism in Film and Literature.
This course surveys German colonial narratives and theories from the 19th and the mid-20th century. The course examines how critics today interpret the political and aesthetic tropes around which texts are organized, focusing on how these "colonial fantasies" emphasized national differences between German and other European powers. (WI) (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

GER 3304C. The Many Faces of Weimar Cinema: German Expressionist Films.
The course provides an overview of the changing roles of German cinema in the early 20th century. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics
Grade Mode: Standard Letter
GER 3304D. German Translation.
In this course, students approach translation as a method of improving their reading ability in German, not only through language, but also in terms of cultural competence in dealing with texts from the German-speaking world. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics
Grade Mode: Standard Letter

GER 3305. German on the Stage.
This course is designed to strengthen reading skills and oral command of the language through the study and performance of a classical or contemporary German-language play. May be repeated for credit twice with different topics. (MULT) Corequisite: GER 3310 with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

GER 3310. German Phonetics.
This course introduces students to German phonetics, primarily German pronunciation, intonation, and stress. The course is taught in German. It may be repeated once with different content for additional credit. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

GER 3320. Improving German Communication Skills.
This course provides extensive practice in speaking and writing German and in mastering advanced grammatical structures in speaking and writing. The course may be repeated once with different content for additional credit. Prerequisites: GER 2320 with a grade of "D" or better. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

GER 3321. Review of German Grammar.
Students will review the foundations of German grammar and expand their skills at the intermediate/advanced level. A strong foundation in German grammar is essential for mastering the language and communicating effectively in it.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GER 3370. The Contemporary German-Speaking World.
This course provides a background for a better understanding of Germany since the beginning of the twentieth century and of contemporary life and culture in Germany, Austria, and Switzerland. Course activities include oral and written reports. This course is taught in German. (WI) (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

GER 3380. Business German in Global Economy.
An introduction to the individual economies of each German state, the language and standards of the German business world, the tourist industry of Germany, and Germany's role in the European Community. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

GER 4300. Professional Internship in German.
This course is a supervised work experience that provides an opportunity to use German in a professional setting. Planning sessions, training, and language lessons prepare students for the internship. Other requirements include reflective practice reports as assigned by the course instructor. Prerequisite: GER 2320 with a grade of "D" or better and department approval.

3 Credit Hours. 1 Lecture Contact Hour. 6 Lab Contact Hours.
Grade Mode: Standard Letter

GER 4310. Masterpieces of German Literature.
An examination of major literary works representing the major genres and periods of German literature. The course may be repeated once with different content for additional credit. (MULT) Prerequisite: one GER 3000-level course or instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

GER 4340. Advanced Conversation, Composition, and Stylistics.
This course is designed to strengthen command of the language through reading, writing, conversation, and oral presentations in German. The course may be repeated once with different content for additional credit. (WI) (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
GER 4380. German Civilization.
The course introduces the history and culture of the German-speaking world from the Middle Ages through the nineteenth century. Students explore historical events and developments that have shaped this part of Europe, and engage with original texts that reflect those developments. This course is taught in German. Prerequisite: GER 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

GER 4390. Studies in German Culture, Language, or Literature.
A course designed to offer students an opportunity to pursue independent studies in special areas of interest beyond those of other catalog courses. The course is generally available only to graduating seniors who have completed at least two advanced courses or graduate students with special needs. Applications must be submitted prior to the registration period each semester. May be repeated once for additional credit. (MULT) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

Courses in Italian (ITAL)

Note: Italian courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or http://www.studyanywhere.txstate.edu/

ITAL 1410. Beginning Italian I.
Introduction to listening, speaking, reading, and writing skills within an Italian cultural framework. Students who take ITAL 1410 toward degree requirements must also complete ITAL 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ITAL 1411

ITAL 1420. Beginning Italian II.
This course provides continued practice in listening, speaking, reading, and writing skills within an Italian cultural framework. Students who take ITAL 1410 toward degree requirements must also complete ITAL 1420. (MULT) Prerequisites: ITAL 1410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ITAL 1412

ITAL 2310. Intermediate Italian I.
This course provides continued development and review of all language skills within an Italian cultural framework. (MULT). Prerequisite: ITAL 1420 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ITAL 2311

ITAL 2320. Intermediate Italian II.
This course provides more advanced practice in all language skills with greater emphasis on reading within an Italian cultural framework. (MULT). Prerequisite: ITAL 2310 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: ITAL 2312

ITAL 3308. Advanced Grammar and Composition.
This course is designed to improve writing skills in Italian through the reading and writing of Italian texts. The focus is on writing skills and the reading of selected works from Italian literature. The course may be repeated once with different content. (MULT) Prerequisite: ITAL 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

ITAL 3309. Italian Film and Media Studies.
This course engages students in a theoretical, methodological and critical debate on Italian film and media of the last 100 years. The course trains students to comprehend, analyze, and participate in Italian and global film and screen media cultures and industries, and to express their thoughts in Italian. The course includes screenings, workshops with visiting professionals, and talks on film and media-related issues. (MULT) Prerequisite: ITAL 2320 with a grade of "D" or better. Corequisite: ITAL 3308 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ITAL 4304. Italian Literature and Culture.
This course addresses key historical and aesthetic issues related to Italian literature and culture in the last two millennia. Class discussions, oral presentations and written work provide students with opportunities to develop their Italian skills in the context of literary and cultural topics. Course may be repeated with different emphasis. (MULT) Prerequisite: ITAL 3308 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
ITAL 4370. Italian Civilization.
This survey of the cultural institutions of Italy provides a background for a better understanding of the Italian people, encompassing the development of Italian culture and the forces that have shaped modern Italy. Recent essays, films, and comparative analyses of Italo-American relations will also be presented. Repeatable for credit with different emphasis. (MULT) Prerequisite: ITAL 3308 with a grade of "D" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

ITAL 4390. Studies in Italian Language and Culture.
Students will conduct an independent study project in Italian language and culture. (MULT) Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Courses in Japanese (JAPA)

JAPA 1410. Beginning Japanese I.
This course is an introduction to listening, speaking, reading, and writing skills within a Japanese cultural framework. Students who take JAPA 1410 toward degree requirements must also complete JAPA 1420. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Multicultural Content
Grade Mode: Standard Letter
TCCN: JAPN 1411

JAPA 1420. Beginning Japanese II.
This course provides continued practice in listening, speaking, reading, and writing skills within a Japanese cultural framework. Students who take JAPA 1410 toward degree requirements must also complete JAPA 1420. (MULT) Prerequisite: JAPA 1410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Lab Required|Multicultural Content
Grade Mode: Standard Letter
TCCN: JAPN 1412

JAPA 2310. Intermediate Japanese I.
This course provides continued development and review of all language skills in a Japanese cultural framework. (MULT). Prerequisite: JAPA 1420 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: JAPN 2311

JAPA 2320. Intermediate Japanese II.
This course provides advanced practice in all language skills in a Japanese cultural framework. (MULT). Prerequisite: JAPA 2310 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: JAPN 2312

JAPA 3304. Advanced Japanese Grammar I.
Course designed to strengthen written command of the language through grammar instruction as well as readings and reports in Japanese. (MULT). Prerequisite: JAPA 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

JAPA 3306. Modern Japanese Literature and Culture.
Students analyze Japanese literature and culture while developing their proficiency in Japanese, increasing their vocabulary in the language, and extending their knowledge of critical kanji necessary for understanding the written language. (MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

JAPA 3307. Advanced Japanese Writing and Grammar.
This is a writing-intensive course designed to strengthen students' knowledge of the structure of Japanese and written command of the language. Course may be repeated once with a different emphasis for additional credit. (WI) (MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

JAPA 3308. Advanced Japanese for Business.
This is an advanced course designed to develop the skills needed to succeed in the complex business world of Japan. Course may be repeated once with a different emphasis for additional credit. (MULT). Prerequisite: JAPA 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter
Students will improve Japanese reading comprehension through the study of popular Japanese media such as manga (graphic novels) or anime (film animation) or kayoo kyoku (Japanese popular song). The course will emphasize how language is used to tell stories for diverse audiences. Repeatable with different emphases. (MULT) Prerequisite: JAPA 2320 with a grade of "B" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content  
Grade Mode: Standard Letter

This course introduces the concepts of translation theory, methodology, and practice. The course focuses on Japanese-to-English translation of a variety of sources, including newspaper articles, short stories, essays, social media posts, J-pop lyrics, business documents, and scripts from anime and drama. (MULT) Prerequisite: Instructor approval.  
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Grade Mode: Standard Letter

POR 3308. Advanced Composition and Conversation through the Brazilian Short Story.
This course will help students advance their knowledge of the Portuguese language through the reading, discussion, and analysis of modern and contemporary Brazilian short stories. By reading the works of renowned writers students will be able to expand their vocabulary and develop fluent reading and writing skills. (WI) (MULT) Prerequisite: POR 2320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

Courses in Russian (RUSS)

RUSS 1410. Beginning Russian I.
This course is an introduction to listening, speaking, reading, and writing skills within a Russian cultural framework. (MULT).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
TCCN: PORT 1411

RUSS 1420. Beginning Russian II.
This course provides continued instruction and practice in listening, speaking, reading, and writing skills within a Russian cultural framework. (MULT) Prerequisite: RUSS 1410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

RUSS 2310. Intermediate Russian I.
This course provides continued development and review of all language skills within a Russian framework.(MULT) Prerequisite: RUSS 1420 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

RUSS 2320. Intermediate Russian II.
This course provides more advanced practice in all language skills with greater emphasis on reading within a Russian cultural framework.(MULT) Prerequisite: RUSS 2310 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
RUSS 3302. Advanced Russian I.  
This course provides students an opportunity to develop advanced-level oral and written communication skills in the Russian language, along with enhanced comprehension skills in listening and reading. The course focuses on vocabulary and sentence building; listening and reading comprehension; and pronunciation practice. Prerequisite: RUSS 2320 with a grade of "D" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

RUSS 4301. Advanced Russian through Film.  
This course focuses on Russian and Soviet films. In addition to the thematic and formal aspects of the films, the course examines their social, historical, and cultural contexts. Course activities allow students to develop their skills in reading, writing, speaking, and listening. Prerequisite: RUSS 3301 or RUSS 3302 either with a grade of "D" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Grade Mode: Standard Letter

RUSS 4390. Studies in Russian Language and Culture.  
Students will conduct independent study projects in Russian language and culture. (MULT) Prerequisite: Instructor approval.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter

Courses in Spanish (SPAN)  

SPAN 1410. Beginning Spanish I.  
Introduction to listening, speaking, reading, and writing skills within a Spanish cultural framework. Students who take SPAN 1410 toward degree requirements must also complete SPAN 1420. (MULT).  
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter  
TCCN: SPAN 1411

SPAN 1420. Beginning Spanish II.  
Continued practice in listening, speaking, reading, and writing skills within a Spanish cultural framework. Prerequisite: SPAN 1410 with a grade of "C" or better. Students who take SPAN 1410 toward degree requirements must also complete SPAN 1420. (MULT).  
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter  
TCCN: SPAN 1412

SPAN 2310. Intermediate Spanish I.  
Continued development and review of all language skills within a Spanish framework. (MULT) Prerequisite: SPAN 1420 with a grade of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter  
TCCN: SPAN 2311

SPAN 2320. Intermediate Spanish II.  
More advanced practice in all language skills with greater emphasis on reading within a Spanish cultural framework. (MULT) Prerequisite: SPAN 2310 with a grade of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content  
Grade Mode: Standard Letter  
TCCN: SPAN 2312

SPAN 3301. Literatures of Spain I.  
Students will study significant literary texts of the Iberian Peninsula from the Muslim conquest in 711 A.D. through 1700. The course will also consider the literature's historical, religious, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or better. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content | Writing Intensive  
Grade Mode: Standard Letter

SPAN 3302. Literatures of Spain II.  
Students will study significant literary texts of the Iberian Peninsula from the Enlightenment through the twenty-first century. The course will also consider the literature's historical, social, and political contexts. (MULT) (WI).  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content | Writing Intensive  
Grade Mode: Standard Letter

SPAN 3305. Latin American Literatures I.  
Students will study literary texts in Latin American from the period before the Conquest through the Colonial and Independence periods. The course will also consider the literature's historical, religious, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or better. (MULT) (WI).

Course Attribute(s): Multicultural Content | Writing Intensive  
Grade Mode: Standard Letter

SPAN 3306. Latin American Literatures II.  
Students will study literary texts in Latin American from Modernismo to the twenty-first century. The course will also consider the literature's historical, social, and political contexts. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Multicultural Content | Writing Intensive  
Grade Mode: Standard Letter
SPAN 3307. Advanced Composition for Spanish Heritage Speakers.
This is an advanced composition course for students who have grown up in an environment in which Spanish is spoken. It is designed to improve writing skills in Spanish through reading and responding to texts in Spanish. Students may not apply credit to their degree plans for both SPAN 3307 and 3308. (MULT) Prerequisite: SPAN 2320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3308. Advanced Composition.
This advanced composition course is designed to improve writing skills in Spanish through reading and responding to texts in Spanish. Students may not apply credit to their degree plans for both SPAN 3307 and SPAN 3308. (WI) (MULT) Prerequisite: SPAN 2320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3309. Introduction to Hispanic Literature and Literary Analysis.
This course focuses on writing skills, literary analysis, and the reading of selected works from Spanish, Latin American and Hispanic literature. (MULT) (WI) Prerequisite: SPAN 2320 with a grade of "C" or better. Corequisite: SPAN 3307 or SPAN 3308 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3310. Spanish Phonetics and Phonemics.
Articulatory phonetics and sound discrimination and production; phonemic and allophonic variants; geographical and social distribution. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 3311. Business Spanish I.
This course focuses on the use of written and oral Spanish in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions in the Hispanic world. Topics include business management, banking, and human resources. (WI)(MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3312. Business Spanish II.
This course focuses on the use of written and oral Spanish in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions in the Hispanic world. Topics include marketing, financing, and imports/exports. (WI) (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3313. Spanish and Media.
This course provides an overview of mass communication in Spanish-speaking regions of the world. Students explore the use of radio, television, newspapers, and the internet as practiced in various Hispanic cultural contexts. Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3314. Translation Practice and Theory.
This course is an introduction to Spanish translation for upper-division students. Students approach translation as a method of improving their reading comprehension—a fundamental skill for translators—while increasing overall Spanish language proficiency and acquiring the cultural competence required to address the complexities of the translation process. Prerequisite: SPAN 3307 or SPAN 3308 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3315. Spanish for Health Professions.
This course focuses on the use of oral and written Spanish in U.S. and global health professions. Topics include: general and diagnostic health-related terminology in Spanish; communication with Spanish-speaking patients, families, and other health professionals; and the impact of cultural factors on health matters in Hispanic communities. (WI) Prerequisite: SPAN 3307 or SPAN 3308 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

SPAN 3340. Advanced Spanish Grammar and Stylistics.
This course places major emphasis on syntax, usage, and grammatical nomenclature. (MULT) Corequisite: SPAN 3307 or SPAN 3308 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
SPAN 3370. Spanish Civilization.
Students will study the civilizations and cultures of Spain. The course provides a background for understanding Spanish society. (MULT) (WI) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 3371. Latin American Civilization.
Students will study the cultures of Latin America and the Hispanic U.S. The course provides a background of the history and civilization of both groups. (MULT) (WI) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4300. Professional Internship in Spanish.
This course is a supervised work experience in a Spanish-speaking environment. Students will work a minimum of 140 hours, performing duties at least 80% in Spanish. Other requirements include internship reports as required by course instructor. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better and instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

SPAN 4302. The Spanish Novel.
Students will study selected novels from Spain from the 16th through the 21st century. The course will also consider the literature's historical and political contexts. (WI)(MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4311. Historical Aspects of Hispanic Linguistics.
Course designed to develop knowledge and skills required for analysis and discussion of structural and external aspects of the history of the Spanish language with special focus on word formation and social aspects of language variation. The course provides an overview of morphology, sociolinguistics, and historical linguistics. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

This course is designed to develop knowledge and skills required for analysis and discussion of the structural and social aspects of the Spanish language. The course provides an overview of semantics, syntax, pragmatics, dialectology, and language acquisition in Spanish. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

SPAN 4330. The Latin American Novel.
Students will study selected novels from Latin America. The course will also consider the literature's historical and political contexts. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4341. Gabriel Garcia Marquez.
Students will read and analyze works by Nobel Prize author Gabriel Garcia Marquez, focusing on literature, history, politics and art of Latin America. (WI)(MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4342. Don Quijote.
Students will read and analyze Miguel de Cervantes' Don Quijote. The course will also consider the novel's literary sources and historical and cultural context. (WI)(MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4350. Hispanic Film.
Students will study Hispanic artistic, cultural, and historical issues through film and selected readings. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4361. Hispanic Poetry.
Students will read and analyze selected poems from Latin America and Spain. The course will consider the cultural and historical contexts of the works. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter
SPAN 4362. Hispanic Drama.
Students will read and analyze selected plays from Latin America and Spain. The course will also consider the cultural context of the works. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4370. Hispanic Literature of the Southwest.
Students will study the Hispanic literature of the Southwest in order to have a better understanding of the cultural diversity of the region. (WI) (MULT) Prerequisite: SPAN 3309 a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content|Writing Intensive
Grade Mode: Standard Letter

SPAN 4380A. Hispanic Nobel Prizes in Literature.
Hispanic Nobel prizes in Literature. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

SPAN 4380F. Mexican Literature.
This course focuses on the most representative works of Mexican Literature produced since Mexican Independence in the early 19th century. Course objectives include a better understanding of major literary trends and the cultural development of Mexican society since its beginning as an independent republic. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

SPAN 4380G. Women, Minorities and Marginal Groups in Medieval Spanish Literature.
This course will present some of the principal literary works which portray women, religious minorities and marginal groups in medieval Spain. Special focus will be given on deconstructing historical myths and stereotypes based on behavioral, religious and sexual identity as reflected by the authors and their selected works. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

SPAN 4380H. Nature and Nation in Latin American Literature.
Students will study the interaction of nature and nation in Latin American literature after Independence by taking into account both Western and indigenous approaches to nature. Students will read a selection of literary works that reinforce and/or contest notions of nature, nation and cultural identity. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive
Grade Mode: Standard Letter

The course is generally available only to graduating seniors who have completed several advanced courses or graduate students with special needs. Repeatable for credit with different emphasis. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better and instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content
Grade Mode: Standard Letter

SPAN 4600. Professional Internship in Spanish.
This course is a supervised work experience in a Spanish-speaking environment. Students work a minimum of 280 hours, performing duties at least 80% in Spanish. Other requirements include internship reports as required by course instructor. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better and instructor approval.
6 Credit Hours. 0 Lecture Contact Hours. 18 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. Students in the Bachelor of Arts (B.A.) degree with a major in French must complete 24 advanced hours in French and maintain a GPA of
at least a 2.50 in all advanced French course work to meet graduation requirements.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

8. Graduating seniors must submit a portfolio of their work to the French faculty in their last semester. Details about the portfolio are available in the Department’s main office and on the French Program webpage.

9. Graduating seniors must participate in an exit interview with French faculty in their last semester. Details about the exit interview are available in the Department’s main office and on the French Program webpage.

1 An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2222), ENG 2320 (TCCN ENGL 2232), ENG 2330 (TCCN ENGL 2320), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

Minimum Hours: 120

Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (http://mycatalog.txstate.edu/undergraduate/degree-program-information/) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Nine hours of writing intensive (WI) courses are required for graduation.

5. The major in French requires 27 hours including 24 hours of advanced French coursework and LING 4307. Students must earn a “C” or higher in all major course work and maintain a major GPA of at least 2.50.

6. Graduating seniors must submit a portfolio of their work to the French faculty in their last semester. Details about the portfolio are available in the Department’s main office and on the French Program webpage.

7. Graduating seniors must participate in an exit interview with French faculty in their last semester. Details about the exit interview are available in the Department’s main office and on the French Program webpage.

8. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in
all assigned courses in the professional sequence of the Education major with no grade below a "C".

9. This degree program is designed to prepare students for all-level teacher certification in French and requires that students pursue a double major by declaring and completing requirements for the major in French and the major in Education. The following courses are required for the major in Education:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CI 2310</td>

10. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

11. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list:

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students in the Bachelor of Arts (B.A.) degree with a major in Spanish must complete 24 advanced hours in Spanish and maintain a GPA of at least 2.50 in all advanced Spanish course work to meet graduation requirements. Students should complete the following advanced Spanish courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

## Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/).

## General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the In addition to the general education core curriculum requirements, the Bachelor of Arts degree (http://mycatalog.txstate.edu/undergraduate/degree-program-information/) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.

5. The major in Spanish requires 27 hours including 24 hours of advanced Spanish coursework and LING 4307. Students must earn a "C" or higher in all major course work and maintain a major GPA of at least 2.50. Course requirements include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 3307</td>
<td>Advanced Composition for Spanish Heritage Speakers</td>

Total Hours: 27

6. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a "C".

7. This degree program is designed to prepare students for all-level teacher certification in Spanish and requires that students pursue a double major by declaring and completing requirements for the major in Spanish and the major in Education. The following courses are required for the major in Education:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CI 2310</td>
<td>Education for Change (CI ELNA)</td>

<td>3</td>
</tr>
<tr>
<td>CI 3340</td>
<td>Teaching for Linguistic Diversity</td>
<td>3</td>
</tr>
</tbody>
</table>

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list:

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Nine hours of writing intensive (WI) courses are required.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students in the Bachelor of Arts (B.A.) degree with a major in Spanish must complete 24 advanced hours in Spanish and maintain a GPA of at least 2.50 in all advanced Spanish course work to meet graduation requirements. Students must complete the following SPAN required courses: SPAN 3307 or SPAN 3308, SPAN 3309, and SPAN 3340.

8. Nine hours must be chosen from the following SPAN Advanced Electives: SPAN 3311, SPAN 3312, SPAN 3313, SPAN 3314, SPAN 3315, SPAN 4300, SPAN 4300, SPAN 4300. No more than six hours of internship (SPAN 4300 and SPAN 4300) may be applied to the degree or the minor.

9. Three hours must be chosen from the following SPAN Advanced Electives: SPAN 4302, SPAN 4330, SPAN 4341, SPAN 4342, SPAN 4350, SPAN 4361, SPAN 4362, SPAN 4370, SPAN 4380A, SPAN 4380F, SPAN 4380G, SPAN 4380H.

10. Three hours must be chosen from the following SPAN Advanced Electives: SPAN 3301, SPAN 3302, SPAN 3305, SPAN 3306, SPAN 3310, SPAN 3311, SPAN 3312, SPAN 3313, SPAN 3314, SPAN 3315, SPAN 3370, SPAN 3371, SPAN 4300, SPAN 4302, SPAN 4311, SPAN 4312, SPAN 4330, SPAN 4341, SPAN 4342, SPAN 4350, SPAN 4361, SPAN 4362, SPAN 4370, SPAN 4380A, SPAN 4380F, SPAN 4380G, SPAN 4380H, SPAN 4390.

Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.

3. Nine hours of writing intensive (WI) courses are required.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete...
depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students in the Bachelor of Arts (B.A.) degree with a major in Spanish must complete 24 advanced hours in Spanish and maintain a GPA of at least 2.50 in all advanced Spanish course work to meet graduation requirements. Students must complete the following SPAN required courses: SPAN 3307 or SPAN 3308, SPAN 3309, and SPAN 3340.

8. Nine hours must be chosen from the following SPAN Advanced Electives: SPAN 3310, SPAN 3314, SPAN 4311, or SPAN 4312.

9. Three hours must be chosen from the following SPAN Advanced Electives: SPAN 3307, SPAN 3308, SPAN 4341, SPAN 4342, SPAN 4350, SPAN 4361, SPAN 4362, SPAN 4370, SPAN 4380A, SPAN 4380F, SPAN 4380G, and SPAN 4380H.

10. Three hours must be chosen from the following SPAN Advanced Electives: SPAN 3301, SPAN 3302, SPAN 3305, SPAN 3315, SPAN 3316, SPAN 3317, SPAN 4300, SPAN 4302, SPAN 4311, SPAN 4312, SPAN 4330, SPAN 4341, SPAN 4342, SPAN 4350, SPAN 4361, SPAN 4362, SPAN 4370, SPAN 4380A, SPAN 4380F, SPAN 4380G, and SPAN 4390.

The minor in Arabic requires 26 semester credit hours, including 12 upper-division hours in the language. The first two years (or equivalent via testing) of beginning- and intermediate-level coursework serve as prerequisites to all upper-division courses. These prerequisites include ARAB 1410, ARAB 1420, ARAB 2310, and ARAB 2320. For most students, the first two years of beginning (1410 and 1420) and intermediate level (2310 and 2320) courses serve as prerequisites to all upper division courses. However, if a student can successfully complete the three-hour 2320 course or receive credit through testing, the other prerequisite courses may be waived in the minor requirement.

The College of Science and Engineering Undergraduate Academic Advising Center advises current students on academic and administrative issues. Students are informed about matters related to academic general education core requirement, the selection of an appropriate major and minor, the selection of appropriate courses, transfer and correspondence courses, academic probation/suspension, the choice of an educational program leading to a bachelor's degree, and participation in pre-professional minors. The Advising Center is a resource for current students who are considering a major and/ or minor within the College of Science and Engineering and provides assistance for students applying for graduation. Career and professional counseling are available in the academic unit of the student's major and through Career Services.

**Academic Advising Center**
Centennial Hall Room 202
T: 512-245-1315 F: 512-245-9210
www.cose.txstate.edu/advising (http://www.cose.txstate.edu/advising/)

Currently, there are four programs that offer a double major with education leading to the Texas science- and math-related teacher certification.

- Chemistry (double major with B.S. in Chemistry and Education)
- Life Sciences (double major with B.S. in Biology and Education)
- Mathematics (double major with B.S. in Mathematics and Education)
- Physics/Mathematics (double major with B.S. in Physics and Education)
Students interested in a double major with education are strongly encouraged to see a Science and Engineering Advisor early in their undergraduate program.

Minors

- Minor in Pre-Dental Studies (http://mycatalog.txstate.edu/undergraduate/science-engineering/pre-dental-minor/)
- Minor in Pre-Medical Studies (http://mycatalog.txstate.edu/undergraduate/science-engineering/pre-medical-minor/)
- Minor in Pre-Pharmacy Studies (http://mycatalog.txstate.edu/undergraduate/science-engineering/pre-pharmacy-minor/)
- Minor in Pre-Physician Assistant Studies (http://mycatalog.txstate.edu/undergraduate/science-engineering/pre-physaasst-minor/)
- Second Teaching Field in Physical Science (Grades 6-12) (p. 630)

For students who are seeking a teacher certification within their major and would like a second teaching field in Physical Science, the requirements are:

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

Office of Educator Preparation (p. 244).

Biology is the study of living systems and how they function. Because the biological sciences have had and continue to have profound impact on questions of concern to human society - longevity, environmental quality, biotechnology - knowledge of the biological sciences is an important aspect of higher education. The mission of the Department of Biology is to advance the life sciences through research and to educate and prepare the next generations of scientists, educators, professionals, and scientifically literate citizens. Students select one of four majors (i.e. Aquatic Biology, Biology, Microbiology, and Wildlife Biology).

Biology majors take a minimum of eleven courses that include the core curriculum of Functional Biology, Organismal Biology, Genetics, a biological diversity course, a physiology course, Ecology, and Evolution. Additional required courses in chemistry, mathematics, and physics provide the broad scientific background that is foundational to biological sciences. At the sophomore level and above, a variety of courses in cellular and organismal biology assure a student can attain a broad education in the biological sciences as well as a level of specialization in its subdisciplines. A minor outside the Biology Department is required for all areas of study except for the Wildlife Biology program.

Teacher Certification

Students may earn the Life Science (Texas Grades 7-12) certification through a double major with a B.S. major in Biology and a B.S. major in Education. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science Education program advisor in the Department of Biology early in their undergraduate program or certification process.

Bachelor of Science (B.S.)

- Major in Aquatic Biology (p. 643)
- Major in Biology (p. 644)
- Major in Biology (Secondary Education; Teacher Certification in Life Science, Grades Seven through Twelve, with Double Major in B.S. Education) (p. 646)
- Major in Microbiology (p. 648)
- Major in Wildlife Biology (p. 650)

Minors

- Biology (p. 652)
- Second Teaching Field in Life Science (7-12)

Subjects in this department include: BIO (p. 630), GS (p. 643)

Courses in Biology (BIO)

BIO 1130. Functional Biology Laboratory.
Fundamental techniques and instruments used in cellular biological research will be taught while emphasizing safety, measurements, and scientific methods. Students will design and implement controlled experiments, identify independent and dependent variables, analyze data, draw conclusions, and communicate results with appropriate tables and graphs in oral presentations and written papers.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.

Course Attribute(s): Dif Tui- Science & Engineering

Grade Mode: Standard Letter

TCN: BIOL 1106
BIO 1131. Organismal Biology Laboratory.
This course introduces the students to the basics of experimental design, scientific method and inquiry, use of statistical analyses and writing research papers. Topics covered include Mendelian and population genetics, natural selection, population ecology, phylogeny, and behavioral ecology.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: BIOL 1107

BIO 1300. Microbiology.
Principles of microbiology, morphology, anatomy, physiology and taxonomy of representative groups of non-pathogenic organisms. Laboratory methods stress studies of pure cultures, the use of laboratory apparatus in quantitative determinations and the detection and identification of microbial populations in the environment. Prerequisites: BIO 1130 and BIO 1331 all with grades of “C” or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 1300

BIO 1301. Organismal Biology.
This course provides science majors with a foundation in organismal biology, Mendelian and population genetics, evolution and ecology. Topic include: patterns of inheritance, genetics, evolution, speciation, phylogenetics, and behavioral population, community and ecosystem ecology. This course is required for all biology majors and is not recommended for non-science majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: BIOL 1301

BIO 1320. Modern Biology I, Molecules, Cells, and Physiology.
Provides students with basic scientific and biological principles. Current problems in biology and the ethics of science are presented with perspectives of public policy from a scientific viewpoint. This course is not recommended for majors in the natural sciences, including biology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: BIOL 1308

This course provides the non-science major an overview of the ecological and evolutionary principles that govern relationships between living organisms, including humans, and their environment. Special attention is given to environmental issues of current concern, such as overpopulation, climate change, pollution, resource depletion, and conservation biology.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: BIOL 1309

BIO 1330. Functional Biology.
This course provides the students with a strong foundation in cellular and molecular biology. Topics include biochemistry, energy metabolism, molecular bases of gene regulation and protein functions, cell division and control, and cell signaling. This course is required for all biology majors and is not recommended for non-science majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: BIOL 1306

BIO 1331. Organismal Biology.
This course provides science majors with a foundation in organismal biology, Mendelian and population genetics, evolution and ecology. Topic include: patterns of inheritance, genetics, evolution, speciation, phylogenetics, and behavioral population, community and ecosystem ecology. This course is required for all biology majors and is not recommended for non-science majors.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: BIOL 1307

BIO 2400. Microbiology.
Principles of microbiology, morphology, anatomy, physiology and taxonomy of representative groups of non-pathogenic organisms. Laboratory methods stress studies of pure cultures, the use of laboratory apparatus in quantitative determinations and the detection and identification of microbial populations in the environment. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 and CHEM 1341 all with grades of “C” or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2421

BIO 2410. Intermediate General Botany.
An introduction to the biology of plants and plant-like organisms, emphasizing their role in ecosystem processes, relationships between structure and function, and the evolutionary relationships among the major plant groups. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of “C” or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2421

BIO 2411. Intermediate Zoology.
Provides biology majors a strong foundation in animal biology at the organismal level. The format will include details of animal form and function as well as concepts relating to classification, phylogeny, evolution, and ecology. Topics will include natural history, biogeography, adaptations to local environments, shared characters, and behavior. All material is presented in an accepted phylogenetic sequence. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of “C” or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2421
**BIO 2430. Human Physiology and Anatomy.**
A course on human physiology covering the various organ systems. Principles of molecular biology, cell and tissue structure, anatomy and relationship of structure and function are stressed. May not be credited toward a Biology major or minor.

*4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2404

**BIO 2440. Principles of Microbiology.**
The Basic Principles of microbiology, morphology, physiology, immunology and the relationship of microorganisms to diseases. This course is designed primarily to meet the requirements for students in allied health sciences and other programs requiring only one semester of microbiology. This course may not be credited toward a biology major or minor. Prerequisites: BIO 1330 and CHEM 1341 both with grades of "D" or better.

*4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2420

**BIO 2450. Genetics.**
An introduction to basic principles of Genetics by studies of Mendelian, molecular, quantitative and population genetics. Topics include: classical transmission genetics, and gene mapping, DNA replication and repair, transcription, translation, control of gene expression, genetic engineering techniques, Hardy-Weinberg equilibrium, evolutionary change via natural selection, and genetic drift. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 and CHEM 1141 and CHEM 1142 and CHEM 1341 and CHEM 1342 all with grades of "C" or better.

*4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2416

**BIO 2451. Human Anatomy and Physiology I.**
Part I of a two semester course on the structure and function of the human body. Designed specifically to prepare students for nursing and other health professions. Prerequisites: BIO 1330 and CHEM 1341 both with grades of "C" or better.

*4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2401

**BIO 2452. Human Anatomy and Physiology II.**
This course is the second part of a two semester course on the structure and function of the human body designed specifically to prepare students for nursing and other health professions. Prerequisites: BIO 1330 and BIO 2451 and CHEM 1341 all with grades of "C" or better.

*4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: BIOL 2402

**BIO 3200. Genetic Engineering Technology.**
This course introduces the technologies used for genetic engineering with an emphasis on the CRISPR-Cas system. Students will examine various applications in medicine, agriculture, and biotechnology and evaluate the potential benefits and problems, including the underlying technological, ethical and safety concerns. Students will gain hands-on experience tagging genes in the model nematode worm, Caenorhabditis elegans. Prerequisite: BIO 2450 with a grade of "C" or better.

*2 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

**BIO 3210. Biology Pedagogy and Learning.**
This course provides an introduction to pedagogical ideas relevant to the teaching and learning of biology for biology learning assistants. Students will learn key education theories and methods from STEM education research and cognitive science. Students will evaluate the processes of teaching and learning and examine structures and practices that facilitate and/or inhibit student learning. Students will apply what they've learned to the teaching of biology as they collaborate with biology faculty as learning assistants for an undergraduate biology course and complete a final project. Prerequisite: Department approval.

*2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

**BIO 3300. Cell and Molecular Biology.**
Fundamentals of structure and function of prokaryotic and eukaryotic cells. This course includes cell and organelle structure, basic biochemistry, principles of thermodynamics and energy transformation, nucleic acid and protein synthesis, enzyme kinetics, cell motility and cell signaling. Prerequisites: BIO 2450 with a grade of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter
This course focuses on animals, especially vertebrates, and covers topics such as the evolution of sexual reproduction, genetic variation, sex differentiation during development, reproductive anatomy and physiology, reproductive endocrinology, gestation, disease transmission, and reproductive technologies. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

An interdisciplinary introduction to the science of global environmental change. Emphasis will be placed on understanding principles of earth system science, the scientific basis underlying the major components of global environmental change, the linkages between these components, and the central role of humanity in contributing to the observed changes. (WI) Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

BIO 3341. Aquatic Toxicology.
This course examines the basic concepts of aquatic toxicology, including uptake mechanisms, interactions, and elimination of different toxicants. Students will understand how toxic substances impact freshwater and marine organisms and identify potential health impacts to humans. Topics to be discussed include nutrients, metals, oil, pesticides, radionuclides, plastics, and emerging contaminants. Prerequisites: BIO 1331 and CHEM 1341 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 3371. Marine Resources.
This course examines the exploitation and fragility of the marine environment and the economic importance of marine resources. Topics to be examined include ocean ownership, overfishing, aquaculture, shark finning, whaling, ocean mining, marine transportation, tourism, pollution, harvesting energy from the ocean, and the importance of creating marine reserves. Prerequisite: BIO 1331 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 3366. Economic Botany.
An introduction to the utilization of plants by humans and their economic and ecological significance. Laboratories will stress plant features beneficial to economic and societal needs. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 3342. Vertebrate Physiology.
The study of the physiology of vertebrate organ systems, including the nervous system, musculoskeletal system, endocrine system, cardiovascular system, respiratory system, digestive system, reproductive system and urinary system. Mammalian systems will be emphasized. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 3345. Human Anatomy.
This course introduces students to the anatomy of the human body. Aspects of both gross and micro anatomy of tissues, organs, and systems will be covered with an emphasis on hands-on laboratory exploration. This course is designed for students interested in a variety of health professions. Prerequisite: BIO 1330 and BIO 1130 and BIO 1331 and BIO 1131 and CHEM 1341 and CHEM 1141 and CHEM 1342 and CHEM 1142 all with grades of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 3346. Human Physiology.
This course focuses on human physiology and covers topics such as the nervous system, muscular system, endocrine system, cardiovascular system, respiratory system, digestive system, exocrine system, and reproductive system. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 3347. Mycology.
A study of the fungal kingdom including slime molds and lichens. Laboratory studies will emphasize taxonomy, morphology and culture techniques. Prerequisites: [BIO 2400 or BIO 2410] and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
BIO 3442. Virology.
The structure, multiplication and genetics of bacterial, plant, and animal viruses. The role of viruses in human and plant disease. (WI) Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 3460. Aquatic Ecology.
An introduction to the diversity and ecology of aquatic organisms. Students will learn to use ecological concepts to understand aquatic ecosystems and how they are impacted by human activities. They will also summarize and extract relevant information from scientific papers in aquatic ecology, analyze collected data, and communicate the results effectively. The laboratory sessions will include both lab and field work and at least a one-day field trip. Prerequisite: BIO 4416 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 3461. Plant Taxonomy.
Principles of identification and classification of plants; nomenclature and characteristics of various plant groups with emphasis on the higher plants. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 3480. Histology.
A study of the structural and functional relationships between cells and tissues in organs. The laboratory includes the study of prepared slides and of microtechnique. This course is designed to meet the needs of preprofessional students. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4126. Immunology Laboratory.
This laboratory-based course will cover cells of the immune system and basic serological reactions, including bacterial and viral agglutination reactions, precipitation, immunoelectrophoresis, immunofluorescence, and enzyme-linked immunosorbent assays. (WI) Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better. Corequisite: BIO 4326 with a grade of "C" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

BIO 4166. Medical Microbiology Laboratory.
This laboratory-based course will cover pathogenic bacteria emphasizing identification of selected groups of pathogens and the biological basis for virulence. (WI) Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better. Corequisites: BIO 4366.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4176. Microbial Biotechnology Laboratory.
This laboratory-based course will cover use of microbes for biotechnological applications and is designed to provide practical explorations into fields of biotechnology. Topics include laboratory techniques for recombinant protein purification, fermentation, identification of markers in genetically modified food and bioremediation of pollutants. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better. Corequisite: BIO 4376.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4299. Undergraduate Research.
Supervised individual research projects in a mentor-student relationship with a biology professor. May be repeated once for credit. Prerequisites: BIO 2450 with a grade of "C" or better and a minimum 3.0 Texas State GPA and instructor approval.
2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4300. Neurobiology.
This course will give students an overview of neuroscience, particularly the areas of neuroanatomy, neurophysiology, and evolutionary and developmental neurobiology. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4301. Evolution.
Basic genetic principles applied to natural selection, adaptation, populations, speciation and man's future. Consideration is given to the origin of life, nature of chromosomal variation, evolution of genetic systems and certain other selected topics. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
**BIO 4304. Wildlife and Recreation: Impact, Policy, and Management.**
Students will be introduced to the impact human recreational activities have on wildlife habitats and populations. Management practices to enhance human-wildlife encounters or to minimize detrimental effects on wildlife populations will be presented. Prerequisite: BIO 4416 with a grade of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4305. Nature Study.**
This course provides a comprehensive survey of natural events. It includes laboratory and field work emphasizing observation, collection and discovery of relationships. It is creditable only for those seeking elementary or middle school certification and is required for those seeking grade 4-8 Science or Science/Mathematics teaching certification. This course must be taken the semester immediately prior to student teaching.

*3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

---

**BIO 4307. Ecology of Rarity.**
This course will examine the ecology of rarity and its ability to inform public awareness and environmental policy. This course will explore how we define rarity, persistence and viability and address the question, "Is rarity more or less common than might be expected, and is there anything we can or should do about it?" Prerequisite: BIO 4416 with a grade of "D" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4311. Cancer Biology.**
Cancer Biology provides a foundation for understanding the complex molecular, biochemical, and cellular processes associated with cancer development. Topics include the role of tumor suppressor genes, oncogenes, DNA repair, apoptosis, ECM, cell-cycle control, cell signaling pathways, immune function and cancer-causing viruses. Emerging diagnostics and/or therapeutics will also be discussed. Prerequisite: BIO 2450 with grades of "D" or better and instructor approval.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4319. Biological Resources: Conservation and Planning.**
This course is an introduction to the protection and sustainable use of populations, species, habitats, and ecosystems. Course also includes study of the methods used to analyze biodiversity and population regulation. Corequisite: BIO 4416 with a grade of "D" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4324. Natural History and Conservation of Large Mammals.**
This course will introduce students to advanced details of natural history, research, and conservation of large mammals. Topics considered will include natural history, range and population status (historic and current), importance to and interaction with humans, research design and analysis, and the development of conservation and management plans.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4326. Immunology.**
This lecture-based course will cover the biology of the immune system and its relationship to disease, emphasizing B and T cell immunity, immune diseases, hypersensitivities, transplantation, and cancer. (WI) Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

---

**BIO 4327. Issues in Irish Biodiversity and Conservation.**
In this course, students will learn about Irish flora and fauna, ecosystems, conservation strategies in areas of high ecological concern, and public involvement. Emphasis will be placed on case studies and service-learning opportunities. Prerequisite: BIO 1131 and BIO 1331 both with grades of "D" or better and instructor approval. Corequisite: BIO 4328 with a grade of "D" or better.

*3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4328. Field Biology of Ireland.**
In this course, students will use multiple techniques to explore biodiversity across multiple ecosystems in Ireland. Prerequisite: BIO 1131 and BIO 1331 both with grades of "D" or better and instructor approval. Corequisite: BIO 4327 with a grade of "D" or better.

*3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**BIO 4329. Raptor Ecology.**
This course will examine the evolution, taxonomy, ecology, behavior, anatomy, physiology, and conservation of birds of prey of the world with emphasis on diurnal raptors, including those from Texas. Field trips will include at least two overnight visits to significant migration and overwintering areas.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter
BIO 4331. Human Dimensions of Wildlife and Fisheries Conservation. Humans play a role in nearly every aspect of wildlife and fisheries conservation. This course will provide students with principles, concepts, and case studies to understand how the human experience (e.g., culture, politics, economics) influences conservation outcomes. Students will also have an opportunity to integrate human dimensions into local decision-making. Prerequisite: BIO 4416 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4337. Biology and Conservation of Sharks. This course examines the biology and conservation of sharks and their relatives (skates, rays, chimaeras, and sawfish). Topics to be examined include evolutionary history, distribution, anatomy and physiology, daily movements and migration, diet, reproduction, relationship with humans, fisheries, conservation, and field methods used in shark research. Prerequisite: BIO 1331 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4338. Tropical Ecology and Conservation. In this course students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. This is an immersive and intensive study abroad course combining traditional lecture, field-based instruction, and primary literature-based discussions while observing actual tropical ecosystems. Prerequisite: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of "C" or better and a minimum 2.5 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4343. Fish Physiology. This course examines the primary physiological functions in fish, including how fish sense and interact with the environment, maintain their energetic metabolism (respiration, digestion and excretion), reproduce and maintain water balance. Students will learn about the diverse adaptions fish use to cope with environmental and physiological challenges. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4350D. Watershed Management Frameworks and Applications. Introduction to integrated watershed assessment and management tools for identifying programmatic water quality and quantity issues and their root causes and solutions, and their practical application. The scientific and socio-economic elements are considered within the context of planning and developing watershed protection plans and programs. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Dif Tui- Science & Engineering Topics
Grade Mode: Standard Letter

BIO 4350E. Techniques in Aquatic Biology. This course will provide hands on experience with a suite of physical, chemical, and biological sampling techniques and gear used in applied river studies. Students will be exposed to the fundamentals of data quality objectives, accuracy, precision, detection limits, data visualization, exploratory analysis, univariate and multivariate statistics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Dif Tui- Science & Engineering Topics
Grade Mode: Standard Letter

BIO 4350I. Bird Conservation and Management. This course is an introduction to the conservation and management of bird populations in an ecological context. Course covers a variety of species and spatial scales from landscape to ecoregion. Laboratory portion will involve field trips, intensive computer-based labs, and class discussion. Corequisites: BIO 4416 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Dif Tui- Science & Engineering Topics
Grade Mode: Standard Letter

BIO 4350J. Environmental Physiology of Animals. This course is a study of how animals respond physiologically to changes in environmental temperature, moisture, salinity, partial pressure of gases, and toxins. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Dif Tui- Science & Engineering Topics
Grade Mode: Standard Letter

BIO 4350K. Genomics. The course is a lecture covering modern genomics, including principles of genome function, the human genome, comparative genomics, genome sequencing, evolution and genomic change, databases and medicine, ethical, legal and social issues. The course also includes discussion of transcriptomics, proteomics, metabolomics, directed evolution, protein design, and systems biology. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Dif Tui- Science & Engineering Topics
Grade Mode: Standard Letter
BIO 4350M. Wildlife Policy and Law in North America.
This course provides the student with a historical and cultural context within which wildlife policy and law have developed in North America, particularly in the United States. Federal treaties, statutes, case law, and regulations pertaining to wildlife will be presented. Wildlife law from representative states will be referenced as well. Corequisite: BIO 4423 or BIO 4435 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

This laboratory course complements the lecture course, in which students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. It is an immersive and intensive study abroad course combining traditional lecture and field-based laboratory instruction in tropical ecosystems.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Co-requisite(s): BIO 4350
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

BIO 4350Q. Biological Oceanography.
Students will be introduced to the principles of oceanography and will understand anthropogenic impacts on the oceans. Topics to be investigated will include: ocean formation and destruction, sediments, ocean circulation, waves, tides, estuaries, life in the oceans, hydrothermal vents, coral reefs, fisheries, marine pollution, and climate change. Prerequisite: Minimum 2.50 Overall GPA.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

BIO 4350W. Biology and Conservation of Sharks.
This course examines the biology and conservation of sharks and their relatives (skates, rays and sawfish). Topics to be examined include evolutionary history, distribution, anatomy and physiology, daily movements and migration, diet, reproduction, relationship with humans, fisheries, conservation, and field methods used in shark research. Prerequisite: BIO 2450 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

BIO 4350Y. Introduction to Laboratory Research Methods.
This course is for students interested in undergraduate research and introduces the fundamental methods and practices utilized in biological research labs. This hands on course covers keeping a lab notebook, following standard protocols, and collecting/analyzing data. Student will be introduced to current research programs offered in the Biology department. Prerequisite: BIO 1330 and BIO 1331 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

BIO 4350Z. Diversity and Cultural Impact of Geoparks.
Students will explore biological differences in diversity across Geoparks in the United States and Ireland. Additionally, students will study the cultural impact that Geoparks have on the local community and national policy by focusing on differences between science communication strategies and community engagement practices conducted at the parks. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

BIO 4351A. Vertebrate Endocrinology.
This course teaches function and organization of the endocrine system. It describes the major endocrine glands, the synthesis and release of their hormone products, and the interaction with target tissues. Endocrine control of digestion, growth, reproduction, and homeostasis will be compared between mammals and other vertebrate groups. Prerequisite: BIO 2450 and CHEM 2342 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

BIO 4351D. Ecology of Temporary Waters.
Temporary waters (which regularly go dry) are often overlooked. This course explores their diversity, their ecological role and how these systems are impacted by humans. We will also look at the species that rely on temporary waters, their special adaptations, and their populations and community dynamics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter
BIO 4351E. Natural History of America.  
In this field course students will examine the terrestrial and aquatic wildlife of a chosen study area in relation to their conservation and management. Local geology and climate change impacts on wildlife diversity will also be discussed. Prerequisite: BIO 1331 and BIO 1131 both with grades of “C” or better and a minimum 2.5 overall GPA and instructor approval.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351F. Marine Ecology and Conservation.  
In this field course students will examine the ecology, management, and conservation of marine flora and fauna, and the impact of humans on marine life. Prerequisite: BIO 1331 and BIO 1131 both with grades of “C” or better and a minimum 2.5 overall GPA and instructor approval.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351H. Natural History and Conservation of Large Mammals.  
This course will introduce students to advanced details of natural history, research, and conservation of large mammals. Topics considered will include natural history, range and population status (historic and current), importance to and interaction with humans, research design and analysis, and the development of conservation and management plans.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351I. Global Change Biology.  
This course will give an in-depth analysis of the major global changes occurring in present day biological systems. The focus of the course will be on climate change, invasive species, eutrophication, land use change and biodiversity loss. Emphasis will be placed on peer-reviewed literature to better understand how biologists study processes at the global scale. Potential solutions to these global challenges will also be discussed. Prerequisite: BIO 2450 with a grade of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351J. Comparative Immunology.  
While most textbooks would present the immune system of animals as a monolith with little variation between species, we are quickly learning that this is not the case. Indeed animal immune systems are immensely diverse. This class will consist of a taxonomic survey of metazoan immune systems, focusing on the evolutionary causes and ecological consequences of this diversity in immune systems across animals. Prerequisite: BIO 4326 with a grade of "D" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351K. R for Biologists.  
This course broadly introduces biologists to the programming language R for statistical computing. The course will focus on the programming aspects of R using Base-R and tidyverse. This includes fundamentals like accessing the RStudio environment; loading, analyzing, and visualizing data; declaring variables, as well as navigating through and installing new modules. Prerequisite: BIO 2450 with a grade of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351P. Ecology and Conservation Abroad.  
The purpose of this course is to provide a first-hand understanding of the natural history, biodiversity, ecology, and conservation of ecosystems that do not occur in the United States. It is an immersive and intensive study abroad course combining traditional lecture and field-based instruction in the field. Corequisite: BIO 4351Q with a grade of "C" or better.  
3 Credit Hours. 20 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter

BIO 4351Q. Ecology and Conservation Abroad Lab.  
The purpose of this course is to provide a first-hand understanding of the natural history, biodiversity, ecology, and conservation of ecosystems that do not occur in the United States. It is an immersive and intensive study abroad course combining traditional lecture and field-based instruction in the field. Corequisite: BIO 4351P with a grade of "C" or better.  
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.  
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics  
Grade Mode: Standard Letter
BIO 4363. History of Medicine.
This course covers significant concepts, developments, individuals, and events in the history of medicine from antiquity to modern day. Topics include the impact of disease on medical practice, the development of hospitals as sites for care, teaching, and research, how medical science and technology are continuously defined by social, cultural, and political ideas, and the historical roots of several themes in medical ethics. This course will be delivered as an Education Abroad course. (WI) Prerequisite: BIO 2400 or BIO 2440 or BIO 2450 or BIO 2451 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Def Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4364. Explorations in Physiology.
This course will cover the basic principles of physiological systems and the function of organ systems with an emphasis on humans and other mammals. The focus will be on the interplay between and among multiple organ systems and holistic systems integration. Other topics include the pathophysiology underlying common diseases, drug therapies and treatments, and emerging physiological research. This course will also provide the opportunity for experiential learning gained in diverse cultural settings. Prerequisite: BIO 2400 or BIO 2440 or BIO 2450 or BIO 2451 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Def Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4366. Medical Microbiology.
This lecture-based course will cover pathogenic bacteria and their relationship to disease, epidemiology and the biological basis for virulence. Students may take only one of BIO 4345, BIO 4350G or BIO 4445 for credit. Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4376. Microbial Biotechnology.
This course provides an overview of how microbes (e.g., bacteria, viruses and yeast) are manipulated to solve practical problems through biotechnology. This course is based on topics of applied microbiology as recommended by American Society of Microbiology. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4377. Genome Informatics.
The course will cover basic knowledge on genomics and its bioinformatics tools. Students will learn current topics on genomics and bioinformatics, and will analyze genomic data using statistical software. All the analyses will be performed using a personal and a cluster computer. Prerequisite: BIO 2450 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4378. Habitat Ecology.
The course will introduce students to the importance of habitat in understanding a wide range of processes and patterns in Ecology. Course will explore the process of habitat selection, in the context of animal behavior as well as population dynamics. Students will learn methods and techniques of statistically analyzing the habitat associations of species. The central role of habitat in species conservation will also be discussed. Prerequisite: BIO 4416 with "C" or better and instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4400. Plants Important for Wildlife.
This course explores plant and plant part (specifically gall, fruit, seed, and twig) identification, phylogenetics, co-evolution of plant defenses, economic and ecological impacts of plant uses by wildlife. Prerequisite: BIO 2410 or BIO 2450 either with a grade of "C" or better.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4402. Earth Science I.
The description and interpretation of earth phenomena considered from the standpoint of meteorology and astrosience. Includes field observations, methods of measurement and interpretation of data related to the physical environment and space technology. May not be counted toward a major or minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4403. Earth Science II.
The description and interpretation of earth phenomena considered from the standpoint of geology and oceanography. Includes field observations, methods of sampling and interpretation of data related to the physical environment. May not be counted toward a major or minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Def Tui- Science & Engineering
Grade Mode: Standard Letter
BIO 4408. Science Processes and Research.
Students will analyze scientific research design, design research, interpret data, and communicate results. Stress will be placed on broadfield structure and integration of major science concepts and research-based science pedagogy. This course must be taken the semester prior to student teaching and is required for those seeking 7-12 Life Science or Science teacher certification. This course may not count as one of the four upper-level Biology courses required of general Biology majors, or one of the three upper-level Biology courses required of Biology minors.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4410. Field Biology of Plants.
Ecological relationships and natural history of plants, including historical geology, geography, soils, vegetational regions and surface geology of central Texas. Emphasis is placed on plant-soil-water relationships to develop conservation concepts. Students will make a representative collection of plants. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

The structure, life-cycles and evolution of fossil and living vascular plants. Emphasis on such topics as the origin of land plants, evolution of the ovule, angiospermy, the flower and fruit. Prerequisites: BIO 2450 and CHEM 1342 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4412. Plant Anatomy.
The anatomy of vascular plants stressing descriptive, development and comparative aspects of seed plants and the anatomical adaptations of plants to environmental factors. Prerequisites: BIO 2450 and CHEM 1342 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4413. Parasitology.
The biology and biological significance of the common parasites of man and animals. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4415. Ichthyology.
An introduction to the morphology, taxonomy, natural history and evolution of fishes. Field trips will be made to collect specimens and laboratory periods will be devoted to morphological and systematic analysis. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4416. General Ecology.
The ecological relationships that exist between organisms and those relationships that exist between organism and environment. Laboratory sessions will be devoted to literature review and/or specific ecological problems. This course or BIO 4454 is required of all biology majors. (WI) Prerequisites: BIO 2450 and [BIO 2400 or BIO 2410 or BIO 2411] both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4418. Field Ornithology.
This course is designed to introduce and provide an advanced knowledge of the application of various field, laboratory, and statistical methods and techniques in the study of avian species. The course will include topics related to survey methodology, sampling design, marking/banding, measurement/sample extraction, and aging/sexing of avian species.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4420. Natural History of the Vertebrates.
Environmental relationships and natural history of vertebrates. Emphasis is upon taxonomy, speciation and biotic provinces. The laboratory will include field trips for the study and collection of animals in their natural habitats. Students will assemble a representative collection of animals. (WI) Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better and instructor approval.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4421. Ornithology.
Introduction to anatomy, behavior, ecology and identification of birds of Texas. Laboratory will emphasize field studies of birds and their habitat requirements. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
BIO 4422. Mammalogy.
The taxonomy, distribution, ecology, behavior and evolution of mammals with particular emphasis on wild animals of the southwest. Laboratory will emphasize anatomy, identification, preparation of specimens and field exercises in the methods of population analysis. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4423. Wildlife Management.
Applications of the principles of ecology and natural history to the management of wildlife habitats and control of wildlife populations. Laboratory will involve demonstrations and practice exercises with wildlife management techniques and instrumentation and field trips to observe wildlife management projects. (WI) Prerequisites: BIO 2411 and BIO 2450 with grades of "C" or better and BIO 2410 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4425. Biometry.
Basic principles of statistical methods as applied to biological problems such as sampling techniques, analysis of data, experimental design and population dynamics. Emphasis will be on practical application. Prerequisites: BIO 2450 and [MATH 1315 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471] both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4429. Wetland Plant Ecology and Management.
This course focuses on the biological, physical, chemical, and ecological aspects of major wetland ecosystems. The management and restoration of wetlands will also be discussed. Special attention will be spent on the ecology and identification of wetland plants. Prerequisite: BIO 2410 or BIO 2450 either with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4431. Bacterial Diversity.
The overall goal of this research-based course is to isolate, cultivate, characterize, and identify under-explored bacterial lineages from environmental samples. Methods and techniques employed in this course include aseptic techniques, cutting-edge cultivation approaches, maintaining bacterial cultures, gel electrophoresis, DNA isolation, amplification, and sequencing. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

BIO 4432. Bacterial Genomics.
The course offers hands-on training on contemporary approaches, techniques, and bioinformatic tools used to study bacterial genomes. Topics covered include, DNA sequencing, genomic assembling, and annotation, with a strong emphasis in computation biology and genomic data handling/analytics. At the end of this course, students will be familiar with bioinformatics tools used to analyze genes and genomes. Prerequisite: BIO 4431 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4433. Herpetology.
A course treating the origin and evolution of amphibians and reptiles; their reproductive and physiological tactics; taxonomy/systematics; and population biology. Emphasis will be placed on North American species and those groups inhabiting Texas. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4434. Techniques in Wildlife Management.
The basic methodology of practical wildlife management. This involves techniques in monitoring and data collection related to population dynamics and habitat parameters of wildlife species. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better and instructor approval.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

BIO 4435. Tropical Biology.
This course entails an analysis and evaluation of the governing principles of tropical ecosystems, including wildlife ecology, geological processes, and environmental-cultural interactions. In the laboratories, students will compare ecological relationships that influence tropical biology, discuss peer-reviewed literature and examine tropical flora and fauna during field trips to regional sub-tropical areas. Prerequisite: BIO 2410 and BIO 2411 and BIO 2450 all with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4441. Cellular Physiology.
Advanced cellular biology, including membrane physiology, thermodynamics, energy transduction and distribution, and cellular movement in non-muscle and muscle cells. Laboratory includes discussion of current research and exercises in cellular physiology. (WI) Prerequisites: BIO 2450 and [CHEM 2330 or CHEM 2341 or CHEM 2342] both with grades of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter
BIO 4446. Microbial Ecology.
This course will illustrate the wide variety of bacteria in nature, their interactions with other organisms and the environments, and their roles in global cycling of elements such as carbon, nitrogen, and sulfur. Undergraduate research is a major component of this course. (WI) Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4447. Microbial Physiology.
This course will cover fundamental concepts in bacterial and archaeal physiology, including central and specialized metabolism. Undergraduate research is a major component of this course. (WI) Prerequisites: BIO 2400 and BIO 2450 and CHEM 2142 and CHEM 2342 all with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4448. Bacterial Genetics.
This course will cover concepts and mechanisms involved in the genetics of Archaea and Bacteria. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4454. Plant Ecology.
Physiological ecology and community structure and function in the organization of terrestrial plant ecosystems. Quantitative vegetational sampling and the use of field and laboratory physiological equipment are included in the laboratory. (WI) Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4455. Plant Physiology.
Basic principles of plant physiology are studied in lecture and laboratory. One semester of organic chemistry is strongly recommended. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

BIO 4464. Vertebrate Anatomy.
This course is a comparative study of vertebrate anatomy. Fossil histories are evaluated to understand how vertebrate radiation occurred in the geological past, along with changes in structure of organs and organ systems. Lab includes dissection of representative members of each major vertebrate group. Prerequisite: BIO 2450 with a grade of "C" or better. (WI).
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4465. General Entomology.
Principles of morphology, physiology and taxonomy of insects. Laboratory time will be devoted to a taxonomic study of the common orders and families of insects. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4470. Limnology.
The physical, chemical, and biological factors affecting productivity in lakes, ponds, and streams. Limnological sampling methods, chemical, and biological analysis of samples and hydrographic surveying are included in the laboratory. (WI) Prerequisites: BIO 2450 and CHEM 1342 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4472. Animal Behavior.
This course presents all the major facets of the study of animal behavior, giving special attention to its evolution and ecological significance. We will discuss major conceptual models guiding past and present research in the field. Laboratories will emphasize experimental techniques and statistical analysis. (WI) Prerequisites: BIO 2450 and [BIO 2400 or BIO 2410 or BIO 2411] both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

BIO 4480. Cytology and Microtechnique.
A study of cellular structure and microscopic technique. The lecture portion of the course presents cytology of all cell types and theoretical aspects of microscopy including light and electron-based technologies. The laboratory portion of the course provides training in standard light and electron microscopy, laser scanning confocal microscopy, and digital microscopy. Prerequisite: BIO 2450 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter
BIO 4481. Internship in Biological Laboratory Technologies.  The student will participate in the work of a selected biology unit (private, commercial, or governmental). A research paper, reporting the internship experience conducted at the biological unit under the supervision of a faculty member, will be required. This course may be credited toward a biology major with prior approval of the biology department adviser and chair. Prerequisite: BIO 2450 with a grade of "C" or better.  
4 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering  
Grade Mode: Standard Letter

BIO 4490. Principles of Developmental Biology.  This course will cover basic principles of developmental biology in both plant and animal systems. The course will mainly address cell, molecular and genetic mechanisms underlying the development of model organisms, mainly focusing on Drosophila (animal) and Arabidopsis (plant). Prerequisite: BIO 2450 with grade of "C" or better.  
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering  
Grade Mode: Standard Letter

Courses in General Science (GS)

GS 2310. Life Science Concepts.  This laboratory course is designed to acquaint the student with the fundamentals of biological science and introductory chemistry. It cannot be taken for credit by science majors.  
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering  
Grade Mode: Standard Letter

GS 3310. Earth Science Concepts.  This laboratory course acquaints students with the fundamentals of chemistry and earth space science. It is non-creditable for science majors but is a required course for select education majors. Prerequisites: PHYS 1310 or PHYS 1315 or PHYS 1320 or PHYS 1325 or PHYS 1360 or PHYS 1365 or PHYS 1370 or PHYS 1410 or PHYS 1420 any with grade of "C" or better.  
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required  
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/). The recommended minor is Chemistry or Biochemistry. Minor and electives should be chosen in consultation with the academic advisor.

4. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

6. Nine semester credit hours must be writing intensive (WI).

7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

8. For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Biology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Total Hours: 120-122

1. While PHIL 1305 or PHIL 1320 are strongly preferred, the department will allow other Language, Philosophy, and Culture Component Code 040 courses to satisfy this requirement.

2. Biology advanced electives are 3000-4000 level Biology courses.
   - Biology advanced electives cannot be chosen from: BIO 4305, BIO 4402, BIO 4403, or BIO 4408.
   - BIO 4299 requires faculty and departmental approval, and in order to apply as an advanced biology elective, students must take BIO 4299 two times in succession.

3. Students may apply only one course from [BIO 3421 or BIO 3426] towards the biology major requirements.

Minimum required: 120-121 semester credit hours

Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This degree program is designed to prepare students for secondary teacher certification in Life Science and requires that students pursue a double major by declaring and completing requirements for both the major in Biology and the major in Education, which includes the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CI 2310</td>
<td>Education for Change</td>
<td>3</td>
</tr>
<tr>
<td>CI 3325</td>
<td>Adolescents and Society</td>
<td>3</td>
</tr>
</tbody>
</table>

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Nine credit hours must be writing intensive (WI).

5. To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of “C” or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.

6. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

7. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US History (CI 2310 or CI 2311) and US Government (CI 2312) to satisfy the minimum core curriculum requirements. Students must earn a grade of “C” or better the first time the course is attempted. If a student has not completed the course with a grade of “C” or better after the first attempt, they must complete the course a second time to satisfy graduation requirements.

8. If transfer students do not have any college-level courses in Biology (or its equivalents), they must complete four courses to satisfy the Biology Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/), which is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below.

9. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

10. For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Biology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.
11. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Science degree with a major in Education at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take additional elective courses to reach the 120 minimum total credit hour requirement for the awarding of a degree.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/). The recommended minor is Chemistry or Biochemistry. Minor and electives should be chosen in consultation with the academic advisor.

5. The minimum number of hours required for this degree program is 120. The number of elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

6. Nine semester credit hours must be writing intensive (WI).

7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence
of such high school language, two semesters of the same modern
guage must be taken at the college level.

8. For transfer students, 24 semester credit hours in biology, chemistry
and physics (or their equivalents) may be transferred from a Texas
public institution of higher education for the Biology Field of Study
and be applied to the Bachelor of Science degree with a major in
Microbiology at Texas State University. More information about the
Field of Study (http://mycatalog.txstate.edu/undergraduate/general-
information/academic-policies/texas-legislative-requirements/) is
available in the Academic Policies section of this catalog. The
transferable Texas Common Course Number (TCCN) is listed below
the Texas State University course number in the following course list.

1. While PHIL 1305 or PHIL 1320 are strongly preferred, the department will allow other Language, Philosophy, and Culture Component Code 040 courses to satisfy this requirement.

2. Fifteen hours of advanced BIO electives are required of which 11-12 hours must be chosen from: BIO 3430, BIO 3442, BIO 4326/BIO 4126, BIO 4366/BIO 4166, BIO 4376, BIO 4413, BIO 4446, BIO 4447, BIO 4448, or BIO 4480.

3. Students may apply only one course from [BIO 3421 or BIO 3426] towards the biology major requirements.

4. BIO 4447 can be used to satisfy the physiology requirement or the advanced BIO electives requirement, but not both.

5. BIO 4299 requires faculty and departmental approval and in order to apply as an advanced biology elective, students must take BIO 4299 two times in succession.

**Minimum required: 121-125 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. The minimum number of hours required for this degree program is 127. The number of elective hours a student completes depends on the number of hours a student may need to achieve the required 127 total or 36 advanced hours.

4. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

5. Nine semester credit hours must be writing intensive (WI).

6. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

7. This Bachelor of Science degree plan includes courses in preparation for The Wildlife Society certification as an Associate Wildlife Biologist (https://wildlife.org/learn/professional-development-certification/certification-programs/), and does not require a minor.

8. For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Wildlife Biology at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog.

The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**Advanced Vertebrate Elective Group One**

Choose 1 course from the following:

- BIO 43501 Bird Conservation and Management
- BIO 4418 Field Ornithology
- BIO 4420 Natural History of the Vertebrates
- BIO 4421 Ornithology
- BIO 4422 Mammalogy
- BIO 4434 Herpetology
- BIO 4436 Tropical Biology

**Total Hours: 121-125**

1. While PHIL 1305 or PHIL 1320 are strongly preferred, the department will allow other Language, Philosophy, and Culture Component Code 040 courses to satisfy this requirement.

2. Individual biology advanced electives can apply to only one requirement and cannot satisfy multiple requirements.

3. Students must complete (1) advanced vertebrate elective from group one and (2) vertebrate electives from group two.

**Electives**

Minor in Biology

**BIO 4324** Natural History and Conservation of Large Mammals

**BIO 4338** Tropical Ecology and Conservation

**BIO 4350I** Bird Conservation and Management

**BIO 4351Q** International Ecology and Conservation of Wildlife

**BIO 4415** Ichthyology

**BIO 4418** Field Ornithology

**BIO 4420** Natural History of the Vertebrates

**BIO 4421** Ornithology

**BIO 4422** Mammalogy

**BIO 4434** Herpetology

**BIO 4436** Tropical Biology

**BIO 4472** Animal Behavior

**Botany Elective Option**

Choose 2 from the following:

- **BIO 3406** Economic Botany
- **BIO 3461** Plant Taxonomy
- **BIO 4351F** Marine Ecology and Conservation
- **BIO 4400** Plants Important for Wildlife
- **BIO 4410** Field Biology of Plants
- **BIO 4429** Wetland Plant Ecology and Management
- **BIO 4454** Plant Ecology

**Physiology Course Options**

Choose 1 from the following:

- **BIO 3421** Vertebrate Physiology
- **BIO 4343** Fish Physiology
- **BIO 4350J** Environmental Physiology of Animals
- **BIO 4455** Plant Physiology

**Policy Elective Option**

Choose 1 from the following:

- **BIO 4304** Wildlife and Recreation: Impact, Policy, and Management
- **BIO 4350M** Wildlife Policy and Law in North America
- **BIO 4307** Ecology of Rarity
- **BIO 4331** Human Dimensions of Wildlife and Fisheries Conservation

**Conservation Elective Option**

Choose 1 from the following:

- **BIO 4307** Ecology of Rarity
- **BIO 4319** Biological Resources: Conservation and Planning
- **BIO 4351P** International Ecology and Conservation of Plants
- **BIO 4351Q** International Ecology and Conservation of Wildlife

The minor in Biology requires 29 semester credit hours. A grade of “C” or higher is required in all prerequisite courses.

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

**The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.**

Chemistry Building Room 238  
T: 512-245-2156 F: 512-245-2374  
www.txstate.edu/chemistry

The study of chemistry provides the essential knowledge needed to address many of society's most pressing needs, such as clean water, tapping new sources of energy, improving health and conquering disease, providing renewable substitutes for dwindling resources, strengthening our national security, and monitoring and protecting our environment.

Chemists and biochemists find careers in research, production, teaching, quality control, technical services, and/or sales. Graduates from the Department of Chemistry and Biochemistry have an excellent record of job placement in industrial, academic, and government positions. Many also seek advanced degrees or pursue careers in medicine, dentistry, pharmacy or other health-related professions.

The department fosters innovative research programs that expand knowledge through discovery and development, actively contribute to the
broader scientific community, and address critical global needs. We are committed to the professional development and mentoring of a diverse and inclusive community of faculty, staff, and students.

Students are encouraged to actively engage in undergraduate research, and to work as laboratory instructors and supplemental instructors for lower division courses. Students may also participate in internships and research programs both on and off campus, particularly during the summer.

The faculty, facilities, library holdings, and chemistry curriculum of the Department of Chemistry and Biochemistry have been accredited by the American Chemical Society. Recipients of a B.S. major in Chemistry or B.S. major in Biochemistry who have fulfilled the minimum requirements for professional chemists are awarded certification by the American Chemical Society. Receipt of the ACS certificate is recommended as preparatory training for work in industry or for continued graduate studies in chemistry or biochemistry. The Biochemistry program is also accredited by the American Society for Biochemistry and Molecular Biology and recipients of a B.S. major in Biochemistry are awarded an ASBMB-certified degree upon successful completion of a scored examination. Students interested in careers in medicine, dentistry, pharmacy, or as physicians assistants are encouraged to choose a corresponding minor in Pre-Dental, Pre-Medical, Pre-Pharmacy, or Pre-Physicians Assistant Studies to prepare for post-graduate professional degrees.

Students seeking a B.S. major in Chemistry begin their studies taking foundation courses in chemistry, physics and mathematics. After completion of the foundation courses, students take advanced courses and laboratories in physical chemistry, analytical chemistry, inorganic chemistry and organic chemistry. A minor is required for this degree. (Chemistry majors are not allowed to choose a Minor in Biochemistry.)

Students seeking a B.S. major in Biochemistry begin their studies taking foundation courses in chemistry, biology, physics and mathematics. After completion of the foundation courses, students take advanced courses and laboratories to gain knowledge and experience in the modern techniques of biochemistry and molecular genetics. The Biochemistry curriculum meets the standards set by the American Society for Biochemistry and Molecular Biology. A minor is required for this degree. (Biochemistry majors are not allowed to choose a Minor in Chemistry.)

Qualified chemistry or biochemistry majors completing their junior year of chemistry courses who plan to pursue advanced studies have the opportunity to complete both B.S. and M.S. degrees with one additional year of course work and research after receipt of a B.S. degree. Students must be active in undergraduate research prior to their senior year to be eligible for the program.

Pharmacy

Pharmacy is a professional program leading to a Doctor of Pharmacy (Pharm.D.) degree. Minor in Pre-Pharmacy Studies provides a strong foundation for future studies and includes prerequisite coursework required in order to apply to professional programs in Pharmacy. The nine Pharmacy schools in Texas (Texas A&M Health Science Center-Irma Lerma Rangel College of Pharmacy, Texas Southern University College of Pharmacy and Health Sciences, Texas Tech University Health Sciences Center School of Pharmacy, The University of Texas at Austin College of Pharmacy, The University of Texas at El Paso School of Pharmacy, The University of Texas at Tyler-Ben and Maytee Fisch College of Pharmacy, University of Houston College of Pharmacy, University of the Incarnate Word Feik School of Pharmacy, and University of North Texas Health Science Center College of Pharmacy) all require prerequisite courses in chemistry, biology, math, physics, English, humanities and social sciences. Some requirements vary by professional school so it is imperative that pre-pharmacy students consult with a pre-pharmacy advisor prior to and during completion of their major at Texas State.

Teacher Certification

Students may earn a Chemistry (Grades 7-12) certification in Texas, while pursuing a double major with a B.S. major in Chemistry and a B.S. major in Education. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification should meet with their academic advisor early in their undergraduate program or certification process.

Bachelor of Science (B.S.)

- Major in Biochemistry (p. 658)
- Major in Biochemistry (American Chemical Society approved program) (p. 659)

- Major in Chemistry (Early-Entry Program) (p. 663)

Minors

- Biochemistry (p. 663)
- Chemistry (p. 663)
- Second Teaching Field in Chemistry (Grades 7-12) (p. 663)

Courses in Chemistry (CHEM)

CHEM 1135. Engineering Chemistry Laboratory. This laboratory course is designed to accompany CHEM 1335. This course introduces students to experimental measurements and the study of thermodynamics, kinetics, and equilibria. Corequisite: CHEM 1335 with a grade of "C" or better.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours. Course Attribute(s): Dif Tu; Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1109
CHEM 1141. General Chemistry Laboratory I.
First of two laboratory courses in general chemistry for science-related majors. Course introduces the students to the basics of experimental measurements, including density, separation techniques, formula determinations, titrations, thermodynamics, gas laws, and descriptive chemistry. Corequisite: CHEM 1310 or CHEM 1341 either with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1111

CHEM 1142. General Chemistry Laboratory II.
Second of two laboratory courses in general chemistry. Laboratory techniques are emphasized, and applied to both qualitative and quantitative analysis. Prerequisites: CHEM 1141 and CHEM 1341 both with grades of "D" or better. Corequisite: CHEM 1342 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1112

CHEM 1310. Introductory Chemistry for Non-Science Majors.
A one semester principles course for students in non-science related majors, this course covers the major concepts of chemistry and the role of chemistry in contemporary society. (It is not intended as an introductory course for general chemistry or for science majors.).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1305

CHEM 1330. Chemistry for Non-Science Majors.
This is the second of two lecture courses for non-science majors. The course surveys organic and biochemical and current topics which may include energy-related topics, nuclear chemistry, environmental chemistry, medicinal chemistry, and synthetic and natural polymers. Prerequisite: CHEM 1310 or CHEM 1341 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1307

CHEM 1335. Engineering Chemistry.
Engineering-related applications form the core of this one-semester lecture course. Topics include stoichiometry, gases, chemical bonding and structure, periodic trends, materials, energy, kinetics, equilibrium, electrochemistry, and nuclear chemistry. Prerequisite: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1309

CHEM 1341. General Chemistry I.
This initial lecture course in general chemistry for science-related majors covers atomic and molecular structure, bonding, states of matter, solutions, and descriptive chemistry. Prerequisites: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1311

CHEM 1342. General Chemistry II.
Second of two lecture courses in general chemistry for science-related majors, covering equilibrium processes, acid-base chemistry, and kinetics, and electrochemistry. A basic knowledge of algebra is needed. Prerequisite: CHEM 1341 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1312

CHEM 2130. Laboratory Technique in Organic Chemistry.
An optional laboratory to accompany CHEM 2330, covers experimental techniques of preparation, purification, and determination of physical and chemical properties of organic compounds. Prerequisites: CHEM 1142 and CHEM 1342 both with grades of "D" or better. Corequisite: CHEM 2330 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 1307
CHEM 2141. Organic Chemistry Laboratory I.
This laboratory introduces the student to the general techniques of organic chemistry. Prerequisites: CHEM 1342 with a grade of "C" or better and CHEM 1142 with a grade of "D" or better. Corequisite: CHEM 2341 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 2123

CHEM 2142. Organic Chemistry Laboratory II.
This laboratory involves the study of typical organic reactions. Prerequisites: CHEM 2341 with a grade of "C" or better and CHEM 2141 with a grade of "D" or better. Corequisite: CHEM 2342 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 2125

CHEM 2150. Biochemistry & Metabolism Lab.
An optional laboratory to accompany CHEM 2350. This laboratory examines the physical properties and chemistry of carbohydrates, amino acids, proteins, lipids and nucleotides. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: [CHEM 2130 and CHEM 2330] or [CHEM 2142 and CHEM 2342] any with a grade of "D" or better. Corequisites: CHEM 2350 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 2125

CHEM 2342. Organic Chemistry II.
This course covers the nomenclature, reactions and reaction mechanisms of the major functional groups. Prerequisite: CHEM 2341 with a grade of "C" or better. Corequisite: CHEM 2141 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter
TCCN: CHEM 2325

CHEM 2350. Biochemistry & Metabolism.
A one-semester study of carbohydrate, proteins, lipids and nucleotides which presents both structure and intermediary metabolism along with an introduction to the function of enzymes and coenzymes. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: [CHEM 2130 and CHEM 2330] or [CHEM 2142 and CHEM 2342] any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CHEM 3190. Cooperative Education.
This course provides cooperative education students the opportunity to study particular problems in chemistry and biochemistry in an occupational setting. Problems are related to the student's work assignment, culminating in an industrial supervisor's evaluation and the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: Minimum 2.25 Overall GPA and Instructor Approval.
1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CHEM 3245. Physical Chemistry Laboratory.
Experiments illustrating principles and methods of physical chemistry are performed. Written reports on the experiments are prepared. (WI) Prerequisites: CHEM 3330 with a grade of "C" or better and CHEM 3410 with a grade of "D" or better. Corequisites: CHEM 3340 with a grade of "D" or better.
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

CHEM 3276. Experimental Biochemistry.
Course introduces biochemistry minors to the fundamental techniques used in modern biochemistry. Experiments use the essential techniques employed in the study of proteins, enzymes and nucleic acids with emphasis on the use of modern instrumentation and the manipulation and analysis of experimental data. Prerequisites: CHEM 3375 or CHEM 4375 either with a grade of "C" or better.
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering|Lab Required
Grade Mode: Standard Letter
CHEM 3290. Advanced Cooperative Education.
This course provides cooperative education students the opportunity to study particular problems in chemistry and biochemistry in an occupational setting. Problems are related to the student's work assignment, culminating in an industrial supervisor's evaluation and the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: Minimum 2.25 Overall GPA and instructor approval.
2 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 3300. Physical Chemistry I.
The course covers principles of thermodynamics and thermochemistry, phase equilibria, electrochemistry and elementary kinetics including rate laws and mechanisms. Prerequisites: CHEM 1142 with a grade of "D" or better and CHEM 1342 and MATH 2472 both with grades of "C" or better.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 3340. Physical Chemistry II.
The course covers kinetics, quantum mechanics, spectroscopy, and other selected topics. Prerequisites: CHEM 3330 and MATH 2472 and PHYS 2425 all with grades of "C" or better.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 3341. Descriptive Inorganic Chemistry.
An analysis of atomic, molecular, and solid state bonding and structure with an emphasis on coordination compounds and bioinorganic chemistry. Representative compounds and reactions of the elements will be surveyed. Prerequisite: CHEM 2342 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Course provides biochemistry majors and minors with a rigorous introduction to biochemistry. Topics include the chemical function and structure of proteins, nucleic acids, lipids and carbohydrates; enzyme mechanisms, kinetics and regulation. Prerequisites: CHEM 2342 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 3380. Analytical Biochemistry.
This course is designed to acquaint the student with the chemical and physical principles of modern biochemical methods. Emphasis is placed upon the application of the methods to current problems in biochemistry and molecular biology and the interpretation of data. Prerequisite: CHEM 3375 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Course introduces biochemistry majors to techniques in analytical and physical biochemistry. Experiments reinforce fundamental concepts and utilize modern instrumentation. Experimental design, interpretation of results, and data reporting will be emphasized. (WI) Prerequisites: CHEM 3375 with a grade of "C" or better. Corequisite: CHEM 3380 with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CHEM 3390. Physical Chemistry for Biochemists.
A study of the theories and laws of physical chemistry as it relates to biochemistry. The topics covered include ideal and real gases, classical thermodynamics, reaction kinetics, phase equilibria, electrochemistry, quantum mechanics, spectroscopy and statistical mechanics. Prerequisite: MATH 2472 with a grade of "C" or better. Corequisite: PHYS 1430 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 3410. Quantitative Analysis.
Course covers the general theory and practice of typical methods of gravimetric and volumetric analysis, satisfies the quantitative analysis requirements for chemistry majors, minors, pre-medical and pharmacy students. Prerequisites: CHEM 1342 with a grade of "C" or better and CHEM 1142 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

CHEM 4231. Advanced Laboratory I.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. (WI) Prerequisites: CHEM 3245 and CHEM 3340 and CHEM 3410 all with grades of "D" or better. Corequisites: CHEM 4331 with a grade of "D" or better.
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter
CHEM 4241. Advanced Laboratory II.
An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of inorganic and organic materials. (WI) Prerequisites: CHEM 4231 and CHEM 4331 both with grades of "D" or better. Corequisite: CHEM 4341 with a grade of "D" or better.
2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

CHEM 4295. Laboratory Development and Practice.
This course develops the laboratory instructional abilities of students seeking either 8-12 Chemistry or 8-12 Physical Science Teaching Certification. Topics include both traditional laboratory techniques and guided inquiry techniques, safety, laboratory management, pedagogical theory and practical knowledge of laboratory experiments. Prerequisite: Minimum 2.5 Overall GPA.
2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

CHEM 4299. Undergraduate Research.
This course is available to undergraduate chemistry or biochemistry majors only. It may be repeated for credit but a maximum of four semester hours from this course are applicable toward advanced chemistry electives. Prerequisite: Instructor approval.
2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

CHEM 4310. Medicinal Chemistry.
This course surveys modern approaches to drug discovery and mechanisms of drug action with the focus on molecular structures of drugs. Examples of drug discovery for the chemotherapy of cancer, microbial and cardiovascular diseases will be examined. Prerequisites: [CHEM 2342 and CHEM 2350] or CHEM 3375 or CHEM 4375 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4312. Organometallic Chemistry.
This course will survey the structure, bonding, and reactivity of organometallic complexes. Homogeneous catalysis of the transition metals as well as the main group elements along with specialized "seminal research papers" in the field of organometallic chemistry will also be presented. Prerequisites: CHEM 2342 and CHEM 3341 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4331. Instrumental Analysis.
The theory and methodology associated with the quantitative analysis of materials, i.e., electronics, spectroscopy, electrochemistry and chromatography are presented. Prerequisite: CHEM 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4333. Spectroscopy.
The study of various spectrometric techniques in qualitative and structural analysis of chemical substances. Prerequisite: CHEM 2342 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4341. Advanced Inorganic Chemistry.
This course will use group theory analysis to predict vibrational spectra and bonding in molecules, including metal complexes. Numerous approaches (acid/base, redox, etc.) will be employed to rationalize the products of inorganic and organometallic reactions. The materials properties of solids and nanomaterials will also be discussed. Prerequisites: CHEM 3340 and CHEM 3341 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4350. Modern Molecular Modeling.
A study of the application of computational techniques to molecular modeling. Topics covered include quantum mechanical modeling, forcefield based molecular modeling, molecular energy minimization, molecular dynamics, vibrational spectra, solution of crystalline structures, diffraction patterns, molecular blends, phase equilibria, crystal morphology, physical property prediction and mesoscale modeling. Prerequisite: CHEM 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4351. Introduction to Polymers.
This course is designed to develop the student's general understanding of polymer history and importance as well as terminology, structure, and synthesis. The overall scope of the course will be to develop the student's general knowledge of polymer synthesis and structure. Prerequisite: CHEM 2342 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
CHEM 4360. Molecular Biology.
This course provides Biochemistry majors and minors with advanced knowledge of the field of molecular biochemistry. Topics include gene expression (transcription and translation of genes in bacteria and higher organisms), post-translational modification of proteins, chromosomal DNA replication, cell cycle checkpoint controls, DNA damage and repair, as well as theories of cancer and aging. Prerequisite: CHEM 3375 or CHEM 3475 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4371. Directed Study.
Independent study on a particular subject area in chemistry or biochemistry. The specific study area, resource material, goals, and achievements will be approved by the instructor. Prerequisites: CHEM 2342 with a grade of "C" or better and instructor approval.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4375. Biochemistry.
Course provides Chemistry majors and minors with an overview of biochemistry topics. Topics include a description of the structure and function of proteins, enzymes, nucleic acids, lipids and carbohydrates. Students may not receive credit for both CHEM 3375 and CHEM 4375. Prerequisites: CHEM 2342 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4375. Biochemistry.
This course provides Biochemistry majors and minors with advanced knowledge of the field of molecular biochemistry. Topics include gene expression (transcription and translation of genes in bacteria and higher organisms), post-translational modification of proteins, chromosomal DNA replication, cell cycle checkpoint controls, DNA damage and repair, as well as theories of cancer and aging. Prerequisite: CHEM 3375 or CHEM 3475 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4382. Advanced Biochemistry Research Laboratory II.
This course is the second of two laboratory courses providing instruction in the modern techniques of biochemistry. Students will perform independent research projects involving isolation, manipulation and characterization of biomolecules. Results of these experiments and the scientific literature investigations will be used to prepare formal written reports and oral presentations. Prerequisite: CHEM 4481 with a grade of "C" or better. (WI).

3 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CHEM 4385. Metabolism.
A study of the biodegradation and biosynthesis of carbohydrates, lipids, amino acids, proteins, and nucleic acids. Prerequisite: CHEM 3375 or CHEM 4375 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CHEM 4390. Supramolecular Chemistry.
This course is designed to be a survey of the nature of non-covalent interactions between host and guest species. Emphasis will be focused on the rational design of hosts, thermodynamic and kinetic parameters involved in binding and the applications of various binding/recognition phenomena. Prerequisite: CHEM 2342 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CHEM 4481. Advanced Biochemistry Lab I.
The first of two laboratory courses providing instruction in the modern techniques of biochemistry. Experiments are performed on the isolation, manipulation and characterization of DNA, RNA and proteins. Students will prepare formal written reports and oral presentations. (WI)
Prerequisites: CHEM 3381 with a grade of "C" or better and CHEM 3380 with a grade of "D" or better.

4 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/). The recommended minor is Biology. Minor and electives should be chosen in consultation with the academic advisor.
4. The minimum number of hours required for this degree program is 120. The number of free elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
5. Nine semester credit hours must be writing intensive (WI).
6. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
7. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
8. Elective credit for CHEM 3190, CHEM 3290, and CHEM 4299 is limited to a total of 4 credit hours.

**Total Hours: 120**

---

1 Certification of the degree as approved by the American Chemical Society requires 4 credit hours of a combination of CHEM 3190, CHEM 3290, or CHEM 4299.

## Minimum required: 120 semester credit hours

### General Requirements

1. **This Bachelor of Science (B.S.) degree with a major in Biochemistry will be certified as approved by the American Chemical Society (ACS).**
   - The ACS approved program provides external validation for the curriculum, faculty and resources in the Department of Chemistry and Biochemistry that will certify to potential employers that the department and curriculum has met certain industry standards, and thus should increase the student’s marketable skills.

2. **The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.**

3. **Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).**

4. **Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/). The recommended minor is Biology. Minor and electives should be chosen in consultation with the academic advisor.**

5. **The minimum number of hours required for this degree program is 120. The number of elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.**

6. **Nine semester credit hours must be writing intensive (WI).**

7. **If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.**

8. **Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.**

9. **Elective credit for CHEM 3190, CHEM 3290, and CHEM 4299 is limited to a total of 4 credit hours.**

**Second Semester Hours**: 14

---

1. Certification of the degree as approved by the American Chemical Society requires 2 credit hours of a combination of CHEM 3190, CHEM 3290, or CHEM 4299.

**Minimum required: 120 semester credit hours**

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/). Minor and electives should be chosen in consultation with the academic advisor.

4. The minimum number of hours required for this degree program is 120. The number of free elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

6. Nine semester credit hours must be writing intensive (WI).

7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

8. Elective credit for CHEM 3190, CHEM 3290, and CHEM 4299 is limited to a total of 4 credit hours.

## Minimum required: 123 semester credit hours

### Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

### General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to this chemistry major and general education core requirements, students must also complete 33 hours in a double major with the Bachelor of Science (B.S.) in Education (Secondary Education Teacher Certification) which includes:

<table>

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
5. Nine credit hours must be writing intensive (WI).
6. To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
8. All students seeking teacher certification must apply for and be admitted to the Educator Preparation Program in order to enroll in education coursework and student teaching in the Junior and Senior years. Refer to the requirements for Admittance to the Educator Preparation Program through the Office of Educator Preparation.

Total Hours: 120

1 Certification of the degree as approved by the American Chemical Society requires 4 credit hours of a combination of CHEM 3190, CHEM 3290, or CHEM 4299.
9. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

10. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Science degree at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Qualified biochemistry majors completing their junior year of biochemistry courses who plan to pursue advanced studies in Biochemistry have the opportunity to complete both a Bachelor of Science and a Master of Science degree with two additional years (including summers) of course work and research in chemistry. Students may be admitted to the M.S. program without entrance qualification exams if they have a 3.00 GPA or higher in all chemistry and biochemistry courses, have completed CHEM 3380, CHEM 3381, and two semesters of CHEM 4299, have taken the Graduate Record Exam, and have been accepted by a graduate thesis advisor. Applicants will be evaluated by the Graduate Evaluation Committee to determine their suitability to enter the program. The application process is the same as for other graduate applicants to The Graduate College. Graduate status is provisional until the B.S. degree is awarded. The B.S. degree will be certified as approved by the American Chemical Society for students completing CHEM 3341 (fall only course) as an advanced elective.

Qualified chemistry majors completing their junior year of chemistry courses who plan to pursue advanced studies in Chemistry have the opportunity to complete both a Bachelor of Science and a Master of Science degree with two additional years (including summers) of course work and research in chemistry. Students may be admitted to the M.S. program without entrance qualification exams if they have a 3.00 GPA or higher in all chemistry courses, have completed CHEM 3245, CHEM 3340 and two semesters of CHEM 4299, have taken the Graduate Record Exam, and have been accepted by a graduate thesis advisor. Applicants will be evaluated by the Graduate Evaluation Committee to determine their suitability to enter the program. The application process is the same as for other graduate applicants to The Graduate College. Graduate status is provisional until the B.S. degree is awarded.

The minor in Biochemistry requires 24 semester credit hours.

www.cs.txst.edu (http://www.cs.txst.edu/)

The mission of the Department of Computer Science is to advance the knowledge of computer science and technology through education, research, and service for the betterment of society.
The Department of Computer Science offers two degree options for students - a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.). The Bachelor of Science in Computer Science degree program is accredited by the Computing Accreditation Commission of ABET, www.abet.org. The department offers courses in computer architecture, data structures and algorithms, automata theory, compilers, operating systems, object-oriented design, computer graphics, computer networks, parallel programming, computer security, software engineering, database design, artificial intelligence, data mining, machine learning, computer vision, human computer interaction, green computing, and several programming languages including C++, Java, Python, and Assembly. Computer Science graduates can further their studies in graduate schools or enter the workforce in fields like software development, hardware engineering, cyber security, UX/UI design, data science, and secondary school teaching.

**Please note:** Students cannot major/minor or double major within the Department of Computer Science.

### Bachelor of Arts (B.A.)
- Major in Computer Science (p. 668)

### Bachelor of Science (B.S.)
- Major in Computer Science (p. 670)
- Major in Computer Science (Computer Engineering Concentration) (p. 672)

### Minor
- Computer Science (p. 673)

### Courses in Computer Science (CS)

**CS 1308. Computer Literacy and the Internet.**
A study of the uses of computers and their effects on society. Text processing, spreadsheets, databases, and Web programming. Does not count for computer science credit towards a minor, a BS, or a BA in computer science.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: COSC 1301

**CS 1319. Fundamentals of Computer Science.**
Provides fundamental knowledge of the six layers of computer science as per the ACM CS0 curriculum. The information, hardware, programming, operating system, applications, and communications layers are presented plus appropriate open computer laboratory exercises. Does not count for computer science credit towards a minor, BS, or BA in computer science.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: COSC 1336

**CS 1428. Foundations of Computer Science I.**
Introductory course for computer science majors, minors and others desiring technical introduction to computer science. Contains overview of history and structure of the digital computer, including binary data representation. Problem solving, algorithm development, structured programming, good coding style, and control structures of C++ are emphasized. Prerequisite: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 520 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: COSC 1437

**CS 2308. Foundations of Computer Science II.**
The course is an introduction to Abstract Data Types (ADTs) including lists, stacks, and queues. Searching and sorting, pointers and dynamic memory allocation, and simple classes and objects also will be covered. The course is a continuation of CS 1428. Prerequisite: CS 1428 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: COSC 2336

**CS 2315. Computer Ethics.**
This course is primarily for computer science majors, focusing on the ethical codes of the professional societies, the philosophical bases of ethical decision-making, and the examination of several contemporary case studies. (WI) Prerequisites: CS 1428 and [COMM 1310 or COMM 2338] and [ENG 1310 or ENG 1320 or ENG 1321 or ENG 3303] and [PHIL 1305 or PHIL 1320] all with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter
CS 2318. Assembly Language.
A course covering assembly language programming, including instruction sets, addressing modes, instruction formats, looping, logic, data representation, subroutines and recursion; and the interface between hardware and software. Prerequisites: CS 2308 and MATH 2358 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: COSC 2325

This course provides instruction on the use of fundamental hardware components. Topics include arithmetic logic units (ALU), single and multiple cycle datapath and control, Reduced Instruction Set Computer (RISC) vs. Complex Instruction Set Computer (CISC), pipelining, caches, Input/Output, virtual memory and related performance issues. Prerequisite: CS 2308 and [CS 2318 or EE 3420] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3190. Cooperative Education.
This course provides cooperative education students the opportunity to study particular problems in computer science in an occupational setting. Problems are related to the student's work assignment, culminating in the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: Minimum 2.25 Overall GPA and instructor approval.
1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 354. Object-Oriented Design and Programming.
The course covers object-oriented design principles and programming for students with prior programming experience. The topics include inheritance and polymorphism, object-oriented design process, UML diagrams, design patterns, exception handling and multithreading. Students will design and implement programs in Java. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3290. Advanced Cooperative Education.
This course provides cooperative education students the opportunity to study particular problems in computer science in an occupational setting. Problems are related to the student's work assignment, culminating in the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: A minimum 2.25 Overall GPA and instructor approval.
2 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3290. Internet Software Development.
A course providing foundations for the construction and design of static and dynamic Web pages with database applications. This will include server-side and client-side software development. Prerequisite: CS 2308 with a grade of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3354. Data Structures and Algorithms.
This is a course that covers classic data structures and the analysis of algorithms. Prerequisites: CS 2308 and MATH 2358 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course covers fundamental concepts underlying the design and implementation of computing systems. It introduces students to problems that reoccur in computing systems and the tools and algorithms used to solve them. Topics include performance evaluation, resource management and scheduling, concurrency and synchronization, and communication and networks. Prerequisite: CS 2318 and CS 3358 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3369. Embedded Computer Systems.
This course studies the architecture of embedded systems, microcontrollers, their peripherals, languages, and operating systems and the special techniques required to use them. Prerequisite: CS 2318 or EE 3420 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
CS 3378. Theory of Automata.
An introduction to automata theory, computability, and formal languages. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3393. Software Testing.
This course introduces basic concepts and techniques for testing software and finding bugs. Topics include test design, test process, unit, integration and system testing, manual and automatic techniques for generation of test inputs and validation of test outputs, and coverage criteria. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

CS 3398. Software Engineering.
The study of software design, implementation, and validation techniques through team projects. Structured analysis, programming style, and project documentation are emphasized in large software projects. (WI) Prerequisite: CS 3354 and CS 3358 and [CS 2315 or EE 2400] all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

CS 4100. Computer Science Internship.
Provides on-the-job training supervised by computer scientists in industry internship programs approved by the department.
1 Credit Hour. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Credit/No Credit

CS 4298. Undergraduate Research I.
Supervised individual research project in a mentor-student relationship with a computer science faculty member. Cannot be given degree credit until the satisfactory completion of CS 4299. Prerequisites: Minimum 3.00 Major GPA and instructor approval.
2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Df Tui- Science & Engineering
Grade Mode: Credit/No Credit

CS 4299. Undergraduate Research II.
Supervised individual research projects in a mentor-student relationship with a computer science faculty member. Prerequisites: CS 4298 with a grade of "C" or better and instructor approval.
2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Df Tui- Science & Engineering
Grade Mode: Standard Letter

CS 4310. Computer Networks.
This course covers the fundamental concepts in the design of computer networks and networking protocols with emphasis on the Internet (TCP/IP) architecture. The covered topics include: protocol layering, media access, internet routing, transport protocols and applications. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

CS 4315. Introduction to Data Mining and Information Retrieval.
This course covers fundamental concepts and techniques in data mining and information retrieval. Data mining topics include classification, cluster analysis and pattern mining. Information retrieval topics include Boolean retrieval, vector space model, and Web search. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

CS 4318. Compiler Construction.
This course investigates theoretical and practical issues in the design and construction of modern compilers. Topics covered include lexical and syntactic analysis, syntax-directed translation, type checking, intermediate representation, code generation, and runtime systems. A major portion of the course involves implementing a compiler from scratch for a C-like programming language. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

Principles and methods in human factors and ergonomics applied to the design and use of computer systems. Prerequisite: CS 3358 with a grade of "C" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

This course covers the principles of operating systems design. The covered topics include: process management, CPU scheduling algorithms, inter-process communication and synchronization, memory management, virtual machines and I/O device management. Prerequisites: CS 3339 and CS 3358 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter
CS 4332. Introduction to Database Systems.
Introduction to database concepts, data models, file structures, query languages, database management systems. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4337. Introduction to Computer Vision.
This course covers fundamental topics of computer vision. Topics include elementary image operations and transformations, template matching, feature extraction, object recognition, classification and tracking, deep learning, camera models and stereo vision, and image searching. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4346. Introduction to Artificial Intelligence.
An introduction to the basic concepts of artificial intelligence; search techniques, knowledge representation, problem solving. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

This course provides systematic introduction to machine learning, covering basic theoretical as well as practical aspects of the use of machine learning methods. Topics include learning theory, learning methods, and recent learning models. Application examples include multimedia information retrieval, text recognition, and computer vision. Prerequisite: CS 3358 and MATH 3305 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4350. Unix Systems Programming.
Fundamentals of Unix operating systems, Unix file system and environment, C memory allocation, development tools, processes and signals, threads, device drivers, and programming for security. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4353. Introduction to Graphical User Interfaces.
This course covers abstract and practical foundations of graphical user interface design, evaluation, and implementation. Students will learn the fundamentals of computer graphics and interactive computer/human interfaces. The course includes a survey of usability measures, the major GUI standards, and GUI tools. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4368. Survey of Computer Languages.
A survey of computer languages. Criteria for choosing languages to be covered include history, important development paradigms and environments, and language implementations. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

Course covers practical aspects of computer system security including managing and producing code for secure systems. Theory, such as cryptography, is introduced as needed. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4372. Introduction to Digital Multimedia.
The course covers concepts, problems and techniques in digital multimedia. Topics include digital representation and data compression of text, speech, audio, natural and synthetic images, and video, as well as multimedia applications, transmission, and standards. In addition, the course introduces perceptual aspects of multimedia signals and sources. Prerequisite: CS 3358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

CS 4379D. Distributed Ledger Systems and Blockchains: Theory and Applications.
This course covers fundamental concepts underlying the design, implementation, research, and applications of Distributed Ledger Technology (DLT) systems (e.g., blockchains). It introduces implementations, applications, and performance evaluation of DLT systems. Topics include cryptographic encryption, security, anonymity, cryptographic data structures, DLT performance evaluation, DLT applications, and current DLT research. Prerequisite: CS 3358 with grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tu- Science & Engineering|Topics
Grade Mode: Standard Letter
CS 4379Q. Introduction to Recommender Systems.
This course covers the basic concepts of recommender systems, including personalityization algorithms, evaluation tools, and user experiences. We will discuss how recommender systems are deployed in e-commerce sites, social networks, and many other online systems. Additionally, we will review current research in the field. Prerequisite: CS 3358 with a grade of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

CS 4379V. Fundamentals of Algorithm Design and Analysis.
This course covers classic algorithms in computer science and their applications, with emphasis on algorithm design, algorithm analysis, and problem formulation. Topics include disjoint sets and union-find algorithms, tree and graph algorithms, sorting algorithms, greedy algorithms, dynamic programming, and string processing algorithms. Prerequisite: CS 3358 with grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

CS 4379Y. Introduction to Green Computing.
Reducing energy consumption of mobile devices, cloud computing platforms, and supercomputers is a paramount but daunting problem. This course covers fundamental concepts and techniques in green computing, including a hardware energy efficiency roadmap; energy efficient software design, resource management, and storage solutions; and green data centers and mobile computing. Prerequisites: CS 3339 and CS 3358 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

CS 4380. Parallel Programming.
This course teaches practical aspects of parallel programming. The covered topics include multi-core processors and shared-memory programming, hardware accelerator programming, and distributed-memory machines and message-passing programming. The students will gain the knowledge and skills needed for developing parallel software by writing programs for a variety of parallel computers. Prerequisite: CS 3339 and CS 3358 both with grades of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 4381. Practical Game Development.
This course teaches practical aspects of computer game design and implementation. Topics include graphics game engines, game physics, AI methods applied to games, and software architectures for computer games. Students will gain knowledge and skills needed for game development via team projects. Prerequisite: CS 3398 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course is a study of the hardware and software used in graphic representation and interpretation of data. Prerequisite: CS 3358 and [MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 or MATH 2472] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CS 4395. Independent Study in Computer Science.
Open to undergraduate students on an independent basis by arrangement with the faculty member concerned. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Credit/No Credit

CS 4398. Software Engineering Project.
Students undertake a software development project. They work in teams, developing requirements and designs which they will implement and test. Prerequisite: CS 3398 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three hours of math/science/logic/computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.

3. For transfer students, 26-32 semester credit hours in computer science (or their equivalents) may be transferred from a Texas public institution of higher education for the Computer Science Field of Study and be applied to the Bachelor of Arts degree with
a major in Computer Science at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. If transferring additional computer science courses please contact the Department of Computer Science for assistance. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

<table>

</tr>
</tbody>
</table>

HON 4390B | Honors Capstone | 3
RES 4399  | Mentored Research and Creative Expression | 3

7. Nine hours of writing intensive (WI) courses are required for graduation.
8. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).
9. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
10. In addition to satisfying the University graduation requirements, students must earn a grade of "C" or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.
11. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.
12. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

Total Hours: 120-121

1. Computer Science students must take eight hours (2 courses) of the Life & Physical Sciences Component Code 030 from:
   - BIO 1330/BIO 1130 & BIO 1331/BIO 1131;
   - PHYS 1315/PHYS 1115 & PHYS 1325/PHYS 1125 or PHYS 2325/PHYS 2125 & PHYS 2326/PHYS 2126;
   - CHEM 1341/HEM 1141, and CHEM 1342/HEM 1142; or
   - GEOL 1410 & GEOL 1420. The eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above. Field of Study requirements of PHYS 1430 and PHYS 2425 will be used to satisfy this requirement.

2. Students may take ENG 3313 instead of ENG 3303. If students take ENG 3313, they will need to complete an additional CORE 010 course.

3. A grade of C or better is required in ENG 3303 or ENG 3313 to satisfy the graduation requirements for the BA in Computer Science.

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.

3. For transfer students, 26-32 semester credit hours in computer science (or their equivalents) may be transferred from a Texas public institution of higher education for the Computer Science Field of Study and be applied to the Bachelor of Science degree with a major in Computer Science at Texas State University. More information about the Field of Study (http://mymychat.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. If transferring additional computer science courses please contact the Department of Computer Science for assistance. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

6. The required courses for this major include 14 of the 20 hours of coursework required for a Mathematics or Applied Mathematics minor. Therefore, this degree plan includes two additional courses needed to complete one of these minors.

7. Nine hours of writing intensive (WI) courses are required for graduation.

8. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

9. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student’s degree audit.

10. Students must complete 43 hours of Computer Science courses, including one CS project course from: CS 4318, CS 4326, CS 4380, or CS 4398.

11. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.

12. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

1. Life & Physical Sciences must be chosen from: BIO 1330/BIO 1130 & BIO 1331/BIO 1131; PHY 1315/PHY 1115 & PHY 1325/PHY 1125 [or PHY 2325/PHY 2125 & PHY 2326/PHY 2126]; CHEM 1341/CHEM 1141 and CHEM 1342/CHEM 1142; or GEOL 1410 & GEOL 1420. Eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHY) as listed above. Field of Study requirements of PHYS 1430 and PHYS 2425 will be used to satisfy this requirement.

2. Students may take ENG 3313 instead of ENG 3303. If students take ENG 3313, they will need to complete an additional CORE 010 course.
**Computer Science Project Course Options**

**Minimum required: 120 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science, computer engineering concentration, and mathematics courses used to satisfy the requirements of the computer science major.

3. For transfer students, 26-32 semester credit hours in computer science (or their equivalents) may be transferred from a Texas public institution of higher education for the Computer Science Field of Study and be applied to the Bachelor of Science degree with a major in Computer Science at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. If transferring additional computer science courses please contact the Department of Computer Science for assistance. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

</table>

**Total** 26-32

4. Students pursuing this B.S. degree program are required to complete 3 hours of technical or scientific writing. A grade of C or higher is required in these hours to satisfy the graduation requirements of the computer science major. Students may select from ENG 3303 or ENG 3313.

5. Nine hours of writing intensive (WI) courses are required for graduation.

6. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

7. The required courses for this major include 14 of the 20 hours of coursework required for a Mathematics or Applied Mathematics minor. Therefore, this degree plan includes two additional courses needed to complete one of these minors.

8. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirements will be added to the student’s degree audit.

9. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.

10. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

11. Students with the Computer Engineering (CE) concentration must complete one CS project course from: CS 4318 or CS 4380. This course cannot also be used to satisfy the CE concentration elective.

12. The concentration in Computer Engineering consists of the following courses:

<table>
<thead>

www.engineering.txstate.edu (http://www.engineering.txstate.edu)

The Bachelor of Science (B.S.) degree with a major in Civil Engineering is designed to provide students with an education that addresses the emerging field of technology-enhanced (Smart) infrastructure, as well as fundamental concepts in environmental, geotechnical, materials, structural, transportation, and water resources engineering. In addition to being capable of designing a range of infrastructure assets, graduates
will have experience with sensor devices, data transmission and storage systems, big data and machine learning methods, predictive modeling, and automated infrastructure management technologies. Further, students will be prepared to take the Fundamentals of Engineering and, later in their professional career, Principles and Practice of Engineering exams. The B.S. major in Civil engineering will seek accreditation in accordance with the process specified by the Engineering Accreditation Commission of ABET (www.abet.org (https://www.abet.org/)).

The Bachelor of Science (B.S.) degree with a major in Electrical Engineering provides students the background that is essential for the conception, design, development, and manufacture of electrical, electronic and information technology products and systems. Students may specialize in the areas of networks and communication systems, micro and nano devices and systems, or computer engineering. Proficiency in mathematics is especially important in Electrical Engineering. The B.S. with a major in Electrical Engineering and the B.S. with a major in Electrical Engineering with Computer Engineering Concentration are both accredited by the Engineering Accreditation Commission of ABET (www.abet.org (http://www.abet.org/)).

The Bachelor of Science (B.S.) degree with a major in Industrial Engineering provides students the background that is essential for improving the productivity, quality, safety, sustainability, and cost effectiveness of all types of systems and processes. Industrial engineers are typically engaged in the areas of quality control, human factors and ergonomics, facilities design, work design, production and operations management, supply chain design or redesign, information technology, manufacturing and service systems optimization, and industrial safety. The B.S. major in Industrial Engineering is accredited by the Engineering Accreditation Commission of ABET (www.abet.org (https://www.abet.org/)).

The Bachelor of Science (B.S.) degree with a major in Manufacturing Engineering is designed to provide students with the mathematics, science, management, engineering, and applications skills needed to become manufacturing engineers. Manufacturing engineering is a broad area that includes the design and development of products, emphasizing their manufacturability. This engineering discipline involves researching and developing the tools, processes, machines, and equipment required for manufacturing. It also includes integrating facilities and systems to produce high-quality products using the most cost-effective manufacturing methods. The degree has a concentration in general manufacturing or mechanical systems. The B.S. major in Manufacturing Engineering is accredited by the Engineering Accreditation Commission of ABET (www.abet.org (https://www.abet.org/)).

The Bachelor of Science (B.S.) degree with a major in Mechanical Engineering is designed to provide students with an education that combines a strong foundation in traditional mechanical engineering principles with a unique education in designing and developing mechanical products and systems that are intelligent, interconnected, and integrated with the virtual world and emerging digital infrastructure. The curriculum will prepare students to apply principles of engineering, basic science, and mathematics to model, analyze, design, and realize thermal and mechanical physical systems, components, or processes. In addition, students will have the necessary background to use modern tools and technologies such as engineering simulation, rapid prototyping, additive manufacturing, sensor systems, robotics, real-time communication, and big data and data analytics. The B.S. major in Mechanical Engineering will seek accreditation in accordance with the process specified by the Engineering Accreditation Commission of ABET (www.abet.org (https://www.abet.org/)).

The Ingram School of Engineering Mission Statement
1. To provide students with an exceptional education in various disciplines of engineering.
2. To establish, through dedicated faculty, a nationally recognized research program, preparing interested students to achieve excellence in graduate studies and research, and
3. To serve the State of Texas and the nation by creating highly skilled, diverse, and motivated professionals capable of technological innovation and dedicated to the improvement of society.

The Ingram School of Engineering Vision Statement
The Ingram School of Engineering will be a nationally recognized institution of higher education, serving students and employers with a complete set of accredited engineering programs supported by a faculty which maintains high standards of teaching, research, and service. To accomplish this vision, we will:

1. Engage undergraduate and graduate students with innovative, multidisciplinary, and nationally recognized funded research programs,
2. Emphasize quality undergraduate and graduate education using a practical, interactive, and contemporary learning environment,
3. Produce first-generation professional college graduates as part of an HSI-designated university; be recognized for exceptional community service; and create tight bonds with alumni who will serve as professional mentors, sponsors, and advisors, and
4. Promote a student-centered culture based on collegiality, scholarship, enthusiasm, integrity, and mutual respect among diverse faculty, staff, and students.

Admissions Requirements

Electrical Engineering
1. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
   • ACT Math score of 24 or higher,
   • SAT Math score of 520 (re-centered) or higher, or
   • credit for one of the following math courses with a grade of “C” or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1317</td>
<td>Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of “C” or higher may declare Electrical Engineering as their major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>

</tr>
</tbody>
</table>
Industrial Engineering

1. In order to declare Industrial Engineering as a major, students must meet one of the following prerequisites:
   - ACT Math score of 24 or higher,
   - SAT Math score of 520 (re-centered) or higher, or
   - credit for one of the following math courses with a grade of "C" or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>
CE 3320. Environmental Engineering.
This course is an introduction to environmental engineering. Topics include treatment of water, wastewater, air pollution, solid waste pollution, and hazardous materials. Standard test procedures for evaluating physical, chemical, and biological treatment processes are introduced. The use of technology to manage treatment processes and facilities will be introduced. Prerequisite: CHEM 1335 and [(BIO 1130 and BIO 1330) or (BIO 1131 and BIO 1331) or GEOL 1410] all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 3330. Soil Mechanics.
This course examines the engineering characteristics of soil. Topics include identification, compaction, shear strength, consolidation, vertical stress, and deformation. Standard laboratory test methods are followed. Advanced data analysis, interpretation, and visualization techniques are presented. Prerequisite: ENGR 3311 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 3331. Infrastructure Foundations.
This course investigates foundation systems which support infrastructure assets. Shallow and deep foundations, piles, footings, mats, and retaining walls may be covered. Foundations are evaluated for consolidation, rate of settlement, stress distribution, elastic settlement, and bearing capacity. Life-cycle management of foundations will be examined. Prerequisite: CE 3330 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 3350. Design of Reinforced Concrete Infrastructure.
This course covers the analysis and design of reinforced concrete infrastructure assets. Topics include columns, beams, one-way slabs, and footings. Students will learn how to read, interpret, and use specifications and design codes. The use of technology to monitor the behavior of a reinforced concrete infrastructure asset will be introduced. Prerequisite: CE 2340 and CE 2350 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 3360. Transportation Planning and Infrastructure.
This course is an introduction to the planning and design of transportation infrastructure assets. Social, economic, safety, and engineering issues impacting transportation are examined. Interactions between users, vehicles, and the infrastructure will be addressed. The expanding use of technology to enhance transportation systems will be examined. Prerequisite: IE 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4100. Civil Engineering Undergraduate Research.
Undergraduate students investigate a special topic in civil engineering by developing a research idea, conducting a literature review, researching the topic, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4200. Civil Engineering Undergraduate Research.
Undergraduate students investigate a special topic in civil engineering by developing a research idea, conducting a literature review, researching the topic, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.
1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4300. Civil Engineering Undergraduate Research.
Undergraduate students investigate a special topic in civil engineering by developing a research idea, conducting a literature review, researching the topic, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.
1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4310. Infrastructure Sensor Technologies.
This course is an advanced study of the sensor technologies available to monitor the performance and behavior of infrastructure assets. Prerequisite: CE 3310 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course examines the issues and processes involved in the transmission of data between sensor devices and data storage centers. Topics include data communication principles, transmission signals, wireless and wired communication systems, security, and examples of best practices. Prerequisite: ENGR 3373 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
CE 4320. Biological Wastewater Management.
This course examines biological treatment processes for domestic and industrial wastewater. The use of sensor technologies to monitor the effectiveness of a treatment option is also addressed. Prerequisite: CE 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4321. Hazardous Waste Management.
This course is a study of best management practices relative to hazardous waste. Topics include contamination processes, site investigations, detection, analysis methods, evaluation methods, and risk management, and treatment protocols. The use of technology to manage the life-cycle performance of contaminated hazardous wastes sites will be studied. Prerequisite: CE 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4322. Air Pollution Management.
This course is an introductory study of air pollution. Topics include sources, quality, meteorological influences, atmospheric dispersion modeling, and control methods. The use of sensor technologies to monitor the effectiveness of an air pollution control option is also addressed. Prerequisite: CE 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4323. Physical and Chemical Treatment of Water.
This course is a study of the physical and chemical processes used to clean water and wastewater. The use of sensors to monitor treatment processes is also addressed. Prerequisite: CE 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4324. Design of Retaining Structures.
This course examines the design of geotechnical structures, such as a retaining wall, that retain soil or another material. The use of technology to manage the life-cycle performance of retaining structures will be studied. Prerequisite: CE 3331 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4350. Design of Prestressed Concrete Infrastructure.
This course covers the analysis and design of prestressed concrete infrastructure assets. Topics include columns, beams, slabs, pipes, and piles. Students will learn how to read, interpret, and use specifications and design codes. The use of technology to monitor the behavior of a prestressed concrete infrastructure asset will be introduced. Prerequisite: CE 3350 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4351. Design of Steel Infrastructure.
This course covers the analysis and design of steel infrastructure assets. Topics include connections, columns, beams, and beam-columns. Students will learn how to read, interpret, and use specifications and design codes. The use of technology to analyze the behavior of steel infrastructure assets will be introduced. Prerequisite: CE 2350 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4360. Intelligent Transportation Systems.
This course is a study of the components, technologies, and infrastructure assets that comprise intelligent transportation systems (ITS). Smart technologies, data acquisition, and communication sub-systems will be examined within the context of personal, commercial, and public transportation. Coverage will include mobility, public safety, socio-economic and environmental factors impacting transportation systems. Prerequisite: CE 3310 and CE 3360 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4361. Highway Engineering.
This course covers alignment, interchange, construction, and maintenance issues related to highways. Topics include cross-sections, horizontal and vertical alignment, sight distance, pavement design, drainage analysis, traffic engineering, highway capacity, and construction materials. The analysis of data obtained from sensing devices during construction or use of a highway is also discussed. Prerequisite: CE 3360 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
CE 4362. Traffic Engineering.
This course is a basic introduction of the components of a highway traffic system and fundamentals of traffic engineering; analysis of traffic stream characteristics, levels of service, and capacity of urban and rural highways; study of warrants for traffic control devices; design and analysis of traffic signals and timing plans; analysis of urban and highway traffic characteristics using simulation software. Prerequisite: CE 3360 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4360. Traffic Engineering.
This course is the second in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course focuses on the completion of all phases of the design project. Prerequisite: CE 3330 with grade of "C" or better. Corequisite: CE 3310 and GEO 4356 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4370. Hydraulics.
This course is an examination of the properties, distribution, and circulation of water. Topics include pipe flow, pipe networks, pumps, and open channel flow. The use of sensors to monitor fluid flow, pressure, and leaks will be addressed. Advanced data analysis and visualization techniques will be presented. Prerequisite: ENGR 3380 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course is an examination of surface and groundwater hydrology. Topics include the hydrologic cycle, groundwater flow, wells, storm water management practices, open channel flow, stream flow measurements, hydrologic routing, modeling, probability, and applications. The use of sensors to monitor hydrologic activity is also addressed. Prerequisite: CE 4370 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4390. Civil Engineering Design I.
This is the first in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course covers the planning, scheduling, budgeting, and management aspects of a technology-enhanced infrastructure design project. (WI) Prerequisite: CE 3330 with grade of "C" or better. Corequisite: CE 3310 and CE 3350 and CE 3360, all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CE 4391. Civil Engineering Design II.
This is the second in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course focuses on the completion of all phases of the design project. Prerequisite: CE 3320 and CE 4390 both with grades of "C" or better. Corequisite: CE 3331 and CE 4370 and GEO 4356 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

This course is an examination of surface and groundwater hydrology. Topics include the hydrologic cycle, groundwater flow, wells, storm water management practices, open channel flow, stream flow measurements, hydrologic routing, modeling, probability, and applications. The use of sensors to monitor hydrologic activity is also addressed. Prerequisite: CE 4370 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4370. Hydraulics.
This course is an examination of the properties, distribution, and circulation of water. Topics include pipe flow, pipe networks, pumps, and open channel flow. The use of sensors to monitor fluid flow, pressure, and leaks will be addressed. Advanced data analysis and visualization techniques will be presented. Prerequisite: ENGR 3380 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course is an examination of surface and groundwater hydrology. Topics include the hydrologic cycle, groundwater flow, wells, storm water management practices, open channel flow, stream flow measurements, hydrologic routing, modeling, probability, and applications. The use of sensors to monitor hydrologic activity is also addressed. Prerequisite: CE 4370 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CE 4390. Civil Engineering Design I.
This is the first in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course covers the planning, scheduling, budgeting, and management aspects of a technology-enhanced infrastructure design project. (WI) Prerequisite: CE 3330 with grade of "C" or better. Corequisite: CE 3310 and CE 3350 and CE 3360, all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CE 4391. Civil Engineering Design II.
This is the second in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course focuses on the completion of all phases of the design project. Prerequisite: CE 3320 and CE 4390 both with grades of "C" or better. Corequisite: CE 3331 and CE 4370 and GEO 4356 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CE 4392. Sustainable Infrastructure.
This course examines the sustainability characteristics of various infrastructure assets. The assets and characteristics examined will be established by the course instructor. Examples include pervious pavements, sustainable construction materials, and sustainability in the design process. The use of technology to manage the life-cycle performance of an asset will be studied. Prerequisite: CE 3331, CE 3350, CE 3360, and ENGR 3380 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Courses in Electrical Engineering (EE)

EE 2400. Circuits I.
This course provides an introduction to the profession of Electrical Engineering and its specialties. Fundamental DC and sinusoidal steady-state circuit analysis techniques include Ohm's law, power, Kirchoff's laws, and Thevenin and Norton equivalent circuits. Prerequisites: MATH 2471 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 2420. Digital Logic.
An introduction to fundamental computer technologies, including Boolean logic design, logic circuits and devices, and basic computer hardware are studied. Laboratories provide hands-on experience with electricity, combinational and sequential digital circuits, and computer hardware. Corequisite: CS 1428 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Lab Required

This course introduces Python programming for engineers. Topics include basics of Python programming, introduction to numerical Python (NumPy), scientific programming using Python (SciPy), data visualization using Matplotlib, data processing using Pandas and introduction to Object Oriented Programming using Python. Prerequisite: CS 1342 or CS 1428 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3340. Electromagnetics.
Topics in this course include wave propagation, Maxwell's equations, transmission lines, wave guides, and antennas. Prerequisite: EE 3400 and MATH 2393 and PHYS 2425 and PHYS 2435 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
EE 3350. Electronics I.
Analysis and design of active device equivalent circuits with emphasis on transistors, switching circuits, and operational amplifiers. Prerequisites: EE 3400 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3355. Solid State Devices.
Semiconductor materials, principles of carrier motion, operating principles and circuit models for diodes, bipolar transistors and field-effect transistors. Introduction to integrated circuits. Prerequisite: EE 3400 and PHYS 2425 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3370. Signals and Systems.
Frequency domain representation of signals and systems and frequency domain concepts for circuit analysis and design. Transfer function and frequency response, Laplace and z-transforms, Fourier series, Fourier transform, and sampling. Prerequisite: EE 3400 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3400. Circuits II.
This course includes a brief review of EE 2400, transient analysis, application of Laplace transforms, Bode plots, and network principles. Materials learning in EE 2400 is extended and applied here. Prerequisites: EE 2400 and MATH 3323 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3420. Microprocessors.
Introduction to microprocessors, principles of operation, assembly language programming, timing analysis, and I/O interfacing. Prerequisites: EE 2420 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3421. Digital Systems Design Using HDL.
This course will cover the design of digital systems using HDL including implementation of custom microprocessor and peripheral architectures. Prerequisite: EE 3420 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course provides the necessary fundamental techniques to analyze and process digital images. It covers principles, concepts, and techniques of digital image processing and computer vision. Prerequisite: EE 3370 and EE 3420 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3431. Introduction to Machine Learning for Engineering Applications.
This course covers an introduction to machine learning focused on deep learning techniques using engineering applications with Python. Topics include model characteristics, neural network theory, classifiers for network and signal processing applications, regression and convolutional modeling for object-detection, time-series and forecasting machine learning models for Smart City concepts. Prerequisite: CS 1428 or CS 1342 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3432. Introduction to Computer-Aided Engineering Simulation on HPC.
This course covers the introductory development of simulations for engineering applications that are solved using High-Performance Computing environments. Topics include programming techniques for multicore processors, processor and memory architecture, computation for dense and sparse linear algebra applications, computational temperature analysis, fluid dynamics, stencil, stochastic algorithms, and other applications. Prerequisite: CS 1428 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3435. Electronics II.
Analysis and design of integrated circuits, feedback, and frequency response. Prerequisites: EE 3350 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 3451. Fundamentals of Electroceramics.
Introduction to binary and ternary phase diagrams, non-centro-symmetric crystal structures and symmetry groups, nonlinear dielectrics (including ferroelectricity, piezoelectricity, pyroelectricity), nonlinear magnetics, oxide wideband gap semiconductors, detectors and sensors, brief introduction to MEMS, radhard electronics, and spintronics technology. Research oriented labs related to materials processing, characterization, fabrication, and testing. Prerequisite: ENGR 2300 with a grade of "C" or better and a minimum 2.25 Overall GPA. Corequisite: EE 3355 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
EE 4352. Introduction to VLSI Design.
Analysis of design of CMOS integrated circuits. Introduction to CAD tools for VLSI design. Prerequisites: EE 3350 and [CS 2420 or EE 2420] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

Key concepts of advanced semiconductor technology including Moore's law, MOSFETs and CMOS, CMOS scaling, high-K gate dielectrics, new channel materials replacing silicon, three dimensional device structures, compound semiconductor MESFET, HEMT, LED, Lasers and solar cells. Prerequisite: EE 3355 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4354. Flexible Electronics.
This course will cover the materials systems, processes, device physics and applications of flexible electronics. The materials range from amorphous and nanocrystalline silicon, organic and polymeric semiconductors to solution cast films of carbon nanotubes. Real device discussions include high speed transistors, photovoltaics, flexible flat-panel displays, medical image sensors, etc. Prerequisites: EE 3350 and EE 3355 and EE 4350 all with grades of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4355. Analog and Mixed Signal Design.
Operational amplifier design applications, feedback, offset, stability, and compensation. Introduction to random signals and noise, discrete time circuitry analog-to-digital converters, and digital-to-analog converters. Prerequisites: EE 3370 and EE 4350 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4356. Power Electronics.
This course provides an introduction to power electronics and the use of such circuits for the control and conversion of electric power. Topics include semiconductor power devices and characteristics, DC-DC and multilevel converters, power inverters, and AC voltage controllers. Prerequisite: EE 4350 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4357. Introduction to Power Systems.
This course introduces the analysis of various elements of power systems, including power generation, transformer action, transmission line modeling, symmetrical components, power factor correction, real and quadrature power calculations, load flow analysis, and economic considerations in operating systems. Prerequisite: EE 3400 or ENGR 3373 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4358. Introduction to Microelectromechanical Systems.
This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4359. Advanced Electronic Materials and Devices.
This course introduces students to modern fabrication techniques, properties, and applications of conventional and emerging electronic materials. Topics include thin film deposition techniques and modern fabrication concepts, heterointerfaces, and structural, electronic, thermal, magnetic, and optical properties of electronic materials. The course includes discussions about practical devices, including solar cells, light-emitting devices, display devices, and emerging flexible electronic devices. Prerequisite: EE 3350 with a grade "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4360. Linear Control Systems.
This course provides an introduction to linear continuous-time and discrete-time automatic control systems. Topics include time and frequency domain modeling and analysis, state variable analysis, feedback, transient and steady state response, stability, and sensitivity. Prerequisite: EE 3370 and MATH 3377 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course covers transmission of signals through linear systems, analog and digital modulation, filtering, and noise. Prerequisites: EE 3370 and IE 3320 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
EE 4372. Communication Networks.
This course covers data communication concepts, protocols, algorithms, 7-layer OSI model, physical media, LAN architecture and components, Ethernet, TCP/IP, and related standards. Prerequisite: EE 3420 with a grade of "C" or better. Corequisite: EE 3370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4374. Introduction to Wireless Communication.
Principles, practice, and system overview of mobile systems. Modulation, demodulation, coding, encoding, and multiple access techniques. Prerequisites: EE 4370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4375. Building a Smart Grid Architecture.
In this course, students will learn the current 20th-century power grid structure and the key elements required to transform it to a 21st-century Smart Grid. Topics include two-way power/data flow to monitor, control, manage and integrate traditional bulk generation and bulk/renewable/distributed generation. Prerequisite: EE 3370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4376. Introduction to Telecommunications.
Fundamentals of telecommunications, telephone networks, switching and transmission systems, circuit and packet switching, cell processing, and queuing theory and applications. Co-requisite: EE 4370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4377. Introduction to Digital Signal Processing.
Discrete systems, convolution, spectral analysis, and FIR and IIR filter design. Prerequisites: EE 3370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4378. Data Compression and Error Control Coding.
Introduction to information theory, information content of messages, entropy and source coding, data compression, channel capacity data translation codes, and fundamentals of error correcting codes. Corequisite: EE 4370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

EE 4390. Electrical Engineering Design I.
This course is a team-based design of a system or component, which will include oral presentations and written reports. (WI) Prerequisites: EE 3420 and EE 3350 and EE 3370 and IE 3320 all with grades of "C" or better. Corequisites: EE 4352 or EE 4356 or EE 4360 or EE 4370 any with a grade of "C" or better.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing
Grade Mode: Standard Letter

EE 4391. Electrical Engineering Design II.
Advanced team-based design of a system or component, which will include oral presentations and written reports. (WI) Prerequisites: EE 4390 with a grade of "C" or better. Corequisite: EE 4352 or EE 4370 either with a grade of "C" or better.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing
Grade Mode: Standard Letter

EE 4392. Microelectronics Manufacturing I.
This course provides an overview of integrated circuit fabrication. This includes crystal growth, wafer preparation, epitaxial growth, oxidation, diffusion, ion-implantation, thin film deposition, lithography, etching, device and circuit formation, packaging, and testing. The laboratory component involves production and testing of a functional semiconductor device. Prerequisite: CHEM 1341 or CHEM 1335 either with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4394. Microelectronics Manufacturing II.
Topics include atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes, e.g. CVD and PVD; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation. Prerequisite: EE 4392 or MFG 4392 either with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4399A. Dynamic Data Acquisition and Analysis.
Methods for acquiring and analyzing dynamic (time-varying) data. Frequency domain analysis, analog-to-digital conversion, windowing, and digital filtering taught in the context of various industrial applications. Prerequisite: EE 3370 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
EE 4399B. Overview of Information Theory and Coding.
Fundamentals of Information Theory, Huffman coding, image encoding techniques, Hamming and BCH error control codes, Reed-Solomon coding, convolutional codes and the Viterbi decoding algorithm.
Prerequisite: EE 3370 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

EE 4399I. Fundamentals of Sound Systems Engineering.
This course provides an introduction to sound systems engineering and its fundamental principles applied in developing audio and sound systems for various industries. This course will develop a theoretical and practical understanding of the fundamentals of sound engineering, including acoustics, audio components, sound processing, and test & measurement. Prerequisite: EE 2420 and EE 3350 and EE 3370 and PHYS 2425 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

Courses in Engineering (ENGR)

This course covers the introduction to computer-aided drafting using CAD software and sketching to generate two- and three-dimensional drawings based on the conventions of engineering graphical communication in the tools and techniques utilized to produce various types of working drawings. Principles of multiview projections, geometric relationships, shape and size description, and pictorial methods are included with emphasis on technical applications and design problem solving.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: ENGR 1304

ENGR 2300. Materials Engineering.
Course topics include structure, properties and behavior of engineering materials including metals, polymers, composites and ceramics. Mechanical, electrical, magnetic, thermal, and optical properties are covered. Prerequisites: [CHEM 1135 or CHEM 1141] and [CHEM 1335 or CHEM 1341] both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 2301. Statics.
This course covers the theory of engineering mechanics. Topics include forces, moments, and couples acting on stationary engineering structures. Additionally, two and three dimensional equilibrium, freebody diagrams, friction, centroids, and centers of gravity are covered. Prerequisite: PHYS 1430 with a grade of "C" or better. Corequisite: MATH 2472 or MATH 2473 either with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: ENGR 2301

ENGR 2302. Dynamics.
This course introduces the fundamentals of kinematics and kinetics of individual particles, systems of particles, and rigid bodies. Topics include the rectilinear, curvilinear, and general motion, Newton's laws of motion, work and energy relationship, principles of impulse and momentum, and application of kinetics and kinematics to the solution of engineering problems. Prerequisite: ENGR 2301 and MATH 2472 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: ENGR 2302

ENGR 3190. Cooperative Education.
This course provides cooperative education students the opportunity to study particular problems in engineering in an occupational setting. Problems are related to the student's work assignment and culminate in an industrial supervisor's evaluation and technical report or presentation. This course may be taken up to three times for a maximum of three credits applying towards the major elective. Prerequisite: A minimum 2.25 Overall GPA and instructor approval.
1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 3290. Advanced Cooperative Education.
This course provides cooperative education students the opportunity to study particular problems in engineering in an occupational setting. Problems are related to the student's work assignment and culminate in an industrial supervisor's evaluation and technical report. This course maybe taken up to 2 times for a maximum of 3 credits applying towards the major elective. Prerequisite: A minimum 2.25 Overall GPA and instructor approval.
2 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
This course covers the principles of the mechanics of materials and includes the following topics: stress and strain; elastic modulus and Poisson's ratio; constitutive equations; torsion; bending; axial, shear and bending moment diagrams; deflection of beams; and stability of columns. Prerequisite: ENGR 3375 or ENGR 2301 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 3315. Engineering Economic Analysis.
Interest formulas, economic equivalence, rate of return analysis, techniques of economic analysis for engineering decisions and an introduction to cost estimation. Prerequisite: MATH 1315 or MATH 2417 or MATH 2471 any with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 3373. Circuits and Devices.
Topics include circuit analysis and network theorems with emphasis on applications of analog and digital electronic devices, transducers, sensors, and electromechanical devices. Prerequisite: PHYS 2425 and [CS 1428 or CS 1342] both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 3380. Fluid Mechanics.
This course is an introduction to fluid motion. Fluid flow, pressure, energy, and momentum are examined. Dimensional analysis is also covered. Sensing devices used to monitor a fluid are discussed. Students will learn to follow standard laboratory procedures, perform data acquisition, conduct data analysis, and visualize test data. Prerequisite: ENGR 2301 and MATH 3323 with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 4299. Engineering Undergraduate Research.
In this course undergraduates investigate a special topic in engineering by developing a research idea, conducting a literature review, researching the topic, writing a technical report, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.
2 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ENGR 4390. Internship.
Supervised on-the-job professional learning experience in engineering and other technical areas. This course provides practical work experience in their particular field of interest.
3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Open to undergraduate students on an independent basis by arrangement with the faculty member concerned.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Courses in Industrial Engineering (IE)

IE 3305. Introduction to Data Analysis.
This course introduces principles and applications of data analysis using Microsoft Excel, Access, VBA, and machine learning. Students will utilize these applications to develop solutions to challenging industrial engineering problems. Emphasis will be placed on computing productivity in a spreadsheet-based setting to develop practical, useful decision support applications to facilitate engineering decisions. Corequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course covers the fundamentals of probability and statistics, including probability distributions, visualization techniques of large-scale datasets, hypothesis testing, and regression modeling. The students will be exposed to traditional engineering applications of statistical modeling, as well as those modern problems encountered in big data analysis. Prerequisites: MATH 2472 or MATH 2473 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 3330. Quality Engineering.
Quality assurance systems, quality costs, statistical quality control, and approaches for engineering quality into products and processes. Prerequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
This course teaches models in operations research including linear programs, the simplex method, duality theory, sensitivity analysis, integer programs, and network flows. The emphasis is in learning to recognize, formulate, solve, and analyze practical industrial problems. The course also teaches commercial mathematical programming languages. Prerequisite: [CS 1428 or CS 1342] and ENGR 3315 and MATH 3377 all with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 3360. Methods Engineering and Ergonomics.
This course is a survey of methods for assessing and improving performance of individuals and groups in organizations. Techniques include various basic industrial engineering tools, work analysis, data acquisition and application, performance evaluation and appraisal, and work measurement procedures. Prerequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 3345. Lean Six Sigma Methodologies.
This course covers the principles and methodologies of Six Sigma and Lean Six Sigma. Emphasis is on the tools and techniques used in Lean Six Sigma projects, including statistical process control, experimental design, project management and Lean tools. Prerequisite: IE 3330 and IE 4310 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course introduces engineering applications of mathematical modeling and computational methods for non-linear programming problems. Prerequisite: IE 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4342. Advanced Linear and Integer Programming.
This course discusses advanced mathematical modeling computational methods for solving linear and integer programming problems in engineering. Additional topics include solution techniques, such as stochastic and dynamic programming, that may also apply for solving non-linear programs, and formulation and solution of decision models arising in manufacturing, service, supply chain, healthcare and electrical systems. Prerequisite: IE 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 3341. Integrated Production Systems.
Basic concepts in the design and control of integrated production systems to include forecasting, inventory models, material requirements planning, scheduling, planning, and shop floor control. Prerequisite: IE 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4350. Supply-Chain Engineering.
The analysis of supply chain problems to include facility location, customer assignment, vehicle routing, inventory management, and the role of information and decision support systems in supply chains. Prerequisite: IE 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 3342. Statistical Design of Experiments.
Statistically designed experiments for engineering applications. Topics include analysis of variance, randomized complete designs, factorial designs, empirical models generated from controlled experiments, and response surfaces. Prerequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4355. Facilities Planning.
Planning, design, and analysis of facilities. Emphasizes the principles and methods used for solving plant layout, facility location, material handling, automation, computer integration, and warehouse operations. Prerequisite: ENGR 3315 and MFGE 2332 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 3343. Reliability Engineering.
Reliability of components and systems, reliability models, life testing, failure analysis, and maintainability. Prerequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4351. Integrated Production Systems.
Basic concepts in the design and control of integrated production systems to include forecasting, inventory models, material requirements planning, scheduling, planning, and shop floor control. Prerequisite: IE 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4352. Supply-Chain Engineering.
The analysis of supply chain problems to include facility location, customer assignment, vehicle routing, inventory management, and the role of information and decision support systems in supply chains. Prerequisite: IE 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4353. Facilities Planning.
Planning, design, and analysis of facilities. Emphasizes the principles and methods used for solving plant layout, facility location, material handling, automation, computer integration, and warehouse operations. Prerequisite: ENGR 3315 and MFGE 2332 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4354. Reliability Engineering.
Reliability of components and systems, reliability models, life testing, failure analysis, and maintainability. Prerequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
IE 4360. Human Factors Design.
This course will emphasize the applications of human factors engineering to systems design. Prerequisites: IE 3360 with a grade of "D" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

This course describes probabilistic models in operations research to include queuing theory, simulation, and Markov chains. Emphasis will be placed on modeling applications to solve problems in industry and computing. Prerequisite: [CS 1428 or CS 1342] and IE 3320 with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4381. Introduction to Systems Engineering.
This course is an introduction to the systems thinking process, systems of systems, and the fundamental considerations associated with the engineering of large-scale systems, or systems engineering. These topics include the system development process, needs analysis, concept exploration, concept definition, engineering design, integration and evaluation, and systems engineering management. Prerequisite: IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

IE 4392. Industrial Engineering Design I.
Student teams apply engineering principles and standards under realistic constraints to develop solutions for industrial problems and/or systems engineering issues. This course is the first part of a two-course sequence and is followed by Industrial Engineering Design II (IE 4393). Prerequisite: IE 3330 and IE 3340 and IE 3360 all with grades of "D" or better. Corequisite: 6 hours from [IE 4310 or IE 4355 or IE 4370] both with grades of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

IE 4393. Industrial Engineering Design II.
Student teams complete implementation of solutions to industrial problems and/or systems engineering issues with realistic constraints. This course is the the second in a two-course sequence, and is continuation of Industrial Engineering Design I (IE 4392). Prerequisite: IE 4392 and 6 hours from [IE 4310 or IE 4355 or IE 4370] all with grades of "D" or better. Corequisite: 6 hours from [IE 4320 or IE 4350 or MFGE 4396] both with grades of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

IE 4399D. Modern Heuristic Optimization Techniques.
Heuristic methods that search beyond local optima such as simulated annealing, tabu search, genetic algorithms, ant-colony systems, and particle swarm. Papers from the literature, problem-specific heuristics, evaluation methods and serial/parallel implementations are discussed. This course is an advanced undergraduate course for students in engineering and related fields. Prerequisite: CS 1428 and IE 3340 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

IE 4399F. Introduction to Data-Intensive Analysis and Simulation.
This course covers the foundational topics in data science and consists of three parts: The first part focuses on data extraction from databases, sensors and social media. The second part reviews data-intensive analysis through statistics and machine learning tools. The third part introduces the concept of farming data using design of experiments methodologies and computer simulation. Prerequisites: IE 3340 and IE 4310 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

IE 4399G. Special Topics in Project Management.
This course provides undergraduate students with solid foundations of project management. Classical, prescriptive and adaptive methodologies are presented. Students will get to know different standards in project management, whereas the main focus will be on those from PMI (Project Management Institute). This course covers all phases of project management and introduces the most relevant tools and techniques to initiate, plan and execute projects in different contexts successfully. In addition to techniques, the "soft" perspective of managing people and their cooperation within projects will be addressed in detail.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

Courses in Mechanical Engineering (ME)
ME 1101. Introduction to Digital Mechanical Engineering Lab.
This lab course introduces students to engineering labs and digital equipment. Topics include instruction in design labs, a brief introduction to computer-aided design (CAD), and digital additive manufacturing and making. Corequisite: ENGR 1304 and ME 1201 both with grades of "C" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
ME 1201. Introduction to Digital Mechanical Engineering.
This course introduces students to mechanical engineering as a discipline and a profession. Topics include instruction in the engineering design process, use of digital sensors, AI, the Internet of Things and the security of sensors in mechanical systems, engineering simulation and application of mathematical and scientific principles to solve practical problems, ethics, and career opportunities. Prerequisite: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 520 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 3112. Mechanical Behavior of Materials Lab.
This laboratory course introduces students to experimental stress analysis techniques and tests used to characterize the mechanical behavior of materials. It also addresses the interpretation of experimental data and comparison of measurements to analytical predictions. The experiments investigate tension, compression, bending, hardness, impact, fracture toughness, cyclic fatigue, creep and relaxation, photoelasticity, and digital image correlation tests. Corequisite: ME 3311 with a grade of "C" or better.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 3115. Smart Instrumentation and Measurement Lab.
In this lab course, students conduct Internet of Things concept experiments for mechanical measurements using digital instrumentation and transducers via wireless digital communication and computer-based data acquisition tools. Lab experiments cover fundamental experimental techniques, operational principles of various digital instruments and transducers, and statistical data analysis techniques. Prerequisite: ENGR 3373 with a grade of "C" or better. Corequisite: ME 3351 with a grade of "C" or better and IE 3320 with a grade of "D" or better.

1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course covers advanced topics in solid mechanics including combined loadings, statically indeterminate loadings, thermal stresses, unsymmetrical bending, stress concentrations, inelastic deformations, stress and strain transformations, plane stress, plane strain, Mohr’s circle, failure criteria, curved beams, and torsion of prismatic bars. Prerequisite: ENGR 3311 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course will apply knowledge of statics, dynamics, mechanics of solids, and engineering materials, to the design and selection of machine elements. Topics include fatigue failure theories, material selection, impact loading, and typical machine elements such as transmission shafts, keys, bearings, gears, springs, and fasteners. Prerequisite: ENGR 2302 and ME 3311 both with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 3330. Engineering Thermodynamics.
This course covers introductory concepts of thermodynamics, energy transfer and general energy analysis, properties of pure substances, ideal gas model, mass and energy analysis of control volumes, first and second laws of thermodynamics, entropy, power cycles, and refrigeration cycles. Prerequisite: CHEM 1135 and CHEM 1335 and MATH 2472 all with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 3331. Heat Transfer.
This course covers introductory concepts of heat transfer, steady-state and transient conduction in one- and two-dimensions, external forced convection, internal forced convection, natural convection, heat exchangers, and fundamentals of radiation. Prerequisite: ME 3335 and MATH 3323 both with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course is an introduction to fluid mechanics, fluid properties, fluid statics, fluid dynamics, control volume analysis, differential analysis of fluid flow, dimensional analysis, viscous flow in pipes, external flows, and open channel flows. Prerequisite: ENGR 2302 and MATH 2393 and ME 3330 all with grades of "C" or better. Corequisite: MATH 3323 with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
ME 3351. Smart Instrumentation and Measurement.
This course covers basic concepts and principles of instrumentation and measurement systems, analog and digital devices, basic electronics, sensors and transducers, introduction to the Internet of Things (IoT) and big data, cybersecurity of IoT devices, wireless digital network and communication, probability and statistics to characterize measurement uncertainty, data acquisition and analysis using software packages, and measurements of physical properties such as temperature, pressure, and strain. Prerequisite: ENGR 3373 with a grade of "C" or better. Corequisite: ME 3151 with a grade of "C" or better and IE 3320 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course provides an in-depth study of Computer Aided Design (CAD) and Digital Manufacturing. Topics include the product development process, CAD file formats and data exchange, fundamentals of Computer Numerical Control (CNC) machines, numerical control programming for milling processes, CNC code generation and simulation by CAD/CAM software, and an overview of other digital manufacturing processes such as additive manufacturing, laser cutting, welding, and waterjet cutting. In the lab, students get hands-on experience in reading CAD drawing standards, lab safety, machine tools operation, and operation of digital manufacturing processes, including CNC machining, additive manufacturing, and laser cutting. (WI) Prerequisite: ENGR 1304 and ENGR 2300 and ME 1101 all with grades of "C" or better. Corequisite: MATH 2471 with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

ME 4131. Fluids/Thermal Lab.
This laboratory course is designed for students to conduct experiments based on various principles of fluid mechanics, thermodynamics, and heat transfer. Students need to use proper experimental methods and interpret data using these principles and uncertainty analysis. Prerequisite: ME 3151 and ME 3331 and ME 3351 all with grades of "C" or better. Corequisite: ME 4390 with a grade of "C" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

This course focuses on the elastic properties of a wide range of composites, including unidirectional and multidirectional laminates, particulate and fiber-reinforced composites, invariant properties of an orthotropic lamina, classical laminate theory, strength of laminates, and use of general purpose computer codes for classical laminate theory. Prerequisite: [MATH 3376 or MATH 3383] and ME 3314 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 4332. Modern Heating, Ventilating, and Air Conditioning.
This course focuses on current and upcoming practices in heating, ventilating, and air conditioning (HVAC), including psychrometrics, standards, ventilation requirements, load estimates, filtration, air sterilization, and building energy system design, simulation, and control. Prerequisite: ME 3331 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 4341. Computational Fluid Dynamics.
This course introduces the scientific principles and practical engineering applications of Computational Fluid Dynamics (CFD). Although it provides a brief overview of the fundamental mathematics governing fluid flow and heat transfer phenomena, its emphasis is to apply the knowledge using commercial CFD software. Additional topics include set-up of appropriate CFD parameters, conduct of steady-state and transient fluid flow simulations, solutions for both isothermal and non-isothermal thermo-fluid applications, solutions for both incompressible and compressible fluid flow applications, solutions for fluid flow through porous media and rotating machinery, and extraction of the required results including plots. Prerequisite: MATH 3323 and [MATH 3376 or MATH 3383] and ME 3335 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 4351. Control Systems.
This course covers introductory concepts of linear control systems. Topics include mathematical modeling of physical systems, Laplace transform, transfer function, modeling and analysis in state space, transient and steady state responses, root locus and stability, control systems in time and frequency domains, Bode plot, and design of PID controllers. Prerequisite: ENGR 2302 and MATH 3323 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
ME 4355. Autonomous Systems and Robotics.
This course introduces different types of autonomous systems, such as autonomous driving vehicles, drones, and robots. It provides an introduction to the methods and algorithms used in the design, construction, and operation of such systems. The emphasis is on the application of autonomous systems, their components, and their underlying control algorithms, including sensor fusion, real-time decision-making and learning, information processing, path planning, localization, and intelligent control. Prerequisite: ENGR 2302 and IE 3320 and [MATH 3376 or MATH 3383] and ME 4351 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 4390. Mechanical Engineering Design I.
This course is the first of a two-course sequence involving integrated design and development of products and processes, the impact of ethical issues on design, the discussion of real-world engineering problems and emerging engineering issues with practicing engineers, preparation of reports indicating use of appropriate engineering standards and multiple constraints, plans and specifications, cost estimation, project management, and communication. (WI) Prerequisite: ME 3331 and ME 3314 and ME 3361 all with grades of "C" or better. Corequisite: ME 4131 with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 4391. Mechanical Engineering Design II.
This course is the second of a two course sequence involving implementation of Integrated design and development of products and processes; impact of ethical issues; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports indicating use of appropriate engineering standards and multiple constraints, plans and specifications; cost estimation; project management; and communication. Prerequisite: ME 4131 and ME 4390 both with grades of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

ME 5310. Continuum Mechanics.
This course provides an introduction to continuum mechanics. Topics include indicial notation, tensor algebra, tensor calculus, curvilinear coordinates, kinematics of a continuum, strain, stress, constitutive models, field equations governing continuous media, and applications to problems in solid and fluid mechanics.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

ME 5312. Stress Analysis of Composite Materials.
This course covers the mechanical analysis of continuous-fiber-polymer-matrix laminated composites. Topics include fabrication and testing of composite materials, lamimation theory, micromechanics, design analysis and computerized implementation, environmentally induced stresses, and failure theories for composites.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Courses in Manufacturing Engineering (MFGE)

MFGE 2132. Manufacturing Lab 1: Manufacturing Process and Digital Engineering.
In this lab, students get hands-on experience in reading CAD drawing standards, lab safety, machine tools operation, welding, plastics and composites manufacturing, mechanical testing, and the use of Excel spreadsheets and functions in solving practical problems. Corequisite: MFGE 2332 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MFGE 2332. Material Selection and Manufacturing Processes.
This course provides an overview of material processing, material selection, and process parameter determination. Processes covered include material removal, forming, casting, polymer processing, semiconductor manufacturing, and assembly. Corequisite: ENGR 2300 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

In this lab, student conduct hands-on experiments on digital manufacturing processes including 2D and 3D CNC machining, additive manufacturing, laser cutting, and waterjet cutting. Corequisite: MFGE 3316 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
This course introduces Computer Aided Design and Manufacturing (CAD/CAM), design process, description of wireframe, surface, and solid models, transformation and manipulation of objects, data exchange, process planning, and machine elements. Topics include fundamentals of computer numerical control (CNC) programming for turning and milling processes, fundamentals of Computer Aided Design and Manufacturing (CAD/CAM) systems, and CNC code generation by CAD/CAM software for 2D and 3D operations on CNC machines. Prerequisites: ENGR 1304 and ENGR 2300 and MFGE 2332 with grades of "D" or better. Corequisites: MATH 2471 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

In this lab, students conducting hands-on experiments on intelligent robotics, control system and instrumentation including industrial robot applications, PLC control systems, PID control systems, sensors and devices Prerequisite: ENGR 3373 with a grade of "D" or better. Corequisite: MFGE 4376 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MFGE 4315. Energy and Thermofluids Engineering.
This course covers core engineering concepts of energy and thermofluids based on fluid mechanics, thermodynamics, and heat transfer. The main topics include properties of pure substances, fluid statics and dynamics, differential analysis of fluid flow, viscous flow in pipes, external flows, open channel flows, mass and energy analysis of control volumes, first and second laws of thermodynamics, steady-state and transient conduction, internal and external forced convection, natural convection, and fundamentals of radiation. Prerequisite: MATH 3323 and PHYS 2425 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MFGE 4318. Additive Manufacturing.
In this course CAD standards, development of additive manufacturing technology, photopolymerization, powder bed fusion, extrusion-based systems, printing processes, sheet lamination processes, beam deposition processes, design for additive manufacturing, and safety considerations in a hands-on approach will be explained. The concept learned from this course will help students manage large systems or complex infrastructures in a more efficient and sustainable way. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course will cover the general procedures in designing various machine elements. These elements include shafts and flexible elements, springs, welded/riveted/brazed joints, screw fasteners, rolling/sliding contact bearings, gears, cams, and followers. Emphasis will be placed on using standard design practices. Prerequisite: ENGR 3311 or TECH 2351 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MFGE 4357. Dynamics of Machinery.
This course will cover kinematics and kinetics of rigid bodies in two and three dimensions; application of dynamics to the analysis and design of machine and mechanical components; mechanical vibrations; linkages; gear trains; and balancing of machines. Prerequisite: [ENGR 2301 or ENGR 3375] and MATH 3323 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Integrated design and development of products and processes; impact of ethical issues on design; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports; plans or specifications; cost estimation; project management, communication and the fabrication of an engineered product/system. (WI) Prerequisites: ENGR 3311 and MFGE 4365 both with grades of "D" or better. Corequisites: IE 3330 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

MFGE 4365. Tool Design.
Design of single and multi-point cutting tools, jig and fixture design, gage design, and the design of tooling for polymer processing and sheet metal fabrication. Laboratory projects will involve the use of computer aided design and rapid prototyping. Prerequisite: MFGE 3316 or TECH 2310 either with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
MFGE 4367. Polymer Properties and Processing. 
Structure, physical & mechanical properties, design considerations and processing methods for polymer-based materials are presented. Processing methods include: injection molding, blow molding, thermoforming, compression molding, extrusion, filament winding, lay-up methods, vacuum bag molding and poltrusion. Prerequisite: MFGE 2332 or TECH 4362 or ME 3361 any with a grade of "D" or better. 
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Dif Tui- Science & Engineering 
Grade Mode: Standard Letter

MFGE 4376. Control Systems and Instrumentation. 
The theory of automated control systems and their applications to manufacturing systems are covered in this course. Topics include modeling of systems, time and frequency domain feedback control systems, stability analysis, transducer and sensor technology, and digital control. Prerequisite: ENGR 2300 and PHYS 1430 and [EE 3370 or MFGE 2332 or TECH 4362] all with grades of "D" or better. Corequisite: MATH 3323 with a grade of "D" or better. 
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering 
Grade Mode: Standard Letter

MFGE 4377. Introduction to Polymer Nanocomposites. 
This course introduces reinforced polymer nanocomposites, focusing on materials, manufacturing, characterization, and applications. Topics include primarily nanoclay polymer matrix composites. The course will emphasize challenges in low-cost manufacturing for industrial applications, commercial successes, and impact on current and future materials market. Prerequisite: Instructor approval. 
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Dif Tui- Science & Engineering 
Grade Mode: Standard Letter

MFGE 4378. Introduction to Industrial Robotics. 
This course covers the basic principles and techniques involved in industrial robotics. Emphasis is on industrial robot applications, analysis of robot manipulators, components of industrial robots, robot programming and control. Prerequisite: MFGE 4376 or [ME 3351 and ME 3151] with a grade of "D" or better. 
3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.  
Course Attribute(s): Dif Tui- Science & Engineering 
Grade Mode: Standard Letter

MFGE 4390. Manufacturing Engineering Design I. 
This course is the first of a two course sequence involving integrated design and development of products and processes; impact of ethical issues on design; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports, plans and specifications; cost estimation; project management; and communication. Prerequisites: ENGR 3311 and MFGE 4365 both with grades of "D" or better. Corequisite: IE 3330 with a grade of "D" or better. 
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive 
Grade Mode: Standard Letter

MFGE 4391. Manufacturing Engineering Design II. 
This course is the second of a two course sequence involving implementation of integrated design and development of products and processes; impact of ethical issues; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports, plans and specifications; cost estimation; project management; and communication. Prerequisites: IE 3330 and MFGE 4390 both with grades of "D" or better. 
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive 
Grade Mode: Standard Letter

MFGE 4392. Microelectronics Manufacturing I. 
This course provides an overview of integrated circuit fabrication including crystal growth, wafer preparation, epitaxial growth, oxidation, diffusion, ion-implantation, thin film deposition, lithography, etching, device and circuit formation, packaging and testing. The laboratory component involves production and testing of a functional semiconductor device. Prerequisites: CHEM 1341 or CHEM 1335 either with a grade of "C" or better. 
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required 
Grade Mode: Standard Letter

MFGE 4394. Microelectronics Manufacturing II. 
This course covers topics including atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes i.e. CVD, PVD; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation. Prerequisite: EE 4392 or MFGE 4392 either with a grade of "C" or better. 
3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering 
Grade Mode: Standard Letter

This course is an overview of computer integrated manufacturing in the digital world. Topics include control strategies for advanced manufacturing, automated testing, distributed manufacturing, automated material handling systems, manufacturing databases and their integration, and man/machine interfaces. (WI) Prerequisites: MFGE 3316 and [CS 1428 or CS 1342] with grades of "D" or better. 
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.  
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive 
Grade Mode: Standard Letter
**MFGE 4396. Manufacturing Systems Design.**
Applications of simulation modeling to the design and analysis of manufacturing systems are presented in this course. Topics covered include queuing theory and discrete event simulation methods. Design projects will involve the use of current simulation language for modeling and analysis of manufacturing systems. (WI) Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**
**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive
**Grade Mode:** Standard Letter

**MFGE 4399C. Introduction to Industrial Robotics.**
This course will cover the basic principles and techniques involved in industrial robotics. Emphasis will be placed on industrial robot applications, analysis of robot manipulators, components of industrial robots, robot programming and control. Prerequisite: MFGE 4376 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**
**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
**Grade Mode:** Standard Letter

---

**Minimum required: 126 semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.

4. No minor is required in this Bachelor of Science degree program because of the breadth of the foundation and support coursework.

5. Nine semester credit hours must be writing intensive (WI).

6. If two years of the same, non-English language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

7. All students in the Civil Engineering degree programs must complete Civil Engineering (CE) course prerequisites with a grade of "C" or higher.

8. For transfer students, 39 semester credit hours in chemistry, engineering, mathematics and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Civil Engineering Field of Study and be applied to the Bachelor of Science degree with a major in Civil Engineering at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**Total Hours: 126**

**Minimum required: 130 semester credit hours**

**Admission Requirements**

1. The Bachelor of Science (B.S.) degree with a major in Electrical Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: [http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext](http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext)

2. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
   - ACT Math score of 24 or higher,
   - SAT Math score of 550 (re-centered) or higher, or
   - credit for one of the following Math courses with a grade of "C" or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following Math courses with a grade of "C" or higher may declare Electrical Engineering as their major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. For transfer students, 30-31 semester credit hours may be transferred from a Texas public institution of higher education for the Electrical Engineering Field of Study and be applied to the Bachelor of Science degree with a major in Electrical Engineering at Texas State University. More information about the Field of Study ([http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/](http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/)) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Total Hours 30
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine semester credit hours must be writing intensive (WI).
5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
6. All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.
7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
8. The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.

</tbody>
</table>

Choose a maximum of 3 hours from the following:

- ENGR 3190 Cooperative Education
- ENGR 3290 Advanced Cooperative Education

### Minimum required: 131 semester credit hours

### Admission Requirements

1. The Bachelor of Science (B.S.) degree with a major in Electrical Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: [http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext](http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext)

2. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:

   - ACT Math score of 24 or higher,
   - SAT Math score of 550 (re-centered) or higher, or
   - credit for one of the following Math courses with a grade of "C" or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1315</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1317</td>
<td>Plane Trigonometry</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1319</td>
<td>Mathematics for Business and Economics I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1329</td>
<td>Mathematics for Business and Economics II</td>
<td>3</td>
</tr>
</tbody>
</table>

3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following Math courses with a grade of "C" or higher may declare Electrical Engineering as their major.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>

Minimum required: 126 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
4. Nine semester credit hours must be writing intensive (WI).
5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the
absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. The Manufacturing Engineering degree programs include all the courses required for an Applied Mathematics minor.

1. A minimum of six (6) hours of advanced Manufacturing Engineering electives chosen from the list below are required.
The mission of the Department of Engineering Technology is to prepare students for technical/professional careers in industry and education. The mission is accomplished through a dedicated faculty offering programs in specialized areas with a formal, technical focus. Upon graduation, students are prepared to assume positions of professional responsibility in the areas of manufacturing, construction, concrete industry management, computer aided technologies, electronics, and education. Sixteen well-equipped technical laboratories serve to educate students in the techniques and processes used by contemporary world class industries.

The Bachelor of Science major in Concrete Industry Management

The Bachelor of Science (B.S.) degree with a major in Concrete Industry Management (CIM) prepares students who are grounded in basic construction management, knowledgeable in concrete technology and techniques and able to manage people and systems to promote products and devices related to the concrete industry. CIM professionals find a wide array of opportunities in the concrete industry including positions in sales, operations, technical services and construction management. The Concrete Industry Management program at Texas State University is accredited by the Association of Technology, Management, and Applied Engineering (ATMAE).

The Bachelor of Science major in Construction Science and Management

The Bachelor of Science (B.S.) degree with a major in Construction Science and Management (CSM) prepares students to enter professional careers in the construction industry. To meet the growing demands of industry, students may choose a residential or a commercial construction concentration. Graduates may become construction project managers, estimators, schedulers, field engineers, virtual design and construction (VDC) specialists, general and/or subcontractors, code inspectors, material suppliers and technical sales representatives. Students learn the technical aspects of how construction projects are built through classes in residential, commercial, and heavy civil/highway. They also learn how to manage construction through the required business administration minor and the major courses in estimating, scheduling and project management. Career opportunities are many in this industry, with total national construction spending over $1.34 trillion in 2019. Students entering this degree need to successfully complete the Pre-Construction Curriculum before they will be allowed to register for advanced Construction Science and Management courses. Also, an internship is required, where students spend 400 hours over 10 weeks working in the construction industry. Students interested in pursuing the Construction Science and Management degree program can receive more information on the major by contacting a CSM Faculty Advisor. This degree program is accredited by the American Council for Construction Education (ACCE).

Admissions Requirements

Construction Science and Management

1. Construction Science and Management majors must complete 30 semester credit hours of Pre-Construction coursework, which will consist of:

<table>
<thead>
<tr>

Total Hours 30

2. When a student completes their Pre-Construction coursework, with the required GPA, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major" in the Construction Science and Management program.
3. After completing the Pre-Construction coursework, students will be allowed to enter the Bachelor of Science major in Construction Science and Management, and will be allowed to enroll in the following Construction classes:

<table>

**Bachelor of Science (B.S.)**

- Major in Concrete Industry Management (p. 711)
- Major in Construction Science and Management (p. 713)
- Major in Construction Science and Management (Residential Construction Concentration) (p. 715)
- Major in Engineering Technology (Civil Engineering Technology Concentration) (p. 717)
- Major in Engineering Technology (Electrical Engineering Technology Concentration) (p. 718)
- Major in Engineering Technology (Environmental Engineering Technology Concentration) (p. 720)
- Major in Engineering Technology (Manufacturing Engineering Technology Concentration) (p. 721)
- Major in Engineering Technology (Mechanical Engineering Technology Concentration) (p. 722)

**Minor**

- Technology (p. 723)

Subjects in this department include: CIM (p. 704), CSM (p. 705), TECH (p. 708).

**Courses in Concrete Industry Management (CIM)**

**CIM 3330. Concrete Construction Methods.**
This course covers forming, shoring, placing and reinforcing operations. Transporting, placing, consolidating, finishing, jointing and curing concrete for cast-in-place foundations, pavements, slabs on ground, structural frames, and other structural members are studied. Other topics include waterproofing concrete foundations and erecting precast concrete members. Corequisite: CIM 3420 with a grade of “C” or better. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 3340. Understanding the Concrete Construction System.**
This course provides a detailed look at how the concrete construction industry works. The course includes a review of model building codes, building officials and their functions, concrete industry codes and standards, concrete construction processes, quality assurance systems, contract documents, estimating, construction scheduling and concrete construction markets. Corequisite: CIM 4320 with a grade of “C” or better. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 3366. Applications of Concrete in Construction.**
This course is a detailed study of the many uses of concrete in the construction of buildings, pavements and other facilities. Emphasis will be placed on the advantages, disadvantages, and unique problems faced by materials suppliers, contractors and design professionals when concrete is chosen for specific applications. Prerequisite: CIM 3330 with a grade of “C” or better. 3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 3420. Fundamentals of Concrete: Properties and Testing.**
This course examines effects of concrete-making materials (aggregates, cements, admixtures, etc.) on the properties of fresh and hardened concrete. Concrete mixture proportioning calculations and statistical analysis of strength tests are also studied. Prerequisite: CHEM 1335 and MATH 2328 both with grades of “C” or better.

4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter
CIM 4299. Capstone II.
This course is a continuation of CIM 4398; students continue developing a business plan with increased emphasis on the technical and financial aspects of the concrete industry, building upon previous coursework. The final presentation will be made to an industry panel. A portion of the course is a seminar with guest speakers from the concrete industry. Prerequisite: CIM 4398 with a grade of "D" or better.
2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CIM 4310. Senior Concrete Lab.
This course provides students with an opportunity to further develop their technical and laboratory knowledge and pursue a project of individual interest. A formal report/presentation will be required at the conclusion of the course. Prerequisites: CIM 3366 and CIM 3420 both with grades of "C" or better.
3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CIM 4330. Management of Concrete Products – Ordering and Scheduling.
This course is designed to provide the student with a basic understanding of managing the ordering and delivery process common to all concrete products. Emphasis will be in planning, organizing and controlling at both the first-line supervisory and managerial levels. Prerequisite: CIM 3340 with grade of "C" or better. Corequisite: MGT 3303 with grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CIM 4340. Concrete Problems: Diagnosis, Prevention and Dispute Resolution.
Course involves diagnosing/preventing problems related to concrete production, testing, construction and performance. Students learn to identify causes of fresh and hardened concrete problems, i.e. fast and slow setting, air content variations, low strength, cracking and scaling. Pre-job conferences and dispute resolution methods are examined. Prerequisite: CIM 3366 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CIM 4398. Capstone.
This course covers the business aspects of the concrete industry with appropriate application to the student’s career interests and builds upon the technical and practical industry components learned in previous courses. The final project will be presented to an industry committee. (WI) Prerequisites: ACC 2362 with a grade of "D" or better and CIM 4330 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CIM 4499. Capstone II.
A continuation of CIM 4398, students continue developing a business plan with emphasis on the technical aspects of the concrete industry, building upon previous coursework. The final presentation will be made to an industry panel. A portion of the course is a seminar with guest speakers from the concrete industry. Prerequisite: CIM 4398 with a grade of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

Courses in Construction Science and Management (CSM)

CSM 1260. Introduction to the Construction and Concrete Industry.
This is an introductory course for Construction and Concrete Industry Management (CIM) majors. Residential, commercial, heavy, civil and highway construction is explored including the concrete industry. The role of the contractor, architect/engineer and owner are covered including contracts, careers, sustainability and economic importance of the construction industry.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 1360. Introduction to the Construction Industry.
This is an introductory course to the Construction and Concrete Industry. Major construction sectors are explored including: Residential, Building Construction; Heavy, Civil and Highway; and Industrial and Offshore, along with common construction materials used in the industry. The role of the Construction Owner, Architect/Engineer and Constructor are covered in addition to Contracts, Construction Documents, sustainability, and the economic and historical importance of the Construction Industry. Degree requirements, course sequencing and Construction Careers are also covered.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 2160. Introduction to Construction Surveying and Site Layout.
Common construction surveying and site layout techniques are studied using both optical levels and total stations. Benchmarks, building lines, property lines, differential and profiling are discussed in lecture with applied exercises performed in the laboratory.
1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
CSM 2262. Construction Lab.
This lab provides hands-on experience for students to apply technical construction processes, equipment safety, and teamwork by building components using industry-standard materials and equipment. Practical application of techniques used in residential and commercial construction will be performed, as well as the use of innovative technology associated with the Virtual Design & Construction (VDC) movement in the industry.
2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 2313. Architecture Design I - Construction Documents.
Students are introduced to the language and process of producing architectural construction documents in residential projects utilizing computers and CAD software. Site plans, floor plans, sections, elevations, and details are drawn individually and as a team as orthographic projection theory and its importance in resolving complex building geometry are covered.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 2342. Construction Materials and Processes.
This course will introduce students to various types of construction materials including ceramics, ferrous, non-ferrous, and organic materials used in construction. Their properties, working characteristics and processes used to manufacture and assemble these materials are studied. Laboratory activities are used to reinforce lecture material. Prerequisites: [PHYS 1115 and PHYS 1315] or PHYS 1410 or PHYS 1430 any with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 2360. Residential Construction I: Home Production.
This course deals with the process of constructing a home on an improved lot, including residential plan and specification interpretation, cost centers, profit and overhead, construction phases, subcontractor sequencing, materials, estimating, scheduling, building codes, permits and mechanical, electrical and plumbing home requirements.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 2361. Construction Surveying.
This course covers practical construction surveying and site layout applications for Construction Management. Topics covered include surveying terminology; the use of surveying equipment; grade, distance, and angular measurements; construction site layout and project control; surveying documentation with fieldwork conducted in the laboratory portion of the course. It also covers current technology in surveying equipment and processes.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 3360. Structural Analysis.
This course is a structural engineering fundamentals class to include design loads, reactions, force systems, functions of a structure, and both the analysis and design of determinate structures by classical and modern techniques. Prerequisite: TECH 2351 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This is a commercial building construction systems class that deals with soils, site work, heavy foundations, steel, reinforced concrete and pre-cast structures along with common assemblies. Commercial MEP's are studied along with CSI master format, as-built and shop drawings, schedule of values, AIA documents and appropriate building codes. Corequisite: CSM 2360 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 3363. Heavy, Civil and Highway Construction Systems.
Selection, acquisition and capabilities of heavy construction equipment are presented. Applications of economics to performance characteristics and production of equipment is discussed. Sector-specific construction management methods are covered, including unit price estimating, equipment fleet design, repetitive scheduling and major components of highways, bridges and engineered facilities.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

The properties of subsurface materials and the principles of subsurface construction are studied. Topics include soil classification and testing, soil mechanics, and foundation systems, including site layout, excavation, caissons, piles, slurry wall, slab, and spread footings. Prerequisite: TECH 2351 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
CSM 3367. Mechanical, Electrical and Plumbing Systems.
This course covers typical Mechanical, Electrical and Plumbing (MEPs) systems found in residential and commercial construction along with design and installation methods used to conserve both energy and water in new and remodeled structures.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

CSM 3368. Construction Finance.
This course provides an introduction to financial analysis and financing of construction-related companies and projects. Topics include analysis of financial statements, contractor payment methods, construction loans, and project cost controls. Prerequisite: [ACC 2301 or ACC 2362] and CSM 1260 and MATH 2328 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course will prepare students in the business practices used by residential land developers and home-builders. Technical skills are applied to the work process inside conventional home-building departments and how those collaborating departments and co-workers operate to become an efficient and sustainable new home-building company. Prerequisite: CSM 2360 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Students create individual and group commercial projects which include plans, elevations, sections, details, and 3D drawings utilizing 3D building information modeling (BIM) and other current technologies used in the industry. Structural, mechanical, electrical, plumbing, accessibility, and sustainable building issues are discussed. Prerequisite: CSM 2313 with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

The fundamentals of construction estimating are covered including feasibility, conceptual, square feet, cubic feet, unit in place, preliminary, engineering, range and contractor's detail bid estimates. Plans and specifications are used along with contemporary estimating software to develop estimates commonly used in the construction industry. Prerequisite: CSM 3361 or CIM 3340 both with grades of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

CSM 4364. Construction Project Management and Scheduling.
Concepts of construction management are studied beginning with contract documents through the effective management of manpower, machines, material and money necessary to complete construction projects on time and within budget. Gantt Charts and PERT/CPM schedules are developed, using contemporary software. Prerequisite: CSM 2360 with a grade of "C" or better. Corequisite: CSM 4361 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

CSM 4368. Sustainable & Lean Construction Practices.
This course covers environmentally sustainable and lean management practices in building design and construction. The LEED system will be used to guide the course on sustainable practices, which covers aspects of sustainable sites, water efficiency, energy and atmosphere, materials and resources, indoor environmental quality, and the CAD design process. It will also cover the integration and relationship between lean and sustainable construction. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

CSM 4369. Construction Contracts, Risks, and Ethics.
Legal aspects of design and construction contract documents are presented, including contract formation, interpretation, rights and duties and changes. Legal liabilities are explored in the context of professional ethics for design firms and constructors. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

CSM 4370. Senior Construction Management Capstone.
Students work in groups, preparing a bid proposal based on a real-life construction project involving contract negotiations, construction documents interpretation, estimating, bidding, scheduling, safety, and quality control plans. Emphasis is on developing leadership, team building, and written and oral communication skills. Students will be prepared to sit for the AIC Level 1 Examination after this course. Prerequisites: CSM 4313 and CSM 4361 and CSM 4364 and CSM 4369 and TECH 2190 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
CSM 4370. Residential Capstone.
This is an advanced course in residential construction related to
developing communities and building homes. Students work in groups
to develop proposals to select and develop raw land into buildable lots,
design and schedule site-specific homes, and develop a marketing plan.
Students will be prepared to sit for the AIC Level 1 Examination after
this course. Prerequisite: TECH 2190 and CSM 3369 and CSM 4313 and
CSM 4364 and CSM 4369 all with grades of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

CSM 4380. Construction Safety.
This course is an introduction to the fundamentals of occupational safety
and health for the construction industry. Topics include Occupational
Safety and Health Administration (OSHA) policies and compliance,
governmental regulations, standards, laws, worker's compensation,
record keeping, environmental safety and health hazard identification, the
hierarchy of controls to mitigate hazards, and creation of a written Safety
Management Plan (SMP). (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

Courses in Technology (TECH)

This course provides an introduction to the fundamentals of technical
drawing and the related graphical tools used to communicate engineering
design concepts. The topics include two dimensional graphics,
orthographic projections, geometric dimensioning and tolerancing,
computer-aided graphics, parametric solid modeling, and introduction to
dimensional graphics.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 1363. Manufacturing Processes I.
The course will provide an overview of the manufacturing processes.
Major emphasis is placed on machining theory, setup and tooling. Metal
forming and fabrication procedures are introduced. Joining and assembly
includes welding, mechanical fastening, adhesive bonding and surface
finishing concepts. Laboratory demonstrations and tutorials involve
machining, joining and forming techniques.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

TECH 1393. Manufacturing Processes II.
The course involves the fundamentals of casting and molding processes.
Emphasis is placed on casting terminology, molding sand, molding
processes, pattern making, coremaking and quality control. Ferrous
and non-ferrous alloy composition and casting geometry are explored.
Plastic and composite forming concepts are included. Microelectronic
manufacturing principles and processes are introduced. Prerequisite:
TECH 1363 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 2190. Industrial Internship.
This is a supervised experiential learning course in various technical
disciplines as appropriate to a student's degree program. This work-
integrated learning course helps the student link theory with practice.
Prerequisites: Instructor approval and a minimum 2.25 major GPA.
1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Credit/No Credit

TECH 2310. Introduction to Computer-Aided Design (CAD).
Principles of 3D modeling are introduced in the preparation of drawings
for manufacturing processes. Emphasis includes the parametric
solid modeling of machine elements and geometric dimensioning
and tolerancing. The laboratory component involves production of
engineering drawings and simulations connecting this course to
computer-aided engineering. Prerequisite: ENGR 1313 or TECH 1311
either with a grade of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

TECH 2340. Environmental Technology I.
This course emphasizes the fundamental chemical, biological, ecological
and hydrological principles, and mass and energy balances involved in
solving environmental problems. Specific environmental areas covered
include water, water quality and wastewater treatment. Environmental
regulations and testing as pertinent to water will be covered. Prerequisite:
CHEM 1335 and PHYS 1430 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 2310. Introduction to Computer-Aided Design (CAD).
Principles of 3D modeling are introduced in the preparation of drawings
for manufacturing processes. Emphasis includes the parametric
solid modeling of machine elements and geometric dimensioning
and tolerancing. The laboratory component involves production of
engineering drawings and simulations connecting this course to
computer-aided engineering. Prerequisite: ENGR 1313 or TECH 1311
either with a grade of "C" or better or instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TECH 2344. Power Technology.
This class deals with understanding the basic laws of thermo-dynamics. It probes efficiency and examines energy-converting devices from the inputs, processes, outputs model. Internal combustion engines, electric motors, hydraulic, pneumatic, and gearing systems, and fuel analysis are reviewed from a practical and theoretical perspective. Prerequisites: [MATH 1315 or MATH 1317 or MATH 2417 or MATH 2471] and [(PHYS 1115 and PHYS 1315) or PHYS 1430] all with grades of "C" or better.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Course covers principles of statics and strength of materials to include forces, equilibrium, friction, centroids, and stress/strain relationships, axial stress and deformation, thermal stress and deformation, stress concentrations, factor of safety, torsional stress, beam stresses and combined stress. Prerequisite: [CSM 2342 or ENGR 2300] and [(PHYS 1115 and PHYS 1315) or PHYS 1430] all with grades of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 2370. Electricity/Electronics Fundamentals.
This course covers fundamentals of safety, Ohm’s Law, series, parallel, and series/parallel circuits, meters, relays, DC/AC circuit analysis and basic semiconductors.

3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: ENGR 2305

TECH 3322. Development of Technology.
The role of technology in the development of Western World culture is studied from a technical perspective. Social repercussions resulting from the introduction of foundational technical developments are reviewed. Examples of technical areas examined are agriculture, transportation, manufacturing, engineering, defense, and communications. Readings focus discussions and papers on specific topics and encourage synthesis level understanding. (WI).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

TECH 3344. Applied Thermofluids.
Basic concepts, first and second laws of thermodynamics, thermodynamic properties, heat transfer by conduction, convection and radiation, fluid statics and fluid dynamics are studied. Prerequisite: PHYS 1430 and TECH 2344 both with grades of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

The course provides an in-depth understanding of the lean principles as they apply to manufacturing and service organizations with emphasis on lean tools and concepts such as Value Stream Mapping, 5S, kaizen, waste, takt/cycle time, visual control, six-sigma, mistake proofing, single piece flow, cell design and pull systems. (WI) Prerequisite: TECH 3364 with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 3346. Applied Dynamics.
This course provides the fundamentals of modeling dynamics of mechanical systems, including both particles and rigid bodies, mathematically. Topics covered include basic theory of engineering mechanics, mechanics of rigid bodies, Newton’s Laws, work and energy relationships, principles of impulse and momentum, and the application of kinetics and kinematics to solve engineering problems. Prerequisite: TECH 2351 and MATH 2472 both with grades of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 3347. Facilities Planning and Design.
This project-based course provides students with a practical knowledge of designing efficient facility layout and material handling system. Systematic layout planning (SLP) based on a product and process information is studied in depth. Simulation tools are used for flow analysis. Prerequisites: TECH 2310 with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 3348. Quality Assurance.
This course covers the principles of quality management and control to include basic probability and statistics concepts, control charts for attributes and variables, statistical process control, sampling plans and methods, quality audits, and quality costs. Prerequisite: IE 3320 or MATH 2328 either with a grade of "D" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TECH 3370. Electronics.
This course is a study of the characteristics of basic electronic circuits and their component parts. Course content includes the use of electronic test equipment, inductance, capacitance, reactance, impedance, rectification, switching, amplification, and electronic circuit fabrication. Prerequisite: EE 2400 or TECH 2370 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering\|Lab Required
Grade Mode: Standard Letter

This course deals with basic principles of communication systems. Specific topics include analysis of signals and systems, modulation techniques (digital and analog), analysis of transmitters and receivers, networking, and wireless communication systems.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

TECH 4330. Foundry & Heat Treatment.
The technical aspects of foundry and heat treatment of ferrous and non-ferrous metals are reviewed. Students gain proficiency with interpretation of binary phase diagrams, mathematical modeling of gate and runner systems, micro-structural analysis, process cost evaluation, sand casting, and investment casting. The course includes writing technical reports and conducting experiments. Prerequisites: ENGR 2300 and [ENGR 1313 or ENGR 1304 or TECH 1311] and [MFGE 2332 or TECH 1393 or ME 3361] all with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering\|Lab Required|Writing Intensive
Grade Mode: Standard Letter

TECH 4340. Design for Environment.
This course covers the basic principles of design for environment. Topics covered include: industrial ecology, resource depletion, product design, process design, material selection, energy efficiency, product delivery, use, end of life and life cycle analysis. Prerequisite: TECH 3340 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

Principles of the design of mechanical components; theories of failure; material selection; design of shafts, gears, cams, fasteners, springs and brakes; dynamics; balancing of machinery and vibration control are studied. Prerequisite: TECH 2310 and TECH 2351 both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering
Grade Mode: Standard Letter

TECH 4372. Electronic Devices and Circuits.
This course covers transistor configurations, field effect transistors and circuits, voltage regulation, amplifier feedback principles, operational amplifiers and circuitry, and unijunction transistors and applications. Prerequisites: EE 2400 or TECH 2370 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering\|Lab Required
Grade Mode: Standard Letter

TECH 4373. Control Systems and Instrumentation.
This course is an introduction to modern control systems and instrumentation. Topics covered include transducers, sensors, actuators, instrumentation, open and closed loop control systems, PID controllers, programmable logic controllers and ladder logic, and computer interface software and hardware. Prerequisites: EE 2400 or TECH 2370 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering\|Lab Required
Grade Mode: Standard Letter

TECH 4374. Digital Systems.
Solid state digital electronics from basic concepts to current industrial needs in terms of logic gates (all types), number systems counters (all types), registers (all types), sequential control circuits, and shift register generator. Prerequisite: PHYS 2425 or TECH 2370 either with a grade of "C" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering\|Lab Required
Grade Mode: Standard Letter

TECH 4380. Industrial Safety.
This course introduces the field of industrial safety with emphasis on compliance with Federal and State regulations. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tu- Science & Engineering\|Writing Intensive
Grade Mode: Standard Letter
TECH 4381. Senior Design I.
This course is the first of a two-course sequence involving the application of technical and non-technical skills and knowledge, using a multidisciplinary team-based approach, for solving real-world problems related to product and process development. The topics include systematic product design, requirements analysis, material and process selection, project management, cost estimation, design documentation and presentation, prototyping, fabrication, and design test and verification. Prerequisite: EE 3400 or TECH 3340 or TECH 3370 or TECH 3345 any with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

TECH 4382. Senior Design II.
This course is the second of a two-course sequence involving the application of technical and non-technical skills and knowledge, using a multidisciplinary team-based approach, for solving real-world problems related to product and process development. The topics include systematic product design, requirements analysis, material and process selection, project management, cost estimation, design documentation and presentation, prototyping, fabrication, and design test and verification. Prerequisite: TECH 4381 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 4390. Internship.
Supervised on-the-job professional learning experience in construction, manufacturing, electronics, and other technical areas. This course provides practical work experience in their particular field of interest. Repeatable for credit. (WI) Prerequisites: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Dual Enrollment Permitted|Time Conflicts Permitted|Writing Intensive
Grade Mode: Standard Letter

TECH 4392. Micro and Nano Manufacturing.
This course covers the basic principles of micro and nano manufacturing. Emphasis is placed on the process descriptions, terminology, equipment requirements, and processes for micro and nano systems. Basic physics and process chemistry is combined with control schemes to arrive at overall systems descriptions. Prerequisite: [CHEM 1335 or CHEM 1341] and [PHYS 1325 or PHYS 1420 or PHYS 2425] both with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 4395. Automated Manufacturing Systems I.
This course primarily deals with automation in industrial systems. In particular, this course focuses on automation and control technologies in manufacturing systems at machine and device levels. Included in its structure are areas such as fundamentals of industrial automation, sensors and actuators, numerical control, robotics, and PLC. Prerequisites: TECH 2310 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter

TECH 4396. Automated Manufacturing Systems II.
This course primarily deals with automation, simulation, and digitization in industrial systems. Course topics include discrete-event simulation of manufacturing systems, automated quality control and inspection, automated identification, industrial Internet of Things, automated material handling, automated data acquisition systems, and applied finite element analysis. Prerequisites: TECH 4395 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 4397. Special Problems.
The investigation of a special topic by developing the problem, researching the topic, and presenting the findings as they apply to industry/technology. This course will be applicable to all areas of technology, and must be done only with the approval of the cooperating faculty member and Department Chair. Repeatable for credit with different emphasis. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

TECH 4398. Senior Design.
This course deals with application of technical and non-technical skills and knowledge using a multidisciplinary team-based approach for solving real-world problems related to product and process development. The topics include systematic product design, requirements analysis, project management, cost estimation, documentation and presentation, prototyping, fabrication and concurrent engineering. (WI) Prerequisites: EE 3400 or TECH 3340 or TECH 3370 or TECH 4372 or TECH 4395 any with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this
catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

4. Nine semester credit hours must be writing intensive (WI).

5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

6. A minor in Business Administration is required for this degree program. Courses for the minor in Business Administration are included in the following degree plan.

1. Credit earned successfully through testing of previously earned course credit for MGT 3303 may be substituted for MGT 3301.
2. Credit previously earned for BLAW 2361 may be substituted for BLAW 3301.

Minimum required: 120 semester credit hours

Admission Requirements
1. This degree program requires admission to the university and admission to the program. Information about the program admissions can be found at: http://mycatalog.txstate.edu/undergraduate/science-engineering/technology/#admissionstext
2. Students must complete the following 30 semester credit hours of Pre-Construction coursework:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2328</td>

<tr>
<td>&amp; CHEM 1135</td>
<td>and Engineering Chemistry Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

2. When a student completes the above Pre-Construction coursework, with the required GPA, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major".

General Requirements
1. Students are required to complete the following Pre-Construction Science Management coursework with grades of C or better and a overall GPA (for this set of courses) of 2.50 to be considered for the full major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 2328</td>
<td>Elementary Statistics</td>
<td>3</td>
</tr>
<tr>

1. When a student completes the above Pre-Construction coursework, with the required 2.50 GPA and a "C" or better in all the Pre-Construction coursework, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major".

General Requirements

1. Students are required to complete the following Pre-Construction Science Management coursework with grades of C or better and an overall GPA (for this set of courses) of 2.50 to be considered for the full major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

Component Area Option Codes 090 literature

Total Hours: 120

1 Credit previously earned for BLAW 2361 may be substituted for BLAW 3301.

2 While PHIL 1320 is strongly preferred, the department will allow PHIL 1305 to satisfy this requirement. Other Language, Philosophy, and Culture Component Code 040 courses will not satisfy this requirement.

3 While ECO 2301 is strongly preferred, the department will allow an ECO 2314 course that is assigned component Code 080 to satisfy this requirement. Students who complete ECO 2314 in lieu of ECO 2301 will also need to complete ECO 2315 for the required Business Administration minor.

4 Credit earned successfully through testing of previously earned course credit for MGT 3303 may be substituted for MGT 3301.
3. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

6. Nine semester credit hours must be writing intensive (WI).

7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

8. A minor in Business Administration is required for this degree program. Courses for the minor in Business Administration are included in the following degree plan.

9. No “D” grades received at other institutions will be credited towards the major.

Credit earned successfully through testing of previously earned course credit for MGT 3303 may be substituted for MGT 3301.

Minimum required: 121-122 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

4. Nine semester credit hours must be writing intensive (WI).

5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

Total Hours: 121-122

1. While PHIL 1320 is strongly preferred, the department will allow PHIL 1305 to satisfy this requirement. Other Language, Philosophy, and Culture Component Code 040 courses will not satisfy this requirement.
2. While ECO 2301 is strongly preferred, the department will allow other Social and Behavioral Sciences Component Code 080 courses to satisfy this requirement.
3. Credit earned successfully through testing of previously earned course credit for MGT 3303 may be substituted for MGT 3301.

The minor in Technology requires 18 semester credit hours of Technology courses, of which 9 hours must be advanced. Courses will be determined by conference with a departmental faculty advisor or the Chair of the Department of Engineering Technology.

Mathworks, a center for innovation in mathematics and math education, designs and hosts programs for elementary, middle, and high school students, researches and develops math curriculum, and provides professional development for prospective and practicing teachers. Mathworks received the 2001 Star Award for Closing the Gaps from the Texas Higher Education Coordinating Board and the 2007 Siemens Founders Award.

Centers for Excellence

Mathematics is a fundamental skill required at some minimal level of all educated people and required in-depth in many professions. The teaching objective of our department includes the development of reasoning and computational skills and the preparation of students for careers requiring a significant mathematical background.

Majors

The department offers a Bachelor of Science with a major in Mathematics, a Bachelor of Science with a major in Applied Mathematics, and a Bachelor of Arts with a major in Mathematics. Students majoring in Mathematics can obtain teacher certification in mathematics, grades
7-12, through a double major with a Bachelor of Science in Mathematics Education.

A student majoring in one of the programs offered by the Department of Mathematics who wishes to minor in a different program within the department must take 18 hours of math courses in addition to, and not duplicated by, those courses are taken to satisfy the requirements of the Mathematics or Applied Mathematics Major programs. The 18 additional hours must be taken from the courses listed as electives for the desired minor.

Bachelor of Arts (B.A.)
• Major in Mathematics (p. 729)

Bachelor of Science (B.S.)
• Major in Applied Mathematics (p. 731)
• Major in Mathematics (p. 732)
• Major in Mathematics (Secondary Education; Teacher Certification in Mathematics, Grades Seven through Twelve, with Double Major in B.S. Education) (p. 733)

Minors
• Applied Mathematics (p. 734)
• Mathematics (p. 735)
• Second Teaching Field in Mathematics (Grades 7-12) (p. 735)

Courses in Mathematics (MATH)

MATH 1101. Math Education Intervention.
Students benefit from innovative, research-based approaches for learning mathematics, and this course will deliver supplemental mathematical instruction as one such intervention. Students will be assessed using college readiness indicators or other information to determine individualized approaches. The course is designed for students in 1000 level mathematics courses who feel they would benefit from additional course based support. Prerequisite: Departmental Approval. Corequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1319.
1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Credit/No Credit

MATH 1300. Elementary Algebra.
This course is designed to review and strengthen basic mathematical skills. Topics may include number concepts, computation, elementary algebra, geometry, and mathematical reasoning. The credit earned for this course does not count toward any degree offered at this university.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Developmental/Remedial|Dif Tui- Science & Engineering
Grade Mode: Developmental

MATH 1311. Intermediate Algebra.
This preparatory course for college algebra includes linear equations and inequalities, rational expressions, exponents and radicals, quadratics and word problems. This course is designed for students who've graduated from high school with no more than the minimum mathematics requirements or for students who've been away from mathematics for years. Prerequisites: TSI Assessment Test Score of 345 or more.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1312. College Statistics and Algebra.
Algebra (as used in elementary statistics) is studied, including linear and quadratic equations, inequalities, functions and their graphs, logarithms, systems of equations, and applications of mathematics. Emphasis is made on statistical concepts, such as least squares regression, distributions confidence intervals, & hypothesis testing. This course is not intended to substitute for MATH 1315 as a prerequisite. Prerequisite: College Readiness in Mathematics according to the TSI regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1313. College Algebra.
Course topics include linear and quadratic equations, inequalities, functions, exponentials and logarithms, systems of equations using matrices, applications, and other college algebra topics as time permits. Prerequisite: College Readiness in Mathematics according to the TSI regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

MATH 1314. Survey of Contemporary Mathematics.
This course is a study of the uses of mathematics in society today. Emphasis is on concepts rather than technical details. Prerequisite: College Readiness in Mathematics according to TSI regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

TCCN: MATH 1332
MATH 1317. Plane Trigonometry.
This course covers right triangles, radian and degree measures, trigonometric functions and their graphs, trigonometric identities, including multiple and half-angle identities, inverse trigonometric functions, trigonometric equations, general triangles, and complex numbers. Prerequisite: [MATH 1315 with a grade of "C" or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 1316

MATH 1319. Mathematics for Business and Economics I.
Topics from college algebra and finite mathematics applied to business and economics are covered, including applications of equations and inequalities, simple and compound interest, and annuities. Prerequisite: College Readiness in Mathematics according to the TSI regulations.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 1324

MATH 1329. Mathematics for Business and Economics II.
This course covers topics from finite mathematics and elementary differential calculus applied to business and economics. Prerequisite: [MATH 1315 or MATH 1319 with a grade of "C" or better] or [ACT Mathematics score of 27 or better] or [SAT Math Section score of 600 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 1325

MATH 2311. Principles of Mathematics I.
This course is intended to build and reinforce a foundation in fundamental mathematics concepts and skills for teaching. It includes the conceptual development of the base ten numeration system, the structure and properties of the various number systems and operations, and number theory. All topics are explored with an emphasis on problem-solving and critical thinking. Prerequisite: MATH 1312 or MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 any with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 1350

MATH 2312. Informal Geometry.
As a continuation of MATH 2311, this course builds and reinforces a foundation in fundamental mathematical concepts and skills. It includes the concepts of geometry, measurement, probability, and statistics with an emphasis on geometry and measurement as well as problem-solving and critical thinking. Prerequisite: MATH 2311 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 1351

MATH 2321. Calculus for Life Sciences I.
This course studies exponential, logarithmic, and trigonometric functions and their applications, limits, derivatives, indefinite and definite integrals, and the Fundamental Theorem of Calculus. Applications from the life sciences receive particular emphasis. Prerequisite: [MATH 1315 or MATH 1319 or MATH 1329 or MATH 2417 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 2313

MATH 2328. Elementary Statistics.
This course is an algebra-based introduction to descriptive statistics, the interpretation of data, random sampling, design of experiments, probability, and the Central Limit Theorem. Inferential statistics topics include the foundational concepts for confidence intervals and hypothesis testing for simple experiments. Prerequisite: [MATH 1312 or MATH 1315 or MATH 1319 with a grade of "C" or better] or [MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "D" or better] or [ACT Mathematics score of 24 or better] or [SAT Math Section score of 550 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 1342

MATH 2331. Calculus for Life Science II.
This course is an extension of MATH 2321 and includes techniques and applications of integration, differential equations, probability, and discrete and continuous distributions. Prerequisite: MATH 2321 with a grade of "C" or better or MATH 2471 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
MATH 2358. Discrete Mathematics I.  
This course is a study of discrete mathematical structures commonly encountered in computing hardware and software are studied. Topics include logic, functions, elementary set theory, proof techniques, mathematical induction, numeric sequences, elementary number theory, and graph theory. Prerequisite: [MATH 1315 or MATH 1329 with a grade of "C" or better] or [MATH 2417 or MATH 2471 with a grade of "D" of better].

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 2305

MATH 2393. Calculus III.  
The course topics include vectors and the geometry of space, functions of several variables, vector-valued functions, partial derivatives, extreme values, multiple integrals, vector fields, line and surface integrals, Green's Theorem, Stokes' Theorem, the Divergence Theorem, and applications of the preceding in the sciences. Prerequisite: MATH 2472 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: MATH 2315

MATH 2417. Pre-Calculus Mathematics.  
This course is a survey of functions, trigonometry, analytic geometry, sequences, and series. Students' algebraic skills are reinforced throughout the course. Prerequisites: [MATH 1315 or MATH 1319 with a grade of C or better] or [ACT Mathematics score of 25 or better] or [SAT Mathematics score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2412

MATH 2418. Calculus I.  
This course in differential and integral calculus covers limits and continuity, functions and graphing, derivatives, integrals, and applications of calculus to science, engineering, and other technical fields. Prerequisites: [MATH 2417 with a grade of C or better] or [ACT Mathematics score of 27 or better] or [SAT Math Section score of 600 or better] or [Accuplacer College Mathematics score of 103 or better] or [Compass Trigonometry score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test score of 276 or better].

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2413

MATH 2471. Calculus I.  
This course in differential and integral calculus covers limits and continuity, functions and graphing, derivatives, integrals, and applications of calculus to science, engineering, and other technical fields. Prerequisites: [MATH 2417 with a grade of C or better] or [ACT Mathematics score of 27 or better] or [SAT Math Section score of 600 or better] or [Accuplacer College Mathematics score of 103 or better] or [Compass Trigonometry score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test score of 276 or better].

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Mathematics Core 020|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2413

MATH 2472. Calculus II.  
This course continues the study of differential and integral calculus from MATH 2471. The topics include techniques of integration, improper integrals, parametric equations and polar coordinates, applications of calculus, sequences and series, and an introduction to partial derivatives. (MULP) Prerequisite: MATH 2471 with a grade of "C" or better.

4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Component Area Core 090|Mathematics CAO 092|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: MATH 2414

MATH 2473. Integral Calculus with Multivariables and Series.  
This course is a continuation of differential and integral calculus. Select topics from Calculus II and Calculus III are covered including methods of integration, sequences and series, and introduction to partial derivatives. Prerequisite: MATH 2471 with a grade of "C" or better.

4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Component Area Core 090|Mathematics CAO 092|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3305. Introduction to Probability and Statistics.  
This is a calculus-based probability and statistics course. Topics include probability, conditional probability, discrete and continuous random variables, univariate and multivariate distributions of random variables, mathematical expectations, and moment-generating functions. Prerequisite: MATH 2472 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3306. Introduction to Statistical Methods.  
This is a calculus-based probability and statistics course. Topics include probability, conditional probability, discrete and continuous random variables, univariate and multivariate distributions of random variables, mathematical expectations, and moment-generating functions. Prerequisite: MATH 2472 with a grade of "C" or better; 2.75 overall GPA.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

In this course students seeking teacher certification will study Euclidean Geometry and will be introduced to non-Euclidean Geometries. Dynamic geometry software and historical aspects of geometry will be integrated into the course. This course may not be applied to a minor in mathematics. Prerequisite: MATH 2321 or MATH 2471 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3317. Probability and Statistics.  
This course is a calculus-based probability and statistics course. Topics include probability, conditional probability, discrete and continuous random variables, univariate and multivariate distributions of random variables, mathematical expectations, and moment-generating functions. Prerequisite: MATH 2472 with a grade of "C" or better.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
MATH 3323. Differential Equations.
In this course various methods of solving common types of ordinary differential equations are studied. Students learn the conditions under which solutions to first-order and second-order ordinary differential equations exist and are unique. Applications to science, engineering, and technology receive emphasis throughout the course. Prerequisite: MATH 2472 or MATH 2473 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3325. Number Systems.
In this course, students construct the natural numbers algebraically, establishing the basic vocabulary and proof techniques of abstract algebra and the structural properties of the natural, integral, rational, real, and complex number systems. Corequisite: MATH 2471 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3330. Introduction to Advanced Mathematics.
This course introduces fundamental methods of proof and the core language of modern mathematics. Topics include the theory of sets, logic, relations, functions, the cardinality of sets, and related subjects. Prerequisite: MATH 2471 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

This course provides a broad overview of deterministic operations research techniques. Linear programming, including the simplex method, duality, and sensitivity analysis, will be covered. Further selected topics are integer programming, dynamic programming, scheduling models, game theory, and associated topics. Prerequisite: MATH 2472 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3376. Applied Linear Algebra.
This course covers linear algebra and matrix theory while considering their computational aspects. Topics include a variety of methods for solving systems and related properties. Emphasis is placed on topics useful in civil engineering, applied mathematics, and other disciplines, serving as a preparatory course for the finite element method. Prerequisite: MATH 2472 or MATH 2473 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3377. Linear Algebra.
An introductory course in linear algebra covering systems of linear equations, vector spaces, linear transformations, matrices, and additional topics as time permits. Mathematical proofs are an essential part of this course. Prerequisite: MATH 2472 with a grade of "C" or higher.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3380. Analysis I.
This is a course covering the introduction to the theory of real functions. Topics include limits, continuity, derivatives, and associated topics. Prerequisite: MATH 3330 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3383. Numerical Analysis I.
This course focuses on basic numerical methods in mathematics to solve functional problems in fields such as engineering and applied sciences. This course covers instructions in computer arithmetic, solutions of equations, interpolation, numerical differentiation/integration, and applications to scientific and industrial applications. Prerequisite: MATH 2472 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 3398. Discrete Mathematics II.
This course continues the studies in Discrete Math I, topics include combinatorics, countability and counting arguments, discrete probability, relations, recursion and recurrence, generating functions, algorithms, and growth of functions. Prerequisite: MATH 2358 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4302. Principles of Mathematics II.
Algebraic reasoning and probability with selected topics from quantitative reasoning, measurement, statistics, and geometry are integrated with middle school pedagogical practices such as inquiry-based learning and the use of technology. Appropriate correlated lessons, writing components, and culturally responsive teaching are incorporated. (WI) Prerequisite: MATH 2312 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Df Tui- Science & Engineering Writing Intensive
Grade Mode: Standard Letter
MATH 4303. Capstone Mathematics for Middle School Teachers.
A rigorous, integrated, analytical perspective of mathematical topics; quantitative reasoning, geometry and measurement, probability and statistics, number theory, and algebraic reasoning. This course may not be applied to a mathematics minor. Must be taken before student teaching. Prerequisite: [MATH 2331 or MATH 2472] and MATH 3315 with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Basic concepts underlying algebra, geometry, trigonometry, and calculus are taught from an advanced standpoint, including historical, philosophical, and cultural significance. This course may not be applied to a minor in mathematics. Must be taken before student teaching. Prerequisite: MATH 3315 and [MATH 2331 or MATH 2472] with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4305. Advanced Probability and Statistics.
This mathematical statistics course focuses on statistical inferences and data analysis. Topics include functions of random variables and their distributions, the Central Limit Theorem, point estimators and their properties, concepts and applications of interval estimation of population parameters, and the theory and applications of statistical tests of hypotheses. Prerequisite: MATH 3305 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4306. Fourier Series and Boundary Value Problems.
Advanced solution methods for ordinary differential equations and partial differential equations are studied, focusing on series approximations and Fourier series solutions. Applications of boundary value problems typical of scientific applications are studied. Prerequisite: MATH 3323 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4307. Modern Algebra.
This course covers structures, structure-preserving functions, and other fundamental concepts of modern algebra, emphasizing group theory. Prerequisite: MATH 3330 and [MATH 3325 or MATH 3377] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4311. Introduction to the History of Mathematics.
This course is a survey of the development of major mathematical topics, including geometry, algebra, calculus, and advanced mathematics. Philosophical and cultural aspects will be integrated with the structure, theorems, and applications of mathematics. (WI) Prerequisite: MATH 3315 and [MATH 2331 or MATH 2472] both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

MATH 4315. Analysis II.
A continuation of MATH 3380, this course's topics include differentiation, integration, series, and sequences of functions, and associated topics. Prerequisite: MATH 3380 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4327. Introduction to Complex Analysis and Its Applications.
This course introduces topics in the theory of functions of a complex variable (contour integrals, series, residues of analytic functions, and conformal mappings) with engineering and science applications. These include solving boundary value problems, locating zeros of analytic functions, analyzing two-dimensional heat and fluid flows, and calculating inverse Laplace transforms. Prerequisite: MATH 2393 and MATH 3323 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

MATH 4330. General Topology.
In this course, students study the concepts of convergence, continuity, compactness, connectedness, and fixed points in topological spaces, particularly in metric spaces. Prerequisite: MATH 3330 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course covers selected topics including Laplace transforms, complex variables, advanced calculus for applications, calculus of variations, integral and differential equations, vector analysis, and other topics from applied mathematics. It may be repeated once for credit with a different topic. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
**MATH 4337A. Topological Data Analysis.**
This research-based course introduces students to computational topology and topological data analysis. In addition to studying existing data studies from the recent scientific literature, students will also analyze a data set they have personally chosen. Students will present their progress and results both orally and in writing. Prerequisite: MATH 3377.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics|Writing Intensive

**Grade Mode:** Standard Letter

---

**MATH 4337B. Research in Discrete Mathematics.**
This course is an introduction to creative mathematical activities. It provides an opportunity to perform research in discrete mathematics, as well as to learn how to present mathematical results both orally and in writing. These skills are essential for those students continuing into graduate studies. Prerequisite: Texas State GPA 3.25; MATH 2358.

*Corequisite: MATH 3398.*

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics|Writing Intensive

**Grade Mode:** Standard Letter

---

**MATH 4337C. Numerical Methods for Ordinary Differential Equations.**
This research-based course has students investigate known methods of numerically solving ordinary differential equations (Runge-Kutta, Adams, Predictor-Corrector, etc.). Students will research the effect of variations on these methods by implementing their algorithm modifications in mathematical software and reporting on their results. Prerequisite: MATH 2472 with a grade of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics|Writing Intensive

**Grade Mode:** Standard Letter

---

**MATH 4337D. Topics in Topology and Algebra.**
This course introduces students to modern research methods in topology and algebra. Specific topics will vary based on student interest and input, but the basic concepts and methods of algebraic topology (homology and cohomology groups, homotopy theory), and simplicial methods form the backbone of this course. Prerequisite: MATH 3330 with a grade of "C" or better and a minimum 2.0 Texas State GPA.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

---

**MATH 4337H. Undergraduate Research in Topology and Artificial Neural Networks.**
The course will introduce the mathematics behind Artificial Neural Networks (ANN) with an eye towards applying topology to study ANN's. Topics include general machine learning concepts, feedforward neural networks, the gradient descent algorithm, the universal approximation theorem, convolutional neural networks, topology, and VC dimension. Students will customize a basic artificial neural network written in Python through hands-on projects. Prerequisite: MATH 2471 with a grade of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

---

**MATH 4350. Introduction to Combinatorics.**
This course presents fundamental combinatorial concepts, including standard techniques and methods of proof specific to the field. Topics include advanced counting, generating functions, linear and nonlinear recurrence relations, combinatorial designs. Applications of the topics will be explored as time permits. Prerequisite: MATH 2472 with a grade of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**MATH 4383. Numerical Analysis II.**
This course focuses on various mathematical and computational methods in modeling, analyzing, and simulating scientific and engineering problems. Topics include approximation, optimization, differential equations, scientific computation, and scientific and industrial applications. Prerequisite: MATH 3383 and MATH 3323 both with a grade of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

**MATH 4393. Introduction to Finite Element Methods.**
This course introduces weak formulations of the partial differential equations and the finite element approximation of this weak form. Theory and computations are balanced. Topics include finite element methods for approximating solutions of partial differential equations and related properties. Emphasis topics are in civil engineering, applied mathematics, and related disciplines. Prerequisite: MATH 3376 or MATH 3377 and MATH 3383 both with grades of "C" or better.

*3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.*

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

Minimum required: 120 semester credit hours

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this...
catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) requires three additional hours of English literature, three hours of mathematics, science, logic, or computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete the 1410 and 1420 language courses as prerequisites before attempting the 2310 course.

3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/).

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

Total Hours: 120

1. Even though MATH 2471 is the first required mathematics course, some students will need to take courses numbered below 2471. Credit examinations in MATH 1315, MATH 2417 and MATH 2471 are available.
Studies in Applied Mathematics 3
MATH 4336 Studies in Applied Mathematics 3
MATH 4337A Topological Data Analysis 3
MATH 4337B Research in Discrete Mathematics 3
MATH 4337C Numerical Methods for Ordinary Differential Equations 3
MATH 4337D Topics in Topology and Algebra 3
MATH 4350 Introduction to Combinatorics 3
MATH 4383 Numerical Analysis II 3
MATH 4393 Introduction to Finite Element Methods 3
MATH 4397 Introduction to Complex Analysis and Its Applications 3

Minimum required: 120 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. This degree program is designed to prepare students for secondary teacher certification in Mathematics and requires that students pursue a double major by declaring and completing requirements for both the major in Mathematics and the major in Education. The following courses are required for the major in Education:

<table>
<thead>
<tr>

Total Hours 33

3. To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

6. Nine credit hours must be writing intensive (WI).

7. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

8. All students seeking teacher certification must apply for and be admitted to the Educator Preparation Program in order to enroll in education coursework and student teaching in the Junior and Senior years. Refer to the requirements for Admittance to the Educator Preparation Program through the Office of Educator Preparation (p. 244).

9. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

10. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Science degree with a major in Education at Texas State University. More information about the Field of Study (http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Total Hours  29

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/.

Roy F. Mitte Building Room 3240
T: 512.245.2131 F: 512.245.8233
www.txstate.edu/physics (http://www.txstate.edu/physics/)

Physics, the study of matter and energy, is at the root of every field of natural science and underlies all physical phenomena. The problem-solving skills learned in the study of physics are valuable even if one's career is not in a physics-related field.

The B.S. with a major in Physics provides a rigorous background in physics as a preparation for graduate studies or a career in industry. The B.A. with a major in Physics is for students who want a background in physics but plan to pursue fields of interest other than physics as a life's work. The B.S. with a major in Physics (Astronomy Concentration) provides a rigorous background in physics as well as an overview of modern astronomy as a preparation for work at astronomical observatories or graduate study in astronomy.

Career opportunities for a physics major exist in a wide variety of settings, from teaching in a classroom to basic research in an industrial or government laboratory, as a self-employed consultant, or as a member of a multidisciplinary research team.
Students who enter Texas State needing mathematics at a level below MATH 2417 are urged to attend a summer session to avoid any delay in starting their physics courses.

For more information contact the College of Science and Engineering Advising Center or the departmental advisor for the Department of Physics. For information on engineering technology, electrical engineering, industrial engineering, and manufacturing engineering, see the Ingram School of Engineering and Department of Engineering Technology sections of this catalog.

Teacher Certification
Physics teacher preparation is one of the specialties of the Department of Physics. Through various peer teaching opportunities in the department, students may discover at any point during their undergraduate career that they have an interest in teaching physics at the secondary level (grades 7-12). There are multiple pathways for becoming a physics teacher, and which one is best for a particular student depends partly on the stage of degree progress at which the student identifies their interest. For those who identify a teaching interest early on, the recommended pathway is to pursue a B.S. Major in Physics (Secondary Education; Teacher Certification in Physics/Mathematics, Grades Seven Through Twelve, with Double Major in B.S. Education). This double major is required for any physics student wishing to graduate with a bachelor’s degree and physics teacher certification. Students may choose to add a minor in Advanced Physics if they want to study all of the standard undergraduate physics curriculum that is offered in the regular B.S. Major in Physics. Students who are not pursuing Teacher Certification may not pursue the minor in Advanced Physics. Some students choose to pursue teacher certification after graduation. In any case, the department provides customized, one-on-one advising to each future physics teacher. Students should contact the department’s Faculty Undergraduate Advisor as early as possible if they are interested in pursuing physics teaching.

Courses in Physics (PHYS)

PHYS 1110. Elementary Physics Laboratory.
This course explores and illustrates some of the basic principles covered in PHYS 1310 and PHYS 1320. Corequisite: PHYS 1310 or PHYS 1320 either with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1105

PHYS 1115. General Physics I Laboratory.
First of two laboratory courses in General Physics for science-related majors. The course introduces students to the basics of measurement. Topics cover mechanics and heat. Corequisite: PHYS 1315 or PHYS 1335 either with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1101

PHYS 1125. General Physics II Laboratory.
This is the second of two laboratory courses in general Physics. The course introduces the students to experimental measurements and demonstration of principles of electricity, magnetism, optics, modern physics, electromagnetic waves. Corequisite: PHYS 1325 or PHYS 1345 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1102

PHYS 1310. Elementary Physics I.
This course is a non-mathematical survey of mechanics, properties of matter, heat, and sound. These topics are described conceptually with applications relating to the world around us. PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1305
**PHYS 1315. General Physics I.**
This is the first course in a two semester sequence which is a survey of the basic laws and principles of physics and includes the topics of mechanics and heat. The course is designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisite: [MATH 1315 or MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 520 or better] or [SAT Math section score of 550 or better] or [Next-Generation Advanced Algebra and Functions Test score of 263 or better]. Corequisite: PHYS 1115 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1301

**PHYS 1320. Elementary Physics II.**
This course is a non-mathematical survey of electricity, magnetism, light, relativity, and atomic and nuclear physics. These topics are described conceptually with applications relating to the world around us. PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 1307

**PHYS 1335. General Physics I for Life Sciences Majors.**
This is the first course in a two-semester sequence which surveys the fundamental principles of physics. This focus of this first course is on the topics of mechanics, fluids, and heat. The course is designed for biology, pre-health, and life-science majors whose program requires technical physics. Credit for both PHYS 1335 and PHYS 1315 cannot be given. Prerequisite: [MATH 1315 or MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 520 or better] or [SAT Math section score of 550 or better] or [AAF score of 263 - 300]. Corequisite: PHYS 1115 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1301

**PHYS 1335. General Physics I.**
This is the first course in a two semester sequence which is a survey of the basic laws and principles of physics and includes the topics of mechanics and heat. The course is designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisite: [MATH 1315 or MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 520 or better] or [SAT Math section score of 550 or better] or [Next-Generation Advanced Algebra and Functions Test score of 263 or better]. Corequisite: PHYS 1115 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Grade Mode: Standard Letter
TCCN: PHYS 1301

**PHYS 1340. Astronomy: Solar System.**
A study of the solar system. Topics included are a study of the sun, the planets and their satellites, the comets, and other components of the solar system. Some aspects of telescopes and ancient astronomy will be included also.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: ASTR 1304

**PHYS 1345. General Physics II for Life Science Majors.**
This is the second course in a two-semester sequence which surveys the fundamental principles of physics. The focus of this second course is on the topics of oscillations, light, and electrical phenomena. This course is designed for biology, pre-health, and life-science majors whose program requires technical physics. Prerequisite: PHYS 1315 or PHYS 1335 with a grade of "C" or better. Corequisite: PHYS 1125 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1302

**PHYS 1350. Astronomy: Stars and Galaxies.**
A study of the universe beyond the solar system. Topics included are a study of the stars and star clusters, nebulae, galaxies, and an introduction to some aspects of cosmology.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: ASTR 1303
PHYS 1365. Physics for Educators.
This studio-style course introduces physics concepts through active exploration and discussion of physical phenomena. Course content includes developing concepts of force and motion, light, sound, waves, electricity, magnetism, energy, and conservation laws. Focus is on how physics helps make sense of everyday experience, and on the learning and teaching of children in grades K-8.
3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 1310

This course covers the principles of classical mechanics through problem solving and laboratory investigations. PHYS 1430, PHYS 2425, and PHYS 2435 are designed for students majoring and minoring in physics and/or other disciplines within the college of science and engineering. Credit for both (PHYS 1315 and PHYS 1115) and PHYS 1430 cannot be given. Corequisite: MATH 2471 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2425

PHYS 2150. Professional Development for Beginning Physicists.
This course introduces to physics majors career options and opportunities for internships, scholarships, and research internal and external to the university. The course also develops essential practical skills for job seekers. Prerequisite: PHYS 2425 and PHYS 2435 both with grades of "D" or better.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
TCCN: PHYS 2425

PHYS 2230. Introduction to Computational Modeling for Physics.
This course is an introduction to computational concepts and tools that physicists use for data analysis, simulation and modeling, and visualization in research and dissemination. Python and its various libraries are emphasized. Prerequisite: PHYS 1430 with a grade of "D" or better. Corequisite: PHYS 2425 or PHYS 2435 either with a grade of "C" or better.
2 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 2425. Electricity and Magnetism.
This course is a calculus-based introduction to electricity and magnetism. Prerequisites: PHYS 1430 and [MATH 2472 or MATH 2473] both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Life & Phys Sciences Core 030|Component Area Core 090|Life & Phys Sciences CAO 093|Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2426

PHYS 2435. Waves and Heat.
This course is a study of the fields of wave motion, sound, light, and heat at a beginning level for physics majors and minors. Prerequisites: MATH 2471 and PHYS 1430 both with grades of "C" or better. Corequisite: MATH 2472 with a grade of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required
Grade Mode: Standard Letter
TCCN: PHYS 2427

PHYS 3210. Physics Cognition and Pedagogy.
This course is an introduction to physics-specific pedagogy and the methods and results of physics education research (PER). Students will investigate relevant literature in PER and cognitive science, engage in discussions about physics teaching and learning, and reflect on their own teaching practice in the role of Physics Learning Assistants. (WI).
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

A survey of the physics of sound and acoustic measurement. Special emphasis will be placed on sound production, propagation, and perception as applied to music.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

This course discusses the fundamentals of classical mechanics focusing on the physical description of the behavior of single and multiple particle systems. Topics include advanced problem-solving strategies for systems with position and velocity dependent forces, simple harmonic oscillators, and non-inertial reference frames. Prerequisite: PHYS 2435 with a grade of "C" or better. Corequisite: PHYS 3320 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter
PHYS 3312. Modern Physics.
This course is an introduction to the foundations of modern physics, including the following topics: relativistic mechanics, foundational experiments in the development of quantum mechanics, light and energy, wave nature of particles, and nuclear physics. Prerequisite: PHYS 2435 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 3313. Astrophysics.
This course surveys a variety of issues in astrophysics through problem solving, quantitative measurements, and theoretical reasoning. Topics include celestial mechanics, stellar dynamics and evolution, galaxy evolution, and cosmology. Corequisite: PHYS 3312 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 3315. Thermodynamics.
This course is a fundamental study of thermodynamics and statistical mechanics. Prerequisite: MATH 3323 and [PHYS 2435 or (PHYS 1125 and PHYS 1325) or (ENGR 2300 and PHYS 2425)] all with grades of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 3318. Galactic and Extragalactic Astrophysics.
A survey of the physical properties, dynamics, and distribution of galaxies. Topics include the contents, origin, and evolution of the Milky Way and other galaxies; the large-scale distribution of galaxies in groups, clusters and superclusters; interactions between galaxies; dark matter; active galaxies and supermassive black holes; high redshift Universe. Prerequisite: PHYS 3313 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 3320. Introduction to Mathematical Physics.
This course is an introduction to the mathematical methods of theoretical physics with emphasis on development of mathematical tools used in upper division core physics courses. Students will also develop their ability to communicate mathematical ideas in the context of physics. Prerequisite: [MATH 2393 or MATH 3373] and PHYS 2425 both with grades of "C" or better. Corequisite: MATH 3323 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 3311. Advanced Physics Laboratory.
This course is an introduction to experimental modern physics, with emphasis on the design and assembly of physics apparatus and the development of practical skills for controlling and automating data collection. (WI) Prerequisites: PHYS 2425 with a grade of "C" or better. Corequisites: PHYS 2435 with a grade of "C" or better.
4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Lab Required|Writing Intensive
Grade Mode: Standard Letter

This Laboratory/lecture course is an introduction to electronic test bench methods for the construction, operation and analysis of important DC/AC circuits utilizing resistors, capacitors, diodes, BJTs, FETs, and OpAmps. The behavior of the circuits will be modeled in SPICE. Elementary semiconductor device physics and microfabrication methods will be discussed. (WI) Prerequisites: PHYS 2425 and PHYS 2435 both with grades of "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

PHYS 3417. Optics.
This course is a one-semester survey of geometrical and physical optics accompanied by laboratory experience. Topics covered include electromagnetic waves and their propagation, geometrical optics, polarization, interference, diffraction, Fourier optics, and holography. (WI) Prerequisites: PHYS 2425 and PHYS 2435 both with grades of "D" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

PHYS 3418. Methods in Observational Astrophysics.
This course is an introduction to methods and instrumentation used in observational astrophysics. Topics include image processing, data acquisition and analysis, and detectors for data across the electromagnetic spectrum. Prerequisite: PHYS 2425 and PHYS 2435 both with grades "C" or better.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

PHYS 4121. Undergraduate Research.
This course represents a student's research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Prerequisite: Instructor approval.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
PHYS 4150A. Physics Cognition and Pedagogy Lab.
In this lab course, students will apply principles introduced in PHYS 3210, which include observation of student interactions, reflection on the process of learning and the use of evidence based reasoning, metacognition, and facilitation of discourse around difficult concepts. Prerequisite: PHYS 1430 with grade of "C" or better or instructor approval. Corequisite: PHYS 3210 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4150B. Computational Modeling Lab: Mechanics.
This lab provides experience in computational modeling of problems in classical mechanics. Students design and code computer programs to simulate physical dynamics and analyze data. Corequisite: PHYS 3311 with a grade of "D" or better.
1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4221. Undergraduate Research.
This course represents a student's research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Prerequisite: Instructor approval.
2 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4305. Statistical Physics.
Statistical physics is the study of energy flow and energy distributions within systems in equilibrium. Students will explore a range of phenomena including black-body radiation, diffusion, phase transitions, and magnetism. Emphasis will be placed on topics of entropy, probability, free energy, Boltzmann distributions, and the atomic behavior of these systems. Prerequisite: MATH 3323 and PHYS 3312 and PHYS 3320 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 4310. Electromagnetic Field Theory I.
An introduction to the electromagnetic field theory of classical physics for static fields. Topics included will be the electrostatic field, polarization and dielectrics, electrostatic energy, magnetic field of steady currents, magneto static energy, and magnetic properties of matter. Prerequisite: [MATH 2393 or MATH 3373] and MATH 3323 and PHYS 3320 all with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

Application of physics principles to solid materials. Topics include crystal structure and the reciprocal lattice, including x-ray diffraction, crystal binding and elastic properties, lattice vibrations, energy bands, semiconductors and metals. Prerequisite: PHYS 3312 and PHYS 3320 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 4312. Quantum Mechanics I.
This course introduces students to quantum mechanics. Topics include mathematical foundations, fundamental postulates, time development, and one dimensional problems. Prerequisite: PHYS 3312 PHYS 3320 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 4315. Electromagnetic Field Theory II.
An introduction to the electromagnetic field theory of classical physics for time varying fields. Topics included will be electromagnetic induction, time varying electric and magnetic fields, Maxwell's equations, electromagnetic energy, electromagnetic waves and radiation, and a brief introduction to some specialized topics. Prerequisite: PHYS 4310 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 4320. Selected Study in Physics.
Topics are chosen in theoretical and experimental areas of current interest in physics with specific topic to be discussed agreed upon prior to registration. May be repeated once with different emphasis and professor for additional credit. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter

PHYS 4321. Undergraduate Research.
A research project in physics to be carried out under the supervision of a faculty member by upper division physics majors. Student must contact a faculty member in advance to arrange topic and specific course objective. Course may be repeated only as an elective towards the BS or BA in physics. Prerequisite: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering
Grade Mode: Standard Letter
PHYS 4350B. Relativity.
This course includes a review of Special Relativity, an introduction to the mathematics of tensor calculus and differential geometry, and such topics from General Relativity as the Schwarzschild solution and black holes, tests of General Relativity, cosmological models, and applications of relativity in the Global Positioning System (GPS). Prerequisite: PHYS 3312 with grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4350D. Biophysics.
This course applies the principles of physics to the study of living organisms. An emphasis will be placed on the topics of structure, fluids, diffusion, entropy, stochastic processes, and probabilities, and on scientific modes of thinking including modeling, estimation, and data analysis. Prerequisite: PHYS 2425 and PHYS 2435 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4350E. Musical Acoustics for Science and Engineering Majors.
This course is a calculus-based approach to how and why each musical instrument and physical space has its own unique sonic character. Topics include wave phenomena in different materials and spatial configurations, signal processing and analysis, and computerized synthesis of musical sounds based on the laws of physics. Credit cannot be granted for both PHYS 4350E and PHYS 3301. Prerequisites: PHYS 2425 and PHYS 2435 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4350F. Astronomical Spectroscopy.
A lecture course introducing students to spectroscopy in astronomy, with particular emphasis on molecular spectroscopy. The course will cover a broad range of aspects including the development of spectroscopy in astronomy, the theory of atomic and molecular spectra, spectra in different astrophysical environments, instrumentation and data reduction.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4350G. Nuclear and Particle Physics.
This course covers the theoretical, phenomenological, and experimental foundations of nuclear and particle physics including the fundamental forces, particles, and composites. An emphasis will be on the fundamental structure of nucleons (nucleus masses and nuclear sizes), nuclear interactions (alpha, beta, and gamma radiation), Fission, Fusion, beyond nuclear physics (quarks and leptons as basic constituents of matter), brief introduction to the Standard model: electroweak interactions, Higgs boson, QCD and basic nuclear Astrophysics (nucleosynthesis of stellar particles). Prerequisite: PHYS 2425 and PHYS 3312 both with grades of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics
Grade Mode: Standard Letter

PHYS 4360. Physics Cognition and Pedagogy II.
This course addresses historical, philosophical, and cognitive perspectives on the learning, teaching, and discovery of physics, including results from contemporary research on learning. It is recommended for students pursuing teacher certification. Prerequisite: PHYS 3210 with a grade of "C" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Dif Tui- Science & Engineering|Writing Intensive
Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 58) (B.A.) requires three additional hours of English literature; three hours of mathematics, science, logic, or computer science courses; a minor; and six hours of 2000-level modern language courses. Most students will have to complete the 1410 and 1420 language courses as prerequisites before attempting the 2310 course.
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Students must select a minor from the approved list of Undergraduate Minors (http://www.mycatalog.txstate.edu/undergraduate/minors/). Students should consult the department advisor or the College of Science and Engineering Advising Center before choosing a minor.
5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours. Students should consult the department advisor or the College of Science and Engineering Advising Center before choosing the electives.
7. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

Minimum Required: 120 semester credit hours

Admission Requirement
1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 244).

General Requirements
1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 55) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition, to the general education core curriculum requirements, students must also complete 33 hours in a double major with the Bachelor of Science (B.S.) in Education in the College of Education. All coursework must be completed prior to enrolling in EDST 4681.

Bachelor of General Studies

The Bachelor of General Studies (B.G.S.) provides an individualized, interdisciplinary degree that allows students with a broad range of academic interests to achieve personal educational goals. The program helps each student who enters develop a unique career or academic goal that is matched by three Texas State minors. Those best suited for the B.G.S. (1) have a clear interest that overlaps the boundaries or blends the disciplinary areas of other academic majors available at Texas State; (2) have invested in a traditional degree program but wish to redirect their career or academic goals while building on some of the courses already completed; or (3) have difficulty choosing an existing major and are willing to assemble three minors based on organized career research and preparation.

The B.G.S. includes GNST 4300 – Interdisciplinary Preparation, a course that helps students learn how to assess their talents, match them with potential careers, and maximize or choose three Texas State minors to best prepare them for the requirements of the career. Then they practice interviewing and preparing resumes, cover letters, etc., and discover how to market themselves. Following completion of most of the courses in the three B.G.S. minors, the capstone B.G.S. course (GNST 4350 – Interdisciplinary Project) challenges students to make use
of their education in tailoring a research-based project that innovatively contributes to the career or academic goal, incorporates all three minors, and gives them good supporting material to use in job interviews and graduate and professional school applications.

Information about admission into the B.G.S. is available at www.ucollege.txstate.edu/bgs/ (https://www.ucollege.txstate.edu/bgs/)

As with any major, it is important to check with a University College advisor on a regular basis to ensure that progress is being made in meeting B.G.S. program requirements.

The following B.G.S. policies are particularly important to note:

- Only B.G.S. majors may register for GNST 4300 and GNST 4350 and both courses must be successfully completed at Texas State in order to be applied to the B.G.S. degree. (Under some circumstances, students with Honors minors may be allowed to substitute HON 4390H-Honors Thesis if the topic meets the requirements of GNST 4350.)
- In order to register for GNST 4300 or GNST 4350, students must be in good academic standing at Texas State University.
- Both courses are offered each semester, including summer.
- Each B.G.S. minor requires at least 12 advanced hours, so B.G.S. minors may differ from the minors offered by the departments in that regard.
- Certain minor combinations may not be allowed if the coursework or content is duplicative. A course may be counted toward more than one minor only if it is specifically required by those minors.
- Both GNST 4300 and GNST 4350 as well as all courses that are part of the three B.G.S. minors must be completed with a grade of C or higher. In addition to a minimum Texas State GPA of 2.0, graduation with a B.G.S. degree requires a GPA of 2.25 in each B.G.S. minor.

Common Experience

www.txstate.edu/commonexperience (https://www.txstate.edu/commonexperience/)

Texas State University presents an academic theme each year with related events for everyone. This is the Common Experience.

The Common Experience offers students opportunities to interact with some of the world’s leading voices. During the fall and spring semesters, there are often more than 200 total events. Among these is the LBJ Distinguished Lecture Series, named for Texas State’s most famous alumnus, President Lyndon Baines Johnson. The series fulfills his 1973 promise to bring important leaders to the university to share their philosophies, perspectives, and experiences. Other Common Experience events include film screenings, philosophy dialogues, panel discussions, exhibitions, conferences, and performances in music, theater, and dance.

As part of the Common Experience, Texas State provides all incoming first-year students with a powerful Common Reading book related to the year’s theme. Students discuss the book and explore the theme in University Seminar classes and other courses — encouraging multiple, sustained conversations in a sea of ideas.

While approaches may be tailored specifically for first-year students, most events are intended for all students — undergraduates and graduates — as well as faculty, staff, and community members. The Common Experience is truly for everyone. It continues to evolve and embrace new challenges and directions each year, showing students new ways to approach issues they may have thought were beyond themselves, as well as the power of people working together.

National Student Exchange

The National Student Exchange (NSE) is a study away program administered by University College that offers Texas State students a unique opportunity to expand their educational horizons by enrolling at a participating university for one or two semesters while paying in-state resident tuition. Students can benefit from the NSE program by accessing courses, internships, field experiences, and exploring graduate schools at nearly 185 colleges and universities in the United States, U.S. territories (including Guam, Puerto Rico, and the U.S. Virgin Islands), and Canada. All 50 states are represented and include Hispanic-serving institutions, Historically Black Colleges and Universities, public and private colleges, and French and Spanish immersion opportunities.

Credits earned at these host institutions can be transferred back to Texas State, allowing students to maintain progress toward their academic objectives. For the privilege of NSE participation, Texas State students can pay in-state (resident) tuition and fees directly to their host institution or pay Texas State for 15 credit hours of coursework.

Applications for the first round of NSE placements are due in February for fall and spring exchanges, though placements can be made throughout the year. Requirements of the program include a minimum 2.5 Texas State GPA, plus a completed online application with a $200 application fee. For more information about the National Student Exchange, contact University College or visit www.ucollege.txstate.edu/programs/nse/ (https://www.ucollege.txstate.edu/programs/nse/).

Transfer Course Evaluation

Students transferring from other institutions of higher education will have their transcripts initially evaluated by the Undergraduate Admissions Office. In accordance with the Texas Education Code: “If a student successfully completes the 42 semester credit hour core curriculum at a Texas public institution of higher education, that block of courses must be substituted in transfer to any other Texas public institution of higher education for the course or core curriculum of the sending institution’s core curriculum. A student shall receive academic credit for each of the courses transferred and may not be required to take additional core curriculum courses at the receiving institution. A student who transfers from one institution of higher education to another without completing the core curriculum of the sending institution shall receive academic credit from the receiving institution for each of the courses that the student has successfully completed in the core curriculum of the sending institution. Following receipt of credit for these courses, the student may be required to satisfy further course requirements in the core curriculum of the receiving institution.” (Title 3, Subtitle B, Chapter 61.822(c-d)) Students seeking evaluation of courses from out-of-state or private institutions for fulfillment of general education core curriculum components may contact University College to initiate the process. Students should be prepared to provide documentation such as catalog descriptions, course syllabi, and textbook information to facilitate verification of course content. Students seeking evaluation of coursework for application to a major or minor requirement should contact their college advising center for information about the process for evaluation by department faculty.

Writing Intensive

Certain Texas State courses are designated as “writing intensive” and are labeled as (WI) in this catalog and the schedule of classes. In order to achieve this status, at least 65% of the course grade must be based on written assignments and a minimum of one extended piece of writing
must be required. Academic colleges require a minimum of 9 credit hours of these courses for graduation. In addition to certain major and elective courses, the two history and two philosophy courses included in the general education core curriculum are writing intensive. These courses as well as other courses appropriate for writing intensive credit must be taken at Texas State. The University College Associate Dean for Academic Programs manages Writing Intensive Courses.

Undergraduate Academic Center Room 146
T: 512.245.7952 F: 512.245.7908
www.txstate.edu/universityseminar/ (https://www.txstate.edu/universityseminar/)

University Seminar (US 1100) helps incoming first-year students transition to college life and is designed to be taken during a student’s first semester at Texas State. Its small class setting allows students to get to know each other as well as their faculty member and peer mentor.

US 1100 connects new students to the campus and its resources, gets them involved in the university community, and supports the Personalized Academic and Career Exploration (PACE) initiatives through related instruction, activities, and guidance. Through US 1100 career readiness projects, students learn about individual career interests, find organizations and activities related to their academic fields, and develop a plan that will lead to graduation and professional success.

The course is taught by a diverse group of professors, staff members, and administrators from departments across the Texas State university. All have at least a master’s degree and lend their unique and varied perspectives to enrich each classroom. Distinct sections of the course may serve students with common interests. These are labeled in the Schedule of Classes.

Subjects in this department include: US

Course in University Seminar (US)

University Seminar is an introduction to the nature and aims of university education, with special emphasis on the value of broad learning. US 1100 is required of all undergraduate students entering the university with 0-15 semester credit hours completed since high school graduation.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

US 2100. Introduction to Research and Discovery.
This course provides a discipline-related overview of research procedures for first and second year students, including primary literature, data collection, and the scientific method. Students will complete the course with a greater awareness of research opportunities and develop academic and professional skills in preparation for immersion in undergraduate research.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The Texas Success Initiative (TSI) is a statewide initiative created to improve student success in college-level coursework. As part of the program, all students enrolled in Texas public colleges or universities complete required assessments to determine Math, English/Language Arts, and Reading proficiency. Developmental course instruction is provided to students needing to strengthen their basic academic skills. More information about this program, assessment requirements, and exemptions may be found in the Academic Policies section of the catalog under Texas Legislative Requirements.

Harris Hall 1st Floor
T: 512.245.2978

Located on the lower level of Harris Dining Hall, the Athletic Academic Center (AAC) is an integral part of the life of Bobcat student-athletes and has a vast number of services and assistance available. The AAC is structured to provide student-athletes with five basic components, Academic Excellence, Athletic Excellence, Community Service, Career Development, and Personal Development. The AAC, which is open six days a week (Sunday-Friday), houses a state-of-the-art computer lab, areas for both individuals and group study, and offices for the AAC staff.

The AAC is led by six full-time professional staff members, four graduate assistant students, and university-trained tutors. The AAC staff, in conjunction with the Assistant Athletic Director for Compliance Services, strives to educate student-athletes about the numerous NCAA rules and regulations while monitoring their progress for continuing eligibility.

Each student-athlete works with their College (Major) Advisor to make sure that they are enrolled in the correct classes to graduate. The AAC staff verifies the classes to ensure that the student-athlete is working towards their degree, making yearly satisfactory progress, and meeting GPA requirements.
Texas State will not discriminate against any person in employment or exclude any person from participating in or receiving the benefits of any of its activities or programs on any basis prohibited by law, including race, color, age, national origin, religion, sex, disability, veterans’ status, or sexual orientation. Equal employment opportunities include: personnel transactions of recruitment, employment, training, upgrading, promotion, demotion, termination, and salary.

The information in the 2023-2024 Graduate Catalog is subject to change without notice and may not reflect the most recent changes. This catalog is a general information publication only. It is not intended to, nor does it contain, all regulations that relate to students. In the event of a conflict between the provisions of this catalog and the Rules and Regulations of the Board of Regents of the Texas State University System, the latter shall prevail. The provisions of this catalog do not constitute a contract, express or implied, between an applicant, a student, a faculty member, or a staff employee and Texas State University or the Texas State University System. Texas State reserves the right to withdraw courses at any time, to change fees or tuition, calendar, curriculum, degree requirements, admissions and graduation requirements or procedures, and other requirements affecting students. Changes will become effective whenever authorities determine and will apply to both prospective students and those already enrolled. Questions regarding current information should be addressed to the office of the Provost and Vice President for Academic Affairs.

University Organization
Texas State University is organized into the College of Applied Arts, the Emmett and Miriam McCoy College of Business Administration, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, the College of Science and Engineering, Honors College, and The Graduate College.

Overview of Graduate Studies
Authorization
The establishment of The Graduate College at Texas State was authorized by the Board of Regents at its meeting on June 15, 1935. Graduate courses were first offered during the summer of 1936, and the first master of arts degree was conferred at the 1937 spring commencement. The first doctoral programs were authorized by the Board of Regents in 1996 in geographic education and environmental geography. The first doctorates were awarded in 2000.

Mission of The Graduate College
The mission of The Graduate College is to provide vision, leadership and direction for excellence in graduate education at Texas State University with the aim of providing the appropriate infrastructure and learning environment for the training of innovative and successful scholars, teachers and professionals. The Graduate College does so by:

- articulating, promoting and supporting the highest standards of quality in graduate education in keeping with the University’s overall mission of teaching, research and public service
- constructing and maintaining an environment conducive to successful graduate education in concert with all graduate programs
- supporting programs’ efforts to foster a diverse student population who participate in a global society
- promoting and supporting rigor in graduate education
- providing key process and procedure guidance and support to graduate programs from admission to graduation
- aiding in student recruitment, application processing, policy monitoring and degree auditing
- leading initiatives designed to provide best practices in graduate education leading to timely degree completion
- providing graduate student support for creative and scholarly activities
- offering professional development opportunities for graduate students at key stages in their graduate career
- engaging in research on graduate education.

Characteristics of Graduate Study
Graduate study affords students of exceptional academic ability many opportunities to continue their intellectual growth and development. Doctoral study in particular seeks to integrate students into the professional community of scholars in a manner that emphasizes the completion, presentation, and publication of original research.

Graduate education differs from study at the undergraduate level in at least the following respects:

- Graduate students are expected to assume greater responsibility and demonstrate more self-initiative in meeting their academic goals;
- Graduate students are expected to engage in more extensive reading, emphasizing primary source material in a specialized field;
- Graduate students are expected to become familiar with the current literature in their fields, with emphasis on recently published developments in research methods and results;
- Doctoral students are expected to assume responsibility for the planning, completion, and presentation of original scholarly research;
- Doctoral programs utilize seminar courses that stress active participation by students in intellectual exchange with both faculty and peers and in the critique of published research;
- Doctoral course-work emphasizes integrating student research into the norms of an academic discipline; and:
- Master’s courses differ from undergraduate courses, and doctoral courses differ from master’s courses in their learning outcomes and in the breadth and depth of readings and assignments.

- National Association of Schools of Music, Commission on Accreditation
- Network of Schools of Public Policy, Affairs, and Administration Commission on Peer Review and Accreditation

The following organizations not recognized by either the Council on Higher Education Accreditation (CHEA) or the U.S. Department of Education (USDE) accredit or certify other Texas State degree programs.

- AACSB International - The Association to Advance Collegiate Schools of Business
- ABET - Accreditation Board for Engineering and Technology
- American Chemical Society
- American Society of Biochemistry and Molecular Biology
- Association of University Programs in Health Administration
- Foundry Education Foundation
- National Association of School Psychologists
- Texas Certified Public Manager Program
The following organizations accredit Texas State academic support services.

- Accreditation Association for Ambulatory Health Care, Inc.
- American Psychological Association Commission on Accreditation
- COGNIA-AdvancED Accreditation Commission by the NCA Commission on Accreditation and School Improvement, the Northwest Accreditation Commission, and the SACS Commission on Accreditation and School Improvement

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. During the first century, the Legislature retained the regional designation in the name, but as its mission changed it became first Normal College, then successively Teachers College, College and University. These changes reflected the transformation from a teacher-preparation institution to a regional university. In 2003, the Legislature dropped the regional designation and the institution became Texas State University-San Marcos, and in 2013 the place name was eliminated as Texas State University became an emerging research university within the state.

The demographics of the university’s student body more closely mirror the population of Texas than any other public university in the state. Texas State became a Hispanic Serving Institution (HSI) in 2010, and continues to expand efforts to promote diversity, equity, and inclusion among all faculty, staff, and students.

While Texas State was originally renowned for preparing public school teachers, today it has grown into a major institution of higher education approaching an enrollment of 40,000. The university’s two campuses currently offer programs not only in the College of Education, but also in the College of Applied Arts, Emmett and Miriam McCoy College of Business Administration, College of Fine Arts and Communication, College of Health Professions, Honors College, College of Liberal Arts, College of Science and Engineering, and University College. University College oversees first-year advising as well as other activities of the first-year experience in addition to guiding students who have not yet chosen a major. The Graduate College provides opportunities for continued intellectual growth through advanced and specialized education that develops leaders in the professions and in research up through the doctoral degree.

As Texas State’s student population has grown — from 303 in 1903 to nearly 38,376 in 2022 — the campuses, too, have expanded and today Texas State is the seventh largest public university in the state.

Texas State’s San Marcos campus is located in a Hill Country community about halfway between Austin and San Antonio. Its location on the banks of the San Marcos River provides recreational and leisure activities for students throughout the year.

Overlooking the San Marcos campus from Chautauqua Hill and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur. In 1979, after adding a number of classroom buildings and residence halls on the San Marcos Campus, Texas State purchased the former San Marcos Baptist Academy adjacent to the original campus. In 1981, South Texas entrepreneur Harry M. Freeman donated a 3,500-acre ranch to Texas State to be held in perpetual trust as the Harold M. Freeman Educational Foundation. The working ranch is used as a laboratory for students in agriculture, animal science, anthropology, biology, and a variety of other academic disciplines. In 1990, the university opened the seven-story Albert B. Alkek Library. The building, conveniently located in the center of campus, is named for the noted Texas rancher, oil man, and educational philanthropist who died in 1995.

Texas State acquired one of the most unique ecosystems in the world in 1994 when it purchased the former Aquarena Springs resort and theme park. The purchase allowed Texas State to serve as steward of the headwaters of the San Marcos River, preserving and protecting one of the oldest inhabited spots in North America for future generations of Texans. Now called The Meadows Center for water and the Environment, the 90-acre property is the site of a wide variety of educational and research pursuits. The Meadows Center is home to eight endangered species of plants and animals that exist nowhere else in the world.

In 1998, as the lead institution, Texas State joined forces with other area universities to establish the Round Rock Higher Education Center, now known as the Texas State University Round Rock Campus (RRC). The RRC, located on 101 acres north of Austin, houses the majority of Texas State’s health professions academic programs, and offers upper-division and graduate educational opportunities in Williamson County and Austin.

Texas State became part of the Texas State University System in 1911. The System, governed by a nine-member Board of Regents, also includes Lamar University, Lamar Institute of Technology, Lamar State College-Orange, Lamar State College—Port Arthur, Sam Houston State University, Sul Ross State University, and Sul Ross University Rio Grande College.

**Function**

Recommend Graduate College policies to the Dean of The Graduate College, who in turn administers the policies or submits recommendations to the Provost and Vice President for Academic Affairs and the President’s Cabinet. The Graduate Council also reviews standards for admissions, retention, and enrollment patterns, in concurrence with the Dean. The Graduate Council also approves membership standards for graduate faculty.

Texas State University is a doctoral-granting, student-centered institution dedicated to excellence and innovation in teaching, research, including creative expression, and service. The university strives to create new knowledge, to embrace a diversity of people and ideas, to foster cultural and economic development, and to prepare its graduates to participate fully and freely as citizens of Texas, the nation, and the world.

**Shared Values**

In pursuing our mission, we, the faculty, staff, and students of Texas State University, are guided by a shared collection of values:

- Teaching and learning based on research, student involvement, and the free exchange of ideas in a supportive environment;
- Research and creative activities that encompass the full range of academic disciplines—research with relevance, from the sciences to the arts, from the theoretical to the applied;
- The cultivation of character, integrity, honesty, civility, compassion, fairness, respect, and ethical behavior in all members of our university community;
- A diversity of people and ideas, a spirit of inclusiveness, a global perspective, and a sense of community as essential conditions for campus life;
- A commitment to service and leadership for the public good;
- Responsible stewardship of our resources and environment; and
- Continued reflection and evaluation to ensure that our strengths as a community always benefit those we serve.

**The Graduate College Mission**

The mission of The Graduate College is to provide vision, leadership, and direction for excellence in graduate education at Texas State University with the aim of providing the appropriate infrastructure and learning.
environment for the training of innovative and successful scholars, teachers, and professionals. The Graduate College does so by

- articulating, promoting, and supporting the highest standards of quality in graduate education in keeping with the university’s overall mission of teaching, research, including creative expression and service;
- constructing and maintaining an environment conducive to successful graduate education in concert with all graduate programs;
- supporting programs’ efforts to foster a diverse student population which participates in a global society;
- promoting and supporting rigor in graduate education;
- providing key process and procedure guidance and support to graduate programs from admission to graduation;
- aiding in student recruitment, application processing, policy monitoring, and degree auditing;
- promoting initiatives designed to provide best practices in graduate education leading to timely degree completion;
- providing support to graduate students for creative and scholarly activities;
- offering professional development opportunities for graduate students at key stages in their graduate careers; and
- engaging in research on graduate education.

The stakeholders of The Graduate College include students, faculty, and staff involved in graduate education at Texas State University.

Texas State believes that freedom of thought, innovation and creativity are fundamental characteristics of a community of scholars. To promote such a learning environment, the university has a special responsibility to seek diversity, to promote inclusion, to instill a global perspective in its students, and to nurture sensitivity, dialogue and mutual respect. Discrimination against or harassment of individuals on the basis of race, color, national origin, religion, sex, sexual orientation, age, disability, veterans’ status, gender identity or expression are inconsistent with the purposes of the university.

Texas State is committed to the value of a racial and ethnic diversity and believes that the primary purpose of higher education is to promote learning for all and to stimulate inquiry for truth in an atmosphere of freedom. Accordingly, Texas State encourages students to exercise the rights of citizenship. However, these rights are subject to reasonable limitations necessary for the orderly operation of the university. Texas State expects students to accept their responsibilities as citizens and members of a scholarly community. Paramount among these responsibilities is respect for the rights of others, academic and personal integrity, and adherence to federal, state, and local law as well as university regulations.

The faculty and administration are genuinely concerned with the physical and ethical welfare of students. To that end, Texas State has established rules of conduct and has published these in a Code of Student Conduct and Honor Code. These regulations guide students in achieving personal and academic goals and help the university function in an orderly way. Since students voluntarily associate themselves with Texas State, they should know that these rules are honestly and faithfully enforced. The rules include clear prohibitions against sexual or discrimination and racial harassment.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination or harassment. Texas State, to the extent not in conflict with federal or state law, prohibits discrimination or harassment on the basis of race, color, national origin, age, sex, religion, disability, veterans’ status, sexual orientation, gender identity, or expression. This grievance procedure is described in University Policy and Procedure Statement 04.04.46 (http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML), Prohibition of Discrimination. The Texas State University System Sexual Misconduct Policy outlines our policy and procedure related to Title IX (sexual misconduct). Students should follow the procedures for reporting instances of discrimination or harassment.

The administration and faculty encourage students to participate in managing Texas State through its system of advisory councils and committees. Students are invited to serve as voting members on many of these groups, and are expected to contribute actively to their success. Students may submit recommendations for changes in policy, not only through the committee structure, but also through their own student government.

In 1990, Congress enacted the Crime Awareness and Campus Security Act of 1990 which amended the Higher Education Act of 1965. In 1998, the law was renamed the Clery Act. This law requires institutions that participate in the federal student financial aid programs to disclose crime statistics and security information to the campus community. Among such requirements, the university must prepare and distribute an Annual Security and Fire Safety Report (ASFSR) annually. The ASFSR must include crime statistics for the three most recent calendar years concerning reported crimes that occurred on campus; in on-campus student housing facilities; in noncampus buildings or property owned or controlled by the university or a recognized student organization; and on public property within, or immediately adjacent to and accessible from, the campus. Additionally, the report contains information about law enforcement authority, timely warnings or emergency notifications of crimes that represent a threat to the campus community, the daily crime log, missing student notification procedures that pertain to students residing in on-campus student housing, crime reporting policies, programs to prevent dating violence, domestic violence, sexual assault and stalking, and the procedures the university will follow when one of these crimes is reported. The university must also disclose fire safety information and fire statistics for the three previous calendar years for on-campus student housing facilities, among other safety and security information.

Texas State’s Annual Security Report section applies to the San Marcos, Round Rock, and Advanced Law Enforcement Rapid Response Training Center (ALERRT Center) campuses, and the Fire Safety Report section applies only to the San Marcos Campus as Round Rock and the ALERRT Center do not currently have on-campus student housing facilities.

You may request a paper copy of the ASFSR by contacting Institutional Compliance and Ethics at Elliott Hall A (201 Talbot Street, San Marcos, TX 78666), by calling (512)245-4961, or by emailing cleryreport@txstate.edu. A PDF of the Texas State ASFSR can be accessed electronically at http://www.clergy.txst.edu/report (http://www.clergy.txst.edu/report/).

**Correct Data**

All students are responsible for making certain Texas State has correct demographic data. A student’s name will appear on official records as it is stated on the application for admission, unless a student has previously attended Texas State under a different name. Changes in name, local and/or permanent address, telephone number, marital
status, etc., should be reported immediately to the Office of the University Registrar. Texas State is not responsible for loss of correspondence credits due to unreported name changes. Address changes can be completed through Texas State Self-Service.

Family Educational Rights and Privacy Act of 1974 (FERPA)

FERPA protects the privacy of educational records, establishes the right of students to inspect and review their educational records, and provides guidelines for the correction of inaccurate or misleading data. Students also have the right to file complaints with the U.S. Department of Education, Student Privacy Policy Office, 400 Maryland Ave, SW, Washington, DC 20202-8520, concerning alleged failures by Texas State to comply with the Act. University policy explains in detail the procedures to be used in complying with the Act. The policy is available at www.registrar.txst.edu/legislative-policies/ferpa.html (https://www.registrar.txst.edu/legislative-policies/ferpa.html). The Dean of Students and the Office of the University Registrar both presume that each student is independent of their parents when dealing with the student’s educational records. Procedures for establishing dependency status are available in both offices.

Communications

Most university offices use Texas State email as the official means of communication. Students are expected to set up and read their Texas State email frequently.

As required by the Texas Occupations Code, Section 1, Chapter 53, Sections 53.151 – 53.152, amended in 2017 by House Bill 1508, if you are applying for admission to or currently enrolled in an educational program that may prepare an individual for an initial occupational license as defined under Texas Occupations Code Section 58.001 and/or if you later decide to change to an educational program that prepares you for an initial occupational license as defined under Texas Occupations Code Section 58.001, in accordance with state law, please be advised of the following:

1. An individual who has been convicted of an offense may be ineligible for issuance of an occupational license upon completion of the educational program.
2. Each licensing authority that may issue an occupational license to an individual who completes an educational program must establish guidelines that state the reasons a particular crime is considered to relate to a particular license and any other criterion that affects the decisions of the licensing authority.
3. Local or county licensing authorities may issue additional guidelines related to criminal history. Applicants should contact their respective local or county licensing authority for more details.
4. A person may request a criminal history evaluation letter regarding the personal eligibility for a license issued by a licensing authority under Texas Occupations Code Section 53.102.

Applicants are encouraged to review all applicable eligibility requirements related to the respective occupational license. Questions related to eligibility requirements should be directed to the applicable licensing authority.

A list of the Texas State University degree and certificate programs that prepare a student for an initial occupational license as defined under Texas Occupations Code Section 58.001 is available here. (http://www.txstate.edu/curriculumservices/programs/occupational-license-HB-1508.html)

Abandoned and unclaimed personal property discovered on campus is turned over to the University Police Department (UPD) Community Engagement Office. UPD utilizes Crowdfind Program to assist with managing abandoned and unclaimed personal property and is located on the UPD website under programs and services. Items of value should be sent or bought to UPD for safekeeping. Examples of these items: are credit cards, wallets, jewelry, watches, handbags, computers, computer storage, storage media, electronic devices and items considered valuable. All other property found on campus map be disposed of by the department that oversees the building in which the property was found. Examples include inexpensive clothing, personal care supplies, and similar items that do not include ownership identification. Abandoned and unclaimed property held by UPD will be disposed of after 60 days. For further information please see UPS 05.01.20 Abandoned and Unclaimed Property (https://policies.txstate.edu/university-policies/05-01-20.html).

Alkek Library

www.library.txst.edu (http://www.library.txst.edu/)
Telephone: 512-245-2686 Fax: 512-245-0392

The Albert B. Alkek Library, located in the heart of the San Marcos Campus, is where students and researchers come to find abundant information resources, cutting-edge technology, and diverse work and study spaces that support successful research and academic endeavors. The Alkek Library is the architectural centerpiece and intellectual hub of the campus and is open year-round with early-morning and late-night hours during the fall and spring semesters. In addition, the library’s online services and resources can be accessed through the University Libraries website (library.txst.edu (http://library.txst.edu/)).

Special holdings of the library include The Wittliff Collections (comprised of the Southwestern Writers Collection, the Southwestern and Mexican Photography Collection and the Texas Music Collection) and the University Archives. The Alkek Library is also a selective depository for federal government documents. As a member of the Texas Digital Library, the library’s University Scholarship collections (digital.library.txst.edu/ (http://digital.library.txst.edu/)) features unique Texas State collections, including scholarly works authored by university faculty, students and staff. A separate repository houses Digital Collections from The Wittliff and University Archives (dc.library.txst.edu (https://dc.library.txst.edu/)).

The library’s online catalog (catalog.library.txst.edu (http://catalog.library.txst.edu/)) provides information on its vast resources.

Wireless access to the university network is available within the Alkek Library. Laptop computers may be checked out for building use and there are multiple workstations, laser printers and scanners located throughout the building.

The first floor of the library known as Alkek One, includes a suite of creative technology spaces designed to give students from all disciplines access to resources that will help them explore, create, and discover. These spaces include: the Immersion Studio, for exploring virtual, augmented and mixed realities; MakerSpace, for creating physical innovations; GeoSpace, for GIS and data story telling exploration; DesignSpace for discovering 2D and 3D design possibilities; and the YouStar Studios, for recording audio and video projects and editing polished productions.
The Alkek Library also boasts a Graduate Commons space for graduate students and other education, instruction, and research spaces and features within its seven stories.

The library maintains cooperative borrowing agreements with other libraries in the region. Through TexShare, a statewide resource sharing program, students and faculty may borrow materials held by most public and private university libraries in the state. In addition, books and articles not available through Texas State can be requested through Interlibrary Loan and they will be borrowed from libraries across the country and sometimes even internationally.

LBJ Student Center, 5th Floor  
www.careerservices.txstate.edu (http://www.careerservices.txstate.edu)  
Telephone: 512-245-2645

Career Services prepares, inspires, and empowers students for career success, serving as a bridge between students’ college experience and life after Texas State University. Starting their first year, and continuing beyond graduation, we are here to help support students on their career journey. In addition we help them connect their experiences—whether from the classroom, campus activities, on- or off-campus employment, internships, or even graduate school—to their post-graduation goals.

Among our services are:

**Career Planning and Exploration** · Career Counselors are available to help you research majors, study your career options, and plan and implement your professional future.

**Career Advising and Job Search** · Career Educators are also available to further discuss the job search process, including resumes, cover letters, interview skills, salary negotiations, and more.

**Internships and Jobs** · Using our online job search database, Handshake, students can find part-time and full-time employment, on-campus jobs and internship opportunities.

**Employer Connections** · Career Services works with employers to create opportunities for students to connect with potential internships and jobs while building their professional network. This is achieved by hosting a wide range of opportunities including career fairs, information sessions, on-campus interviews, and networking events.

LBJ Student Center 5-5.1  
www.ods.txstate.edu (https://www.ods.txstate.edu/)  
Telephone: 512-245-3451 Fax: 512-245-3452

The Office of Disability Services (ODS) at Texas State University is dedicated to ensuring the equal access to all university programs and activities for students with disabilities through the coordination of academic accommodations and support services. Texas State students should contact the ODS to discuss the services the office can provide and how to register with the office. It is the student's responsibility to provide documentation of their disability. Forms of documentation include the student's self-report and evidence from external sources (e.g., medical records, school records).

Texas State University does not discriminate on the basis of disability in the recruitment and admission of students or in the operation of any of its programs and activities. Students with disabilities must meet the same admission requirements as all other prospective students. If a student believes their educational and/or personal goals for success have been negatively impacted due to disability-based reasons, then they may address these issues in the supplemental essay portion of the admission application. Students needing sign language or oral interpreting services for meetings with Admissions, the Office of Disability Services, or their academic advisor should contact the ODS at least one week prior to the event to ensure interpreter availability.

Students with disabilities may receive financial assistance from the following entities: Federal Student Aid, which is an Office of the U.S. Department of Education; the Texas Workforce Commission (TWC); the Texas State University Financial Aid and Scholarships and the Office of Disability Services.

The Office of Disability Services has a procedure for enrolled students to file a concern they may have with a faculty and/or staff member related to their accommodations. Students have the option to raise their concern to a grievance if they feel it is appropriate; however, an ODS staff member may raise a concern into a grievance if deemed appropriate. Texas State University has established grievance procedures for the prompt and equitable resolution of complaints related to accommodations associated with a disability and illegal discrimination on the basis of disability, which are outlined respectively in the ODS Dispute Resolution Procedure and UPPS No. 04.04.46 (http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML), “Prohibition of Discrimination”. Students who have concerns or complaints should contact the ODS Director at 512-245-3451 or ods@txstate.edu.

J.C. Kellam Building Room 105  
www.va.txstate.edu (http://www.va.txstate.edu)  
Email: veteransaffairs@txstate.edu  
Telephone: 512-245-2641

Students attending Texas State (TXST), while receiving educational assistance under one of the public laws for veterans and/or their dependents, must utilize the VA Certification Request Portal provided at www.va.txstate.edu (https://www.va.txstate.edu/) to complete and submit the required forms.

All students applying for GI Bill® or Hazlewood benefits must provide digital copies of required documents for their specific benefit type to our online certification request system. Required documents are listed here: https://www.va.txstate.edu/required-documents.html (https://www.va.txstate.edu/required-documents.html) Do not mail, email, or fax documents to the office. Requests for benefit processing are completed online each semester.

All students must follow their degree requirements to receive the maximum benefit payout. Students who are eligible for Hazlewood are subject to Academic Progress for Waivers and Exemptions (APWE) policies. For more information, go to https://www.sbs.txstate.edu/students/waivers-exemptions.html.

It is the student’s responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

No benefit pays the university directly for living or meal expenses, which are due prior to the start of each semester. GI Bill® benefit payments are made in arrears.

**Pending Payment Compliance**

In accordance with Title 38 US Code 3679(e), Texas State University adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post-9/11 G.I. Bill® (Ch. 33), or...
Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from VA. Texas State University will not:

- Prevent the student’s enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students are required to:

- Produce the VA Certificate of Eligibility (COE) by the first day of class;
- Complete the online request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA).

Toll-free: 800-511-8656

The Office of Distance and Extended Learning, in addition to administering the self-paced correspondence, extension, and continuing education programs, provides information on Texas State’s distance learning programs, courses, initiatives, and resources.

Mission Statement
The Office of Distance and Extended Learning expands access to academic credit learning experiences and lifelong learning opportunities for students through distance learning, extended studies, and continuing education.

Core Values
The Office of Distance and Extended Learning achieves its mission through strong collaboration among our team and other departments on campus; mutual respect for faculty, staff, and students; effective and accurate communication; and conscientious action in our daily operations.

Distance Learning Programs
At Texas State, online learning reflects our passion for teaching and learning, the courage and discipline to prioritize, a deep commitment to core values, and the allocation of resources where we can deliver superior performance and distinctive impact. Texas State offers both undergraduate and graduate degrees via online learning, all of which are developed and taught by our university faculty. These degree programs require formal admission to the university, and applicants must meet Texas State’s general admission requirements, as well as those specified by the individual degree program. A list of A list of fully online distance learning programs is available at https://online.txstate.edu. Additional information about online programs is also available at www.distancelearning.txstate.edu (https://www.distancelearning.txstate.edu/).

The university offers many courses and programs via distance learning and extended hours on evenings and weekends at the San Marcos and Round Rock campuses.

All graduate courses and programs offered to distance learners carry the same course number, title, and description as those offered at the San Marcos and Round Rock campuses.

For F-1 international students, no more than the equivalent of one class or three credits per term may be counted toward the full course of study requirement if the class is taken online or through distance education and does not require the student’s physical attendance for classes, examination, or other purposes integral to completion of the class.

Courses offered at a distance are identified each term in the Texas State Schedule of Classes and on CatsWeb. For more information on distance and extended learning at Texas State, visit http://www.distancelearning.txstate.edu (http://www.distancelearning.txstate.edu/).

With a wide range of learning opportunities, the Office of Distance and Extended Learning offers Continuing Education opportunities that extend the resources of Texas State and contribute to the professional and economic development of Texas. Enrollment is open to all interested persons on a non-credit-hour basis; therefore, the courses are not offered through The Graduate College and do not apply toward a graduate degree, nor are they considered for regular admission. For information about continuing education programs, go to http://www.txstate.edu/continuinged/.

The Office of Distance and Extended Learning offers many college courses not normally offered through the academic departments/schools. Extension courses may be offered on campus, online, hybrid/blended, or as part of a faculty-led Study-in-America or Off-Campus program. The times and locations for such courses depend on student need, faculty availability, and demand. Enrollment for an extension class is completed through the Office of Distance and Extended Learning and does not constitute acceptance as a regular student at Texas State.

Degree Credit for Extension Course Work
The department chair and the dean of The Graduate College must approve extension work for it to be credited toward a graduate degree. Students must meet the admission requirements as identified under the “Master’s and Doctoral Degree-Seeking Applicants” section and be accepted in a degree program before extension work can receive degree credit. Extension course work cannot be used toward a doctoral degree at Texas State.

A maximum of 12 semester hours of graduate credit may be earned in extension courses offered by Texas State.

Extension Transfer Credit
Up to three semester hours of the total allowable six hours of transfer credit for a degree may be earned through extension courses from another accredited institution. Students admitted on “Conditional Admission” or students on “Probation/Suspension” will not receive credit for transfer work taken under the aforementioned status.

For more information on Extension Studies at Texas State, visit http://www.extension.txstate.edu/.

www.txstate.edu/cpm/ (https://www.txstate.edu/cpm/)
Telephone: 512-245-3453 Fax: 512-331-7293

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer the CPM Program. The CPM
Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any time during the year; programs are held approximately every two to three months depending on location. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM Program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not-for-profit-sector. The program's primary goal is to improve the performance of public and not-for-profit sector managers and the organizational performance of state, local, and federal government. The program is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant's agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program, a 7-course sequence which leads to a nationally accredited public manager certification, is offered by Texas State University's William P. Hobby Center for Public Service.

Thornton International House

Telephone: 512-245-7966 Fax: 512-245-8264

The mission of International Student and Scholar Services (ISSS) is to support the comprehensive internationalization goals of Texas State University and assist the university in developing and maintaining an internationally diverse student body, faculty, and staff by:

• serving as immigration and cultural advisors to international students and scholars; advocating on their behalf, and providing services and information that facilitate their cultural adjustment, social integration, retention, and success;
• assisting the university at large and international students, scholars, alumni, faculty, and staff in particular, in complying with various governmental policies and regulations;
• contributing to the research and teaching mission of the university by assisting with employment authorization for distinguished international scholars, faculty, and staff; and
• promoting global awareness and internationalization at the university by administering international programming through hosting and sponsoring internationally minded events.

Who is an international student?
An international student is a student enrolled in a U.S. academic program in a non-immigrant visa classification.

• Common non-immigrant visa classifications are: A-1, A-2, B-1, B-2, E-1, E-2, F-1, F-2, H-1, J-1, J-2, K-1, L-1, L-2, M-1, R-1, R-2, TN, and TD.

• F-1 Student is the most common non-immigrant visa classification at Texas State with over 90 percent of international students in F-1 status.

• A student who has applied for or received an immigrant classification such as permanent residency or refugee or asylum status, or who is undocumented is not categorized as an international student.

General Regulations
The following regulations govern F-1 and J-1 international students enrolled at Texas State:

International students are required to:

• attend a mandatory F-1 Student Immigration Check-in session or J-1 Orientation.
• enroll in a full course of study every fall and spring semesters. Summer is an authorized break period, however, full-time enrollment is required in summer for students whose first semester begins in summer;
• obtain permission from International Student and Scholar Services before dropping below a full course of study for any reason. (See Reduced Course Load (https://www.international.txstate.edu/current/Reduced-Course-Load--RCL-.html));
• obtain permission from International Student and Scholar Services before engaging in off-campus employment. (see Curricular Practice Training (CPT) (https://www.international.txstate.edu/Work-Authorization/cpt.html) or Optional Practical Training (OPT) (https://www.international.txstate.edu/Work-Authorization/opt.html));
• not work more than 20 hours per week while participating in on-campus employment in the fall and spring semesters. Students may work more than 20 hours per week during the summer and authorized break periods (see On-campus Employment (https://www.international.txstate.edu/Work-Authorization/oncampus.html));
• report address changes or personal information to International Student and Scholar Services within 10 days of the change. (see Change of Address Update (https://tim.txstate.edu/internationalofficeaddresschange/Login/?returnurl=%2Finternationalofficeaddresschange2f));
• report any changes in program of study (change of major, adding a minor/concentration, etc.) to International Student and Scholar Services;
• apply for a program extension from International Student and Scholar Services prior to the end date on the I-20 (see Program Extension (https://www.international.txstate.edu/forms/requests.html));
• apply for concurrent or transient enrollment approval when taking courses at an institution other than Texas State University (see Concurrent Enrollment);
• obtain a travel signature from International Student and Scholar Services for all international travel;
• request a transfer of their SEVIS record from International Student and Scholar Services to a new SEVIS-certified institution (see SEVIS Transfer-out (https://www.international.txstate.edu/current/TransferOut.html));
• notify International Student and Scholar Services upon approval of a change of non-immigration status, or an adjustment of status to permanent residency; and
• maintain continuous health insurance coverage from the time of enrollment to the time of completion of the degree program or until otherwise cease to be a student at Texas State by obtaining coverage under the designated international student health insurance policy, or apply for a waiver and present acceptable proof of other comparable and adequate health insurance coverage (see Health
An Overview of Our Services

- Assist international students and academic departments with immigration processes and issues related to non-immigrant F-1 and J-1 students;
- Assist international faculty and staff and hiring departments with employment authorization issues;
- Provide mandatory F-1 Student Check-In and host International Student Resource Fair;
- Advise and advocate for international students and scholars;
- Plan and host programs for international students and scholars;
- Provide statistical reports
- For the complete list, visit the ISSS website (https://www.international.txstate.edu/about/about_us/Services.html).

Dr. M. Gary Sayed
AVP for Academic Affairs Round Rock Campus
Round Rock Campus Administration Office

1555 University Blvd.
Round Rock, TX 78665-8017
www.rrc.txstate.edu (http://www.rrc.txstate.edu/)
T: 512-716-4001

As Williamson County continues to experience significant annual growth – the population now exceeds 600,000 — the University Master Plan positions the Round Rock Campus to continue serving the needs of the area. Collectively, Texas State University’s Round Rock Campus (http://www.rrc.txstate.edu/) (RRC) provides instructional and lab space, administrative offices, and student support services. The RRC offers upper-level courses leading to baccalaureate degrees in an array of disciplines including health professions as well as offering select master’s degrees and Physical Therapy doctoral program. The needs of Central Texans are further served through certifications and continuing education, online and distance learning opportunities for working adults, professionals, and lifelong learners.

The RRC offers daytime and evening classes for students interested in completing their degree programs while fulfilling other obligations. From its inception, the Round Rock Campus (http://www.rrc.txstate.edu/) (RRC) offered face-to-face classes after 5:00 p.m. for working adults as well as hybrid and online courses. Students can complete their freshman and sophomore-level classes at the San Marcos Campus, at a community college or at other accredited institutions before transferring to Texas State University.

Undergraduate Degree Programs

The RRC offers junior and senior level undergraduate classes. To transfer to the Round Rock Campus, it is recommended that students have at least 45 transferrable hours. For more information about admission, application, and registration, please visit the Undergraduate Admission website: https://www.admissions.txstate.edu/future-students/apply-for-admission.html, or call Academic Student Services office at 512-716-4001.

Graduate Degree Programs

The RRC offers master’s degree programs and a professional doctorate in physical therapy (https://www.rrc.txstate.edu/academics/masters.html). For more information about admissions requirements and application procedures as well as the list of programs, visit The Graduate College website at www.gradcollege.txstate.edu (https://www.gradcollege.txstate.edu), call 512-245-2581, or email gradcollege@txstate.edu. The Graduate College welcomes your interest.

An education abroad experience expands students’ intellectual and personal development as they become immersed in other cultures. Students gain a critical self-awareness, an appreciation for a multicultural world, and a clearer understanding of their own culture. Education abroad prepares students to assume their role as responsible world citizens and to succeed professionally in today’s global environment. Education Abroad offers unique experiential learning opportunities in professional and community settings that enables students to apply knowledge, acquire marketable skills, and develop career readiness.

The Education Abroad office offers students the opportunity to participate in a variety of education abroad programs in hundreds of locations around the world. The academic credit students earn may be applied toward a degree at Texas State. Some of these programs involve direct enrollment in an overseas institution, while other programs are led by Texas State faculty.

Through Texas State Education Abroad programs, students can spend from one week to a full academic year in another country either learning another language, concentrating their studies related to a specific topic in their field of study, or participating in an internship. Texas State Education Abroad programs include a variety of activities that allow students to learn and experience the culture of the host country. In some of these programs, students may take the opportunity to live with a host family and become fully immersed in the culture of the host country for a more comprehensive learning experience.

Program locations vary from year to year. Students may learn more about these programs from current information located on the Education Abroad website.

The Education Abroad Fair, as well as many other events and presentations, are held throughout the year to provide information to students interested in studying, teaching, interning, volunteering, working, and/or researching abroad.

Financial Assistance for Education Abroad Programs

Most of the financial aid that students would normally receive for studying at Texas State may be applied toward Texas State Education Abroad programs. Additionally, there are colleges and education abroad providers that offer financial support for participating in their programs. If a student is receiving federal or state financial aid, it is recommended that the student speak with a representative of the Texas State Office of Financial Aid and Scholarships to determine the application of such aid to any Education Abroad program and the possible adjustment to meet the student’s needs.

Education Abroad also has information on internal and external scholarships that are available to students who plan to participate in an
education abroad program. The International Education Fee Scholarship (IEFS) is funded through the student service fee account and distributed in a competition open to all undergraduate and graduate Texas State students who meet the established eligibility requirements.

Financial Aid and Scholarships
JC Kellam Suite 240
http://www.finaid.txstate.edu/ (http://www.finaid.txstate.edu/)
Email: financialaid@txstate.edu (FinancialAid@txstate.edu)
T: 512.245.2315

Texas State makes every effort to help students who need assistance in paying for the cost of their education. Various financial aid programs are available. Interested students should contact Financial Aid and Scholarships or visit the office’s website to view the types of assistance that are available.

Federal and State Aid Programs
Texas State participates in both federal and state financial aid programs. Financial Aid and Scholarships offers grants, work study, student loans, and other types of aid.

Applying for Financial Aid
To apply for financial aid, a student must complete and submit the Free Application for Federal Student Aid (FAFSA) online at https://fafsa.ed.gov and include the Texas State University school code – 003615.

Deadlines
- March 15 is the priority date for filing a FAFSA for the upcoming academic year (fall and spring). If the deadline is missed, a student may still apply and receive some types of assistance such as student loans.
- March 1 is the priority deadline for filing the separate summer financial aid application prior to the upcoming summer semester. This separate summer application, which can be found online at http://www.finaid.txstate.edu/, is in addition to filing the appropriate year’s FAFSA.

Satisfactory Academic Progress Requirements
Federal regulations require students to meet certain minimum academic standards in order to remain eligible for financial assistance. The requirements are that a student:

1. maintain a minimum cumulative Texas State GPA;
2. complete at least 67% of all course work; and
3. not exceed a maximum limit of attempted hours toward their degree. Remember, to be eligible for most financial aid, a student only needs to be enrolled at least half-time (6 hours for undergraduates and 5 hours for graduates). For more details, visit www.finaid.txst.edu (https://www.finaid.txst.edu/), select Financial Aid from the menu and then Receive My Aid.

Alternative Loan Resources
For information on alternative loans, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Types of Aid.

Official Withdrawals and Financial Aid
If a student withdraws or is expelled from the university on or prior to the 60-percent point of the semester, the student is required to repay any unearned portion of their federal Title IV aid. For more details, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Unofficial Withdrawals and Financial Aid
If the student fails to earn a passing grade in at least one of their courses (i.e., all U’s, all I’s or a combination of all U’s, W’s or I’s) during a semester, the student is considered to have, for purposes of federal Title IV funds, unofficially withdrawn from the university. As a result, a federal withdrawal calculation must be performed to determine the amount of Title IV funds the student must repay. For more details, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

Non-Attendance and Financial Aid
If the student is a Pell Grant, Iraq-Afghanistan Service Grant (IASG) or TEACH Grant recipient, federal regulations require the student to have begun attending the courses for which the student is enrolled and receiving these grants. If on the census date roster (e.g., 12th day of each fall and spring semester) the student is reflected as not attending a course, the student is assumed (for financial aid purposes) not to have begun attendance for that course. The student’s grant will then be adjusted or cancelled based on the courses the student has actually begun attending. For more details, visit http://www.finaid.txstate.edu/, select Graduate Aid from the dropdown menu and then Withdrawing, Non-Passing Grades and Attendance.

To Withdraw
The student must complete the form entitled “Texas State Official Withdrawal Request” from the University Registrar’s Office. Financial aid recipients should speak with a Financial Aid and Scholarships representative before the withdrawal is processed. The withdrawal date is defined as the date on which a student first indicates his or her intent to withdraw.

The scholarships listed below are competitively based and are available to qualified students who are regularly admitted through The Graduate College. Students who are not Texas residents and receive a Texas State competitive scholarship of at least $1,000 may be eligible to pay resident tuition. More information regarding eligibility criteria, the application procedures and deadlines for each of the scholarships and fellowships listed below is available on our funding page.
Information about additional scholarships, as well as teaching and research assistantships, may be available through individual academic departments.

**Graduate College Scholarships**

The Graduate College provides these scholarships (https://www.gradcollege.txst.edu/funding/scholarships/gc-scholarship.html) to encourage students with intellectual, creative, and leadership promise to complete a master’s or doctoral degree at Texas State University. These scholarships are available for newly admitted and continuing students.

**Graduate College Doctoral Research Support Fellowships**

The Graduate College provides Doctoral Research Support Fellowships (https://www.gradcollege.txst.edu/funding/scholarships/doctoral-research.html) to support graduate student research at the doctoral level. Each award of up to $2,000 is to be used to cover expenses directly related to conducting dissertation research. There are two rounds of funding applications each year.

**Graduate College Thesis Research Support Fellowships**

The Graduate College provides Thesis Research Support Fellowships (https://www.gradcollege.txst.edu/funding/scholarships/thesis-research.html) to support graduate student research at the master’s level. Each award of up to $2,000 is to be used to cover expenses directly related to conducting thesis research. There are two rounds of funding applications each year.

**Texas State Doctoral Merit Fellowships**

The Graduate College’s Texas State Doctoral Merit Fellowships (https://www.gradcollege.txst.edu/funding/scholarships/doctoral-merit.html) are intended for use in recruiting doctoral students of the highest quality to Texas State University. The Texas State Doctoral Merit Fellowship provides up to $9,000 to doctoral students for their first academic year of study (paid in early September, January, and June). These fellowships can be combined with graduate assistantships or departmental scholarships to create an attractive financial aid package for top-quality applicants. Doctoral program directors are encouraged to identify and nominate eligible applicants. (Prospective students cannot apply directly.)

**Texas State Graduate Merit Fellowships**

The Graduate College’s Texas State Graduate Merit Fellowships (https://www.gradcollege.txst.edu/funding/scholarships/graduate-merit.html) are prestigious awards intended for use in recruiting master’s students of the highest quality to Texas State University. The Texas State Graduate Merit Fellowship provides up to $3,000 to new master’s students for their first academic year of study (paid in early September, January, and June). These fellowships can be combined with graduate assistantships or departmental scholarships to create an attractive financial aid package for top quality applicants. Graduate advisors are encouraged to identify and nominate eligible applicants. (Prospective students cannot apply directly.)

**External Funding**

The Graduate College provides resources to assist students seeking or applying for external funding (https://www.gradcollege.txst.edu/funding/external.html). The Graduate Funding Opportunities Database (https://www.gradcollege.txst.edu/funding/external/databases.html) houses grants, scholarships, fellowships, internships and other awards/prizes specific to Texas State graduate students. Through the Shop Talks (https://www.gradcollege.txst.edu/events/shoptalks.html) professional development series, funding experts present general information about external funding as well as details about specific opportunities. The Graduate College also employs in-house external funding coordinators to advise students with funding applications and grant proposals.

**Admission Requirements**

The requirements set forth on each individual program page (detailed both in the Graduate Catalog and The Graduate College website) are the minimum standards for admission to enter a graduate program at Texas State. Some programs also recommend that applicants arrange a personal interview with the appropriate graduate faculty. Meeting the stated requirements does not necessarily ensure acceptance into a graduate program.

Applicants who are currently on probation or suspension at other colleges or universities are not eligible for admission consideration by The Graduate College. The dean of The Graduate College may refuse admission to any applicant, regardless of whether or not the applicant meets the admission requirements, if the dean of The Graduate College judges that such action is in the individual’s or the University’s best interest. The University reserves the right to deny admission to any prospective or former student who has a criminal record including any conviction of a felony, offenses involving moral turpitude, or other offenses of a serious nature.

**Start Term**

Applications are for specific terms. Applicants wishing to change their application to a future term or apply to another program will be required to submit a new application and pay the application fee.

**Communication**

The Graduate College will email applicants important information pertaining to their admissions application and application decision; therefore, it is imperative that applicants provide a working email address on their application that will remain active throughout the entire application process. It is the responsibility of the applicant to confirm that they are receiving emails from The Graduate College, to check their email accounts often, and to read all communication sent from The Graduate College.

**Decision Process**

Applicants are encouraged to check the status of their application online in order to expedite the process of completing the application. After all admission requirements have been received by The Graduate College, the grade point average will be calculated and the departmental graduate admission committee will make an admission recommendation. Final admission decisions are made by the dean of The Graduate College, and The Graduate College will notify the applicant of the admission decision. Applicants will receive an email notification when admitted to a program. Students who have been admitted into a degree program and do not enroll for the term of acceptance are not guaranteed acceptance for future terms.
Decision Timeline

Admission decisions for programs admitting on a "rolling" basis will follow within 4–6 weeks from the time all application materials have been received by The Graduate College. If the program has a firm deadline, the admissions committee may wait until after the program deadline has passed to review eligible applications. The number of applicants for a particular program influences the response time.

Admissions Appeal

Applicants may submit an admission appeal to the dean of The Graduate College for a denial decision within three weeks of the date of the decision. An admission decision appeal form for the graduate dean is available on The Graduate College’s website. The written appeal should include additional supporting documentation. Admission appeals will be answered via email within three weeks of receipt of the applicant’s appeal.

Deadlines represent the last date an application will be guaranteed to be considered for admission. Many programs strictly enforce the published deadlines, and applications received after the deadline will not be considered for admission. However, other programs will review applications for domestic applicants received after the published deadline dates on a space-available basis only. For more information about specific program deadline types and dates, visit the program’s admissions page on our website.

All required application materials should be submitted to The Graduate College no later than the following standard deadline dates (though some programs may have earlier deadlines and others may continue to receive applications after these deadlines) to ensure admission consideration for the desired term:

**U.S. Citizen Deadlines**

Admission Requirements for U.S. Citizens and applicants with Permanent Resident status

Each program’s catalog or web page details the specific admission requirements for applicable semester of entry during the current academic year. Submission instruction, additional details, and changes to admission requirements for semester other than the current academic year can be found on The Graduate College’s website. (http://www.gradcollege.txst.edu/)

**Admission Requirements for International Applicants**

An international applicant is defined as anyone who is not a United States citizen. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants differ from those for U.S. citizens.

In addition to meeting the application requirements found on each program’s catalog or web page, international applicants or applicants with international credentials must submit:

- $90 non-refundable application fee.
- Official transcripts (and marksheets if applicable) from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English)
- Two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- Official English proficiency exams scores.

Refer to the International Admission Documents section of this catalog or The Graduate College for more information about these requirements.

**F-1 Visa Enrollment Requirements**

A student under an F-1 international student visa must be enrolled full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. Also, F-1 international students not holding an assistantship can be enrolled in fewer than 9 hours and be considered full-time under two conditions: a) if they have completed all course work and are completing an internship integral to their degree program (student must apply for Curricular Practical Training to work off-campus), b) if they have completed all course requirements and are working on their thesis/dissertation only. The exception under a) can be granted for one semester only. The exception under b) can be granted for multiple semesters provided the student makes progress on the thesis/dissertation. A student enrolling less than full-time must apply for a reduced course load prior to enrolling or dropping a course that results in less than full-time enrollment. Please contact International Student and Scholar Services at 512-245-7966 or international@txstate.edu for more information.

**Regular Admission Requirements**

Regular degree-seeking admission, for most programs, may be granted if applicants:

1. Have a minimum* grade-point average (GPA) of 2.75 on a 4.0 scale calculated on:
a. the last 60 semester hours of undergraduate work before the bachelor's degree at an accredited four-year institution,
b. the last 60 semester hours of undergraduate work before the bachelor's degree taken at an accredited four-year institution plus any completed graduate course work taken at an accredited institution, or,
c. the last 60 semester hours of undergraduate work, including those on a second baccalaureate degree. (This is the only circumstance in which undergraduate credit hours taken beyond the first baccalaureate degree are used in admission evaluation.)

2. and meet program specific requirements as designated on the program's catalog or web page.

Only courses with letter grades or numerical equivalents will be used in calculating the grade-point average.

* Some graduate programs have higher GPA requirements and/or subject-specific GPA requirements. These requirements are detailed on each program's catalog or web page.

Conditional Admission Status

The graduate advisor may recommend to the dean of The Graduate College that applicants be conditionally admitted even though they may not meet the minimum requirements for admission. This recommendation is based on evidence that an applicant can successfully pursue graduate study and governed by the stated admission policies in the prospective program. Conditional admission is not available for all programs and also not for applicants who require an "F" or "J" Visa.

When applicants are conditionally admitted to a graduate degree program, the graduate advisor, with the approval of the dean of The Graduate College, will impose certain requirements, or "conditions of admission". Each term, The Graduate College and the graduate advisor will review the progress of students admitted conditionally. When students meet the conditions of their admission, they will be eligible for regular admission to the program. When students do not satisfy the conditions of their admission, they will be dismissed from the program. Appeals may be submitted to the dean of The Graduate College and are reviewed by both the departmental graduate admission committee and dean of The Graduate College. Decisions made by the dean of The Graduate College are final.

Graduating Senior Admission Requirements

Undergraduate students at Texas State who have superior academic records and lack 12 or fewer semester hours toward graduation may apply for graduate admission to a degree-seeking program to begin taking graduate course(s) during the final term of undergraduate study. Graduate course(s) taken under this status will be applied to the student's prospective master's degree. The following requirements must be met:

1. The student must be admitted with regular admission status.
2. The graduate advisor in the student's proposed major program must submit a recommendation to the dean of The Graduate College requesting that the student be admitted into the proposed major program of study as a graduating senior.

Since concurrent registration in an undergraduate and graduate program may affect financial aid awards, students should contact a financial aid officer prior to seeking graduating senior status (www.finaid.txst.edu/fin-aid/eligibility.html (https://www.finaid.txst.edu/fin-aid/eligibility.html)).

Applicants who would like to take graduate courses for personal enrichment or to fulfill prerequisites for another program can take course(s) as a non-degree-seeking student. Non-degree-seeking students are not pursuing any of The Graduate College's degree programs.

Admission Requirements for U.S. Citizens and applicants with Permanent Resident status

The items listed below are required for admission consideration:

- completed online application
- $20 nonrefundable application fee
- OR
- $60 nonrefundable application fee for applicants with international credentials
- a baccalaureate degree from a regionally accredited university
- official transcripts (and marksheets if applicable) from the institution that shows the highest degree earned
- completed non-degree-seeking student form for each semester for which enrollment is sought

Admission Requirements for International Applicants

An international applicant is defined as an applicant who is not a citizen. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants differ from those for U.S. citizens.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration:

- official transcripts from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English).
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or The Graduate College's website for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under F-1 international student visa status must be enrolled full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-
time for that summer session. Please contact the International Student and Scholar Services at 512-245-7966 or international@txstate.edu for more information.

Students currently pursuing graduate degrees at another institution may enroll in graduate courses at Texas State with the permission of the dean of The Graduate College and the graduate advisor of the Texas State academic program, and the student’s primary institution. Visiting students are taking courses at Texas State to transfer credit back to their graduate-degree-granting institution and are not eligible for financial aid or certain veteran benefits.

Admission Requirements for U.S. Citizens or applicants with Permanent Resident status

The items listed below are required for admission consideration:

- completed online application
- $20 nonrefundable application fee
- OR
- $60 nonrefundable application fee for applications with international credentials
- visiting student form requiring:
  - approval to take the course from the primary institution, or the institution granting the degree
  - approval from the graduate advisor or department chair in the program/department offering the course at Texas State

Visiting students should return the form signed by all appropriate parties for the dean of The Graduate College to approve at least two weeks prior to registration. The form must be completed prior to enrollment each term students wish to enroll as visiting students.

Admission Requirements for International Applicants

An international applicant is defined as anyone who is not a United States citizen. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants differ from those for U.S. citizens.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration for international applicants or applicants with international credentials:

International Visiting Applicants

- official English proficiency exams scores

International Exchange Students

- the application fee is waived
- official English proficiency exams scores or the completed English Proficiency Waiver Form for Graduate Exchange Students

Refer to the International Admission Documents section of this catalog or the international applicant webpages for more information about these requirements. Immigration documents should be submitted to the International Student and Scholar Services.

Texas State offers several certificate programs. Applicants who hold baccalaureate degrees from regionally accredited institutions must apply through The Graduate College. All certificate course work must be completed within four years of initial enrollment.

Admission Requirements for U.S. Citizens and applicants with Permanent Resident status

Each certificate program’s catalog or web page details the specific admission requirements. Minimally, the following are required:

- completed online application
- $20 nonrefundable application fee
  OR
- $60 nonrefundable application fee for applications with international credentials
- baccalaureate degree from a regionally accredited university
- official transcripts (and marksheets if applicable) from each institution where course credit was granted

Admission Requirements for International Applicants

An international applicant is defined as anyone who is not a United States citizen. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants differ from those for U.S. citizens.

In addition to meeting the application requirements found on each certificate’s catalog or web page, international applicants or applicants with international credentials must submit:

- official transcripts from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English).
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or The Graduate College for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who has recently gained admission into the U.S. with a program start date to begin in the summer session must enroll full-time for that summer session. Please contact International Student Scholar Services at 512-245-7966 or international@txstate.edu for more information.
Certificate Course Work

Students must maintain a minimum GPA of 3.0 in order to receive a certificate of completion for the program. A final course grade of "C" or higher is required for any graduate course that may be applied towards a graduate certificate at Texas State. All certificate course work must be completed within four years of initial enrollment.

Students who are later admitted to a degree program can petition up to six hours of certificate course work to count toward the degree as long as the course work is graduate-level and completed with a grade of "B" or higher and has not been applied towards another graduate degree program.

Completion of Texas State Certificate

In order for students to receive their certificates, they must submit the graduation application (even though they are technically not "graduating" and are not eligible to participate in commencement) in the semester in which they plan to complete their certificate course requirements. Students in both a degree program and a certificate program who wish to apply for both programs at once must select both at the time the graduation application is submitted. Students who finish their certificate course requirements prior to their degrees can apply for the completion of a Texas State Certificate before they finish the degree. Incomplete grades should be cleared through the University Registrar’s Office at least ten days before the commencement for which the certificate is to be awarded.

It is the student’s responsibility to ensure completion of all certificate requirements as listed on the degree audit and required by the certificate program. It is also the student’s responsibility to apply for completion of the certificate by the published deadline. Students who miss the application deadline must contact gcdegspcl@txstate.edu for assistance.

The Educator Preparation Program (EPP) prepares candidates for numerous initial teacher certificates. The program produces teachers who are certified to teach in Texas public, charter, and private EC - 12 schools.

Post-baccalaureate students can earn initial teacher certification through the following options:

- alternative certification (stand-alone certificate)
- master’s degree + certification
- second bachelor’s degree program with teacher certification (see undergraduate catalog for admission and program requirements)

Admission Requirements for U.S. Citizens

Stand-Alone Teacher Certification

The items listed below are required for admission consideration:

- completed online application
- $20 nonrefundable application fee
- OR
- $60 nonrefundable application fee for applications with international credentials
- baccalaureate degree from a regionally accredited university
- official transcript (and marksheets if applicable) from each institution where course credit was granted
- minimum 2.75 GPA on your last 60 hours of course work toward a degree
- content courses, and evidence of course work in reading, written communication, critical thinking, mathematics, and oral communication. Visit the program’s web page (https://www.education.txst.edu/oep/) for more information.

Admission Requirements for International Applicants

An international applicant is defined as anyone who is not a United States citizen. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants differ from those for U.S. citizens.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration. These items apply to both stand-alone certifications and master’s degree + certification programs.

- official transcripts (and marksheets if applicable) from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English)
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official (iBT) TOEFL scores with a minimum of 24 on the speaking, 22 for listening, 22 for reading, and 21 for writing. The Texas Education Agency (TEA) does not accept any other English proficiency exams.

Refer to the International Admission Documents section of this catalog or The Graduate College’s website (http://www.gradcollege.txst.edu/) for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under F-1 international student visa must enroll full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date
set to begin in the summer session must enroll full-time for that summer session. Please contact International Student and Scholar Services at 512-245-7966 or international@txstate.edu for more information.

Admission Requirements for the Educator Preparation Program (EPP)

In addition to the above requirements, the State Board for Educator Certification (SBEC) and Texas State University require the following items:

- completed application to the Educator Preparation Program
- accepted offer of admission and nonrefundable $35 fee
- completed application for a Certification Plan and nonrefundable $75 fee

Admission requirements are subject to change in response to state law and university policy and do not adhere to a particular catalog year. Review the Office of Educator Preparation website (http://www.education.txst.edu/oep/) for current admittance information and processes.

Program Requirements*

Successful teaching requires a combination of both academic and interpersonal skills. Behaviors, skills, abilities, and dispositions which are required for successful teaching as well as the candidate's general level of readiness for teaching in EC - 12 classrooms are regularly assessed.

All candidates requesting placement in EC - 12 schools must complete a criminal background check. Each school district has its own background check process and requirements that must be met before the school district will approve a candidate's placement.

Course Work Requirements

Once admitted to the program, candidates must apply for a certification plan and pay a fee. Each certification has different course requirements that may vary according to a candidate's academic background. Up to six semester credit hours of graduate-level courses may be substituted or transferred with the approval of a program advisor. Candidates seeking secondary or all-level certification may be required to repeat or enroll in undergraduate courses to meet subject-specific content requirements.

Field Experience

A minimum of 30 clock hours of field experience observation is required; students must complete this requirement before student teaching either in a field block experience or as a stand-alone placement embedded in specific course work. Candidates must consult OEP and/or a program advisor before deciding how to fulfill this requirement.

Student Teaching

Student teaching is the state-required culminating experience of the teacher certification process. This is a one-semester (six credit hours), unpaid, full-time experience in a local public school classroom. However, some candidates with advance approval from a program advisor and the OEP may choose to pursue a year-long, paid internship. All course work from the certification plan must be completed prior to the student teaching semester.

Teacher Certification Exams

The Texas Examination of Educational Standards (TExES) is the state required teacher examination for all Texas Educators. A candidate's certification area and level will determine which TExES tests are required. Candidates are allowed five attempts for each certification test and must request approval from the OEP for each attempt. Review the OEP website for the test approval process. Candidates are eligible for test approval up to 2 years after completing the program or until the exams expire.

Certification Recommendation

The certification officer will recommend candidates to the state for issuance of a teaching certification, after all of the following have been completed:

- passing scores on all of the required certification exams
- credit for student teaching or internship posted to the transcript
- bachelor's degree on file with the university
- completed application for certification through TEA

* Program requirements are subject to change in response to state law and university policy and do not adhere to a particular catalog year. Review the Office of Educator Preparation website (https://www.education.txst.edu/oep/) for current program requirements and processes.

Holders of Valid Out-of-State Certificates

The State Board for Educator Certification (SBEC) reviews out-of-state teacher certificates. Contact the SBEC at 888-863-5880.

Professional and specialist teacher certifications are available in: principal, counselor, superintendent, and reading specialist. Students must have a master's degree and teaching experience in Texas public schools. These programs are offered as stand-alone certifications (for those who already have a master's degree) or as part of a master's degree program (master's degree + certification). Refer to each individual departmental section of this catalog for specific information or visit The Graduate College's website. (http://www.gradcollege.txst.edu/)

Admission Requirements for U.S. Citizens

Stand-Alone Certifications (Principal, Superintendent)

The items listed below are required for admission consideration:

- completed online application
- $20 nonrefundable application fee
- or
- $60 nonrefundable application fee for applicants with international credentials
- baccalaureate degree from a regionally accredited university
- master’s degree from a regionally accredited university
- official transcripts (and marksheets if applicable) from each institution where course credit was granted
- minimum 2.75 GPA on the last 60 hours of undergraduate course work toward a degree
- copy of official teaching certificate documenting initial teaching certification
• copy of official teaching service record documenting at least one year’s teaching experience
• copy of official principal certificate* (for superintendent certification applicants only)

* The program will also accept the equivalent of a principal certificate issued by another state or country or the completion of the superintendent certificate application and approval from the Texas Education Agency (TEA) to substitute three years’ managerial experience in lieu of a principal certificate.

Admission Requirements for International Applicants

An international applicant is defined as anyone who is not a United States citizen. All international applicants fall under regulations of the United States Department of Homeland Security. Federal law governs university rules regarding non-U.S. citizens; hence, admission requirements for international applicants differ from those for U.S. citizens.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration:

• official transcripts (and marksheets if applicable) from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English)
• two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
• official (iBT) TOEFL scores of 78 or higher, with a minimum of 26 on the speaking section and a minimum of 19 in all other sections. The Texas Education Agency (TEA) does not accept any other English proficiency exams.

Refer to the International Admission Documents section of this catalog or The Graduate College's website (https://www.gradcollege.txstate.edu/) for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under F-1 international student visa status must be enrolled full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. Please contact International Student and Scholar Services at 512.245.7966 or international@txstate4.edu for more information.

www.txst.edu/cpm/ (https://www.txst.edu/cpm/)

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer the CPM Program. The CPM Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any time during the year; programs are held approximately every two to three months depending on location. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM Program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not-for-profit-sector. The program’s primary goal is to improve the performance of public and not-for-profit sector managers and the organizational performance of state, local, and federal government. The program is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant’s agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program, a 7-course sequence which leads to a nationally accredited public manager certification, is offered by Texas State University’s William P. Hobby Center for Public Service.

Applicants

Applicants wishing to change their application to a different term will be required to submit a new application and pay the non-refundable application fee.

Admitted Students

Students who are accepted into a degree program and fail to enroll for the term of acceptance are not guaranteed acceptance for future terms. In some programs, students may contact The Graduate College about the possibility of a deferral for a maximum of two terms.

Once admitted, students are expected to enroll each fall and spring term (summer is optional for most programs).

Previously enrolled students must submit the update enrollment form (http://www.gradcollege.txstate.edu/forms/update.html) in order to enroll if it has been less than a year since their last enrollment.

Previously enrolled students who fail to enroll within a one-year period will be required to submit a new admission application and non-refundable application fee. Other application documents may be required in certain circumstances. Students should review additional enrollment requirements and policies that relate to their program of study. Please see the leave of absence policy in the Academic and Grading Policies section of this catalog for more information.

Students who wish to pursue a second simultaneous or subsequent graduate degree or change a major must submit an application for admission and all required admission documents as indicated on the program’s catalog or web page. This procedure must be completed in ample time to meet the admission deadlines.
Admission to one program does not guarantee admission to another program. No courses applied toward one graduate degree may be simultaneously applied toward another graduate degree. Students changing majors and admitted to a new graduate degree program may be permitted to count some or all of the graduate-level courses taken in their previous program toward their new graduate program. At the recommendation of the graduate program advisor, graduate-level courses from another program may be petitioned to the dean of The Graduate College for degree credit as long as a degree was not awarded for the previous program. No credit will be applied toward the master's degree for work completed more than six years before the date on which a student's degree is to be conferred unless an exception has been approved by the graduate advisor and dean of The Graduate College.

Students on probation or suspension (p. 776) may not change programs without a recommendation and request from the prospective department. The dean of The Graduate College will review the request and make the final decision.

If a student was previously granted admission as a post-baccalaureate/post-graduate student and wishes to apply for admission to a degree program, the student must submit an application for admission as well as the required admission documents as indicated on The Graduate College's website (https://www.gradcollege.txst.edu/). This procedure must be completed in ample time to meet the admission deadlines.

After students are regularly admitted to a graduate degree program, they may be permitted to count some of the graduate-level courses taken under the post-baccalaureate or post-graduate status toward their graduate degrees. At the recommendation of the student's graduate advisor, up to six hours of graduate-level courses taken under the post-baccalaureate or post-graduate status with a grade of "B" or better may be petitioned to the dean of The Graduate College for degree credit.

302 Academic Services Building North
T: 512-245-2322 F: 512-245-8934
Toll-free: 800-511-8656

The Texas State Intensive English (TSIE) Program offers non-credit intensive English-as-a-Second-Language (ESL) courses for students who:

- want to improve their command of the English language prior to beginning/or during college or university-level programs of study;
- are international students participating in exchange through the Education Abroad program, academic programs at both graduate and undergraduate levels or a visiting scholar program; or
- would like to polish their English language abilities for academic readiness, test preparation, self-improvement, and/or cultural integration.

Classes emphasizing academic reading, writing, listening, and speaking are offered during the fall, spring, and summer sessions in online and face-to-face formats. International students on F-1 and J-1 visas are required to enroll in a full course of study every fall and spring semester. When registering for TSIE classes, these students should consult International Student and Scholar Services for instructions on maintaining visa status.

All admission materials must be submitted to The Graduate College through the appropriate channel and in the requested format. Materials submitted become the property of the university and cannot be released, except in accordance with the Federal Family Educational Rights and Privacy Act or the Texas Public Information Act. Non-required admission materials mailed or emailed to The Graduate College will not be retained, nor will documents submitted without the officially designated admission application. Submission instructions and information can be found on our website.

Submission Instructions
Additional details for the items below are located on The Graduate College's submission information web page.

Application
Applications for admission to The Graduate College must be submitted online through the admission application portal. Applications are for specific programs and specific semesters. Applicants wishing to change their application to a different semester or program will be required to submit a new application and pay the non-refundable application fee.

Application Fees
A non-refundable application fee of $55 is required for all degree-seeking applicants. Degree seeking applications with international credentials will incur a $90 application fee. A $20 non-refundable application fee is required for applicants seeking certification, certificate, non-degree, or visiting student status. Non degree-seeking applications with international credentials will incur a $60 application fee. In addition to the $55 application fee, a $25 non-refundable application fee is required for applicants to the doctor of physical therapy program. No application will be processed until the necessary fees are paid. Please note that a $30 returned item fee will be charged if the payment is returned for Insufficient Funds, Account Closed, or a Stop Pay has been put on the payment.

Official Transcripts
Applicants must submit official transcripts from each institution attended to The Graduate College prior to registration. Applicants may upload copies of all official transcripts directly to the application portal for application review purposes.

Applicants must hold a four-year baccalaureate degree from a regionally accredited institution at minimum. The requirements for international transcripts can be found in the International Admission Documents section of the catalog.

Transcripts must be sent directly from the university or college attended, via USPS or secure electronic delivery, or submitted in a sealed university envelope with the University Registrar's signature on the back of the envelope in order to be considered "official". The transcript must reflect all college work attempted and any degree(s) conferred. Scanned or faxed copies of transcripts will not be considered official. Texas State students are not required to supply transcripts for course work completed at Texas State or transfer work found on their Texas State transcript.

Departmental Requirements
Additional admission requirements vary per program and are detailed on each program's catalog or web page.
**Test Scores**

**Graduate Record Examination (GRE)**

Some programs require official GRE scores to be on file with The Graduate College prior to admission consideration. Official GRE scores may be required by other programs if the GPA is below the minimum. Additional information can be found on each program's catalog or web page.

Applicants who must submit official GRE scores should take the general portion (verbal and quantitative sections) of the exam. The writing section is also required for some programs. Subject examinations are neither required nor accepted.

The GRE score is valid for five years after the exam date and must be sent directly from the testing center. Scores requested by the student before the deadline, but received by The Graduate College after the deadline, will be considered late.

**Graduate Management Admission Test (GMAT)**

The GMAT is required to be on file with The Graduate College prior to admission consideration for some programs. Additional information can be found on each program's catalog or web page.

The GMAT score is valid for five years after the exam date and must be sent directly from the testing center. Scores requested by the student before the deadline, but received by The Graduate College after the deadline, will be considered late.

**English Proficiency Exam Scores**

The Requirements for the Test of English as a Foreign Language (TOEFL), Pearson Academic English Language Test (PTE Academic), International English Language Testing System (IELTS), Duolingo (DET), or TOEFL Essentials can be found in the International Admission Documents section of this catalog.

**Documentation of Meningitis Immunization**

Universities in Texas are required by state law to collect proof of bacterial meningitis vaccination, or proof of an exemption, for incoming students under the age of 22. Magnus Health Student Medical Records (SMR) collects, reviews, and confirms students' bacterial meningitis vaccination information. For more information on this requirement, please visit the vaccine policy web page or contact Magnus Health SMR customer service via email (service@magnushealthportal.com) or at 877-461-4831.

In addition to all general admission requirements, applicants with international credentials (including any study abroad or exchange course work) or English proficiency exam scores, may be required to submit the following requirements for admission consideration.

**Application Fee for Applications with International Credentials**

Applicants who require a visa and those with documents that require the review of any non-U.S. credentials or English proficiency exam scores must submit a nonrefundable application fee of $90. No application will be considered until the necessary fees have been paid.

**Official Transcripts/Marks Sheets**

The Graduate College requires two official, university-sealed transcripts (and marksheets if applicable) from every university attended: one in the native language of the country where the university is located and one certified translation into English. If the native language of the country where the university is located is English, only one official transcript is required. Transcript evaluations are not required. Academic records (transcripts and mark sheets) must be submitted directly to The Graduate College by post in an envelope sealed by the university recognized by the appropriate bodies of that country and must include official stamps, seals, and/or signatures from the university’s Registrar or Controller of Examinations. These documents must be printed on university letterhead in order to be considered official. Copies of official transcripts and mark sheets may be uploaded to the application portal for application review purposes.

**Graduation/Degree Certificate (Diploma)**

The Graduate College requires two copies of official diplomas or degree certificates: one in the native language of the country where university is located and one certified translation into English. Certificates must include the type of degree earned and the date the degree was awarded, as well as all official stamps, seals, and/or signatures from the university’s Registrar or Controller of Examinations Office.

**Official English Proficiency Exam Scores**

Fluency in English is expected of all accepted students, specifically in the areas of listening, reading, speaking, and writing; therefore, English proficiency exam scores through the Test of English as a Foreign Language (TOEFL), Pearson Test of Academic English (PTE), International English Language Testing System (IELTS), Duolingo (DET), or TOEFL Essentials are required of all applicants.

ALL TOEFL, PTE, IELTS, DET, or TOEFL Essentials scores submitted for admission consideration must be less than two years old as the testing service sites will not maintain or release official score records beyond this time. ALL TOEFL, PTE, DET, or TOEFL Essentials scores must be submitted to The Graduate College directly by the testing organization. IELTS scores maybe reported by the applicant by completing the TRF Verification Form on the applicant’s application portal. The applicant’s IELTS scores will be confirmed with IELTS by the Graduate College; score reports bearing the designation of “applicant copy” or “institutional scores” will not be considered official for admission purposes. Scores requested by the student before the deadline, but received by The Graduate College after the deadline, will be considered late.

**English-Proficiency Admission Requirements**

Applicants must submit a TOEFL internet-based test (iBT) score of at least 78 overall, a PTE score of 52 overall, or an IELTS (academic) test score of at least 6.5 overall with 6.0 in each individual module scores, a DET score or 110 overall, or TOEFL Essentials score of 8.5 overall in order to be considered for regular admission based on English proficiency.* Some programs may require a higher overall score or specific minimum individual iBT section scores in order to be considered for regular admission. Additionally, some programs may require that applicants submit scores for one specific type of test. These requirements are listed on each program’s catalog or web page.

* Regular admission based on English proficiency does not guarantee regular academic admission.
All immigration-related documents will be collected by the International Student and Scholar Services. Once admitted, students should contact the International Student and Scholar office (ISSS) to request the document I-20 needed for their F-1 visa appointment. Visit the International Student and Scholar Services (ISSS) web site for more information on the next actions to take as a prospective international student. For further information, students should contact ISSS directly via 512-245-7966 or by email at international@txstate.edu.

**Registration and Course Credit**

Since applications are for specific semester or terms, applicants should notify The Graduate College as soon as possible if they will not be enrolling for the semester of admission.

Texas State uses an online registration system referred to as Texas State Self-Service which requires admission to the university and an associated NetID and password. Texas State Self-Service can be accessed through CatsWeb (http://www.catsweb.txstate.edu/). For more information, students should access the Office of the University Registrar’s website at http://www.registrar.txstate.edu.

**Registration Termination**

Registration in The Graduate College beyond the first term depends on satisfactory progress in fulfilling any admission conditions that may have been imposed and making satisfactory progress.

The dean of The Graduate College may terminate the registration of any student who fails to comply with Graduate College and/or other appropriate university regulations.

**Course Load and Overloads**

**Course Load**

At the graduate level, the full-time course load during the fall, spring, and summer is nine semester hours. Seven hours is considered ¾ time and five hours is half-time. Students may take up to 15 hours during the fall and spring terms and up to 12 hours during the summer.

A student under F-1 international student visa status must be enrolled full-time (nine graduate semester hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gain admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. Also, an F-1 international student not holding an assistantship can be enrolled in fewer than 9 hours and be considered full-time under two conditions: a) if they have completed all course work and are completing an internship integral to their degree program (student must apply for Curricular Practical Training to work off-campus), b) if they have completed all course requirements and are working on their thesis/dissertation only. The exception under a) can be granted for one semester only, the exception under b) can be granted for multiple semesters provided the student makes progress on the thesis/dissertation. A student enrolling less than full-time must apply for a reduced course load prior to enrolling or dropping a course that results in less than full-time enrollment. Please contact International Student and Scholar Services at 512-245-7966 for more information.

The department or operating unit will determine the permissible course load of employees of the university under their supervision. Graduate assistants should refer to the *Salared Graduate Student Employment Procedures* outlined in UPPS 07.07.06.

A student receiving Veterans Affairs (VA) benefits must check with the VA office (512-245-2641) for enrollment requirements.

**Overloads**

Course loads of 16 hours or more require written approval from the dean of The Graduate College. To request an overload, the student must make a request to the major department advisor who must submit a written request to the dean of The Graduate College at least three days before registration.

**Credit Hour**

For purposes of this catalog and in accord with federal regulations regarding the definition and assignment of credit hours under section 600.0 and 600.24(f) of the Higher Education Opportunity Act, a credit hour is an amount of work that reasonably approximates:

- not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately 15 weeks for one semester or trimester hour of credit, or 10 to 12 weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time;
- at least an equivalent amount of work as outlined in the item above for other academic activities as established by the institution including laboratory work, internships, practicum, studio work, and other academic work leading to the award of credit hours.

A semester credit hour is defined by Texas Higher Education Coordinating Board as a unit of measure of instruction consisting of 60 minutes, of which 50 minutes must be direct instruction over a 15-week period in a semester system. Credit hours must be presented in whole numbers. Academic administrative units are responsible for ensuring that credit hours are awarded only for work that meets this requirement. Students should expect to invest a minimum of two hours of additional work for each hour of classroom or faculty instruction per week.

**Adds and Drops/Schedule Changes**

Information regarding schedule changes can be found on the Office of the University Registrar’s website at http://www.registrar.txstate.edu/. Schedule changes and withdrawal dates are published each term in the official university calendar that can be found at: http://www.registrar.txstate.edu/persistent-links/academic-calendar.html.

For assistance, contact the Office of the University Registrar.

**Auditing a Course**

To audit a course, a student must be admitted to The Graduate College. After the student has registered on CatsWeb, he or she must contact the Office of the University Registrar in person by the 4th class day in the summer or by the 12th class day in the fall or spring. Check the University Academic Calendar for the exact date. A student will pay the same fees as if the course were taken for credit and the course will be entered on his or her transcript record, but the student will not receive credit for the course.

Senior citizens, 65 or older, may audit courses without payment of a fee if space is available. Registration is permitted just prior to the start of the term, with reductions made by the tuition adjustment clerk, in
Course Numbers

Texas State follows a four-digit numbering system. The first digit indicates the level of the course: 1-freshman, 2-sophomore, 3-junior, 4-senior, 5- and 6-graduate and post-graduate, and 7-doctoral. Courses numbered 5000-6000 are open to all graduate students. Courses numbered 7000 are designed for doctoral students but may be open to other graduate students. The second digit of the course number indicates the semester credit hours the course carries. For example, a course numbered 5300 would carry three semester hours of graduate-level credit. The last two digits usually indicate the location of the course in the department's curriculum. The letter (A, B, C, etc.) at the end of a course number usually indicates a topics course whose content may vary from semester to semester. Numbers in parentheses (3-4) following a course title indicate the clock hours per week spent in lecture and laboratory, respectively.

Dropping a Class

Dropping a class is an official action whereby a student drops one or more courses, yet remains enrolled in at least one hour. Refer to the registration instructions at http://www.registrar.txstate.edu for details on dropping a class.

1. The drop deadline is the first 60 percent of the term. Please refer to the academic calendar on the Office of the University Registrar’s website for the most current dates.
2. A "W" grade will be assigned automatically when a student drops one or more classes by the automatic "W" deadline, the first 60 percent of the term.

Withdrawal from all classes

Withdrawing from the university (dropping all classes) is an official action whereby a student completes the online withdrawal form that goes to the Office of the University Registrar. The deadline to withdraw (go to zero hours) from Texas State is two weeks preceding final examinations during the fall and spring semesters and one week preceding final examinations during the two parts of summer term.

1. The deadline to receive an automatic "W" is the first 60 percent of the term. Refer to the academic calendar on the Office of the University Registrar’s website for the most current dates.
2. After the automatic "W" period, faculty assign grades to students who officially withdraw from the university. Faculty assign a "W" grade only to those students who have a passing average at the time the withdrawal action is officially completed. Otherwise, faculty assigns a "U" grade.
3. Please refer to the academic calendar on the Office of the University Registrar’s website for the withdrawal deadline.

Visit the Office of the University Registrar’s website at http://www.registrar.txstate.edu/ or contact the Office of the University Registrar at 512.245.2367 for the proper procedures. Students living in university residence halls must also contact the Department of Housing and Residential Life in person, by letter, or by fax.

Course Credit and Level

A student must be in attendance in class, fulfill the course requirements, and be evaluated by the course instructor in order to receive course credit.
have his or her program graduate advisor submit a written request to the dean of The Graduate College asking for acceptance of the transfer work toward the student's Texas State degree program. 

5. If the credits are to be earned after the student is admitted to The Graduate College or enrolled in a graduate degree program, the student must initiate a request for a letter of good standing well in advance of the time of anticipated enrollment at another university. Transfer credit cannot be permitted if the student fails to obtain a letter of good standing from the dean of The Graduate College prior to enrollment in the course(s) to be transferred. In order to obtain a letter of good standing, the student will need to:
   a. Receive permission from the departmental graduate advisor to take a course elsewhere.
   b. Have the graduate advisor submit a written request to the dean of The Graduate College so that the dean can issue an official letter of good standing. The request from the advisor should identify the course(s) by name and number and should state what term(s) and where the course(s) will be taken. If the dean of The Graduate College approves the request, a letter of good standing will be sent by the dean of The Graduate College to the university where the student will enroll.
   c. Have an official transcript of the work forwarded to The Graduate College at Texas State as soon as the grade(s) posts to the transcript at the other institution.

Transfer work will be accepted only if it bears a letter grade of "B" or higher, or a numerical equivalent. A grade of "Credit," "Pass," "Satisfactory," etc., is unacceptable. Transfer work will not be accepted for graduate degree credit from another institution if such courses are designated as non-degree, background, preparatory, etc. No credit will be awarded until an official transcript showing the course work to be transferred is on file in The Graduate College. The student may also be requested to provide a catalog from the transferring university that gives course descriptions for any transfer work requested. Students admitted on "Conditional Admission" or students on "Probation/Suspension" will not receive credit for transfer work taken under the aforementioned status. The dean of The Graduate College determines the applicability of transferred credit toward a graduate degree program at Texas State based on the recommendation of the program's graduate advisor. Applicability of transferred credit is made on a course-by-course basis. Students may appeal courses deemed non-transferable. The dean of The Graduate College, or designee, and graduate advisor review student appeals for re-evaluation of transferred credit.

Transcripts for Transfer Work

Texas State transcripts will separate transfer course work from Texas State course work. On the transcript, transfer work will be listed first, followed by Texas State course work. In each section, course work will be listed chronologically. The transcript will show the number of hours transferred, Texas State hours attempted, Texas State hours passed, Texas State grade points, and Texas State GPA.

Credits transferred are included in the total hours the student has earned, but the grades and quality points do not affect the student’s Texas State GPA. However, transfer grades and quality points do calculate into an overall GPA.

Prior Learning Assessment

Prior Learning Assessment (PLA) is the process for awarding course credit for specific knowledge and skills the student has acquired outside of an institution of higher education, prior to beginning the student's program of study at Texas State University. PLA must always be tied to official student learning outcomes of a specific course at Texas State and that course requirement is then waived for the student.

There are a limited number of credits that can be waived through PLA, which depend on the number of credits in the degree program. Approved PLA credit may be applied to a graduate degree program as follows:

- up to 6 hours for degree programs with 30-35 credit hours,
- up to 9 hours for degree programs with 36-41 credit hours, and
- up to 12 hours for degree programs with 42+ hours.

(Note that the total approved PLA credit and approved course transfer credit together must not exceed those amounts.) PLA is program-specific, not all programs have approved PLA processes, and requirements may differ from program to program. If a program allows PLA credit, specific requirements are described on the overview section of that program’s catalog entry.

Continuing Education

With a wide range of learning opportunities, the Office of Distance and Extended Learning offers Continuing Education opportunities that extend the resources of Texas State and contribute to the professional and economic development of Texas. Enrollment is open to all interested persons on a non-credit-hour basis; therefore, the courses are not offered through The Graduate College and do not apply toward a graduate degree, nor are they considered for regular admission. For information about continuing education programs, go to http://www.txstate.edu/continuinged/.

Extended and Distance Learning

The university offers many courses and programs via distance learning and extended hours on evenings and weekends at the San Marcos and Round Rock campuses.

All graduate courses and programs offered to distance learners carry the same course number, title, and description as those offered at the San Marcos and Round Rock campuses.

For F-1 international students, no more than the equivalent of one class or three credits per term may be counted toward the full course of study requirement if the class is taken online or through distance education and does not require the student's physical attendance for classes, examination, or other purposes integral to completion of the class.

Courses offered at a distance are identified each term in the Texas State Schedule of Classes and on CatsWeb. For more information on distance and extended learning at Texas State, visit http://www.distancelearning.txstate.edu (http://www.distancelearning.txstate.edu/).

Extension Courses

The Office of Distance and Extended Learning offers many college courses not normally offered through the academic departments/schools. Extension courses may be offered on campus, online, hybrid/blended, or as part of a faculty-led Study-in-America or Off-Campus program. The times and locations for such courses depend on student need, faculty availability, and demand. Enrollment for an extension class is completed through the Office of Distance and Extended Learning and does not constitute acceptance as a regular student at Texas State.
Degree Credit for Extension Course Work

The department chair and the dean of The Graduate College must approve extension work for it to be credited toward a graduate degree. Students must meet the admission requirements as identified under the "Master’s and Doctoral Degree-Seeking Applicants" section and be accepted in a degree program before extension work can receive degree credit. Extension course work cannot be used toward a doctoral degree at Texas State.

A maximum of 12 semester hours of graduate credit may be earned in extension courses offered by Texas State.

Extension Transfer Credit

Up to three semester hours of the total allowable six hours of transfer credit for a degree may be earned through extension courses from another accredited institution. Students admitted on "Conditional Admission" or students on "Probation/Suspension" will not receive credit for transfer work taken under the aforementioned status.

For more information on Distance and Extended Learning at Texas State please visit the Distance and Extended Learning page (p. 756).

Class Attendance

It is the policy of the university to require regular, punctual attendance in all classes. However, the university recognizes that attendance policies may vary from department to department and from course to course. The university has no mandatory class attendance requirements except:

1. Each faculty member will inform students of the course attendance policy at the initial class meeting.
2. Students are responsible for understanding the attendance policy for each course in which they enroll and for meeting the attendance requirements.

Religious Holy Days

"Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. In accordance with Texas Education Code Section 51.911, if a student notifies the instructor(s) of each class from which they will be absent due to the observance of a religious holy day, the student will be allowed to take an examination or complete an assignment scheduled for that absent day within a reasonable time after the absence. The Education Code includes excused absences for travel to and from the religious holy day observance. The student may make up class assignments or examinations without penalty within a reasonable time after the absence. A student who is excused under this section shall not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time. Each instructor may establish additional procedures to accommodate the needs of students who are absent from classes to observe a religious holy day. These procedures must not conflict with the state law.

Coordinating Board rules provide for an appeal of a disagreement between the student and a faculty member over an absence related to a religious holy day. If a student and an instructor disagree about the nature of the absence being for the observance of a religious holy day, or if there is a disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the president or the president's designee. The president or the president’s designee must consider the legislative intent of Education Code Section 51.911. The student and instructor shall abide by the decision of the president or the president's designee. The academic dean of each college serves as the president's designee to hear requests for decisions on these matters from either the faculty member or the student. Any questions concerning this policy should be directed to the Dean of Students Office.

Course Grades

Grades

Texas State grades are assigned as follows "A," excellent; "B," good; "C," passing (not at the doctoral level); "D," passing (not at the graduate level); "F," failure; "I," incomplete; "U," unearned "F"; and "W," withdrawn passing. A grade of "PR" in most instances may be temporary and non-punitive, but may be assigned in selected courses where the required clock hours needed to complete requirements extend beyond the regular term or summer session. A grade of "CR" is assigned when credit only is given for a course, as, for example, in a thesis course after completion of the thesis. A grade of EP (emergency passing) may be used during significant disruptions to academic operations credited by health pandemics or natural disasters. The EP grades indicates passing credit given and counts toward attempted hours, excess hours and repeat calculations. The EP grade does not count in GPA calculations. For a complete list of grades currently and previously used at Texas State visit the Office of the University Registrar’s website at http://www.registrar.txstate.edu/our-services/grades.html

Incomplete Grade (http://www.registrar.txstate.edu/our-services/grades.html)

If any course work is incomplete during any term, the work must be completed by an indicated deadline arranged between the student and the course instructor. The "I" grade may be assigned when, due to unusual circumstances beyond the student’s control, a portion of a course, such as a term paper or final examination, has not been completed. If a student needs to repeat a course or a significant portion of a course, "W," "F," or "U" grade should be assigned according to regulations governing the assignments of such grades. An "I" grade from Texas State will not count as hours completed until another grade is substituted for the "I." After the incomplete deadline date the "I" grade will automatically change to "F." An "I" grade may be changed only to another letter grade and may not be extended beyond one year from term in which the original grade was assigned. A grade of "I," once changed to an F or another letter grade, may not be changed back to a grade of I. An "I" grade transferred from another institution remains as "I" on the Texas State record until an updated transcript is received from the other institution.

Withdrawal Grade

A "W" grade is assigned only if a student drops a course by the published deadline. See also “Registration and Course Credit” section under “Withdrawal from all classes”.

Change of Grade

An individual course grade may be changed when the involved faculty member certifies to the Office of the University Registrar that an error was made in computing the original grade. The grade change must be approved by the department chair/school director and the appropriate college dean. Students who wish to protest a grade earned in a course should first discuss the grade with the instructor. If no resolution is reached, the student may appeal the grade to the department chair.
Grade Point Average (Four-Point System)
The GPA is the number of grade points earned divided by the number of credit hours attempted. Term grade symbols have the following values:

- A = 4 points
- B = 3 points
- C = 2 points
- D = 1 point
- U/F = 0 points

Grades are not calculated for "I," "CR," "PR," or "W."

To Whom the Policy Applies
Doctoral students who have achieved candidacy, and thus have a continuous enrollment requirement during long (fall and spring) semesters, may take an approved Leave of Absence during graduate study under certain conditions and for certain periods of time. A Leave of Absence must be approved by both the student’s graduate advisor and the dean of The Graduate College. A Leave of Absence cannot be approved retroactively for a previous semester and must be submitted no later than the 12th class day of the semester for which the leave is being requested.

Pre-candidacy doctoral students and master’s students are not required to complete Leave of Absence paperwork if stopping out; however, it is recommended that they do so as the process provides a vehicle for more easily resuming their studies. Leave of Absence forms are located here (https://www.gradcollege.txst.edu/forms.html).

Purpose and Limitations
Students may need to discontinue their studies ("stop out") for a short period of time for reasons of personal or family exigency. Students who do not receive an approved Leave of Absence may be denied readmission to their program when attempting to reenter the program. Students who do not receive an approved Leave of Absence but are still readmitted may experience delays in registration and/or face additional fees. An approved Leave of Absence preserves the student’s status in their degree program. Leaves of Absence may not be granted for the student in order to avoid exceeding the state doctoral hour limit, to avoid paying tuition, to avoid the regulation on continuous enrollment of doctoral students, or to avoid the full-time requirement for international students.

Access to University Resources During a Leave of Absence
Because the Leave of Absence is intended to be taken for reasons of personal or other exigency as opposed to degree progress, there is no support — whether faculty or university resources (library, office space, etc.) — provided to the student during the Leave of Absence period; students must register if making use of university resources or faculty time. A Leave of Absence does not extend a student’s time-to-degree requirement. Discontinuing studies for a semester or more, with or without a Leave of Absence, may affect the student’s eligibility for other university areas beyond The Graduate College’s domain (such as financial aid, health insurance, etc.), and the student is responsible for consulting with those offices about the impact of not maintaining enrollment in the degree program.

Length Limitations of a Leave of Absence
A Leave of Absence can be granted for no more than three long semesters (fall and spring) total. The exact length of the Leave must be made explicit in the Leave of Absence request. Rationale for the Leave must be documented by the applicant.

Process for Requesting a Leave of Absence
Doctoral students who have advanced to candidacy must fill out the Doctoral Candidate Leave of Absence form (https://www.gradcollege.txst.edu/docs/Leave_of_Absence_Form_for_Doctoral_DEG-Candidates.pdf), which will require justification from the appropriate graduate advisor. The form must be submitted to The Graduate College for the dean’s review and approval.

Process for Returning to the University after an Approved Leave of Absence
Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not an approved Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Application form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to reapply to the program.

Depending on the length of time the student is away from the university, a new graduate catalog and/or program degree requirements may be in effect. With an approved Leave of Absence, the student may opt to complete their degree under the previous degree requirements or the new requirements with the approval of the graduate advisor, if the student was away from the university for a semester or more without an approved Leave of Absence on file, the student must complete their degree under the new degree requirements.

The university has a continuous enrollment policy for one category of graduate students, namely doctoral students who have achieved candidacy. For other categories of graduate students – pre-candidacy doctoral students, specialist degree students, and master’s degree students – while there is an expectation of enrollment each semester in order to make progress toward the degree, there is no specific continuous enrollment requirement. For that reason, The Graduate College does not require notification if a student decides not to enroll in a given semester. However, students may want to inform their program that they are stopping out for a period of time, and programs may find that information useful in tracking student progress. In those cases, students may complete the Leave of Absence Form for Master’s Degree, Specialist Degree, and Pre-Candidacy Doctoral Students form and provide it to their program. The program should then provide the form to The Graduate College to expedite processing readmit applications.

Leave of Absence is a separate process from withdrawing. Withdrawing from the university (dropping all classes) is an official action whereby a student informs Texas State that they will cease to attend all classes in which they are enrolled. The deadline to withdraw (go to zero hours) from Texas State is two weeks preceding final examinations during the fall and spring semesters and one week preceding final examinations during the two parts of the summer term. Visit the registrar’s office website at
www.registrar.txst.edu (https://www.registrar.txst.edu/) or contact the registrar's office at 512.245.2367 for the proper procedures.

Process for Returning to the University after a Leave of Absence
Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not a Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Enrollment form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to reapply to the program through Slate.

As members of a community dedicated to learning, inquiry, and creation, the students, faculty, and administration of our university live by the principles in this Honor Code. These principles require all members of this community to be conscientious, respectful, and honest.

We are Conscientious
We complete our work on time and make every effort to do it right. We come to class and meetings prepared and are willing to demonstrate it. We hold ourselves to doing what is required, embrace rigor, and shun mediocrity, special requests, and excuses.

We are Respectful
We act civilly toward one another and we cooperate with each other. We will strive to create an environment in which people respect and listen to one another, speaking when appropriate, and permitting other people to participate and express their views.

We are Honest
We do our own work and are honest with one another in all matters. We understand how various acts of dishonesty, like plagiarizing, falsifying data, and giving or receiving assistance to which one is not entitled, conflict as much with academic achievement as with the values of honesty and integrity.

The Pledge for Students
Students at our university recognize that, to ensure honest conduct, more is needed than an expectation of academic honesty, and we therefore adopt the practice of affixing the following pledge of honesty to the work we submit for evaluation:

“I pledge to uphold the principles of honesty and responsibility at our university.”

The Pledge for Faculty and Administration
Faculty at our university recognize that the students have rights when accused of academic dishonesty and will inform the accused of their rights of appeal laid out in the student handbook and inform them of the process that will take place:

“I recognize students’ rights and pledge to uphold the principles of honesty and responsibility at our university.”

Addressing Acts of Dishonesty
Students accused of dishonest conduct may have their cases heard by the faculty member. The student may also appeal the faculty member's decision to the Honor Code Council. Students and faculty will have the option of having an advocate present to insure their rights. Possible actions that may be taken range from exoneration to expulsion. Information about the Honor Code Council and its policies and procedures may be found at http://www.txstate.edu/honorcodecouncil/.

A prospective graduate/doctoral assistant must be enrolled as a regular, degree-seeking student in The Graduate College. Graduate/doctoral assistants may be employed as teaching assistants, instructional assistants, research assistants, or graduate assistants. The information below can also be found in UPPS 07.07.06. Salaried Graduate Student Employment.

Types of Graduate Assistantships
- **Graduate Teaching Assistants and Doctoral Teaching Assistants (GTA/DTA)** are employed by an academic department, paid from faculty salaries and reported as the “teacher of record” for an organized undergraduate class. Graduate teaching assistants and doctoral teaching assistants receive a faculty contract for a semester or the academic year, are paid on a monthly basis, and are exempt from The Fair Labor Standards Act (FLSA) under the learned professional exemption. The student must hold a master's degree in the teaching discipline or have completed eighteen graduate semester hours in the teaching discipline. (Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Principles of Accreditation.)

  Graduate teaching assistants and doctoral teaching assistants must submit a complete faculty applicant packet that consist of a faculty employment application, official transcripts from all degree-granting institutions, a current vita or resume, a Criminal Background Check Consent Form and an English Proficiency Form.

- **Graduate Instructional Assistants and Doctoral Instructional Assistants (GIA/DIA)** are employed by an academic department, paid from faculty salaries, but are not reported as the “teacher of record.” Graduate instructional assistants and doctoral instructional assistants are responsible for a specific group of students (typically undergraduate students) and assign some portion of these same students’ grades. If graduate students are assigned as instructional assistants in graduate courses, they cannot grade other students’ work nor have access to their grades. In rare circumstances, the dean of The Graduate College will allow an exception for doctoral instructional assistants assigned to master's level classes, provided there is no conflict of interest. The academic department may pay graduate instructional assistants’ salaries for those assisting in the operation of a lab or an activity or recitation group from course fees collected for this purpose. Graduate instructional assistants and doctoral instructional assistants are appointed for a semester or the academic year, paid on a monthly basis, and are exempt from the FLSA under the learned professional exemption.

- **Graduate Research Assistants and Doctoral Research Assistants (GRA/DRA)** are employed by a department or university office and may receive pay from grant or university funds. Chapter 10 of the US Department of Labor’s Field Operation Handbook defines research assistants as students “engaged in research in the course of obtaining an advanced degree and the research is performed under the supervision of a member of the faculty in a research environment provided by the institution under a grant or contract.” If employed on a grant, the work performed must directly relate to the objectives of the grant. Graduate research assistants and doctoral research assistants can be appointed for a semester, the academic year, or the duration of a research project or any portion thereof, and paid on a
monthly basis. They are exempt from the FLSA under the graduate research exemption, as provided in the June 28, 1994 DOL opinion letter #1263.

- **Graduate Assistants and Doctoral Assistants (GA/DA)** are employed by a department or university office and may receive pay from grant or university funds. Responsibilities may include research (not under the supervision of a faculty member), technical assistance, and institutional support. To avoid conflicts of interests, graduate and doctoral assistants cannot have access to records of graduate students of their degree-granting department. Graduate assistants and doctoral assistants who have access to records must be Family Educational Rights and Privacy Act (FERPA) trained and sign a confidentiality agreement. Graduate /doctoral assistants are considered non-exempt and are not eligible for paid leave including holidays. Students who work over 40 hours in a week will be compensated at time and one-half.

**Academic Expectations**

All assistants must have unconditional acceptance into a graduate degree program. All assistants must maintain a minimum 3.0 Texas State GPA in course work leading toward completion of a graduate degree.

**Course Load**

The minimum course load required during a fall/spring term of employment as a graduate assistant is nine graduate semester hours. Students who enrolled in nine graduate semester hours during the prior spring and fall semesters (or with an approved exception on file) are not required to enroll during the summer; otherwise, enrollment in three graduate hours is required for the summer term. Assistants taking more than 12 graduate semester hours during the fall/spring terms must have approval from the dean of The Graduate College. Similarly, assistants taking more than six graduate semester hours per summer session must have approval from the dean of The Graduate College. If an international student starts their degree program in the summer they must be enrolled in 9 semester hours in the summer.

**Required Teaching Assistantship Courses**

As a condition of employment, all GTAs, DTA, GIAs, and DIAs must complete a total of three hours of professional development course work. The course titles for the required in-service teaching courses vary by department. Some departments offer one three-hour course, some departments offer a two-hour and one-hour course for a combination of three hours, and other departments offer a one-hour course to be taken three times. Assistants enroll in the course offered by the department in which they are employed during their first term of employment and continue to enroll in subsequent terms until the three-hour requirement is met, as applicable. Students may not enroll in this course work beyond the required three hours. Up to a total of three semester hours may be used with other graduate courses to satisfy the minimum nine semester hours of enrollment required as a condition of employment. The University administration will cover the fees and tuition for the required teaching assistantship course (up to a total of three semester credit hours only). The hiring department must submit the Mandatory Graduate Assistantship Courses form, which requires the student’s signature, prior to census day. The form is located under University Approved Forms at www.sbs.txst.edu/students/waivers-exemptions.html (https://www.sbs.txst.edu/students/waivers-exemptions.html).

**Allowable Work Hours**

During the fall and spring terms, assistants may work up to 50% (20 hours per week) full time equivalent (FTE). During the summer term, assistants may be approved by the dean of The Graduate College for additional hours, up to a maximum of 75% FTE (30 hours per week) only if the entire position is externally grant-funded and up to a maximum of 100% FTE if the position is externally funded and the project is directly related to the student’s thesis or dissertation thesis/dissertation. An exception request with justification from the graduate advisor or department chair approved by the dean of The Graduate College must be on file with The Graduate College for employment requested over 50% FTE.

**Teaching Load for Graduate/Doctoral Teaching Assistants**

The usual semester hour teaching load during the fall or spring term is six semester hours or two classes. The usual semester hour teaching load during a six-week or eight-week summer session is one course (up to a maximum of four hours). A twelve-week summer session carries a normal teaching load of six hours. The dean of The Graduate College must approve any exceptions to these teaching loads.

These policies are designed to protect the graduate/doctoral assistant from bearing an unfair employment and course load, which could impede the timely completion of the degree.

Refer to UPPS 07.07.06 (http://www.txstate.edu/effective/UPPS/ upps-07-07-06.html), Salaried Graduate Assistant Employment Procedures, for more detailed information regarding salaried graduate student employment procedures.

**Assistantship Orientation**

Most departments conduct one or more orientation sessions for new assistants. Newly-hired assistants should inquire about orientation attendance requirements with the department or university office at the time they apply for employment.

**Academic Eligibility Requirements**

To see a detailed list of academic and enrollment requirements needed to be eligible for a specific assistantship position, please view The Graduate College's guide (https://www.gradcollege.txstate.edu/docs/gapcr_checklist.pdf).

**How to Apply for a Graduate Assistantship**

Applications for assistantships should be made directly to the department or university office following their application procedure. It is also possible to apply for certain assistantship positions online through Career Services at Handshake (https://txstate.joinhandshake.com/login/).

**Selection and Appointment**

Offers of assistantships are contingent on available funds and admission of the applicant to a degree-seeking graduate program. Graduate assistantship appointments range from a four-and-one-half month period during a summer term to a nine- or twelve-month period during the fall or spring term. The term of an appointment for a Research Assistant may be based on the period of available grant funding. Renewal is at the discretion of the department or university office for which the student is employed. In all cases, the account manager or the manager's designee will decide who is hired in accordance with the qualifications and standards required for the position.

**Supervision and Evaluation**

Teaching assistants are the "teacher of record" for the course(s) assigned; however, they are under the direct supervision of a faculty
member experienced in the teaching discipline. Instructional assistants are supervised by the Instructor of Record or Laboratory Coordinator of the courses assigned. Research assistants are usually supervised by the faculty member or office supervisor with whom they work. All assistantship positions undergo regular evaluation as required by the department in which they are employed.

Salaries and Benefits
Assistants are paid in accordance with the University Pay Plan salary schedule which can be viewed at www.hr.txst.edu/compensation/universitypayplan/studentemployees.html. Salaries and Benefits department in which they are employed.

Eligibility for In-state Tuition
Certain assistantship types may qualify for tuition waivers through the office of Student Business Services. For more details, please refer to the Tuition Waivers and Exceptions list here: http://www.sbs.txstate.edu/students/waivers-exemptions.html.

Health Insurance
Assistants, employed at least half-time (50% FTE) for a minimum period of four and a half consecutive months, are eligible for employer group insurance plans administered by the Human Resources Benefit Office. Assistants may choose between the Student Insurance Plan administered by the Student Health Center and the Employer Group Insurance Program administered by the Human Resources Office. Also, some assistants may already be covered by insurance outside the university and, therefore, may choose not to enroll in a health insurance option offered by Texas State. Assistants should refer to the comparison summary on the Human Resources Office web site in order to make an educated decision. UPPS 07.09.04 International Student Health Insurance, requires all enrolled international students with non-immigrant F-1 and J-1 visa classifications to purchase coverage under the designated international student health insurance policy as a condition of enrollment. The premium will be automatically billed to the international student’s account.

Non-Discrimination
No person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under, any program or activity sponsored or conducted by Texas State University on any basis prohibited by applicable law, including race, color, age, national origin, religion, gender, sexual orientation, or disability.

Student Employee Termination, Separation, and Grievance Procedures
The policy and procedures for addressing unsatisfactory job performance and separation are outlined in UPPS 07.07.04. This policy also describes the available employment grievance procedures available to student employees.

A graduate or post-graduate student as defined in this catalog is required to maintain a 3.0 cumulative grade-point average (GPA) for all Texas State University 5000-, 6000-, and 7000-level courses (excluding required leveling courses) listed on a student’s degree audit for a graduate degree. Cumulative GPAs are computed at the end of the fall term, the spring term, and the summer.

If a graduate student’s cumulative GPA falls below 3.0 during any term of enrollment at Texas State, the student will be placed on academic probation. In the next term of enrollment, the student must raise his or her cumulative graduate GPA to 3.0 or above or be suspended from further graduate study at Texas State. When the student has achieved a cumulative GPA of at least 3.0 at the end of the term of probation, the student will be removed from probation status.

Readmission
A student on suspension may petition the graduate dean for permission to re-enroll in The Graduate College. An appeal form for the graduate dean is available on The Graduate College’s website (https://www.gradcollege.txst.edu/forms.html). This written appeal should include additional supporting documentation. The appeal will be reviewed by the graduate advisor and subsequently by the dean of The Graduate College. Each readmission decision is made on an individual basis and the dean of The Graduate College’s decision is final. If a reinstatement is approved, the date of the reinstatement depends on the timing of the appeal, program policies, and/or conditions of the reinstatement. If a student is readmitted after being suspended, the student must maintain a 3.0 cumulative GPA or be suspended again. Individual graduate programs may also impose additional cumulative GPA or course restrictions for their students.

Change of Major
Graduate students on probation may not change programs or admission status without a recommendation and request from the prospective department. The dean of The Graduate College will review the request when making the final decision. If a suspended student wants to pursue a different program, the student must first submit an appeal to be reinstated to the dean of The Graduate College. The written appeal should include a justification. If the dean of The Graduate College grants permission to a student to pursue a different program, the student must submit an application for admission in the online application portal and comply with instructions as identified under the degree-seeking admission requirements section of the catalog. This procedure must be completed in ample time to meet the admission deadlines. Acceptance in one program does not guarantee acceptance in another program.

Financial Aid
If a student is receiving financial aid, the student must also meet the satisfactory academic progress requirements for financial aid. See the Financial Aid section under General Information for further details.

SACSCOC Accreditation
Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) accreditation is institutional in nature. Although many programs are accredited by other agencies, SACSCOC accredits the university as a whole, not specific degrees or programs.

Degree Audit
On the admission application, a student must select from available choices: major, minor, cognate, no minor option, area of concentration, degree type (M.A., M.Ed., M.S., Ph.D., etc.), and, for the master’s degree, thesis or non-thesis track. After being admitted to a program, the student may access a degree audit from Texas State Self-Service (CatsWeb) using Degree Works software. The degree audit will guide the student in selecting courses for registration each term. The student should meet with their graduate advisor during the first term of admission to discuss options and review the degree program. Requests for changes
to a student's degree audit must be submitted by the student's advisor to the dean of The Graduate College for approval.

Because graduate degree programs are individualized according to degree type and student goals, a student’s particular degree program may exceed the number of hours identified for the program in this catalog.

Background/Leveling Course Requirements

Students should refer to the appropriate departmental pages in this catalog for specific information about background/leveling requirements or contact the graduate advisor for their program of study.

Course work identified on a student’s official degree audit as background/leveling is not awarded graduate degree credit and is not used in the computation of the graduate GPA. See the “General Graduation Requirements” section.

Graduate advisors may stipulate that one undergraduate course be taken as a background requirement. All other background course deficiencies must be satisfied by the student enrolling in graduate-level leveling courses.

Degree Time Limit

A program leading to a master's or specialist degree must be completed within six years from the date of a student's initial enrollment in the program for which they were admitted. An exception to the standard six-year time limit is the nursing program. No credit will be applied toward the master's degree for work completed more than six years before the date on which a student's degree is to be conferred unless an exception has been approved by the graduate advisor and dean of The Graduate College. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for time extensions must be submitted to a student's graduate advisor, who in turn submits a petition to the dean of The Graduate College for final approval.

A program leading to a doctoral, Ph.D. or Ed.D. degree must be completed within ten years from the date of a student's initial enrollment in the program for which they were admitted. No credit will be applied toward the doctoral degree for course work completed more than ten years before the date on which a student's degree is to be conferred unless an exception has been approved by the program director and dean of The Graduate College. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for time extensions must be submitted to a student's doctoral program director, who in turn submits a petition to the dean of The Graduate College for final approval. Doctoral students should refer to the appropriate departmental section of this catalog for specific time limit requirements regarding advancement to candidacy and dissertation completion.

99 Hour Rule

In accordance with Texas Education Code, Section 54.066, the university will incur a penalty once a doctoral student accumulates 100 or more doctoral semester credit hours. In response, the Texas State University System has a tuition structure (excessive hours fee) in which a doctoral student will be charged tuition at a rate equivalent to non-resident tuition for all doctoral semester credit hours exceeding 99. Courses taken by a doctoral student at the master's or undergraduate level will not count towards the 99 hours. If the student is admitted to a doctoral program from the bachelor's degree, the count begins after 30 hours of graduate course work. This tuition structure applies to Texas residents as well as out-of-state residents and international students who were eligible to be charged tuition at the resident rate as a result of scholarship and fellowship awards or employment as graduate assistants. Students should contact their doctoral program directors regarding an available appeal process.

Catalog

Students completing graduate programs within the degree time limits may graduate under the catalog in effect when they began the graduate program. In certain programs, additional hours may be added to the degree for accreditation or additional research purposes. Should a program change occur, a student must submit a written request to The Graduate College to graduate under the new program requirements. A student who has questions should contact either The Graduate College or the graduate advisor.

Academic advising for students is handled through the student's major department (or minor department if applicable) after the student has received formal acceptance to The Graduate College. This method of advisement ensures that students will receive sound academic advice from faculty in their chosen field of study. Students must adhere to program-specific policies and procedures listed in departmental handbooks and may wish to discuss these policies and procedures with their graduate program advisor.

Applying for Graduation and Participation in Commencement

In order to graduate and participate in commencement activities, students must apply for graduation during the semester they plan to graduate. It is the responsibility of the student to ensure completion of all degree requirements as listed on the degree audit and required by the department. It is also the student’s responsibility to apply for graduation by the published deadline posted on the University Academic Calendar. That date, as well as other deadline dates and instructions outlining how to apply for graduation, are posted on The Graduate College website each term and communicated via the GradBulletin and social media and the academic calendar. For further information, contact The Graduate College at 512-245-2581 or visit our website (https://www.gradcollege.txst.edu/docs/xref.pdf).

The Difference Between Participating in Commencement and Graduating

“Graduating [receiving a diploma]” and “participating [walking across the stage]” in the commencement ceremony are two distinctly different things. Candidates will be considered “graduated” when they have officially met all of the following:

1. have applied for graduation online by the posted semester deadline
2. have had their application approved by The Graduate College
3. have completed all degree requirements
4. have had final semester grades posted to their Texas State transcript
5. have paid any outstanding fees owed to the University
6. Graduate College Dean, has certified candidates as graduates

Participating in the ceremony does not mean that a candidate has completed the requirements for graduation. “Walking/participating” at a
Comprehensive Examination

All candidates for graduate degrees must pass one or more comprehensive examinations, either written, oral, or both, covering at least the field of concentration and the thesis or dissertation if one is written. Students seeking more than one degree must take a comprehensive examination for each degree major. The examination for a master's degree may not be taken until the student has completed at least 18 semester hours of graduate degree credit and may not be taken before the final term if the student has a grade deficiency.

Students must be enrolled in at least one credit hour of coursework when taking the comprehensive examination. If a student has completed all required coursework in a previous semester but still needs to complete the comprehensive examination, the student should enroll in GC 5100: Comprehensive Examination Contingency. GC 5100 is a course designed for non-thesis master's degree students who have completed all program requirements except the comprehensive examination, and enrollment in GC 5100 is required each term in which the comprehensive examination is taken only if no other courses are being taken that term. GC 5100 does not generate a grade and does not count toward degree requirements.

F-1 non-immigrant international students must contact the International Office at 512-245-7966 to verify that they are in lawful F-1 status, especially if the comprehensive examination is the final requirement remaining.

Arrangements for the examination may be made with the student's graduate advisor or the department chair. The Master's Comprehensive Examination form should be filed in The Graduate College by the last day of the term as published on the academic calendar. The department is responsible for submitting the report to The Graduate College.

GPA Requirements for Graduation

To be eligible for graduation, a student must have a GPA of at least 3.0 for each major and minor/cognate listed on the degree audit. A final course grade of "C" or higher is required for any graduate course that could be applied towards a graduate degree at Texas State. Some degree programs may call for higher minimum GPA and/or course grade requirements. In addition, no grade earned below "B" on any graduate course may apply toward a doctoral degree at Texas State with the exception of the Doctor of Physical Therapy program.

Background/Leveling Work

Background/leveling work is not computed in the graduation GPA requirement, nor is graduate-degree credit granted for background work for the degree to be earned.

Incomplete Grades

Incomplete grades should be cleared through the University Registrar’s Office at least ten days before the commencement for which the degree is to be conferred.

Hours Requirements

Graduate degree programs range from 30-99 hours of coursework. Master's degree programs require a minimum of 30 semester credit hours with a maximum of 69. Students obtaining certification may be required to complete additional hours.

Doctoral students should refer to the appropriate departmental section of this catalog for specific credit hours to satisfy degree requirements. Doctoral degree programs range from 46-99 semester credit hours.

Residency Requirement

Texas State University has specific guidelines regarding the number of hours that can be transferred in (see the section of this catalog on transfer credit (http://mycatalog.txstate.edu/graduate/registration-course-credit/course-credit/)). With appropriate justifications, exceptions can be granted by the dean of The Graduate College. However, at least one-third of credit hours required for a graduate or a post-baccalaureate professional degree must be earned through instruction at Texas State. In addition, doctoral students must satisfy a one-year residency requirement: This means that doctoral students, as part of their required hours of coursework, must take at least 18 graduate credit hours offered by Texas State during consecutive fall, spring, and summer terms. These courses can be offered in any format (face-to-face, online, hybrid). In other academic years, doctoral students can be enrolled in fewer hours. This is to ensure a substantial engagement with the subject area, ideally at the beginning of their studies.

Recommendation for the Degree

The dean of The Graduate College certifies candidates for graduation after the completion of all requirements for the appropriate graduate degree and with the approval of the departments concerned. Degrees are conferred publicly at the close of the fall term, the spring term, and the summer term.

If a student is admitted to a master's degree program with a thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student's capability for research and independent thought. Preparation of the thesis must conform to the Thesis & Dissertation Resource Guides (https://www.gradcollege.txst.edu/students/thesis-dissertation/resources.html).

Thesis Proposal

The student must submit an official Thesis Proposal Form (https://www.gradcollege.txst.edu/docs/thesis-proposal.pdf) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’
signatures, the graduate advisor's signature and the department chair's signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. The IRB approval letter should be included with the proposal form. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student registers for thesis course number 5399A. After that, the student will enroll in thesis B courses in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor does not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair's discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. Thesis hours are not permitted to count as elective credit in non-thesis track degrees.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. Thesis hours are not permitted to count as elective credit in non-thesis track degrees. The thesis credit remains on the transcript as a PR grade and in the open electives block of Degree Works. Thesis credit ('CR') will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered in at least one hour of thesis course credit each fall and spring semester (and summer, if receiving thesis supervision and/or using university resources) until the thesis has been completed, defended, submitted, and approved by The Graduate College.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu/) website under "Current Students." Students must consult with their committee chair to determine the date by which the thesis must be submitted to their thesis committee chair and thesis committee, prior to the defense date. Some students will have additional revisions to complete after the thesis defense. Once the final version of the thesis is approved by the committee, the student must submit the correctly-formatted thesis to Vireo on or before the deadlines listed on The Graduate College website. No edits are permitted under any circumstances after the thesis is approved by The Graduate College. Theses submitted after the deadline will not be approved until the following semester. Students must be enrolled in the semester they graduate.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the thesis is approved by The Graduate College, revisions to the document are no longer allowed and Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student's embargo selection). It is recommended that students discuss the appropriate embargo selection before submitting the thesis to Vireo. Students have the following options for the embargo:

1. No embargo
2. One or two-year embargo
3. Five-year embargo
4. Specials request embargo (inventions, discoveries, patents)

All forms must have all appropriate signatures. In addition to original (wet) signatures, the following methods of signing are acceptable:

- printing, signing, scanning, and emailing the form
- notifying the department in an email from their university's or institution's email account that the committee chair can sign the form on their behalf
- downloading and digitally signing the form per our instructions using the university's licensed platform (which is currently Adobe Acrobat)*

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

All theses and dissertations are submitted to the Library through Vireo, the electronic thesis and dissertation deposit platform. The Library harvests approved these and dissertations from this system for the online repository. The Library will retain a print copy of every student's thesis/dissertation for their circulating collection and a microfilm copy for the University Archives, regardless of the embargo selection. Supplementary files are excluded from this policy. The Library does not provide binding services. Some programs require the student deposit a hard copy with the department, so students should check with their departments regarding bound copies of theses/dissertations. The
student is responsible for paying all binding fees for personal and departmental copies. Please contact Alkek Library for more information.

The dissertation must demonstrate the student’s capability for original scholarly contributions to their field of study. The preparation of the dissertation must conform to Thesis & Dissertation Resource Guides. All forms referenced in this section can be found on The Graduate College website. Where indicated, forms must be completed and signed by the student, the committee members, the committee chair, the doctoral program director, and the department chair and then forwarded to The Graduate College for review and approval by the dean of The Graduate College. The preparation of the dissertation must conform to Thesis & Dissertation Resource Guides (https://www.gradcollege.txst.edu/students/research-thesis-dissertation/thesis-dissertation.html).

**Dissertation Committee**

The dissertation committee must be composed of approved doctoral graduate faculty members. The minimum number of committee members varies by doctoral program. The student should consult with the doctoral program director regarding the composition of the committee. To form the dissertation committee, the Dissertation Committee Request Form (https://www.gradcollege.txst.edu/docs/Dissertation_Committee_Request_Form.pdf) must be completed and signed as indicated on the form.

**Dissertation Proposal and Defense**

The student must submit the dissertation proposal and an official Dissertation Proposal and Proposal Defense Form (https://www.gradcollege.txst.edu/docs/Dissertation_Proposal_and_Proposal_Defense_Form.pdf) to his or her dissertation committee. If the dissertation research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board (IRB) prior to submitting the proposal form to The Graduate College. The IRB approval letter must be included with the proposal form. If the dissertation research involves vertebrate animals, the Dissertation Proposal and Proposal Defense Form must include the Texas State IACUC approval code. Each Ph.D./Ed.D. program prepares its own procedures for the dissertation proposal defense. The procedures may be obtained from the doctoral program director. Following the dissertation proposal defense, members of the dissertation committee, the doctoral program director and the department chair sign the Dissertation Proposal and Proposal Defense Form. The signed form and one copy of the proposal are then submitted to the dean of The Graduate College for approval before the student proceeds with research on the dissertation.

**Dissertation Enrollment and Credit**

A Ph.D./Ed.D. student may typically begin enrolling in a dissertation course during the term following completion of required course work as specified by the Ph.D./Ed.D. program. The number of dissertation credit hours students enroll in must reflect the amount of work accomplished on the dissertation that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the dissertation process. Once the student advances to candidacy, the student must continue to enroll in at least one hour of dissertation course credit each fall and spring semester (and summer, if receiving dissertation supervision and/or using university resources) until the dissertation has been completed, defended, submitted, and approved by The Graduate College. The minimum number of hours of required dissertation credit varies by Ph.D./Ed.D. program. Dissertation projects are by definition original and individualized projects. Thus, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the dissertation requires work beyond the minimum number of dissertation credits needed for the degree, the student may enroll in additional dissertation credits at the committee chair’s discretion.

The only grades assigned for dissertation courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a dissertation course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the dissertation is completed. Dissertation credit ("CR") will be awarded only after the dissertation has been approved by The Graduate College and released to Alkek Library.

A student must be registered for a dissertation course during the term or Summer I (during the summer, the dissertation course runs ten weeks for both sessions) in which the degree will be conferred.

**Dissertation Deadlines and Approval Process**

Dissertation deadlines are posted on The Graduate College (https://www.gradcollege.txst.edu/) website under "Current Students." Students must consult with their committee chair to determine the date by which the dissertation must be submitted to their dissertation committee chair and dissertation committee, prior to the defense date. Some students will have additional revisions to complete after the thesis defense. Once the final version of the dissertation is approved by the committee, the student must submit the correctly-formatted dissertation to Vireo on or before the deadlines listed on The Graduate College website. No edits are permitted under any circumstances after the dissertation is approved by The Graduate College. Dissertations submitted after the deadline will not be approved until the following semester. Students must be enrolled in the semester they graduate.

The following must be submitted to The Graduate College by the dissertation deadline listed on The Graduate College website:

1. The Dissertation Submission Approval Form, bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the dissertation in final form, approved by all committee members, uploaded in the online Vireo submission system. Some doctoral programs may require additional copies; the student should check with the doctoral program director regarding additional program requirements.

After the dissertation is approved by The Graduate College, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). Ph.D./Ed.D. students must submit the completed Survey for Earned Doctorates (SED) online by The Graduate College dissertation approval deadline which is available on The Graduate College website. It is recommended that students discuss the appropriate embargo selection before submitting the dissertation to Vireo. Students have the following options for the embargo:

1. No Embargo
2. One or two-year embargo
3. Five-year embargo
4. Special request embargo (inventions, discoveries, patents)
All forms must have all appropriate signatures. In addition to original (wet) signatures, the following methods of signing are acceptable:

- printing, signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- downloading and digitally signing the form per our instructions using the university’s licensed platform (which is currently Adobe Acrobat)*

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

All theses and dissertations are submitted to the Library through Vireo, the electronic thesis and dissertation deposit platform. The Library harvests approved theses and dissertations from this system for the online repository. The Library will retain a print copy of every student’s thesis/dissertation for their circulating collection and a microfilm copy for the University Archives, regardless of the embargo selection.

Supplementary files are excluded from this policy. The Library does not provide binding services. Some programs require the student deposit a hard copy with the department, so students should check with their departments regarding bound copies of theses/dissertations. The student is responsible for paying all binding fees for personal and department copies. Please contact Alkek Library for more information.

Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and The Texas State University System Board of Regents.

The table below lists all graduate majors and degrees as they appear on a diploma and a transcript. Please note that a number of these programs have additional options or concentrations available. Program hours depend on degree options selected. Consult the program page inside this catalog for more detailed information.

### Certificate and degree programs

Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board, and the Texas State University System Board of Regents.

Minor hours required are in addition to the hours required for the student’s chosen major. If you select a minor that has more hours than your degree plan requires, your total degree hours will increase by the number of excess hours in the minor. If you select a minor with fewer hours your degree plan requires, you must still meet the minimum hours required toward the degree. To change your minor please complete the change of minor/concentration form (https://www.gradcollege.txst.edu/docs/Change_of_Minor_or_Concentration_Form.pdf).

Click the name of the minor to find the course requirements and other requirements that may apply such as admission, GPA, etc.

</tbody>
</table>
In order to receive the certificate, a student must apply for graduation in the semester in which they plan to complete the certificate; although they are not eligible to participate in commencement ceremonies unless they are also earning a degree simultaneously. Late applications will not be accepted. It is the responsibility of the student to ensure completion of all certificate requirements as listed on the degree audit and required by the department. It is also the student’s responsibility to apply for graduation by the published deadline posted on the University Academic Calendar. That date, as well as other deadline dates, and instructions outlining how to apply for graduation are posted on The Graduate College website each term. Deadlines are also communicated via the GradBulletin.

Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and the Texas State University System Board of Regents.

The tuition and fees rates are available on the Student Business Services (http://www.sbs.txstate.edu/) website.

The University reserves the right to change fees in keeping with the acts of the Texas Legislature and the Board of Regents of the Texas State University System.

**Tuition**

**Doctoral Excess Hours (99-hour Rule)**

In accordance with Texas Education Code §54.012 (http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm#54012), the university will incur a penalty once a doctoral student accumulates 100 or more doctoral semester credit hours. In response, the Texas State University System has a tuition structure (excessive hours fee) in which a doctoral student will be charged tuition at a rate equivalent to non-resident tuition for all doctoral semester credit hours exceeding 99.

Courses taken by a doctoral student at the master's or undergraduate level will not count towards the 99 hours. If the student is admitted to a doctoral program from the bachelor’s degree, the count begins after 30 hours of graduate coursework. This tuition structure applies to Texas residents as well as out-of-state residents and international students who were eligible to be charged tuition at the resident rate as a result of scholarship and fellowship awards or employment as Graduate Assistants. Students should contact the Ph.D. Program Director regarding this appeal process.

Auditing Fees

Where auditing of a course is permitted, all fees will be the same as if the course were taken for credit. Eligible senior citizens, 65 or older, may audit courses without payment of a fee if space is available. For additional information, please visit the Auditing a Course (https://www.registrar.txstate.edu/registration/reg-home/audit.html) page.

Campus Parking/Vehicle Registration

Every student, faculty, and staff person who operates or parks a vehicle on campus must:

1. register the vehicle with Parking Services;
2. purchase a permit;
3. properly display a Texas State physical or virtual parking permit any time the vehicle is parked on campus; and
4. become familiar with and abide by the Traffic and Parking Rules.

The rules are enforced at all times throughout the year. The purchase of a permit and registration of the vehicle do not guarantee a parking space. Information on parking options can be found on the parking Services webpage. The online vehicle registration process can be accessed through the Parking Services portal at txstate.aimsparking.com or via CatsWeb.

Fees for vehicle registration will be published each year in the official rules and regulations and on the Parking Services website. Additional information concerning the purchase and issuance of parking permits may be obtained by contacting Parking Services at 512.245.2887.

International Student Health Insurance Fee

All International students on non-immigrant F-1 and J-1 visas are required by university policy to have health insurance coverage while a student at Texas State University. The international student health insurance premium will be billed to an F-1 and J-1 international student’s university account during the time of registration for classes. A student can submit a waiver to opt out of the insurance charge if the student has existing health insurance that meets one of the following criteria:

- Student is covered by a U.S. employer health insurance plan or by a parent/spouse’s U.S. employer health insurance plan that is compliant with the Affordable Care Act (ACA).
- Student’s sponsored plan (US Government or Foreign Government) is recognized by the U.S., and the sponsor guarantees payment of all healthcare expenses, including medical evacuation and repatriation, and are in compliant with the Affordable Care Act (ACA).

Detailed information on the health insurance or how to request an insurance waiver will be sent to international students by the International Student and Scholar Services. This information is available on the International Student and Scholar Services website: www.international.txstate.edu/current/Health-insurance-.html (http://www.international.txstate.edu/current/Health-insurance-.html).

Should you have any questions about the international student health insurance requirement, you may contact International Student and Scholar Services at intlhealth@txstate.edu.

IMPORTANT: Students will receive notices about the health insurance requirement through their Bobcat mail account.

International Students Operations Fee

All international students with an immigration status of “F” or “J” will be charged $60.00 per semester for the maintenance of records, compliance with government regulations, and other services.

Laboratory Fees

The amount of lab fees varies on a per course basis. See the Schedule of Classes for current lab fees.

Testing Fees

Administration fees will be charged for Proctoring Exam Services for Texas State Students and Non-Texas State students who wish to take a course exam at the Testing, Evaluation, and Measurement Center (TEMC) in San Marcos, or the Round Rock Campus Testing Center. The charge is $40.00 per test for exams two hours or less. The fee amount will vary with longer time limits. This fee also applies to students who wish to take a course exam through the TEMC rather than at the times offered as part of distance education courses. Students who request make-up exams
allowed by Texas State faculty will also be charged $40.00 per test for exams two hours or less.

Varying fees will also be charged for:

- Exams for credit
  - CLEP
  - Departmental
  - ACTFL-OPI
- Placement and college readiness tests
  - Accuplacer/Texas Success Initiative Assessment (TSIA)
  - Texas Higher Education Assessment (THEA)
- Upper-level barrier exams
  - ATI TEAS BSN
  - Punctuation, Usage, and Grammar (PUG)

Visit www.txstate.edu/temc ([https://www.txstate.edu/temc/](https://www.txstate.edu/temc/)) for specific fees, additional services, and information.

### Students' Financial Obligations

Tuition and fees are to be paid in full before the beginning of the semester or paid under an installment plan with an initial payment due before the beginning of the semester. Students are expected to meet their financial obligations to Texas State within the designated time allowed. For additional information, please visit the Student Business Services ([http://www.sbs.txstate.edu/](http://www.sbs.txstate.edu/)) website.

As consequences for the student's failure to meet financial obligations, the university may:

1. withhold official transcripts;
2. deny registration and payment confirmation of subsequent semesters;
3. assess additional fees for delinquent payments and returned items as detailed on the Student Business Services ([http://www.sbs.txstate.edu/](http://www.sbs.txstate.edu/)) website;
4. report unpaid university obligations to credit agencies;
5. cease university-provided services; and
6. place warrant holds with the State Comptroller’s Office stopping state payment to the individual owing the debt.

### Payment of Fees

Please visit the Payment Options ([https://www.sbs.txstate.edu/students/payment-options.html](https://www.sbs.txstate.edu/students/payment-options.html)) and Payment Methods ([https://www.sbs.txstate.edu/students/Methods-of-Payment.html](https://www.sbs.txstate.edu/students/Methods-of-Payment.html)) pages of the Student Business Services website for information regarding payment of tuition, fees, and room and board.

**Please note the following:**

- A 2.95% convenience fee with a minimum $3 per transaction fee is applied to credit/debit card payments (effective 5/2023). The convenience fee is not collected by the university and is therefore non-refundable.
- Mailed payments must be RECEIVED, not postmarked, BY THE DUE DATE. You must make allowances for any postal delays. Please include the student ID number.

### Financial Aid and Tuition Adjustment Recipients:

Students receiving financial aid and/or a tuition adjustment, should check their student account by logging in to the Payment Portal on the Student Business Services ([https://www.sbs.txstate.edu/](https://www.sbs.txstate.edu/)) website to ensure that credit was applied.

- Approved tuition adjustments will apply to the student account once received and processed. The Billing and Payment site does take 24 hours to update with this information.
- Students with a financial aid credit or tuition adjustment that covers 100% tuition, fees, and room and board do not need to take action.
- If the financial aid or tuition adjustment is not sufficient to cover 100% of the charges, the student must pay the total balance due or enroll in a payment plan to avoid course cancellation.

### Installment Payments

Students are responsible for making their installment payments by the due date. The installment due dates are listed on the Important Dates ([https://www.sbs.txstate.edu/students/dates.html](https://www.sbs.txstate.edu/students/dates.html)) page of the Student Business Services website. Students can check their balance, installment amounts, and make payments online by visiting the Student Business Services ([https://www.sbs.txstate.edu/](https://www.sbs.txstate.edu/)) website.

### Late Payment Fee

A delinquent charge of $65 will be assessed the first business day after the final payment due date of the semester. Under Texas Education Code §54.007, a student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made. A student who fails to make full payment prior to the end of the semester or term may be denied credit for the work done that semester or term. See the Students’ Financial Obligation section for more details.

### Returned Checks

If a check or EFT is returned unpaid for any reason other than the admitted error of the bank, the student must pay for the returned check with a non-resident and wishes to be considered for reclassification as a non-resident. An application for reclassification must be submitted to the Texas Higher Education Coordinating Board. A student or applicant is classified either as a resident of Texas, a non-resident, or a foreign student for tuition purposes. An individual’s residency classification is based on information from his or her admission application. If an applicant or student is classified as a non-resident and wishes to be considered for reclassification as a resident, the student must pay the total balance due or enroll in a payment plan to avoid course cancellation.

### Residency for Tuition Purposes

The determination of residency classification for tuition purposes is governed by statutes enacted by the Texas Legislature and rules and regulations promulgated by the Texas Higher Education Coordinating Board. A student or applicant is classified either as a resident of Texas, a non-resident, or a foreign student for tuition purposes. An individual’s residency classification is based on information from his or her admission application for reclassification as a resident.
Determination of Residence Status

1. The following persons shall be classified as Texas residents and entitled to pay resident tuition:
   a. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic term in which the person enrolls in an institution.
   b. a person who established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.
   c. a dependent whose parent established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.
   d. a person classified by the USCIS as a Refugee, Asylee, Parolee, or Temporary Resident; and
   e. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS; and
   f. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration Nationality Act 240A (b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; and
   g. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the "registry" program (8 United States Code 1259), or the Special Immigrant Juvenile Program (8 USC 1101(a)(27) (J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.

3. The domicile of a dependent's parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (a) (1) of this section.

4. A domicile in Texas is presumed if, at least 12 months prior to the census date of the term in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, or is married to a person who has established a domicile in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.

5. The temporary absence of a person or a dependent's parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person's ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent's parent shall provide documentation of the reason for the temporary absence.

6. The temporary presence of a person or a dependent's parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.

Exceptions

A non-resident or foreign student may qualify to pay in-state tuition. Students should direct questions and documentation for these waivers to Student Business Services.

1. The student or student's spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered Texas residents.)

2. The student or student's spouse or parent is employed at least half-time as a teaching or research assistant in a position related to the assistant's degree program at a Texas public institution of higher education.

3. The student or student's spouse or parent is employed at least half-time on a regular monthly salary as a teacher or professor at a Texas public institution of higher education.

4. The student holds an approved competitive scholarship from Texas State of at least $1000 for the academic year or summer awarded by an official Texas State scholarship committee.

5. The student or student's spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program. (Note: Go to www.thecb.state.tx.us/Rules/ Chapter 21, Sub Chapter X for a list of qualified employers.)

6. The student is a New Mexico resident who resides in a county bordering Texas.

7. The student is a Louisiana resident who resides in a parish bordering Texas.

8. The student is a resident of Mexico who has demonstrated a financial need as determined by the financial aid office.
Refer to the Refund Information (https://www.sbs.txstate.edu/students/refunds.html) page of the Student Business Services website for detailed information of the University's refund policy. Please note: Withdrawing and dropping a class are two different actions and are defined below. These actions have separate refund policies.

- **Withdrawal**: Reducing semester credit hours to zero is considered a withdrawal. You MUST do this through the Office of the University Registrar.
- **Dropping a class**: Removing one or more classes from your schedule, while remaining enrolled in at least one course.

Any refund due will be applied to any unpaid financial obligation with Texas State. If the refund exceeds any unpaid balance, a refund will be processed within 30 days. Payments made by credit card are refunded back to the card. Other payment types will be deposited to the student’s bank account if they have signed up for direct deposit (eRefund) or issued as a check and mailed to the appropriate address on file. Mailing addresses for refunds are selected in the following priority: (1) Mailing (2) Local (3) Permanent. Students may update their addresses as needed on Catsweb.

**Drops**

**Important**: Dropping credit hours or withdrawing from the semester may affect your financial aid award. Students receiving financial aid should contact the Financial Aid Office before dropping or withdrawing. If you have dropped hours or withdrawn from the University, the term balance may not reflect the necessary adjustments. Please allow a minimum 10 business day waiting period for award adjustments to be processed.

Dropping a course or courses means that there is at least one other course left in the registered schedule for a semester/term. Refer to the Academic Calendar or the Refund Information page of the Student Business Services website for semester/term specific deadlines for drop refunds.

*Please note: Summer semesters have several different terms within the semester. Please contact Student Business Services if you have questions regarding drop dates for summer.

**Withdrawals**

Withdrawal means a student will no longer be attending any course for the semester/term. Students must withdraw from ALL courses to be considered as withdrawn for the semester. Withdrawals are initiated in the Office of the University Registrar. Please refer to the Academic Calendar or Refund Information page of the Student Business Service website for semester/term specific deadlines for withdrawal refunds. Withdrawal Information is available on the Office of the University Registrar website.

*Please note: Summer semester have several different terms within the semester. Please contact Student Business Services for specific withdrawal dates for summer. Additionally, during the summer, please allow a minimum of 10 business days waiting period for billing account adjustments to be processed.

**Dean**

Angela R. Ausbrooks, Ph.D.
Agriculture Building Room 300

**Associate Dean**

Douglas G. Morrish, Ph.D.

**Assistant Dean**

Bob E. Vasquez, Ph.D.

**Department Chairs/School Directors**

Aerospace Studies—Lt. Col. Brenton J. Ekren, M.A.
Agricultural Sciences—Madan M. Dey, Ph.D.
Criminal Justice and Criminology—Jeffrey Bumgarner, Ph.D.
Family and Consumer Sciences—Amy Weimer, Ph.D.
Military Science—LTC Lakicia R. Stokes, M.S.
Organization, Workforce, and Leadership Studies—Shetay N. Ashford-Hanserd, Ph.D.
Social Work—Katherine Selber, Ph.D.

The College of Applied Arts' mission is to prepare undergraduate and graduate students for careers through programs of high quality in academic, professional, and technical areas; to further faculty excellence in teaching supported by quality scholarship; and to enhance our involvement with local, state, national, and international constituencies.

**Agriculture Building Room 206**

T: 512.245.2130

http://www.ag.txstate.edu/

The Department of Agricultural Sciences at Texas State prepares students to work as leaders and technical professionals in the agriculture industry, specifically in the fields of animal science, agribusiness management/agricultural economics, agricultural education, agricultural systems (mechanics), crop and soil science, and horticulture. Because 21st century agricultural and food challenges are highly complex, an integrated and multidisciplinary approach to teaching students about agricultural sciences is emphasized. For those students who aim to be agricultural teachers in public schools or community colleges, the department also offers an emphasis on teaching development with research possibilities. The Department of Agricultural Sciences hosts laboratories where the research focus of faculty and students include nutrition and health, soil health, crop science, horticultural therapy, meat quality, big data analysis, agricultural economics and policy, and issues of importance to small and beginning farmers and ranchers, among others. Some activities take place at the Freeman Center, a 3,500-acre, university-operated teaching and research ranch that provides a unique learning environment. Agricultural education has a long history at this university. When Southwest Texas State Normal School (now Texas State University) was created in 1899, it was charged with the responsibility of teaching agriculture to educators who were training to work in rural schools. Today, agricultural sciences students, along with those focusing on animal science, agribusiness/agricultural economics, agricultural education, agricultural systems, horticulture, or crop science, enjoy an experience with practical, hands-on classes, in addition to opportunities to engage in applied research.

**Master of Science (M.S.)**

- Major in Integrated Agricultural Sciences (Professional Option) (p. 790)
- Major in Integrated Agricultural Sciences (Thesis Option) (p. 794)
Program Overview

Based on a multidisciplinary approach, the Master of Science (M.S.) degree with a major in Integrated Agricultural Sciences will expose students to the breadth of agriculture, and provide opportunities for them to integrate what they learn across different courses. Students will be able to enhance their depth of knowledge in the focus area of their choice: agricultural business, economics and policy; agricultural education; animal science; or crop and soil science. Graduates will develop a 21st century expertise with theoretical and practical skills necessary to analyze, optimize, and apply their knowledge to complex agro-systems. The rigorous interdisciplinary agriculture curriculum will provide exposure to real-world applications, for students to develop technical and leadership skills necessary for an effective career in addressing and solving food and agricultural issues.

Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the current academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the current academic year can be found on The Graduate College’s website (http://www.gradcollege.txstate.edu). International students should review proficiency waiver:

- completed online application
- $55 nonrefundable application fee
  or
- $90 nonrefundable application fee for applications with international credentials
- baccalaureate degree in agriculture, biology, chemistry, economics, education, or a closely related field from a regionally accredited university. The degree earned should indicate the ability to conduct and complete the thesis research proposed or the non-thesis program with excellent results.
- official transcripts from each institution where course credit was granted
- minimum 3.0 GPA in the last 60 hours of undergraduate course work (plus any completed graduate courses)
- resume/CV detailing prior work experience, research experience, awards, scholarships, and other related qualifications
- statement of interest (two-page maximum) including research interests, plans for graduate study, and professional aspirations and describing how the student’s scholarly interests and relevant skills can be utilized in the program to pursue those goals
- three letters of recommendation from non-related individuals familiar with the student’s scholarly work and/or relevant work experience

TOEFL, PTE, or IELTS Scores

Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  - 19 listening
  - 19 reading
  - 18 writing
- official PTE scores required with a 52 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Additional Information: You will be required to take leveling courses if you lack sufficient background course work. Any required leveling course work must be completed with grades of B or better. Contact the graduate advisor for information regarding the background course work that may be required.

Degree Requirements

The Master of Science (M.S.) degree with a major in Integrated Agricultural Sciences (Professional Option) requires 36 semester credit hours. The major and supportive courses are to be taken with the advice and consent of the student’s advisory committee, which consists of three or more faculty selected in consultation with the graduate advisor.

Non-credit (leveling) course work may be required prior to admission into the program if the student lacks sufficient background course work. Any required leveling course work must be completed with grades of B or better prior to admission.

Elective

Choose 3 hours from the following: 3

- AG 5301 Agricultural Development and Policy
- AG 5324 Agroecology and Integrated Agriculture
- AG 5350 Foundations of Ethics and Leadership in Agriculture
- AG 5365 The Role of Animal Science in Society: An Integrated Approach

Prescribed Electives

Choose 27 hours from the following: 27

- AG 5101 Research Experience
- AG 5398 Professional Paper

Agricultural Business, Economic and Policy Research Area:

- AG 5302 Economics of Agricultural Production
- AG 5303 Agricultural Marketing and Price Analysis
- AG 5304 Economics of Sustainable Natural Resource Management
- ANLY 5335 Forecasting and Simulation

Crops and Soils Research Area:

- AG 5120 Aquaponic Internship
- AG 5320 Integrated Agricultural Production in Aquaponic Systems
Courses Offered

Agriculture (AG)

AG 5100. Professional Development.
This course introduces key concepts and practices for teaching college courses. It provides regular in-service training and planned periodic evaluations of instructional responsibilities. It is required for first-year teaching and instructional assistants in the Master’s of Science in Integrated Agricultural Sciences. Graded on a credit (CR), no-credit (F) basis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Graduate Assistantship
Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

AG 5101. Research Experience.
This course provides students with an opportunity to explore a focused research topic. Ideally the topic would be an emergent topic within their research area that was unplanned and resulted from their initial investigation. May be repeated twice for credit.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

AG 5120. Aquaponic Internship.
This course provides students with hands-on production experience in aquaculture. Students will complete 64 hours of internship with an aquaponic facility.
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

AG 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

AG 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

Comprehensive Examination Requirement

All Professional Option students must pass an oral comprehensive examination to demonstrate they have mastered the main concepts covered in their courses. The comprehensive exam is comprised of questions based on research methods, statistics, theory, and topics related to the student’s coursework and area(s) of specialization. Students should consult their graduate advisor and the Graduate Handbook for the M.S program in Integrated Agricultural Sciences for a detailed description of the comprehensive examination procedures. If a student fails the comprehensive examination, they will be allowed to retake it. If a student fails a second time, they may petition the Integrated Agricultural Sciences steering committee for permission to take the examination a third time. Students will not be allowed to take an examination more than three times.

Students who do not successfully complete the requirements for the degree within the timelines specified will be dismissed from the program.

Master’s level courses in Agriculture: AG
AG 5300. Applied Statistics and Econometrics for Agriculture.
This course focuses on data analysis, modeling techniques and their applications with statistical inference for agriculture. This course will cover statistical tools applied in agriculture, including probability, sampling, principles of estimation, hypothesis testing, general linear models, multiple regression analysis, qualitative response modeling, and other related tools widely used in agriculture.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5301. Agricultural Development and Policy.
This course focuses on current issues that integrate agricultural policy, resource development, application of welfare criteria and economic analysis, and food and rural development problems of the U.S. and the world. Course topics include integrated agricultural and rural development, food and nutrition security, commodity issues, and trade policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5302. Economics of Agricultural Production.
This course focuses on analysis of agricultural production economic concepts and models. Topics will include traditional neo-classical theory of the firm, duality theory, resource allocation, production selection, scale of operation of agricultural firms, and risk and uncertainty associated with agricultural production.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5303. Agricultural Marketing and Price Analysis.
This course emphasizes marketing theory and structure, characteristics of demand and supply of farm products, agricultural price research techniques for evaluating marketing behavior, market legislation, and market development. The course will provide an opportunity for students to develop marketable skills in quantitative price and market analysis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5304. Economics of Sustainable Natural Resource Management.
This course provides economic tools to analyze sustainable natural resources and environmental issues. It enables students to develop integrative expertise in economic analysis utilizing natural and behavioral sciences. The integrative expertise provides students with the ability to more effectively, efficiently, and sustainably manage natural resources for multiple objectives.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers research techniques, literature analysis, the development and implementation of experimental designs, conceptual models and survey instruments.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5320. Integrated Agricultural Production in Aquaponic Systems.
This course focuses on crop and fish production, pest management, water quality, nutrient management, and economics and marketing in aquaponic systems. Topics covered include contrasts and comparisons to soil based, hydroponic cropping and aquaculture (confined fish production without crop interactions).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The course provides experience and theoretical foundation for the basic design, production, management, utilization and marketing of composts, vermicomposts and related products, and non-renewable natural resource issues related to agriculture.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5324. Agroecology and Integrated Agriculture.
This course will focus on integrative and ecological principles of agricultural production. Emphasis will be on sustainable agriculture, complex systems, production diversity, integrated animal-crop systems, resilience and small producers.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5350. Foundations of Ethics and Leadership in Agriculture.
This course prepares students for professional leadership and service in agriculture, with emphasis on applications of ethics and leadership principles. The course will focus on industry ethics and leadership theory in various professional settings in agriculture.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5351. Grant Development and Management.
This course explores competencies of locating external agency funding for agricultural research, teaching and extension. The principles of producing a competitive proposal that includes multi-, cross and inter-disciplinary collaborations are also discussed. The development of the grant proposal, implementation, budget, and evaluation plan will be emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course examines philosophies of program development, implementation and evaluation to meet stakeholders’ expectations. Emphasis is placed on methodologies that effectively evaluate agricultural programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
AG 5354. Instructional Design in Agricultural Education.
This course examines instructional design models appropriate from a pedagogical and andragogical viewpoint. Emphasis is placed on theories and models to support the design of print-based, web-based, or multimedia-based instruction. Students will prepare evaluation strategies to assess comprehensive instruction in a high-tech environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5355. Methods of Technological Change.
This course explores the dynamics and culture of technological change in agriculture. Topics covered will include ways to implement change, skills for being an innovator and a change agent, how to predict the effects of change, and the integration of other sciences into agricultural sciences.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5360. Advancements in Animal Science.
Survey of the current knowledge and concepts in animal production including economic considerations and current production problems in breeding and feeding livestock.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course explores the science and instrumentation of meat science; including food safety, processing and evaluation of wholesale and retail cuts of beef, pork, lamb, and poultry; including fresh, cooked/smoked, grilled, and pickled products. The evaluation of consumer preference and economic returns based on product presentation will be included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is an advanced study of the utilization and requirements of minerals and vitamins in farm and ranch animals. It emphasizes ruminant and non-ruminant mineral and vitamin metabolism and utilization. The utilization of specific minerals and vitamins by different species will be used to explain and predict subsequent performance.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will focus on animal agriculture reproduction and examine the molecular principles of reproduction. Topics will include molecular reproductive endocrinology, advanced physiology and current research in animal reproduction science.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides students with a broad understanding of the role animals have in society, the influences of animal production on economic development, changes in policy and social viewpoints of animal production, and the development of domesticated animals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5370. Special Problems in Technical Agriculture.
Special problems will be selected to meet the needs of the individual student. May be repeated (once) for additional credit when the problem differs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

AG 5390. Foundation Studies in Agriculture.
This course is a leveling course to provide prerequisite knowledge necessary for graduate-level coursework in Agriculture. Course content varies depending on academic preparation. This course does not earn graduate degree credit. Repeatable up to 9 hours with different emphasis. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

AG 5398. Professional Paper.
This course is required for non-thesis students to prepare a professional paper of publishable quality. Graded on a credit (CR), no-credit (F) basis. Prerequisite: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Credit/No Credit

AG 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in Integrated Agricultural Sciences. Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AG 5399B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit
AG 5426. Soil Health and Development.
This course focuses on the fundamental topics of soil health and development. These fundamentals include pedogenesis, mineral composition, tillage practices, soil ecosystem and sustainability, soil biology and soil physics.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

This course examines the theory and practice of molecular genetics of livestock. Topics covered include genetic concepts and theory, as well as applications of these concepts in animal agriculture; e.g., Mendelian genetics, genomic revolution, cloning, epigenetics and transgenics. The course emphasizes techniques and underlying biological principles in genetics.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5599B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

AG 5999B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

Program Overview
Based on a multidisciplinary approach, the Master of Science (M.S.) degree with a major in Integrated Agricultural Sciences will expose students to the breadth of agriculture, and provide opportunities for them to integrate what they learn across different courses. Students will be able to enhance their depth of knowledge in the focus area of their choice: agricultural business, economics and policy; agricultural education; animal science; or crop and soil science. Graduates will develop a 21st century expertise with theoretical and practical skills necessary to analyze, optimize, and apply their knowledge to complex agro-systems. The rigorous interdisciplinary agriculture curriculum will provide exposure to real-world applications, for students to develop technical and leadership skills necessary for an effective career in addressing and solving food and agricultural issues. Each student’s degree will culminate in either thesis-based research or a non-thesis professional paper.

Application Requirements
The items listed below are required for admission consideration for applicable semesters of entry during the current academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the current academic year can be found on The Graduate College’s website (http://www.gradcollege.txstate.edu). International students should review the International Admission Documents page (p. 768) for additional requirements.

- completed online application
- $55 nonrefundable application fee

or

- $90 nonrefundable application fee for applications with international credentials
- baccalaureate degree in agriculture, biology, chemistry, economics, education, or a closely related field from a regionally accredited university. The degree earned should indicate the ability to conduct and complete the thesis research proposed or the non-thesis program with excellent results.
- official transcripts from each institution where course credit was granted
- minimum 3.0 GPA in the last 60 hours of undergraduate course work (plus any completed graduate courses)
- resume/CV detailing prior work experience, research experience, awards, scholarships, and other related qualifications
- statement of interest (two-page maximum) including research interests, plans for graduate study, and professional aspirations and describing how the student’s scholarly interests and relevant skills can be utilized in the program to pursue those goals
- three letters of recommendation from non-related individuals familiar with the student’s scholarly work and/or relevant work experience

TOEFL, PTE, or IELTS Scores
Non-native English speakers who do not qualify for an English proficiency waiver:

- official TOEFL iBT scores required with a 78 overall and minimum individual module scores of
  • 19 listening
  • 19 reading
  • 19 speaking
  • 18 writing
- official PTE scores required with a 52 overall
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0

This program does not offer admission if the scores above are not met.

Additional Information: You will be required to take leveling courses if you lack sufficient background course work. Any required leveling course work must be completed with grades of B or better. Contact the graduate advisor for information regarding the background course work that may be required.

Degree Requirements
The Master of Science (M.S.) degree with a major in Integrated Agricultural Sciences requires 36 semester credit hours, including a thesis. The major and supportive courses are to be taken with the advice and consent of the student’s advisory committee, which consists of three or more faculty selected in consultation with the graduate advisor.
Non-credit (leveling) course work may be required prior to admission into the program if the student lacks sufficient background course work. Any required leveling course work must be completed with grades of B or better prior to admission.

- AG 5299B Thesis
- AG 5399B Thesis
- AG 5599B Thesis
- AG 5999B Thesis

**Total Hours** 36

**Comprehensive Examination Requirement**

All thesis students must pass an oral comprehensive examination to demonstrate they have mastered the main concepts covered in their courses and research activities. The comprehensive exam is comprised of questions based on research methods, statistics, and theory, and that also incorporate empirical research and coursework from a student's area(s) of specialization. **Immediately following their thesis oral defense, each student will undertake the oral comprehensive exam as administered by the student's thesis committee. Students should consult their graduate advisor and the Graduate Handbook for the M.S program in Integrated Agricultural Sciences for a detailed description of the comprehensive examination procedures. If a student fails the comprehensive examination, they will be allowed to retake it. If a student fails a second time, they may petition the Integrated Agricultural Sciences steering committee for permission to take the examination a third time. Students will not be allowed to take an examination more than three times.**

Students who do not successfully complete the requirements for the degree within the timelines specified will be dismissed from the program.

If a student elects to follow the thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student’s capability for research and independent thought. Preparation of the thesis must be in conformity with the Graduate College Guide to Preparing and Submitting a Thesis or Dissertation.

The student must submit an official Thesis Proposal Form (http://www.gradcollege.txstate.edu/forms.html) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members’ signatures,
the graduate advisor’s signature if required by the program and the department chair’s signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. The IRB approval letter should be included with the proposal form. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student’s enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

**Thesis Committee**

The thesis committee must be composed of a minimum of three approved graduate faculty members.

**Thesis Enrollment and Credit**

The completion of a minimum of six hours of thesis enrollment is required. For a student’s initial thesis course enrollment, the student will need to register for thesis course number 5399A. After that, the student will enroll in thesis B courses, in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor will not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair’s discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrawn), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. The minimum number of hours of thesis credit (“CR”) will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered for the thesis course during the term or Summer I (during the summer, the thesis course runs ten weeks for both sessions) in which the degree will be conferred.

**Thesis Deadlines and Approval Process**

Thesis deadlines are posted on The Graduate College (http://www.gradcollege.txstate.edu/) website under “Current Students.” The completed thesis must be submitted to the chair of the thesis committee on or before the deadlines listed on The Graduate College website.

After the dean of The Graduate College approves the thesis, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student’s embargo selection). **NOTE: MFA Creative Writing theses will have a permanent embargo and will never be published to Digital Collections.**

While original (wet) signatures are preferred, there may be situations as determined by the chair of the committee in which obtaining original signatures is inefficient or has the potential to delay the student’s progress. In those situations, the following methods of signing are acceptable:

- signing and faxing the form
- signing, scanning, and emailing the form
- notifying the department in an email from their university’s or institution’s email account that the committee chair can sign the form on their behalf
- electronically signing the form using the university’s licensed signature platform.

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

No copies are required to be submitted to Alkek Library. However, the library will bind copies submitted that the student wants bound for personal use. Personal copies are not required to be printed on archival quality paper. The student will take the personal copies to Alkek Library and pay the binding fee for personal copies.

**Courses Offered**

**Agriculture (AG)**

**AG 5100. Professional Development.**

This course introduces key concepts and practices for teaching college courses. It provides regular in-service training and planned periodic evaluations of instructional responsibilities. It is required for first-year teaching and instructional assistants in the Master’s of Science in Integrated Agricultural Sciences. Graded on a credit (CR), no-credit (F) basis.

1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.

**Course Attribute(s):** Exclude from 3-peat Processing|Graduate Assistantship|Exclude from Graduate GPA

**Grade Mode:** Leveling/Assistantships
AG 5101. Research Experience.
This course provides students with an opportunity to explore a focused research topic. Ideally the topic would be an emergent topic within their research area that was unplanned and resulted from their initial investigation. May be repeated twice for credit.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

AG 5120. Aquaponic Internship.
This course provides students with hands-on production experience in aquaculture. Students will complete 64 hours of internship with an aquaponic facility.
1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.
Grade Mode: Standard Letter

AG 5199B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

AG 5299B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

AG 5300. Applied Statistics and Econometrics for Agriculture.
This course focuses on data analysis, modeling techniques and their applications with statistical inference for agriculture. This course will cover statistical tools applied in agriculture, including probability, sampling, principles of estimation, hypothesis testing, general linear models, multiple regression analysis, qualitative response modeling, and other related tools widely used in agriculture.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5301. Agricultural Development and Policy.
This course focuses on current issues that integrate agricultural policy, resource development, application of welfare criteria and economic analysis, and food and rural development problems of the U.S. and the world. Course topics include integrated agricultural and rural development, food and nutrition security, commodity issues, and trade policy.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5302. Economics of Agricultural Production.
This course focuses on analysis of agricultural production economic concepts and models. Topics will include traditional neo-classical theory of the firm, duality theory, resource allocation, production selection, scale of operation of agricultural firms, and risk and uncertainty associated with agricultural production.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5303. Agricultural Marketing and Price Analysis.
This course emphasizes marketing theory and structure, characteristics of demand and supply of farm products, agricultural price research techniques for evaluating marketing behavior, market legislation, and market development. The course will provide an opportunity for students to develop marketable skills in quantitative price and market analysis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5304. Economics of Sustainable Natural Resource Management.
This course provides economic tools to analyze sustainable natural resources and environmental issues. It enables students to develop integrative expertise in economic analysis utilizing natural and behavioral sciences. The integrative expertise provides students with the ability to more effectively, efficiently, and sustainably manage natural resources for multiple objectives.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course covers research techniques, literature analysis, the development and implementation of experimental designs, conceptual models and survey instruments.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5320. Integrated Agricultural Production in Aquaponic Systems.
This course focuses on crop and fish production, pest management, water quality, nutrient management, and economics and marketing in aquaponic systems. Topics covered include contrasts and comparisons to soil based, hydroponic cropping and aquaculture (confined fish production without crop interactions).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

The course provides experience and theoretical foundation for the basic design, production, management, utilization and marketing of composts, vermicomposts and related products, and non-renewable natural resource issues related to agriculture.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter
AG 5324. Agroecology and Integrated Agriculture.
This course will focus on integrative and ecological principles of agricultural production. Emphasis will be on sustainable agriculture, complex systems, production diversity, integrated animal-crop systems, resilience and small producers.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5350. Foundations of Ethics and Leadership in Agriculture.
This course prepares students for professional leadership and service in agriculture, with emphasis on applications of ethics and leadership principles. The course will focus on industry ethics and leadership theory in various professional settings in agriculture.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5351. Grant Development and Management.
This course explores competencies of locating external agency funding for agricultural research, teaching and extension. The principles of producing a competitive proposal that includes multi-, cross and interdisciplinary collaborations are also discussed. The development of the grant proposal, implementation, budget, and evaluation plan will be emphasized.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course examines philosophies of program development, implementation and evaluation to meet stakeholders' expectations. Emphasis is placed on methodologies that effectively evaluate agricultural programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5354. Instructional Design in Agricultural Education.
This course examines instructional design models appropriate from a pedagogical and andragogical viewpoint. Emphasis is placed on theories and models to support the design of print-based, web-based, or multimedia-based instruction. Students will prepare evaluation strategies to assess comprehensive instruction in a high-tech environment.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5355. Methods of Technological Change.
This course explores the dynamics and culture of technological change in agriculture. Topics covered will include ways to implement change, skills for being an innovator and a change agent, how to predict the effects of change, and the integration of other sciences into agricultural sciences.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5360. Advancements in Animal Science.
Survey of the current knowledge and concepts in animal production including economic considerations and current production problems in breeding and feeding livestock.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course explores the science and instrumentation of meat science; including food safety, processing and evaluation of wholesale and retail cuts of beef, pork, lamb, and poultry; including fresh, cooked/smoked, grilled, and pickled products. The evaluation of consumer preference and economic returns based on product presentation will be included.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course is an advanced study of the utilization and requirements of minerals and vitamins in farm and ranch animals. It emphasizes ruminant and non-ruminant mineral and vitamin metabolism and utilization. The utilization of specific minerals and vitamins by different species will be used to explain and predict subsequent performance.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course will focus on animal agriculture reproduction and examine the molecular principles of reproduction. Topics will include molecular reproductive endocrinology, advanced physiology and current research in animal reproduction science.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course provides students with a broad understanding of the role animals have in society, the influences of animal production on economic development, changes in policy and social viewpoints of animal production, and the development of domesticated animals.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 5370. Special Problems in Technical Agriculture.
Special problems will be selected to meet the needs of the individual student. May be repeated (once) for additional credit when the problem differs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter
AG 5390. Foundation Studies in Agriculture.
This course is a leveling course to provide prerequisite knowledge necessary for graduate-level coursework in Agriculture. Course content varies depending on academic preparation. This course does not earn graduate degree credit. Repeatable up to 9 hours with different emphasis. Prerequisite: Instructor approval.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Exclude from Graduate GPA
Grade Mode: Leveling/Assistantships

AG 5398. Professional Paper.
This course is required for non-thesis students to prepare a professional paper of publishable quality. Graded on a credit (CR), no-credit (F) basis. Prerequisite: Instructor approval.
3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Credit/No Credit

AG 5399A. Thesis.
This course represents a student’s initial thesis enrollment. No thesis credit is awarded until the student has completed the thesis in Integrated Agricultural Sciences. Graded on a credit (CR), progress (PR), no-credit (F) basis.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Credit/No Credit

AG 5399B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

AG 5399B. Thesis.
This course represents a student’s continuing thesis enrollment. The student continues to enroll in this course until the thesis is submitted for binding. Graded on a credit (CR), progress (PR), no-credit (F) basis.
9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Credit/No Credit

AG 5426. Soil Health and Development.
This course focuses on the fundamental topics of soil health and development. These fundamentals include pedogenesis, mineral composition, tillage practices, soil ecosystem and sustainability, soil biology and soil physics.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Grade Mode: Standard Letter

This course examines the theory and practice of molecular genetics of livestock. Topics covered include genetic concepts and theory, as well as applications of these concepts in animal agriculture; e.g., Mendelian genetics, genomic revolution, cloning, epigenetics and transgenics. The course emphasizes techniques and underlying biological principles in genetics.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Grade Mode: Standard Letter

Hines Academic Center Room 108
Telephone: 512-245-2174 Fax: 512-245-8063
http://www.cj.txstate.edu/

Located in the Hines Academic Center, the School of Criminal Justice and Criminology offers master’s- and doctoral-level curricula that address a wide range of social issues and research opportunities.

The School of Criminal Justice and Criminology is a vibrant academic unit, with approximately 60 students pursing the M.S. or Ph.D. in criminal justice. Full-time faculty members are involved in educating students as well as engaging in a wide range of research endeavors. The School also administers a number of institutes and centers, such as the Center for Geospatial Intelligence and Investigation and the Advanced Law Enforcement Rapid Response Training (ALERRT).

The goals of the School are two-fold:
1. the preparation of competent and responsible public servants to assume roles in criminal investigation and apprehension, agency administration, prosecution, and correctional services, and
2. the preparation of graduates with advanced theoretical knowledge and research skills in criminal justice for leadership roles in academic, public policy, and administrative positions.

These goals are pursued in the context of a broad university curriculum that provides a foundation of knowledge necessary to function in a challenging world.

Doctor of Philosophy (Ph.D.)
• Major in Criminal Justice (p. 800)

Master of Science in Criminal Justice (M.S.C.J.)
• Major in Criminal Justice (Executive Concentration) (p. 811)
• Major in Criminal Justice (Non-thesis Option) (p. 806)
• Major in Criminal Justice (Research Concentration) (p. 815)

Minor
• Criminal Justice (p. 821)
Certificate

- Intelligence Analysis (p. 821)

Program Overview

The School of Criminal Justice and Criminology at Texas State offers a doctoral program for:

1. criminal justice professionals who seek advanced education and
2. students who will pursue academic appointments at colleges and universities in Texas and around the nation.

Texas State is located in the heart of the central Texas corridor, near 16 state criminal justice offices and 13 Texas counties, including Travis (Austin) and Bexar (San Antonio). The university's geographic proximity to state criminal justice agency headquarters for law enforcement, criminal courts, and corrections, and to managers and executives in these agencies, makes it an ideal location for offering a doctoral-degree program.

The doctoral program is part of a vibrant school, with approximately 1000 bachelor's students and 30 master's students. Twenty-three full-time faculty members are involved in a wide range of research. A list of faculty and their research interests is available at http://www.cj.txstate.edu/people/faculty. The School of Criminal Justice and Criminology also administers a number of institutes and centers, including the Center for Geospatial Intelligence and Investigation and the Advanced Law Enforcement Rapid Response Training Center (ALERRT).

Courses are offered in the evenings for the convenience of working professionals. Students are classified as either full-time (nine hours per term) or part-time. All students will be given the opportunity to initiate, complete, present, and publish original research. Each student develops an appropriate degree plan to meet their career and academic goals. The degree plan will include a mix of theoretical, analytical, and elective courses that will prepare students to work independently and in multidisciplinary teams.
