TESTING AND THERAPEUTIC SERVICES

We are dedicated to providing comprehensive evaluation and intervention services to a wide range of clients with diverse cultural backgrounds and diagnoses. Services are provided by Department of Communication Disorders graduate students and their clinical educators.

All services are offered in both English and Spanish. We also offer a variety of summer programs. Parent and caregiver education is available to facilitate treatment carryover in the home.

Speech and language services:

- sound and word pronunciation
- elective bilingual or multicultural speech/language differences for English language learners
- developmental language delays
- Autism Spectrum Disorder speech/language difficulties
- neurological damage or cognitive impairment (CVA, brain injury, ALS, etc.)
- feeding and swallowing difficulties
- stuttering and fluency
- reading and writing disorders

Hearing and audiology services:

- hearing testing for all ages, including newborns
- cochlear implant evaluation and programming
- hearing aid sales and repairs, including bone-anchored hearing aids (BAHA)
- central auditory processing disorder (CAPD) testing and treatment
- hearing screenings for school and work requirements
- custom earplugs for protection from loud sounds and keeping water out of the ears

Fees range based on the services provided. Please contact the clinic for more information.

All clinical educators are nationally certified by the American Speech-Language-Hearing Association and licensed in the state of Texas.
