S.R.24-25.10

1 **A Resolution-**

2 To be known as "A Resolution Proposing Internet on Walkways".
3 Relating to internet connection issues surrounding campus as a
4 result of internet access on exterior walkways.

5

6 **WHEREAS:** The Student Government of Texas State University, on
7 behalf of the student body of Texas State University would like to
8 address the internet connection issues resulting from internet
9 access on popular exterior walkways such as 'The Quad', 'Bobcat
10 Trail', and 'Upper Bobcat Trail'; and

11 **WHEREAS:** The current exterior walkways are not up to modern
12 internet standards such that when walking on the aforementioned
13 walkways, electronic devices of various make and models are not
14 able to adequately connect to Texas State's internet system
15 specifically when walking between classes; and

16 **WHEREAS:** The issue is prominent when combined with the
17 specifications of Texas State's internet structure such that
18 students keep the same IP address throughout their day on campus

19 regardless of building/classroom and by (inherently) walking
20 outside they disconnect their device from the internet; and

21 **WHEREAS:** A disconnect can cause that device to reconfigure itself,
22 making reconnecting back to the internet by the time necessary for
23 use in the next class unlikely and an installment of exterior
24 internet capabilities would eliminate this issue while also
25 improving student quality of life allowing for better internet
26 access outdoors to work on classwork; and

27 **WHEREAS:** A solution is proposed such that internet routers are
28 installed outside on the popular Texas State walkways known as
29 'The Quad', 'Bobcat Trail', and 'Upper Bobcat Trail' to better
30 serve the student body; and,

31 **WHEREAS:** There are many technical solutions that can resolve the
32 issue such is the nature of current technological advancements
33 where another optimal solution can be researched and discovered
34 such that if a more viable solution is found and proposed it shall
35 be enacted as the primary solution to 'A resolution proposing
36 internet on walkways'; therefore,

37 **BE IT RESOLVED:** To enhance student learning experiences, better
38 access to the Texas State internet network while outdoors is
39 necessary, The Student Government recommends that the
40 aforementioned popular exterior walkways be modernized with the
41 current network infrastructure to keep Texas State up to date with

42 modern day internet requirements or be presented with another
43 viable solution; and

44 **BE IT FURTHER RESOLVED:** This legislation be forwarded to the
45 Student Body President for further action.
