**REQUEST FOR QUALIFICATIONS FOR  
PROFESSIONAL ENGINEERING SERVICES  
THE TEXAS STATE UNIVERSITY SYSTEM  
TERLINGUA, TEXAS  
LAKE AMENT DAM ALTERATION  
RFQ No.: 758-25-00091**

**SECTION 1 – GENERAL INFORMATION & REQUIREMENTS**

- 1.1 **GENERAL INFORMATION:** The Texas State University System (“Owner”) is soliciting Statements of Qualifications (“Qualifications”) for the selection of a Professional Engineer (“PE”) firm for design of the **Lake Ament Dam Alteration** project (the “Project”) on the Owner’s property north of Terlingua, Texas, in accordance with the terms, conditions, and requirements set forth in this Request for Qualifications (“RFQ”). Prospective PE firms are hereinafter referred to as “Respondents”.
- 1.1.1 Collecting Qualifications in response to this RFQ is the first step in selecting a PE firm. This RFQ provides the information necessary for Respondents to prepare and submit Qualifications for consideration by the Owner. In the next step the Owner will determine an initial ranking of the Respondents. If the initial ranking of the Respondents is reasonably conclusive, the Owner may make a “most qualified” selection based upon the written Qualifications only. If not, then the Owner may conduct interviews with a “short list” of Respondents.
- 1.1.2 The Owner may select up to five (5) of the top ranked qualified Respondents to participate in an interview with the Owner to confirm and clarify the Qualifications submitted and to answer additional questions. The Owner will then rank the interviewed Respondents in order to determine a single most qualified Respondent.
- 1.1.3 After selecting the most qualified Respondent the Owner will negotiate the detailed professional services to be provided by the PE and a suitable fee for those services. The Owner will request a fee proposal from the most qualified Respondent, with supporting information demonstrating that the requested fee is justified by the level of effort (and related personnel costs) required to provide the services necessary for the design of the Project. Potential Respondents should be aware that, except in unusual cases, the Owner does not consider billable time incurred while traveling to and from the Project site, Owner’s offices, or Board of Regents meetings, as necessary to the completion of the Project. Potential Respondents whose offices are located where such time-consuming travel will be regularly required in the performance of services for the Project, should consider this policy when deciding whether or not to submit their Qualifications.
- 1.2 **PUBLIC INFORMATION:** All information, documentation, and other materials submitted in response to this solicitation are considered non-confidential and/or non-proprietary and are subject to public disclosure under the Texas Public Information Act (*Texas Government Code*, Chapter 552.001, *et seq.*) after the solicitation is completed. The Owner complies with all statutes, court decisions, and opinions of the Texas Attorney General with respect to disclosure of RFQ information. Additionally, pursuant to the provisions of *Texas Government Code* Section 2261.253, the contract resulting from this solicitation will be posted on the Owner’s website.
- 1.3 **TYPE OF AGREEMENT:** Any agreement resulting from this solicitation will be in the form of the Owner’s Professional Engineer Services Agreement for Competitive Sealed Proposal projects,

a copy of which is posted as Attachment A on ESBD. The Agreement should be viewed as a draft and is subject to change.

1.4 **CLARIFICATIONS AND INTERPRETATIONS:** Discrepancies, omissions or doubts as to the meaning of RFQ documents shall be communicated in writing to the Owner for interpretation. Any responses to inquiries, clarifications, or interpretations of this RFQ that materially affect or change its requirements will be posted by the Owner as a written addendum. All such addenda issued by the Owner before the proposals are due, become part of the RFQ. Respondents shall acknowledge receipt of and incorporate each addendum in its Qualifications. Respondents shall be required to consider only those clarifications and interpretations that the Owner issues by addenda. Interpretations or clarifications in any other form, including oral statements, will not be binding on the Owner and should not be relied on in preparing Qualifications. It is the responsibility of all Respondents to check the status of formal addenda five (5) calendar days prior to the submittal deadline. The deadline for the receipt of written questions and submittal deadline is stated in Section 2.5.

1.4.1 ADDENDA AND AWARD INFORMATION, WILL BE ISSUED BY THE OWNER FOR THIS RFQ VIA THE ELECTRONIC BUSINESS DAILY WEBSITE AT THE FOLLOWING LINK: <https://www.txsmartbuy.com/esbd> REFERENCE “BOARD OF REGENTS/TEXAS STATE UNIVERSITY SYSTEMS – 758” AND THE RFQ NUMBER PROVIDED IN THIS RFQ.

1.5 **SUBMISSION OF QUALIFICATIONS:**

1.5.1 The Qualifications must be received **at the address specified in Section 1.5.2 prior to the date and time deadline.** The Owner will not consider any response to this solicitation that is not received at the address specified by the deadline, regardless of whether it has been received.

1.5.2 **DEADLINE AND LOCATION:** The Owner will receive Qualifications and HUB Subcontracting Plans for RFQ No. 758-25-00091 at the time and location described below.

Email: peter.maass@tsus.edu
- 1.7 **EVALUATION OF QUALIFICATIONS:** The evaluation of the Qualifications shall be based on the requirements described in this RFQ. All properly submitted Qualifications will be reviewed, evaluated, and ranked by a Selection Committee appointed by the Vice Chancellor and Chief Financial Officer of The Texas State University System, or their designee. The top five (5) or fewer ranked Respondents may be selected by the Owner for further consideration by participating in an interview wherein Qualifications will be presented and examined in further detail and where questions will be posed by the Selection Committee and answered by the Respondent.
- 1.7.1 Qualification submittals shall not include any information regarding Respondent's proposed fees, pricing, or other compensation considerations as these will not be a factor in the selection of the most qualified Respondent.
- 1.8 **OWNER'S RESERVATION OF RIGHTS:** The Owner may evaluate the Qualifications based on the anticipated completion of all or any portion of the Project. The Owner reserves the right to divide the Project into multiple parts, to reject any and all Qualifications and re-solicit for new Qualifications, or to reject any and all submissions and temporarily or permanently abandon the Project. Owner makes no representations, written or oral, that it will enter into any form of agreement with any Respondent to this RFQ for any project and no such representation is intended or should be construed by the issuance of this RFQ.
- 1.9 **ACCEPTANCE OF EVALUATION METHODOLOGY:** By submitting its Qualifications and HSP in response to this RFQ, Respondent accepts the evaluation process and acknowledges and accepts that determination of the "most qualified" firm(s) will require subjective judgments by the Owner. Determinations by the Selection Committee will be subject to routine administrative review by the Owner's executive officers but, once a selection is announced, it will not be subject to further review.

- 1.10 **NO REIMBURSEMENT FOR COSTS:** Respondent acknowledges and accepts that any costs incurred from the Respondent's participation in this RFQ shall be at the sole risk and responsibility of the Respondent.
- 1.11 **NON-MANDATORY PRE-SUBMITTAL CONFERENCE:** An optional pre-submittal conference is scheduled for:
- December 3, 2024 – 10:00 a.m. (C.S.T.) at:**
- The Texas State University System  
601 Colorado Street  
First Floor Conference Room  
Austin, Texas 78701

- 1.12 **ELIGIBLE RESPONDENTS:** Only individual firms or lawfully formed business organizations may apply (This does not preclude a Respondent from using consultants.) The Owner will contract only with the individual firm or formal organization that submits a Qualification.
- 1.13 **HISTORICALLY UNDERUTILIZED BUSINESSES' SUBMITTAL REQUIREMENTS:** It is the policy of the Owner and each of its Member institutions, to promote and encourage contracting and subcontracting opportunities for Historically Underutilized Businesses ("HUB" or "HUBs") in all contracts. Accordingly, specific plans and representations by Respondents that appear to facilitate the State's commitment to supporting HUB enterprises are required in the selection process. Failure to submit specific plans and representations regarding HUB utilization, or failure to address the subject at all, will be interpreted by the Selection Committee as an intention not to support the program and will disqualify the Respondent. A HUB Subcontracting Plan (HSP) is required as a part of the Respondent's Qualifications.
- 1.13.1 The HSP information may be downloaded from the Texas State Comptroller's website at the following URL link: <https://comptroller.texas.gov/purchasing/vendor/hub/forms.php>
- 1.14 **CERTAIN PROPOSALS AND CONTRACTS PROHIBITED:** Under Section 2155.004, *Texas Government Code*, a state agency may not accept a proposal or award a contract that includes proposed financial participation by a person who received compensation from the agency to participate in preparing the specifications or request for proposals on which the proposal or contract is based. All vendors must certify their eligibility by acknowledging the following statement, "Under Section 2155.004, Government Code, the vendor certifies that the individual or business entity named in this bid or contract is not ineligible to receive the specified contract and acknowledges that this contract may be terminated, and payment withheld if this certification is inaccurate." If a state agency determines that an individual or business entity holding a state contract was ineligible to have the contract accepted or awarded as described above, the state agency may immediately terminate the contract without further obligation to the vendor. This section does not create a cause of action to contest a proposal or award of a state contract.
- 1.15 **SALES AND USE TAXES:** Section 151.311, *Texas Tax Code*, permits the purchase free of state sales and use taxes of tangible personal property to be incorporated into realty in the performance

of a contract for an improvement to realty for certain exempt entities that include the Owner. The section further permits the purchase tax-free of tangible personal property (other than machinery or equipment and its accessories and repair and replacement parts) for use in the performance of such a contract if the property is "necessary and essential for the performance of the contract" and "completely consumed at the job site." In addition, the section permits the purchase tax-free of a tangible service for use in the performance of such a contract if the service is performed at the job site and if "the contract expressly requires the specific service to be provided or purchased by the person performing the contract" or "the service is integral to the performance of the contract."

- 1.16 CERTIFICATION OF FRANCHISE TAX STATUS: Respondents are advised that the successful Respondent will be required to submit certification of franchise tax status as required by State Law (*Texas Tax Code* Chapter 171). The contractor agrees that each subcontractor and supplier under contract will also provide a certification of franchise tax status.
  
- 1.17 DELINQUENCY IN PAYING CHILD SUPPORT: Under Section 231.006, *Texas Family Code*, the vendor or applicant certifies that the individual or business entity named in this contract, bid, or application is not ineligible to receive the specified grant, loan, or payment and acknowledges that this contract may be terminated and payment may be withheld if this certification is inaccurate.
  
- 1.18 STATE REGISTRATION OF ENGINEERING FIRMS: Respondents are advised that the Texas Board of Professional Engineers requires that any entity providing engineering services to the public must register with the Texas Board of Professional Engineers. An entity is defined as a sole proprietorship, firm, partnership, corporation or joint stock association.
  
- 1.19 NON-BOYCOTT ISRAEL VERIFICATION: Pursuant to Section 2270.002 of the *Texas Government Code*, Respondent certifies that either (i) it meets an exemption criteria under Section 2270.002; or (ii) it does not boycott Israel and will not boycott Israel during the term of the contract resulting from this solicitation. Respondent shall state any facts that make it exempt from the boycott certification in its Response.
  
- 1.20 CYBERSECURITY TRAINING PROGRAM: Pursuant to Section 2054.5192, *Texas Government Code*, PE and its consultants, officers, and employees who are provided credentials granting access to Owner's computer system also known as Owner's information system, must complete a cybersecurity training program certified under Section 2054.519, *Texas Government Code* as selected by the Owner. The cybersecurity training program must be completed during the term and any renewal period of this Agreement. PE shall verify in writing completion of the program to the Owner within the first thirty (30) calendar days of the term and any renewal period of this Agreement. Failure to comply with the requirements of this section are grounds for termination for cause of the Agreement.

## **SECTION 2 – EXECUTIVE SUMMARY**

- 2.1 **HISTORICAL BACKGROUND:** The Texas State University System, founded in 1911, is the first higher education system established in Texas. Beginning as an administrative means to consolidate the support and management of state teacher colleges, the System has evolved into a network of higher education institutions stretching from the Texas–Louisiana border to the Big Bend region of west Texas. Today, seven Member Institutions offer a broad range of academic and career opportunities. Throughout the System, faculty and staff are preparing students to work in and contribute to our global society.
- 2.2 **MISSION STATEMENT:** The mission of The Texas State University System is:
- To advance and extend knowledge, learning, and culture, especially within Texas.
  - To provide opportunities for individuals to develop intellectually, personally, and professionally.
  - To prepare students to contribute to the state’s and nation’s economy, culture, and future.
  - To offer undergraduate and graduate instruction leading to professional certificates and undergraduate, master’s, and doctoral degrees.
  - To provide public services that enrich the institutions, communities, and the state.
  - To foster creative and artistic expression that enhances the cultural richness of the state.
  - To support research and commercial development that result in new technologies and products which benefit the state.
- 2.3 **PROJECT DESCRIPTION, SCOPE, AND BUDGET:** Lake Ament Dam is located on an unnamed tributary of Dark Canyon Creek in the Rio Grande River Basin, 10 miles north of Study Butte in Brewster County, Texas. The approximate latitude and longitude coordinates of the dam are 29° 27’ 10.28” N and 103° 29’ 31.36” W. The rock masonry dam was constructed circa 1910’s and is approximately 125 feet long, with a crest width of approximately 12 feet, and a height of 56 feet. It is classified as intermediate size, based on maximum storage capacity at the top of the dam of

1,275 acre-feet. Under existing conditions, Lake Ament Dam is classified as a high hazard dam based on the risk of loss of life and property damage downstream of the dam in the event of a dam breach. In its current configuration, the dam can retain 54.8 percent of a Probable Maximum Flood (“PMF”) without overtopping, and the minimum requirement is that the dam must safely pass 81.7 percent of the PMF. The dam was apparently designed to overtop during excess inflows and meets the hydraulic requirements of Texas Commission on Environmental Quality (“TCEQ”) so it can be considered hydraulically adequate. However, there are other requirements that must also be fulfilled to consider the dam a being able to “safely pass” the design storm. Lake Ament Dam has several observed deficiencies that may prevent the dam from performing as originally designed.

The Owner intends to remove a portion of the dam, lowering it from its approximately 56-foot-height to a 22.5-foot-high structure. The top of the dam and downstream steps would have a concrete cap secured with dowels to avoid water penetrating the rock masonry dam and protect it from erosion. The reduction of the dam height will potentially modify the hazard classification to low hazard and modify the size classification of the dam to a small size dam with a maximum storage of 24 acre-feet.

The Owner seeks a Professional Engineer, licensed in the State of Texas, with extensive knowledge of the Texas Dam Safety rules and regulations (Texas Administrative Code Title 30, Part 1, Chapter 299) with specific experience in hydrology, hydraulics, structural, and geotechnical engineering.

**The total Construction Cost Limitation for the project is \$900,000.**

2.4 **FACILITY PROGRAM:** The Owner has commissioned an Alternative Study Report for the dam inclusive of hydrology and hydraulics modeling, assessments, and analysis; stability analysis; and environmental and permitting evaluations. An archeological study of the dam and existing roads leading to the dam has also been completed and recommends full regulatory clearance for the proposed project. The reports will be provided to the successful Respondent upon contract award.

**I. GENERAL:**

**A.** The optional Pre-Submittal Conference was held on December 3, 2024, at The Texas State University System office in Austin, Texas and virtually. The Attendance Sign-In Sheets for in-person attendees are included as part of this Addendum along with the questions and answers presented in response to this solicitation as of December 10, 2024:

- 1.** **Question:** What is the general expectation of the engineer during construction? Specifically, how often do we need to visit the site? We office out of Austin and it is quite a haul.  
**Answer:** The standard language contained in our template agreement requires site visits during construction “no less than monthly” and more frequently depending on planned or actual activities at the site. The actual number of visits needed during the construction phase will be negotiated with the successful respondent.
- 2.** **Question:** I noticed the 'construction cost limitation' is \$900,000. Does this include all design fees? If not, is there a ballpark budget or expectation for design services?  
**Answer:** The \$900,000 Construction Cost Limitation is for construction/demolition only. The engineer’s fee will be negotiated with the successful respondent and will be based on the level of effort required to perform the engineering work.
- 3.** **Question:** What is the TS’s HUB percentage goal for responding firms to meet or exceed? TSU supplied a sample Agreement with the RFQ which states that “*The PE agrees to make a Good Faith Effort to allocate twenty percent (20%) of the services required under this Agreement to qualified consultants, which are HUB.*” Does this include construction or only engineering services?  
**Answer:** There is no specific HUB percentage goal that must be met. However, the HUB Subcontracting Plan must demonstrate the Respondent’s good faith effort to allocate twenty percent (20%) of the services required under the agreement to HUBs. If the Respondent has made a demonstrated good faith effort but falls below the stated value, it has satisfied the intent of paragraph 1.13 of the RFQ. This requirement applies only to the PE services. The contractor will have a separate HUB percentage goal.
- 4.** **Question:** Are there other specific HUB goals required, such as SMBE or WBE goals that will also need to be met?  
**Answer:** No.

**Attachments:**

- (1) Optional Pre-Submittal Attendance Sign-In Sheets
- (2) PowerPoint presentation slides from the Pre-Submittal Conference held on December 3, 2024.
