COUN 5389 (1): Site-Based Internship – PR 5689	✓	✓	✓	✓	5389 (Internship 2)
COUN 5389 (2): Site-Based Internship – PR 5389	✓	✓	N/A	N/A	
TOTAL HOURS					
	60 hours	60 hours	60 hours	48 hours	

Notes regarding PR/CO: **COUN 5359** is listed as a corequisite for all four Intermediate Methods (IM) classes, meaning we recommend taking 5359 in the same semester as an IM class. You can also choose to take 5359 in a semester right before enrolling in an IM course. COUN 5359 must be taken prior to enrolling in COUN 5689 Clinical Practicum. Similarly, **COUN 5358** can be taken concurrently with COUN 5354, or COUN 5354 can be taken in a semester prior to enrolling in COUN 5358. COUN 5358 must be taken prior to enrolling in COUN 5689 Clinical Practicum. **COUN 5369** and COUN 5354 can be taken together but cannot be taken at the same time as an IM course that allows 5369 to be taken concurrently (i.e., COUN 5360). COUN 5369 is a prerequisite for IM courses COUN 5370 and 5373 and has been added as a prerequisite for COUN 5689, meaning all students across all three concentrations need to have taken 5369 prior to enrolling in Clinical Practicum.

See next page for Counselor Preparation Comprehensive Exam (CPCE) recommendations and planning for Clinical Sequence:

***CPCE >** Denotes courses covered on the [CPCE \(Counselor Preparation Comprehensive Exam\)](#) and should be taken prior to testing for the CPCE.

It is to your advantage to have most of the Level 1 CPCE classes completed to be prepared for the Comprehensive Examination (CPCE) and to complete the prerequisite courses for Level 2 classes. Many students apply for and take the Counselor Preparation Comprehensive Examination (CPCE) during the semester they are enrolled in Intermediate Methods, or in the semester prior to Intermediate Methods. You must pass the CPCE to gain enrollment in COUN 5689 Clinical Practicum. See the [Student Handbook](#) and [program CPCE webpage](#) for more information about the CPCE, and to determine when you would be eligible to take the examination.

During the Intermediate Methods semester, you must apply for admission to [COUN 5689 Clinical Practicum](#). Application announcements will be sent through the student listserv and posted on the program webpage. [COUN 5389 Site based Internship](#) also requires a program application for course section assignment.

When planning your courses each semester, please be aware that you can begin the clinical sequence while still completing other required course work, but it is ideal to plan the clinical courses to be taken one right after another to ensure you are building and strengthening your clinical skills from semester to semester, without extensive semester breaks in between clinical classes.

During enrollment in their first semester of classes, newly admitted students must meet with their assigned [faculty advisor](#) to develop a planned course of study, which will be maintained in the student's program file. This will ensure the student understands how to progress through the program and will determine estimated comp exam dates and degree completion dates.

The clinical sequence consists of the following courses. Each must be taken in this order and each in separate semesters. Tasks to complete during these semesters include the following:

COUN 5354, *Basic Counseling Skills*

Begin to explore Practicum groups and Internship sites after being added to the Clinical Experience Canvas site.

COUN 5360/5366/5370/or 5373, *Intermediate Methods with specialized populations*

See degree plan; IM course MUST be taken prior to COUN 5689 and will determine the types of clients seen in Clinical Practicum. While enrolled, apply for COUN 5689 Clinical Practicum; secure a Practicum group; pass the CPCE; continue to explore Internship sites for future placement.

COUN 5689, *Clinical Practicum*

While enrolled, apply for the first semester of COUN 5389 Site Based Internship (required of all degree tracks); Secure Internship site placement for the next semester.

COUN 5389, *Site Based Internship I*

While enrolled in first semester of COUN 5389, apply for the second semester of internship (only applicable to CMHC and MCFC degree tracks). SC degree track students [apply for graduation](#) in this semester, if completing all 600 hours. If interested, students can take the National Counselor Exam (licensure exam) in this semester – see [program NCE website](#).

COUN 5389, *Site Based Internship II*

While enrolled in second (final) semester of COUN 5389 CMHC and MCFC students [apply for graduation](#) through the Graduate College. If internship hours are not completed in the second semester of Internship, an application for a third semester of internship must be submitted to the Practicum/Internship Coordinator. Must reapply for graduation in semester internship hours are completed.
