| Sound mixer           |                   |

## Experiences in Electronic Media

The electronic media major empowers students to navigate the dynamic media landscape and skillfully craft messages that resonate with various audiences. Students go beyond learning the mechanics of electronic media, to innovate in the areas of TV news, video communication, broadcasting, hosting entertainment programs, sharing insights on radio or television, sports media and more. Students may participate in faculty-led study abroad or Study in America trips, learn with peers in Living and Learning Communities, develop a professional community at networking events, compete in student competitions, or join student organizations for a well-rounded experience. This undergraduate program is accredited by the Accrediting Council on Education in Journalism and Mass Communications. An optional concentration in sports media is available.
