## OUTCOMES

### Marketable Skills

Think critically

Analyze and solve problems

Communicate clearly and effectively

Ability to interpret models of climate patterns and change through an understanding of the elements of climate and their use in environmental monitoring and analysis

Ability to analyze and utilize principles of physical geography to demonstrate how humans impact the oceans and coastal areas

[See more marketable skills for this major](#)

### Career Opportunities

Environmental scientists

Meteorologists

Climate change analysts

Climate resilience planners

Natural resource managers

Geomorphologists

Soil scientists

Natural hazards analysts

Emergency management specialists

### Experiences in Physical Geography

The bachelor of science degree with major in physical geography emphasizes the physical science elements of geographical study. Students can tailor their personal interests by choosing from five minors: environmental studies, geographic information science, geography, geology, and nature and heritage tourism. Students may participate in faculty-led study abroad or Study in America trips, develop a professional community at association or networking events, or join student organizations for a well-rounded experience.
