**Minimum required: 125 semester credit hours**

## Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

## General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. An all-level (EC-12) teacher certification in the theatre program consists of a minimum of 41 semester hours, with at least 24 hours advanced.
3. All Theatre students are encouraged to participate in theatre production activities each semester.
4. In addition to the major requirements, students must also complete a Minor in Education. The Minor requires 21-hours including 6 hours in TH that count toward this requirement. All coursework must be completed prior to EDST 4380 and EDST 4381.
5. Teacher certification students in Theatre must maintain an overall GPA of 2.75, a major GPA of 2.75, and a GPA of 2.75 in all required education courses as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor. Students who fail to do so will be advised into another program.
6. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If

[you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: \[https://tea.texas.gov/Texas\\\_Educators/Investigations/Preliminary\\\_Criminal\\\_History\\\_Evaluation-FAQs/\]\(https://tea.texas.gov/Texas\_Educators/Investigations/Preliminary\_Criminal\_History\_Evaluation-FAQs/\).](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/)

<sup>1</sup> Non-specified advanced TH classes are chosen in consultation with academic advisor.

<sup>2</sup> During the summer between their junior and senior years, B.F.A. Teacher Certification majors take TH 4365, TH 4327, and TH 4320.

## Minimum required: 120 semester hours Admission Requirements

1. The Bachelor of Fine Arts (B.F.A.) degree with a major in Theatre with a concentration in Technical Production requires admission to the university and admission to the program. For more information visit: <http://www.theatreanddance.txstate.edu/Undergraduate-Degrees/BFA-Theatre--Technical-Production.html>
2. Admission to the B.F.A. with a major in Theatre with a concentration in Technical Production is based on successful completion (with a grade of C or better) in TH 1350 and in TH 2330. Upon successful completion of these two courses, the student will be allowed to enroll in TH 3390 and, in some cases, may be concurrently enrolled in TH 2330 and TH 3390.

## General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. All Theatre students are encouraged to participate in theatre production activities each semester.
3. Students must complete a minimum of 60 hours in Theatre courses, of which 36 are required.
4. A grade of "C" or better is required in all Theatre courses.
5. Students in this emphasis are encouraged to complete a non-course based internship during the summers after their Sophomore and Junior years.

6. Students in the program will be evaluated after each semester by Technical Production faculty and staff to assess progress and determine continuation in the program. Students must maintain a minimum GPA of 2.5.

Nursing—Theresa Garcia, Ph.D.  
Physical Therapy—Janet Bezner, Ph.D.  
Radiation Therapy—Megan L. Trad, Ph.D.  
Respiratory Care—S. Gregg Marshall, Ph.D.

The College of Health Professions prepares students for careers in the healthcare field. Through its professional, technical, clinical and academic programs, the college serves as an advocate for change and technical improvement in the field. The college also serves as a catalyst to expand and improve public perceptions of healthcare.

Undergraduate programs are available in clinical laboratory science, communication disorders, healthcare administration, health information management, health sciences, nursing, radiation therapy, and respiratory care. Graduate programs are offered in communication disorders, healthcare administration, health information management, nursing, physical therapy, and respiratory care. The college has a number of cooperating teaching sites with more than 1200 affiliations with hospitals and other healthcare facilities.

All programs offered in the College of Health Professions, except the B.S. with a major in health sciences, have specific admission requirements in addition to Texas State admission requirements. Most programs also have requirements for student liability insurance and immunizations. Background checks and drug testing may be required.

## Academic Advising Center

Encino Hall, Room 302  
T: 512.245.3506 F: 512.245.1615  
[www.health.txstate.edu/advising](http://www.health.txstate.edu/advising) (<http://www.health.txstate.edu/advising/>)

The College of Health Professions Undergraduate Academic Advising Center provides academic advising to current and prospective undergraduate students considering a major in the College of Health Professions. Academic advisors provide guidance and information to current and prospective students regarding the selection of an undergraduate major or minor, program admission requirements, long term planning for degree completion and career goals, and campus resources to assist students in achieving their goals.

## Bachelor of Sciences (B.S.)

- Major in Health Sciences (p. 419)
- Major in Health Sciences (Fine Motor Therapy Concentration) (p. 420)
- Major in Health Sciences (Gross Motor Therapy Concentration) (p. 421)

- Major in Health Sciences (Pre-Communication Disorders Concentration) (p. 424)
- Major in Health Sciences (Pre-Medical Laboratory Science Concentration) (p. 425)
- Major in Health Sciences (Pre-Nursing Concentration) (p. 426)

- Major in Health Sciences (Pre-Radiation Therapy Concentration) (p. 427)
- Major in Health Sciences (Pre-Respiratory Care Concentration) (p. 428)

## Health Sciences (HS)

### HS 1310. Introduction to Health Professions.

This course introduces students to various healthcare fields and their roles as health care providers. Students will examine the history of the respective fields, educational and credentialing requirements, job functions, perspective job outlooks and salaries.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### HS 3331. Healthcare Systems In The U.S..

This course provides students with the knowledge and skill related to access and barriers to healthcare. Additionally, the healthcare providers' role in past and current health policy and healthcare delivery will be emphasized. Evaluation of quantitative global and U.S. healthcare data in relation to healthcare systems and evidence-based practices will be analyzed. Ethical topics will be discussed. This course is for non-nursing majors.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### HS 3350. Foundations in Interprofessional Education and Collaborative Practice.

This course introduces students to the foundational principles of interprofessional education and collaborative practice in healthcare. Students will examine the history, purpose, and best practices of team-based client and patient care, including the enabling, reinforcing, and interfering factors related to interprofessional education and practice. (WI) Prerequisite: [HA 3308 or HI 3301] and HS 1310 all with a grade of a "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

### HS 3374. Principles of Accounting for Healthcare Managers.

This course provides an introduction to accounting useful in healthcare facilities and agencies, and demonstrates the application of accounting principles and techniques in the healthcare field.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### HS 4300. International Healthcare and Wellness.

This course provides an introduction to the culture of a foreign country, with an emphasis on wellness, the health care environment, and language in the healthcare setting. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

### HS 4315. Capstone for Bachelor of Science in Health Sciences.

This course will provide students with the opportunity to reflect on their studies as a whole and explore how they will use the knowledge they have obtained in their future career. Students will investigate career opportunities available to them after graduation and develop professional skills to ensure success post-graduation. Prerequisite: HS 1310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

### HS 4327. Legal Concepts of Healthcare.

This course provides an overview of legal, regulatory, and ethical issues in healthcare. Topics include patient consent, privacy, confidentiality, torts, contract law, corporate liability, employment, labor, malpractice, antitrust, fraud and abuse, and key federal regulations. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

### HS 4379. Introduction to Financial Management for Health Sciences.

This course is designed to prepare health professionals for managerial positions in healthcare organizations by providing sufficient knowledge of industry financial matters so they can provide input to the organization's chief executive officer.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**Minimum required: 120  
semester credit hours**

## General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

5. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). If minoring in HA, do not take HA 3347. Work with your advisor for an alternate course.

<sup>1</sup> 12 hours of Prescribed Electives may be chosen from the following: AT 3358, CDIS 1331, COMM 4326, ECO 2301, ECO 2314, ECO 2315, ESS 3117, ESS 3317, HA 3344, HA 4305, HA 4322, HA 4440, HI 3310, HI 3311, HIM 3463, HS 3374, HS 4327, MC 4322, MKT 3343, NUTR 1362, NUTR 3362, NUTR 3364, PFW 1301, PH 1310, PH 1320, PH 2340, PH 3301, PH 3348, PH 3350, PH 4336, PSY 3361, RC 2213, SOCI 1310 OR SOCI 3300, SOCI 3329, SOCI 3363, SOCI 3383, SOCI 3384

<sup>2</sup> 11-12 hours of Support Courses may be chosen from the following: BIO 1130, BIO 1131, BIO 1331, BIO 2430, BIO 2400 or BIO 2440, BIO 2451, BIO 2452, CHEM 1141, CHEM 1142, CHEM 1342, CHEM 2130, CHEM 2141, CHEM 2142, CHEM 2341, CHEM 2342, PHYS 1115, PHYS 1125, PHYS 1310, PHYS 1315, PHYS 1320, PHYS 1325; additional BIO, CHEM, or PHYS courses may be approved. Students should consult with an advisor for additional course options.

## Minimum required: 120 semester credit hours

## General Requirements

- The fine motor concentration prepares students to apply to an occupational therapy program to earn a degree in occupational therapy.
- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.

- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). If minoring in HA, do not take HA 3347. Work with your advisor for an alternate course.
- Admission and acceptance to Texas State and declaration as a fine motor therapy concentration student does not guarantee admission to a professional degree program culminating in the awarding of an occupational therapy degree. Admission to an occupational therapy masters or doctoral program is competitive and selective. <https://www.aota.org/career/become-an-ot-ota> (<https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.aota.org%2Fcareer%2Fbecome-an-ot-ota&data=05%7C01%7Cjb25%40txstate.edu%7Cbed4947f5c5449cb291d08da9c0d7ff4%7Cb19c134a14c94d4caf65c420f94c8cbb%7C0%7C0%7C637993879032831591%7CUnknown%7CTWFPbGZsb3d8eyJWljojMC4wLjAwMDAilCJQljoiv2luMzliLCJBTiI6Ik1haWwWlCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=grtaGu2FO7fd9R6uFwAc%2BrPj404FRRQAJcZnp04m0%2B8%3D&reserved=0>)

## Minimum required: 120 semester credit hours

### General Requirements

- The gross motor concentration prepares students to apply to a physical therapy program to earn a doctor of physical therapy (DPT) degree.
- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this

catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). If minoring in HA, do not take HA 3347. Work with your advisor for an alternate course.
- Admission and acceptance to Texas State and declaration as a gross motor therapy concentration student does not guarantee admission to the doctor of physical therapy degree program at Texas State. Admission to the DPT program is competitive and selective. Additional information may be found on the DPT catalog page (p. 2345).

## Minimum required: 120 semester credit hours

### General Requirements

- Any student entering Texas State may enroll in the Bachelor of Science in Health Sciences (BSHS) pre-communication disorders concentration. The BSHS degree does not prepare students to attend a graduate degree program in communication disorders. Admission to Texas State does not guarantee admission to the Communication Disorders program. Admission to the Communication Disorders program is competitive and selective. It is recommended that students arrange academic advising at least once prior to submitting an application. The academic sequence begins during the fall semester of the junior year. The deadline for submission of applications is typically in the summer. Additional information may be found on the Communication Disorders catalog page (p. 437).
- The general education core curriculum courses are listed in the degree plan below along with the statewide component core number. See the General Education Core Curriculum section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- Students who chose to earn a BSHS degree must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). If minoring in HA, do not take HA 3347. Work with your advisor for an alternate course.
- The degree plan listed below for the Junior and Senior years applies only to students who chose to earn a BSHS degree. Students admitted to the Communication Disorders program, see BSCD catalog page.

**Minimum required: 120 semester credit hours**

## General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
5. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/>

undergraduate/minors/). If minoring in HA, do not take HA 3347. Work with your advisor for an alternate course.

6. Admission and acceptance to Texas State and declaration as a pre-nursing major does not guarantee admission to the program. Admission to the program is competitive and selective. Application to the BSN program can be found on the B.S.N. Nursing catalog page. (p. 453)

Linkedin: [www.linkedin.com/company/texas-state-clinical-laboratory-science-program](https://www.linkedin.com/company/texas-state-clinical-laboratory-science-program/) (<https://www.linkedin.com/company/texas-state-clinical-laboratory-science-program/>)

The Bachelor of Science in Medical Laboratory Science (BSMLS) degree with a major in Medical Laboratory Science prepares students to function as medical laboratory scientists (clinical laboratory scientists) or medical technologists in a wide variety of settings from physician office laboratories to modern tertiary care hospital laboratories. The medical laboratory scientist can become an indispensable top-level laboratory worker, a supervisor, a specialist, a researcher, or an educator.

The requirements during the first two years of study include courses in biology, chemistry, and mathematics, along with courses in the humanities and social and behavioral sciences. The junior and senior years combine clinical experiences in the affiliated clinical laboratories with advanced academic study in the MLS disciplines.

The program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Graduates of the program are eligible to take the national certification examination for the Medical Laboratory

Scientist (MLS) given by the Board of Certification of the American Society for Clinical Pathology (ASCP).

## Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider. Certain immunizations are required prior to beginning classes in the MLS program and before the student can be placed in a clinical or internship assignment. Information on these requirements and forms may be obtained through the program office.

## Background Check and Drug Screening

Prior to beginning classes in the MLS program, students are required to have a background check. As a condition for placement in professional practice sites during the second year of the program, students will be required to have a drug screening and meet other requirements set by individual sites. Information on the background check and drug screening process will be provided by the MLS Program.

## Clinical Placement (rotation) Requirements

The Medical Laboratory Science (MLS) Program at Texas State provides clinical placements for all MLS students entering the clinical year (senior year / 2<sup>nd</sup> year of post baccalaureate) in good academic standing. Clinical placements are carefully and methodically assigned while taking into account transportation issues, types of clinical affiliates, and student characteristics. In the event a clinical affiliate is unable to fulfill their prior obligation, alternative clinical rotations will be sought at other affiliate institutions. In the very unlikely event alternative clinical rotations are unable to be secured; affected students will be reassigned to the first available rotation site. The next available clinical rotation will occur as soon as possible but no later than one year from the time the rotation was cancelled. If the clinical rotation cancellation occurs after clinical rotations have commenced, the affected student will be placed first in the queue to receive the first available clinical rotation slot that will occur no later than one year after the cancellation. If the clinical rotation cancellation occurs prior to the start of clinical rotations, affected students will be selected based on GPA calculated from performance in the MLS courses. Students with the lowest GPAs will be required to relinquish their clinical rotation slots which will delay clinical rotations.

## Bachelor of Science in Medical Laboratory Science (B.S.M.L.S.)

- Major in Medical Laboratory Science (p. 432)

## Courses in Medical Laboratory Science (MLS)

### MLS 3105. Introduction to Medical Laboratory Techniques LAB.

This lab class will be for students currently accepted into the Medical Laboratory Science Program and have taken or concurrently taking MLS 3205 lecture course. There will be technical competency demonstrations and hands-on practice in the techniques, procedures, and instrumentation commonly used in clinical laboratories. Corequisite: MLS 3205 with a grade of a "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### MLS 3111. Medical Laboratory Science Review.

This course reviews material presented in the first two semesters of the Medical Laboratory Science coursework to improve retention of material for the national certification exam. Students will review entry-level theory and application in the areas of clinical chemistry, immunology, hematology, coagulation, urinalysis, parasitology, quality control, and microscopy.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### MLS 3205. Introduction to Medical Laboratory Techniques.

This course will introduce students, both MLS majors and non-majors, to the main areas of clinical practice including Hematology, Microbiology, Immunohematology (blood banking), Clinical Chemistry, and Immunology. Lectures will cover the techniques, procedures, and instrumentation commonly used in clinical laboratories. (WI).

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

### MLS 3323. Medical Microscopy and Analysis of Body Fluids.

This course is the study of body fluids present in the various anatomical compartments of the body as they differ in health and disease. Physical and chemical tests, and microscopic examination of select body fluids are performed.

**3 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### MLS 3324. Clinical Immunology.

This course is an in-depth study of theoretical and practical aspects of clinical immunology with emphasis on principles, methodology, problems encountered, and clinical applications.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 3326. Medical Parasitology.**

This course includes lectures and laboratory instruction in medically important parasites producing disease in humans with emphasis on epidemiology, life cycles, identifying characteristics, and pathology of these parasites.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 3410. Clinical Chemistry I.**

This course is designed to acquaint the medical laboratory science student with concepts, techniques, procedures, and instrumentation used in clinical chemistry.

**4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 3412. Clinical Hematology and Hemostasis I.**

This course is an in-depth study of theoretical and practical aspects of clinical hematology and hemostasis with emphasis on principles, methodology, problems encountered, and clinical applications.

**4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4121. Directed Study in Medical Laboratory Science.**

This course is an in-depth study of a narrow range of topics or a related problem in the medical laboratory sciences. Topics to be announced; may be repeated for credit when topics vary.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**MLS 4177A. Community Health Education through Laboratory Science.**

This course is a service-learning course designed to teach students about best practices in community health and community health education from a laboratory science perspective. Students will learn about cultural humility in healthcare, social determinants of health, and how clinical laboratory professionals can be integrated into a variety of public health initiatives.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions|Topics

**Grade Mode:** Credit/No Credit

**MLS 4221. Directed Study in Medical Laboratory Science.**

This course is an in-depth study of a narrow range of topics or a related problem in the medical laboratory sciences. Topics to be announced. Course may be repeated for credit when topics vary.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**MLS 4225. Laboratory Management & Supervision.**

This course is an in-depth study of theoretical and practical aspects of laboratory management, with emphasis on active discussions of general principles of management and supervision of the clinical laboratory and its personnel.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**MLS 4241. Molecular Diagnostics.**

This course consists of an introduction to the principles, methodologies, and applications of molecular diagnostic procedures used in clinical laboratories. Emphasis is placed on the procedures used in the identification of infectious agents that cause human disease, the diagnosis of inherited diseases, and the diagnosis of cancer.

**2 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4318. Clinical Hematology and Hemostasis II.**

This course is an in-depth study of theoretical and practical aspects of clinical hematology and hemostasis with emphasis on principles, methodology, problems encountered, and clinical applications.

**3 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4321. Directed Study in Medical Laboratory Science.**

This course provides an in-depth study of a narrow range of topics or a related problem in the clinical laboratory sciences. Topics to be announced. May be repeated for credit when topics vary.

**3 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**MLS 4333. Bridge to Clinical Practice.**

This course will discuss professional and technical laboratory competence requirements for clinical laboratory science students as well as the student's role as a unit of the healthcare team. This course focuses on the four Cs: critical thinking, communication, cultural humility, and core competencies. Students will reflect upon their own cultural beliefs and examine a variety of cultural perspectives, behaviors, disparities, and barriers to transcultural communication. (MULTI).

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**MLS 4340. Diagnostic Microbiology II.**

This course is a study of medically important fungi, viruses, chlamydiae, rickettsiae, mycobacteria, and advanced topics in clinical microbiology. Automated identification of microorganisms, database management, and epidemiologic techniques will be discussed.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4361. Medical Laboratory Research Methods.**

This course provides a working knowledge of research designs, analysis, and presentation for medical laboratory professionals. Students will complete a directed independent research project covering the principles of research and validation of medical laboratory methodologies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**MLS 4370. Clinical Chemistry II.**

This course is designed to acquaint the medical laboratory science student with advanced concepts, techniques, procedures, and instrumentation used in clinical chemistry.

**3 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4440. Diagnostic Microbiology I.**

This course is a study of pathogenic and nonpathogenic bacteria with special emphasis on methods of isolation from body fluids, cultural and differential biochemical characteristics of body pathogens. An overview of major classes of antibiotics, antimicrobial resistance, and antibiotic susceptibility testing platforms will be covered.

**4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4460. Immunohematology.**

This course is a study of theoretical and practical consideration of major blood groups with emphasis on grouping and typing, antibody detection and identification, compatibility testing and component therapy in blood transfusion service.

**4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4463. Clinical Practice I.**

This course provides a structured clinical experience assigned on an individual basis for observation, study, interpretation, and practical application of techniques and methodology in the medical laboratory.

**4 Credit Hours. 4 Lecture Contact Hours. 20 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**MLS 4465. Clinical Practice II.**

Structured clinical experience assigned on an individual basis for observation, study, and practical application of techniques and methodology in the medical laboratory.

**4 Credit Hours. 4 Lecture Contact Hours. 20 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### Admission Requirements

1. The Bachelor of Science in Medical Laboratory Science (B.S.M.L.S.) degree with a major in Medical Laboratory Science requires admission to the university and admission to the program. For more information visit: <http://www.health.txstate.edu/cls/degrees-programs/undergraduate.html>
2. University application deadlines are different than the Medical Laboratory Science (M.L.S.) program deadline. Any student entering Texas State may declare the bachelor of science with a major in health sciences and a Pre-Medical Laboratory Science concentration as their major. It is recommended that students arrange academic advising at least once prior to making application, and, if possible, arrange to learn about the profession through clinical laboratory tours, personal research, and interviewing a practicing M.L.S. professional. Admission and acceptance to Texas State and declaration of a pre-M.L.S. concentration does not guarantee admission to the B.S.M.L.S. program. Admission to the program is competitive and selective. The academic sequence begins during the fall semester of the junior year. Students are selected in the spring semester of their sophomore year. Enrollment is limited by student/faculty ratios and clinical placement availability.
3. The deadline for submission of applications to the M.L.S. program is February 15th. A typical cohort size of 20 students will be admitted. Applicants will be notified of their status by April 30th or sooner. The criteria for student selection for the junior class includes scholastic ability, particularly in the sciences, essays, and a personal interview, and not on the basis of gender, race, color, religion, veteran status or condition of disability, or national origin. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program to qualify for admission.
4. Potential applicants are encouraged to complete the University process early (six to eight weeks prior to the M.L.S. application deadline of February 15th) to facilitate review of transcripts during the M.L.S. program application process.
5. A minimum overall GPA and science and mathematics GPA of 2.50; however, an overall GPA and a science and mathematics GPA of 3.0 is recommended in order to be competitive in the application process. Applicants must be in good academic standing to apply to the M.L.S. Program. Students on academic probation or suspension will not be considered. The science and mathematics GPA is calculated based on grades in the following nine courses which must be completed prior to submitting the M.L.S. application:

Code	Title	Hours
BIO 1330	Functional Biology	3
BIO 1130	Functional Biology Laboratory	1

BIO 1331	Organismal Biology	3
BIO 1131	Organismal Biology Laboratory	1
CHEM 1341	General Chemistry I	3
CHEM 1141	General Chemistry Laboratory I	1
CHEM 1342	General Chemistry II	3
CHEM 1142	General Chemistry Laboratory II	1
MATH 1315	College Algebra	3
	or MATH 1319 Mathematics for Business and Economics I	
	or MATH 1329 Mathematics for Business and Economics II	
	or MATH 2321 Calculus for Life Sciences I	
	or MATH 2417 Pre-Calculus Mathematics	
	or MATH 2471 Calculus I	

- Science and mathematics courses require a minimum grade of "C" or higher.
- Students may have a maximum of nine hours of core and prerequisite coursework remaining prior to beginning the M.L.S. program.
- Completion of the M.L.S. application packet for admission is required by the deadline (February 15th).
- Successful interview of selected candidate with admission committee is also required.
- Health records and a background check are necessary before being allowed to start the program. Specific immunizations and drug testing are necessary before clinical placements.

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- To graduate with a B.S.M.L.S., students must successfully complete all MLS courses in a lock-step sequence with a "C" or higher. Each MLS course is offered only once each academic year; therefore, progress in the program is affected should a student fall out of the sequence due to failure to successfully complete a course. A student who falls out of sequence (whether due to illness, course failure, or other reasons) will be delayed one year to repeat the course. Students with a grade of less than a "C" in a MLS course will be stepped out of the program and individuals must reapply to the program the following year. To be considered for program readmission, all original program admission criteria and an approved schedule for retaking courses must be met. In addition, a student may repeat a MLS course only once. If the student does not earn a grade of at least "C" upon repeating the course, the student cannot continue in the program.
- All non-MLS courses must be completed *prior* to the senior year, 2nd semester (spring), due to students beginning off-campus clinical rotations.
- Requirements for B.S.M.L.S. completion and graduation include a Texas State GPA of 2.0 with a MLS major GPA of 2.25.

- During the second semester (spring) and final semester (summer) of the senior year, students are required to successfully complete five clinical laboratory rotations/experiences in MLS Clinical Practice courses. These courses require that the students spend clinical time in other facilities, primarily hospitals and reference laboratories, away from campus. Students must furnish their own transportation, and if necessary, housing. Because of the time and distances involved, typically no courses other than those listed in the MLS Program can be taken in the final two semesters of the senior year.

**Total Hours: 120**

<sup>1</sup> If US 1100 is waived, the student must have a minimum of 120 hours to graduate. See the College Advising Center.

Willow Hall Room 253  
Round Rock Campus

100 Bobcat Way  
Round Rock, TX  
T: 512-716-2624 F: 512-716-2814  
[www.health.txstate.edu/CDIS/](http://www.health.txstate.edu/CDIS/) (<http://www.health.txstate.edu/CDIS/>)

The Department of Communication Disorders, located in Round Rock, is dedicated to excellence in teaching, research, and clinical practice in speech-language pathology and audiology. We are committed to innovative instruction, expansion of knowledge, and community-based collaboration to create a vibrant and supportive learning community that engages and inspires students, faculty, staff, and clients. Advanced clinical and educational training, grounded in evidence-based practices (EBP) and practice-based practices (PBP), prepares students in the undergraduate program for entry into graduate school.

The Department of Communication Disorders provides undergraduate students with the academic background to successfully enter a graduate program in speech-language pathology or audiology. The undergraduate curriculum provides knowledge in normal and disordered speech, language, swallowing and hearing processes. Coursework in the major is supported by additional courses in psychology, counseling, biology, physics, and statistics.

## Background Check

As a condition for participation in clinical aiding, in which direct client contact is required, students are required to have a background check. Information on the background check process will be provided by the department. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

## Bachelor of Science in Communication Disorders (B.S.C.D.)

- Major in Communication Disorders (p. 437)

## Courses in Communication Disorders (CDIS)

### CDIS 1331. Introduction to Communication Disorders.

Study of speech, hearing, and language development and its disorders; descriptions of communicative disorders and their etiologies for the speech-language pathologist, health professional, and classroom teacher.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### CDIS 3312. Neuroanatomy for Communication Disorders.

This is a lecture course that examines the organization of the brain, spinal cord, and peripheral nervous system. Significance of the areas of the nervous system that are primary or secondary for speech, language and hearing are the main focus of this course.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### CDIS 3325. Anatomy and Physiology of the Speech Production System.

Description of structure and function of the speech production system with emphasis on physical problems in speech, language, and hearing.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### CDIS 3359. Phonetics.

The course is designed to analyze normal and abnormal phonological processes in children and adults. Proficiency in transcription using the International Phonetic Alphabet (IPA) is emphasized.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### CDIS 3369. Hearing Science.

This course is designed to provide foundational knowledge in the areas of acoustics, auditory and vestibular anatomy/physiology, psychoacoustics, and speech perception across the lifespan.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### CDIS 3375. Speech Science.

This course is designed to provide a conceptual foundation in voice and speech production, speech perception, and acoustic analysis of voice and speech. The course will begin with the math and physics of acoustics, to provide students with a strong foundation in acoustics necessary to master speech science. Content will cover acoustical phonetics, theories of speech production and perception, and clinical application emphasizing acoustic instrumentation and software used in communication disorders. Examples of concepts to be covered include frequency, pitch, intensity, loudness, decibels, waveforms, spectra, spectrograms, filters, vocal tract transfer function, formants, and acoustic software for voice and speech analysis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### CDIS 3377. Language Science.

This course is designed to investigate various aspects of language, including its structure, processing, acquisition, and neurological organization. The course will cover at least the following topics of language science: Linguistics (the lexicon, morphology, and syntax), language acquisition (acquisition of multiple languages, disorders of language in children, role of culture in developing language), psycholinguistics (lexical processing, sentence processing, bilingual language processing), and neurolinguistics (brain imaging, disorders of language in adults).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 3462. Speech Sound Disorders.**

This course is designed to provide the study of principles and procedures for the identification, description, assessment, and treatment of speech sound disorders in children. Students will observe demonstrations of assessment and treatment procedures during lab. (WI) Prerequisite: CDIS 3325 and CDIS 3359 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**CDIS 4101. Advanced Independent Study.**

This course is designed to provide an in-depth study of selected topics in Communication Disorders for the exceptionally motivated student. Work is done on an independent basis with a faculty member and only with prior departmental permission.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4201. Advanced Independent Study.**

This course is designed to provide an in-depth study of selected topics in Communication Disorders for the exceptionally motivated student. Work is done on an independent basis with a faculty member and only with prior departmental permission.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4301. Advanced Independent Study.**

In-depth study of selected topics in Communication Disorders for the exceptionally motivated student. Work done on an independent basis with faculty member and only with prior departmental permission.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4317. Service Delivery in Communication Disorders.**

Provides a foundation of clinical management to prepare CDIS students to work in a variety of settings. Emphasis will be placed on techniques of goal and objective sequencing, report writing, evaluation of services, ethics, and interdisciplinary collaboration. Prerequisite: CDIS 3462 and CDIS 4330 and [CDIS 4350 or CDIS 4466] all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**CDIS 4330. Speech and Language Development.**

This course is designed to acquaint students with acquisition of speech and language in children. Basic information from linguistics, psycholinguistics, psychology, and communication are examined for children in various stages of development. Prerequisite: CDIS 3377 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4335. Bilingual Speech Sound Disorders.**

Typical development of Spanish-English bilingual/bidialectal children's articulation and phonology will be discussed. Assessment and intervention of articulation and phonology with bilingual/bidialectal children will also be addressed. The information and theoretical foundations serve as a guide for students to critically evaluate and clinically apply research in bilingual populations. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4340. Augmentative Communication Systems.**

This course is designed to review methods of non-oral communication as applied to hospital, rehabilitation, and school settings. Use of electronic communication systems emphasized. Prerequisite: CDIS 4330 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4344. Clinical Practicum in Communication Disorders.**

This course is the supervised clinical practicum in speech-language pathology. Must be taken each semester student participates in any supervised clinical practicum in speech-language pathology.

Prerequisites: CDIS 1331, CDIS 3359, and CDIS 4330 all with grades of "C" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**CDIS 4350. Survey of Neurogenic Communication Disorders.**

An introduction to acquired speech, language, cognitive and swallowing disorders resulting from brain injury. Basic neuroanatomy and physiology are reviewed, followed by discussion of the etiology, diagnosis, treatment, and prognosis of these disorders. Emphasis is placed on aphasia, motor speech disorders, right hemisphere syndrome, traumatic brain injury, dementia and dysphagia. Prerequisite: CDIS 3312 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4370. Aural Rehabilitation.**

Principles and procedures in the habilitation and rehabilitation of hearing impaired children and adults. (WI) Prerequisites: CDIS 4420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**CDIS 4371. An Introduction to Stuttering and Voice Disorders.**

This is an introductory course on childhood-onset stuttering and voice disorders. Specific to stuttering, students will learn the etiology, assessment and treatment of childhood-onset stuttering. Specific to voice disorders, students will learn the basic anatomy and physiology of voice, normal voice, types of voice disorders, their assessment and treatment.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**CDIS 4420. Diagnostic Audiology.**

This course is designed to relate anatomy and physiology of the auditory system and the science of acoustics to the study of normal and pathological auditory function. Laboratory experience in administration and interpretation of audiological tests. Discussion of professional opportunities in the field of audiology and provision of audiological service to special populations will be held. Prerequisite: CDIS 3369 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**CDIS 4466. Language Disorders.**

The study of principles and procedures for the identification, description, assessment and remediation of language disorders in infants, children, and adolescents. Students will observe demonstrations of assessment procedures and types of language disorders within the context of clinical procedures. Describing observed behaviors and analyzing language samples will be emphasized. Prerequisite: CDIS 4330 with a grade of "C" or better.

**4 Credit Hours. 4 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**Minimum required: 120  
semester credit hours**

**Admission Requirements**

1. The Bachelor of Science in Communication Disorders (B.S.C.D.) degree with a major in Communication Disorders requires admission to the university and admission to the program. For more information visit: <http://www.health.txstate.edu/cdis/prospective-students/Admissions.html>
2. Students start out as Bachelor of Science in Health Sciences, pre-communication disorders concentration majors. Once the student

is accepted into the Junior/Senior sequence, the major becomes Communication Disorders (CDIS)

3. Admission to the CDIS junior/senior-level courses is competitive and selective. Enrollment is limited by student/faculty ratios in both academic and clinical components of the program.
4. Students must be in overall good standing to apply.
5. An overall GPA of 3.0 is required to be considered for admission.
6. The application for admission is submitted to the department by May 15th. Admission decisions are made after the end of Summer I. All students will be notified by letter of the CDIS. Undergraduate Admission Committee's decisions. Student selection is made on academic performance and not on the basis of race, color, religion, gender, age, or national origin.
7. A minimum grade of C in support and major classes listed as part of the freshman/sophomore years in the degree plan below. These classes must be completed by the end of the Summer 1 session in the same calendar year in which the student wishes to begin the junior/senior sequence.

Code	Title	Hours
CDIS 1331	Introduction to Communication Disorders	3
HP 3302	Biostatistics	3
PSY 3300	Lifespan Development	3
HIM 2360	Medical Terminology	3
BIO 2430	Human Physiology and Anatomy	4

9. Students are ranked by their GPA in the following five required classes and admittance in the junior/senior year is based on this ranking. Preference for admission is given to students who have not repeated any of the five courses. These classes must be completed by the end of the Summer 1 session in the same calendar year in which the student wishes to begin the junior/senior sequence. The following courses must be taken in the 50 hours to be considered for admission:

Code	Title	Hours
PHYS 1310	Elementary Physics I	3
CDIS 1331	Introduction to Communication Disorders	3
BIO 2430	Human Physiology and Anatomy	4
HP 3302	Biostatistics	3
PSY 3300	Lifespan Development	3

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
5. Students must have attained a major GPA of 2.75 to graduate.

6. The junior/senior-level CDIS course sequence begins during the fall semester only. CDIS courses must be taken in the sequence identified in the degree plan.
7. After admission into the Junior/Senior sequence, failure to enroll in all of the recommended CDIS courses for that semester as identified by an advisor in conjunction with the Degree Plan will delay graduation at least a year.
8. If a student has not earned the minimum major GPA requirement of 2.75 for graduation and has not earned "C" or higher in all CDIS courses, the student will be allowed to re-take CDIS courses only until the student achieves the GPA of 2.75. CDIS students are NOT permitted to re-take CDIS courses if they have earned C's or higher in the courses. If a grade below "C" in a junior- or senior-level CDIS courses is earned, the student will not be allowed to continue as a Communication Disorders student and must change majors to something other than CDIS. This change will be done in conjunction with the student's CDIS academic advisor and the College of Health Professions' Advising Center.

 T: 512-245-3494 F: 512-245-8712  
[www.health.txstate.edu/HA/](http://www.health.txstate.edu/HA/) (<http://www.health.txstate.edu/HA/>)

The Bachelor of Healthcare Administration degree with a major in healthcare administration (BHA) integrates healthcare management theory and practice, and prepares graduates to assume entry to entry-level management positions in a variety of healthcare settings. These settings include health maintenance organizations (HMO), physician group practice, hospitals, insurance companies, clinics, and medical offices. Healthcare administrators manage employees, prepare and maintain budgets, procure resources and perform other administrative functions so that the clinical professionals can provide their services. The major is certified by the Association of University Programs in Health Administration.

**Immunization Requirements**

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider and must take certain immunizations before the student can be placed in a clinical or residency assignment. Information on these requirements and forms to be supplied may be obtained through the school office.

**Background Check and Drug Screening**

As a condition for placement in all professional practice sites, students are required to have a background check and/or drug screen to meet requirements set by individual sites. Information on the drug screening process will be provided by the School of Health Administration. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code will affect eligibility for placement in field experience.

**Bachelor of Healthcare Administration (B.H.A.)**

- Major in Healthcare Administration (p. 442)

**Minor**

- Healthcare Administration (p. 443)

**Subjects in this school include: HA (p. 439), HP (p. 442)**

**Courses in Healthcare Administration (HA)****HA 3308. Healthcare Organization.**

Overview of the healthcare system and the role hospitals have played and continue to play in the future. Analysis of organizational structure of a hospital and other healthcare agencies, administrative and management elements necessary for policy determination, decision making, and control to achieve institutional goals and objectives.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3309. Ethics in the Health Professions.**

This course introduces the student to a sound foundation in well-established ethical theories and a familiarity with terms, concepts and issues in ethics as applied to the health professions. Also provides practical methods for proceeding from considered reflection to informed action in solving ethical problems. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HA 3311. Independent Study in Healthcare Administration.**

An in-depth study of a single topic or problem confronting the healthcare industry. This course affords the student an opportunity to focus on a topic/problem or group of related problems impacting healthcare managers. This course may be repeated for credit with a different emphasis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3315. Healthcare Administration History, Culture, and Language.**

An introduction to the historical and cultural development of modern healthcare administration in contemporary American society. Special attention is given to the mores of health services delivery including critiques and use of professional behavior and language. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Multicultural Content

**Grade Mode:** Standard Letter

**HA 3324. Supervisory Management for Healthcare Managers.**

Introduction to the following functions of supervisory management: planning, organizing, staffing, influencing, and controlling; as well as the connective processes of decisionmaking, coordinating, and communicating in healthcare organizations. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HA 3329. Human Resources in Healthcare Management.**

Human resource management as applicable to the healthcare field. Course will cover human resource planning, staffing, job requirements, job descriptions, sources of labor supply, training and education programs, salary administration, employee communications, legal considerations, union-management relations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3340. Management of Health Information Systems.**

Provides an introduction to information systems for healthcare facilities and agencies. Covers determining what information is needed by whom; designing information flows, procurement of computer/telecommunication resources, assuring information security, and continuing management of information systems supporting healthcare delivery.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3341. Project Management & Professional Development in Healthcare.**

This course examines the professional development and project management processes as applied to the healthcare industry. Emphasis is placed on staff development, needs analysis, task analysis, development of training and continuing education programs for healthcare personnel. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HA 3344. Patient Care Management & Quality Improvement in Health Care Integrated Delivery Systems.**

This course is an introduction of integrated delivery systems and their operations. It includes an examination of patient care management and the patient experience. A framework for understanding healthcare quality efforts is also an integral part of the course.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3347. Essentials of Healthcare Law.**

This course includes a review of the laws pertaining to healthcare institutions, physicians, and other healthcare workers who contribute to patient care. Tort and contract law are emphasized. The course addresses policy issues and ethics through topics like patient rights, reproduction, and end of life decisions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3375. Principles of Accounting for Healthcare Managers.**

Provides an introduction to accounting useful in healthcare facilities and agencies, and demonstrates the application of accounting principles and techniques in the healthcare field. Prerequisite: HP 3325 and [ECO 2301 or ECO 2314] both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 3376. Financial Management for Healthcare Managers.**

A concentration in the fundamentals of healthcare financial management including the financial organization of nonprofit facilities, sources of operating revenue, management of working capital, and the allocation, control and analysis of resources. Prerequisite: HA 3375 with a grade of "C" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 4121. Problems in Healthcare Administration.**

In-depth study of a singular problem considered to be of immediate concern to the health care industry. Special emphasis is placed on problems unique to managers in the field of health administration. May be repeated with permission of department chair.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 4141. Healthcare Comprehensive Exam Review and Administration including Field Placement Orientation.**

A course in which each of the respective faculty will review their portion of the comprehensive examination that all HA majors are required to successfully pass during their final semester of study. The comprehensive exam will be administered at the conclusion of the course. In addition, students will be prepared to move from the classroom setting to a workplace scenario.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**HA 4221. Problems in Healthcare Administration.**

In-depth study of a narrow range of topics considered to be of immediate concern to the health care industry. Special emphasis on problems unique to managers in the field of health administration. May be repeated with permission of department chair.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 4305. Healthcare Services Marketing.**

The course applies the principles of services marketing to healthcare organizations. The course will present tools to identify and close the gaps that exist between customer expectation of services and the services provided and to ensure quality of health care.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 4315. Health Services Operations Management.**

An introduction to methodologies used to seek solutions to health administration problems which affect technical and professional personnel. Designed to place emphasis on techniques most directly applicable to models of administration and management decision making.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HA 4318. Employment Law in Healthcare Management.**

This course examines the legal aspects of healthcare human resource management. Each of the major federal and state enactments impacting human resource management will be studied in depth. Prerequisite: HA 3329 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 4320. Seminar in Healthcare Administration.**

Current trends and problems in health administration affecting health administration technical and professional personnel. Designed to place emphasis in selected areas of administration and management. Research paper and presentation is required of each student. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HA 4322. Public Health Administration.**

This course introduces the healthcare manager to public health and its role in preventing illnesses and improving the health of the community. Students will learn about the role of the manager in disease prevention and how to participate and lead community efforts for the wellness of the community.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HA 4325. Healthcare Strategic Management.**

This capstone class integrates accounting, finance, marketing, MIS, and organizational behavior in the creation of sustainable competitive advantage. Health care case studies will be used to illustrate key concepts.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HA 4440. Practicum Internship A.**

Students with specialization in management participate in a health services based practicum. Experiences in providing opportunities for observation, participation, and practical application of administrative or management skills in the institutional setting are required. Must have a 2.25 major GPA and have completed all junior year major courses.

**4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**HA 4441. Practicum Internship B.**

Studies tailored to particular interests and needs of individual students. A variety of experiences may be used to enrich the program for students with special needs or demonstrated competencies. This course is taken in the final semester of study.

**4 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**HA 4848. Healthcare Administrative Residency.**

Designed for students who have limited or no previous background in healthcare management/administration. Includes rotation through selected major departments, culminating in a major project. This course is taken in the final semester of study.

**8 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

## Courses in Health Professions (HP)

**HP 3302. Biostatistics.**

The course introduces major statistical concepts and procedures as applied to clinical science students with an emphasis on inferential statistics. Topics include: descriptive statistics, hypothesis testing, comparison statistics, relationship statistics, association statistics, and beginning epidemiological ratios. Students are introduced to major statistical packages. Prerequisite: MATH 1315 or MATH 1319 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**HP 3325. Healthcare Statistics.**

The course introduces major statistical concepts and procedures as applied to healthcare administration students with an emphasis on descriptive statistics. Topics include: healthcare statistical terminology, descriptive statistics, hypothesis testing, comparison statistics, relationship statistics, and association statistics. Prerequisite: MATH 1315 or MATH 1319 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

Minimum required: 120 semester credit hours

## Admission Requirements

- Any student admitted to Texas State may declare Pre-Healthcare Administration as the major. To declare Pre-Healthcare as a major, contact the Health Professions Advising Center or School of Health Administration.
- Continuation into the Healthcare Administration major is guaranteed to students who:
  - have an overall GPA of 2.00;
  - are in good academic standing at Texas State;
  - have successfully completed their general education core curriculum; and
  - have completed the following support courses with a "C" or higher: MATH 1315 or an equivalent, ECO 2301 or 2314, HP 3325 or an equivalent, and HA 3308.
- To declare Healthcare Administration as the student's major and continue into junior level, first semester Healthcare Administration courses, the student must complete a change of major form with the School of Health Administration. Students can begin their junior level, first semester Healthcare Administration courses in a fall or spring semester only.

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- All students are required to complete a residency for the B.H.A. The Joint Commission requires accredited healthcare facilities to complete criminal background checks on all employees. Therefore, a background check is required during your 3rd semester (enrollment in HA 4141) prior to the residency semester. If there is any reason that could prevent your placement at a facility, you will be asked to meet with the B.H.A. Program Director and/or the Field Placement Coordinator to determine if you will be able to complete the residency requirement. Issues with the background check could impact residency placement and ability for employment in the healthcare industry.
- All students must pass an EXIT exam administered in HA 4141.
- All students are required to have attained a grade of "C" or higher in each HA course. Students are required to take HA courses in a prescribed sequence. All 3000-level courses must be completed before enrolling in any 4000-level courses. All 4000-level courses must be completed before enrolling in field placement.
- Students are allowed to repeat each HA course once, and only once, to improve their grade. In the event that B.H.A. students do not make a "C" or better when repeating a course, they will be suspended from the major. B.H.A. students suspended from the B.H.A. program have a right of appeal and should contact the B.H.A. Director.
- All students are required to pass an EXIT exam administered in HA 4141 before enrolling in field placement.
- All students must have attained a 2.00 Texas State GPA or better and 2.25 HA GPA or better.

**Total Hours: 120**

<sup>1</sup> If US 1100 is waived, the student must have a minimum of 120 hours to graduate. See the College Advising Center.

<sup>2</sup> One course from the following may be chosen to satisfy the Mathematics Component Code 020: MATH 1315 (TCCN 1314), MATH 1319 (TCCN 1324), MATH 1329 (TCCN MATH 1325), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).

The minor in Healthcare Administration requires 18 semester credit hours. The Healthcare Administration minor is designed to complement the student's major with the objective of providing an introductory curriculum, which can assist the student in gaining employment in healthcare and healthcare related career fields. This objective can be achieved by: building on general education core foundations; offering scheduling flexibility for non-traditional students; introducing students to health services management functions through the mastery of certain skills including communication, decision-making, and coordination, unique to healthcare administration; and preparing students for graduate study. The minor requires 18 hours including:

Code	Title	Hours
<b>Required Courses</b>		
HA 3308	Healthcare Organization <sup>1</sup>	3
HA 3324	Supervisory Management for Healthcare Managers	3
HA 3347	Essentials of Healthcare Law	3
<b>Electives</b>		
Choose 9 hours from the following:		9
HA 3309	Ethics in the Health Professions	
HA 3315	Healthcare Administration History, Culture, and Language	
HA 3329	Human Resources in Healthcare Management	
HA 3340	Management of Health Information Systems	
HA 3341	Project Management & Professional Development in Healthcare	
HA 3344	Patient Care Management & Quality Improvement in Health Care Integrated Delivery Systems	
HA 3375	Principles of Accounting for Healthcare Managers	
HA 3376	Financial Management for Healthcare Managers	

**Total Hours 18**

<sup>1</sup> HA 3308 must be taken prior or concurrent with other HA courses.

Nursing Building, Suite 204

Round Rock Campus

T: 512-716-2840 F: 512-716-2827

[www.health.txst.edu/HIM/](http://www.health.txst.edu/HIM/) (<http://www.health.txst.edu/HIM/>)

Health Information Management (HIM) improves the quality and efficiency of healthcare delivery through the management and application

of information and technology. HIM programs prepare students to work in a digital health profession which focuses on health data, analytics, information governance, health informatics, compliance, privacy, cybersecurity, artificial intelligence, and the management of associated resources and technology. The HIM profession addresses the structure, application, and translation of data into usable forms of information such as the electronic health record (EHR), required by interdisciplinary healthcare teams to improve patient outcomes.

Graduates from the Bachelor of Science in Health Information Management (BSHIM) program work in multiple settings throughout the healthcare industry and beyond. These settings include the continuum of care delivery organizations such as hospitals, clinics, physician practices, long-term care, mental health, and other ambulatory care facilities. The profession has recently seen significant expansion in nonpatient care settings, with careers in managed care, insurance companies, electronic health record systems vendors, cybersecurity firms, consulting services, government agencies, higher education institutions, and pharmaceutical companies. With a strong component of online information exchange, many HIM professionals can work remotely either part-time or fulltime.

BSHIM graduates are well prepared to continue their studies in graduate-level programs in HIM, health informatics, data analytics, or other related disciplines. The department offers a fully online Master of Health Information Management (MHIM) degree with a variety of options and concentrations.

The BSHIM program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). Upon completion of the degree, graduates of the program are eligible to sit for the Registered Health Information Administrator (RHIA) examination offered by the American Health Information Management Association (AHIMA).

The department is also recognized by the Healthcare Information and Management Systems Society (HIMSS) as an Approved Education Partner.

The department offers a Minor in Health Information Management and a Minor in Health Informatics. The minor programs fit well with majors in Health Sciences and other disciplines in the College of Health Profession and across university. The minor programs do not establish eligibility for the RHIA credential. Students completing the BSHIM degree automatically qualify for the Minor in Health informatics which is comprised of courses built into the major.

The BSHIM degree is offered in multiple delivery format options: traditional in-person, face-to-face courses on the Round Rock Campus and fully online. All options lead to the same degree and have the same academic requirements. Fulltime students may complete the BSHIM degree in four years.

The curriculum is organized as a two-plus-two program with completion of general education core curriculum and program prerequisite coursework prior to beginning the two-year professional phase. Once qualified for the professional program, the final two years consist of the required HIM coursework reinforced with a professional practice experience assignment at an appropriate affiliated site. Students who have achieved the Registered Health Information Technician (RHIT) credential or graduated from a CAHIIM accredited HIT program may qualify to receive academic credit toward the BSHIM degree for previous coursework.

## Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report form completed by a physician or licensed healthcare provider, providing evidence of specific immunizations before the student can be placed in a professional practice experience assignment. Information on these requirements and forms may be obtained through the Department of Health Informatics & Information Management.

## Background Checks and Drug Screening

As a condition for placement in professional practice experience sites, students may be required to have a background check and/or drug screening and/or meet other specific requirements as set by individual sites. Information on these requirements may be obtained through the Department of Health Informatics & Information Management.

## Bachelor of Science in Health Information Management (B.S.H.I.M.)

- Major in Health Information Management (p. 447)

### Minor

- Health Informatics (p. 448)
- Health Information Management (p. 449)

## Courses in Health Informatics (HI)

### HI 3310. Health Informatics.

This course provides an introduction to health informatics and information management to include hardware components, systems architecture, operating systems, languages, software applications, tools, electronic health record systems, and related concepts.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### HI 3311. Databases in Healthcare.

This course provides an overview and introduction to healthcare databases and data management. Topics in the course will include database theory, information infrastructure, and data analytics. Implementing healthcare information systems and decision making will also be examined.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HI 4401. Advanced Health Informatics and Security.**

This course includes the integrated use of health information technology throughout the healthcare organization. Students will evaluate how technology impacts the overall hospital operations from both clinical and administrative perspectives. Students will also use planning and assessment tools to simulate health information technology system implementation and explore securing those systems.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

## Courses in Health Information Management (HIM)

**HIM 2360. Medical Terminology.**

Recognizing and understanding the vocabulary of the health care professions. Emphasis on medical prefixes, suffixes, and word roots as used in oral and written communications.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 3301. Hospitals and Health Systems.**

This course will explore the organizational structure and delivery of healthcare in hospitals and health systems and the associated roles of HIM professionals.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 3350. Legal Aspects of HIM.**

A study of the legal issues of Health Information Management with focus on statutory and regulatory requirements, case law and practical applications. Special legal problems associated with access to patient information, disposition of records, confidentiality and privacy, reporting requirements and compliance with current state and federal legislation are emphasized.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 3364. Coding and Classification Systems.**

This course provides an introduction to ICD, CPT and other classifications and nomenclatures. Emphasis will be placed on the assignment of diagnosis and procedure codes. Management and use of encoding systems is examined. Prerequisite: Instructor approval.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**HIM 3367. Disease and Medical Science.**

This course provides an introduction to the general disease process. Stress is placed upon the occurrence of disease, the signs and symptoms of disease, the test values and findings of disease, and the therapeutic treatment of disease.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 3380. Quality Management for HIM.**

This course provides an overview of regulatory agency requirements for quality improvement, utilization management, and risk management. Methods for integrating these procedures for credentialing and peer review are explored.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 3390. Principles of Management in HIM.**

This course provides a study of the principles of management in healthcare and related organizations. The course provides the opportunity to apply the fundamentals of management including ethical decision making and human resources in the expanded role of the HIM Professional.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 3463. Foundations of Health Information Management.**

This course is an introduction to the foundational principles of health information management. The content, structure, processing, use, analysis, and management of the health record will be explored. Instruction will include the use of the electronic health record and other common health information management software applications.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4101. Problems in Health Information Management.**

Comprehensive study of selected problems related to professional practice issues and changes in the health information management field. Emphasis will be on problem solving and application of management skills. May be repeated with permission of department chair.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4320. Principles of Information Governance.**

This course applies the principles of Information Governance to guide the HIM professional's evolving role in the transition from paper to electronic health records and managing the increasing volume of electronic health data. Topics include data architecture, analytics, integrity, quality and decision support; enterprise content management; and consumer informatics. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4331. Research and Data Analytics for HIM.**

This course provides an introduction to research methods and experimental inquiry to acquaint the student with skills to critique and conduct studies in the health information management domains. The course will also provide the foundation for compiling, analyzing, and displaying statistics related to the delivery of healthcare.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4363. Comparative Record Systems.**

Theory and procedures for the maintenance and regulation of patient health information records in non-hospital medical care facilities to include long term care, ambulatory care, psychiatric care, rehabilitation and prison record keeping systems.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4364. Coding and Compliance for HIM.**

This course provides a continued study of coding and classification systems including the role of mapping among clinical terminologies. Compliance activities and methods will be covered for HIM topics to include code audits, fraud and abuse, and clinical documentation improvement.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**HIM 4370. Finance and Reimbursement Methodologies for HIM.**

Course will address the reimbursement cycle from patient registration to claims billing with an emphasis on federal regulations and the role of HIM regarding payment systems. Topics will include accounting principles, budget processes, cost/benefit analysis, healthcare finance, compliance strategies, charge-master and casemix management, and payment systems and plans.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4383. Seminar in Health Information Management.**

Problem-solving course designed to assimilate actual internship encounters and theory. Emphasis is on integration of knowledge and making transition to the applications required to function as a health information manager.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**HIM 4385. Health Information Management Practicum.**

Assignments made to promote uniformity and competency levels required of entry-level health information management professionals with practical application of administrative, management, and problem-solving skills required to complete projects and portfolio material. (WI).

**3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HIM 4388. Practicum.**

Faculty-led administrative training for the associate degree health information progression student. Emphasis is placed on analysis of HIM personnel functions, interdepartmental relations, use of health information technology, and committee assignments. Full-time participation of the student is required.

**3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required|Time Conflicts Permitted|Writing Intensive

**Grade Mode:** Credit/No Credit

**HIM 4389. Professional Practice Experience.**

Supervised management experience and training in a healthcare or related setting. Student will participate in administrative, management, and problem-solving activities in the institutional setting. Full-time participation is required. Option for health information associate degree and post-baccalaureate students. (WI).

**3 Credit Hours. 1 Lecture Contact Hour. 40 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required|Time Conflicts Permitted|Writing Intensive

**Grade Mode:** Credit/No Credit

**HIM 4390. Contemporary Leadership Principles for HIM.**

An analysis of the expanded role of the Health Information Management professional in the healthcare environment and application of the principles involved. Topics include strategic planning and forecasting, marketing, entrepreneurialism, leadership, motivation, consensus building, workforce diversity, change management, work redesign/reengineering, and project management. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HIM 4393. Project Management for Health Information Management.**

This course provides pragmatic guidance in the management of HIM projects by analyzing critical success factors and skills required to organize, plan, monitor, and control projects in healthcare settings. Cost and schedule estimation techniques are presented together with proposal writing, negotiation, communication, risk management, HIM technology assessment, and quality measurement. (WI) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**HIM 4501. Professional Practice Experience.**

Supervised management experience and training in a healthcare or related setting. Student will participate in administrative, management, and problem-solving activities in the institutional setting. Full-time participation is required in addition to scheduled campus visits. (WI).

**5 Credit Hours. 1 Lecture Contact Hour. 40 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Credit/No Credit

or SOCI 3307 Statistics for the Behavioral Sciences

or CJ 3347 Statistics For Criminal Justice

5. Students must have a maximum of nine hours of general education core curriculum and prerequisite coursework remaining to declare the HIM major.
6. Students must have a minimum overall GPA of 2.50 and a minimum 2.0 Texas State GPA to declare the HIM major.
7. Credit for previous HIM coursework, credentials, and/or work experience will require a review of the student's transcripts and approval by the Department Chair.
8. Due to course sequencing and the scheduling of the professional practice experience assignment, students who drop out of the program for one or more semesters will be required to obtain approval from the Department Chair to progress.
9. Immunization Requirements - It is the policy of the College of Health Professions that each student must provide a health report completed by a physician or licensed healthcare provider, and must take specific immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and the required forms may be obtained through the department office.
10. Background Check and Drug Screening - As a condition for placement in some professional practice sites, some students are required to have a background check and/or drug screening to meet requirements set by individual sites. Information on the background check/drug screening process will be provided by the department. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for practitioner license status following graduation.

## Minimum required: 120 semester credit hours

### Admission Requirements

1. The Bachelor of Science in Health Information Management (B.S.H.I.M.) degree with a major in Health Information Management requires admission to the university and admission to the program. Any student admitted to Texas State may declare pre-HIM as their major. To declare pre-HIM as a major, contact the College of Health Professions Advising Center. For more information visit: <http://www.health.txst.edu/him> (<http://www.health.txst.edu/him/>).
2. Any student meeting the requirements for the HIM major must complete an online application to the program (<https://www.health.txst.edu/him/admissions/Application.html>). For academic advising, students should contact the College of Health Professions Advising Center or the Department of Health Information Management.
3. Students completing the required courses for the BSHIM major will also earn the built-in Minor in Health Informatics (<http://mycatalog.txstate.edu/undergraduate/health-professions/information-management/health-informatics-minor/>).
4. Students must have completed the majority of the general education core curriculum and other prerequisite coursework listed below before being allowed to declare the HIM major:

Code	Title	Hours
HIM 2360	Medical Terminology	3
BIO 2430	Human Physiology and Anatomy	4
ISAN 1323	Introduction to Microcomputer Applications	3
or CS 1308	Computer Literacy and the Internet	
HP 3302	Biostatistics	3
or PSY 2301	Introduction to Statistics	
or MATH 2328	Elementary Statistics	

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students completing this program will earn the BSHIM degree with a Minor in Health Informatics (<http://mycatalog.txstate.edu/undergraduate/health-professions/information-management/health-informatics-minor/>) as a part of the curriculum.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
6. To graduate with a B.S.H.I.M., students must successfully complete all HIM and HI courses with a "C" or higher. HIM courses are normally taken in a lock-step sequence. Most courses are offered only once each academic year; therefore, progress in the program may be delayed if a student falls out of sequence due to failure to successfully complete the HIM and HI courses with the required "C" or higher. Due to course sequencing and the scheduling of the professional practice experience assignment, students who drop out

of the program for one or more semesters will be required to obtain approval from the Department Chair to progress.

7. All students must have attained a 2.0 or higher Texas State University GPA with a minimum of 2.25 GPA in the HIM major and the Health Informatics minor courses to graduate.
8. During the second semester of the senior year students are required to take a five-week professional practice experience course. This course requires that the students spend a minimum of five weeks in other institutions (hospitals or healthcare related organizations) away from campus. Or, students who have already completed an associate degree in health information or another bachelor's degree or who have significant healthcare experience are required to complete a two-week professional practice experience course. Students must furnish their own transportation and housing. Due to the time and distances involved, no courses other than those listed can be taken in the final semester of the senior year.

<sup>1</sup> If US 1100 is waived, the student must have a minimum of 120 hours to graduate. See the College Advising Center.

<sup>2</sup> One course from the following may be chosen to satisfy the Mathematics Component Code 020: MATH 1315 (TCCN 1314), MATH 1319 (TCCN 1324), MATH 1329 (TCCN 1325), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).

The Minor in Health Informatics requires 19 semester credit hours. Health Informatics integrates health sciences, information science, computing, and data analytics to assist healthcare professionals to organize, analyze, and apply health information to improve clinical decisions and patient outcomes. The Minor in Health Informatics is designed to complement existing majors including the Bachelor of Science in Health Information

Management, BS in Health Sciences, BS in Public Health, and other majors across the university.

PH 3370	Epidemiology	
<b>Total Hours</b>		<b>19-20</b>

The minor in Health Information Management requires 19 semester credit hours.

Health Information Management (HIM) is the profession dedicated to the effective management of patient information and healthcare data needed to deliver quality treatment and care to the public. The fundamentals of the HIM profession continue to evolve over time, becoming less paper-based and increasingly electronic. HIM plays a critical role in the successful implementation of electronic health records and ensures that providers, healthcare organizations, and patients have access to the right health information when and where it is needed while maintaining the highest standards of data integrity, confidentiality and security. The minor in Health Information Management is designed to enhance other degrees on which students are working.

HIM academic advising is required to assure appropriate sequencing and progression requirements are maintained.

Completion of the HIM minor does not meet eligibility requirements for the Registered Health Information Administrator certification examination offered by the American Health Information Management Association.

Code	Title	Hours

## Vision

The St. David's School of Nursing at Texas State University will provide supportive and creative educational programs, which inspire those who teach and those who learn, based on mutual respect and a commitment to contribute to the health of individuals, families, populations, communities, and the environment worldwide.

## Mission

### Preparing the next generation of nurses to improve health care.

The St. David's School of Nursing educates and prepares graduates, using innovative teaching strategies and state-of-the-art technology. Graduates provide ethical, safe, and effective patient-centered care and contribute to present and emerging research and health management practices. Graduates demonstrate competence in clinical judgement, collaborate as member and leaders of interprofessional healthcare teams, and utilize scientifically-based interventions. As caring professional nurses, graduates manage illness; promote, maintain, and restore health; and provide end-of-life care for diverse individuals, families, populations, and global communities across the lifespan.

The nursing program, located in Round Rock, offers two undergraduate nursing programs. The first is the traditional face-to-face upper division Bachelor of Science in Nursing (BSN) program which prepares graduates to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN®) and to meet the minimum competencies for beginning practice as a R.N.

The BSN curriculum is 120 hours, including 61 hours of Texas State core curricular and prerequisite courses; and 59 hours of nursing courses. The nursing courses are offered in a lock step format over five semesters beginning at the junior level. Academic study in nursing is combined with clinical experiences in affiliated clinical settings, as well as hours spent in the simulation laboratories in the School of Nursing building. The curriculum is designed to accommodate the latest teaching technologies and learning strategies to provide students with the skills, knowledge and abilities needed for professional nursing practice in the 21st century.

The second undergraduate nursing program offered is a hybrid BSN completion program (RN to BSN). This program is for students who hold an associate's degree in nursing from an associate college. The BSN completion curriculum includes 30 hours of upper division nursing courses. The didactic courses are primarily offered online with strategically placed face-to-face experiences. The curriculum is designed for flexibility with the option of full or part-time study. Students can finish in as little as two semesters or as many as six semesters with extension

by permission from the undergraduate program director. This program is only offered if sufficient enrollment is met.

Our graduates are prepared to pursue clinical excellence and certification by the American Nurses Credentialing Center (ANCC) and to continue formal education for the Master of Science in Nursing degree and/or Doctorate in Nursing. Nursing programs offered in the St. David's School of Nursing are accredited by the Commission on Collegiate Nursing Education (CCNE).

## Academic Progression

Students enrolled in the undergraduate nursing programs are required to earn a grade of at least 75% (C or higher) in all courses in the BSN curriculum. Students must have a minimum GPA of 2.50 in their nursing coursework to graduate from the BSN program.

BSN courses are offered in a lock-step sequence. Each course will be offered only once each academic year; therefore, progress in the program will be delayed if the student fails or drops/withdraws from a course. A student may repeat a nursing course only one time. Following a second nursing course failure or withdrawal from a nursing course beyond the census date (12th class day), a student will be dismissed from the nursing program, but not Texas State University.

## Immunizations and Basic Life Support

It is a policy of the College of Health Professions that each student will complete a Health Certificate and Immunization Test Form. These forms must be signed by a physician or licensed healthcare provider. Students must stay current on immunizations. Basic Life Support for Healthcare Professionals must also be completed and remain current.

## Criminal Background Check and Drug Screen

The traditional BSN student will undergo two background checks. The first criminal background check conducted through the Board of Nursing is required prior to admission to the St. David's School of Nursing. The second background check, conducted by a third-party vendor, is required by our clinical partners and a valid social security number must be submitted. Both traditional and RN to BSN students must complete the third-party background check and drug screen as part of the admission process. All nursing students are subject to random, or for cause, drug and alcohol screens throughout the program.

## Bachelor of Science in Nursing (B.S.N.)

- Major in Nursing (p. 453)
- Major in Nursing (RN to BSN Online Completion Program) (p. 455)

## Courses in Nursing (NURS)

### NURS 3110. Health Assessment Across the Life Span Practicum.

This course requires demonstrated competency in the performance and documentation of physical assessments of well individuals and nursing care plans using the nursing process, critical thinking, and evidence-based practice. Apply teaching/learning principles in meeting the education needs of patients and demonstrate measures to maintain confidentiality of personal health information.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

### NURS 3121. Essentials of Nursing Care Practicum.

This course requires the use of nursing process and clinical reasoning principles to provide safe, effective, patient-centered care. Evidence-based practices will be used when performing essential nursing skills and procedures to care for patients experiencing acute and chronic alterations in health status.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

### NURS 3221. Essentials of Nursing Care.

This foundation course focuses on basic concepts related to essential nursing care of patients across the life span. Integration of knowledge of family systems, evidence-based practice, clinical reasoning, and the nursing process to provide safe, effective, patient-centered care will occur.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

### NURS 3230. Healthcare Systems.

Access and barriers to healthcare, past and current healthcare policy, and the professional nurse's role in policy and delivery of healthcare, will be emphasized. Qualitative and quantitative research in relation to healthcare systems, evidence based nursing practice, and ethical topics will be discussed.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### NURS 3240. Nursing Care Across the Life Span Practicum.

This course uses clinical experiences to apply the nursing process in providing safe, effective, and quality care to patients and families across the life span. Clinical reasoning and judgment will be used to provide ethical, holistic, and patient-centered nursing care, promote health, prevent disease, and manage illness.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 3241. Acute Nursing Care of Adults Practicum.**

This course requires students to use evidence-based and collaborative practice principles in providing safe, effective, and quality care to adult patients experiencing acute, rapidly changing, life-threatening alterations in health status. Clinical reasoning and judgment will be used to provide ethical, holistic, patient-centered nursing care, manage illness, and promote health.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 3250. Health Assessment Across the Life Span.**

Conducting health histories and physical assessments of well individuals and developing nursing care plans that include patient age-specific health promotion, illness prevention, and risk factors will be emphasized. Assessments will encompass cultural domains, diversity, belief systems, and the implications for traditional as well as complementary and alternative healthcare.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 3260. Psychiatric Mental Health Nursing Practicum.**

This course utilizes clinical experiences to promote application of the nursing process in providing quality care to those experiencing mental health issues across the life span. Competency in using evidence-based practices to promote health, prevent disease, and manage illness will be developed.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 3300. Foundations of Professional Nursing Practice.**

This course explores the history of nursing in the context of the evolving healthcare system. Laws, regulations, and ethical guidelines impacting nursing licensure and professional practice will be examined. The delivery of patient and family-centered, evidence-based, and safe quality care will be explored. (WI) (MULP).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Multicultural Perspective|Writing Intensive

**Grade Mode:** Standard Letter

**NURS 3302. Research and Ethics.**

Introduction to critical appraisal of qualitative and quantitative research, and application of research and evidence-based processes used to improve decision-making and patient care outcomes across health settings. Integration of theory, information systems, clinical judgment, interprofessional perspectives and analysis of ethical conduct provide a foundation for learning the research process. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**NURS 3360. Psychiatric Mental Health Nursing.**

This course applies theories, concepts, knowledge, and skills for the comprehensive nursing care of those coping with mental health issues. Building on a liberal education, this course integrates theories of mental illness, psychopathology, and current research findings as they relate to the presentation of symptoms and holistic management of care.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 3430. Pathophysiology and Pharmacology for Nurses.**

Introduction and overview of pathology, clinical pharmacology and pharmacotherapeutics, including how major drugs are used therapeutically for age-specific clients. Other topics to be covered include drug laws and regulations, patient and nurse safety.

**4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 3440. Nursing Care Across the Life Span.**

This foundational course focuses on the use of clinical reasoning and judgment to provide collaborative care to patients across the life span experiencing chronic and acute alterations in health status. Content is presented based on evidence-based practice and the prevalent health needs of patients. Prerequisite: NURS 3430 with a grade of "C" or better.

**4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**NURS 3441. Acute Nursing Care of Adults.**

This course focuses on the use of evidence-based practice and clinical reasoning and judgment to provide collaborative care to adult patients experiencing acute, rapidly changing, life-threatening alterations in health status.

**4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4160. Maternal and Newborn Nursing Practicum.**

This course is the clinical companion to NURS 4260. Concepts, knowledge, and skills taught in NURS 4160 will be applied to both simulation lab and clinical settings. Evidence-based, developmentally and culturally appropriate nursing care in a variety of patient-care settings will be emphasized.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 4170. Pediatric Nursing Practicum.**

This course is the clinical companion to NURS 4270. Concepts, knowledge, and skills taught in NURS 4270 will be applied in the simulation lab and clinical settings. Evidence-based, developmentally and culturally appropriate nursing care in a variety of patient-care settings will be emphasized.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 4201. Professional Growth and Empowerment.**

This course focuses on issues related to professional practice, career planning, personal goal setting, and empowerment of self and others. Factors related to job performance, performance expectations and evaluation, reality orientation, and commitment to lifelong learning will be discussed.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4204. Policy, Ethics, and Advocacy in Professional Nursing Practice.**

This course explores the baccalaureate prepared nurse's role informing the public policy process. Nursing jurisprudence, principles of nursing ethics, patient safety advocacy, standards and scope of nursing practice, professional boundaries, nursing peer review, and whistleblower protections are emphasized to prepare students to influence the U.S. Health Care System and society.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4205. Healthcare Information Technology in Nursing Practice.**

This course emphasizes nursing informatics and technology used in healthcare settings to research, support and implement safe quality patient care. Nursing administrative applications, pre-care and care support, electronic health records, clinical information systems, telehealth, informatics promoting community and consumer health, HIPAA, and technology to enhance collaboration in healthcare are covered.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4211. Nursing Care in Complex Health Practicum.**

This course focuses on providing care to patients with complex health alterations and life situations. Nursing care to patients in a variety of settings will be provided using the concepts of therapeutic communication and collaborative interventions with a focus on the complexity of the patient's or family's needs.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 4260. Maternal and Newborn Nursing.**

This course applies the nursing process and evidence-based practice to the care of maternal and newborn patients in a variety of healthcare settings. The course emphasizes the use of the nursing process to provide care to individuals and families that is developmentally and culturally focused.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4270. Pediatric Nursing.**

This course applies the nursing process and evidence-based practice to the care of pediatric patients in acute, outpatient and non-acute care settings. The course emphasizes the use of the nursing process to provide care to individuals and families that is developmentally and culturally appropriate.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4280. Community and Population Health Nursing Practicum.**

Clinical experiences will expose students to a variety of community and public health environments, health programs and policies in order to learn how nursing care is delivered to populations in community settings.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 4302. Role Transition to Professional Nursing.**

This didactic course focuses on role responsibility and accountability for transition into baccalaureate nursing practice. Emphasis is given to core professional standards and ethical values fundamental to nursing. Principles of professional communication, critical thinking, and role socialization will be integrated within an organizational context for professional growth. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**NURS 4303. Safety and Quality in an Interprofessional Environment.**

This course emphasizes the professional nurses' role in application of evidence based quality improvement and risk reduction strategies that promote safe environments while maximizing resources and opportunities for positive patient outcomes. Participation in highly effective Interprofessional teams is emphasized with concepts applied to local, national and international health issues.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**NURS 4311. Nursing Care in Complex Health.**

This course explores traditional and contemporary nursing concepts related to complex health alterations, compensations, and environments across the life span. Therapeutic communication, education, and collaborative interventions with diverse individuals and groups are emphasized including the use of complementary and alternative modalities to meet the needs of patients.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**NURS 4341. Leadership and Management of Nursing Care Practicum.**

Leadership and management skills in a variety of nursing care situations will be applied. Nursing unit leadership and staff assignments based on assessment of client needs, resources, priorities, and competencies of staff will be covered. Assessment and evaluation of the provision of evidence-based nursing care will be performed.

**3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**NURS 4351. Leadership and Management of Nursing Care.**

Students discuss leadership and management theories related to organizational nursing roles, including competencies required for complex change, performance improvement, and transformational leadership. Organizational contexts, structure, processes, and culture, in leading and directing patient centered care are examined, along with relationships between governance structures, practice environments, and positive patient outcomes. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**NURS 4380. Community and Population Health Nursing.**

This course explores concepts of Community-Oriented Nursing Practice with an emphasis on using the nursing process to assess the health of communities and diverse populations. Public Health Nursing Practice and Community-Based Nursing Practice are discussed with an emphasis on health promotion and the prevention of disability and disease.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

University. A separate admission application for the Bachelor of Science in Nursing program is required.

- The BSN priority admission application for the Nursing program opens September 15 and closes January 15. The general application period opens September 15 and closes March 15. One hundred (100) to one hundred and fifty (150) students are admitted each fall.
- Applicants must have a nursing prerequisite GPA of 3.0 or higher. A minimum grade of "C" is required for NUTR 2360 and HDFS 1351 or PSY 3300. The nursing prerequisite GPA is calculated based on grades in the following courses:

Code	Title	Hours
MATH 1315	College Algebra	3
	or MATH 1319 Mathematics for Business and Economics I	
	or MATH 1329 Mathematics for Business and Economics II	
	or MATH 2417 Pre-Calculus Mathematics	
	or MATH 2471 Calculus I	
HIST 1310	History of the United States to 1877	3
HIST 1320	History of the United States, 1877 to Date	3
POSI 2310	Principles of American Government	3
POSI 2320	Functions of American Government	3
NUTR 2360	Nutrition Science	3
PSY 3300	Lifespan Development	3
	or HDFS 1351 Lifespan Development	
PSY 1300	Introduction to Psychology	3

- Applicants must also have a Science GPA for 3.0 or higher. Science courses require a minimum grade of "C" for admission. Applicants may have "CR" for BIO 1330 or CHEM 1341, but not both courses. A maximum of 8 attempts (including W) on the 5 science courses listed below, with no more than 2 attempts on any one science course, is permitted. There can be a maximum of 18 remaining prerequisite credit hours, (including no more than 2 of the 5 science courses) left to complete in the spring and summer semesters before final admission to the St. David's School of Nursing. At least 3 science courses must be completed with a minimum grade of "C" prior to applying to the program and cannot be included in the 18 remaining prerequisite hours. The science GPA is calculated based on grades in the following courses:

Code	Title	Hours
BIO 1330	Functional Biology	3
BIO 2440	Principles of Microbiology	4
	or BIO 2400 Microbiology	
BIO 2451	Human Anatomy and Physiology I	4
BIO 2452	Human Anatomy and Physiology II	4
CHEM 1341	General Chemistry I	3

- An application fee must accompany the St. David's School of Nursing application.
- Additional criteria include a personal persuasive essay, scores from the Test of Essential Academic Skills (TEAS) test version 7, pre-nursing entrance assessment, and an interview of selected candidates with the admissions committee.

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number.

**Minimum required: 120  
semester credit hours**

## Admission Requirements

- The Bachelor of Science in Nursing (B.S.N.) degree with a major in Nursing requires admission to Texas State University prior to submitting the St. David's School of Nursing application. For more information visit: <http://www.nursing.txstate.edu/>
- Texas State students interested in pursuing the Bachelor of Science in Nursing degree will be enrolled in the Bachelor of Science in Health Sciences pre-nursing concentration upon entry into Texas State

See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- For transfer students, 34 semester credit hours may be transferred from a Texas public institution of higher education for the Nursing Field of Study and be applied to the Bachelor of Science in Nursing degree with a major in Nursing at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
BIO 2440	Principles of Microbiology	4
TCCN: BIOL 2421 or 2420		
CHEM 1341	General Chemistry I	3
TCCN: CHEM 1311		
NUTR 2360	Nutrition Science	3
TCCN: BIOL 1322		
BIO 2451	Human Anatomy and Physiology I	4
TCCN: BIOL 2401		
BIO 2452	Human Anatomy and Physiology II	4
TCCN: BIOL 2402		
PSY 1300	Introduction to Psychology	3
TCCN: PSYC 2301		
PSY 3300	Lifespan Development	3
TCCN: PSYC 2314		
MATH 2328	Elementary Statistics	3
TCCN: MATH 1342		
ENG 1310	College Writing I	3
TCCN: ENGL 1301		
ENG 1320	College Writing II	3
TCCN: ENGL 1302		
Total hours		34

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- To graduate with a B.S.N., a student must successfully complete all nursing courses with a "C" or better in addition to completing all prerequisite courses.
- All students must have attained a 2.0 or higher Texas State University GPA with a minimum of a 2.50 GPA in the Nursing major to graduate.
- All students must complete the B.S.N. program in three years from the time of first admission.
- Each nursing course is offered only once each academic year; therefore, progress in the program is delayed if the student fails a course. A student may repeat a nursing course only once. A second nursing course failure or withdrawal from nursing courses will result

in the student being dismissed from the nursing program. However, the student is not dismissed from Texas State University.

## Minimum required: 120 semester credit hours

### Admission Requirements

- Application for admission to the registered nurse to Bachelor of Science in Nursing online completion program (R.N. to B.S.N.) must be made to the St. David's School of Nursing in addition to the university admission procedures. Students will be admitted each fall. Admission to the R.N. to B.S.N. online completion program requires admission to the university and admission to the program. For more information visit: <http://www.nursing.txstate.edu/>
- Students must hold unencumbered registered nurse license in a state or region that is approved through the National Council of State Boards of Nursing.

- All applicants must have a nursing school GPA of 2.5 and an overall GPA of 2.5 to apply.
- Completion of 42 hours of general education core curriculum requirements, including the following major-specific core requirements or field of study complete:
  - PSY 1300 or SOCI 1310
  - MATH 1315
  - CHEM 1341
- Completion of 18 hours of support coursework or field of study complete:
  - BIO 2400 or BIO 2440
  - BIO 2451
  - BIO 2452
  - NUTR 2360
  - PSY 3300 or HDFS 1351
- Students who earned an Associate in Applied Science Nursing degree (A.D.N.) from a regionally accredited community college will be awarded 30 semester credit hours toward the B.S.N. online completion.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

### General Requirements

- Students have three years to complete the degree requirements.
- For transfer students, 34 semester credit hours may be transferred from a Texas public institution of higher education for the Nursing Field of Study and be applied to the Bachelor of Science in Nursing degree with a major in Nursing at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. **This integrated bachelor's and master's degree program is found in the graduate catalog. For information regarding the program please click here (p. 2308).**

Willow Hall Room 336  
Round Rock Campus

200 Bobcat Way  
Round Rock, TX  
T: 512-716-2652  
[www.health.txstate.edu/PT](http://www.health.txstate.edu/PT) (<http://www.health.txstate.edu/PT/>)

The Department of Physical Therapy, located in Round Rock, is a graduate department offering a Doctor of Physical Therapy (DPT) degree with a major in Physical Therapy. For more information, contact the Department of Physical Therapy or visit <http://www.health.txstate.edu/pt> (<http://www.health.txstate.edu/pt/>).

The requirements for admission to the DPT degree program include:

1. completion of a baccalaureate degree with a minimum 3.0 GPA in the last 60 hours of coursework completed for that degree,
2. minimum 3.0 GPA in all science courses,
3. minimum 3.0 GPA in prerequisite courses,
4. competitive GRE on verbal and quantitative, and
5. completion of all prerequisite courses, including general psychology, abnormal or developmental psychology, statistics, medical terminology, human physiology and anatomy or human structure and function, vertebrate physiology or physiology of exercise, general chemistry I and II, and general physics I and II.

This program is accredited by the Commission on Accreditation in Physical Therapy Education.

## Course in Physical Therapy (PT)

Avery Bldg Room 353  
Round Rock Campus

The radiation therapist is a key member of the professional team, which uses various forms of radiation to treat cancer patients. Radiation therapy may be used alone, or in combination with surgery or chemotherapy, and is the treatment of choice for cure of many cancers. Because of sustained contact with patients, the radiation therapist has considerable responsibility in patient care, dietary counseling and treatment evaluation. The radiation therapist must also appreciate the significant psychological impact that cancer has on patients and their families. The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The curriculum complies with the professional curriculum of the American Society of Radiologic Technologists.

The Bachelor of Science in Radiation Therapy (B.S.R.T.) degree with a major in Radiation Therapy, is a two- and one-half year program beginning in the junior year. The junior and senior years combine clinical experiences in the affiliated radiation therapy facilities with advanced academic study in the professional disciplines. The program is designed to prepare students for the technical, theoretical, and psychological aspects of this career. Students acquire the technical skills necessary to plan, deliver, and record a prescribed course of radiotherapy. Upon completion of the degree, students are eligible to apply to the ARRT national registry examination.

Any student entering Texas State may declare a Bachelor of Science (B.S.) Major in health Science (Pre-Radiation Therapy Concentration) as their major. Admission to Texas State does not guarantee admission to the program. Admission to the program is competitive and selective. It is recommended that students arrange academic advising at least once prior to making application. The academic sequence begins during the fall semester. Enrollment is limited by student/faculty ratios in the clinical components of the program. The deadline for submission of applications is January 15.

## Immunization Requirements

It is a policy of the College of Health Professions that each student must provide a Health Report completed by a physician or licensed healthcare provider, and must take certain immunizations before the student can be placed in a clinical or internship assignment. Information on these requirements and forms to be supplied may be obtained through the program office.

## Criminal Background Check/Drug Screening

As a condition for placement in some professional practice sites, students are required to have a background check and/or drug screening and meet other requirements set by individual sites. Information on the process of drug screening will be provided by the program. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for state license status following graduation and may affect admission consideration to the Radiation Therapy program.

# Bachelor of Science in Radiation Therapy (B.S.R.T.)

• Major in Radiation Therapy (p. 459)

## Courses in Radiation Therapy Technology (RTT)

### RTT 3120. Clinical Simulation Lab I.

Students are provided instruction and simulated practice in a controlled laboratory setting. This course provides first-year students foundational clinical set-up skills from which to build on during the clinical learning practicum course.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3121. Clinical Simulation Lab II.

Students are provided instruction and simulated practice in a controlled laboratory setting. This course provides instruction, demonstration and participation in immobilization, positioning and simulation with the aid of an anthropomorphic phantom. Students will learn aspects of simulation for basic treatment delivery applications.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3220. Directed Clinical Learning I.

Students will observe the basic operations of the radiation oncology clinic while interacting with the multidisciplinary team involved in providing treatment and care. The student will be introduced to oncology terminology, equipment, and techniques used for treatment. Learning is achieved through direct patient care, with instruction, demonstration and direct supervision.

**2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3221. Directed Clinical Learning II.

Students will gain additional skills in clinical procedures, interaction with patients and professional personnel. Students apply knowledge from previous clinical learning experience under the supervision of a registered radiation therapist. Students are tested on intermediate clinical radiation therapy skills.

**2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3300. Patient Care in Radiation Oncology.

This course will focus on basic nursing concepts involved in providing care for the cancer patient. Topics to be included in the class will be cancer as a chronic health problem, social roles and cancer, multidisciplinary approach to patient care, psychosocial dimension of cancer, in-treatment examinations, follow-up examinations, emergency management, chemotherapy and nutritional aspects of treating patients with cancer.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3301. Introduction to Radiation Oncology.

An overview of radiation oncology and the role of the radiation therapist. Presentations will orient the student to the physical and biological basis of radiation equipment, procedures, tumor pathology, and patient interaction. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

### RTT 3302. Radiologic Science and Medical Imaging.

This course will cover the principles governing production of radiation, interaction of radiation with matter, and protection of the radiation worker and patient from exposure. Basic principles of x-ray equipment, exposure factors, latent image formation, and processing of radiographs are presented. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3310. Physics of Radiation Therapy I.

Students will learn the principles of radiation physics as they apply to the treatment and care of the cancer patient. Course will include a thorough review of x-ray production, fundamental principles, concepts and terminology. Topics studied include measurements, general principles, structure of the atom, structure of the matter, electrostatics, magnetism, electrodynamics, electromagnetism, rectification and production and properties of radiation and radiographic techniques.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RTT 3314. Radiation Therapy Sectional Anatomy.

The course provides instruction in identifying cross-sectional anatomy to develop the ability to make anatomic correlations between multiple planes of view. Major organs, lymphatics, vessels are emphasized as related to the clinical significance in the field of radiation therapy.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 3350. Radiobiology.**

This course will cover the principles of cell response to radiation, including tissue sensitivity, survival, repair and the latent effects of irradiated tissue. Topics to be covered include the development of radiation science, cellular targets for radiation action, target theory, physical/ chemical factors affecting radiation response, biological factors, repair and recovery, fractionated doses and dose rate, early/ acute effects of whole body exposure, late/chronic effects of whole body exposure, and radiation protection dose guidelines.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4120. Clinical Simulation Lab III.**

Students are provided instruction and simulated practice in a controlled laboratory setting. A continuation of RTT 3121. This course provides instruction, demonstration, and participation in immobilization, positioning and simulation with the aid of an anthropomorphic phantom. Students will learn aspects of simulation for basic intermediate treatment delivery applications.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4121. Clinical Simulation Lab IV.**

Students are provided instruction and simulated practice in a controlled laboratory setting. A continuation of RTT 4120. This course provides instruction, demonstration and participation in immobilization, positioning and treatment simulation. Students will learn aspects of simulation for basic, intermediate, and some advanced treatment delivery applications.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4122. Clinical Simulation Lab V.**

Students are provided instruction and simulated practice in a controlled laboratory setting. A continuation of RTT 4121. This course provides instruction, demonstration and participation in immobilization, positioning and treatment simulation. Students will learn aspects of simulation for basic, intermediate, and some advanced treatment delivery applications.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4189. Radiation Therapy Literary Scholarship and Manuscript Writing.**

This intensive writing course provides instructions in research strategies, critical review and analysis of peer reviewed publications. An introduction to scholarly resources and professional manuscript development using peer reviewed journal guidelines for the profession of radiation therapy. This course prepares students for RTT 4191 Radiation Therapy Seminar. (WI).

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**RTT 4190. Professional Issues in Radiation Therapy.**

This capstone course provides a comprehensive review of the program curriculum and clinical practice in the field. Current radiation therapy treatment management techniques and issues are presented for analysis.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4191. Radiation Therapy Seminar.**

This course is a continuation of RTT 4189. The course provides instruction in the completion of a final draft for the student's technical manuscript. The course work builds from the completed manuscript and draws from the material and knowledge gained in RTT 4189 to develop a formal presentation.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4220. Directed Clinical Learning III.**

Students will continue to develop skills during this clinical course. Progressive interaction with patients and professional personnel are monitored as students practice radiation therapy in a supervised setting. Additional areas include problem solving, identifying machine components and basic side effect management. Students will demonstrate competence in beginning, and intermediate procedures.

**2 Credit Hours. 1 Lecture Contact Hour. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4221. Directed Clinical Learning IV.**

The course provides students the opportunity to continue to develop confidence and increased skill in simulation and treatment delivery. Students will demonstrate competence in beginning, intermediate, and some advanced procedures through supervised clinical instruction, progressing through a competency-based educational sequence.

**2 Credit Hours. 1 Lecture Contact Hour. 24 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4222. Directed Clinical Learning V.**

The students will complete their clinical training by practicing all the skills they have learned in the classroom, lab, and clinical practicum. The students will continue demonstrating proficiency while completing the Skills Competency Checklist.

**2 Credit Hours. 1 Lecture Contact Hour. 24 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4291. Radiation Therapy Registry Review.**

This course provides a comprehensive review of the program curriculum and clinical practice in the field. Current radiation therapy treatment management techniques and issues are presented for analysis.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4310. Physics of Radiation Therapy II.**

Students will continue to learn the principles of cell response to radiation. Topics covered will include properties of x-ray and gamma radiation, radiation units, x-ray production, photon interactions, beam characteristics, radioactivity, treatment units, and particle irradiation.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4330. Quality Assurance.**

Students will study quality assurance tests related to patient charts, treatment accessories, patient communication devices, machine reading and safety devices. Emphasis on quality control procedures to include Continuous Quality Improvement (CQI), Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and responsibilities of each team member in relation to quality assurance duties.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4331. Operational Issues in Radiation Therapy.**

Course content is designed to focus on various radiation therapy operational issues. Accreditation, CQI development and assessment techniques will be presented. Human resource issues and regulations impacting the radiation therapist will be examined. Topics include the role of network information systems within the radiation oncology department. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**RTT 4360. Dosimetry I.**

This course will cover the basic concepts in treatment planning and clinical dosimetry. Students will learn to identify treatment preparation processes and needs for beam modifying devices. Students will also be taught isodose charts for several treatment arrangements and be able to calculate a variety of external beam treatment formulas.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4361. Dosimetry II.**

Students will learn additional concepts in treatment planning and clinical dosimetry addressed in Dosimetry I. Computerized treatment planning applications will enhance the understanding of medical dosimetry.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Lab Required

**Grade Mode:** Standard Letter

**RTT 4370. Clinical Radiation Oncology I.**

The first of a two-part course, this course advances the student's knowledge of neoplastic disease management. Instruction will focus on the regional anatomy and physiology, epidemiology and etiology, detection and diagnosis, diagnostic procedures, histopathology, patterns of spread principles of treatment, staging, and prognosis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RTT 4371. Clinical Radiation Oncology II.**

The second of a twopart course, this course is a continuation of disease specific instruction. Instruction will focus on the regional anatomy and physiology, epidemiology and etiology, detection and diagnosis, diagnostic procedures, histopathology, patterns of spread, principles of treatment, staging, and prognosis. Prerequisite: RTT 4370 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**Minimum required: 120  
semester credit hours**

**Admission Requirements**

1. The Bachelor of Science in Radiation Therapy (B.S.R.T.) degree with a major in Radiation Therapy requires admission to the university and admission to the program. For more information visit: <http://www.health.txstate.edu/rtt/>
2. Any student may declare Pre-Radiation Therapy as their major. Admission to Texas State does not guarantee admission to the program. Admission to the program is competitive and selective. It is recommended that students arrange academic advising at least once prior to making application.
3. The academic sequence begins during the fall semester. Enrollment is limited by student/faculty ratios in the clinical components of the program.

- The deadline for submission of applications is January 15.
- Satisfactory completion of all general education core curriculum and a minimum overall GPA of 2.75 is required for admission.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- Completion of the application packet is required for admission.
- Three letters of reference and a career goal statement are required for admission.
- Successful interview of selected candidates with admission committee.
- Twenty-four hours of clinical observation with completed evaluation on file by January 15.
- Students must be able to perform the 13 Technical Standards indicated by the American Disabilities Act (refer to program website or department for more information).
- Previous misdemeanor or felony convictions will affect admission to the program.
- Applicants must have a science and support course GPA of 3.0 or higher. No more than 2 attempts on any one science course is permitted. An applicant may repeat only one of the courses on this list. Courses included in the science and support course GPA computation include:

Code	Title	Hours
BIO 1330	Functional Biology	3
BIO 1331	Organismal Biology	3
BIO 2430	Human Physiology and Anatomy	4
AT 3358 or PSY 4390N	Clinical Pathopharmacology Psychopharmacology	3
CHEM 1341	General Chemistry I	3
CHEM 1141	General Chemistry Laboratory I	1
PSY 1300	Introduction to Psychology	3
MATH 2417 or MATH 2471	Pre-Calculus Mathematics Calculus I	4
PHYS 1320 or PHYS 1315 or PHYS 1325	Elementary Physics II General Physics I General Physics II	3
PHYS 1110 or PHYS 1115 or PHYS 1125	General Physics I Laboratory General Physics II Laboratory	1
HP 3302 or PSY 2301 or SOCI 3307 or MATH 2328 or CJ 3347	Biostatistics Introduction to Statistics Statistics for the Behavioral Sciences Elementary Statistics Statistics For Criminal Justice	3

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- To graduate with a B.S.R.T., a student must successfully fulfill the general education requirements and complete all RTT courses with a "C" or better. RTT courses are offered in a lock-step sequence. Each course is offered only once each academic year; therefore, progress in the program is affected should a student fall out of the sequence due to failure to successfully complete a course. A student who falls out of sequence (whether due to illness, course failure, or other reasons) will be delayed one year to repeat the course.
- A student may repeat a RTT course only once. If the student does not earn a grade of at least "C" upon repeating the course, the student cannot continue in the program.
- The student must meet the requirements for clinical competency as described in the Directed Clinical Learning syllabi.
- All students must have attained a 2.0 or higher Texas State University GPA with a minimum of a 2.75 GPA in the Radiation Therapy major to graduate.

Willow Hall Room 214  
Round Rock Campus

200 Bobcat Way  
Round Rock, TX  
T: 512-716-2682 F: 512-716-2805  
[www.health.txstate.edu/rc/](http://www.health.txstate.edu/rc/) (<http://www.health.txstate.edu/rc/>)

The Bachelor of Science in Respiratory Care (BSRC) degree prepares students to practice as nationally credentialed respiratory care practitioners and take their place as a key healthcare team member. Skilled in assessing patients with breathing disorders in the emergency room, intensive care units and many other areas in healthcare facilities, respiratory therapists work directly with physicians on newborn, pediatric or adult patients to analyze oxygen levels and breathing difficulty. Therapists administer prescribed medications to relieve breathing distress, provide pulmonary/lung therapies, and conduct lung diagnostics for all ages. Graduates find employment in many settings such as hospitals, pulmonary rehabilitation clinics, doctors' offices, sleep labs, homecare, and air-life transport teams as they work with patients in the emergency room, newborn/pediatric/adult intensive care units, and many other areas.

Respiratory care (RC) majors attend lab and lecture classes on the Round Rock campus and gain clinical experience in Austin-area hospitals. Students successfully admitted to the program must complete the

sequenced curriculum within the cohort group. Individuals taking core courses prior to applying for admission to the RC program should contact the College of Health Professions' Advising Office and request a change of majors to Bachelor of Science in Health Sciences - Pre-Respiratory Care. The BSRC Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC) and qualifies graduates to sit for national board credentialing exams to become a Registered Respiratory Therapist (RRT) through the National Board for Respiratory Care immediately upon completion.

Students having already completed an associate degree in Respiratory Care from another university or college are eligible to apply for admission to the BSRC Online Completion Program at Texas State for bachelor degree completion. Once accepted to the university and the BSRC Online Completion Program, this 100% online program admits student every fall, spring, and summer semester without the need to come to the Texas State campus. The online degree completion program features 8-week courses and has a program completion time of one year for the full-time student. Enrollment is open each fall, spring and summer semesters. For information on this option, please contact the BSRC Online Completion program director.

The department also offers a Master of Science in Respiratory Care (MSRC) degree with concentrations in Leadership and Polysomnography Technology (sleep diagnostics). Both concentrations provide 24 semester hours of core courses that build leadership and knowledge of research with 12 semester hours of either Leadership or Polysomnography studies. The Leadership track prepares credentialed therapists for mid-management leadership roles in the hospital as department managers, clinical educators, supervisors, and other opportunities. Individuals credentialed in Polysomnography (PSG) or sleep diagnostics provide diagnostic and therapeutic treatment for those suffering from sleep disorders such as obstructive sleep apnea, insomnia, narcolepsy, and other conditions. The (PSG) course of study prepares individuals to sit for national sleep board credentialing exams immediately upon completion.

A rolling enrollment allows students to enter the MSRC program each fall, spring, and summer. Admission to the MSRC program requires the applicant to have previously earned the RRT credential and completed a bachelor's degree from a regionally accredited institution. Please refer to The Graduate catalog for admission requirements and course descriptions.

## Immunization Requirements

It is a policy of the College of Health Professions that each student must provide the College Health Report completed by a physician or licensed healthcare provider and must complete specific required immunizations before being placed in a clinical or internship assignment. Information on these requirements and forms may be obtained through the departmental office.

## Background Checks and Drug Screening

As a condition for placement in some professional practice sites, all students are required to have a background check and/or drug screening to meet requirements of individual sites. Information on the drug screening process will be provided by the department to clinical facilities as required. Previous misdemeanor or felony convictions under various titles of the Texas Penal Code may affect eligibility for state respiratory care practitioner license status following graduation and future employment in healthcare.

## Bachelor of Science in Respiratory Care (B.S.R.C.)

- Major in Respiratory Care (p. 465)
- Major in Respiratory Care (R.R.T. to B.S.R.C. Online Completion Program) (p. 467)

## Courses in Respiratory Care (RC)

### RC 2213. Introduction to Respiratory Care.

This course offers an in-depth overview of the respiratory care profession to acquaint the student with the responsibilities of the respiratory therapist as part of healthcare team. Progression of the profession, career opportunities, past and future impact of profession on patient recovery and health maintenance, and medical gas therapy will be covered.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RC 3112. Pharmacology.

A comprehensive study of pharmacology principles. Receptor theory, clinical applications of medications, and historical analysis of first-generation medications will be covered. Current medication trends and recommendations are also examined.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RC 3125. Pulmonary Function Testing.

This course examines the most common pulmonary function tests, their techniques, and the pathophysiology that may be evaluated by each test. Pulmonary function equipment, calibration, and the American Thoracic Society guidelines will be discussed. Laboratory practice of performing the tests will be provided to develop skills for testing patients.

**1 Credit Hour. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

### RC 3313. RC Clinical Practice I.

This course provides an introduction to respiratory care clinical skills, including vital signs, chest assessment, infection control, aerosolized medication delivery, oxygen therapy, hyperinflation therapy, and airway clearance. This course prepares the student for direct patient care to be performed in more advanced courses. Direct patient care is performed under close supervision.

**3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3314. Respiratory Care Instrumentation.**

Through lectures and lab exercises, students are acquainted with concepts of design, function, and operation of basic respiratory care equipment. Oxygen cylinders, regulators, flowmeters, oxygen analyzers, oximeters, oxygen adjuncts, humidifiers, nebulizers, airways, and pressure cycled ventilators will be covered. The course also covers respiratory pharmacology, decontamination of equipment, and arrhythmia recognition.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3315. Cardiopulmonary - Renal Anatomy & Physiology.**

This course provides an in-depth human gross anatomy study of the cardiac, respiratory, and renal systems. Clinical application of pulmonary anatomy and physiology will also be explored.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3316. Fundamentals of Respiratory Care.**

This course provides a study of theories and modalities utilized in delivering, monitoring, and evaluating basic respiratory therapeutics to patients with compromised respiratory function in various healthcare settings. Aspects of artificial ventilation, arterial blood gas analysis, lung volume diagnostics, and hyperinflation intervention will be covered in patient scenarios.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3321. Cardiopulmonary Pathology.**

As an introduction to the assessment, treatment, and pathophysiology of respiratory diseases, this course focuses on the signs, symptoms, etiology, pathophysiology, diagnosis and treatment of selected diseases. Utilizing clinical simulation software to develop critical thinking regarding assessment, diagnostic data gathering. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**RC 3322. Critical Care Concepts.**

This course provides students with an in-depth study of selected respiratory care techniques with an emphasis on the care of critically ill patients. Critical skills and knowledge of mechanical ventilation, bedside diagnostic techniques, patient monitoring, and rehabilitation are explored in the critical care setting.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3323. RC Clinical Practice II.**

Students perform clinical procedures and interact with patients and professional personnel in a healthcare institution under the supervision of a respiratory therapist. Students gain direct patient care experience as presented in medical/surgical and pediatric clinical situations. Preparatory instruction is provided for mechanical ventilation and other critical care procedures.

**3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3324. Critical Care Instrumentation.**

A comprehensive study of advanced equipment and technology utilized in the critical care, homecare, pulmonary rehabilitation and blood gas lab settings. Lectures and class activities will detail hardware for hemodynamic monitoring, supplemental oxygen administration, noninvasive monitoring, blood gas measurement, quality control and assurance and mechanical ventilator concepts.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3332. Hemodynamics.**

This course is an advanced study of cardiovascular hemodynamic measurements. Normal cardiovascular physiology and measures are examined, as well as variations caused by disease. Current clinical trends and practices in hemodynamic procedures are also explored.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3333. RC Clinical Practice III.**

A supervised clinical education experience in which the student administers advanced respiratory therapeutics to patients in the adult critical care setting. Diagnostic and monitoring procedures, including arterial blood gases, bedside physiologic monitoring, airway care, advanced pulmonary function testing, ventilator management will be performed according to physician orders.

**3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 3334. Neonatal Respiratory Care.**

An in-depth study of neonatal utero development, fetal lung development, fetal circulation, and cardiovascular changes at birth. Neonatal respiratory emergencies, neonatal respiratory diseases and management, congenital defects, and respiratory care procedures specific to the neonate will be discussed. A specific emphasis on neonatal mechanical ventilation will be included.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4211. Respiratory Care Research.**

This course provides an introduction to applied experimental design, research ethics, and data analysis focusing on the respiratory care profession. Students will participate in each step the research process from developing a personal research hypothesis and research design through IRB submission. Prerequisite: HP 3302 or equivalent.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4216. Disease Management.**

The course offers an in-depth description of common therapeutic modalities and treatment protocols used to offset the anatomic alterations and pathophysiologic mechanisms activated by selected disorders. Students will develop an understanding of how therapies work to offset the anatomic alterations of lungs caused by disease. Prerequisite: Instructor approval.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4221. Leadership and Management for Respiratory Care Professionals.**

This course is designed to comprehensively examine the dynamic evolution of respiratory care as a profession. The role of the respiratory care professional in the areas of leadership, management, and professional ethics will be explored with regards to the profession's impact on legislation, regulation, and politics. (WI).

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**RC 4223. ICU Internship.**

Through affiliations with agencies, hospitals and selected treatment centers, the student interns in the intensive care setting by providing patient care and administering critical care therapeutics. Analysis and clinical application of advanced ventilator care of patients is emphasized along with patient care diagnostics and management in the ICU.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**RC 4224. Research Seminar.**

This course is a study of the research process from a review of research design to methodology implementation including data collection, statistical analysis, and presentation of a research proposal on a topic in the respiratory care discipline. The course provides direct research experience culminating in a research paper and presentation. Prerequisite: RC 4211 with a grade of "C" or better.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4225. Specialization Internship.**

This course provides the student with an internship opportunity to gain clinical experience in sub-specialty areas including pediatrics, adult intensive care, neonatal intensive care, pulmonary function testing, home care/durable medical equipment, subacute care, pulmonary rehabilitation, polysomnography, education, and research. Specific specialty offerings will be based on clinical availability.

**2 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Credit/No Credit

**RC 4309. Pulmonary Diagnostics.**

The course examines various pulmonary diagnostic techniques and the pathophysiology associated with each diagnostic measurement in disease management and clinical research. The course will provide an in-depth presentation of clinical indications for various diagnostic analyses including the ethical responsibilities associated with clinical research. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4311. Interdisciplinary Healthcare.**

This course introduces the respiratory care student to the role that respiratory therapists play within the interdisciplinary healthcare team. The course will allow students to gain experience in developing and applying strategies to improve patient outcomes through the inclusion of the respiratory therapist with various appropriate healthcare disciplines. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**RC 4312. Critical Care Clinical Simulation.**

Students will analyze concept review in preparation for national board examinations and evidence-based care. Classroom and laboratory instruction will demonstrate cumulative review of the Therapist Multiple Choice and the Clinical Simulation Examination national board exams. Clinical simulation case studies will be assessed reflecting real-life patient scenarios.

**3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4314. Advanced Ventilator Concepts.**

This course provides an in-depth study of specific adult mechanical ventilators addressing traditional and proposed ventilator classification, various methods of operation, parameter interrelationships and ventilator patient monitoring. Lectures and class activities will focus on ventilator analysis of several contemporary volume-, time-, pressure- and flow-cycled ventilators with advanced graphics interpretation required.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4316. RC Clinical Practice IV.**

This course provides an advanced intensive care clinical education requiring students to monitor and administer critical care therapeutics on assigned patients in the adult and neonatal critical care setting. Cardiopulmonary diagnostic experience will be gained through arterial blood gas and co-oximetry assessment with ventilator graphic analysis.

**3 Credit Hours. 0 Lecture Contact Hours. 16 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4317. Pulmonary Rehabilitation.**

This course is designed to introduce students to the medical, ethical, and insurance reimbursement issues of pulmonary rehabilitation, homecare, and sleep diagnostic facilities. The role of therapists in case management, treatment requirements, and discharge planning along with the impact of legislation, regulations, and politics will be explored.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4318. Independent Study in Respiratory Care.**

This course provides the student an in-depth study on a topic or healthcare problem impacting respiratory care. The course may be repeated for credit with a different emphasis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4322. RC Practitioner Seminar.**

Students will research and present selected case studies by students to physicians, therapists, and colleagues. Presentations will emphasize total patient management with etiology, symptoms, pathophysiology, diagnosis, and treatment of specific diseases including asthma, pulmonary embolism, CHF, COPD, ARDS, neurologic diseases, inhalational injury, pneumonia, sleep disordered breathing, AIDS, and drug overdose. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

**RC 4324. Sleep Medicine and Polysomnography.**

This course introduces the respiratory care student to sleep medicine and polysomnography. The course will present topics on sleep stages, sleep architecture, and sleep disorders. Basic and advanced treatment options of selected sleep disorders will be discussed. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4333. Neonatal Critical Care.**

This course will provide the Respiratory Care student with advanced knowledge on the management of the neonatal patient in the critical care environment. The course will expose the student to advanced therapeutics and mechanical ventilation strategies. Course content will prepare the student for the role of neonatal specialist. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions

**Grade Mode:** Standard Letter

**RC 4334. Adult Critical Care.**

This course provides professional enrichment for practitioners with a conceptual foundation for adult critical care medicine. The course will provide an in-depth presentation of advanced respiratory therapy therapeutics and procedures caring for adults in the intensive care unit. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Health Professions|Writing Intensive

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### Admission Requirements

1. The Bachelor of Science in Respiratory Care (B.S.R.C.) degree with a major in Respiratory Care requires admission to the university and admission to the program. For more information visit: <http://www.health.txstate.edu/rc/>
2. Application for admission to the Respiratory Care (R.C.) undergraduate program must be made to the R.C. department in addition to regular university admission procedures.
3. All applicants must have an overall GPA of 2.50 to apply.
4. It is highly recommended that individuals interested in applying for the R.C. program complete RC 2213 prior to application.
5. Admission is competitive and enrollment is limited depending on student/faculty ratios in the clinical phase of the program.
6. Due to performance standards of the profession, students must meet specific ADA standards in accordance with physical and emotional requirements of the academic program in order to qualify for admission.
7. The priority admission application period for the Respiratory Care program begins November 1 and closes December 15. The general application period begins November 1 and closes May 1.

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
5. All RC courses must be taken in a lock-step sequence and completed with a grade of "C" or higher in order to progress to the next semester in the curriculum. Students with a grade of less than a "C" in a RC course will be ineligible to continue the program and must reapply to the program the following year. To be considered for program readmission, all original program admission criteria must be met. If readmitted, an assessment of clinical skills will be required to determine appropriate clinical placement in the curriculum sequence.
6. Requirements for B.S.R.C. completion and graduation include a Texas State GPA of 2.0 with a RC major GPA of 2.25.

**Total Hours: 120**

<sup>1</sup> If US 1100 is waived, the student must have a minimum of 120 hours to graduate. See College Advising Center.

<sup>2</sup> One course from the following may be chosen to satisfy the Mathematics Component Code 020: MATH 1315 (TCCN 1314), MATH 1319 (TCCN 1324), MATH 1329 (TCCN 1325), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).

## Minimum required: 120 semester credit hours

### Admission Requirements

1. The Bachelor of Science in Respiratory Care (B.S.R.C.) degree with a major in Respiratory Care requires admission to the university and admission to the program. For more information visit: <http://www.health.txstate.edu/rc/>
2. Application for admission to the R.R.T. to B.S.R.C. online completion program must be made to the Department of Respiratory Care in addition to regular university admission procedures. Students will be admitted each fall, spring, and summer semester.
3. Students must obtain the R.R.T. credential from the National Board for Respiratory Care prior to enrolling into their final semester in the program.
4. All applicants must have an overall GPA of 2.25 to apply.
5. Admission is competitive and enrollment is limited.
6. Students who earned the R.R.T. credential and who have graduated from a regionally accredited community college will be awarded 35 semester credit hours toward the B.S.R.C. completion.
7. Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.

### General Requirements

1. All courses must be taken in sequence and completed with a grade of "C" or better in order to progress to the next semester in the curriculum.

2. Completion of 11 hours of support coursework is required prior to graduation:
  - BIO 2400 or BIO 2440
  - BIO 2430
  - HP 3302, HP 3325, SOCI 3307, PSY 2301, MATH 2328, or CJ 3347
3. Completion of 42 hours of general education core curriculum, including the following major-specific core courses, is required prior to graduation:
  - PSY 1300 or SOCI 1310 for the Social and Behavioral Sciences Component Code 080
  - MATH 1315, MATH 1319, MATH 1329, MATH 2417, or MATH 2471 for the Mathematics Component Code 020
  - CHEM 1341 for the Life and Physical Sciences Component Code 030
  - PHYS 1310, PHYS 1315, PHYS 1320, or PHYS 1325 for the Life and Physical Sciences Component Code 030

The College of Liberal Arts provides students with the foundation for a liberal education, preparing graduates to think independently,

to choose freely, to base personal and professional decisions on a broad understanding of history and culture, and to live full, rewarding lives. Recognizing the central importance of liberal education, the university requires that more than fifty percent of the general education core curriculum be taken in the College of Liberal Arts, and students increasingly declare majors or minors in one of the college's nine departments or special programs.

The College of Liberal Arts offers the Bachelor of Arts in each of its nine departments: Anthropology, English, Geography and Environmental Studies, History, Philosophy, Political Science, Psychology, Sociology, and World Languages & Literatures. The Bachelor of Science is awarded in Anthropology, Geography and Environmental Studies, Psychology, and Sociology. The college also offers two special degrees: The Bachelor of Arts in International Studies (B.A.I.S.), and the Bachelor of Public Administration (B.P.A.). The college houses nineteen interdisciplinary minors: African American Studies, Aging and the Life Course, Diplomacy, Diversity Studies, Environmental Studies, Forensic Psychology, International Studies, Latina/o Studies, Media Studies, Medical Humanities, Medieval and Renaissance Studies, Nature and Heritage Tourism, Peace and Social Justice Studies, Religious Studies, Social Impact through Applied Research, Southwestern Studies, Sport Psychology, Studies in Popular Culture, Sustainability Studies, Value Studies, and Women's, Gender, and Sexuality Studies. The college provides education not only in the traditional humanities but also in the practical application of the humanities to professional careers.

## Academic Advising Center

Flowers Hall Room 322  
Telephone: 512-245-1852 Fax: 512-245-7949  
[www.liberalarts.txstate.edu/advising/](http://www.liberalarts.txstate.edu/advising/) (<https://www.liberalarts.txstate.edu/advising/>)

The College of Liberal Arts Advising Center is committed to providing effective guidance and accurate information to a diverse student community. In a supportive and collaborative environment, academic advisors encourage students to take an active role in achieving their educational and professional goals. From new student orientation to graduation, advisors are available to assist students as they navigate a variety of academic and administrative issues.

Through individual advising sessions, advisors help students select courses, understand degree requirements, and plan for graduation. Depending on students' unique needs, advisors may also provide information on major-specific concentrations, teaching certification options, education abroad and internship opportunities, GPA calculation, degree applicability of transfer courses, and strategies for overcoming academic probation and suspension. Although advising center staff are well-versed on campus resources and institutional policies, students may be referred to campus partners for specific guidance on financial aid, billing, veteran's benefits, and other student support services.

Students are encouraged to meet with an advisor at least once per academic year; however, appointments are available year-round and can be conducted in person or virtually. In addition to individual advising sessions, drop-in advising is offered at the beginning of each semester and during times of peak registration.

Trauth-Huffman Hall Room 478  
Telephone: 512-245-2361  
[www.txstate.edu/cdgs](http://www.txstate.edu/cdgs) (<http://www.txstate.edu/cdgs/>)

The Center for Diversity and Gender Studies in the College of Liberal Arts administers the Diversity Studies minor, African American Studies minor, and the Women's Studies minor at the undergraduate level. The Center offers academic courses that help prepare students to work and live in a pluralistic society. In addition, it assists faculty with resources and professional development activities to encourage the infusion of multiculturalism in the curriculum through a Multicultural Curriculum Transformation and Research Institute. It houses a resource area with more than 1000 books, articles, and syllabi. The director of the Center works in collaboration with an advisory council of faculty, staff, and students representing several Texas State colleges and departments.

These minors will:

- Prepare students with a unique body of knowledge, cultural competence, and communication skills that will prepare them for a diverse and changing workforce.
- Enrich students' learning about cultural pluralism and improve their interpersonal and professional skills.
- Offer students a well-rounded liberal arts education and a greater understanding of their cultural history and traditions.

## Minors

- African American Studies (p. 470)
- Diversity Studies (p. 470)
- Women's, Gender, and Sexuality Studies (p. 472)

**Subjects in this center include: AAS (p. 468), DVST (p. 469), WS (p. 469)**

## Courses in African American Studies (AAS)

### AAS 2310. Introduction to African American Studies.

Course provides an overview of black culture in America from an interdisciplinary approach, employing scholarship from history, literature, music, visual and performing arts, folklore, religion, sociology, psychology, philosophy, economics, and political science. It introduces epistemological considerations, theories, and methods that form the field of African American and African Diaspora Studies. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

### AAS 3310A. Blacks, Film, and Society.

This course examines Black American cinema between 1919 and the present and how film can help society better understand black history, black culture, and the black experience in America. The course also explores what each film teaches Blacks about Blacks and what film teaches Whites and other groups about Blacks.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**AAS 3350. Black Queer Experience.**

This course will introduce students to the historical study of Black LGBTQ peoples. We will use primary sources such as letters, diaries, newspaper articles, and blues songs, along with historical and interdisciplinary scholarship and films, to learn about the experiences of same-sex loving and gender-transgressing Black people. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**AAS 3399. Negotiating the Color Line.**

This course examines how Black Americans have negotiated the Black-White color line from the 1800s to the present day.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**AAS 4320. Global Perspectives on the African Diaspora.**

Course connects the transatlantic slave trade, contemporary migrations, their legacies, and speaks to the broader issues of the African diaspora in relation to previous and ongoing struggles of black people for rebirth, progress, justice, and racial uplift. Examines African Diasporic women's definition of feminism while suggesting no universal black feminism. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**AAS 4377. Intersections of Race, Class, Gender, and Sexualities.**

This course critically examines how race, class, gender, and sexuality intersect to shape the lived experiences of a wide array of communities in the United States. Students cannot receive credit for both WS 4377 and AAS 4377. (WI) Prerequisite: AAS 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**AAS 4388. Independent Research in African American Studies.**

Independent study course open to advanced students on an individual or small group basis. The research area in African American Studies, bibliography, and study paper outline are to be approved by the instructor.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Diversity Studies (DVST)

**DVST 3301. Introduction to Diversity Studies.**

The course is a general, multi-disciplinary and comparative survey of U.S. diversity issues. It highlights the traditional minorities, such as African, Latino/a American, Native, and Asian Americans, as well as European American ethnic groups. It also explores issues related to religion, age, sexual orientation, gender identity, and physical ability/disability. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**DVST 3320. Introduction to Global Diversity Issues.**

This course provides an understanding of relationship between U.S. and other nations in terms of economics, politics, and culture. Students will examine how colonialism shaped developed and underdeveloped nations, investigate grassroots activism in response to globalization and will examine how policies formulation by one country has consequences for other countries. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**DVST 3325. Social Difference of Groups in Society.**

This course introduces students to theories of social difference, such as race, class, gender, sexuality, age, and disability/ability using a case study analysis of social interactions within complex social, cultural, economic, or political systems. The focus is to explore the role of social institutions and organizations in constructing social difference and to study its impact on people's opportunities. Prerequisite: DVST 3301 with a grade of a "B" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Women's Studies (WS)

**WS 3376. Introduction to Women's, Gender, and Sexuality Studies.**

This course introduces students to the key concepts of women's, gender, and sexuality studies with a focus on the diversity of cultural experiences within the United States. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**WS 3377. Gender, Sex, and Power.**

This course examines the relationship between gender, sex, and power in cross cultural contexts to investigate key debates and current research within the field of Women's, Gender, and Sexuality Studies. Gender roles in societies outside the U.S. will be examined. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**WS 4377. Intersections of Race, Class, Gender, and Sexualities.**

This course critically examines how race, class, gender, and sexuality intersect to shape the lived experiences of a wide array of communities in the United States. Students cannot receive credit for both WS 4377 and AAS 4377. (WI) Prerequisite: WS 3376 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**WS 4388. Independent Research in Women's Studies.**

Independent study course open to advanced students on an individual or small group basis. The research area in Women's Studies, bibliography, and study paper outline are to be approved by the instructor. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

The minor in African American Studies requires 18 semester credit hours. The African American Studies minor (AAS) is an interdisciplinary course of study that focuses on the Black experience in the United States and throughout the African diaspora. Our central mission is to prepare students to critically understand, conduct research, and interpret the complex histories, societies, and cultures of people of African descent.

The minor in Diversity Studies requires 18 semester credit hours. The minor provides for an interdisciplinary approach to Diversity Studies with conceptual frameworks for exploring new perspectives which recover the history and creative expressions previously excluded by the traditional approaches to higher education. The minor fosters students' development of self, voice, and moral vision to prepare students to live and work effectively in a pluralistic society and a global world. Students will explore issues related to race, ethnicity, gender, religion, age, sexual orientation, and physical ability and disability. Using the courses available students may design a special focus based on their interest or career path. Relevant courses may be substituted with approval from the director of the Center for Diversity and Gender Studies. The two required core courses (6 hours) are DVST 3301, which offers a general, multidisciplinary and comparative survey of diversity, and DVST 3320, which provides students with a global view of diversity issues.

Total Hours		18

The minor in Women's, Gender, and Sexuality Studies requires 18 semester credit hours. Drawing on recent scholarship on women, gender, and sexuality, this interdisciplinary minor provides a flexible, coherent program that enables students to consider the significance of gender and sexuality to human society.

A minor in Women's, Gender, and Sexuality Studies offers students the opportunity for exciting intellectual growth. The minor provides a valuable specialty to prepare students for opportunities in a variety of fields, including business, counseling, education, government, health and medicine, human resources, law, politics, psychology, social work, and graduate studies. The Women's, Gender, and Sexuality Studies minor helps students recognize their opportunities in a rapidly changing society and flexibly complements any major.

The required core courses introduce students to the foundational theories of women's, gender, and sexualities studies. Topics courses, offered on a selective basis, may also count toward the minor with permission from the Women's, Gender, and Sexuality Studies Program Director.

[www.txstate.edu/internationalstudies](http://www.txstate.edu/internationalstudies) (<http://www.txstate.edu/internationalstudies/>)

Demand for globally aware graduates with knowledge of international business, cultural and area studies, and language skills continues to increase. Globalization has created a need for people with cultural understanding and international perspective in business, law, diplomacy, communications, NGO's, and other fields. The Bachelor of Arts in International Studies (B.A.I.S.) prepares students for these and other opportunities.

In addition to its academic programs, the Center offers students marketable and transferable skills through internships, service learning, and study abroad.

## Peace Corps Prep

Peace Corps Prep is a certificate program for undergraduates who wish to build on the four competencies that Peace Corps looks for (training/experience in a work sector, foreign language skills, intercultural competence, and professional and leadership development). The certificate gives students a competitive edge when applying for Peace Corps service. The program is open to all majors. The program does not guarantee acceptance into the Peace Corps, but provides undergraduates with skills that are an advantage in the application process, as well as in other international development work. Being part of the program demonstrates to any future employer that participating students value global understanding and cultural awareness.

## Academic Advising

Majors receive advising assistance from the College of Liberal Arts Academic Advising Center, and a full-time academic program coordinator at the Center to ensure timely graduation. The Center strives to prepare students for internationally focused careers.

## Graduation Requirements

All B.A.I.S. majors are required to maintain a TXST GPA of 2.75, a major GPA of 3.00, complete the Texas State general education core curriculum, the International Studies Core, and the International Studies major courses. All majors are required to complete a global academic experience, which can be fulfilled by an education abroad course or internship that entails international work, service, or group research. The Center's director and academic program coordinator will work closely with majors to find the best options for international study. Majors are not required to complete a minor. Students must meet all course prerequisites. Please see the College of Liberal Arts, and the Degrees and Programs sections of this catalog for specific information on the general education core curriculum, and special requirements for the B.A.I.S.

B.A.I.S. majors are required to complete the special requirements in science and English Literature. The below list of approved additional science courses under that section include statistics.

Code	Title	Hours
ANLY 2333	Business Statistics	3
SOCI 3307	Statistics for the Behavioral Sciences	3
GEO 3301	Research Methods in Geography	3
PS 3315	Quantitative Research in Political Science	3
CJ 3347	Statistics For Criminal Justice	3
HP 3302	Biostatistics	3
MATH 2358	Discrete Mathematics I	3
MATH 3305	Introduction to Probability and Statistics	3

## International Studies Core

All B.A.I.S. majors are required to complete 41 hours of core courses:

Code	Title	Hours
PS 3351	Introduction to International Studies	3
IS 4380	International Studies Seminar	3
GEO 1310	World Geography	3
GEO 3303	Economic Geography	3
HIST 2310	Western Civilization to 1715	3
or HIST 2311	History of World Civilization to the 17th Century	
HIST 2312	History of World Civilization from the 17th Century	3
or HIST 2320	Western Civilization, 1715 to Date	

The below courses are core classes dependent on the student's chosen concentration. 6

International Business & Travel and Tourism	
ECO 2314	Principles of Microeconomics
ECO 2315	Principles of Macroeconomics
All other Concentrations	
ANTH 1312	Cultural Anthropology
PS 3352	Theories of International Politics
or PS 3353	Issues in World Politics
1410, 1420, 2310, 2320, and one advanced (3000- or 4000-level) course in the same language as approved for each concentration.	17
<b>Total Hours</b>	<b>41</b>

## Bachelor of Arts in International Studies (B.A.I.S.)

- Major in International Relations (p. 474)
- Major in International Studies (Asian Studies Concentration) (p. 476)
- Major in International Studies (European Studies Concentration) (p. 477)
- Major in International Studies (Global Security Studies Concentration) (<http://mycatalog.txstate.edu/undergraduate/liberal-arts/international-studies/global-security-studies/>)
- Major in International Studies (International Business Concentration) (p. 479)
- Major in International Studies (Latin American Studies Concentration) (p. 481)
- Major in International Studies (Middle East/African Studies Concentration) (p. 482)
- Major in International Studies (Russian/East European Studies Concentration) (p. 484)

- Major in International Studies (Travel and Tourism Concentration) (p. 485)

Minor

- Diplomacy (p. 490)
- International Studies (p. 487)

Courses in International Studies (IS)

IS 4380. International Studies Seminar.

A senior-level seminar that explores international topics through reading, writing, research and group discussion. Students will be expected to produce a significant research paper. This course is required for all International Studies majors and should be taken in the senior year of undergraduate study. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

Grade Mode: Standard Letter

IS 4387. International Studies Internship.

A semester-long work and study experience in a local, national, or foreign setting. Internships must be approved by the director of the Center for International Studies. May be repeated for credit. Prerequisite: Instructor approval.

3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

IS 4388. Diplomacy Seminar.

This course is a senior-level seminar which explores overarching topics in Diplomacy, including intelligence, negotiation, speech and report writing, protocol, and media and risk management, through reading, writing, research and group discussion. This course is a required capstone for all Diplomacy minors and should be taken in the last semester of minor coursework. (MULT).

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Writing Intensive

Grade Mode: Standard Letter

IS 4390. Problems in International Studies Research.

The instructor and student create an in-depth research project on a topic of interest to both participants.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing|Writing Intensive

Grade Mode: Standard Letter

IS 4687. International Studies Internship.

A semester long work and study experience in a local, national, or foreign setting. Internships must be approved by the director of the Center for International Studies. Repeatable once for credit. Prerequisite: Minimum 3.0 Texas State GPA.

6 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree requires three additional hours of English literature; and three hours of mathematics, science, logic, or computer science courses.
3. Students are required to complete a global academic experience that can be fulfilled by an education abroad course or IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. To satisfy graduation requirements, students must have at least a 2.75 Texas State GPA and a 3.00 GPA in the International Relations major.

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree requires three additional hours of English literature; and three hours of mathematics, science, logic, or computer science courses.
3. Students are required to complete a global academic experience that can be fulfilled by an education abroad course or IS 4387, if it entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. To satisfy graduation requirements, students must have at least a 2.75 Texas State GPA and a 3.00 GPA in the International Studies major.

\* No more than 3 courses may be taken from the same discipline/prefix. Prerequisites and restrictions may apply to the following courses.

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts in International Studies (B.A.I.S.) degree requires three additional hours of English literature; and three hours of mathematics, science, logic, or computer science courses.
3. Students are required to complete a global academic experience that can be fulfilled by an education abroad course or IS 4387, if it

entails international work, service, or group research. Consult with the academic program coordinator in the Center for International Studies for options.

4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. To satisfy graduation requirements, students must have at least a 2.75 Texas State GPA and a 3.00 GPA in the International Studies major.

\* No more than 3 courses may be taken from the same discipline/prefix.  
Prerequisites and restrictions may apply to the following courses.

The minor in International Studies requires 18 semester credit hours.  
An International Studies minor provides students with broader understanding and awareness of global histories, politics, languages, and culture.

**Total Hours** **18**

<sup>1</sup> The six hours of advanced electives are to be selected from an approved list that is available in the Center for International Studies. Please contact an advisor for this list.

Students wishing to satisfy coursework in the minor through participation in Texas State Affiliated programs through the Education Abroad Office must complete all of the following steps:

1. Declare International Studies as a minor before going abroad.
2. Attend a General Information Session through the Education Abroad Office.
3. Complete the Transfer Credit Agreement Form.
4. Complete the Texas State Affiliated Program Application.
5. Submit the Transfer Credit Agreement Form to the Center for International Studies (Center) and meet with the Director, Associate Director, or Academic Advisor of the Center to review the completed Transfer Credit Agreement Form. A completed Transfer Credit Agreement form should include prospective courses from the affiliated institution and the Texas State equivalency. All courses evaluated via Transfer Credit Agreement Form must be approved by the Director or Associate Director of the Center. The Center will review courses with the following prefixes (pending evaluation as an Elective Advanced course - ELADV) – ANTH, ECO, FIN, GEO, HIST, IS, MC, MGT, MKT, PA, PHIL, POSI, PS, and SOCI. Additional courses outside of approved prefixes will be evaluated on a case-by-case basis.
6. Submit the Texas State Affiliated Program Application to the Education Abroad Office with a copy to the Center.
7. Apply through your respective Affiliated Provider.

**Enrolling in courses not indicated on Transfer Credit Agreement may result in courses not being counted towards degree program. Such courses may be ineligible for financial aid. Any new course selection will require an updated Transfer Credit Agreement form that must be reviewed and approved by the Center.**

The minor in Diplomacy requires 21 semester credit hours. A Diplomacy minor provides students with broader understanding and awareness of global histories, politics, and culture and prepares them specifically for experiences in international diplomacy.

The Center for the Study of Southwest, established in February 1990 in the College of Liberal Arts, has a threefold mission: curriculum development, public outreach, and research. Its 18-hour interdisciplinary minor, administered jointly with the Department of English, was approved in 1992. The Center draws faculty from varied disciplines (Art, Biology, English, Geography, History, and others); it disseminates information about its programs and research through *Southwestern American Literature*, a biannual journal devoted to the literature and culture of the Greater Southwest, and *Texas Books in Review*, a journal that monitors publications from or about Texas.

The Center for the Study of the Southwest, funded in part by grants from the National Endowment for the Humanities and the Houston Endowment, promotes the exchange of knowledge about regional issues among individuals, communities, and institutions across the U.S. Southwest and northern Mexico. The Center encourages students, teachers, and the general public to understand the power of place to build identity, honor diversity, strengthen community, and celebrate the human spirit.

## Minor

- Southwestern Studies (p. 491)

The minor in Southwestern Studies requires 18 semester credit hours. Students are required to take at least two of the core courses for the minor. No more than three courses in a single department may count toward this minor. A course may not be used to satisfy both a major and a minor requirement. Relevant Honors and topics courses may be substituted with permission from the Director of the Center for the Study of the Southwest.

[www.txstate.edu/anthropology](http://www.txstate.edu/anthropology) (<http://www.txstate.edu/anthropology/>)

Anthropology is the study of human cultural and biological variation and evolution. It is a holistic discipline taking into consideration all aspects of human existence. In a general sense, anthropology is concerned with determining what humans are, how they evolved, and how they differ from one another. Anthropology at Texas State is divided into three major sub-fields: cultural anthropology, biological anthropology, and archaeology and we offer coursework and training in each of these areas.

Undergraduate Anthropology majors choose between two degrees: The Bachelor of Arts and the Bachelor of Science. The undergraduate curriculum for students seeking the BA and BS degrees in Anthropology is structured to ensure that all students receive the knowledge to achieve the educational outcomes prescribed by the faculty, as well as allow for flexibility in training so that the personal goals of each student is

achieved. Students pursuing either degree have the opportunity to participate in department field schools and/or internship program.

Graduates can be found in a surprising array of fields and careers, such as corporations, all levels of government, educational institutions and non-profit associations. Post-graduate employment includes Education/Outreach, Archeology, Cultural Resource Management (CRM), Historic Preservation, Museum/Curation/Project Design, Community Development, Advocacy (human rights/social justice), Human/Social Services, Management Consulting/Organizational Development/Training, Computers/Software Development/Information Technology, Design (products and/or services), International Development/Affairs, Forensics, Mass Communication, Law/Criminal Justice/Law Enforcement, Administration/Management, Ethnography, Evaluation/Assessment, Health (international/public health), Environment and Natural Resources, Healthcare Management/Services/Deliver, Social Impact Assessment, Market Research, and Humanitarian Efforts.

## Bachelor of Arts (B.A.)

- Major in Anthropology (p. 499)

## Bachelor of Science (B.S.)

- Major in Anthropology (p. 501)

## Minor

- Anthropology (p. 502)
- Social Impact through Applied Research (p. 502)

## Courses in Anthropology (ANTH)

### ANTH 1312. Cultural Anthropology.

In this course students examine the nature of cultural variation of populations in the present and recent past. Its subjects include social, political, economic, and ideological aspects of human cultures. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Soc & Behav Sciences Core 080|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ANTH 2351

### ANTH 2101. Biological Anthropology Laboratory.

This laboratory course accompanies Biological Anthropology. It provides students with hands-on experience with the materials and methods of biological anthropology. Students examine human genetic and anatomical variability, anatomical and behavioral similarities and differences among living primates, human skeletal anatomy, and evidence for human evolution from the fossil record.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**TCCN:** ANTH 2101

### ANTH 2102. Introduction to Archaeology Laboratory.

This laboratory course accompanies Introduction to Archaeology. It provides students with hands-on experience with the materials and methods of archaeology, and covers topics such as stratigraphy, site maps, lithic and ceramic analysis, and ethics. Corequisite: ANTH 2302 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### ANTH 2301. Biological Anthropology.

This lecture and accompanying laboratory course examine fundamental aspects of the biological nature of humans. Course content is divided into topics devoted to explaining the scientific method, evolutionary theory, genetics, speciation, variation and adaptation, nonhuman primates, and human evolution.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030

**Grade Mode:** Standard Letter

**TCCN:** ANTH 2301

### ANTH 2302. Introduction to Archaeology.

This lecture and accompanying laboratory course examine the basic principles of archaeology. It includes a study of the kinds of sites; classification of stone artifacts; methods of archaeological survey and excavation; methods of dating by geological, faunal, and radiometric means; and the theoretical approach to archaeology. Corequisite: ANTH 2102.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**TCCN:** ANTH 2302

### ANTH 3101. Writing Anthropology.

This course offers tutelage in professional scholarly writing, word processing software, library research, scientific and ethnographic writing styles, and effective use of anthropological literature. Because it provides core skills presupposed by advanced anthropology courses, students should enroll in it alongside their first writing-intensive anthropology electives.

**1 Credit Hour. 0 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### ANTH 3102. Skeletal Processing, Preparation, and Curation Techniques.

In this laboratory-based course students will learn human skeletal processing techniques used in forensic anthropological casework and gain an introduction to human skeletal anatomy and variation. Prerequisite: ANTH 3381 with a grade of a "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**ANTH 3201. Professionalization in Anthropology.**

This course surveys the breadth of careers open to people holding anthropology degrees. Issues discussed include professional ethics, specialized skill sets, the transferable skills of liberal arts degrees, broad trends in the labor market, and steps toward pursuing relevant careers.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3301. Principles of Cultural Anthropology.**

This course is an ethnographically-based analysis of major theoretical positions and debates in contemporary anthropology. (WI) Prerequisites: ANTH 1312 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3302. Introduction to Linguistic Anthropology.**

This course provides an introduction to the study of linguistic anthropology. We will focus on the origin of language and its evolution and diversity, the interactions between language, culture and society, and modes of communication. This course will enhance a student's awareness of the complex interrelationships between language and other aspects of culture. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3303. Applied Cultural Anthropology.**

In this course students learn the methods applied cultural anthropologists use to address social problems such as poverty, sustainable development, conflict, climate change, community health, workplace and product design, education, and cultural heritage, as well as the value "thinking anthropologically" has for a wide range of careers.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3304. Bioarchaeology.**

Bioarchaeology is the study of human skeletal remains in relation to the archaeological record. In this course students will study theories and methods used in the analysis of human skeletal remains in bioarchaeology to reconstruct patterns of subsistence, diet, disease, demography, biological relatedness, and physical activity of past populations.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 3305. Magic, Ritual and Religion.**

An examination of magic and religion in cultures of the world with an emphasis on recent works dealing with mysticism and the occult. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3306. World Prehistory.**

This course presents a survey of the prehistoric human record throughout the world. It focuses upon the achievements of early and modern humans, world colonization events, and the development of complex societies.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3307. History of Evolutionary Thought.**

This course discusses the impact of evolutionary discourse within the context of its history. Students will develop a thorough understanding of evolution and its importance to anthropology, as well as to other scientific disciplines. (WI) Prerequisites: ANTH 2301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3308. Cultural Resource Management and Archaeology.**

This course surveys Cultural Resource Management (CRM) archaeology, the conservation and investigation of archaeological remains as mandated by federal and state laws. The course covers the history of CRM and its legal and regulatory framework, organization, methods, funding, employment prospects, and ethical and practical dilemmas.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3309. Cultures Through Film.**

Through films, lectures, and discussions, students explore the various ways that ethnographic film interprets the cultural environment and social interactions of small-scale cultures around the world. We will also discuss anthropological interpretations of how historically U.S. (American) culture has dealt with concepts of the "other" and supernatural phenomena through film. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3311. Disease and Society.**

In this course students examine infectious diseases and the effect they have on human societies. The course is organized into case studies of specific infectious diseases, which focus on the biology and epidemiology of a disease as well its social impact.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3313. Aztec: Native Americans and Empire.**

This course presents an understanding of Aztec culture through archaeology, the interpretation of art, religion, and architecture, and the formation of a highly specialized and stratified society with an imperial administration. The course will emphasize an intellectual and religious outlook in intimate contact with the earth, sky, and the seasons.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3314. Latin American Cultures.**

This course examines different aspects of Latin American indigenous cultures from a variety of theoretical perspectives in anthropology. Emphasis is on the Maya, and different theoretical perspectives provide different interpretations of data. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3315. Archaeology of the Southwest.**

An examination of the prehistory and early cultures of the Greater Southwest from the first arrival of humans as early as 20,000 years ago to the coming of the Spaniards in the 16th century. The course covers several mammoth kill sites at the end of the Pleistocene; the emergence of Archaic hunters and gatherers and the appearance of agriculture about two thousand years ago, leading to the three major cultures in the southwest-the Mogollon, the Hohokam and the Anasazi, the last in multistoried pueblos and cliff dwellings. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3316. The Origin and Evolution of Human Behavior.**

This course presents our current understanding of Old World Paleolithic Archaeology. The origin and evolution of hominid behavior, the initial colonization of the Old World, and the development of modern human behavior will be discussed for each continent. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3317. Rock Art Field Methods.**

This course will train students in rock art field methods. They will gain first-hand experience recording rock art sites through photography, field sketches, mapping, and written inventories. Students will generate a visual and written description of the art, which they will use to infer and explain past human behavior.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3318. Ancient Cultures of the Texas Crossroads.**

This course will present our current understanding of Texas archaeology. The environmental and social contexts of prehistoric, protohistoric, and historic records of Native American and Spanish occupations in Texas are discussed. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3322. Peoples and Cultures of Africa.**

This course is a general introduction to the contemporary peoples and cultures of Africa. Students will examine the social structure, economy, political systems, and religions of African cultures in the context of the radical economic and social transformations affecting the area. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3324. Mexican American Culture.**

This course provides exploration of Mexican American culture with an emphasis on the US-Mexico transborder region. The course integrates history, anthropology, and ethnic studies to capture the broad diversity of Mexican American experiences. Some of the topics covered include identity, social movements, Chicana feminism, transnational migration, spirituality, and cultural expressions such as visual art, film, music, and performance. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3325. Medical Anthropology.**

This course focuses on how illness identities are culturally constructed, how adaptations or maladaptations to local environments affect health, how political and economic forces influence health and health behaviors, and how the practice of medical anthropology can contribute to solving urgent health issues around the world.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3327. Anthropology of Religion and Fundamentalism.**

This course provides students with current and historical approaches to the anthropology of religion with a particular emphasis on fundamentalism. It focuses on the development of religious fundamentalism in different cultural contexts, geopolitical situations, and religious traditions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3330. Archaeological Curation and Collections Management.**

This course provides technical training in and an understanding of the principles and methods of curating and managing archaeological collections. Students review the history of archaeological curation in the United States as well as relevant laws and regulations. Additional topics covered include types of repositories and storage facilities, costs of curation, policies, collection rehabilitation, archival processing, basic preventative conservation strategies, and using archaeological collections to educate the public.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 3331D. Dental Anthropology and Oral Biology.**

The biological development of the cranio-facial structures will be presented with emphasis on hard tissue anatomy and diseases. Dental traits will be discussed in relation to human evolutionary concepts. Forensic methods that support identification of human remains are emphasized. This course is appropriate for anthropology students and pre-professional dentistry. Prerequisite: ANTH 2301 or [BIO 1130 and BIO 1330] any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**ANTH 3331E. Anthropology and the Law.**

This course explores the role of law as an instrument of social change, justice, and human rights. Topics include law as a social system, understanding legal reasoning, identifying key actors, how law influences change, how law is depicted in popular culture, and how law influences anthropological research.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**ANTH 3331F. Body Talk: Gestures, Communication, and Society.**

Communication involves the use of 'invisible' words and gestures, or 'visible actions.' This course focuses on gestures, what they are, how they are used, what role they play in communication and in thinking, and their cultural underpinning. Students will learn the theoretical and methodological issues involved in studying different gestures across societies.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**ANTH 3331G. The Archaeology of Cannibalism and Sacrifice.**

Students in this course explore kinds of violence in past societies considered especially shocking or controversial in the contemporary, developed West: human sacrifice and the consumption of the human dead. Avoiding exoticism and suspending moral evaluation in favor of anthropological inquiry, we will consider cannibalism and sacrifice as cultural expressions of universal human drives and preoccupations and as historically specific solutions to common problems in social organization. We will examine archaeological and ethnohistoric case studies drawn from a wide range of time periods, cultures, and regions in an effort to identify and explain diversity and commonalities among such practices.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3331I. Design + Anthropology.**

This course will begin by exploring the anthropology of design, including the practices, implications, and expansion of design under contemporary capitalism. Students will then use this knowledge to examine the growing field of design anthropology and learn how anthropologists provide actionable insights and research for design work today.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3331J. Race and Biological Anthropology.**

In this course students will learn where race concepts originated, examining the worldview and scientific mindsets that guided biological anthropology into the 21st century. We will explore how social race has become biological, put forth pragmatic solutions in the context of anthropology research, and help develop an informed scientific practice.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3331L. Social Impact: Anthropology of Innovation, Entrepreneurship, & Business.**

This course explores the nature of innovation under late capitalism via entrepreneurship. Drawing on the anthropology of business, design, organizations, economics and technology, students will review with a critical lens how people strive for better futures and what anthropology can do to improve these efforts.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**ANTH 3332. Myths and Moundbuilders.**

This course presents an anthropological approach to Native Americans of the Southeastern United States, their culture and beliefs. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3335. The Anthropology of Native American Belief Systems.**

In this course students use anthropological approaches to investigate past and present Native American belief systems in order to determine the temporal range and evolving complexity of Native American religious and ritual expression.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3336. Locally Engaged Research.**

This course will provide students the opportunity to conduct hands-on anthropological research on a variety of topics in local communities.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3337. Language and Linguistics.**

This course is concerned with the theoretical and methodological study of language, what constitutes the knowledge of a language, how this knowledge is acquired, and how it is used. Other areas of interest include the properties of human language, its representation in the mind, learnability, origin, and change.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3338. Geoarchaeology.**

This course will teach students how to interpret sediments and the nature of sediment accumulation at archeological sites. Course topics include sedimentology, natural depositional environments, weathering processes and soil development, stratigraphic analysis, and archaeological site formation processes. (WI) Prerequisite: ANTH 2302 or GEOL 1410 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3339. Contemporary Film and Global Culture.**

This course examines the relationship of recent film to both national culture and our increasingly globalized world culture. It focuses on the relationship between the creators of film, their intended audiences and the cultural context of both of these. It explores the way that film relates to current issues.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3340. Human and Primate Origins.**

An examination of the long and diverse record of human and nonhuman biological adaptations as viewed from the fossil record. It examines the functional and ecological challenges that may have been responsible for the path of human development.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3342. Primate Behavior.**

In this course, students will learn about the behavior, ecology and conservation of nonhuman primates (lemurs, lorises, monkeys, and apes).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3343. Human Variation and Adaptation.**

This course examines the physical variation observable within and between human populations. It emphasizes a functional approach whereby variation is examined in relation to biological adaptation. It explores the biological mechanisms responsible for change and evaluates the potential of biological components in human behavior.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3345. Archaeology of Mesoamerica.**

This course examines the development of culture from early hunters and gatherers through the appearance of agriculture to the rise of civilization. The focus of the course is on the emergence of complex society among groups such as the Olmec, Aztec, and Maya. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3347. Archaeology of North America.**

This course describes human settlement of North America from the end of the Pleistocene to European discovery. It considers early occupation of arctic, plains, and forested regions and development during archaic times of Adena, Hopewell, and Mississippian societies in the Southeast and Mogollon, Hohokam, and Anasazi in the Southwest.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3348. Primate Conservation: Adapting to Rapidly Changing Landscapes.**

This course provides instruction on the ecology and conservation of primates and the flora and fauna in their ecosystems.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3349. The Incas.**

The Incas were the largest Pre-Columbian empire in the Americas and this course will explore the origins of this civilization and how they conquered such a large area of South America. Using archaeological and historic information the class will examine various aspects of Inca society including religion, economics, and kingship.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3350. Gender and Sexuality in Cross-cultural Perspective.**

This course explores historical and contemporary issues related to gender and sexuality from cross-cultural perspectives. It will focus on cultural constructions of gender and sexuality and explore key themes in queer anthropology as well as US minority and Global South feminisms through expressive and documentary forms including music, film, art and performance. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3351. Anthropology of Peace and Violence.**

This class explores anthropological perspectives on peace and violence. It focuses on understanding violent practices within both traditional and current day societies including everyday violence and warfare. It explores the contributions of social structure, gender, religion, race, and ethnicity to violence. It examines efforts to build peace and reconciliation.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**ANTH 3352. Language and the Body.**

This class focuses on how language shapes our identities and deeply held beliefs about our bodies. Students will have an opportunity to engage in discourse analysis of media representations as well as collect and analyze their own conversational data using the methods of linguistic and cultural anthropology.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3353. Human Structure and Function.**

Students study the structure and basic function of the human body with emphasis on the skeletal, muscular, and nervous systems. This course provides a basis for other courses in biological anthropology.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 3356. Archaeology of Andean Civilizations.**

This course examines the cultures of the Andes Region of South America with an emphasis on pre-Columbian and contemporary peoples of the area.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3357. Historical Archaeology.**

This course is designed to provide students with an intensive overview of historical archaeology method, theory, and artifacts in Texas and North America. Using the methods and theories of historical archaeology, students analyze historical narratives, which incorporates research, documents, and material culture from historic period sites.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 3358. Human Evolutionary Anatomy.**

This course is designed to give students an anatomical background to the study of human evolution with a focus on the comparative anatomy of apes, living humans, and fossil hominins.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 3359. Skeletal Processing, Preparation, and Curation Techniques.**

This course is laboratory based and students will learn human skeletal processing techniques used in forensic anthropological casework and gain an introduction to human skeletal anatomy and variation. Prerequisite: ANTH 3381 with a grade of a "D" or better.

**3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3360. Economic Anthropology.**

Reviews central issues in economic anthropology, using both case studies and theoretical writings. Analyzes production, exchange, distribution, consumption, property, economic surplus, inheritance, and types of economic structure. Materials will cover huntergatherer societies, simple agricultural societies, pre-capitalist complex state societies, and issues of development in nonindustrialized countries. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ANTH 3361. Archaeological Field Methodology.**

In this course students will learn about planning, organizing, and carrying out archaeological field investigations from survey to excavation to specialized data recovery. The focus is on the research strategies, techniques and logistics necessary to design and accomplish successful field research. (WI).

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3363. The Art and Archaeology of the Olmec.**

This course will present our current understanding of the art and archaeology of the Olmec culture, the earliest known civilization in North America. The Olmec culture is considered the influential foundation for later Mesoamerican civilizations such as the Maya and the Aztec.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 3366. Social Impact through Applied Research.**

This course introduces students to how research in anthropology and other disciplines can be used to create social impact—solutions to public problems. Students will explore what social impact is, barriers that prevent social impact from occurring, and how social impact can be created through the application of applied research.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 3367. Applied Statistics.**

This course will teach students basic statistical concepts through an anthropological lens. Students will learn to engage with data and statistics in everyday topics related to anthropology, the foundations of statistical analysis, and how to use the statistical programming language and software to explore and communicate data to the public.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 3377. Anthropology of Youth.**

This class will provide an overview of issues in adolescent and emerging adult health and development in national and international contexts. Drawing from several disciplines including anthropology, education, public health, psychology, and sociology, we will critically examine existing research on youth and discuss underlying assumptions, research methodologies, and findings.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 3380. Forensic Anthropology.**

Forensic Anthropology is the recovery and analysis of human skeletal remains for modern legal inquiry. This course is an overview of the field of Forensic Anthropology illustrated with real forensic cases.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 3381. Human Osteology.**

The foundation of biological anthropology is the study of the human skeleton. This is a lab-intensive course in which students will learn how to identify skeletal elements, both whole and fragmentary.

**3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 3382. Archaeology of Ice Age America.**

Precisely when the first people arrived in the Americas, where they came from, and how they got here are the subjects of longstanding debate. This class will draw upon archaeological, biological, linguistic, and environmental evidence to reconstruct the earliest human prehistory of the New World.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 4303. Human Speech Sounds.**

This course is an introductory overview of human speech production and perception from an anthropological perspective. It describes speech anatomy and pays particular attention to the description of the acoustic and articulatory properties of speech as it occurs in real time. Students will study articulatory, acoustic, and auditory phonetics.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 4304. Language, Culture and Society.**

This course seeks to introduce students to the fundamentals of linguistic anthropology, and the use of linguistics in anthropological fieldwork through lecture, discussion, and "hands on" class exercises.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 4309. Culture, Medicine and the Body.**

This course explores how the human body, functions of the body, and the practices of medicine and healing are situated and contextualized within cultural frameworks. Case studies cover body and health-related topics over the life course, from birth to death. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter

**ANTH 4310. Theories and Issues in Anthropology.**

This course explores major theoretical and historical developments in anthropology, highlighting the discipline's unique four-field perspective that includes archaeology, biological and cultural anthropology, and anthropological linguistics. Topics stress the importance of anthropological thought in key scientific discoveries and cultural debates. Prerequisites: ANTH 1312 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter

**ANTH 4315. Archaeological Artifact Identification and Analysis.**

This course will train students to describe and analyze artifacts commonly recovered from archaeological sites. Current theories covering the production and analysis of chipped and ground stone tools, ceramics, bone and other materials will be presented, and scientific analytical methods discussed. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter

**ANTH 4320. Rise of Civilization.**

This course consists of a definition of civilization and its components, its geographic setting, and the roles of religion, art, and the institution of the "Divine King" in the development of dynamic state societies in Egypt, Sumeria, the Indus Valley, and China in the Old World and that of the Olmec in Mexico and Chavin in Peru. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Multicultural Content|Writing Intensive  
**Grade Mode:** Standard Letter

**ANTH 4326. Field Methods in Forensic Anthropology.**

In this course students will learn how to locate, excavate and recover human remains, associated personal effects, and other materials in order to ensure legal credibility for all recoveries. Prerequisite: ANTH 3381 with a grade of "D" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.**  
**Grade Mode:** Standard Letter

**ANTH 4337. Theory in Linguistic Anthropology.**

In this course students will be introduced to the major theories of linguistics through reading and discussing classic and contemporary literatures. Particular attention will be given to how the various theories have influenced linguistic anthropology. (WI) Prerequisites: ANTH 1312 or ANTH 3302 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 4339. Theoretical Concepts in Archaeology.**

This course provides a broad survey of theory in archaeology as it is practiced throughout the world. It includes both historical perspectives and contemporary usage. (WI) Prerequisite: ANTH 2302 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 4360. Directed Study.**

A one-semester course of independent reading, tutorial sessions, and individual research projects. Open to superior students by invitation of the professor and with the consent of the chair of the department. May be repeated for credit with permission of instructor.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**ANTH 4361. Qualitative Research Methods.**

This course provides instruction on qualitative research methods through lectures and hands-on activities, including designing qualitative research projects, collecting and analyzing qualitative data, and presenting qualitative results.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 4363. Methods in Primate Research.**

In this course, students will learn about the methods used to study primates in captive and field settings.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 4381. Paleopathology.**

This course focuses on the study of diseases and maladies of ancient populations, and will survey the range of pathology on human skeletons from trauma, infection, syphilis, tuberculosis, leprosy, anemia, metabolic disturbances, arthritis, and tumors. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 4382. Methods in Skeletal Biology.**

This course is for students who wish to advance their osteological skills. Students will learn how to identify isolated and fragmentary skeletal remains to estimate age, sex, ancestry, stature, and health of an individual in past and present contexts. Prerequisite: ANTH 3381 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Grade Mode:** Standard Letter

**ANTH 4390. Internship in Anthropology.**

This course provides students with professional development through work or research-related experience. After consulting the internship coordinator, students choose placements matching their interests and develop individualized internship contracts. Interns meet to discuss career preparation and anthropological topics related to each intern's activities, keep a journal, and submit a final report. Prerequisites: Minimum 2.5 Major GPA and instructor approval.

**3 Credit Hours. 1 Lecture Contact Hour. 8 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ANTH 4600. Bioarchaeology Field and Laboratory Methods.**

In this course students will be trained in the documentation, contextual assessment, and recordation of human skeletal remains in bioarchaeological settings. Students will engage in research projects, gaining practical laboratory and field experience. Prerequisite: ANTH 3381 with a grade of "D" or better or instructor approval.

**6 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ANTH 4630. Archaeological Field School.**

This course is designed to train students in the skills and techniques of modern archaeological survey and excavation of prehistoric sites. May be repeated for credit, but only six hours may be applied toward the major.

**6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Lab Required

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. Life and Physical Sciences component courses may not include ANTH 2101 or ANTH 2301.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature; three hours of mathematics, science, logic, or computer science courses (not to include ANTH 2301); a minor; and six hours of 2000-level modern language courses. Most students will have to complete the 1410 and 1420 language courses as prerequisites before attempting the 2310 course.

- Nine hours of writing intensive (WI) courses are required for graduation.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- This major requires 32 semester credit hours of Anthropology courses which 18 hours must be advanced courses. Students may not receive more than six hours of credit in ANTH 4630 to satisfy Anthropology major requirements. Students must complete one of the following theory-based Anthropology courses:

Code	Title	Hours
ANTH 3301	Principles of Cultural Anthropology	3
ANTH 3307	History of Evolutionary Thought	3
ANTH 4310	Theories and Issues in Anthropology	3
ANTH 4337	Theory in Linguistic Anthropology	3
ANTH 4339	Theoretical Concepts in Archaeology	3

- Students are required to achieve a major GPA 2.50 for graduation.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Twelve hours of writing intensive (WI) courses are required for graduation.
- Students must select a minor from the following list of lab-based science minors: biology, chemistry, physics, geology, geography, computer science, or mathematics.
- All students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- This major consists of 35 semester credit hours of Anthropology courses, 18 of which must be advanced. Students may not receive more than six hours of credit for ANTH 4630 to satisfy Anthropology major requirements. Students must complete one of the following Anthropology theory-based courses:

Code	Title	Hours
ANTH 3301	Principles of Cultural Anthropology	3
ANTH 3307	History of Evolutionary Thought	3
ANTH 4310	Theories and Issues in Anthropology	3
ANTH 4337	Theory in Linguistic Anthropology	3
ANTH 4339	Theoretical Concepts in Archaeology	3

- Students must complete 6 hours of Anthropology techniques courses to be selected from:

Code	Title	Hours
ANTH 3317	Rock Art Field Methods	3
ANTH 3330	Archaeological Curation and Collections Management	3
ANTH 3361	Archaeological Field Methodology	3
ANTH 4326	Field Methods in Forensic Anthropology	3
ANTH 4361	Qualitative Research Methods	3
ANTH 4363	Field Methods in Primate Behavior	3
ANTH 4382	Methods in Skeletal Biology	3
ANTH 4390	Internship in Anthropology	3
ANTH 4630	Archaeological Field School	6

- Students must complete one of the following statistics courses: CJ 3347, GEO 3301, PSY 2301, or SOCI 3307.
- Students are required to achieve a major GPA 2.50 for graduation.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

T: 512.245.2163 F: 512.245.8546  
www.english.txstate.edu (<http://www.english.txstate.edu>)

Students in the Department of English learn to create for a world dependent on the written word and visual rhetoric. Ever-changing and fragmented communication landscapes—especially those that include AI—demand leaders who can inspire others by using words and images that convey innovative ideas and foster authentic connections. Our students create essays and professional documents, along with poems, short stories, and screenplays, as well as content for a host of new media platforms. What students create in the Department of English is limited only by their own imaginations.

Courses cover a range of texts—from medieval literature to pop culture—through a range of approaches. Students in English analyze literature, rhetoric, technical documents, film, and other media, and they express themselves in a variety of contexts while exploring big questions about life, meaning, and value. From literary wonderlands to the cinematic west, from the Elizabethan stage to social media platforms, English courses take students to a variety of textual worlds.

Our department's faculty are award-winning authors, scholars, poets, and essayists who bring a breadth of expertise into the classroom. Their courses help students hone their crafts, developing the abilities to analyze texts, express themselves in different media, and adapt to the future. Our flexible curriculum provides a broad foundation in the Humanities while also encouraging students to pursue their individual passions among several different concentrations and minors.

English majors, minors, and concentrations prepare students for any job that requires communication, persuasion, or research. Creators who can adapt, while presenting unique, diverse, and distinct voices, are more important than ever. Independent thinking, rhetorical dexterity, and the ability to analyze, edit, and revise have always mattered, but they are vital skills for today's workplaces and communities.

English graduates work in sectors that include but are not limited to: publishing, media and entertainment, content creation, social media, journalism, education, and instructional technology, as well as medical communication, business management, public relations, marketing, advertising, human relations, finance, and foreign service. Our students are also well prepared for graduate training, from Ph.D. programs to law school to MFAs. Their skills as expert readers and writers help employers meet and exceed their goals because an English degree prepares students to respond to various rhetorical situations, to adapt and revise for diverse audiences' needs, to create in different modalities, and to

thrive in a future dependent on the clear transmission of information and ideas.

## Bachelor of Arts (B.A.)

- Major in English (p. 510)
- Major in English (Creative Writing Emphasis) (p. 513)
- Major in English (Film Emphasis) (p. 515)
- Major in English (Secondary Education; Teacher Certification in English Language Arts and Reading, Grades Seven through Twelve, with Double Major in B.A. Education) (p. 518)
- Major in English (Writing and Rhetoric Emphasis) (p. 521)

- English (p. 523)
- Media Studies (p. 524)
- Medieval and Renaissance Studies (p. 524)
- Southwestern Studies (p. 525)
- Writing (p. 525)
- Second Teaching Field in English (Grades 7-12) (p. 525)

## English (ENG)

Requirements in first-year English must be completed before a student takes any other English course.

### ENG 1300. Developmental Writing.

Basic composition skills. For students who have not satisfied TSIP requirements or for those who need developmental work before taking English 1310. Credit earned for this course does not count toward any degree offered by the university.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Developmental/Remedial

**Grade Mode:** Developmental

### ENG 1310. College Writing I.

Expository writing as a means of exploring and shaping ideas. Emphasis on critical reading and the improvement of essays through revision. (MULP) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Communication Core 010|Multicultural Perspective|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ENGL 1301

**ENG 1320. College Writing II.**

Continuation of English 1310. Expository writing as a means of analyzing and understanding texts. Research paper required. Requirements in sophomore English must be completed before a student takes any advanced work in English. (MULP) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Communication Core 010|Multicultural Perspective|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ENGL 1302

**ENG 1321. Writing for Sustainable Change.**

This service-learning writing course focuses on supporting sustainable community initiatives in the local area. All writing assignments target real-world audiences in order to advance existing and/or proposed community projects. Writing assignments reflect a variety of genres, including multimodal texts and group-authored projects. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Communication Core 010|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 1302

**ENG 2310. British Literature before 1785.**

Students study representative authors and works of British literature from the beginnings through the Neoclassical Period.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 2322

**ENG 2320. British Literature since 1785.**

Students study representative authors and works of British literature from the Romantic Period to the present.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 2323

**ENG 2330. World Literature before 1600.**

Students study representative authors and works of literature from the ancient world to the early modern world. Readings may come exclusively from the Western tradition or from various literary traditions, such as those of Africa and Asia.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 2332

**ENG 2340. World Literature since 1600.**

Students study representative authors and works of literature from the modern world. Readings may come exclusively from the Western tradition or from various literary traditions, such as those of Africa and Asia.

**Course Attribute(s):** Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 2333

**ENG 2359. US Literature before 1865.**

Students survey representative authors and works of US literature from the beginnings to the Civil War.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 2327

**ENG 2360. US Literature since 1865.**

Students survey representative authors and works of US literature from the Civil War to the present.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Component Area Core 090|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** ENGL 2328

**ENG 2371. U.S. Literature: Writing Identities.**

In this course students survey writers and texts that reflect a variety of identities and traditions throughout U.S. history, from the colonial era to the present. Students read and analyze literary texts; develop an appreciation of literature as an art form; and gain an understanding of the role of literature in its historical, social and cultural contexts.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Lang, Phil & Culture CAO 094|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3301. Critical Approaches for English Majors.**

This course introduces the critical methods and practices underpinning rhetorical and literary analysis within various branches of English Studies and develops the skills of reading, writing, and research. It is required for majors and open to minors and should be taken in the first semester of upper division classes. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3302. Film and Video Theory and Production.**

This course covers the study of film and narrative theory combined with the practice of videography and video editing. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ENG 3303. Technical Writing.**

This course concerns writing in technical professions. It emphasizes planning, writing, revising, editing, and proofreading proposals, reports, instructions, and other forms of professional communication for a variety of audiences. (WI) Prerequisite: ENG 1310 or ENG 1320 or ENG 1321 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Communication Core 010|Multicultural Perspective|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3304. Professional Writing.**

The principles of expository writing adapted for the workplace. Prepares students in non-technical fields to write documents commonly used in professional settings. Students compile a writing portfolio suitable for a job search or for application to professional school. Computer technology included. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3305. Life Writing.**

This course covers approaches to and/or practices of life writing in rhetoric and writing studies, including autoethnography, narrative inquiry, counterstorytelling, literacy narratives, scholarly personal writing, or personal writing. Specific content and focus vary by section. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3306. Writing for Film.**

This course is an introduction to screenwriting that combines the study of published film texts with workshop practice in writing for film. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3307. Introduction to the Study of Film.**

This course provides an introduction to basic film terms and concepts, various theoretical approaches to the study of film, and to important debates within film theory. Its focus will include, but is not limited to, theories of spectatorship, the debate between formalism and realism, psychoanalytic and feminist theories, and cultural approaches to film. This course should be taken before other upper-division film courses. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3308. Advanced Topics in Film.**

This course offers a focused examination of film as text, with an emphasis on critical, theoretical, cultural, historical, generic, and/or stylistic aspects. Specific content and focus vary by section and may include the history of classical Hollywood cinema; silent film; world, European, or national cinemas; or the documentary. This course may be repeated once for credit when its topic varies. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3309. The Southwest in Film.**

A survey of films of the Southwest, emphasizing the history and cultural diversity of the region as represented on screen. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3311. Practices in Writing and Rhetoric.**

This course concerns the study and practice of advanced expository writing, with a focus on achieving rhetorical dexterity and effective communication. Specific content and focus vary by section and may include The Essay, Nature Writing, Argument, Writing for the Government, or Online Communication. This course may be repeated once for credit when its emphasis varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3312. Internship in English Studies.**

Course offers a supervised work experience related to students' career interests. Prerequisites: Instructor approval.

**3 Credit Hours. 0 Lecture Contact Hours. 8 Lab Contact Hours.**

**Grade Mode:** Credit/No Credit

**ENG 3313. Scientific Writing.**

The course teaches composition techniques that include planning, organization, revision, usage, and audience identification necessary for writing in science and/or social science fields. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3315. Introduction to Creative Writing.**

A critical seminar for writers of fiction, poetry, and articles. Creativity, criticism, and revision are emphasized. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3316. Film Adaptation Studies.**

This course offers a comparative study of film adaptations from other media. Specific content and focus vary by section. This course may be repeated once for credit when its topic varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3318. Approaches to Writing and Rhetoric.**

This course focuses on approaches central to the study and practice of writing and rhetoric. Specific content and focus vary by section and may include Composition Theory, Theories of Technical Communication, Chicana/o/x Rhetorics, or Literacy Studies. This course may be repeated when its emphasis varies for up to 9 hours of English credit. (MULT)(WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3319. The Development of English.**

Origin and growth of the English language with particular attention to phonological, morphological, and grammatical changes; history of dialects, spelling, and dictionaries; sources of vocabulary. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ENG 3320. Studies in Theory and Criticism.**

This course explores one or more theoretical and critical approaches, such as ecocriticism, film theory, trauma theory, or disability studies. It may be repeated once for credit when its topic varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3321. The Short Story.**

The short story throughout the world since Poe and Gogol. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3322. The European Novel.**

Major continental novelists from Cervantes to the present, read in translation. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3323. Modern Poetry.**

Modern poetry in English and English translation. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3325. Literature in Translation.**

This course examines major works of literature, in translation, since the eighteenth century. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3326. US Drama on Film.**

This course examines masterpieces of US drama and the films that have been made from them. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3327. Early Global Drama in English.**

This course studies examples of global drama from Aeschylus to Ibsen. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3328. Modern Global Drama in English.**

This course studies examples of world drama in English from Ibsen to the present. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3329. Studies in Mythology.**

This course examines myths in various contexts, such as ancient and/or contemporary cultures, mythic patterns in modern literature, and myths produced in popular culture. Specific content and focus vary by section. This course may be repeated once for credit when its topic varies. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3331. Black Literature.**

This course studies selected Black poetry, drama, fiction, and other cultural texts. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3333. Early US Literature.**

This course examines selected US literature from its colonial beginnings to 1865. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3335. US Literature, 1865-1945.**

This course examines selected US literature from the Civil War to World War II. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3336. US Literature, 1945 to the Present.**

This course examines elected US literature from World War II to the present. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3338. The American Novel.**

A study of the novels and pertinent criticism from the beginnings in America. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3340. Special Topics in Language and Literature.**

This course covers a variety of topics proposed and taught occasionally by different English faculty members. Specific content and focus vary by section; past emphases have included Early Modern Evil, Sexing the Word, and The Beatles. This course may be repeated twice for credit when its emphasis varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Header|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3341. Studies in Global Literature.**

This course examines selections from ancient and/or modern literature from around the globe. Specific content and focus vary by section, and the course may be repeated once for credit when its topic varies. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3342. Editing.**

A study of editing, to include instruction in making editorial changes, preparing MSS for typesetter, marking galley and page proof; fundamentals of layout and design (typeface, paper, headlines, etc.); problems and possibilities in desktop publishing; and the current status of electronic publications.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ENG 3343. The Interdisciplinary Approach to Literature.**

This course studies a single topic using techniques from various disciplines such as history, sociology, psychology, environmental studies, and/or visual studies. It may be repeated once for credit when its topic varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3344. Chicana/o/x Narrative and Social History.**

This course examines narratives by people of Mexican descent living in the United States. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3345. Southwestern Studies I: Defining the Region.**

The first of two courses in a broad interdisciplinary survey of geophysical, cultural, social, literary, and political history of the Southwest that emphasizes regional and ethnic expressions of culture in architecture, art, economics, law, literature, philosophy and politics. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3346. Southwestern Studies II: Consequences of Region.**

The second of a two-course sequence in a broad interdisciplinary survey of geophysical, cultural, social, literary, and political history of the Southwest, emphasizing regional and ethnic expressions of culture in architecture, art, economics, law, literature, philosophy, politics, popular culture, religion, social science, and technology. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3347. American Poetry.**

Study of American poetry from its beginnings to present. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3348. Creative Writing: Fiction.**

A seminar for writers of fiction, with emphasis on creativity, criticism, and revision. (WI) Prerequisite: ENG 3315 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3349. Creative Writing: Poetry.**

A seminar for writers of poetry, with emphasis on creativity, criticism, and revision. (WI) Prerequisites: ENG 3315 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3350. Global Medieval Literature.**

This course examines medieval contexts, genres, and writings across Europe and beyond. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3351. Early Medieval Literature of the British Isles.**

An introduction to Old English life and writings from early culture through Beowulf (texts in modern translation). (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3352. Medieval English Literature.**

Studies of important non-Chaucerian writings in the Middle Ages, some in modern translations. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3353. British Poetry and Prose of the Sixteenth Century.**

Major poets and prose writers from More to Spenser. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3354. Shakespeare.**

Selected plays from the earliest through Hamlet. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3356. British Poetry and Prose of the Seventeenth Century.**

Prose and poetry from Donne and Bacon to Milton and Dryden. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3357. British Literature, 1688-1750.**

This course explores late-seventeenth- and early eighteenth-century literature and the development of literary genres. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3359. British Literature, 1750-1800.**

This course explores later eighteenth-century poetry and prose and the beginnings of the Romantic movement. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3362. The British Romantics.**

Course explores British poetry and prose of the Romantic Age. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3365. The British Victorian Period.**

British poetry and prose of the Victorian period, 1837-1900. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3368. The British Novel.**

Course explores British prose fiction. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3370. Twentieth- and Twenty-First Century British Literature.**

This course examines selected British poetry, fiction, and drama since 1900. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3371. Queer and Trans Texts.**

This course examines texts engaged with LGBTQIA2S+ culture in various media. Specific content and focus vary by section. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3372. Race and Ethnicity in Texts.**

This course examines depictions, representations, and engagements with race and ethnicity in a variety of texts. Specific content and focus vary by section. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3373. Gender and Sexualities in Texts.**

This course examines depictions, representations, and engagements with gender and sexualities in a variety of texts. Specific content and focus vary by section but may include feminist, queer, trans, and/or men's studies approaches. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3385. Children's Literature.**

A survey of traditional and contemporary literature for children with attention to literary history, aesthetic qualities, and critical approaches. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3386. Adolescent Literature.**

A survey designed to provide a critical philosophy and working repertoire of literature for adolescents. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3388. Women's Writing.**

This course examines selected writing by women, in various genres and from a variety of historical periods. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3389. Teaching English Language Arts in the Secondary Classroom.**

This course familiarizes future teachers with the discipline of English as a formal field and the practice of teaching English Language Arts. It is a required part of the student teaching sequence and prepares students for the English TExES (Texas Examination of Educator Standards). (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3390. Independent Study in Language and Literature.**

This course consists of an independent study with an individualized reading list, research project, and tutorial sessions, focused on a special problem in language and/or literature. (WI) Prerequisites: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3392. Women Writers of the Middle Ages.**

Religious and secular writings by women from the early Church through the 15th century. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 3393. Postcolonial Literatures.**

This course examines postcolonial literatures, such as Canadian, Caribbean, African, South Asian, or Australian, with discussion of aesthetic, cultural, and political issues surrounding them. Texts will be in English. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4310. Modern English Syntax.**

This course studies English syntax as described by traditional, structural, and transformational grammarians.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ENG 4323. Studies in Autobiography and Biography.**

Selected works in autobiography and biography. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4325. Literature of the Southwest.**

The literature of Texas and the surrounding territory; various types of non-fiction prose, fiction, and poetry. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**ENG 4334. US Romanticism.**

Course explores the US Romantic movement of the 19th century, with consideration of important authors, intellectual backgrounds, and literary relationships. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4343. Approaches to a British Author.**

This course examines the works of a British author, e.g. Charles Dickens, Mary Wollstonecraft, Virginia Woolf, or Zadie Smith. Specific content and focus vary by section, and the course may be repeated once for credit when its emphasis varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4344. Approaches to a US Author.**

This course examines the works of a US author, e.g. Gloria Anzaldúa, Cormac McCarthy, bell hooks, or Toni Morrison. Specific content and focus vary by section, and the course may be repeated once for credit when its emphasis varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4345. Approaches to a Global Author.**

This course examines the works of a global author, e.g. Dante Alighieri, Anita Desai, Paolo Friere, or Chinua Achebe. Specific content and focus vary by section, and the course may be repeated once for credit when its emphasis varies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4348. Senior Seminar in Fiction Writing.**

Workshop in writing fiction and evaluating manuscripts. Students produce portfolio of creative work. (WI) Prerequisite: ENG 3348 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4349. Senior Seminar in Poetry Writing.**

Workshop in writing poetry and evaluating manuscripts. Students produce portfolio of creative work. (WI) Prerequisite: ENG 3349 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4350. Senior Seminar in Film.**

This course integrates perspectives from English film and media studies, including film criticism, history, theory, screenwriting, and practical video skills. Each student will choose a focus, and all students will critique scholarly research, screenplays, and video projects that demonstrate concepts learned. Specific content and focus vary by section, and this course may be repeated once for credit when its emphasis varies. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4351. Chaucer and His Time.**

The works of Chaucer and their significance in an important literary and social era. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4355. The Later Shakespeare.**

The problem comedies, through the tragedies, to the plays of the final years; emphasis on reading in depth the plays, significant critical materials, and selected plays by Shakespeare's contemporaries. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4358. Milton.**

Milton's longer poems and most important prose writing. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**ENG 4385. Advanced Studies in Children's or Adolescent Literature.**

This course studies children's or adolescent literature. Possible topics include a historical period, a geographical area, a genre, a single author, or a theoretical approach, with attention to developing critical and research skills. Specific content and focus vary by section, and this course may be repeated once when emphasis varies for up to six hours of English credit. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.
3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 or ENG 1321 are recommended prerequisites to all other English courses.
7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
8. For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

### Advanced English Courses

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses, one of which must be a 4000-level course. Students must take at least one advanced course from four of the five groups listed below as well as nine hours of electives from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

<sup>1</sup> May fall into other groups depending on specific course content.

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

- Nine hours of writing intensive (WI) courses are required for graduation.
- This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 or ENG 1321 are recommended prerequisites to all other English courses.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the [Field of Study](http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.
3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the

group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 or ENG 1321 are recommended prerequisites to all other English courses.

7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
8. For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

**Total Hours: 120**

<sup>1</sup> Students who earn a grade of “B” or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

<sup>2</sup> ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

<sup>3</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

### Advanced English Courses

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses, one of which must be a 4000-level course. Students in the Emphasis in Film must take at least one advanced course from three of the four non-film groups listed below (A, B, C, and E) plus nine hours in film: three hours of ENG 3307 and 6 hours of other film courses. Students also select one three-hour elective from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

<sup>1</sup> May fall into other groups depending on specific course content.

## Minimum Hours: 120 Semester Credit Hours

### Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (<http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/>).

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (<http://mycatalog.txstate.edu/undergraduate/degree-program-information/>) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

4. Nine hours of writing intensive (WI) courses are required for graduation.
5. This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. ENG 1310 and ENG 1320 ENG 1320ENG 1320 or ENG 1321 are recommended prerequisites to all other English courses.
6. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a "C".
7. This degree program is designed to prepare students for secondary teacher certification in English and requires that students pursue a double major by declaring and completing requirements for both the major in English and the major in Education. The following courses are required for the major in Education:

Code	Title	Hours
<b>Education Foundations</b>		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
<b>Teaching and Learning</b>

<b>Total Hours</b>		<b>33</b>

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/) ([https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas\\_Educators%2FInvestigations%2FPreliminary\\_Criminal\\_History\\_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f9a%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNv%3D&reserved=0](https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f9a%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNv%3D&reserved=0)).
9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More

information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

<sup>1</sup> Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

<sup>2</sup> ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

<sup>3</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL

2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

Advanced English Electives

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses. Students must take at least one advanced course from Group A and one from Group C, two courses from Group B, and two specified courses from Group E: ENG 3319 or ENG 4310, and ENG 3389. They also select a three-hour elective from any group. In selecting their advanced courses, students are encouraged to take at least two courses that center on genre, theme, or theory. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

<sup>1</sup> May fall into other groups depending on specific course content.

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum.

- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- This major requires 36 semester credit hours of English courses. Within the 36 hours, students are required to complete six hours of early literature, three hours of literature focused on the work of a single author, and three hours of 4000-level literature. To satisfy the group requirements, students must select one course from 4 of the 5 groups. ENG 1310 and ENG 1320 or ENG 1321 are recommended prerequisites to all other English courses.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- For transfer students, 12 semester credit hours in English (or equivalents) may be transferred from a Texas public institution of higher education for the English Language and Literature Field of Study and be applied to the Bachelor of Arts degree with a major in English at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

<sup>1</sup> Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than six hours of sophomore literature may count toward the major.

<sup>2</sup> ENG 3301 is required, and students should take it immediately after completing the sophomore literature requirement.

<sup>3</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

### Advanced English Courses

Students are required to take ENG 3301, preferably immediately after completing the sophomore literature requirement. Students must also take two courses focusing on early literature at either the sophomore or advanced level. In addition to ENG 3301, students must complete seven advanced courses, one of which must be a 4000-level course. Students must take one advanced course from three of the four non-writing groups (Groups A, B, C, and D) plus nine hours of electives in writing and rhetoric. In choosing their nine hours of electives in writing and rhetoric, majors with the emphasis in writing and rhetoric must take three hours of theory (ENG 3318, repeatable); three hours of practice (ENG 3303, ENG 3304, ENG 3305, ENG 3311, or ENG 3342); and three hours of theory or practice. They also select one three-hour elective from any group. One of the advanced courses must focus on the works of a single author and is recommended to be taken at the end of the major.

<sup>1</sup> May fall into other groups depending on specific course content.

The minor in English requires 24 semester credit hours. Students who earn a grade of "B" or higher in the first sophomore course may elect to take an advanced literature course in lieu of the second sophomore course. No more than 6 hours of sophomore literature may count toward the English minor. Minors must take advanced courses from at least two different groups (Group A—British Literature, Group B—US Literature, Group C—Global Literatures, Group D—Media, Genre, and Visual Studies, or Group E—Writing Studies and Practice).

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

Texas State's Department of Geography and Environmental Studies is one of the largest undergraduate programs of its kind in the United States. The undergraduate program offers a variety of majors of study. Students may select a Bachelor of Arts (B.A.) degree or a Bachelor of Science (B.S.) degree. The programs provide students with courses designed to increase their understanding of the world they live in and help students develop analytical skills necessary to interpret and solve real-world problems. The B.A. requires a minimum of 30 semester credit hours of Geography and Environmental Studies coursework while the B.S.

requires a minimum of 36 hours of Geography and Environmental Studies coursework. Geography and Environmental Studies majors may include a maximum of two additional Geography and Environmental Studies courses towards their major. Majors are required to complete a minor and are encouraged to select a minor in consultation with an academic advisor.

Additionally, the Department of Geography and Environmental Studies' internship program is one of the largest of its kind, placing students in both government agencies and private enterprises to provide students real-world experience to complement their academic program. The Department also offers highly acclaimed field experiences to places such as Big Bend National Park, the Southwestern United States, and Europe and Latin America, where students gain invaluable firsthand geographical knowledge while gaining academic credit.

## Major in Geography

The Geography major under the Bachelor of Arts or the Bachelor of Science degrees provides flexibility in designing unique programs for students with highly specialized career or graduate study objectives. Students electing to follow this major are strongly encouraged to work with a faculty member with experience in their specific area of interest.

## Major in Geographic Information Science

The general philosophy of the program stresses the importance of a content-rich background in geography along with principles and techniques of Geographic Information Science: GIS; remote sensing; visualization; cartography; spatial modeling; and quantitative methods. The Bachelor of Science major in Geographic Information Science was developed and structured for positions in local, state, and federal agencies, commercial companies, planning departments, engineering firms, utility companies, and many others. To prepare for GIScience careers, many students perform internships with government agencies or private firms as part of their academic program.

## Major in Geography Natural Resource and Environmental Studies

The Bachelor of Science major in Geography Resource and Environmental Studies prepares students for a wide variety of government and private sector occupations relating to resource conservation and/or environmental management. Graduates pursue careers with employers such as the Texas General Land Office, the Texas Commission on Environmental Quality, the Texas Department of Transportation, Texas Parks and Wildlife, the National Geographic Society, the Lower Colorado River Authority, the San Antonio Water System, Motorola, Valero Energy, and various private sector environmental consulting firms.

## Major in Geography Urban and Regional Planning

Planning is a diverse profession, which draws upon fields of knowledge and technical skills closely related to geography. The Bachelor of Science major in Urban and Regional Planning provides the means to evaluate and facilitate programs that benefit our neighborhoods, communities, cities, and regions. Population growth, economic development, transportation, education, public services, and the environment are a few of the essential factors evaluated by planners. Many of our graduates are employed as planners in Texas, as well as within other states and countries.

## Major in Geography Water Resources

The Bachelor of Science major in Geography Water Resources provides a focused study of the physical, chemical, social, political, and economic factors of water resources from the geographic perspective. As water resources become ever more critical to the nation, and in particular Texas and the Southwest Borderlands, this degree program addresses the increasing need for professionals in this crucial field. Graduates are highly sought after by government agencies, from local, state to federal, industries that have large water demands, agricultural interests and private consulting firms that specialize in water resource issues. The Lower Colorado River Authority, the Guadalupe-Blanco River Authority, the Edwards Aquifer Authority, and the San Antonio Water System all employ graduates of the program.

## Major in Physical Geography

The Bachelor of Science major in Physical Geography emphasizes the physical science elements of geographical study. This major prepares students for employment in applied climatology and meteorology, oceanography, geomorphology, resource evaluation, environmental analysis, and areas where an understanding of the complex relationship between nature and society is required. Students considering graduate studies in Physical Geography or any of the earth and atmospheric sciences should select this degree option.

## Bachelor of Arts (B.A.)

- Major in Human Geography (p. 536)

## Bachelor of Science (B.S.)

- Major in Geographic Information Science (p. 537)
- Major in Geography (p. 538)
- Major in Geography Natural Resources and Environmental Studies (p. 539)
- Major in Geography Urban and Regional Planning (p. 540)
- Major in Geography Water Resources (p. 542)
- Major in Physical Geography (p. 543)

## Minors

- Environmental Studies (p. 544)
- Geographic Information Science (p. 544)
- Geography (p. 545)
- Geology (p. 545)
- Nature and Heritage Tourism (p. 545)
- Spatial Data Science and Health (p. 546)

**Subjects in this department include: GEO (p. 527), GEOL (p. 534), NHT (p. 535)**

---

## Courses in Geography (GEO)

### **GEO 1105. Meteorology Laboratory.**

Laboratory observations, calculations, and exercises of meteorological data and phenomena. Prerequisite: GEO 1305 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**TCCN:** GEOL 1147

### **GEO 1305. Meteorology.**

An introduction to atmospheric science providing information on the properties of the atmosphere, the scientific principles that govern weather and climate, and interactions between the atmosphere and the other components of the Earth system.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030

**Grade Mode:** Standard Letter

**TCCN:** GEOL 1347

### **GEO 1309. Introduction to Cultural Geography.**

This course introduces students to the geographical perspective and focuses on spatial distributions of human activities and investigates underlying geographical processes that account for present and past cultural patterns such as population, folk and popular culture, language, religion, gender, ethnicity, politics, urban and rural land use, and economic development. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** GEOG 1302

### **GEO 1310. World Geography.**

This course stresses the similarities and differences of the major world regions. Emphasis is given to human behavior in a spatial context. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Soc & Behav Sciences Core 080|Multicultural Perspective|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** GEOG 1303

### **GEO 2110. Physical Geography Laboratory.**

This is a laboratory course that includes exercises and calculations to apply principles and concepts covered in introductory physical geography lecture classes. These include geographic tools, weather and climate, soils and biogeography, and geomorphology. Open only to students who have taken the lecture class at another college/university. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better and instructor approval.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### **GEO 2310. Global Environmental Change.**

This course introduces the global perspective to examine Earth's environment and its systems, dynamics, and risks. Students use principles of scale, space, and distributions to analyze the changes in the environment.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### **GEO 2410. Introduction to Physical Geography.**

A systematic study of the various elements that make up the Earth's physical environment, weather, climate, vegetation, soil, and landforms. Prerequisites: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

### **GEO 2420. Introduction to Geographic Information Techniques.**

The course will introduce the foundations of geographic information systems (GIS), global positioning systems (GPS), remote sensing, cartography, data analysis, and other tools and methods used by geographic information scientists. Maps, data collection, using and creating Internet content, and data analysis and display will be topics in the course.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

### **GEO 2426. Fundamentals of Geographic Information Systems.**

This course is an introduction to Geographic Information Systems (GIS), a tool for integrating and analyzing spatial data to visualize relationships, seek explanations and develop solutions to pressing problems. The foundations and theory of GIS will be emphasized. Prerequisites: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

### **GEO 2427. Management and Implementation of GIS.**

This course addresses strategies for successful GIS management and implementation in an organization-wide context and is organized around four primary issues: implementation planning, data management, technology assessment, and organizational setting. Prerequisite: GEO 2426 with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 3301. Research Methods in Geography.**

This course provides an introduction to quantitative and qualitative research methodology, data collection and analytical techniques. Topics include descriptive, inferential, spatial quantitative statistics and qualitative methods such as case studies and content analysis. The course will introduce students to software applications that are designed for organizing, analyzing and visualizing data. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3303. Economic Geography.**

This course investigates the geographic organization of economic activity with emphasis on the interconnections from global to local scales. Technological advances, resource creation and destruction, supply and demand, distribution and development, environmental impacts, and economic justice are addressed. Theoretical models are used to interpret past and current situations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3305. Climatology.**

Introduction to the elements of climate and their use in environmental monitoring and analysis. Prerequisite: GEO 2110 or GEO 2410 or [GEO 1305 and MATH 1315] any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3307. Geography of Europe.**

The course presents a systematic and regional investigation of the physical and cultural processes and phenomena that have created the characteristic landscapes of Europe. Topics include the climate, landform regions, trade, transportation, urban growth, population change, and the evolution of economic integration in the region. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 3308. Latin America.**

A regional survey of the physical and cultural geography of Latin America. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 3309. United States and Canada.**

This course provides a systematic and regional analysis of the United States and Canada with emphasis on contemporary economic, environmental, political, and social issues. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3310. Urban Geography.**

The study of city systems, form, and development with emphasis on functional patterns, economic base, industrial location, service, and social area analysis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3313. Natural Resource Use and Management.**

This course uses environmental concepts at all geographic scales to identify and analyze patterns and processes of resource use, and discusses management strategies to solve present and future concerns related to natural resources. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3320. Community and Regional Planning.**

This course examines the practice, history and development of community and regional planning in the U.S. focusing on specific methods and legal frameworks of community planning and cultivating sustainable development. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3321. Energy Resource Management.**

An analysis of energy sources, their distribution and characteristics, and the problems associated with their use and management. (WI) Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3323. Researching the City.**

This course covers data collection and analysis of urban life, and the factors considered in locating industry, business, housing, and community facilities. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3328. Geography of North Africa and the Middle East.**

A regional treatment dealing with the physical features and cultural activities of the people in North Africa and the Middle East. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 3329. Geography of Texas.**

A physical and cultural geography of Texas with special emphasis on human resources and economic activities. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 3332. Geography of South and Southeast Asia.**

This course is a systematic and regional overview of the physical and human geography of the countries of the Indian subcontinent and Southeast Asia. Topics include the monsoons, cultural diversity, rapid economic development, agricultural systems, and environmental problems. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3333. Geography of East Asia.**

This course provides a regional overview of the physical and human geography of the countries of East Asia. This course also systematically examines the countries of this region by closely examining such topics as the impacts of high population densities and intensive land use practices. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3335. Oceanography.**

An introductory course about the physical, chemical, geologic, and biologic characteristics of the oceans and coastal areas. Emphasis will be placed on the role of the oceans as a component of the global environment. Prerequisite: BIO 1320 or BIO 1330 or GEO 2110 or GEO 2410 or GEOL 1410 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3340. Political Geography.**

Political geography concerns the interrelationship between political activities and spatial distributions. Topics include the concept of the state, international spheres of influence and confrontation, boundaries, contemporary world issues and problems, and geographic aspects of electoral politics.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3349. World Population.**

An in-depth study of the spatial distribution and movement of human populations. The course will emphasize current issues and analytical techniques. Topics will include the impact of population growth, spatial diffusion processes, migration trends and theories, explanation of regional demographic differences, and techniques such as population projections. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3351. Health Geography.**

This course introduces concepts of health, health care, disease, and illness from a geospatial perspective. The course examines how people and societies interact geographically with the natural, social, and built environment in ways that result in varying degrees of health. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 3353. American Ethnic Geography.**

A geographical analysis of ethnic groups in the United States with emphasis on their settlement patterns, spatial interactions, and current problems. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 3411. Maps and Mapmaking.**

An introduction to reference and thematic map use and design. The course introduces basic cartographic mapping techniques for quantitative and qualitative data, teaches about geospatial analysis and interpretation, and enables students to design basic maps. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 3416. Remote Sensing and Earth Observation.**

Introduction to the acquisition, mensuration, interpretation, and mapping of aerial photographs and satellite images for environmental monitoring and inventorying. Prerequisite: MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471 any with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 3425. Geomorphology.**

This course in Geomorphology investigates linkages between landscape forms and processes with emphasis on weathering, fluvial, aeolian, karst, and coastal processes. There will be various activities, including fieldwork, where students will demonstrate their grasp on fundamental processes in geomorphology. Prerequisite: GEO 2110 or GEO 2410 or GEOL 1410 any with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 3426. Advanced GIS.**

This course builds on the principles introduced in GEO 2426 and presents an in-depth examination of the technical aspects involved in spatial data handling, analysis, and modeling. Prerequisite: GEO 2426 and GEO 3301 both with grades of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 3434. Water Resources.**

This course analyzes within a geographical perspective, the formation, use, conservation, and management of water resources. The students will develop a working knowledge of the hydrologic, water quality, legal, economic, political, and societal factors that determine water availability, hazards, use, demand, and allocation. Prerequisite: GEO 2110 or GEO 2410 or [CHEM 1141 and CHEM 1341] any with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 4190. Independent Study.**

Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEO 4290. Independent Study.**

Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEO 4306. Geography of the Southwest.**

Though primarily defined by aridity, the southwestern United States is extremely diverse in its environments and its people. This course explores how people have related to this land. This course also examines current issues and future trends in natural resources and cultural processes in the region. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 4309. Cultural and Political Ecology.**

This course examines cultural and political ecology, which employs concepts of culture formation/change and biological ecology to understand processes of adaptation and the influences of social/political power. It provides a holistic means to interpret pre-modern, non-western, and agrarian cultures as well as modern cultures as relates to their biophysical environment. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4310. Regional Field Studies.**

Observation, description, and analysis of a geographical environment based upon offcampus study in that environment. May be repeated once, provided the second study is in a different region, for a total of 6 semester hours. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4313. Environmental Management.**

This course provides an analysis of the causes of environmental problems, from local to global scale, and the evaluation of attempts at management and solutions of those problems. Emphasis will be placed on the role that geography can play in environmental degradation and management. Prerequisite: [GEO 2110 or GEO 2410] and [GEO 3313 or GEO 3321 or GEO 3434 or GEO 4350 or GEO 4352] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4314. River Basin Management.**

The purpose of this course is to study principles and practices of large-scale river basin management. Emphasis is on integrated management of land and water resources, including economic development and environmental protection issues. (WI) Prerequisite: GEO 3434 or GEO 4325 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4316. Landscape Biogeography.**

Investigation of present-day and post-Pleistocene spatial patterns of plants, animals, and biogeographical processes. Human interactions with biogeographical patterns is also addressed, as are methods for reconstructing Holocene patterns of biogeographic distribution. Course to be taught over every other year. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4317. Water Resources Planning.**

This course examines water resources planning case studies related to water quality protection/mitigation and state/regional water supply planning from a policy practitioner's perspective. Students explore watershed and water supply planning to understand the elements involved, stakeholders, and strategy recommendations pursued including water-use conservation and efficiency measures. Prerequisite: GEO 3434 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4321. Cities and Urban Design.**

This course explores the interplay of intentional and natural processes shaping urban landscapes. It provides an introduction to the roles of spatial thinking and collaborative decision-making in urban planning and design. (MULT) Prerequisite: GEO 3310 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GEO 4322. Interpretive Environmental Geography.**

Students learn principles, themes, and techniques for effective interpretation of environmental information to audiences ranging from park visitors to professional conferences. Interpretive themes are drawn from geographic concepts including the physical and cultural landscapes and cultural ecology. Techniques emphasize effective use of traditional and digital presentation methods. (WI) Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4323. Conservation Leadership.**

This course offers an in-depth introduction to the conservation movement and the philosophy, establishment, and operation of institutions engaged in that movement. Problems and attributes of leadership will be emphasized along with the operational implications, ethical issues and other considerations for successful implementation at non-governmental, local, state, and federal levels.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4325. Fluvial Processes.**

Students analyze modern principles of river processes and forms within a geographical perspective. This course examines the fundamental mechanics of fluvial channels with an emphasis on quantitative geographic evaluation of their processes. The course emphasizes natural scientific perspectives and includes linkages to ecology, engineering, resources management, and policy. Prerequisite: GEO 3425 or GEO 3434 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4326. Parks and Protected Places.**

This course serves as an in-depth introduction to the philosophy, establishment, and operation of Public Parks, Wildlife Refuges, Protected Areas, Non-Governmental Preserves and Historic Sites. Students will be introduced to the scientific and policy rationale for the creation of such areas as well as methods of classification and acquisition.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4328. Geography of the Russian Realm.**

This course presents a regional and systematic overview of the physical and human geography of the countries of the former Soviet Union. The course examines in depth issues such as the legacy of the degraded landscape and environmental problems left by decades of Soviet industrialization. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4331. Geography of Food and Agriculture.**

This course critically evaluates local and global food systems, considering the implications of varying forms of production and consumption. Topics explored are related to sociocultural, economic, and environmental landscape change, the role of agriculture in both rural and urban places, and sustainability writ large. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4334. Groundwater Resources.**

This course examines, within a geographical perspective, the major concepts and principles that control groundwater availability and use. Students will analyze aquifer characteristics that determine water quantity and quality. Constraints on aquifer use including environmental, economic, societal, and legal factors will be analyzed for optimizing aquifer management and water-use policy. Prerequisite: GEO 3434 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4335. Directed Research.**

This course allows students to pursue advanced geographic research not offered in the present curriculum. Permission and project approval must be obtained from the supervising faculty member prior to registration. This course may be repeated for credit, but a student may not exceed six hours of credit.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEO 4336. Transportation Systems.**

This course is an examination of the evolution of urban transportation systems, policies, institutions, and methods in the United States. Principles, procedures, and techniques of transportation planning in the State of Texas are covered and students are introduced to the literature in transportation geography and methods of transportation analysis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4338. Planning Practicum.**

This capstone course focuses on methods and procedures used for planning and managing urban development on the local level. Topics include municipal ordinances, the development/redevelopment process and relationships between development, capital improvements and the local economy. Prerequisite: GEO 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4339. Environmental Hazards.**

Analysis of environmental hazards with respect to human use of the land. Includes geologic hazards and problems caused by floods and meteorological conditions. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4340. Fundamental Themes in Geography.**

Students will become familiar with the K-12 Geography Texas Essential Knowledge and Skills (TEKS) and the national geography content standards, identify instructional resources and materials, design instructional units, and fully develop grade level appropriate inquiry based lessons and student assessments. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4341. Water Policy.**

This course covers the evolution of water policy from the awareness of issues, through the political and legal process, to the implementation of specific plans, programs, and facilities. Prerequisite: GEO 3434 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4350. Solid Waste Planning and Management.**

A survey of the methods of solid waste disposal including waste storage, collection, transportation and disposal, and their short-and long-range effects on the environment. A practical course in the planning, implementation, and management of alternate methods of sanitary waste disposal. Prerequisite: GEO 2110 or GEO 2410 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4351. Geospatial Data Science and Health.**

This course examines how methods in geospatial data science can be used to study health outcomes from a geographic perspective, and how insights from these studies can be used to enhance population health efforts. Prerequisite: GEO 2426 and GEO 3301 and GEO 3351 all with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4352. Air Quality Management.**

This course provides an assessment and analysis of air quality including types, sources, and effects of air pollutants as well as principles governing their dispersal and management. These aspects are analyzed considering physical science, economic, legal and social factors.

Prerequisite: [CHEM 1141 and CHEM 1341] or GEO 2110 or GEO 2410 or GEO 3305 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4355. Geography of Crime.**

This course provides understanding of geographical aspects of crime and criminal behavior. Students are exposed to theories and analysis methods and models explaining and predicting crime spatial patterns. Computer exercises give students hands on experience on crime pattern analysis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4356. Urban Infrastructure Management.**

This course examines life-cycle management of technology-enhanced urban infrastructure. Buildings, transportation systems, water and waste treatment facilities, and energy and communication grids are considered. Sensor data and other factors are analyzed to establish repair and rehabilitation strategies to improve an asset's functionality, safety, and economic value. (WI) Prerequisite: CE 3360 or [GEO 2426 and GEO 3301] either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4380. Internship in Geography.**

On-the-job training in a public or private-sector agency. Students must apply to the department internship director at least six weeks prior to registering for the internship course. This course may be repeated one time for additional internship credit.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEO 4390. Independent Study.**

Individual study under direct supervision of a professor. May involve field trips. This course may be repeated for credit, but a student may not exceed six hours of credit in Independent Study.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEO 4393A. Environmental Compliance.**

This course examines the implementation and enforcement of environmental statutes and regulations from a geographic perspective that includes physical environmental, cultural, social, economic, and legal parameters. The course focuses on current environmental requirements as applied to contemporary regulatory challenges including widely applicable innovative compliance strategies. (WI) Prerequisite: GEO 3321 or GEO 3434 or GEO 4350 or GEO 4352 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4393B. Business Geography.**

This course provides an exploration of the geospatial analysis of business activities in the United States with emphasis on site location, market segmentation and material/product tracking.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEO 4393E. Race, Class, and the American City.**

This course examines historical and contemporary intersections of race and class as they have been shaped by and continue to influence urbanization in the United States while emphasizing geographical understandings of space and place. Topics include segregation, immigration, civil rights, housing, crime, race and the environment, community development, and cultural.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEO 4393F. Geographies of the Holocaust and Genocide.**

This course examines the Holocaust as a complex historical event and frames the Holocaust in the context of, and in comparison to, other genocides. The course is explicitly geographical in methods and subject matter, focusing on how the Holocaust and genocide are planned, implemented, and experienced differently in different places.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEO 4393G. Geographic Elements of Environmental Law.**

A survey of environmental laws related to land, air, and water pollution. The nature of environmental problems will be studied as they relate to urbanization, industrialization, land development, noise, radiation and solid waste management, and the laws and guidelines that have been passed to alleviate such problems. Prerequisite: GEO 3321 or GEO 3434 or GEO 4350 or GEO 4352 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4411. Advanced Cartographic Design.**

This advanced course in cartography focuses on thematic map design. The objective is to produce a cartographic portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments. Prerequisite: GEO 3411 with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 4412. Digital Image Processing and Machine Learning.**

This course is an introduction to the digital image processing of satellite scenes including restoration, enhancement, classification and machine learning, change detection, and mapping for environmental monitoring and inventorying. (WI) Prerequisites: GEO 3301 and GEO 3416 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**GEO 4417. Digital Terrain Modeling.**

The course focuses on the mapping, transformation, mensuration, visualization, and applications of digital elevation models in Geography. Prerequisite: GEO 2426 and GEO 3416 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 4420. GeoProgramming.**

This course develops advanced GIS concepts, techniques, analysis skills (e.g. spatial data manipulation), and provides hands-on experience with geoprocessing in GIS software programs. The course focuses on the application of basic programming skills to solve real-world GIS problems. Prerequisite: GEO 3426 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4422. Web Mapping.**

The course introduces students to modern interactive and dynamic mapping and GIS techniques that allow internet-based cartographic representations of temporal and non-temporal geospatial objects and phenomena. Prerequisite: GEO 3411 with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 4424. GPS and GIS.**

Students will learn to plan and conduct fieldwork using Global Positioning System (GPS) to differentially correct GPS data, and to build Geographic Information Systems (GIS) applications using GPS technology. The course is project-based and involves working with external client(s). Prerequisites: GEO 3411 or GEO 3426 either with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEO 4427. GIS Consulting Practicum.**

This course requires students to work on a substantive GIS project in partnership with external clients in the GIS workforce. Through project-based teamwork, students develop GIS career skills and demonstrate competence in GIS techniques at the professional level. Prerequisite: GEO 3426 with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEO 4430. Field Methods.**

Methods and techniques for observing, measuring, recording, and reporting on geographic phenomena are investigated in this course. Students will learn the use of instruments and materials in the collection of data for mapping and field research in the local area. (WI) Prerequisites: [GEO 2110 or GEO 2410] and GEO 3301 both with grades of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Geology (GEOL)

**GEOL 1410. Physical Geology.**

The study of materials making up the Earth, the processes that act upon them, and the results of these processes; the development of tools for the interpretation of earth's history and structure, and the major geologic concepts.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** GEOL 1403

**GEOL 1420. Historical Geology.**

A continuation of physical geology leading to consideration of the geologic history of the Earth (with special emphasis on North America), the evolution of life, the continents through geologic time and the principles and procedures used in the interpretation of earth history.

Prerequisite: GEOL 1410 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** GEOL 1404

**GEOL 3410. Sedimentation and Stratigraphy.**

This course will allow students to study the principles of weathering, transportation, deposition, and lithification of sediments. Primary structures and textures of sediments are used to determine environments of deposition. Students will identify the recognition and classification of strata into stratigraphic units. Prerequisite: GEOL 3450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEOL 3430. Structural Geology.**

This course examines the description, classification, and origin of Earth structures and the stresses involved in their formation. Students will explore solutions of structural geology problems using analytical geometry, geologic maps, contouring of data, and preparation of cross sections. Prerequisites: GEOL 1420 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Lab Required

**Grade Mode:** Standard Letter

**GEOL 3450. Earth Materials.**

This course provides an introduction to crystal chemistry, physical properties, and identification of major rock-forming minerals, sedimentary, igneous, and metamorphic rocks. It brings together wide-ranging fundamental and key concepts in mineralogy and petrology to understand rocks and minerals and how they relate to the broader Earth, materials and environmental sciences. Prerequisite: GEOL 1410 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GEOL 4121. Directed Study.**

Independent study of a particular subject area in geology. Specific topic to be discussed and agreed upon prior to registration. May be repeated once with different emphasis and professor for additional credit. Prerequisite: GEOL 1420 with a grade of "C" or better and instructor approval.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEOL 4320. Topics in Field Geology.**

This course provides on-site directed investigations of geology in locations remote from campus. Prerequisite: GEOL 1420 with a grade of "C" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 6 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**GEOL 4321. Directed Study.**

This course is designed to provide a student with an opportunity to conduct independent research for credit in consultation with his or her Geology instructors. The course may be repeated once with a different content or instructor. Prerequisite: GEOL 1420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**GEOL 4330A. Introduction to Petroleum Geology.**

This course discusses the origin and distribution of conventional and unconventional petroleum resources, source rocks, types of traps and seals, reservoir rock properties, exploration methods (seismic data analysis and interpretation, formation evaluation, subsurface mapping), reservoir characterization and modeling, reserves calculations. Prerequisite: GEOL 1420 with a grade of "C" or better. Corequisite: GEOL 4121 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEOL 4330B. Planetary Geology.**

This course is a survey of the application of geologic principles to the rocky planets and satellites in the solar system. Prerequisite: GEOL 1420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEOL 4330C. Survey of Economic Mineral Deposits.**

This is a survey of the geology of economic resource derived from the Earth including metals, nonmetals, energy related resources and ground water. Topics include genesis of economic deposits, methods of prospecting, methods of extraction, refining, and environmental impact. Prerequisite: GEOL 3450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEOL 4330D. Tectonics and Geology of the USA.**

Study of the geology of the USA from the tectonic point of view. The different tectonic processes including continental extension and formation of an ocean, convergence and mountain building, volcanism and seismic activity will be studied and illustrated using mostly examples based on the geology of the USA. Prerequisite: GEOL 1420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**GEOL 4421. Hydrogeology.**

This course will provide the student with an introduction to the science of hydrogeology, a conceptual and quantitative understanding of groundwater from a geological/mathematical/geochemical perspective, and experience with hydrogeology applications. (WI) Prerequisites: GEOL 1420 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Nature and Heritage and Tourism (NHT)

**NHT 4301. Planning and Development of Nature and Heritage Tourism.**

This course applies basic planning and development principles to the special issues of nature and heritage tourism. Particular emphasis is placed on locational analysis, site analysis, and planning for sustainable use. Prerequisite: GEO 2110 or GEO 2410 either with a grade of "C" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**NHT 4302. Internship in Nature and Heritage Tourism.**

Students will work in private or public sector settings to gain practical experience in the planning, development and management of nature and/or heritage tourism. NHT internships frequently require students to develop and deliver content (online and/or in-person) to increase recipients' awareness of and appreciation for geography and the environment. Students will be expected to perform at high professional standards and will interpret the internship experience within the context of current literature. Prerequisite: NHT 4301 with a grade of "C" or better.

**3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.**

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
- This major requires students to select a minor area of study from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>) offered at Texas State. Recommended minors are Nature and Heritage Tourism, Geographic Information Science, Geology, Anthropology, Sociology, Political Science, History, and Sustainability Studies; however, other minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.
- To satisfy graduation requirements, students must have at least a 2.50 Geography major GPA and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
- This major requires a minimum of 32 semester credit hours of Geography courses.
- Required Geography major courses include the following 14 hours:

Code	Title	Hours
GEO 1309	Introduction to Cultural Geography	3
or GEO 1310	World Geography	
GEO 2410	Introduction to Physical Geography	4
GEO 3301	Research Methods in Geography	3
Choose 4 hours from the following:		
GEO 2426	Fundamentals of Geographic Information Systems	
GEO 3411	Maps and Mapmaking	
GEO 3416	Remote Sensing and Earth Observation	
GEO 4430	Field Methods	

- Required Human Geography core (6 hours):

Code	Title	Hours
Choose 6 hours from the following:		
GEO 3303	Economic Geography	3
GEO 3310	Urban Geography	3
GEO 3340	Political Geography	3
GEO 3349	World Population	3

- Required Regional Geography course:

Code	Title	Hours
Choose 3 hours from the following:		
GEO 3307	Geography of Europe	3
GEO 3308	Latin America	3
GEO 3309	United States and Canada	3

GEO 3328	Geography of North Africa and the Middle East	3
GEO 3329	Geography of Texas	3
GEO 3332	Geography of South and Southeast Asia	3
GEO 3333	Geography of East Asia	3
GEO 4306	Geography of the Southwest	3
GEO 4310	Regional Field Studies	3
GEO 4328	Geography of the Russian Realm	3

- Additional Human Geography Requirements:

Code	Title	Hours
Choose 6 hours from the following:		
GEO 2310	Global Environmental Change	3
GEO 3323	Researching the City	3
GEO 3351	Health Geography	3
GEO 3353	American Ethnic Geography	3
GEO 4309	Cultural and Political Ecology	3
GEO 4331	Geography of Food and Agriculture	3
GEO 4393E	Race, Class, and the American City	3

\*Students may also choose courses from the Human Geography Core and Required Regional Geography lists that were not taken to satisfy those requirements.

- Geography required elective courses (3 hours) are to be selected in consultation with an academic advisor.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine hours of writing intensive (WI) courses are required for graduation.

**Total Hours: 120**

<sup>1</sup> Students must complete 6 hours of the same modern language (2310 and 2320). Most students complete 1410 and 1420 as prerequisites before attempting 2310.

<sup>2</sup> ENG Literature Courses: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), or ENG 2371

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- This major requires students to select a minor area from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>) offered at Texas State. Various minors may be appropriate depending on a student's interests and career goals.

Students are encouraged to meet with an academic advisor to review minor options and degree requirements.

- This major requires a minimum of 36 semester credit hours of Geography courses.
- To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 TXST GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
- Required major courses include the following:

Code	Title	Hours
GEO 1309	Introduction to Cultural Geography	3
or GEO 1310	World Geography	
GEO 2410	Introduction to Physical Geography	4
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 3301	Research Methods in Geography	3

- Required Geography core courses include the following:

Code	Title	Hours
GEO 3411	Maps and Mapmaking	4
GEO 3416	Remote Sensing and Earth Observation	4
GEO 3426	Advanced GIS	4

- Required 4000-level Geography includes at least three courses from the following:

Code	Title	Hours
GEO 4351	Geospatial Data Science and Health	3
GEO 4411	Advanced Cartographic Design	4
GEO 4412	Digital Image Processing and Machine Learning	4
GEO 4420	GeoProgramming	4
GEO 4422	Web Mapping	4
GEO 4424	GPS and GIS	4
GEO 4427	GIS Consulting Practicum	4
GEO 4380	Internship in Geography	3
or GEO 4430	Field Methods	

Students cannot take both GEO 4380 and GEO 4430 to count towards 4000-level requirement

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine hours of writing intensive (WI) courses are required for graduation.

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- This major requires students to select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>) offered at Texas State. Recommended minors are Biology, Chemistry, Geology, Anthropology, Computer Science, Mathematics, Plant and Soil Science, and Physics; however,

other minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.

- This major requires a minimum of 36 semester credit hours of Geography courses.
- To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
- Required major courses include the following:

Code	Title	Hours
GEO 1309	Introduction to Cultural Geography	3
or GEO 1310	World Geography	
GEO 2410	Introduction to Physical Geography	4
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 3301	Research Methods in Geography	3

- Required Geography core courses include the following:

Code	Title	Hours
GEO 2310	Global Environmental Change	3
GEO 3313	Natural Resource Use and Management	3
Select at least two of the following:		
GEO 3321	Energy Resource Management	
GEO 3434	Water Resources	
GEO 4350	Solid Waste Planning and Management	
GEO 4352	Air Quality Management	

- Required Geography capstone is GEO 4313.
- Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:

Code	Title	Hours
GEO 1305	Meteorology	3
GEO 3303	Economic Geography	3
GEO 3305	Climatology	3
GEO 3310	Urban Geography	3
GEO 3320	Community and Regional Planning	3
GEO 3335	Oceanography	3
GEO 3340	Political Geography	3
GEO 3349	World Population	3
GEO 3425	Geomorphology	4
GEO 3426	Advanced GIS	4
GEO 4309	Cultural and Political Ecology	3
GEO 4310	Regional Field Studies	3
GEO 4314	River Basin Management	3
GEO 4316	Landscape Biogeography	3
GEO 4322	Interpretive Environmental Geography	3
GEO 4325	Fluvial Processes	3
GEO 4326	Parks and Protected Places	3
GEO 4334	Groundwater Resources	3
GEO 4339	Environmental Hazards	3
GEO 4341	Water Policy	3
GEO 4380	Internship in Geography	3
GEO 4412	Digital Image Processing and Machine Learning	4

Students may select one regional course as a Geography Elective from the following:

GEO 3307	Geography of Europe
GEO 3308	Latin America
GEO 3309	United States and Canada
GEO 3328	Geography of North Africa and the Middle East
GEO 3329	Geography of Texas
GEO 3332	Geography of South and Southeast Asia
GEO 3333	Geography of East Asia
GEO 4306	Geography of the Southwest
GEO 4328	Geography of the Russian Realm

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine hours of writing intensive (WI) courses are required for graduation.

**Total Hours: 120**

<sup>1</sup> A Mathematics course may be chosen from the following to satisfy the Mathematics Component Code 020 for this major: MATH 1315 (TCCN MATH 1314), MATH 1317 (TCCN MATH 1316), MATH 1319 (TCCN MATH 1324), MATH 1329 (TCCN MATH 1325), MATH 2321 (TCCN MATH 1323), MATH 2417 (TCCN MATH 2412), or MATH 2471 (TCCN MATH 2413)

<sup>2</sup> An English Literature course may be chosen from the following to satisfy the Component Option Code 090/094 for this major: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), or ENG 2371.

**Minimum required: 120 semester credit hours**

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- This major requires students to select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>) offered at Texas State. Students interested in entering the professional planning field are strongly advised to consider a minor in Public Administration, Business Administration, or Construction Science and Management; however, other minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.
- This major requires a minimum of 36 semester credit hours of Geography courses.
- To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
- Required major courses include the following:

Code	Title	Hours
GEO 1309 or GEO 1310	Introduction to Cultural Geography World Geography	3
GEO 2410	Introduction to Physical Geography	4
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 3301	Research Methods in Geography	3

6. Required Urban and Regional Planning core courses include the following:

Code	Title	Hours
GEO 3310	Urban Geography	3
GEO 3320	Community and Regional Planning	3
GEO 3411	Maps and Mapmaking	4
GEO 4321	Cities and Urban Design	3
GEO 4338	Planning Practicum	3

7. Required Geography techniques courses include at least one course from the following:

Code	Title	Hours
Select one of the following:		
GEO 3411	Maps and Mapmaking	
GEO 3416	Remote Sensing and Earth Observation	
GEO 3426	Advanced GIS	
GEO 4380	Internship in Geography	
GEO 4430	Field Methods	

8. This major also requires an additional three hours of ENG 3303 with a grade of "C" or higher.

9. Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:

Code	Title	Hours
GEO 3303	Economic Geography	3
GEO 3323	Researching the City	3
GEO 3340	Political Geography	3
GEO 3416	Remote Sensing and Earth Observation	4
GEO 3426	Advanced GIS	4
GEO 4336	Transportation Systems	3
GEO 4356	Urban Infrastructure Management	3
GEO 4380	Internship in Geography	3
GEO 4393E	Race, Class, and the American City	3
GEO 4430	Field Methods	4

10. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

11. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

12. Nine hours of writing intensive (WI) courses are required for graduation.

<sup>2</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- This major requires students to select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>) offered at Texas State. Recommended minors are Biology, Chemistry, Geology, Political Science, Anthropology, Business Administration, Plant and Soil Science, and Nature and Heritage Tourism; however, other minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.
- This major requires a minimum of 36 semester credit hours of Geography courses.
- To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
- Required Geography major courses include the following:

Code	Title	Hours
GEO 1309 or GEO 1310	Introduction to Cultural Geography World Geography	3
GEO 2410	Introduction to Physical Geography	4
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 3301	Research Methods in Geography	3

- Required Geography core courses include the following:

Code	Title	Hours
GEO 3305	Climatology	3
GEO 3434	Water Resources	4
GEO 4314	River Basin Management	3
GEO 4325	Fluvial Processes	3
GEO 4334 or GEOL 4421	Groundwater Resources Hydrogeology	3
GEO 4341 or GEO 4317	Water Policy Water Resources Planning	3

- Required Geography elective course (3 hours) is to be selected in consultation with an academic advisor.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete

depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

- Nine hours of writing intensive (WI) courses are required for graduation.

1314), MATH 1317 (TCCN 1316), MATH 1319 (TCCN 1324), MATH 1329 (TCCN 1325), MATH 2321 (TCCN 2313), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).

- <sup>2</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- This major requires students to select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>) offered at Texas State. Recommended minors are Biology, Chemistry, Computer Science, Geology, Mathematics, and Physics; however, other minors may be appropriate depending on a student's interests and career goals. Students are encouraged to meet with an academic advisor to review minor options and degree requirements.
- This major requires a minimum of 36 semester credit hours of Geography courses.
- To satisfy graduation requirements, students must have at least a 2.50 major GPA for Geography and at least a 2.25 Texas State GPA. Students must make a grade of "C" or better in all Geography courses that are to be counted for credit toward their major.
- Required major courses include the following:

Code	Title	Hours
GEO 1309	Introduction to Cultural Geography	3
or GEO 1310	World Geography	
GEO 2410	Introduction to Physical Geography	4
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 3301	Research Methods in Geography	3

- Required Geography core courses include the following:

Code	Title	Hours
GEO 3305	Climatology	3
GEO 3425	Geomorphology	4
Select at least two courses from the following:		6
GEO 1305	Meteorology	
GEO 3335	Oceanography	
GEO 4316	Landscape Biogeography	
GEO 4325	Fluvial Processes	

- Required Geography techniques courses include at least two courses from the following:

Code	Title	Hours
GEO 3411	Maps and Mapmaking	4
GEO 3416	Remote Sensing and Earth Observation	4

GEO 3426	Advanced GIS	4
GEO 4412	Digital Image Processing and Machine Learning	4
GEO 4422	Web Mapping	4
GEO 4424	GPS and GIS	4
GEO 4430	Field Methods	4

- Geography electives to bring the required Geography hours to 36 should be selected in consultation with an advisor from the following courses:

Code	Title	Hours
GEO 2310	Global Environmental Change	3
GEO 2420	Introduction to Geographic Information Techniques	4
GEO 2427	Management and Implementation of GIS	4
GEO 3321	Energy Resource Management	3
GEO 3434	Water Resources	4
GEO 3349	World Population	3
GEO 4310	Regional Field Studies	3
GEO 4313	Environmental Management	3
GEO 4314	River Basin Management	3
GEO 4325	Fluvial Processes	3
GEO 4334	Groundwater Resources	3
GEO 4339	Environmental Hazards	3
GEO 4350	Solid Waste Planning and Management	3
GEO 4380	Internship in Geography	3

Student may select one regional course as a Geography Elective from the following:

GEO 3307	Geography of Europe	
GEO 3308	Latin America	
GEO 3309	United States and Canada	
GEO 3328	Geography of North Africa and the Middle East	
GEO 3329	Geography of Texas	
GEO 3332	Geography of South and Southeast Asia	
GEO 3333	Geography of East Asia	
GEO 4306	Geography of the Southwest	
GEO 4328	Geography of the Russian Realm	

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine hours of writing intensive (WI) courses are required for graduation.

**Total Hours: 120**

The minor in Environmental Studies requires 20-22 semester credit hours. The Environmental Studies minor is designed for students seeking to enhance their preparation for environmental careers or graduate work in environmental studies. Students majoring in Geography programs may not minor in this or other Geography minors.

Code	Title	Hours
<b>Required Courses</b>		
GEO 2410	Introduction to Physical Geography	4
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 2310	Global Environmental Change	3
or GEO 3313	Natural Resource Use and Management	

**Prescribed Electives**

Select 2 courses from the following: **6-7**

GEO 3321	Energy Resource Management
GEO 3434	Water Resources
GEO 4350	Solid Waste Planning and Management
GEO 4352	Air Quality Management

Select 1 course from the following: **3-4**

GEO 3301	Research Methods in Geography
GEO 3303	Economic Geography
GEO 3305	Climatology
GEO 3335	Oceanography
GEO 3340	Political Geography
GEO 3349	World Population
GEO 3411	Maps and Mapmaking
GEO 3416	Remote Sensing and Earth Observation
GEO 3425	Geomorphology
GEO 3426	Advanced GIS
GEO 4309	Cultural and Political Ecology
GEO 4316	Landscape Biogeography
GEO 4317	Water Resources Planning
GEO 4323	Conservation Leadership
GEO 4334	Groundwater Resources
GEO 4339	Environmental Hazards
GEO 4380	Internship in Geography

**Total Hours 20-22**

The minor in Geographic Information Science requires 23 semester credit hours. The Geographic Information Science minor is designed for students seeking to enhance their preparation for careers or graduate work utilizing geographic information science and geospatial techniques. Students majoring in Geographic Information Science may not minor in this program. Students majoring in other Geography majors who choose the GIS minor will not be able to count GEO 2426 and GEO 3301 for credit in both the major and the minor. Those courses will count toward the minor; therefore, Geography majors must take approved Geography elective courses to satisfy the minimum credit hour requirements for their major.

Code	Title	Hours
<b>Required Courses</b>		
GEO 2426	Fundamentals of Geographic Information Systems	4
GEO 3301	Research Methods in Geography	3
GEO 3411	Maps and Mapmaking	4

GEO 3416	Remote Sensing and Earth Observation	4
<b>Prescribed Electives</b>		
Select 2 courses from the following:		8
GEO 3426	Advanced GIS	
GEO 4411	Advanced Cartographic Design	
GEO 4412	Digital Image Processing and Machine Learning	
GEO 4420	GeoProgramming	
GEO 4422	Web Mapping	
GEO 4424	GPS and GIS	
GEO 4427	GIS Consulting Practicum	
GEO 4351	Geospatial Data Science and Health	
<b>Total Hours</b>		<b>23</b>

The minor in Geography requires 19 semester credit hours. Texas State Geography offers a wide range of content courses that can provide distinct career preparation and competitive advantages to many majors. Students pursuing a Geography minor may choose to focus their studies in these areas: Urban Planning and Land Development; Water Studies; Geographic Information Science; Regional International Studies; Physical Geography/Earth Science; Environmental Resource Management; or Cultural Geography and Demographics. Minors are encouraged to consult with a Geography Department Academic Advisor to select courses to design the Geography minor.

Code	Title	Hours
<b>Required Courses</b>		
GEO 2410	Introduction to Physical Geography	4
Choose 3 hours from the following:		3
GEO 1309	Introduction to Cultural Geography	
GEO 1310	World Geography	
GEO 3303	Economic Geography	
<b>Electives</b>		
Choose 12 hours of Geography courses, 9 of which must be at the advanced (3000-4000) level		12
<b>Total Hours</b>		<b>19</b>

The minor in Geology requires 23-24 semester credit hours. Geology is the science and study of the solid matter of the Earth, its composition, structure, physical properties, history, and the processes that shape it. A geology minor is an ideal complement to a number of majors in the natural, social, and applied sciences.

Code	Title	Hours
<b>Required Courses</b>		
GEOL 1410	Physical Geology	4
GEOL 1420	Historical Geology	4
GEOL 3450	Earth Materials	4
Choose 4 hours from the following:		4
GEOL 3410	Sedimentation and Stratigraphy	
GEOL 3430	Structural Geology	
Choose 7-8 hours from the following:		7-8
GEOL 4330A & GEOL 4121	Introduction to Petroleum Geology and Directed Study	
GEOL 4330C & GEOL 4121	Survey of Economic Mineral Deposits and Directed Study	

GEOL 4330D & GEOL 4121	Tectonics and Geology of the USA and Directed Study	
GEOL 3425	Geomorphology	
GEOL 4325	Fluvial Processes	
GEOL 3410	Sedimentation and Stratigraphy	
GEOL 3430	Structural Geology	
GEOL 4421	Hydrogeology	
<b>Total Hours</b>		<b>23-24</b>

The minor in Nature and Heritage Tourism requires 22 semester credit hours. Nature and Heritage Tourism is the most rapidly growing segment of the overall tourism industry. The minor in Nature and Heritage Tourism concentrates on planning, development and management of nature and heritage tourism activities that have a strong learning content.

Code	Title	Hours
<b>Required Courses</b>		
GEOL 2410	Introduction to Physical Geography	4
GEOL 4322	Interpretive Environmental Geography	3
GEOL 4326	Parks and Protected Places	3
NHT 4301	Planning and Development of Nature and Heritage Tourism	3
NHT 4302	Internship in Nature and Heritage Tourism	3
<b>Electives</b>		
Choose 6 hours from the following:		6
AG 3318	Agricultural Business Management	
AG 3321	Range Management	
AG 3351	Agricultural Marketing and Sales

As an undergraduate major, the discipline of History provides students with the knowledge and skills necessary to participate in our increasingly global society and economy. Emphasizing societies, cultures, and politics in the United States and around the world, the History Program helps to impart understandings of human motivation and interaction which form an essential background for all current activities whether they are in the realm of business, law, journalism, politics, education, or public history (i.e. National Park Service, museum work, historical restoration, etcetera). In addition to gaining knowledge in their subject areas, students also develop skills in intensive reading and expository writing, as well as in logical and analytical, evidence-based thinking. As a consequence, students acquire a variety of skills that make them highly adaptable and valued by today's employers.

## Academic Advising

The Department of History provides extensive academic advising services that include both group and individual advising. Through these sessions, the academic advisor can offer detailed program and course information, which can help students successfully complete their graduation requirements in a timely manner. All History majors are encouraged to seek advice about program requirements and course selection each semester. To schedule an appointment, please contact the History Department Office.

## Bachelor of Arts (B.A.)

- Major in History (p. 561)
- Major in History (Secondary Education; Teacher Certification in History, Grades Seven through Twelve, with Double Major in B.A. Education)
- Major in History (Secondary Education; Teacher Certification in Social Studies, Grades Seven through Twelve, with Double Major in B.A. Education)

- Major in History (Two Fields Teacher Certification in History, Grades 7-12) (p. 571)

## Minors

- History (p. 574)
- Peace and Social Justice (p. 575)
- Second Teaching Field in History (Grades 7-12) (p. 575)

## Courses in History (HIST)

HIST 2310 or HIST 2311, HIST 2320, HIST 2312, HIST 2327, HIST 2328, HIST 2381, and HIST 2382 are open to all students regardless of classification. However, it must be understood that HIST 2310 or HIST 2311 and HIST 2320 or HIST 2312 will not satisfy the legislative requirement in American history. Students majoring in fields other than history would be well advised to begin with HIST 1310, HIST 1320, HIST 2327, HIST 2328, HIST 2381, or HIST 2382.

---

### HIST 1310. History of the United States to 1877.

A general survey of the history of the United States from its settlement to the end of Reconstruction. (WI) (MULT) (MULP).

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** American History Core 060|Multicultural Perspective|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 1301

### HIST 1320. History of the United States, 1877 to Date.

A general survey of the history of the United States from Reconstruction to present. (WI) (MULT) (MULP).

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** American History Core 060|Multicultural Perspective|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 1302

### HIST 2310. Western Civilization to 1715.

A general survey of western civilization from earliest times to the end of the 17th century. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2311

### HIST 2311. History of World Civilization to the 17th Century.

A general survey of world civilization from the earliest times to the 17th Century. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2321

### HIST 2312. History of World Civilization from the 17th Century.

A general survey of world civilization from the 17th Century to the present. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2322

### HIST 2320. Western Civilization, 1715 to Date.

A general survey of western civilization from the Treaty of Utrecht to the present. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2312

### HIST 2327. History of Mexican America to 1865.

This course is a survey of the economic, social, political, intellectual, and cultural history of Mexican Americans/Chicanx to 1865. Topics the course addresses include: conquest and mestizaje; the rise and fall of native and African slavery; colonial Mexico's relationship to other global economies, the development of New Spain's/Mexico's northern frontier, how gender and power shaped the emergence of Mexican identities, independence movements, mission secularization, Texas independence, the U.S.-Mexico wars, and U.S. expansion and civil war.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** American History Core 060|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2327

### HIST 2328. History of Mexican America from 1865.

This course is a survey of the economic, social, political, intellectual, and cultural history of Mexican Americans/Chicanx since 1865. Topics the course addresses include: the making of borders and borderlands, the impact of the Treaty of Guadalupe Hidalgo, and uses gender to explain migration and citizenship and expulsion, nineteenth-century activism and displacement, industrialization and the making of a transnational Mexican working class, the Mexican Revolution, urbanization, WWII and organized advocacy, the Chicano Movement, changing identifications, globalization, and immigration restriction.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** American History Core 060|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2328

**HIST 2381. African American History to 1877.**

This course is a survey of the social, political, economic, cultural and intellectual history of people of African descent in the formation and development of the United States to the Civil War/Reconstruction period. African American History to 1877 includes the study of African origins and legacy, trans-Atlantic slave trade and the experiences of African Americans during the Colonial, Revolutionary, Early National, Antebellum, and the Civil War/Reconstruction Era. This course presents African American history as an integral part of U.S. History.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** American History Core 060|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** HIST 2381

**HIST 2382. African American History from 1877.**

This course is a survey of the social, political, economic, cultural, and intellectual history of people of African descent in the United States from the end of the Reconstruction period to the present. African American History since 1877 examines segregation, disenfranchisement, civil rights, migrations, industrialization, world wars, the Harlem Renaissance, and the conditions of African Americans in the Great Depression, Cold War, and post-Cold War eras. This course enables students to understand African American history as an integral part of US history.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** American History Core 060|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3310. History of Europe, 1815-1919.**

The background, course, and results of World War I, with emphasis on imperialism, diplomatic alliances, and nationalistic rivalries from the Congress of Vienna to the Paris peace settlements. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3311. History of Europe Since 1919.**

The rise of Communism, Fascism, and Nazism; the background of World War II, and the post-war problems of peace. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3312. Renaissance and Reformation.**

The cultural, political, and economic changes that marked the transition from the Middle Ages in Europe to the modern period; special attention to the decline of the medieval church and the Protestant revolt. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3313. Europe During the Old Regime, 1600-1760.**

A study of European society and institutions in the 17th and 18th centuries with special attention to the development of absolute and constitutional monarchy, the scientific revolution, and the intellectual ferment of the Enlightenment. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3314. Revolutionary Europe, 1760-1815.**

A study of the dynamics of revolutionary change in France and the rest of the European continent from the period of the Seven Years War through the fall of Napoleon Bonaparte. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3315. History of England to 1603.**

The development of the English nation from prehistoric times to the end of the Tudor Dynasty in 1603. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3316. History of England Since 1603.**

The English nation and the British Empire from 1603 through the modern era. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3317. U.S. Women's History to 1877.**

This course surveys the diversity of women's experiences in the United States from the colonial era to 1877. The social, economic, political, and intellectual realms of women's worlds, both public and private, are explored. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3318. U.S. Women's History since 1877.**

This course surveys the diversity of women's experiences in the United States from 1877 to the present. The social, economic, political, and intellectual realms of women's worlds, both public and private, are explored. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3319. History of Brazil.**

This course surveys the history of Brazil, from pre-Columbian times until the present, with a focus on the development of a national culture. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3320. History of Mexico.**

A survey of the national period of Mexican history from the independence movement to the present. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3322. Colonial History of Latin America to 1828.**

A study of the colonial period of Latin America from the early Spanish and Portuguese colonization to the beginning of the period of independence. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3324. Latin America from Independence to Present.**

This course examines the history of Latin America from independence to present. Explores the challenges of formation and consolidation of the new states; of economic policy and development; the rise of Populism and the age of reforms; revolutions and revolutionary movements; and present challenges. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3325G. Modern Revolutions in Latin American History.**

This course will focus on the historical antecedents and events surrounding the Mexican, Guatemalan, Cuban, Chilean, and Nicaraguan revolutions. The purpose is to analyze these five revolutions and to come to an understanding of the current problems facing Latin America. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3325I. Resistance and Rebellion in Colonial Latin America.**

This research-based course analyzes the political dynamics of resistance, rebellion, and social control within Latin American colonial societies, from the pax colonial of the seventeenth century to the Age of Andean Insurrection of the second half of the eighteenth century. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3325J. Diplomacy Seminar.**

A senior-level seminar that explores overarching topics in Diplomacy (including intelligence, negotiation, speech and report writing, protocol, and media and risk management) through reading, writing, research and group discussion. This course is a required capstone for all Diplomacy minors and should be taken in the last semester of minor coursework. Departmental Approval required. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3326. The Southern Cone of Latin America.**

A topical survey of Argentina, Chile, Brazil, and Uruguay which stresses the political balance, geopolitical interests, and forces of commonality and division that have influenced this region since the colonial period. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3327. History of Mexico to 1848.**

A survey of Mexico from prehistoric times to the Treaty of Guadalupe Hidalgo. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3328. Militarism in Latin America.**

This course provides an in-depth survey of militarism and the causes and processes of transition to democracy in Latin America. Students examine the major characteristics of different types of military regimes in Latin America with particular attention to the military regimes in Argentina, Chile, Brazil, and Uruguay, and their relinquishing of power for democratic transitions. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3329. Spanish Borderlands, 1521-1821.**

A survey of the history of the Spanish frontier in North America and its hinterlands from the earliest explorations to the end of Spanish rule in 1821. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3332. History of Early Modern Spain from 1492 to 1808.**

This course traces the history of Spain and its transoceanic empire from the reign of the Catholic Monarchs, Isabel I of Castile and Fernando II of Aragon, in the late fifteenth century to the Peninsular War against Napoleon's invading forces in the early nineteenth century. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3333. History of Modern Spain from 1808 to Present.**

This course covers over two hundred years of Spanish history, beginning during Europe's revolutionary era through Spain's fall into fascism, its transition to democracy and integration into the European Union. Students will engage with issues related to Spain's history and culture, considering issues of religion, race, gender, sexuality, nationalism, and class. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3335. Spain of the Three Religions: Muslims, Christians, and Jews in Premodern Iberia.**

This course covers the history of Muslims, Christians, and Jews in Spain from Islamic conquests in the 700s to expulsions of Jews and Muslims from the peninsula in the 1400s and 1600s. For most of this 900-year chronology, however, Muslims, Christians, and Jews lived in close proximity, sometimes as neighbors, causing scholars to dub this era as "Spain of the three religions." This class investigates the dynamics between these religious groups as they evolved across time, exploring themes like the politics of conversion, the role of gender in interfaith relations, intellectual exchange, and the relationship between royal authority and religion.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3337. History of U.S. Foreign Policy Making in the Muslim World.**

This course examines the history of U.S. foreign policy-making in the Muslim Middle East in the twentieth century by exploring selected incidents in the history of U.S. foreign policy towards the Middle East. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3338. History of Religion in India.**

This course surveys the historical development of religious traditions within India including Vedic, Buddhist, Jain, Hindu, Christian, Islamic, and Sikh traditions. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3340. History of the United States, 1877-1914.**

A survey of American history from the end of Reconstruction to the outbreak of World War I with an emphasis on the pertinent historical literature. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3341. History of the United States, 1914-1945.**

The study of American history from World War I through World War II with an emphasis on the pertinent historical literature. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3342. Social and Intellectual History of the United States, 1607-1865.**

A history of American culture, with emphasis on the development of religious, political, social, and philosophical ideas through the Civil War. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3343. Social and Intellectual History of the United States Since 1865.**

A study of the development of the United States after 1865, with emphasis on the social, political, economic, aesthetic, and philosophical ideas that have influenced contemporary American culture. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3346. The Civil War and Reconstruction.**

The history of the United States from the Compromise of 1850 through the election of 1876. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3349. The Constitution of the United States.**

An intensive study of the origin and development of the Constitution of the United States. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3352. Western America.**

A general examination of the Trans-Mississippi West, its major cultural, economic, political, and social frontiers, and its development as a region and as a national component, from 1803 to the present. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3353. The U.S. - Mexico Border and its Communities: A History.**

This course is a thematic examination of the region including Texas, California and the states that include the Great Basin, the Southern Rockies, and the Sonoran Desert from Mexican Independence in 1821 to the present. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3357. History of U.S. Foreign Relations.**

A study of American diplomacy since the Civil War. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3359. African American History.**

A survey of African-American history, 1619 to the present. Emphases include African and European backgrounds, hemispheric slavery, slavery in early America, the antislavery movement, the Civil War and Reconstruction, post-Reconstruction culture and society, and Civil Rights movement. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3363. Colonial North America to 1763.**

An intensive study of selected topics in the history of the settlement and expansion of British North America, including the development of the social, economic, and political life of the American colonies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3365. US Early Republic, 1788-1828.**

History of the early national era, 1788-1828, with emphasis on development of the first party system in American politics, the social and economic issues, the expansion of southern slavery, and the western frontier. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3366. Introduction to Public History.**

This course offers an introduction to the work of public historians who interpret history outside the classroom in settings like museums, historic sites, archives, and national parks. Topics explored in this course include: methods used by public historians to preserve historic buildings and exhibit museum collections; how to engage the public with the past through storytelling and digital history projects; and the challenges faced by public historians to mediate popular memory and myth. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368B. Law and Society in Early America.**

A survey of American law and society from its European antecedents to the mid-nineteenth century. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368E. United States Westward Expansionism, 1776-1861.**

This course examines the expansion of the United State across the North American continent from the time of the American Revolution to the beginning of the Civil War. Special attention will be devoted to the Louisiana Purchase, the annexation of Texas, the Mexican Cession of 1848, and the Gadsden Purchase. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368H. LBJ's America.**

This is a team-taught course covering LBJ's evolution as politician. Beginning with LBJ's early career, students will learn the New Deal/Rooseveltian roots of LBJ's political philosophy. Second, students will discuss LBJ's presidency, Great Society, and Civil Rights legislation. Lastly, students will study LBJ's Cold War politics, particularly the Vietnam conflict. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368J. The Space Race.**

This course traces the history of space exploration, focusing on the competition between the United States and Russia since the launch of Sputnik in 1957. Themes include the creation and role of NASA, the scientific and economic impact of rocket science, and the political use of the space program. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368K. American Cultural History.**

This course examines the history of specific expressive, popular, and symbolic forms of US culture in shaping American intellectual life, aesthetics, and material culture during the post- Civil War – mid 20th century period. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368L. History of Mexican American Music in the Southwest.**

This class will explore Mexican American Music in all of its forms as it has developed in the American Southwest. The course will begin with an historical review of the region. It will then explore, from Islamic Spain to the contemporary Southwest, the development of musical language, styles and fusions. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368M. Popular Music and Social Movements in 20th Century America.**

The examination of music as both a reflection of historical trends and a tool of social change will illuminate the relationship between music, culture, politics, and protest movements in 20th-century American history. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368P. The U.S. and Britain in the Sixties.**

This course explores the political, social and cultural changes experienced by Americans and Britons during the "long 1960s" (1955-1975). Students will examine key events in each country separately before focusing on the commonalities and differences. Special attention will be paid to the transfer of movements across the Atlantic. (WI) (MULT).

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368X. Organization of the Modern American State.**

This course analyzes changes in political culture, policies, and organizational dynamics that shaped the American state, 1870 - Present. It examines how interest groups, experts, and bureaucrats helped transform a weak American state into one that affects most parts of citizens' daily lives, despite America's traditional aversion to centralized power. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 3368Y. Walking in the Way of Peace, War & Slavery: Quakers in American History.**

From their earliest roles as agitators to the Puritan "Citty on a Hill" and as founders of Pennsylvania, "The Best Poor Man's Country," to their early embrace of abolition and notable pacifist resistance in the Revolution, Civil War, WWII and Vietnam the Society of Friends has played an out sized role in American History. This course will take a thematic approach to focus on several key points at the intersection of Quaker and American history, concentrating particularly on two issues: the Quaker relationship to slavery and the slave trade, and the Quaker response to warfare.

**HIST 4317. Tudor-Stuart England, 1485-1689.**

A study of the constitutional, social, political, and religious developments in England during the Tudor-Stuart dynasties. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4318B. Race in the Middle Ages: Exclusion and Belonging in the Mediterranean.**

This course will teach students how a constellation of physical, cultural, and religious characteristics became encoded with racializing meanings before the 17th c. In the diverse Mediterranean, people justified violence, privilege, exclusion, and belonging by constructing notions of sameness and difference. Medieval race-thinking appears in Christian and Islamic literature, religious texts on curses, blood purity statutes, human diversity in art, laws about women's chastity, and geographies of so-called 'monstrous races.' Delving into such sources, students will pursue research that investigates how the history of race and racecraft is deeply related to medieval definitions of power, morality, community, and identity.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**HIST 4350L. History of Southeast Asia.**

This course explores the region of Southeast Asia from its earliest origins through the periods of European colonialism, nationalism, revolution, and the transformation of old societies into new nations. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4350R. Workers and Work in the Arab World.**

Of 255 million people in 22 predominantly-Arab countries in North Africa and the Middle East, over the past 150 years, most have worked at some kind of job or another. In this course we will consider how labor politics introduce state regulations to gender, national and sexual identities. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4350T. Japanese Urban Life.**

Home to the world's largest city, Edo, at the end of the eighteenth century, Japan has been influenced over many centuries by a vibrant and distinctive urban culture. Through works of history, fiction, film, geography, and urban planning, this course introduces students to the characteristics and development of Japanese urban.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4350V. History of Pakistan.**

This course is an introduction to the history and culture of Pakistan. Broadly covering the 5000 year history of the region, from origins, the introduction of Islam and creation of the modern state, the course focuses on the cultural developments of the region, along with highlights of major political developments. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4350Y. Development of Secularism in Ottoman Empire and Modern Turkey.**

The emergence of Turkey as a secular state is a peculiar example among the countries with predominantly Muslim populations. This course aims to provide students with an historical survey of the secularization of the Ottoman state and the development that led to the emergence of modern Turkey.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4352. Black Women and Black Protest in America.**

This course traces the participation of Black women in every stage of Black protest in America from slavery and Reconstruction thru the Civil Rights and Black nationalist movements to present day. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4353. WWI: The Great War.**

This course covers the history of the First World War by examining the experiences of both soldiers and civilians across multiple continents. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4360. History of the United States, 1945 to 1968.**

A study of the interplay of economic, social, political, and cultural forces that shaped American society from the end of World War II to the presidential election of 1968. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4361. History of the United States, 1968 to the Present.**

A study of the interplay of economic, social, political and cultural forces that have shaped American society from 1968 to the present. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4362. Peace and Nonviolence Movements.**

This course explores the origins, development, and impact of peace and nonviolence movements globally. It examines the roles that religion, class, gender, race, ethnicity, and nationalism have played in shaping social and political perceptions of injustice and public attitudes toward movement goals.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4364. Military History of the United States.**

A specialized study of the military problems of the United States since 1789 and their impact upon non-military problems. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4365. Age of Revolution in North America, 1763-1789.**

A history of the American people during the age of the American Revolution, from the beginning of the crisis with Britain to the adoption of the Constitution. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4367. US Antebellum Era, 1812-1861.**

A survey of conflicting American attitudes about the desirability of a strong central government, rapid economic growth, aggressive national expansion, and human slavery in a democratic society. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4368. War and Society.**

A study of the relationship of war with social and cultural institutions from the 18th century to the present. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4369. Introduction to Ethnohistory.**

This course familiarizes students with the ethnohistorical method, a multidisciplinary approach to the study of the historical, social, and cultural processes undergone by indigenous peoples before, during, and after contact with nation-states. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4371. Introduction to American Indian History.**

This course promotes understanding of the role played by the native peoples of North America in the history of the United States. Among the subjects to be covered through lectures and discussions: initial migrations and cultural development; impact of European conquest; adaptation; removal and reservation life; 20th century adjustments. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4372. Latina/o/x Histories.**

This course is a survey of the political, economic, and social-cultural role of Latinas/os in the United States. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4373. Economic and Social History of the Americas.**

Comparative history of the Americas with special attention to the United States, Canada, and Mexico. Explores different patterns of economic growth and their impact on societies and international relations. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4374A. History of American Sexualities.**

This course examines the history of sexuality in the United States from the colonial period to the end of the twentieth century. The course emphasizes the diversity of sexual behaviors, the role of sexual regulation, and modes of thought in the past.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4374B. History Lab: European Cinema and Film Festival.**

In this course, students will collaborate on a significant faculty-directed research project or public history project as part of a team. Students will learn research methods, project design strategies, and implementation skills. Projects can include working on peer-reviewed research, symposium organization, and/or exhibitions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4375A. Critical Issues in Texas History.**

Emphasis will be on significant critical issues in Texas history. Topics will include: Mexican independence, Texas and U.S. expansion, the Texas Revolution and the Mexican War, the Civil War and Reconstruction, Spindletop, the Depression and WWII, and the rise of urban, high-tech Texas. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4375B. African-American Experience in Texas.**

People of African ancestry have played a role in Texas history since Estebanico accompanied Cabeza de Vaca in exploring the region in the 1530s. As slaves, soldiers, and cowboys, Afro-Texans have participated in the state's development while being at the center of controversies regarding rights, racemixing and economic opportunity. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4376. The History of Texas Music.**

Examination of the evolution of music in Texas and the American Southwest, emphasizing how music reflects the richly diverse ethnic and cultural heritage of the region. It also considers the importance of ethnic identity and other social, political, and economic factors in shaping the Southwest, its people, and its music. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4377. Social Justice and Reform Movements in the United States.**

This course introduces students to the history of U.S. social justice movements. It defines activism as individual, community, and political acts designed to create social, political, and economic change at both the local and national levels. The course explores a series of topics, including the Black Freedom Movement, Chicano Movement, Indigenous Peoples Movement, voting rights, labor movements, and student activism, among other topics in U.S. social movement history.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**HIST 4379. Internship in Public History.**

This course offers a supervised work experience related to students' career interests in historical institutions. Prerequisite: Departmental approval.

**3 Credit Hours. 3 Lecture Contact Hours. 8 Lab Contact Hours.**

**Grade Mode:** Credit/No Credit

**HIST 4380. Historical Resources and Practices.**

This course is required for students seeking teacher certification in History. This course is an introductory methods course designed to familiarize students with general historical practice and its application in secondary teaching. (WI) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4388. Problems in History.**

This is an independent study course open to advanced students on an individual basis. Repeatable for credit with different emphasis. (WI) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**HIST 4399. Senior Seminar.**

This course is required for History majors not seeking teaching certification. In this course students refine skills and techniques essential to the historical profession. Students analyze primary and secondary sources, apply methods, and write a term paper. Prerequisite: 24 semester credit hours in History with a grade point average of at least 2.25 in those hours. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

core-curriculum/) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. The History courses HIST 2327 (<http://mycatalog.txstate.edu/search/?P=HIST%202327>), HIST 2328 (<http://mycatalog.txstate.edu/search/?P=HIST%202328>), HIST 2381 (<http://mycatalog.txstate.edu/search/?P=HIST%202381>), and HIST 2382 (<http://mycatalog.txstate.edu/search/?P=HIST%202382>) are for general education core curriculum credit only and cannot apply toward the History major.

- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
- Nine hours of writing intensive (WI) courses are required for graduation.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- This major requires 33 semester credit hours including the following History courses:

Code	Title	Hours
HIST 1310	History of the United States to 1877	3
HIST 1320	History of the United States, 1877 to Date	3
HIST 2310	Western Civilization to 1715	3
or HIST 2311	History of World Civilization to the 17th Century	
HIST 2320	Western Civilization, 1715 to Date	3
or HIST 2312	History of World Civilization from the 17th Century	
HIST 4399	Senior Seminar	3
Advanced HIST electives		18
<b>Total Hours</b>		<b>33</b>

- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- In choosing advanced History electives, students are required to complete one course from Group A (World History), one course from Group B (European History), one course from Group C (U.S. History), and three courses from any Group as long as no more than three courses are taken from any one group. (See Group lists below).
- For transfer students, 12 semester credit hours in History (or equivalents) may be transferred from a Texas public institution of higher education for the History Field of Study and be applied to the Bachelor of Arts degree with a major in History at Texas State University. More information about the [Field of Study](http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
HIST 1310	History of the United States to 1877	3
TCCN: HIST 1301		
HIST 1320	History of the United States, 1877 to Date	3

## Minimum required: 120 semester credit hours

<b>GROUP D - HISTORY CAPSTONE AND TEACHER CERTIFICATION PREPARATION</b>		
HIST 4380	Historical Resources and Practices	3
HIST 4399	Senior Seminar	3

<sup>1</sup> Course is listed in multiple groups based on content from a variety of regions; however, such courses may only apply to one group upon completion.

<sup>2</sup> HIST 4388 is an independent study and may be applied to Group A, B, or C depending on content.

## Minimum Hours: 120 Semester Credit Hours

### Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (<http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/>).

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. The History courses HIST 2327 (<http://mycatalog.txstate.edu/search/?P=HIST%202327>), HIST 2328 (<http://mycatalog.txstate.edu/search/?P=HIST%202328>), HIST 2381 (<http://mycatalog.txstate.edu/search/?P=HIST%202381>), and HIST 2382 (<http://mycatalog.txstate.edu/search/?P=HIST%202382>) are for general education core curriculum credit only and cannot be applied to the History major.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (<http://mycatalog.txstate.edu/undergraduate/degree-program-information/>) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a "C".
6. This program is designed to prepare students for secondary teacher certification in History and requires students to pursue a second major in Education. The following courses are required for the major in History.

Code	Title	Hours
HIST 1310	History of the United States to 1877	3
HIST 1320	History of the United States, 1877 to Date	3
HIST 2311	History of World Civilization to the 17th Century	3
HIST 2312	History of World Civilization from the 17th Century	3
HIST 3372	Texas History: A Survey	3
HIST Group A - World History		3
HIST Group B - European History		3
HIST Group C - U.S. History		6
HIST Group A or Group B		3

HIST 4399	Senior Seminar	3
<b>Total Hours</b>		<b>33</b>

7. This degree program is designed to prepare students for secondary teacher certification in History and requires that students pursue a double major by declaring and completing requirements for both the major in History and the major in Education. The following courses are required for the major in Education:

Code	Title	Hours
Education Foundations:		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
Teaching and Learning:		
CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
Clinical Practice:		
EDST 4681	Clinical Teaching 7-12	6
<b>Total Hours</b>		<b>33</b>

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/) ([https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas\\_Educators%2FInvestigations%2FPreliminary\\_Criminal\\_History\\_Evaluation-FAQs%2F&data=02%7C01%7CCholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c12nfo4c82b5%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPk%3D&reserved=0](https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F&data=02%7C01%7CCholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c12nfo4c82b5%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPk%3D&reserved=0)).

9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list:

Code	Title	Hours
CI 2310	Education for Change	3
TCCN: EDUC 1301		

SPED 4344	Educating Students with Mild Disabilities	3
TCCN: EDUC 2301		

10. For transfer students, 21 semester credit hours in History may be transferred from a Texas public institution of higher education for the History Field of Study and be applied to the Bachelor of Arts degree with a major in History at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

<sup>1</sup> Course is listed in multiple groups based on content from a variety of regions; however, such courses may only apply to one group upon completion

<sup>2</sup> HIST 4388 is an independent study and may be applied to Group A, B, or C depending on content.

Minimum Hours: 121

Semester Credit Hours

Admission Requirements

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (<http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/>).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses. The History courses HIST 2327 (<http://mycatalog.txstate.edu/search/?P=HIST%202327>), HIST 2328 (<http://mycatalog.txstate.edu/search/?P=HIST%202328>), HIST 2381 (<http://mycatalog.txstate.edu/search/?P=HIST%202381>), and HIST 2382 (<http://mycatalog.txstate.edu/search/?P=HIST%202382>) are for general education core curriculum credit only and cannot apply toward the History major.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (<http://mycatalog.txstate.edu/undergraduate/degree-program-information/>) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum, the additional science may be satisfied through the completion of GEO 2410 in the major, and the second major in Education fulfills the minor requirement.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a “C”.
6. This program is designed to prepare students for secondary teacher certification in History Social Studies Composite and requires students to pursue a second major in Education. The following courses are required for the major in History Social Studies Composite:

Code	Title	Hours
HIST 1310	History of the United States to 1877	3
HIST 1320	History of the United States, 1877 to Date	3
HIST 2311	History of World Civilization to the 17th Century	3

<sup>1</sup> Course is listed in multiple groups based on content from a variety of regions; however, such courses may only apply to one group upon completion.

<sup>2</sup> HIST 4388 is an independent study and may be applied to Group A, B, or C depending on content.

## Minimum required: 129 semester credit hours

### Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. The History courses HIST 2327, HIST 2328, HIST 2381, and HIST 2382 are not allowed for History major credit. Those History courses are for general education core curriculum credit only.
3. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
4. Nine hours of writing intensive (WI) courses are required for graduation, which can be completed by courses in the major, minor, or general education core curriculum (not including ENG 1310, ENG 1320).
5. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
6. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
7. [The Texas Education Agency \(TEA\) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: \[https://tea.texas.gov/Texas\\\_Educators/Investigations/Preliminary\\\_Criminal\\\_History\\\_Evaluation-FAQs/\]\(https://tea.texas.gov/Texas\_Educators/Investigations/Preliminary\_Criminal\_History\_Evaluation-FAQs/\).](#)
8. This major is designed to prepare students for secondary teacher certification in History and a second teaching field. Students must complete all requirements associated with an approved second teaching field.
9. This major requires 33 History hours including the following History courses:

Code	Title	Hours
HIST 1310	History of the United States to 1877	3
HIST 1320	History of the United States, 1877 to Date	3
HIST 2311	History of World Civilization to the 17th Century	3
HIST 2312	History of World Civilization from the 17th Century	3
HIST 3372	Texas History: A Survey	3
HIST 4380	Historical Resources and Practices	3
Advanced History electives <sup>3</sup>		15
<b>Total Hours</b>		<b>33</b>

10. In addition to the major, minor, and second field requirements, students must also complete 21 hours of professional sequence courses under the College of Education. All coursework must be completed prior to EDST 4681.
11. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA. A GPA of at least 2.50 in all assigned courses in the professional sequence with no grade below a "C".
12. For transfer students, 21 semester credit hours in History (for the teacher certification track) may be transferred from a Texas public institution of higher education for the History Field of Study and be applied to the Bachelor of Arts degree with a major in History at Texas State University. More information about the [Field of Study \(http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/\)](http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Choose 12 hours of advanced History courses <sup>1</sup>		12
<b>Total Hours</b>		<b>24</b>

<sup>1</sup> In choosing advanced electives, students are required to complete one course from Group A (World History), one course from Group B (European History), one course from Group C (U.S. History), and one additional course from any Group.

The minor in Peace and Social Justice Studies requires 18 semester credit hours. This minor is an interdisciplinary minor in that focuses on practical questions of how to realize peace and justice in the everyday world. It is designed to provide students with a historical perspective on injustice and corresponding movements for social justice and on the philosophy and methods of nonviolent protest and conflict resolution. It cultivates the knowledge and skills necessary to build peace with justice locally, at the family and community level, while also preparing students for a wide range of occupations in governmental and nongovernmental organizations that focus on diplomatic problem-solving and mediation of disputes.

For students who are seeking a teacher certification within their major and would like a second teaching field in History, the requirements are:

Code	Title	Hours
HIST 1310	History of the United States to 1877	3
HIST 1320	History of the United States, 1877 to Date	3
HIST 2311	History of World Civilization to the 17th Century	3
HIST 2312	History of World Civilization from the 17th Century	3
HIST 3372	Texas History: A Survey	3
HIST 4380	Historical Resources and Practices	3
Select one from Group A (World History)		3
Select one from Group B (European History)		3
Select one from Group C (U.S. History)		3
<b>Total Hours</b>		<b>27</b>

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

The two disciplines that have a home in this department, Philosophy & Religious Studies, raise some of the most fundamental questions about our world and ourselves-questions about the nature of reality, knowledge, morality, God, and society. Students study the thinking of major scholars on such matters and learn to think critically and clearly on

their own. Our small classes cultivate student-faculty mentoring, research and learning. Our faculty - professional philosophers and scholars of religion, authors and leaders in the field - work one-on-one with students, encouraging independent research and professional preparation. And our co-curricular activities and organizations build strong rapport and camaraderie between our students, most notably by participation in dialogue. By fostering a love of learning, an appreciation of the value of critical and reflective thinking, and a collaborative intellectual community; we help prepare our students to become engaged, reflective citizens and lifelong learners while preparing them for graduate study or careers in government, law, the non-profit sector, business, or education.

The Department of Philosophy serves our majors and minors by providing an intensive and flexible course of study through which they rigorously engage in reflection and dialogue, logical analysis, conceptual interpretation, and develop and critique texts, arguments, and ideas. We help them develop a broad competence in critical thinking and analysis of arguments. Philosophy and Religious Studies students pursue the study and understanding of many different positions and perspectives, and are encouraged to consider the relevance of their course of study for their post-graduate plans.

Since philosophy is the home of the study of logic and the principles of good argumentation, it lends itself well to being joined with virtually any course of study as a second major or a minor. Philosophy students are highly valued for their communication skills, their ability to make ethical decisions and their adaptability in new situations. Through the study of philosophy, we learn how to explain why we know what we know and believe what we believe. Not only does this ability make us stand out as citizens and leaders, it also helps us navigate life's choices and better understand our world.

Religion intersects with all areas of culture including politics, science, economics, and law. This intersection of religion and culture is reflected in a wide variety of careers pursued by Religious Studies graduates across the spectrum of cultural work, human services, education, and the arts, such as hospital chaplaincies, secondary education, legal support work, and journalism. Furthermore, the conditions of globalization mean that there will be increasing demand for job candidates who can negotiate culturally diverse work environments. Knowledge of the world's religions is needed in business, law, health, law enforcement, and politics both national and international. Religious literacy is essential to responsible citizenship, and increasingly demanded by employers.

Our graduates have pursued careers in business, journalism, law, medicine, education, public safety, and the arts. In these cases, our former students realize that the successful practitioner is a good thinker, a clear communicator, and a culturally aware and morally responsible person. The courses of study offered in this department offer opportunities for all students to develop their critical and creative powers. Some of our students develop an interest in becoming professional philosophers or scholars of religion, and enroll in some of the nation's best graduate programs in philosophy or religious studies.

For those students with special interests in a particular area, the department offers the following recommendations:

## Pre-Professional Study of Philosophy

Students interested in pursuing graduate work in philosophy are advised to complete the B.A. with a major in Philosophy and to take:

Code	Title	Hours
PHIL 3320	Ethics	3
PHIL 3340	Philosophical Logic	3
PHIL 4356	Philosophy of Knowledge	3
PHIL 4370	Metaphysics	3

Students with a primary interest in Western thought should also develop a language proficiency in Spanish, French or German. Those interested in Asian philosophy are advised to study Japanese or Chinese, and those who wish to pursue Medieval or Islamic thought should study Arabic.

## Pre-Law and the Study of Philosophy

Pre-law students frequently pursue an undergraduate major in philosophy, often as a second major. Given the importance that both philosophy and law attach to analysis, argumentation, and the evaluation of evidence, adding a major in philosophy serves students well as they prepare and complete entrance exams and interviews, and also in the study and practice of law. Pre-law students should also consider taking the following courses:

Code	Title	Hours
PHIL 2330	Elementary Logic	3
PHIL 3320	Ethics	3
PHIL 3322	Professional Ethics	3
PHIL 3331	Philosophy of Law	3
PHIL 3332	Social and Political Philosophy	3

## Pre-Med, Pre-Dental and Professional Preparation for a Career in the Health Professions:

Students interested in a career in medicine or healthcare are advised to complete the minor in Medical Humanities.

## Pre-Professional Study in Religious Studies for A Career In Healthcare Chaplaincy:

Students interested in pursuing a career in Healthcare Chaplaincy are advised to complete the B.A. with a major in Religious Studies and to take:

Code	Title	Hours
Required Courses		
REL 1300	World Religions	3
REL 2330	What is Religion?	3
REL 4300	Advanced Methods in Religious Studies	3
Prescribed Electives		
Group A: REL 3386		
Group B: REL 2315		
Group C: REL 2360		
Group D: PHIL 3317		
Group E: REL 3390; PHIL 3324; REL 4388		
Electives: PHIL 4327; ANTH 3325; ANTH 3311; GEO 3351; SOCI 3363		
Recommended Minors: Aging and the Life Course, Anthropology, Health Communication, Medical Humanities, or Philosophy.		

## Pre-Professional Study in Religious Studies for A Career In Cultural Services:

Students interested in pursuing a career in Cultural Services are advised to complete the B.A. with a major in Religious Studies and to take:

Code	Title	Hours
Required Courses		
REL 1300	World Religions	3
REL 2330	What is Religion?	3
REL 4300	Advanced Methods in Religious Studies	3
Prescribed Electives		
Group A: REL 2360		
Group B: REL 2350		
Group C: REL 3342		
Group D: HIST 3374B; SOCI 3375P		
Group E: REL 3340; REL 3370; PHIL 3324; ARTH 4321X		
Electives: HIST 3368K		
Recommended Minors: African-American Studies, Art History, Dance, English, History, Latina/o Studies, Literature, Music, Theatre, or Writing		

## Pre-Professional Study for A Career in Communication About Religion:

Students interested in pursuing a career in Communication About Religion are advised to complete the B.A. with a major in Religious Studies and to take:

Code	Title	Hours
Required Courses		
REL 1300	World Religions	3
REL 2330	What is Religion?	3
REL 4300	Advanced Methods in Religious Studies	3
Prescribed Electives

Group B: REL 2350		
Group C: ANTH 3335		
Group D: REL 3361A; PS 4327		
Group E: PHIL 3317; REL 3340; REL 3330; REL 4388		
Electives: COMM 3318U; MC 3355		
Recommended Minors: Art History, Communication Studies, Journalism, Mass Communication, Media Studies, Theatre, or Writing		

## Bachelor of Arts (B.A.)

- Major in Philosophy (p. 585)
- Major in Religious Studies (p. 586)

## Minors

- Medical Humanities (p. 588)
- Philosophy (p. 588)
- Religious Studies (p. 588)
- Value Studies (p. 589)

Subjects in this department include: PHIL (p. 577), REL (p. 582)

## Courses in Philosophy (PHIL)

**PHIL 1305. Philosophy and Critical Thinking.**  
A study of universal philosophical problems and their solutions with a view toward developing clear thinking about knowledge, belief, and value. Approximately one half of this course will focus on the student's critical thinking skills. Credit cannot be given for both PHIL 1305 and PHIL 3301. (WI).  
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Lang, Phil & Culture Core 040|Writing Intensive  
**Grade Mode:** Standard Letter  
**TCCN:** PHIL 1301

**PHIL 1320. Ethics and Society.**  
Study of ethics, its recent focus on social problems, and new fields of inquiry, including environmental ethics, ethics in business, professions, technology and sport. Also such global issues as poverty, minority rights, and stem cell research. Emphasis on development and application of principles of critical thinking and moral reasoning. (WI).  
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Lang, Phil & Culture Core 040|Writing Intensive  
**Grade Mode:** Standard Letter  
**TCCN:** PHIL 2306

**PHIL 2311. History of Philosophy Before 1600.**  
Early Greek, Roman, and medieval systems of thought. (WI).  
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter  
**TCCN:** PHIL 2316

**PHIL 2312. History of Philosophy Since 1600.**  
Modern philosophical thought through the 19th century. (WI).  
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter  
**TCCN:** PHIL 2317

**PHIL 2330. Elementary Logic.**  
A study of the nature and forms of correct reasoning, both deductive and inductive.  
**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**  
**Grade Mode:** Standard Letter  
**TCCN:** PHIL 2303

**PHIL 3314. American Philosophy.**

Examination of contributions of Americans to perennial philosophical issues. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3315. Contemporary Philosophy.**

Selected readings in late 19th and 20th century philosophy: existentialism, positivism, analytic philosophy, phenomenology, and pragmatism. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3316. Existentialism and Phenomenology.**

A study of the nature of human experience and existence in the philosophies of Kierkegaard, Nietzsche, Husserl, Heidegger, Sartre, Merleau-Ponty, and Camus. Topics will include freedom, dread, emotion, death, other minds, faith, and the past as experienced by the individual. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3317. Science and Religion.**

An examination of modern science and religion, and an analysis of the issues and ideas involved in the relationships between them. (WI) (MULT) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3318. Reason, God, and Nature.**

This course is an analysis of the concept of God, terms predicated on God, and theological propositions. Topics include determining the nature of religious utterances and comparison of religious claims with those of everyday life, scientific discovery, morality, and imaginative expression. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3320. Ethics.**

This course is a study of classical and contemporary philosophical inquiries into our knowledge of the "good" and the grounds of moral obligation. (WI) Prerequisite: [PHIL 2311 or PHIL 2312] and PHIL 2330 both with grades of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3321. Contemporary Moral Problems.**

This course is an exploration of philosophical dimensions of contemporary moral problems such as abortion, euthanasia, poverty, animal rights, nuclear war, and privacy in a computer age. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3322. Professional Ethics.**

This course is a study of major topics in business and professional ethics, including what a profession is, whether it differs from business, and what is involved with the moral education, social responsibilities, and ethical standards of professionals and business people. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3323. Environmental Ethics.**

Study of ethical issues associated with the environment including nature, use, preservation, and restoration of the environment.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PHIL 3324. Meaning of Life.**

Investigation of major theories of the meaning of life in Western and Eastern philosophies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3325. Philosophy of Sex and Love.**

Critical survey of major thinking on sex and love from ancient to modern times. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3326. Philosophy and Sport.**

This course is an examination of philosophical issues in sport, including the social significance of sport, ethical issues, gender equity, sport and race, mind and body in sport, aesthetics, sport and self-knowledge, and the connection of sport and philosophy. (WI) (MULT) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3331. Philosophy of Law.**

This course is an examination of the major theses which have been set forth in the history of jurisprudence including foundations of law, natural law, legal positivism, and the judicial process. (WI) Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3332. Social and Political Philosophy.**

This course is a critical examination of major theories concerning the organization of societies and governments. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3333. Feminist Theory.**

In this course students examine major feminist theories including liberal feminism, Marxist feminism, radical feminism, and post-modernist feminism with an eye especially to revealing the complexity and diversity of contemporary feminist thought. (MULT) (WI). Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 or WS 3376 or WS 3377 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3334. Philosophy of Economics.**

In this course students are introduced to the various theoretical frameworks that have and continue to inform scholarship in philosophy of economics. Participants explore differences and commonalities between distinct theoretical traditions (including liberal, Marxist, post-structuralist, positivist, neo-liberal, rational choice) and learn to critically examine the nature of economic phenomena and the possibilities of knowledge in economics. Participants also develop tools to appraise economic outcomes, institutions, and processes. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 3340. Philosophical Logic.**

Study of the logic of propositions through propositional calculi, formal proofs, and first-order functional calculi. Also included is an investigation into the philosophical assumptions and implications of formal systems and the axiomatic method as used in logic and mathematics, including the concepts of completeness and consistency. Prerequisite: PHIL 2330 or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PHIL 3351. Philosophy and Literature.**

The course explores the relation between philosophy and literature.

(WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4301. Applied Philosophy.**

This course explores the practical application of methods and teaching of philosophy to religion, science, morality, politics, art, or literature. The study of one or more of these areas will demonstrate how philosophy contributes to the identification of issues as well as their resolution.

(WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4302. Dialogue.**

Study of literature about the nature, purpose, and significance of dialogue along with active participation in the dialogues of the Department of Philosophy's Dialogue Series. (WI) Prerequisite: PHIL 1305 with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4303. Philosophy of Technology.**

This course is a study of philosophical and ethical dimensions of technology including the nature of technology and technological progress, the relation of humans to the technological environment, whether technology is value-laden, and the social character of technology. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4304. Philosophy of Language.**

Students will examine the nature, structure, and uses of language and its role in conceptualizing and attempting to solve perennial philosophical problems. Features of language such as meaning, reference, truth, verification, and speech acts will be investigated and applied to issues of metaphysics and ontology, epistemology, ethics, and theory construction. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4327. Bioethics.**

In this course students will study ethical issues, dilemmas, codes of conduct, and social responsibilities of health care professionals and bioresearchers. Additionally, students will critically examine issues of ethics and justice in healthcare systems, clinical practice, and biotechnology. (WI) Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4350. Philosophy of the Arts.**

This course is a critical and historical analysis of the nature of aesthetic experience and creative genius. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4351. Philosophy of Education.**

Study of major philosophical theories on nature, values, and purpose of education. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4355. Philosophy of Science.**

This course is a study of the major theories concerning the nature and value of science and the scientific method. (WI) Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4356. Philosophy of Knowledge.**

This course is a study of the major theories concerning knowledge, belief, certainty, and perception. (WI) Prerequisite: [PHIL 2311 or PHIL 2312] and PHIL 2330 both with grades of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4360A. Ethics and Dementia.**

This course provides an opportunity to examine ethical challenges posed by dementia for those with dementia, family members, caregivers, healthcare systems, policy makers, and others. Participants will critically explore ethics and dementia in clinical, social/cultural, everyday life, policy, end-of-life, and individual perspectives. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4360B. Moral Psychology.**

This course provides an introduction to the major theories, issues, and research relevant to the field of moral psychology. Drawing from a variety of fields—philosophy, social psychology, cognitive psychology, developmental psychology, and evolutionary theory—we will investigate what morality is, how it develops, and how it functions in society.

Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4360C. Philosophy, Nonviolence, Sustainability, and Social Change.**

In this course students will study themes and concepts related to nonviolence, sustainability, and social change. Participants will critically examine the works of thinkers such as Thoreau, Addams, Tolstoy, Gandhi, King, and Chavez. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4360D. Military Ethics.**

This course is a systematic study of ethical issues in military life and military action, and of such concerns as the relation of the military to the nation state and the relation of the military to civil society. Additional topics include ethical issues in cyber warfare, the military and privacy, and ethical issues of military life and actions across cultures and nations. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4360E. Ethics and Philosophy of Friendship.**

In this course students explore the nature, meaning, and theories of friendship. Participants examine historical and contemporary accounts of friendship, with special attention given to the ethical dimensions of each account. Additional topics include the intersection of friendship with marriage and partnership, professional relationships, work, disabilities, race, sexuality, and religion. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4360F. Biopolitics, Governmentality, and Ungovernability.**

This course is an introduction to (1) biopolitics, or the government of life, (2) governmentality, or the frameworks, modalities, and mechanisms of governance, and (3) ungovernability, or the limits of and resistances to governance.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4361A. Philosophy of Biology.**

In this course students will explore foundational questions in biology concerning the justification of biological theories, methods and concepts. Possible topics include concepts of fitness, units of selection, adaptationism, species, phylogenetic inference, homology, developmental systems, neuroscience, behavioral evolution, cooperation, altruism, evolutionary psychology, evolutionary ethics, cultural evolution, and race and gender. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4361B. Philosophy of the Human Sciences.**

This course is a survey of current debates about the structure, nature, role, methodologies, scope, and aim of the human sciences. Prerequisite: Phil 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4361C. Philosophy of Emotion.**

In this course students examine the understandings of emotions as developed in the history of philosophy, including topics such as somatic theories, cognitive theories, and philosophical accounts of feelings, mood, and other affective experiences. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4361D. Philosophy of Mind.**

In this course, students analyze historical and contemporary philosophical attempts to explain the mind. Prerequisite: PHIL 1305 or PHIL 1320 with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4361E. Philosophy and Ethics of Virtual Reality.**

In this course, students investigate philosophical and ethical issues in virtual reality.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4361F. Ethics of Artificial Intelligence and Big Data.**

In this course, students will explore ethical dimensions of Artificial Intelligence and Big Data.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4362A. History of Analytic Philosophy.**

Students in this course will examine major thinkers, works, theories, and problems of analytic philosophy. Topics will include the philosophy of language, logic, philosophy of mathematics, philosophy of mind, philosophy of science, metaphysics, epistemology, ethics, metaethics, and philosophical methodology. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4362B. 19th-Century Philosophy.**

This course offers a detailed introduction to central figures of 19th-century European philosophy such as Hegel, Marx, Kierkegaard, and Nietzsche in the context of their responses to the Enlightenment, the condition of modernity, the growth of democracy, nationalism, capitalism, Darwin, secularization, and the critical project of Kant. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4362C. Late 20th Century French Philosophy.**

This course offers a detailed introduction to central figures of 20th-century French philosophy such as Derrida, Foucault, Bergson, and Sartre in the context of their responses to technology, war, the condition of modernity, the growth of democracy and the so-called European Project.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4363A. Philosophy and Science Fiction.**

In this course students will examine intersections between philosophy and science fiction around topics such as the nature of reality, the existence and nature of the divine, the limits of human knowledge, the meaning of free will, the notions of personhood, the nature of morality, and the meaning of life. Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4370. Metaphysics.**

This course is a systematic study of metaphysical problems by examination of classical and modern texts. Topics considered will involve being and unity, mind and matter, God, causation and necessity, free will and determinism. (WI) Prerequisite: [PHIL 2311 or PHIL 2312] and PHIL 2330 both with grades of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4371. Asian Philosophy.**

The course covers mainly Chinese and Indian philosophy, such as Confucianism, Taoism, Buddhism. How do people in the orient look at the meanings of life, the nature of the world and their place in the world? This course shall shed light on these issues. May be repeated for credit. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4372. Latin American Philosophy.**

Study of ancient Latin American thought, including Mayan, Aztec, Toltec, and Incan, pre- and post conquest Latin American philosophy, contemporary Latin American philosophy, and the thinking of Latin Americans in the U.S. (WI) (MULT) Prerequisite: PHIL 1305 with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4373. Themes in Africana Philosophy.**

In this course students will examine philosophy and philosophical practice as it emerges from the historical experiences of African Americans and the African Diaspora. Participants in the course will evaluate how the African-American philosophical tradition alters conventional philosophical accounts of subjectivity, knowledge, time, language, history, embodiment, memory, and justice. (WI) (MULT) Prerequisite: PHIL 1305 or PHIL 1320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PHIL 4388. Problems in Philosophy.**

Independent study of specific problems in philosophy. Open to students on an individual or small group basis by arrangement with the Department of Philosophy. Problem area, bibliography, and study paper outline are to be approved by the instructor. May be repeated once for additional credit. Prerequisite: PHIL 1305 or PHIL 1320 or PHIL 2311 or PHIL 2312 or PHIL 2330 any with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

## Courses in Religion (REL)

**REL 1300. World Religions.**

This course is a survey and comparative study of some of the major religious traditions and practices of the world including Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, Confucianism, and the Indigenous Religions. Students learn to analyze problems from different perspectives, and gain skills useful for working with diverse populations. Recommended as an entry course for religious studies minors. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**TCCN:** PHIL 1304

**REL 2310. Introduction to the Hebrew Bible.**

An introduction to the contemporary academic study of the Hebrew Bible ("Old Testament") and related Near Eastern and Second Temple Jewish literature. Representative texts will be examined using the historical and literary methods of scholarship. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**REL 2315. Introduction to the New Testament.**

An introduction to the contemporary academic study of the New Testament, including apocryphal and post-canonical works. Representative texts will be examined using the historical and literary methods of scholarship.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**REL 2321. Founders, Prophets and Saints.**

Critical analysis of the life, works, and thought of a major religious figure, e.g., Jesus, Paul, Luther, St. Teresa, Maimonides, the Baal Shem Tov, Mohammad, al-Ghazzali, Rumi, Buddha, Gandhi. May be repeated for credit. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**REL 2330. What is Religion?.**

In this course, students examine different theories and claims about what religion is and does. Participants examine competing views and approaches to see what is persuasive. Students are introduced to methodologies in religious studies, learn to analyze problems from different perspectives, develop critical thinking competencies, and gain skills useful for working with diverse populations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**REL 2350. Mediterranean and European Religions.**

This course is a survey of religions that originated in the Near East, Mediterranean, and Europe, with emphasis on the ancient to medieval periods. The course includes Judaism, Christianity, and Islam, in the contexts of Egyptian, Persian, Greco-Roman, and old European traditions. Students learn to analyze problems from different perspectives, and gain skills useful for working with diverse populations. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**REL 2360. Asian Religious Traditions.**

This course is a survey of the major religious traditions originating in Asia: Hinduism, Buddhism, Taoism, and others. Basic doctrines and practices will be covered in an historical framework. Students learn to analyze problems from different perspectives, and gain skills useful for working with diverse populations. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**REL 3320. Judaism.**

This course surveys the history, practices, core texts, and major movements of Rabbinic Judaism, from the destruction of the Second Temple to the contemporary global scene. Some attention is also given to earlier Israelite religion, dissident movements, mysticism, and Jewish communities beyond the Euro-American zone.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**REL 3330. Religious Controversy in America.**

Students in this course analyze religious controversies and crises in America from the colonies to the present in order to interpret the role of religion in American history, culture, law, and politics. Topics include the Salem Witch Trials, the Jim Jones massacre, and Ten Commandments monuments on government property. Students develop communication competencies and learn to critically interpret data (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**REL 3335. Cults and New Religious Movements.**

This course investigates New Religious Movements (NRMs) primarily within the contemporary American context. Controversial and emerging religions can be approached from many angles. Accordingly, the course introduces students to a variety of theoretical perspectives and approaches for studying NRMs. Students are encouraged to develop communication competencies and to learn to critically interpret data (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**REL 3340. Religion, Literature, and the Arts.**

The course features a thematic selection of literary and artistic works in order to examine the connections and disconnections between the aesthetic and religious aspects of human culture. Students develop communication competencies. May be taken twice for credit with different topics. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**REL 3342. The Homeric Epic: The Iliad and the Odyssey.**

A close reading of the Iliad and the Odyssey in English translation, with emphasis on philosophical and religious issues. Prominent topics include the gods, religious rituals, heroic ethics, and the human condition. The course also considers the concept of a classic in religion and literature. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3361A. Religion and Film.**

This course examines how religions are reflected in film and how films have taken on some of the functions of religion. Students develop communication competencies. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3361B. Mysticism.**

This course explores the dimension of mysticism that pervades both Western and Eastern religious traditions. We will analyze the nature of mystical experiences through a study of key figures and texts, and examine its peculiar relationship to language, arts, and human subjectivity and its place in the wider social context. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3361C. Philosophical Issues in Judaism, Christianity, and Islam.**

This course provides a comparative perspective on philosophical issues that arise in Judaism, Christianity, and Islam, including the nature of God, reason and revelation, and religious ethics. Readings are drawn from both classical and contemporary sources. Students learn to analyze problems from different perspectives, develop critical thinking competencies, and gain skills useful for working with diverse populations. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3370. Mythology and Cosmology.**

This course examines human efforts to address questions of cosmic origins, with a global, comparative survey of cosmogonic (creation) myths and a historical approach to modern cosmology. It examines the features and functions of mythopoetic and scientific thought, and reflects philosophically on questions of origin and meaning. Students gain skills useful for working with diverse populations and learn to analyze problems from different perspectives. May be taken twice for credit with different topics. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content  
**Grade Mode:** Standard Letter

**REL 3372. Apocalypticism.**

An historical-cultural survey of end-of-the-world literature, art, and thought in Western Civilization, from ancient Judaism and Christianity to the present. Historical and scientific methods provide the framework for this course. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3381. The Philosophical and Spiritual Heritage of India.**

Indian philosophers predominantly present a spiritual, multi-dimensional outlook on the nature of reality and human consciousness; they combine reason, experience, yoga and meditation as methods of inquiry. This course explores Indian spiritual philosophy from the time of the ancient Vedas to the contribution of modern sages. Students gain skills useful for working with diverse populations. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3383. An Introduction to Chinese Religions.**

This course examines the religious history of China from 3000 BCE to the present-day. It covers beliefs, practices, and histories of the four major religious communities in China—Buddhism, Daoism, Confucianism, and “Popular Religion”—as well as expressions of minority religions in China such as Islam and Christianity. Students gain skills useful for working with diverse populations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3385. Buddhism.**

This course surveys the main ideas, myths, symbols and practices of the diverse forms of Buddhism. Students explore and evaluate the manner in which Buddhist perspectives have influenced social values and arts in the South East and East Asian cultures. Students gain skills useful for working with diverse populations. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3386. Yoga: Principles and Practice.**

This course is an in-depth study of the principles and the practice of yoga. Students explore the yogic conception of the mind and the body and how it relates to psychoanalytic and neuroscientific frameworks. Students also examine the parallels between the discipline of yoga and practices in other religious traditions. Students gain skills useful for working with diverse populations and learn to analyze problems from different perspectives.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive  
**Grade Mode:** Standard Letter

**REL 3390. Religion, Health, and Embodiment.**

This course is a survey of religious beliefs and practices relevant to embodiment, health, disease, disability, aging, and death. The approach is comparative, with non-exclusive emphasis on Jewish and Christian primary material. Students develop critical thinking and communication competencies, and gain skills useful for working with diverse populations. Prerequisite: [PHIL 1305 or PHIL 1320] and REL 1300 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**REL 4300. Advanced Methods in Religious Studies.**

This course provides a rigorous grounding in the intellectual tradition of academic religious studies. It includes the major theorists and a sustained examination of the problem of method. This course is strongly urged for RS minors and students intending graduate work in the field. Prerequisite: ANTH 3305 or ANTH 3322 or ANTH 3326 or ANTH 3332 or ANTH 3349 or ANTH 4320 or ARTH 2301 or ARTH 2302 or ENG 3329 or HIST 3312 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**REL 4388. Issues in Religion.**

Independent study of specific topics in religion. Open to students on an individual or small group basis. May be repeated for credit with different emphasis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**Minimum required: 120  
semester credit hours**

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses and a minor.
3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete

depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

7. The Bachelor of Arts (B.A.) degree with a major in Philosophy requires 30 hours including the following Philosophy courses:

Code	Title	Hours
PHIL 1305 or PHIL 1320	Philosophy and Critical Thinking Ethics and Society	3
PHIL 2311	History of Philosophy Before 1600	3
PHIL 2312	History of Philosophy Since 1600	3
PHIL 2330	Elementary Logic	3
PHIL 3320 or PHIL 3332 or PHIL 4350	Ethics Social and Political Philosophy Philosophy of the Arts	3
PHIL 4370 or PHIL 4355 or PHIL 4356	Metaphysics Philosophy of Science Philosophy of Knowledge	3
Advanced Philosophy Electives		12
<b>Total Hours</b>		<b>30</b>

8. Graduating seniors must submit a portfolio of their work and participate in an exit interview with the Philosophy faculty. Details about the portfolio are available in the Department's main office.

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of mathematics, science, logic, or computer science courses, a minor, and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- The degree program requires 30 hours of major coursework, with at least 21 hours of coursework in REL courses and at least 18 of the 30 hours at the 3000 or 4000 level.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete

depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

- Graduating seniors must submit a portfolio of their work and participate in an exit interview with the Religious Studies faculty. Details about the portfolio are available in the Department's main office.

The minor in Value Studies requires 18 semester credit hours. The minor allows a student with special interests in value theory to pursue a course of study, which culminates in an independent research project in value studies. This project may be a study of a theoretical issue in value studies or something of an applied nature; students may affiliate with people in various work environments or service learning settings to identify value conflicts and suggest resolutions.

Trauth Huffman Hall 355A  
T: 512. 245.2143 F: 512. 245.7815  
[www.polisci.txstate.edu](http://www.polisci.txstate.edu) (<http://www.polisci.txstate.edu>)

Political science is the study of government, the most important decision-making part of society, and of the social, economic, and other institutions and practices that influence this decision-making process. On the one hand, it is a discipline that can trace its roots to the ancient Greek political community, the polis; but it is also a modern social science, which uses techniques such as content analysis, public opinion surveys, and statistical analysis to create and evaluate generalizations about how government and people behave.

As a liberal arts discipline, the department is dedicated to developing analytical skills, effective oral and written communication, and promoting critical thinking. Students are encouraged to reflect not simply on their career goals, but also on what type of persons they want to become, and on their rights and duties as citizens. The department's internship program prepares students for the transition from college to career by offering opportunities to earn academic credit and gain practical experience working for various federal, state, local, or non-profit community agencies.

Political science prepares students for careers in various fields, not only in government, law, and education but also in business, journalism, urban planning, and many fields on which public policies have a significant effect.

In addition to bachelor degree options in political science and public administration, the department offers master's degree programs in political science, public administration, and legal studies, including a paralegal studies certificate. Undergraduate students have opportunities to begin graduate study while completing their undergraduate degree through 3+2 degree plan options.

## Recognition of Student Scholarship

### The Annual Professor Henderson Award

The Department of Political Science annually presents the Professor Henderson Award to the graduating Political Science major with the highest overall GPA (the award may be for either a December or May graduate of the current academic year). The award has the purpose of recognizing and honoring a student of Political Science who has, as a student at Texas State, displayed academic excellence and character in the tradition and values cherished and exhibited by Richard B. Henderson, Distinguished Professor Emeritus.

### The Howard M. "Prof" Greene Award

This award honors an academic mentor in politics to Lyndon B. Johnson and thousands of other Texas State alumni and goes to one or more graduating Political Science majors who have earned overall Texas State grade-point averages of 3.9 or above.

Interested students who believe they may be eligible for these awards should consult with the Department Chair.

## Bachelor of Arts (B.A.)

- Major in Political Science (p. 599)

## Bachelor of Public Administration (B.P.A.)

- Major in Public Administration (p. 601)

## Minors

- Political Communication (p. 603)
- Political Science (p. 603)
- Public Administration (p. 603)

**Subjects in this department include: POSI (p. 590), PS (p. 590), PA (p. 598)**

## Courses in Political Science (POSI)

### POSI 2310. Principles of American Government.

A survey of the principles of political science, of the American system of government, and of the origins and development of the constitutions of the United States and Texas. Satisfies the legislative requirements for teacher certification.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Govt/Pol Science Core 070

**Grade Mode:** Standard Letter

**TCCN:** GOVT 2306

### POSI 2320. Functions of American Government.

This course is a study of functions performed in the American system of government, both national and state, within the framework of the U.S. and Texas Constitutions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Govt/Pol Science Core 070

**Grade Mode:** Standard Letter

**TCCN:** GOVT 2305

## Courses in Political Science (PS)

### PS 2304. Introduction to Political Science.

This course is an introductory survey of the discipline of political science, focusing on the history, scope, and methods of the field and the substantive topics in the discipline. Prerequisite: POSI 2310 or POSI 2320 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### PS 3300. Basic Political Ideas.

This course examines fundamental ideas of the Western political tradition including conservatism, liberalism, socialism, democracy, and totalitarianism.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### PS 3301. Basic Political Institutions.

This course examines political institutions emphasizing the fundamentals of political science research/analysis, the tools used in bibliographical research, and methods of locating and presenting data for comparing political institutions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### PS 3311. American Political Thought: From the Colonial Period to Civil War.

This course examines the development of American political ideas from the colonial period through the Civil War. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### PS 3312. American Political Thought: From Reconstruction to Present.

This course examines the development of American political ideas from Reconstruction to the present. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### PS 3313. Contemporary Political Theory.

This course examines selected theories, ideologies, and movements in 20th and 21st century political theory. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### PS 3314. Politics and Personality.

This course is an undergraduate seminar exploring the relationship between political behavior and human motivation. Topics include: psychological perspectives and political theory, personality and political orientation, and the political personality. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3315. Quantitative Research in Political Science.**

This course introduces statistical theories and quantitative analyses, and examines methodological concepts, definitions and procedures, various hypotheses testing and integrated research applications in the discipline of Political Science. Prerequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 or HON 2302A or HON 2302B any with a grade of "C" or better. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3321. Campaigns and Elections.**

This course examines the dynamics of American political campaigns and elections at the federal and state level. The analysis and discussion will include theoretical evaluations of voting, campaigns, and elections as well as technical and practical information about campaign strategies. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3322. Political Parties and Party Politics.**

This course examines the American political party system, including its history and organization, suffrage, nominations, elections, campaigns, and the related areas of public opinion and pressure group activities.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3323. Congress and the Legislative Process.**

This course examines the dynamics of lawmaking and legislative politics in the United States. This course analyzes, compares, and evaluates the structure, party organization, rules of procedure, and actual operation of the Congress and of selected state legislatures (including Texas). Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3324. The American Presidency.**

This course examines, in depth, both the presidency of the United States and the individuals who have held it.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3325. State and Local Government.**

This course examines the organization, functions, and powers of state, county, and municipal governments in the United States with particular reference to patterns of such governments in Texas. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3326. Issues and Interest Groups: Power and Pressure in America.**

This course examines selected issues at the state and national level and the interest groups which attempt to influence governmental decisions about them. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3327. The American Founding.**

This course examines the origins, nature, and foundations of the American Constitutional system with special emphasis on the Federalist and Anti-Federalist debates and the writing of the Constitution. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3328. Politics in Film.**

This course examines films which explicitly address political issues such as racism in the United States, the conflict between public duty and private conscience, politics and media manipulation, and the role of perception in all the actions people take.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3331. The Supreme Court and the Judicial Process.**

This course examines the judiciary, focusing upon the politics of judicial selection and the decision-making process of the judiciary as well as the position of the judiciary in the entire political process. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3332. Constitutional Law: Basic Structures and Principles.**

This course examines and analyzes, through a constitutional case study approach, the fundamental principles of governmental structure with an emphasis on the office and powers of the President, Congress, and inter-governmental relationships in the main body (Articles I through VII) of the U.S. Constitution. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3333. Constitutional Law: Individual Liberties.**

This course examines the area of constitutional interpretation commonly known as civil liberties or the relations between the individual and the government. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3334. Civil Law in American Society.**

This course examines the structure and functions of government, especially the judiciary, together with the laws regulating private social relations, (e.g., property law, tort law, etc.), and the relations between legal policies and societal goals and regulations. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3341. Comparative Politics.**

This course introduces students to the subfield of comparative politics through an examination of recent political history, political institutions, party systems, and public policies of some of the world's most important countries (including the United Kingdom, Germany, France, Russia, China, Iran, India, South Africa, Mexico and others).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3342. African Politics.**

This course examines the government and politics of African political systems in light of the traditional political cultures, the colonial and post-colonial experience and the diversity of regime experimentation with special attention to the struggle for genuine democracy. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3343. Government and Politics of Latin America.**

This course is a comparative analysis of political systems in Latin America, examining the impact of sociocultural and economic factors on political attitudes and behaviors. Special emphasis will be placed on the political systems of Mexico, Cuba, and Brazil. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3344. Government and Politics of Europe.**

This course examines the political history and political institutions of Europe and the European Union. Special emphasis will be placed on the political systems in the United Kingdom, France, Italy, Germany, and Russia. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3345. Government and Politics of Russia.**

This course examines the domestic and foreign policy of the former Soviet Union, examined both historically and analytically. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3346. Government and Politics of Asia.**

This course examines political development in the nations of Far East and South Asia, special consideration will be placed on the political systems of China, Japan, and India. (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**PS 3347. Politics of Modern Southeast Asia.**

This course examines the political and economic significance of Southeast Asia through comparative analysis; it will include an empirical and conceptual examination of the political dynamics of the region. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3348. Revolution and Nationalism.**

This course examines the phenomena of modern revolution and nationalism focusing on different countries in various geographical areas such as the Middle East, Latin America, and others. This course is repeatable once with a different emphasis for an additional three credit hours. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3349. Latin America Party Politics: Theory and Practice.**

This course examines some key insights in party and party system theory and practice. Latin America is the regional referent for examining themes, and country examples are studied in depth to illustrate the theory. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 3351. Introduction to International Studies.**

This course examines critical interdisciplinary questions pertaining to all courses in the International Studies Program. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3352. Theories of International Politics.**

This course examines theories and concepts in the study of international relations. Major theoretical works and illustrative case studies will be critically analyzed. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3353. Issues in World Politics.**

This course examines major issues in world politics, international relations, and comparative politics. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3354. United States-Latin America Relations.**

This course examines United States-Latin America relations as a subset of US global relations and US foreign policy. This course will examine policies, problems, and attitudes with a detailed analysis of U.S. relations with selected countries. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 3355. International Human Rights.**

This course explores the role of human rights in global politics, including the impact of state and non-governmental organizations' actions on the issue of human rights.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4310A. Natural Law and Virtue Ethics.**

This course examines the development of natural law and virtue ethics theory from ancient through contemporary thought. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4310B. Topics on Freedom of Speech and Thought.**

This course considers freedom of speech and thought as foundational conditions in liberal conceptions of human flourishing. The course will combine a close reading of modern and contemporary authors with an analysis of recent controversies implicating these freedoms, such as debates about hate speech and political correctness. Corequisite: PS 3300 or PS 3301.

**3 Credit Hours. 0 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4311. Ancient and Medieval Political Thought (Greeks to 1600).**

This course examines classical and medieval political theory from Plato to Machiavelli. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4312. Modern Political Theory (1600 - 1900).**

This course examines the development of modern political ideas; and the meaning and relationships of the significant ideologies of our time including democracy, capitalism, the welfare state, socialism, fascism, and communism. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4313. The Holocaust.**

This course is an undergraduate seminar on The Holocaust. Topics include: victims and perpetrators, antisemitism, and representation of The Holocaust in film and fiction. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4314. Liberalism and Its Critics.**

This course examines the origins, nature, and evolution of one of the most influential intellectual traditions in modern Western political theory, liberal individualism, as well the views of its critics. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4315. The Politics of Dystopia.**

This course examines the idea of political utopia and the many ways in which it might be twisted into a darker, less-than-perfect society. Content will focus, in particular, on the relationship between fictional dystopias in novels and films, and political reality in 21st-century America. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4320A. American Political Culture.**

The course will explore selected problems related to American political culture through an examination of Alexis de Tocqueville's classic study, *Democracy in America*. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4320B. The Evolution of the United States Constitution.**

This course studies the relationship between politics and the US Constitution. Emphasis is placed on the evolution of the US Constitution from a political, historical, and theoretical perspective.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4320C. Freedom in America.**

This course explores enduring questions about freedom in America. How has freedom in American society developed? Should limits be placed on individual freedom? Can individual freedom be harmful for American society? Why do defenders of community worry about the fissiparous consequences of unlimited freedom? How do defenders of liberty respond to these concerns? While freedom is perhaps Americans' favorite word, we will see that Americans have debated both the value and meaning of freedom throughout American history. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 with any grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4321. American Foreign Policy.**

This undergraduate seminar examines the roles of major institutions, American political culture, and the international setting in the making of American foreign policy. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4322. African American Politics.**

This course examines the political, cultural, and historical facets of the African American experience. The course will include a study of appropriate constitutional law cases, representation, identity, urban politics, protest movements, and ideology. Particular attention will be given to how these themes develop in Texas and the Southwest. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4323. Latina/o Politics.**

This course examines the participation of Latinos in US politics. Both formal political participation in electoral politics and involvement in grassroots and social movements are considered. While all Latino groups will be considered, the course has a special emphasis on the Mexican/Chicano experience in Texas and the Southwest. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4324. Women in Politics.**

This course examines the role of women in political life. The course will examine women's influence on politics as well as how various public policies affect women. Topics may include feminism, electoral politics, political representation, and the internal politics of women's groups. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4325. Texas Politics.**

This course examines the history, culture, institutions, issues, and policies of the Texas political system. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4326. Media and Public Opinion.**

This course examines how the media influences public opinion and voting behavior. Specific topics include media functions in campaigns and elections, media bias, new media, and media effects on political attitudes and behaviors. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4327. Religion and American Public Life.**

This course examines the ways in which religious beliefs and groups have influenced the course of American democratic experience, and the ongoing debate regarding the proper role of religion in American public life. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4330A. Environmental Law & Policy.**

This course examines the institutions, implementation, and regulation of American environmental law and policy. Laws and regulations explored can cover jurisdictions ranging from municipal, regional, state, federal, and international levels. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4330B. Free Speech and Democracy in the Digital Age.**

This course blends law, philosophy, history and political science in examining the role of free expression in the digital age. It will begin with an overview of various theories supporting the right of free expression and the historical development of free speech from the English common law to current struggles over free speech and what constraints on its practice are acceptable. The course will then consider modern challenges to free expression and democratic discourse posed by technology and the private companies that control much of the modern public square. Global threats to freedom of expression will also be examined. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 all with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4331. Islamic Law and Politics.**

This undergraduate seminar is an examination of the origins, development, divisions, law, and politics of Islam. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4332. The Politics of U.S. Economic Policy.**

This course examines the issues of political economy prominent in American public life. Emphasis will be placed on the constitutional, partisan, and sectional aspects of such issues as the Bank of the United States, slavery, gold standard, the Great Depression, banking, income distribution, and the Affordable Care Act. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4333. Issues in Law and Public Policy.**

This course examines selected legal issues by focusing on their relationship to public policy. Alternative views, social consequences, political responses, and legal issues resulting from alternative positions are considered. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4334. Legal Theories and Research.**

This course examines the American Legal System. Emphasis will be placed on the origins and development of law, the different sources of law, the process of legal research and analysis, and methods for interpreting and applying constitutional, statutory and case law. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4340A. Government and Politics of Japan.**

This course is a comparative analyses of political systems in Japan, examining the impact of sociocultural and economic factors on political attitudes and behaviors. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4340B. Authoritarian Regimes.**

While democracy became the most common political regime type around the world in the 1990s, many authoritarian regimes have continued to persist or have emerged in countries such as China, Cameroon, Saudi Arabia, Russia, and Venezuela. How do these regimes emerge and function in the presence of popular demands for democratization and leadership challenges from authoritarian regime elites? How do authoritarian regimes collapse and what are the prospects for democracy in current authoritarian regimes? How do authoritarian regimes act in international relations? This course applies these broad questions to past and present authoritarian regimes around the world. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4340C. Comparative Political Institutions.**

This course introduces students to the effect of institutions on political outcomes in developing countries. The role of formal institutions, informal institutions, and institutional weaknesses to understand political dynamics will be explored and analyzed.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PS 4340D. Mexican Politics.**

The course delves into Mexico's XX century authoritarian period and its transition to democracy, including the workings of Mexico's institutions in the post 2000 era, and the evolution of US-Mexican relations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PS 4340E. Civil War.**

This course provides an in-depth look at how civil wars begin and end, the dynamics in the conduct of civil wars, and the domestic and international consequences of civil wars. Case studies of post-WWII civil wars around the world will be used to illustrate theories of civil war and to speculate on the likely onset or termination of civil war in particular countries.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4341. Civil-Military Relations in Comparative Politics.**

This course examines the primary empirical and normative theories of civil-military relations. Students will investigate the state of civil-military relations in the United States and around the globe. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4342. Economic Development in Latin America.**

This course examines the economic history of and current obstacles to economic development in Latin America. It explores the Import Substitution Industrialization Era, the debt crisis of the 1980s, free market economics, and the nature and revival of economic populism. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4343. Politics of Democratization in Developing Countries.**

This course examines the third wave of democratization in the developing world and the multiple challenges facing these new democracies. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4344. The Politics of Extremism.**

This undergraduate seminar examines international terrorism and extremist politics in America. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4345. Model International Institution Competition.**

This course is an applied introduction to diplomacy focusing on issues relevant to international institutions, in which students will engage in debate and role-playing. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4346. Organization of American States.**

This course is an introduction to major issues of the OAS including its functions and limitations and the evolving relations among member-states.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4350A. U.S. National Affairs and Homeland Security.**

This course examines current issues of national and international importance from political, economic, and social perspectives. Corequisite: PS 3300 or PS 3301 or POSI 3300 or POSI 3301 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4351. International Conflict and Security.**

This course examines historical and spatial patterns of conflict (including war, terrorism, and economic coercion) from the perspectives of Realist, Idealist, and Marxian schools of thought. It will also examine strategies for conflict prevention and resolution such as deterrence, arms-control, collective security, and "building democracy." (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4352. International Law.**

This course will examine the nature, functions, sources, scope, practice, and development of public international law as both a legal and political process. Students will research contemporary international problems and participate in a Moot International Court of Justice. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4353. International Organizations.**

This course examines the historical roots of international organizations, the development of the League of Nations, and the evolution of the United Nations. The nature, process, and function of contemporary international organizations will be analyzed. Non-governmental organizations, transnational organizations, and multi-national corporations will be assessed. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4354. Politics of International Economic Relations.**

This course examines the institutional structure of interstate economic relations, trade and monetary regimes, foreign investment, foreign aid, and development policies of governments. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4355. US National Security Strategy.**

This course examines the decision-making processes and the substantive debates pertaining to issues of modern American national security policy and strategy. Emphasis may be placed on the theory of strategy and grand strategy, great power challenges from Russia and China, transnational threats, and the tools of power such as the use of military, intelligence, economic, and diplomatic means to advance strategic goals. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4379. Independent Study.**

This course is an individualized study including independent reading and/or research on various problem areas of political science. Instructor will approve specific problem area, bibliography, and student paper outline. Prerequisite: Instructor approval. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4380. Internship in Government.**

This course is designed for students to gain practical experience while participating in the ongoing work of a selected governmental or nonprofit unit. Interns will work under the joint direction of faculty and intern supervisors. One hundred fifty hours of service during the semester is required of interns. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4398. Practicum in Political Science: Concepts, Resources, and Applications in the Study of Politics.**

This course is designed to ensure familiarity with basic concepts and approaches used in the study of politics. This course is required of all B.A. students seeking a teaching certification; it may be taken as a substitute for PS 4399 for Political Science non teacher certification majors. Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PS 4399. Senior Seminar in Political Science.**

This course includes intensive reading, research, writing, and discussion focusing on different sub-fields in political science and is required of all political science majors. May be repeated once for additional credit with different instructor and department approval. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**PS 4680. Internship in Government.**

This course is designed for students to gain practical experience while participating in the ongoing work of a selected governmental or nonprofit unit. Interns will work under the joint direction of faculty and intern supervisors. Three hundred hours of service during the semester is required of interns. (WI) (MULT) Corequisite: PS 3300 or PS 3301 either with a grade of "D" or better.

**6 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Public Administration (PA)

**PA 3300. Introduction to Public and Nonprofit Administration.**

This course introduces students to the fundamentals of public and nonprofit administration including the context, nature, and structure of public and nonprofit administration in America; management of public organizations; and challenges of the future.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 3301. Political Institutions and Public Service.**

This course examines the fundamental political institutions and values of American democracy. The role of public service as it relates to government and nonprofit administration is emphasized.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 3310. Public Finance Administration.**

This course introduces students to fiscal administration and budgeting at different levels of government and nonprofit organizations in the United States. The course includes a wide range of theoretical and applied aspects of fiscal policy and financial administration. Both expenditures and revenues are examined. Prerequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 or HON 2302A or HON 2302B any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PA 3311. Analytical Techniques.**

This course introduces quantitative analytical methods and fundamental statistics ranging from descriptive to inferential procedures. Emphases will be placed on appropriate analytical techniques, use of software for data analysis, interpretation of results and crafting of professional reports based on data analysis. Prerequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 or HON 2302A or HON 2302B any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PA 3314. State and Local Government.**

This course examines state and local government structure, organization, functions, powers and processes. The role of American and Texas state and local government institutions in the formulation and implementation of public policy will be covered. Corequisite: PA 3301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 3316. Metropolitan Politics.**

This course examines the political institutions and processes of urban and suburban America. Key contemporary metropolitan policy issues are used to highlight underlying tensions in policy formation and implementation. This course emphasizes the unique problems of cities and major metropolitan areas. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PA 3330. Public Personnel and Human Resource Administration.**

This course introduces the laws, context, procedures, personnel structures, techniques, and challenges associated with managing personnel in government and nonprofit organizations. Emphases will be placed on strategic planning for human resources, position classification, selection, recruitment, compensation and benefits, training, performance appraisal, collective bargaining and other aspects of personnel management.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 3340. Administrative Law.**

This course examines the rule making, adjudication, and enforcement powers of federal and state agencies. The course also examines statutes that confer authority on such agencies and challenges to their constitutionality, as well as the principles that the courts employ to scrutinize agency actions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 3350. Public Policy Process.**

This course examines the theories, processes and practices of public policy formulation, implementation and evaluation. Emphasis may vary and include but not be limited to environment and sustainability issues, energy, social and economic policies.

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 3351. Urban Management and Regional Policy.**

This course provides a critical introduction to the key aspects of regional and urban management and policy. Students will study how urban administration practices and regional policies influence the form and function of American cities. Corequisite: PA 3301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 4340. Issues in Law and Public Policy.**

This course examines contemporary legal issues and their relationship to public policy. Emphasis may include environmental protection, sustainability, climate change, voting rights, capital punishment, gun rights, and electronic challenges to privacy rights from the perspective of bureaucratic functions and non-profits. Corequisite: PA 3301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 4352. Comparative Public Administration.**

This course surveys the field of Public Administration emphasizing aspects of administration and public policy systems in the US and compares them with administration and public policy systems of other countries. Corequisite: PA 3301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 4362. Government, Nonprofit and American Business.**

This course examines the role of American business in public policy. It examines how the public, private and nonprofit sectors interact in the policy process. This includes ways in which policy and politics shape business and nonprofit culture and how businesses and nonprofits influence policy implementation through contracting. Corequisite: PA 3301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 4370. Ethics in American Government.**

This course examines key ethical and cultural challenges in public service, including service in government and in nonprofit and voluntary organizations. Content includes but is not limited to ethical theory and analysis, and examination of ethical issues in areas such as healthcare, privacy, accountability, education, research, planning, elections, and policy. Corequisite: PA 3301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PA 4389. Internship in Public Administration.**

This course provides students with meaningful work in public administration as interns in public or nonprofit organizations. Under faculty supervision, students complete 150 hours of service and conclude their internship by completing a report on their work experience. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PA 4398. Research in Public Administration.**

This course will examine basic concepts and approaches used in the study of public administration. Emphasis will be placed on identifying, locating, and employing resources to assist in understanding public administration at all governmental levels. Prerequisites: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Nine hours of writing intensive (WI) courses are required for graduation.
6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
7. For transfer students, 12 semester credit hours in government and mathematics (or their equivalents) may be transferred from a Texas public institution of higher education for the Political Science and Government Field of Study and be applied to the Bachelor of Arts degree with a major in Political Science at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas

Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
PS 2304	Introduction to Political Science	3
TCCN: GOVT 2304		
POSI 2310	Principles of American Government	3
TCCN: GOVT 2306		
POSI 2320	Functions of American Government	3
TCCN: GOVT 2305		
Any MATH course coded Mathematics Core Curriculum Component Code 020		3
TCCN: MATH 1342		
<b>Total Hours</b>		<b>12</b>

8. Students in the Bachelor of Arts (B.A.) degree with a major in Political Science must take a minimum of 36 hours in Political Science including the following courses:

Code	Title	Hours
POSI 2310	Principles of American Government	6
& POSI 2320 and Functions of American Government		
PS 2304	Introduction to Political Science	3
PS 3300	Basic Political Ideas	3
or PS 3301 Basic Political Institutions		
One advanced course from four of the five groups:		12
I. Political Theory and Methodology		
II. American Government		
III. Public Law and Public Administration		
IV. Comparative Government		
V. International Relations		
Advanced PS electives		9
PS 4399	Senior Seminar in Political Science	3
<b>Total Hours</b>		<b>36</b>

<sup>1</sup> PS 3300 or PS 3301 serve as corequisites for all advanced courses in political science.

PS 4351	International Conflict and Security	3

**Minimum required: 120  
semester credit hours**

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- The Bachelor of Public Administration (B.P.A.) degree with a major in Public Administration requires the following 36 hours of Public Administration courses:

Code	Title	Hours
PA 3301	Political Institutions and Public Service	3
PA 3300	Introduction to Public and Nonprofit Administration	3
PA 3330	Public Personnel and Human Resource Administration	3
PA 3310	Public Finance Administration	3
PA 3311	Analytical Techniques	3
PA 3350	Public Policy Process	3
PA 4389	Internship in Public Administration	3
<b>Advanced Public Administration Electives (choose five of the following)</b>		<b>15</b>
PA 3314	State and Local Government	
PA 3316	Metropolitan Politics	
PA 4352	Comparative Public Administration	
PA 3351	Urban Management and Regional Policy	

PA 4340	Issues in Law and Public Policy	
PS 4323	Latina/o Politics	
PA 3340	Administrative Law	
PA 4362	Government, Nonprofit and American Business	
PA 4370	Ethics in American Government	
PA 4389	Internship in Public Administration	
PA 4398	Research in Public Administration	
<b>Total Hours</b>		<b>36</b>

6. Students are strongly encouraged, but not required, to choose their free electives from the following career support areas:

Code	Title	Hours
<b>Local Government</b>		
PA 3316	Metropolitan Politics	3
GEO 3310	Urban Geography	3
GEO 3320	Community and Regional Planning	3
<b>International</b>		
PS 4321	American Foreign Policy	3
PS 4352	International Law	3
PS 4353	International Organizations	3
ECO 3317	International Economics	3
<b>Social Services</b>		
SOCI 3328	Complex Organizations	3
SOWK 2375	Social Services in the Community	3
SOWK 4310	Diversity and Social Justice in Social Work	3
SOWK 4355	Policy Practice	3
<b>Legal Services</b>		
PS 3332	Constitutional Law: Basic Structures and Principles	3
PS 3333	Constitutional Law: Individual Liberties	3
PA 4340	Issues in Law and Public Policy	3
CJ 2360	Fundamentals of Criminal Law	3
<b>Health Services</b>		
HA 3308	Healthcare Organization	3
HIM 3380	Quality Management for HIM	3

7. Enrollment in PA 4389 requires completion of 24 hours of Political Science courses, a Texas State GPA of 2.25, and a Major GPA of 2.25.

8. There is no foreign language requirement for those who have completed two years of the same foreign language in high school.

The Department of Psychology offers an outstanding undergraduate program attracting more than 2,100 majors and a large number of minors. The curriculum provides both structure and flexibility with a required sequence of core courses and many electives to serve students' personal interests. Students have many opportunities to gain research experience in faculty laboratories and job experience in faculty coordinated

internships. Students can also develop leadership, communication, and team building skills via membership in the Psychology Association and the Texas State University Chapter of Psi Chi, the International Honor Society in Psychology.

Departmental faculty members are highly qualified as teachers, scholar-researchers, and mentors. They are committed to helping students succeed. Faculty have received numerous awards and honors including the Presidential Award for Excellence in Teaching, which is the highest level of recognition in teaching at Texas State University, and the Presidential Seminar Award, which is the highest level of recognition in research at Texas State University.

The department has a strong commitment to faculty-student research. Students can gain quality research experience by participating in a variety of research projects. The breadth and quality of faculty research is a valuable resource for students as they acquire strong research skills and partner in the advancement of knowledge.

Psychology graduates with B.A. or B.S. degrees hold positions in business, government, health, and education. A large number of graduates pursue further education in psychology as a science or as a profession by enrolling in masters or Ph.D. programs. Employment as a psychologist in clinical psychology and some other fields requires a doctoral degree.

## Course Prerequisite Sequence

The Department of Psychology strictly enforces all course prerequisites. Adherence to the following course sequence is necessary for completion of the B.A. and B.S. degrees. This sequence requires four separate semesters (or summer terms), because course prerequisites may not be taken concurrently.

Code	Title	Hours
PSY 1300	Introduction to Psychology <sup>1</sup>	3
MATH 1312	College Statistics and Algebra (or higher except MATH 1316) <sup>1</sup>	3
PSY 2301	Introduction to Statistics <sup>1</sup>	3
PSY 2101	Introduction to Statistics Laboratory <sup>1</sup>	1
PSY 3402	Experimental and Research Methods <sup>1</sup>	4
One course from Group C		
PSY 4391	History and Theory	3

<sup>1</sup> Or its equivalent, with a grade of "C" or higher.

*Note: Psychology majors are required to select a minor outside the major, thus, a Psychology major may not declare a minor in Forensic Psychology, General Psychology, or Sport Psychology.*

## Bachelor of Arts (B.A.)

- Major in Psychology (p. 608)

## Bachelor of Science (B.S.)

- Major in Psychology (p. 609)

## Minors

- Forensic Psychology (p. 611)
- Psychology
- Sport Psychology (p. 611)

## Courses in Psychology (PSY)

### PSY 1300. Introduction to Psychology.

A survey of the major principles derived from research on human and animal behavior. Topics studied include learning, thinking, motivation, emotion, personality, the senses, perception, and the form and functions of the nervous system. PSY 1300 with a grade of "C" or better is required for most other Psychology courses.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Soc & Behav Sciences Core 080

**Grade Mode:** Standard Letter

**TCCN:** PSYC 2301

### PSY 2100. Professional Seminar.

This course examines the characteristics of Psychology as a discipline and profession. Coverage includes current trends in Psychology and its subfields, degree options in Psychology and its subfields as they relate to professional and/or career issues, and how to be an intelligent consumer of discipline-specific data and information. Prerequisite: PSY 1300 with a grade of "C" or better.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### PSY 2101. Introduction to Statistics Laboratory.

This statistics laboratory course provides an introduction to descriptive and inferential statistics used in psychological research with an emphasis on data analysis techniques through the use of computer applications (ex., SPSS, R, etc.). Prerequisite: PSY 1300 with a grade of "C" or better. Corequisite: PSY 2301 with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### PSY 2301. Introduction to Statistics.

The course provides an introduction to statistical methods in behavioral sciences with special emphasis on application to psychological research. The topics covered include descriptive statistics, principles of statistical inference and common hypothesis testing techniques such as z-test, t-tests, analysis of variance, correlation and regression, and selected non-parametric tests. Prerequisite: PSY 1300 and [MATH 1312 or MATH 1315 or MATH 1317 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**TCCN:** PSYC 2317

### PSY 2311. Psychology of Human Sexuality.

A psychological and physiological examination of the human sexual experience from conception through old age. Current research findings serve as a basis for study. Major consideration is given to the human sexual system, the sexual act, sexual attitudes and behavior, and sexual complications. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** PSYC 2306

### PSY 3300. Lifespan Development.

Survey of the psychology of human development from the pre-natal period through adulthood. Emphasis placed on cognitive, motivational, and physiological processes of development in childhood and adolescence. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### PSY 3312. Adolescent Psychology.

A developmental psychology course designed to examine the complex characteristics of human cognitive and emotional life during the period of adolescence. Emphasis is directed toward the basis of behavior, interpersonal relationships, development, growth, and motivation. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### PSY 3313. Psychology of Adulthood and Aging.

The development of individuals in the post-adolescent period, particularly after middle age. Topics studied include social, psychological, and physiological changes and problems associated with the aging process. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### PSY 3314. Psychology of Consciousness.

This course is an introduction to the study of consciousness from the perspective of psychology, neuroscience, and the natural sciences. Topics reviewed included philosophical foundations, cognitive and neuroscientific approaches, the physical correlates of consciousness, introspection, sleep and dreaming and altered states of consciousness. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3315. Psychopathology.**

An introduction to the study of psychopathology: (1) issues in defining and evaluating it, (2) examples, (3) theories and research attempting to categorize, describe, and explain it, and (4) approaches used to prevent or change it when it is deemed a problem by the individual and/or society. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3316. Personality Psychology.**

A comprehensive introduction to research, theory, and application in the field of personality. Individual differences and situation influences are examined concerning authoritarianism, achievement motivation, anxiety, intelligence, self-concept, interpersonal attraction, aggression, sexuality, and altruism. An integrative model is suggested for describing and predicting human behavior. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3321. Sensation and Perception.**

An introduction to the processes of perception. Topics will include perceptual measurement, the physiological bases of perception, basic visual processes, and basic haptic, olfactory, and gustatory processes. Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3322. Brain and Behavior.**

This course covers research findings and theoretical concepts concerned with the physiological, anatomical, and pharmacological bases of behavior. Topics include sensory systems, the physiological mechanisms of motivation, and the physiological correlates of associate processes such as learning. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3323. Evolution and Behavior.**

The course provides a contemporary understanding of human behaviors, emotions, and cognitions through an examination of Darwin's theories of natural selection, sexual selection, and mental evolution. Relevant interdisciplinary perspectives from philosophy, history, anthropology, archaeology, biology, ethology, and genetics are incorporated. Prerequisites: PSY 1300 and PSY 3300 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3325. Psychology of Persuasion.**

This course uses a socio-psychological perspective to understand the dynamics of persuasion and propaganda. It applies selected theories and research on social influence, persuasion and attitude change to such areas as political and educational campaigns, product advertising, mass media and public opinion. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3331. Social Psychology.**

The study of how people influence each other. The course covers such topics as conformity, inter-personal attraction, prejudice, and aggression. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3332. Psychology of Women.**

The special problems and demands made on the woman within modern western culture. Topics studied include status, roles, values, opportunities, expectations, stress, and self-realization of the modern woman. (MULT) (WI) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3333. Industrial Psychology.**

The study of applying psychological knowledge and techniques to the modern industrial environment. Topics studied include employee needs, attitudes, selection, testing, boredom, motivation, anxiety, and job satisfaction. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3334. Psychology of Human Diversity.**

Explanations about how the environment, genetics and culture shape human differences, and how these differences are linked to world progress and understanding are addressed. (WI) (MULT) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3335. Forensic Psychology.**

Examines the relationships between psychology and the processes of the American courtroom. Sample issues to be addressed include; (a) What psychological theories are used to explain jury decisionmaking? (b) How accurate is the memory of eyewitnesses? (c) How do characteristics of defendants influence juries? Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3336. Sport Psychology.**

This course examines the relationships, psychological concepts, and individual's thoughts regarding sports, health and exercise. Sample topics include (1) current theoretical perspectives of personality factors at sports and exercise, (2) why people engage in sports, (3) exercise adherence, (4) mental skills, and (5) the psychological effects of sports and exercise. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3337. Psychology of Prejudice, Discrimination, and Hate.**

This course will explore psychological theories and factors that underlie prejudice, discrimination, and hate. Although the course will focus primarily on these issues as they have developed and influence realities in the United States, global issues will also be explored. (MULT) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**PSY 3338. Service Learning: Protecting the Vulnerable.**

This course examines clinical, legal and psychosocial conditions of adults who, due to mental illness, developmental impairments, brain injuries or aging, are declared "incapacitated" and have court-appointed guardians. Students will serve as the probate court representatives who inspect living conditions and services for individuals under the court-ordered guardianships. Prerequisite: PSY 1300 with a grade of "C" or better and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 3341. Cognitive Processes.**

This course covers the acquisition and use of knowledge, contemporary research on perception, pattern recognition, memory, thinking, problem solving, and language comprehension. (WI) Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3350. Cognitive Behavioral Therapies.**

The course provides theory, research, and application of psychological principles that affect humans in education, business, and personal life. Emphasis is placed on effective use of reinforcement, classroom management, self-control, relaxation, and assertiveness. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3361. Health Psychology.**

Surveys contemporary theory and research on body/mind interaction in physical and mental health. Emphasis on personality, psychosocial, and stress factors in physical health. Other topics include the effects of physical health on psychological well being, pain management, longevity and aging, and coping with illness and dying. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3402. Experimental and Research Methods.**

This course introduces students to basic instruction in experimental design, data collection, and technical report writing in Psychology. By examining applications of various methodologies, this course provides information on the steps involved in crafting and executing empirical research projects as well as instruction on procedures and software. (WI) Prerequisite: PSY 1300 and PSY 2101 and PSY 2301 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 3404. Advanced Research Methods.**

The course provides students with the opportunity to conduct original research in psychology using best practices in research methods. Course requirements include obtaining IRB approval, conducting research, analyzing results and presenting findings in a professional setting. (WI) Prerequisite: PSY 1300 with a grade of "C" or better and PSY 3402 with a grade of "B" or better and instructor approval.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4318. Psychological Tests and Measurements.**

The course provides an introduction to basic principles, research, and theories on testing and measurement of psychological constructs. It includes validity, reliability, item analysis, administration, scoring, and interpretation of existing tests and measures, and construction of new measures including surveys and other psychological instruments. Prerequisites: PSY 1300 and PSY 2101 and PSY 2301 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**PSY 4342. Learning and Memory.**

A study of memory and learning in humans and animals. Attention is given to comparative cognition, cognitive and neuropsychological aspects of memory, and memory deficits. (WI) Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Perspective|Multicultural Content| Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4350. Reality Therapy/Choice Theory.**

This course focuses on Glasser's concepts of Choice Theory and Reality Therapy. This course explores how the "total behaviors" and choices we make impact our lives, the kinds of relationships we want to have with others, health and quality of the life. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4352. Introduction to Clinical Psychology.**

Overview of clinical psychology. Emphasis on current theories and methods of individual psychotherapy. Class discussions of readings, films, audiotapes, and live examples illustrating approaches. Experiential learning via class exercises in pairs and small groups and by role-playing both therapist and client in a series of helping sessions. (WI) Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4390B. Emotion and Human Behavior.**

This course will provide an advanced understanding of the multifaceted phenomenon of emotion and its effect on human behavior. Students will be introduced to the philosophical and theoretical underpinnings of emotion, the various individual emotions (e.g. fear, anger, happiness) and will learn how emotion can affect physical and psychological health.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PSY 4390N. Psychopharmacology.**

This course reviews psychopharmacology topics including: neuronal and chemical mechanisms underlying drug action; environmental factors modulating the impact of drugs on emotion, cognition, perception and behavior; the processes underlying drug dependency, tolerance, and withdrawal; and the implications for drug abuse treatment and prevention strategies, especially concerning adolescents. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PSY 4390P. Human Factors and Ergonomics.**

This course examines characteristics of people that are applicable to the design of systems and technological devices. This course will illustrate how methods and principles of human factors and ergonomics enhance the usability, safety and performance of human-machine systems. Prerequisite: PSY 1300 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PSY 4390Q. Introduction to Developmental Disabilities.**

This course will provide students with perspectives on the causes, manifestations, and treatment of developmental disabilities throughout the lifespan. Historical views and societal issues will be investigated along with current practices and research. Prerequisite: PSY 1300 and PSY 3315 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PSY 4390R. Intermediate Statistics.**

This course introduces statistical methods designed for psychological research with multiple independent variables. Topics include factorial analysis of variance and multiple regression. Interpreting interaction effects is a main focus. This is a practice-based course that will cover both the theoretical constructs and also step-by-step computer procedures. Prerequisite: PSY 1300 and PSY 2101 and PSY 2301 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PSY 4390S. Latinx Psychology.**

This course examines psychological perspectives of the Latinx experience. The importance of culture and its links with the mental health, educational attainment, sexuality, gender expression, and the health of Latinos will be explored. Additionally, the course will address the impact of prejudice, discrimination, and acculturation on Latinxs. Students are expected to gain an appreciation and understanding of the influence of Latinx culture on human behavior, an enhanced awareness of challenges facing Latinxs, and critical thinking skills in evaluating the validity of psychological knowledge about Latinxs. Prerequisite: PSY 1300 with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4391. History and Theory.**

Study of the evolution of psychology as a science through a systematic review of the principal scientific and philosophic antecedents of modern psychology, and analysis of the status of the major contemporary theoretical schools. (WI) Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4393. International Psychology.**

The course focuses on the history, status, and future directions of scientific and professional psychology throughout the world. It requires reading about, discussing, and writing about the relatively new specialty area of international psychology. The objective is to deepen students' knowledge of psychology's relevance to the solution of global problems. Prerequisite: PSY 1300 with a grade of "C" or better. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4395. Individual Study.**

Students design and execute original research, or engage in extensive fieldwork, in the field of psychology under the supervision of a faculty member. All students planning to attend Graduate School are advised to enroll in the course. May be repeated once for additional credit.

Prerequisite: PSY 1300 and PSY 3402 both with grades of "C" or better and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Writing Intensive

**Grade Mode:** Standard Letter

**PSY 4396. Internship in Psychology.**

Extensive field work in a professional setting related to psychology. May be repeated once for additional credit. Prerequisite: Instructor approval.

**3 Credit Hours. 0 Lecture Contact Hours. 10 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
3. For transfer students, 18 semester credit hours may be transferred from a Texas public institution of higher education for the Psychology Field of Study and be applied to the Bachelor of Arts degree with a major in Psychology at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
PSY 1300	Introduction to Psychology	3
TCCN: PSYC 2301		
PSY 3300	Lifespan Development	3
TCCN: PSYC 2314		
PSY 2301	Introduction to Statistics	3
TCCN: PSYC 2317		
PSY 3331	Social Psychology	3
TCCN: PSYC 2319		
PSY 3315	Psychopathology	3
TCCN: PSYC 2320		
PSY 3322	Brain and Behavior	3
TCCN: PSYC 2330		
<b>Total Hours</b>		<b>18</b>

4. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). Students majoring in Psychology may not minor in Forensic Psychology or Sport Psychology.
5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses). Of these, at least 18 advanced hours must be in Psychology. Sufficient courses from the minor and other electives must be selected to ensure a total of 36 hours of advanced coursework.
6. This major requires 36 semester credit hours including the following Psychology courses:

Code	Title	Hours
PSY 1300	Introduction to Psychology	3
PSY 2100	Professional Seminar	1
PSY 2301 & PSY 2101	Introduction to Statistics and Introduction to Statistics Laboratory	4
PSY 3402	Experimental and Research Methods	4
PSY 3322	Brain and Behavior	3
PSY 4391	History and Theory	3
Group A - Human Development		3
PSY 3300 or PSY 3311 or PSY 3311	Lifespan Development Adolescent Psychology Psychology of Adulthood and Aging	
Group B - Individual Differences/Social Behavior		3
PSY 3315 or PSY 3311 or PSY 3331	Psychopathology Personality Psychology Social Psychology	
Group C - Cognition and Learning		3
PSY 3321 or PSY 3341 or PSY 4341	Sensation and Perception Cognitive Processes Learning and Memory	
PSY Electives		9
<b>Total Hours</b>		<b>36</b>

7. Nine hours of writing intensive (WI) courses are required for graduation.
8. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete

depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

<sup>2</sup> Foundation course for all serious study of psychology; much material covered in later courses depends on a thorough knowledge of topics in these courses. Students must complete a three-semester prerequisite sequence prior to taking PSY 4391 and Group C courses. PSY 1300 is a prerequisite for all other PSY courses (except PSY 2311).

<sup>3</sup> One course from the following may be chosen to satisfy the Mathematics Component Code 020: MATH 1312 (TCCN 1342) MATH 1315 (TCCN 1314), MATH 1317 (TCCN 1316), MATH 1319 (TCCN 1324), MATH 2321 (TCCN 2313), MATH 2417 (TCCN 2412), or MATH 2471 (TCCN 2413).

<sup>4</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

The minor in Forensic Psychology requires 21 semester credit hours. Forensic is defined as "evidence" or "relating to, used in, or appropriate for courts of law." This minor looks at forensic issues from both psychological and criminal justice perspectives. The minor is suitable for criminal justice majors or any individual wishing to pursue a background in psychology and criminal justice. The minor also would be good preparation for those individuals wishing to pursue pre-law or social work and for individuals considering graduate coursework in forensic psychology. This minor is not allowed in the Bachelor of Arts major in Psychology. Enrollment in the following required PSY courses assumes that students will have completed PSY 1300 as part of their social and behavioral science component of the general education core curriculum. If not, PSY 1300 is a prerequisite for PSY 3315, PSY 3316, PSY 3331, and PSY 3335. The prerequisite requirements for CJ 3329 and CJ 4340 will be waived only for students pursuing this minor. This is justified by the fact that students will be exploring many of the issues covered in those requisite courses in the psychology coursework portion of the minor.

Code	Title	Hours
<b>Required Courses</b>		
CJ 1310	Introduction to Criminal Justice	3
CJ 2360	Fundamentals of Criminal Law	3

ANTH 3380	Forensic Anthropology	
CJ 4340	Crime Theory and Victimization	
SOCI 3343	Criminology	
An elective approved by the Department		
<b>Total Hours</b>		<b>21</b>

The minor in Psychology requires 18 semester credit hours.

Code	Title	Hours
<b>Required Course</b>		
PSY 1300	Introduction to Psychology	3
Choose 15 hours of any PSY courses, of which 12 hours must be advanced (3000 or 4000 level)		15
<b>Total Hours</b>		<b>18</b>

The minor in Sport Psychology requires 21 semester credit hours. Sport Psychology examines the relationships between psychological concepts, theories and an individual's thoughts toward health and exercise.

Current theoretical perspectives of personality factors in exercise, why people exercise, exercise adherence, mental skills and the psychological effects of exercise will be investigated. The minor will focus on topics such as methods of training and coaching, teamwork and leadership, motivation and stress, and social issues in sport. Students will study the relationships between brain biology and behavior. Students will learn to apply psychological theories and perspectives toward understanding thoughts about exercise, an individual's willingness to exercise, choice of exercise, and to assess the relationships between physical health and mental health. This minor is not allowed in the Bachelor of Arts major in Psychology.

Enrollment in the required PSY courses assumes that majors will have completed PSY 1300 as part of their social and behavioral science component of the general education core curriculum. If not, PSY 1300 is a prerequisite for PSY 3321, PSY 3331, PSY 3350, PSY 3361, PSY 3322, and PSY 3336.

Code	Title	Hours
<b>Required Courses</b>

[www.soci.txstate.edu](http://www.soci.txstate.edu) (<http://www.soci.txstate.edu>)

Sociology is the scientific study of individuals and groups within society. Through research and critical examination, sociologists study human interaction and social institutions to answer society's most complex questions. The Department of Sociology is home to student-centered faculty who bring diverse research interests into the classroom. Students have the opportunity to take courses from content areas of race and social class, gender and sexuality, criminology and social deviance, aging and dementia, popular culture, social movements, sustainability, and the environment. Sociology remains essential to a liberal arts education by

preparing students to think critically about the world around them while applying practical skills in research methods and data analysis.

Sociology majors may choose the Bachelor of Arts in Sociology or the Bachelor of Science in Applied Sociology. The B.A. degree prepares students for professional or graduate study in the liberal arts tradition; whereas the B.S. provides practical research skills for students who wish to attend graduate school or to enter the work force upon graduation. Both degrees require 39 hours of Sociology coursework; however, the B.S. in Applied Sociology affords students the opportunity to complete an internship prior to graduation. Throughout the internship, students learn how to connect their classroom education to employment or graduate school opportunities.

Both degree programs include a data analysis course where students will use statistical software packages to learn how to collect, analyze, interpret, and present data on a variety of social phenomena. Qualitative and quantitative research courses teach students practical methods for conducting research while enhancing critical thinking and writing skills. Graduates are prepared for a variety of employment opportunities, including law, management, education, non-profit and community work, data analysis, politics and public administration, social services, and human resource management in business, government and industrial settings.

The Department of Sociology provides academic advising and encourages all students - declared and prospective - to take advantage of these services. Suggested degree plans, while helpful in planning an academic schedule, should not be used in lieu of academic advising.

## Bachelor of Arts (B.A.)

- Major in Sociology (p. 616)

## Bachelor of Science (B.S.)

- Major in Applied Sociology (p. 617)

## Minors

- Aging and the Life Course
- Latina/o Studies
- Sociology (p. 619)
- Studies in Popular Culture (p. 619)
- Sustainability Studies (p. 620)

## Courses in Latina/o (LATS)

### LATS 2300. Introduction to Latina/o Studies.

This course is an introduction to Latina/o studies, which includes an emphasis upon the historical origins, the demographic changes, and contemporary issues facing Latinas/os. It will focus on the development of Latina/o ethnicities, identities, and their impact in American society. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

### LATS 4300. Independent Research in Latina/o Studies.

This course is an independent study course in Latina/o Studies with readings, research, and tutorials for students pursuing projects outside the context of regularly offered courses. Students engage in learning about Latina/o Studies through readings, research, an oral presentation, and the creation of a bibliography approved by the instructor. (WI) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

### LATS 4325. Latina/o Identities, Communities and Social Change.

This course examines the social continuities, sociopolitical and geographic complexities, and diversities of Latina/os in the U.S. It focuses on crucial issues confronting Latina/os such as the role of race, culture, identity, community development, and leadership practices influencing public policy.(MULT) Prerequisite: LATS 2300 with a minimum grade of a "C".

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Sociology (SOCI)

### SOCI 1310. Introduction to Sociology.

A survey of the basic concepts in sociology including social organization, culture, socialization, groups, and human population leading to the development of a sociological perspective of human behavior. SOCI 1310 and SOCI 3300 may not both be counted for credit. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Soc & Behav Sciences Core 080|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SOCI 1301

### SOCI 3307. Statistics for the Behavioral Sciences.

The application of descriptive and inferential statistics of behavioral science data.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### SOCI 3317. Popular Culture and Society.

The content of popular culture, including movies, television, genre novels, popular music, fads and fashion, sports, contemporary folklore, festivals and celebrations, clothing and body decoration, and related cultural material, is examined and analyzed for social significance. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3318. Applied Data Analysis.**

This course introduces the student to some of the uses of various existing statistical software packages including proper application, limitations, and interpretations of results. Prerequisite: SOCI 3307 with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3320. Population Dynamics.**

A study of the composition of the world's population, focusing on growth, problems, politics, and controls. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3322. Sociology of Latinos and Immigration.**

This class will examine the impact that immigration and migration have on the growth of the Latino population as well as current debates surrounding immigration and its future in the U.S.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3323. Sociology of Consumption.**

Consumption is an integral part of social life in the United States, shaping how we see ourselves and others. While consumption can enhance consumers' lives, it is linked to a host of social and environmental problems. This course critically examines such problems and explores alternatives to the way of life that is consumerism.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3324. Social Stratification.**

The study of inequality as it relates to occupational, educational, religious, political, and other social activities. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3325. Social Deviance.**

Theoretical and descriptive analysis of the major types of deviant behavior.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3327. Sociology of Racial and Ethnic Relations.**

This course focuses upon sociological perspectives in understanding race, ethnicity, and the relations between minority and majority groups with special reference to the American scene. (MULT) (MULP).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Perspective|Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3328. Complex Organizations.**

The study and analysis of complex organizations, bureaucracies, and professions and their influence on individuals and society and its institutions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3329. Life Course Sociology.**

This course examines major sociological approaches to the study of the human life course. Theoretical approaches reviewed include age stratification, the life course perspective, and constructivist and critical approaches to the life course.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3330. Globalization and Development.**

This course covers the sociology of globalization and development. Students will learn about theories of globalization; the effects of globalization on cultural, economic and political life; and factors at different levels of analysis affecting socioeconomic development, security, human rights, and democracy around the world. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3331. Social Movements.**

This course examines social movements – the repeated display of collective action outside sanctioned political channels to bring about social change. Different theoretical approaches to social movements are reviewed to determine how movements organize, attract members, utilize resources, ideologically frame their issues, and engage in nonconventional tactics to influence public policy.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3333. The Sociology of Popular Music.**

This course explores the dynamic and interactive relationships between music, culture, and society. Popular American music - from blues, gospel, ragtime, jazz, country, and swing to rock, disco, punk, alternative, and rap - will be analyzed as reflections of culture, as society's "voice," and as a powerful instrument of socialization and social change. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3334. Mind and Society.**

This course provides an overview of mental health and illness with an emphasis on how social environments and structures influence mental well-being. The course explores the causes and consequences of mental health disorders. The course examines policies and programs aimed at improving mental health in society.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3337. The Family.**

A comparative study of the family in various cultures, both historical and contemporary, with attention to the family in terms of social organization, social change, and social disorganization. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3338. Family Problems.**

This course applies sociological knowledge to common problems encountered in families: spouse and child abuse, elder abuse, catastrophic illness, suicide, unemployment, poverty, teen pregnancy, aging and gender issues. Worldwide traditions and norms affecting the institution of the family are also reviewed. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3340. Sociology of Sport and Leisure.**

The theories and research in leisure and popular culture will serve as the broad framework. An emphasis will be placed on the sub-area of sport sociology, including such topics as sport and aggression, competition, children, women, minorities, professionalism, and others. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3343. Criminology.**

The various theories of crime, the cause of crime, areas of crime, treatment of criminals through the courts, punishment, reform, education, probation, and parole, and means of crime prevention. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3347. Juvenile Delinquency.**

Delinquency in modern society, basic factors and conditions of juvenile delinquency, and the problem of delinquency control. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3349. Drugs and Society.**

A sociological examination of the social context of drug abuse with emphasis on the social factors, processes, and institutions that impact drug abuse. Applications of sociological theories and research methods will be studied. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3350. Gender and Society.**

This course examines the relations between gender roles throughout the world. Special attention is given to changes in these roles and the consequences of such changes for societies, including familial, marital, and sexual relationships. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3353. Urban Society.**

A study of urbanization as a social phenomenon with attention to traditional sociological studies of the community. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3358. Work and Society.**

This course will explore sociological studies of work and occupations, including the structure of work, economic changes, and concerns of workers such as earnings, promotions, and unemployment. It is divided into three main topics: the social organization of work, current work trends, and inequalities at work. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3363. Medical Sociology: The Sociology of Health and Illness Behavior.**

An examination of the social determinants and consequences of human health, morbidity, and mortality, including considerations of health institutions, organizations, professionals, and clients. Social epidemiology of human diseases and mortality and changing relationships of acute and chronic diseases are stressed. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SOCI 3365. Society and Environment.**

This course addresses issues emerging from the reciprocal relationship between society and its environment. The impacts of social and economic organization, social class, and government policies on the physical and social milieu will be examined in order to produce a better understanding of social and environmental interactions. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3367. Sustainable Cities.**

This course uses sociological insight to develop a broader understanding of key concepts and debates about the sustainability of cities.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3372. Food and Society.**

This course surveys the sociological study of food. Students will examine how people in societies socially construct "food"; how people obtain food and the implications of this process for our health, economy, and environment; and how food relates to issues of race-ethnicity, social class, and gender. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3375M. Latinos and Aging.**

This course offers an understanding of the growing Latino aging population in American society, highlighting issues related to their social, familial, economic, physical, and mental well-being. This course will also cover social programs, health and human service needs, and social policies affecting Latino elders. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics

**Grade Mode:** Standard Letter

**SOCI 3375N. Urban Sociology in Comparative Perspective.**

Topics include the historical development of cities, cities as engines of culture, planning, and gentrification. The comparative emphasis permits analysis of London in light of corresponding phenomena in American cities.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**SOCI 3375O. Culture and Society in Comparative Perspective.**

Topics include cultural change and diffusion and social concerns such as inequality, gender, popular culture, etc. The comparative emphasis permits analysis of these phenomena in England vis-à-vis the United States.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**SOCI 3375P. Sociology of Religion: A Global Perspective.**

This course is an introduction to the tools and concepts central to the sociological study of religion and religiosity. It takes a global perspective on religions, inspecting the ideas of classic and modern sociological theorists concerning the various roles, functions, conflicts, prejudices and symbols of religion.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**SOCI 3383. Aging and Society.**

This course is an introduction to the sociology of aging and social gerontology. It employs a multicultural perspective to examine diversity in the aging process as influenced by societal forces. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 3384. The Sociology of Death and Dying.**

A study of the sociological and social psychological perspectives on death and dying in contemporary societies with particular emphasis on the meanings of death, on dying as a social process, and on death in the context of both social organization and the life cycle.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3390. Technology and Society.**

The subject of this course is the relationship between technologies and social institutions. Topics covered may include but are not limited to theories of sociotechnical change, diffusion, social constructivism, modernity and rationalism, and case studies of transformative technologies such as the clock, the car, and the birth control pill.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SOCI 3395. Sociology of Sexuality.**

Sexuality is explored from a social constructionist perspective, in contrast to essentialist and biological determinist perspectives dominating the Western understanding of sexual roles and behavior. Sexual identity, desire, behavior, response, and health are viewed as socially constructed, largely in response to concerns about societal order. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SOCI 4306. Sociological Theory.**

This course examines classical sociological theories and the contemporary theories that follow from them. The major approaches covered are functionalism, conflict theory, symbolic interaction, and phenomenology. (WI) (MULT) Prerequisite: Departmental approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SOCI 4308. Quantitative Research Methods.**

Basic issues in social research are introduced, while emphasizing design and analysis of quantitative research studies. Research exercises culminate in a major research paper analyzing secondary data from The General Social Survey. Critique of published research articles is also required. (WI) Prerequisite: SOCI 3307 with a grade of "D" or better. Corequisite: SOCI 3318 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**SOCI 4309. Qualitative Research Methods.**

This course examines issues in the sociological research process with an emphasis on qualitative methods. Students will design, propose, and submit a qualitative study based on an extensive review of the sociological literature. (WI) Prerequisite: Departmental approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**SOCI 4360. Directed Study.**

A course of independent study open to superior students. May be repeated with different emphasis. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

**SOCI 4690. Internship in Applied Sociology.**

This course is a supervised work experience related to students' career interests. Requirements include seminars and a 300-hour internship for 15 weeks during long semesters or 10 weeks in the summer. This course is limited to BS majors who meet all prerequisites and can be taken for credit only once.

**6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).

4. For transfer students, 12 semester credit hours in Sociology (or their equivalents) may be transferred from a Texas public institution of higher education for the Sociology Field of Study (FOS) and be applied to the Bachelor of Arts degree with a major in Sociology at Texas State University. More information about the [Field of Study \(<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>\)](http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list. In the case where there is no Texas State University course number equivalent to a FOS number, an advanced elective will be counted.

Code	Title	Hours
SOCI 1310	Introduction to Sociology	3
TCCN: SOCI 1301		
SOCI Advanced Elective		3
TCCN: SOCI 1306		
SOCI Advanced Elective		3
TCCN: SOCI 2301		
SOCI Advanced Elective		3
TCCN: SOCI 2319		
Total Hours		12

5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. Nine hours of writing intensive courses are required for graduation.
7. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
8. Students in the B.A. major in Sociology are required to complete the following Sociology courses:

Code	Title	Hours
SOCI 1310	Introduction to Sociology	3
SOCI 3307	Statistics for the Behavioral Sciences	3
SOCI 3318	Applied Data Analysis	3
SOCI 4306	Sociological Theory	3
SOCI 4308	Quantitative Research Methods	3
SOCI 4309	Qualitative Research Methods	3

The remaining 21 hours of coursework may be selected from any 21 SOCI advanced courses. Students are encouraged to consult with the undergraduate academic advisor for elective course selection.

SOCI 3318	Applied Data Analysis	3
SOCI 4306	Sociological Theory	3
SOCI 4308	Quantitative Research Methods	3
SOCI 4309	Qualitative Research Methods	3
SOCI 4690	Internship in Applied Sociology	6

The remaining 15 hours of upper division sociology coursework should be related to their occupational goals or free SOCI advanced electives. Courses should be chosen with the advice of the undergraduate academic advisor.

3. In addition to general education core curriculum and degree requirements, students must complete two semesters of coursework in the same foreign language (1410, 1420) unless they successfully completed two years of foreign language in high school, and must complete one additional English sophomore literature course or ENG 3303 or ENG 3304.
4. For transfer students, 12 semester credit hours in Sociology (or their equivalents) may be transferred from a Texas public institution of higher education for the Sociology Field of Study and be applied to the Bachelor of Science with a major in Applied Sociology at Texas State University. More information about the [Field of Study](http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/) (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list. The minor in Latina/o Studies requires 18 semester credit hours. The Latina/o Studies minor is an interdisciplinary program for students to learn about social, political, economic, historical and cultural processes that impact Latina/o communities in the United States. Using a complement of courses from disciplines across the university, this minor will: (1) offer an academic and scholarly foundation for students to understand the experiences of Latinas/os using a global perspective; (2) educate students about the cultural competency skills necessary to work with Latina/o communities; and (3) expose students to the theoretical and research methodologies in Latina/o Studies.

The minor requires 18 semester credit hours. Sustainability Studies examines the human dimensions of the environment and sustainability in an interdisciplinary context. The program goals include providing students with an opportunity to explore the connections between social and physical systems, developing skills consistent with critical analysis and interdisciplinary knowledge for students who seek careers in sustainability, and a mechanism for students to learn about sustainability and to apply that knowledge to real-world problems.

The Department of World Languages & Literatures offers courses in, Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, Spanish, and American Sign Language. Instruction focuses on the acquisition of proficiency in the language and on the development of knowledge of the culture, traditions, and literature of the communities. The department also offers several faculty-led and independent education abroad programs as well as experiential learning opportunities including professional internships and service learning. Students who major in French, German, or Spanish complete 24 hours of upper division coursework and may simultaneously earn teacher certification. Students who minor in French, German, or Spanish complete 15 hours of upper division coursework, and students who minor in Arabic, Italian, Japanese, or Chinese complete 12 hours of upper division coursework. Students are offered courses focusing on literature, culture, linguistics, and professional contexts. For language coursework that is not offered at Texas State, the "MODL" course prefix is used as a transcript placeholder to allow students to receive transfer credit for successful completion of the language coursework from other universities. "MODL" is also used for students who receive the requisite score on the ACTFL-OPI exam in a language for which no prefix exists. The "MODL" course is not an academic credit bearing course.

Individuals with proficiency in a second language are always in demand in both the public and private sectors. They facilitate communication among people and nations and make possible the free interchange of information and ideas. Career opportunities abound in such diverse fields as national security, international business, marketing, international law, foreign affairs, criminal justice, AI & UX, translation, interpretation, politics, publishing, journalism, broadcasting, social work,

and teaching. Job candidates with advanced foreign language skills and an international perspective generally receive greater consideration from potential employers.

## Modern Languages Requirement

Students seeking a Bachelor of Arts (B.A.) degree are required to successfully complete an intermediate proficiency level in a language of their choice. Students with limited language background may need to complete the first year of the language (1410 and 1420) before beginning the intermediate level (2310 and 2320). Contact the Department of World Languages & Literatures for information concerning placement exams for beginning and intermediate language coursework. Students can choose from the following language courses:

Code	Title	Hours
ASL 2310 & ASL 2320	Intermediate American Sign Language I and Intermediate American Sign Language II	
ARAB 2310 & ARAB 2320	Intermediate Arabic I and Intermediate Arabic II	
CHI 2310 & CHI 2320	Intermediate Chinese I and Intermediate Chinese II	
FR 2310 & FR 2320	Intermediate French I and Intermediate French II	
GER 2310 & GER 2320	Intermediate German I and Intermediate German II	
ITAL 2310 & ITAL 2320	Intermediate Italian I and Intermediate Italian II	
JAPA 2310 & JAPA 2320	Intermediate Japanese I and Intermediate Japanese II	
LAT 2310 & LAT 2320	Intermediate Latin I and Intermediate Latin II	
POR 2310 & POR 2320	Intermediate Portuguese I and Intermediate Portuguese II	
RUSS 2310 & RUSS 2320	Intermediate Russian I and Intermediate Russian II	
SPAN 2310 & SPAN 2320	Intermediate Spanish I and Intermediate Spanish II <sup>1</sup>	

<sup>1</sup> Students who choose Spanish to satisfy their B.A. language requirement must earn a grade of "C" or better in each course (SPAN 1410, SPAN 1420, SPAN 2310, and SPAN 2320) to advance to the next level course.

## Bachelor of Arts (B.A.)

- Major in French (p. 636)
- Major in French (Secondary Education; Teacher Certification in French, Early Childhood through Grade Twelve, with Double Major in B.A. Education)
- Major in German (p. 639)
- Major in German (Secondary Education; Teacher Certification in German, Early Childhood through Grade Twelve, with Double Major in B.A. Education)
- Major in Spanish (p. 641)
- Major in Spanish (Hispanic Literature and Culture Concentration) (p. 642)

- Major in Spanish (Secondary Education; Teacher Certification in Spanish, Early Childhood through Grade Twelve, with Double Major in B.A. Education)
- Major in Spanish (Spanish for the Professions Concentration) (p. 645)
- Major in Spanish (Spanish Linguistics Concentration) (p. 646)

## Certificate

- Business Spanish (p. 648)
- Professional Spanish (p. 648)

## Minors

- Arabic (p. 648)
- Chinese (p. 649)
- French
- German (p. 649)
- Italian (<http://mycatalog.txstate.edu/undergraduate/liberal-arts/world-languages-literatures/italian-minor/>)
- Japanese (p. 649)
- Spanish (p. 649)

**Subjects in this department include: ASL (p. 621), ARAB (p. 622), CHI (p. 623), FR (p. 624), GER (p. 627), HSPN (p. 629), ITAL (p. 629), JAPA (p. 630), LAT (p. 631), LING (p. 632), POR (p. 632), RUSS (p. 632), SPAN (p. 633).**

## Courses in American Sign Language (ASL)

Note: American Sign Language courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or <http://www.studyanywhere.txstate.edu/>

**ASL 1410. Beginning American Sign Language I.**  
Introduction to understanding and using American Sign Language within the cultural framework of the deaf community. Students who take ASL 1410 toward degree requirements must also complete ASL 1420. (MULT).  
**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**  
**Course Attribute(s):** Multicultural Content  
**Grade Mode:** Standard Letter  
**TCCN:** SGNL 1401

**ASL 1420. Beginning American Sign Language II.**  
Continued practice in understanding and using American Sign Language within the cultural framework of the deaf community. Students who take ASL 1410 toward degree requirements must also complete ASL 1420. Prerequisite: ASL 1410 with a grade of "D" or better. (MULT).  
**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**  
**Course Attribute(s):** Multicultural Content  
**Grade Mode:** Standard Letter  
**TCCN:** SGNL 1402

**ASL 2310. Intermediate American Sign Language I.**

Continued development and review of American Sign Language within the cultural framework of the deaf community. Prerequisite: ASL 1420 with a grade of "D" or better. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SGNL 2301

**ASL 2320. Intermediate American Sign Language II.**

More advanced practice in American Sign Language within the cultural framework of the deaf community. Prerequisite: ASL 2310 with a grade of "D" or better. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SGNL 2302

## Courses in Arabic (ARAB)

Note: Arabic courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or <http://www.studyanywhere.txstate.edu/>

**ARAB 1410. Beginning Arabic I.**

Introduction to listening, speaking, reading, and writing skills within an Arabic cultural framework. Students who take ARAB 1410 toward degree requirements must also complete ARAB 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ARAB 1411

**ARAB 1420. Beginning Arabic II.**

Continued practice in listening, speaking, reading, and writing skills within an Arabic cultural framework. Students who take ARAB 1410 toward degree requirements must also complete ARAB 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ARAB 1412

**ARAB 2310. Intermediate Arabic I.**

Continued development and review of all language skills within an Arabic cultural framework. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ARAB 2311

**ARAB 2320. Intermediate Arabic II.**

More advanced practice in all language skills with greater emphasis on reading within an Arabic cultural framework. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ARAB 2312

**ARAB 3301. Levantine Arabic.**

An introduction to Arab dialects with a focus on Levantine Arabic ( Jordan, Syria, Lebanon, and Palestinian territories). The course will emphasize oral communication and using the dialect correctly in its cultural context. It will also compare Levantine Arabic to Modern Standard Arabic. Repeatable once with different content. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**ARAB 3302. Media Arabic.**

Introduction to Arab media designed to advance students' proficiency in Arabic. It will present cultural characteristics of Arab media and describe how those characteristics differ from those of US media. The course will increase students' vocabulary knowledge and enable them to understand various Arab media sources. Repeatable once with different content. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**ARAB 3303. Business Arabic.**

This course focuses on the use of written Arabic in business contexts, as well as economic, demographic, and cultural factors that influence commercial interactions in the Arabic-speaking world.(MULT)  
Prerequisite: ARAB 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ARAB 3304. Arab Civilization and Culture.**

Students study the civilizations and cultures of the Arab world. The course provides background for understanding Arab societies.(MULT)  
Prerequisite: ARAB 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**ARAB 4390. Studies in Arabic Language and Culture.**

In this course students will conduct an independent study project on Arabic language or culture. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

## Courses in Chinese (CHI)

Note: Chinese courses are taught by extension. For additional information please contact the Offi of Correspondence and Extension Studies at 512.245.2322 or <http://www.studyanywhere.txstate.edu/>

**CHI 1410. Beginning Chinese I.**

Introduction to listening, speaking, reading, and writing skills within a Chinese cultural framework. Students who take CHI 1410 toward degree requirements must also complete CHI 1420. (MULT)

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** CHIN 1411

**CHI 1420. Beginning Chinese II.**

This course provides continued instruction and practice in listening, speaking, reading, and writing skills within a Chinese cultural framework. Students who take CHI 1410 toward degree requirements must also complete CHI 1420. (MULT) Prerequisite: CHI 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** CHIN 1412

**CHI 2310. Intermediate Chinese I.**

This course provides continued development and review in listening, speaking, reading, and writing skills within a Chinese cultural framework. (WI)(MULT) Prerequisites: CHI 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** CHIN 2311

**CHI 2320. Intermediate Chinese II.**

This course provides more advanced practice in all language skills with greater emphasis on reading within a Chinese cultural framework. (WI)(MULT) Prerequisites: CHI 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** CHIN 2312

**CHI 3301. Conversational Chinese.**

This course is designed to improve oral communication skills in Chinese using current video and text media. The course will include the development of vocabulary and grammar necessary for communication and will focus on selected cultural themes. Students' group video projects will be posted on a course blog. Course may be repeated once for credit when topics vary. (WI)(MULT) Prerequisites: CHI 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**CHI 3302. Chinese for Business.**

This course focuses on the use of written and spoken Chinese in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions. Students learn to use formal Chinese to write reports, job-related letters, and emails and to give presentations. (MULT) Prerequisite: CHI 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**CHI 3303. Chinese for Media.**

This course focuses on the study of Chinese-language media to enhance understanding of political affairs and social concerns while developing students' oral and written language skills. The course includes materials from various types of media outlets from across the Chinese-speaking world. (MULT) Prerequisite: CHI 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**CHI 3304. Chinese-English Translation.**

This course engages students in translation as a method of improving their reading ability in Chinese as well as developing the cultural competence needed to render the nuances of Chinese texts into English. The course emphasizes key concepts of translation theory and methodology. Texts include media articles, literature, and professional or technical texts. Prerequisite: CHI 3302 or CHI 3303 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CHI 3305. Modern Chinese Literature and Film.**

This course offers a survey of Chinese and Taiwanese literature and film in the Chinese language since the beginning of the 20th century. Readings include poems, short stories, and essays in styles as varied as revolutionary, romantic, modernist, nativist, popular, and experimental. Major themes of discussion include tradition and modernity, masculinity and femininity, elite and popular, individual and national identities, class consciousness, and tensions between Chinese and Western culture. This course is taught in Chinese. Written texts are level-appropriate excerpts or abridged editions of original works. Films are shown in Chinese with English subtitles. The course includes a service-learning component. Prerequisite: CHI 3302 or CHI 3303 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CHI 4390. Studies in Chinese Language and Culture.**

Students will conduct an independent study project in Chinese language or culture. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

## Courses in French (FR)

**FR 1410. Beginning French I.**

Introduction to listening, speaking, reading, and writing skills within a French cultural framework. Students who take FR 1410 toward degree requirements must also complete FR 1420. (MULT)

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** FREN 1411

**FR 1420. Beginning French II.**

Continued practice in listening, speaking, reading, and writing skills within a French cultural framework. Students who take FR 1410 toward degree requirements must also complete FR 1420. (MULT) Prerequisite: FR 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** FREN 1412

**FR 1421. Beginning French for Speakers of Spanish.**

This course introduces speakers of Spanish to listening, speaking, reading, and writing skills within a French-speaking cultural framework. Students apply their knowledge of Spanish to communicate more effectively in French. Students may not apply credit to their degree plans for both FR 1420 and FR 1421.

**4 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**FR 2310. Intermediate French I.**

Students will continue to develop and review all language skills within a French and Francophone cultural framework. (MULT) Prerequisite: FR 1420 or FR 1421 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** FREN 2311

**FR 2311. Intermediate French for Speakers of Spanish I.**

This course facilitates Spanish speakers to continue to develop and review all language skills within a French-speaking cultural framework. Spanish speakers will apply their knowledge of Spanish to communicate more effectively in French. Students may not apply credit to their degree plans for both FR 2310 and FR 2311. Prerequisite: FR 1420 or FR 1421 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**FR 2320. Intermediate French II.**

Students will practice more advanced language skills with greater emphasis on reading within a French cultural framework. (MULT) Prerequisite: FR 2310 or FR 2311 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** FREN 2312

**FR 2321. Intermediate French for Speakers of Spanish II.**

This course exposes students to the practice of more advanced language skills with greater emphasis on reading within a French-speaking cultural framework. Spanish speakers will apply their knowledge of Spanish to communicate more effectively in French. Prerequisite: FR 2310 or FR 2311 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**FR 3303. French Composition and Conversation.**

This course introduces students to extended writing and conversation in French. Students will examine contemporary French and Francophone life from a variety of focuses: social, cultural, and professional. This course will prepare students for taking other advanced literature, cultural, and business courses in French. (MULT) Prerequisite: FR 2320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 3305. Acting French.**

An introduction to upper division courses in French designed to strengthen reading skills and oral command of the language through the study and performance of short French plays from the classical to the contemporary period. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**FR 3306. Masterpieces of French Literature.**

Masterpieces of French literature in various genres from different periods with emphasis on the modern period. Repeatable for credit with different emphasis. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 3308. French Translation I.**

This course introduces students to translation from French to English. Students identify key translation techniques, interpret and discuss French texts, and propose translations for them. They compare, analyze and evaluate translations and revise their own work based on suggestions. This course prepares students for a course in specialized translation. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 3310. French Pronunciation and Intonation.**

Study and intensive practice of problems in French pronunciation and intonation. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**FR 3341. Advanced Grammar in French.**

A study of more advanced grammatical, syntactical, and stylistic problems in mastering the French language with the aim of strengthening students' command of the structure of French and developing skills for more effective writing. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**FR 3350. History of French Cinema I, 1895-1960.**

This course introduces students to the history of French Cinema from the medium's origins in 1895 to the late 1950s. Students will learn about major developments in film narrative and technology in France from the silent to the classic eras. May be repeated for credit when topic varies. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 3351. Cinema of the French-Speaking World, 1960-present.**

This course introduces students to the history of cinema of the French-speaking world from the late 1950s to the present. May be repeated for credit when topic varies. (MULT)(WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 3381. Business French I.**

A course designed for students interested in business related careers. The course will help students to become familiar with basic French business language and the specifics of Francophone business cultures. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**FR 4304B. French Genre Fiction.**

This course focuses on the study of specific fictional works associated with a particular genre (e.g., crime fiction, the fantastic, and science-fiction) and the authors who are exemplars of that narrative category. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4304C. Francophone Literature, Cinema, and Culture.**

This course introduces students to the richness and diversity of the Francophone world through the study of its literature, film, and art. Prerequisite: FR 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4304D. Iconic Figures of the French-Speaking World.**

This course introduces students to major historical periods and/or cultural movements through the examination of an iconic figure-actual or allegorical-that served as a catalyst of events and cultural productions in the French-speaking world. The course may be repeated for credit when topic varies.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4307. Study of French Language.**

This course introduces students to the scientific study of the French language through discussion of readings with examples in both English and French.(MULT) Prerequisite: FR 3310 or FR 3341 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4308. French Translation II.**

This course provides a theoretical framework for the advanced study of translation and an introduction to specific fields such as legal, business, financial, technical and medical translation as well as localization. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4330A. History of French Media.**

This course introduces students to a survey of the history of the French press from the early modern to the post-World War II period. Topics include the roles of ideology and collective memory, of illustration and caricature, of propaganda and censorship, and of the development of the French intellectual figure. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4330B. Contemporary Issues in French Media.**

This course focuses on contemporary French media – printed, broadcast, and online – from the postwar period to the present. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4341. French Composition and Stylistics.**

Students will incorporate their more advanced grammatical and syntactical skills with the study of style in the writing of compositions in French. Writing exercises will explore a variety of expository techniques from description, narration, dialogue, portraits, to the writing of letters. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4350A. French Poetic Realist Cinema.**

This course will study the films and directors associated with Poetic Realism, the film style of the 1930s in France and an important precursor to Italian Neorealism.(MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics

**Grade Mode:** Standard Letter

**FR 4350C. French Directors' Series.**

This course offers students an in-depth examination of the films, themes, and styles associated with specific contemporary or classic French directors. Taught in English. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4370. Cultures of the French-Speaking World.**

This course is a survey of the cultural institutions of France or the French-speaking world. Repeatable for credit with different emphasis. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**FR 4380. Service-Learning in French.**

This course is a supervised work (business or educational) or volunteer (refugee shelter) experience in a French-speaking environment. Students work a minimum of 75 hours, performing duties at least 80% in French. Prerequisite: FR 2320 with a grade of "D" or better AND department approval.

**3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**FR 4390. Studies in French Culture, Language, or Literature.**

A course designed to offer students an opportunity to pursue independent studies in special areas of interest beyond those of other catalog courses. The course is generally available only to graduating seniors who have completed at least two advanced courses or graduate students with special needs. May be repeated once for additional credit. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

## Courses in German (GER)

**GER 1410. Beginning German I.**

Introduction to listening, speaking, reading, and writing skills within a German cultural framework. Students who take GER 1410 toward degree requirements must also complete GER 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Lab Required|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** GERM 1411

**GER 1420. Beginning German II.**

Continued practice in listening, speaking, reading, and writing skills within a German cultural framework. Students who take GER 1410 toward degree requirements must also complete GER 1420. (MULT) Prerequisite: GER 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Lab Required|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** GERM 1412

**GER 2310. Intermediate German I.**

Continued development and review of all language skills within a German cultural framework. (MULT) Prerequisite: GER 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** GERM 2311

**GER 2320. Intermediate German II.**

More advanced practice in all language skills with greater emphasis on reading within a German cultural framework. (MULT) Prerequisite: GER 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** GERM 2312

**GER 3304A. German Cinema.**

This course explores German film, history, and theory. Emphasis is placed on the interrelation of German and American uses of the medium. The course includes classic style (1910s), German Expressionism (1920s), cinema of Nazi Propaganda (1940s), the period of reconstruction (1950s), and the German New, and New New Waves. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**GER 3304B. German Colonialism, Orientalism, and Exoticism in Film and Literature.**

This course surveys German colonial narratives and theories from the 19th and the mid-20th century. The course examines how critics today interpret the political and aesthetic tropes around which texts are organized, focusing on how these "colonial fantasies" emphasized national differences between German and other European powers. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**GER 3304C. The Many Faces of Weimar Cinema: German Expressionist Films.**

The course provides an overview of the changing roles of German cinema in the early 20th century. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics

**Grade Mode:** Standard Letter

**GER 3304D. German Translation.**

In this course, students approach translation as a method of improving their reading ability in German, not only through language, but also in terms of cultural competence in dealing with texts from the German-speaking world. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics

**Grade Mode:** Standard Letter

**GER 3305. German on the Stage.**

This course is designed to strengthen reading skills and oral command of the language through the study and performance of a classical or contemporary German-language play. May be repeated for credit twice with different topics. (MULT) Corequisite: GER 3310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**GER 3310. German Phonetics.**

This course introduces students to German phonetics, primarily German pronunciation, intonation, and stress. The course is taught in German. It may be repeated once with different content for additional credit. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**GER 3320. Improving German Communication Skills.**

This course provides extensive practice in speaking and writing German and in mastering advanced grammatical structures in speaking and writing. The course may be repeated once with different content for additional credit. Prerequisites: GER 2320 with a grade of "D" or better. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**GER 3341. Review of German Grammar.**

Students will review the foundations of German grammar and expand their skills at the intermediate/advanced level. A strong foundation in German grammar is essential for mastering the language and communicating effectively in it.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GER 3370. The Contemporary German-Speaking World.**

This course provides a background for a better understanding of Germany since the beginning of the twentieth century and of contemporary life and culture in Germany, Austria, and Switzerland. Course activities include oral and written reports. This course is taught in German. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GER 3380. Business German in Global Economy.**

An introduction to the individual economies of each German state, the language and standards of the German business world, the tourist industry of Germany, and Germany's role in the European Community. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**GER 4300. Professional Internship in German.**

This course is a supervised work experience that provides an opportunity to use German in a professional setting. Planning sessions, training, and language lessons prepare students for the internship. Other requirements include reflective practice reports as assigned by the course instructor. Prerequisite: GER 2320 with a grade of "D" or better and department approval.

**3 Credit Hours. 1 Lecture Contact Hour. 6 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GER 4310. Masterpieces of German Literature.**

An examination of major literary works representing the major genres and periods of German literature. The course may be repeated once with different content for additional credit. (MULT) Prerequisite: one GER 3000-level course or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GER 4340. Advanced Conversation, Composition, and Stylistics.**

This course is designed to strengthen command of the language through reading, writing, conversation, and oral presentations in German. The course may be repeated once with different content for additional credit. (WI) (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**GER 4380. German Civilization.**

The course introduces the history and culture of the German-speaking world from the Middle Ages through the nineteenth century. Students explore historical events and developments that have shaped this part of Europe, and engage with original texts that reflect those developments. This course is taught in German. Prerequisite: GER 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**GER 4390. Studies in German Culture, Language, or Literature.**

A course designed to offer students an opportunity to pursue independent studies in special areas of interest beyond those of other catalog courses. The course is generally available only to graduating seniors who have completed at least two advanced courses or graduate students with special needs. Applications must be submitted prior to the registration period each semester. May be repeated once for additional credit. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

## Courses in Hispanic Literature and Culture in English (HSPN)

### HSPN 2301. Cultures and Literatures of the Hispanic World.

In this course, taught in English, students survey writers and texts that reflect the diversity of cultural identities and literary traditions of the Hispanic world, broadly defined. Through study of primary and secondary texts (in English translation), students discover the complex interrelationships among artistic, historical, linguistic, and socio-political factors that inform and enrich writing produced in Latin America, the Caribbean, Europe, and the U.S. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Lang, Phil & Culture Core 040|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Italian (ITAL)

Note: Italian courses are taught by extension. For additional information please contact the Office of Correspondence and Extension Studies at 512.245.2322 or <http://www.studyanywhere.txstate.edu/>

### ITAL 1410. Beginning Italian I.

Introduction to listening, speaking, reading, and writing skills within an Italian cultural framework. Students who take ITAL 1410 toward degree requirements must also complete ITAL 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ITAL 1411

### ITAL 1420. Beginning Italian II.

This course provides continued practice in listening, speaking, reading, and writing skills within an Italian cultural framework. Students who take ITAL 1410 toward degree requirements must also complete ITAL 1420. (MULT) Prerequisites: ITAL 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ITAL 1412

### ITAL 2310. Intermediate Italian I.

This course provides continued development and review of all language skills within an Italian cultural framework. (MULT). Prerequisite: ITAL 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ITAL 2311

### ITAL 2320. Intermediate Italian II.

This course provides more advanced practice in all language skills with greater emphasis on reading within an Italian cultural framework. (MULT). Prerequisite: ITAL 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** ITAL 2312

### ITAL 3308. Advanced Grammar and Composition.

This course is designed to improve writing skills in Italian through the reading and writing of Italian texts. The focus is on writing skills and the reading of selected works from Italian literature. The course may be repeated once with different content. (MULT) Prerequisite: ITAL 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

### ITAL 3309. Italian Film and Media Studies.

This course engages students in a theoretical, methodological and critical debate on Italian film and media of the last 100 years. The course trains students to comprehend, analyze, and participate in Italian and global film and screen media cultures and industries, and to express their thoughts in Italian. The course includes screenings, workshops with visiting professionals, and talks on film and media-related issues. (MULT) Prerequisite: ITAL 2320 with a grade of "D" or better. Corequisite: ITAL 3308 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

### ITAL 4304. Italian Literature and Culture.

This course addresses key historical and aesthetic issues related to Italian literature and culture in the last two millennia. Class discussions, oral presentations and written work provide students with opportunities to develop their Italian skills in the context of literary and cultural topics. Course may be repeated with different emphasis. (MULT) Prerequisite: ITAL 3308 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ITAL 4370. Italian Civilization.**

This survey of the cultural institutions of Italy provides a background for a better understanding of the Italian people, encompassing the development of Italian culture and the forces that have shaped modern Italy. Recent essays, films, and comparative analyses of Italo-American relations will also be presented. Repeatable for credit with different emphasis. (MULT) Prerequisite: ITAL 3308 with a grade of "D" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**ITAL 4390. Studies in Italian Language and Culture.**

Students will conduct an independent study project in Italian language and culture. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

## Courses in Japanese ( JAPA)

**JAPA 1410. Beginning Japanese I.**

This course is an introduction to listening, speaking, reading, and writing skills within a Japanese cultural framework. Students who take JAPA 1410 toward degree requirements must also complete JAPA 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Lab Required|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** JAPN 1411

**JAPA 1420. Beginning Japanese II.**

This course provides continued practice in listening, speaking, reading, and writing skills within a Japanese cultural framework. Students who take JAPA 1410 toward degree requirements must also complete JAPA 1420. (MULT) Prerequisite: JAPA 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Lab Required|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** JAPN 1412

**JAPA 2310. Intermediate Japanese I.**

This course provides continued development and review of all language skills in a Japanese cultural framework. (MULT). Prerequisite: JAPA 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** JAPN 2311

**JAPA 2320. Intermediate Japanese II.**

This course provides advanced practice in all language skills in a Japanese cultural framework. (MULT). Prerequisite: JAPA 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** JAPN 2312

**JAPA 3304. Advanced Japanese Grammar I.**

Course designed to strengthen written command of the language through grammar instruction as well as readings and reports in Japanese. (MULT). Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 3306. Modern Japanese Literature and Culture.**

Students analyze Japanese literature and culture while developing their proficiency in Japanese, increasing their vocabulary in the language, and extending their knowledge of critical kanji necessary for understanding the written language. (MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 3307. Advanced Japanese Writing and Grammar.**

This is a writing-intensive course designed to strengthen students' knowledge of the structure of Japanese and written command of the language. Course may be repeated once with a different emphasis for additional credit. (WI) (MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**JAPA 3308. Advanced Japanese for Business.**

This is an advanced course designed to develop the skills needed to succeed in the complex business world of Japan. Course may be repeated once with a different emphasis for additional credit. (MULT). Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 3309. Japanese Language through Popular Culture.**

Students will improve Japanese reading comprehension through the study of popular Japanese media such as manga (graphic novels) or anime (film animation) or kayoo kyoku (Japanese popular song). The course will emphasize how language is used to tell stories for diverse audiences. Repeatable with different emphases.(MULT) Prerequisite: JAPA 2320 with a grade of "B" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 4301. Japanese-English Translation: Theory and Practice.**

This course introduces the concepts of translation theory, methodology, and practice. The course focuses on Japanese-to-English translation of a variety of sources, including newspaper articles, short stories, essays, social media posts, J-pop lyrics, business documents, and scripts from anime and drama.(MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**JAPA 4304. Advanced Japanese Grammar II.**

This course will build on skills learned in JAPA 3304 to further strengthen command of written Japanese through more advanced grammar topics, readings, and reports.(MULT) Prerequisite: JAPA 3304 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 4310. Postwar Japanese Literature and Film.**

This course focuses on literature and film from the period after World War II in Japan in the context of postwar social, political, and cultural changes.(MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 4320. Japanese Science Fiction.**

The course focuses on Japanese science fiction and its cultural contexts.(MULT) Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**JAPA 4330. Early Modern Japanese Literature & Culture.**

This course introduces students to literature, theater, visual arts, and other aspects of traditional culture of the Tokugawa era (1603-1867). Prerequisite: JAPA 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**JAPA 4390. Studies in Japanese Language and Culture.**

Students conduct an independent study project in Japanese language or culture. The course is recommended for students in their last year who have already completed at least one advanced course. (MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

## Courses in Latin (LAT)

Note: Latin courses are taught by extension. For additional information please contact the Offi of Correspondence and Extension Studies at 512.245.2322 or <http://www.studyanywhere.txstate.edu/>

**LAT 1410. Beginning Latin I.**

Introduction to reading and writing skills in Latin with a Latin cultural framework. Students who take LAT 1410 toward degree requirements must also complete LAT 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** LATI 1411

**LAT 1420. Beginning Latin II.**

Continued practice in reading and writing skills in Latin within a Latin cultural framework. Students who take LAT 1410 toward degree requirements must also complete LAT 1420. (MULT) Prerequisites: LAT 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** LATI 1412

**LAT 2310. Intermediate Latin I.**

Introduction to complex grammatical structures and syntax of Latin. Focus on the application of the rules of grammar and syntax to the translation of original classical texts. Some attention given to the diction and written styles of individual authors. (MULT) Prerequisites: LAT 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** LATI 2311

**LAT 2320. Intermediate Latin II.**

Continued acquisition of complex grammatical structures and syntax. Introduction to reading Latin poetry. Some attention given to meter and scansion as needed. (MULT) Prerequisite: LAT 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** LATI 2312

## Courses in Applied Linguistics and Language Learning (LING)

### LING 3301. Introduction to Translation.

This course provides a foundation for translating various types of texts by building a conceptual framework for confronting practical problems that arise in translation and by introducing key principles and techniques of text analysis and translation strategies. Prerequisite: SPAN 2320 or FR 2320 or GER 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### LING 4307. Foreign Language Acquisition.

An introduction to the nature of language development and to the theories that describe foreign language acquisition and development. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

### LING 4390. Independent Study in Applied Linguistics and Language Learning.

This course is generally open only to students with special needs. Students select a topic in line with their special interests and requirements. May be repeated once with different topic for additional credit.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Standard Letter

## Courses in Portuguese (POR)

Note: Portuguese courses are taught by extension. For additional information please contact the Offi of Correspondence and Extension Studies at 512.245.2322 or <http://www.studyanywhere.txstate.edu/>.

### POR 1410. Beginning Portuguese I.

Introduction to listening, speaking, reading, and writing skills within a Brazilian cultural framework. Students who take POR 1410 toward degree requirements must also complete POR 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** PORT 1411

### POR 1420. Beginning Portuguese II.

Continued practice in listening, speaking, reading, and writing skills within a Portuguese cultural framework. Students who take POR 1410 toward degree requirements must also complete POR 1420. (MULT) Prerequisites: POR 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** PORT 1412

### POR 2310. Intermediate Portuguese I.

Continued development and review of all language skills within a Portuguese cultural framework. (MULT) Prerequisite: POR 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** PORT 2311

### POR 2320. Intermediate Portuguese II.

More advanced practice in all language skills with greater emphasis on reading with a Portuguese cultural framework. (MULT). Prerequisite: POR 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** PORT 2312

### POR 3308. Advanced Composition and Conversation through the Brazilian Short Story.

This course will help students advance their knowledge of the Portuguese language through the reading, discussion, and analysis of modern and contemporary Brazilian short stories. By reading the works of renowned writers students will be able to expand their vocabulary and develop fluent reading and writing skills. (WI) (MULT) Prerequisite: POR 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Russian (RUSS)

### RUSS 1410. Beginning Russian I.

This course is an introduction to listening, speaking, reading, and writing skills within a Russian cultural framework. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

### RUSS 1420. Beginning Russian II.

This course provides continued instruction and practice in listening, speaking, reading, and writing skills within a Russian cultural framework. (MULT) Prerequisite: RUSS 1410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**RUSS 2310. Intermediate Russian I.**

This course provides continued development and review of all language skills within a Russian framework.(MULT) Prerequisite: RUSS 1420 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**RUSS 2320. Intermediate Russian II.**

This course provides more advanced practice in all language skills with greater emphasis on reading within a Russian cultural framework.(MULT) Prerequisite: RUSS 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**RUSS 3302. Advanced Russian I.**

This course provides students an opportunity to develop advanced-level oral and written communication skills in the Russian language, along with enhanced comprehension skills in listening and reading. The course focuses on vocabulary and sentence building; listening and reading comprehension; and pronunciation practice. Prerequisite: RUSS 2320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**RUSS 4301. Advanced Russian through Film.**

This course focuses on Russian and Soviet films. In addition to the thematic and formal aspects of the films, the course examines their social, historical, and cultural contexts. Course activities allow students to develop their skills in reading, writing, speaking, and listening. Prerequisite: RUSS 3301 or RUSS 3302 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**RUSS 4390. Studies in Russian Language and Culture.**

Students will conduct independent study projects in Russian language and culture.(MULT) Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

## Courses in Spanish (SPAN)

**SPAN 1410. Beginning Spanish I.**

Introduction to listening, speaking, reading, and writing skills within a Spanish cultural framework. Students who take SPAN 1410 toward degree requirements must also complete SPAN 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SPAN 1411

**SPAN 1420. Beginning Spanish II.**

Continued practice in listening, speaking, reading, and writing skills within a Spanish cultural framework. Prerequisite: SPAN 1410 with a grade of "C" or better. Students who take SPAN 1410 toward degree requirements must also complete SPAN 1420. (MULT).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SPAN 1412

**SPAN 2310. Intermediate Spanish I.**

Continued development and review of all language skills within a Spanish framework. (MULT) Prerequisite: SPAN 1420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SPAN 2311

**SPAN 2320. Intermediate Spanish II.**

More advanced practice in all language skills with greater emphasis on reading within a Spanish cultural framework. (MULT) Prerequisite: SPAN 2310 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** SPAN 2312

**SPAN 3301. Literatures of Spain I.**

Students will study significant literary texts of the Iberian Peninsula from the Muslim conquest in 711 A.D. through 1700. The course will also consider the literature's historical, religious, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or better. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3302. Literatures of Spain II.**

Students will study significant literary texts of the Iberian Peninsula from the Enlightenment through the twenty-first century. The course will also consider the literature's historical, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or better. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3305. Latin American Literatures I.**

Students will study literary texts in Latin American from the period before the Conquest through the Colonial and Independence periods. The course will also consider the literature's historical, religious, social, and political contexts. Prerequisite: SPAN 3309 with a grade of "C" or better. (MULT) (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3306. Latin American Literatures II.**

Students will study literary texts of Latin American from Modernismo to the twenty-first century. The course will also consider the literature's historical, social, and political contexts. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3307. Advanced Composition for Spanish Heritage Speakers.**

This is an advanced composition course for students who have grown up in an environment in which Spanish is spoken. It is designed to improve writing skills in Spanish through reading and responding to texts in Spanish. Students may not apply credit to their degree plans for both SPAN 3307 and 3308. (MULT) Prerequisite: SPAN 2320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3308. Advanced Composition.**

This advanced composition course is designed to improve writing skills in Spanish through reading and responding to texts in Spanish. Students may not apply credit to their degree plans for both SPAN 3307 and SPAN 3308. (WI) (MULT) Prerequisite: SPAN 2320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3309. Introduction to Hispanic Literature and Literary Analysis.**

This course focuses on writing skills, literary analysis, and the reading of selected works from Spanish, Latin American and Hispanic literature. (MULT) (WI) Prerequisite: SPAN 2320 with a grade of "C" or better. Corequisite: SPAN 3307 or SPAN 3308 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3310. Spanish Phonetics and Phonemics.**

Articulatory phonetics and sound discrimination and production; phonemic and allophonic variants; geographical and social distribution. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SPAN 3311. Business Spanish I.**

This course focuses on the use of written and oral Spanish in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions in the Hispanic world. Topics include business management, banking, and human resources. (WI)(MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3312. Business Spanish II.**

This course focuses on the use of written and oral Spanish in global business contexts, as well as exploring economic, demographic, and cultural factors that influence commercial interactions in the Hispanic world. Topics include marketing, financing, and imports/exports. (WI) (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3313. Spanish and Media.**

This course provides an overview of mass communication in Spanish-speaking regions of the world. Students explore the use of radio, television, newspapers, and the internet as practiced in various Hispanic cultural contexts. Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SPAN 3314. Translation Practice and Theory.**

This course is an introduction to Spanish translation for upper-division students. Students approach translation as a method of improving their reading comprehension—a fundamental skill for translators—while increasing overall Spanish language proficiency and acquiring the cultural competence required to address the complexities of the translation process. Prerequisite: SPAN 3307 or SPAN 3308 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**SPAN 3315. Spanish for Health Professions.**

This course focuses on the use of oral and written Spanish in U.S. and global health professions. Topics include: general and diagnostic health-related terminology in Spanish; communication with Spanish-speaking patients, families, and other health professionals; and the impact of cultural factors on health matters in Hispanic communities. (WI) Prerequisite: SPAN 3307 or SPAN 3308 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3340. Advanced Spanish Grammar and Stylistics.**

This course places major emphasis on syntax, usage, and grammatical nomenclature. (MULT) Corequisite: SPAN 3307 or SPAN 3308 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SPAN 3370. Spanish Civilization.**

Students will study the civilizations and cultures of Spain. The course provides a background for understanding Spanish society. (MULT) (WI)

Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 3371. Latin American Civilization.**

Students will study the cultures of Latin America and the Hispanic U.S. The course provides a background of the history and civilization of both groups. (MULT) (WI) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4300. Professional Internship in Spanish.**

This course is a supervised work experience in a Spanish-speaking environment. Students will work a minimum of 140 hours, performing duties at least 80% in Spanish. Other requirements include internship reports as required by course instructor. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better and instructor approval.

**3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**SPAN 4302. The Spanish Novel.**

Students will study selected novels of Spain from the 16th through the 21st century. The course will also consider the literature's historical, religious, and political contexts. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4311. Historical Aspects of Hispanic Linguistics.**

Course designed to develop knowledge and skills required for analysis and discussion of structural and external aspects of the history of the Spanish language with special focus on word formation and social aspects of language variation. The course provides an overview of morphology, sociolinguistics, and historical linguistics. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SPAN 4312. Contemporary Aspects of Hispanic Linguistics.**

This course is designed to develop knowledge and skills required for analysis and discussion of the structural and social aspects of the Spanish language. The course provides an overview of semantics, syntax, pragmatics, dialectology, and language acquisition in Spanish. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

**SPAN 4330. The Latin American Novel.**

Students will study selected novels from Latin America. The course will also consider the literature's historical and political contexts. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4341. Gabriel Garcia Marquez.**

Students will read and analyze works by Nobel Prize author Gabriel Garcia Marquez, focusing on literature, history, politics and art of Latin America. (WI)(MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4342. Don Quijote.**

Students will read and analyze Miguel de Cervantes' Don Quijote. The course will also consider the novel's literary sources and historical and cultural context. (WI)(MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4350. Hispanic Film.**

Students will study Hispanic artistic, cultural, and historical issues through film and selected readings. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4361. Hispanic Poetry.**

Students will read and analyze selected poems from Latin America and Spain. The course will consider the cultural and historical contexts of the works. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4362. Hispanic Drama.**

Students will read and analyze selected plays from Latin America and Spain. The course will also consider the cultural context of the works. (MULT) (WI) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4370. Hispanic Literature of the Southwest.**

Students will study the Hispanic literature of the Southwest in order to have a better understanding of the cultural diversity of the region. (WI) (MULT) Prerequisite: SPAN 3309 a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4380A. Hispanic Nobel Prizes in Literature.**

Hispanic Nobel prizes in Literature. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4380F. Mexican Literature.**

This course focuses on the most representative works of Mexican Literature produced since Mexican Independence in the early 19th century. Course objectives include a better understanding of major literary trends and the cultural development of Mexican society since its beginning as an independent republic. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4380G. Women, Minorities and Marginal Groups in Medieval Spanish Literature.**

This course will present some of the principal literary works which portray women, religious minorities and marginal groups in medieval Spain. Special focus will be given on deconstructing historical myths and stereotypes based on behavioral, religious and sexual identity as reflected by the authors and their selected works. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4380H. Nature and Nation in Latin American Literature.**

Students will study the interaction of nature and nation in Latin American literature after Independence by taking into account both Western and indigenous approaches to nature. Students will read a selection of literary works that reinforce and/or contest notions of nature, nation and cultural identity. (WI) (MULT) Prerequisite: SPAN 3309 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**SPAN 4390. Studies in Spanish Culture, Language, or Literature.**

The course is generally available only to graduating seniors who have completed several advanced courses or graduate students with special needs. Repeatable for credit with different emphasis. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Multicultural Content

**Grade Mode:** Standard Letter

**SPAN 4600. Professional Internship in Spanish.**

This course is a supervised work experience in a Spanish-speaking environment. Students work a minimum of 280 hours, performing duties at least 80% in Spanish. Other requirements include internship reports as required by course instructor. (MULT) Prerequisite: SPAN 3308 or SPAN 3307 with a grade of "C" or better and instructor approval.

**6 Credit Hours. 0 Lecture Contact Hours. 18 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
- Nine hours of writing intensive (WI) courses are required for graduation.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Students in the Bachelor of Arts (B.A.) degree with a major in French must complete 24 advanced hours in French and maintain a GPA of at least a 2.50 in all advanced French course work to meet graduation requirements.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Graduating seniors must submit a portfolio of their work to the French faculty in their last semester. Details about the portfolio are available in the Department's main office and on the French Program webpage.
- Graduating seniors must participate in an exit interview with French faculty in their last semester. Details about the exit interview are available in the Department's main office and on the French Program webpage.

<sup>1</sup> An ENG Literature course may be selected from the following: ENG 2310 (TCCN ENGL 2322), ENG 2320 (TCCN ENGL 2323), ENG 2330 (TCCN ENGL 2332), ENG 2340 (TCCN ENGL 2333), ENG 2359 (TCCN ENGL 2327), ENG 2360 (TCCN ENGL 2328), ENG 2371

## Minimum Hours: 120 Semester Credit Hours

## Admission Requirements

- All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (<http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/>).

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (<http://mycatalog.txstate.edu/undergraduate/degree-program-information/>) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.

5. The major in French requires 27 hours including 24 hours of advanced French coursework and LING 4307. Students must earn a “C” or higher in all major course work and maintain a major GPA of at least 2.50.
6. Graduating seniors must submit a portfolio of their work to the French faculty in their last semester. Details about the portfolio are available in the Department’s main office and on the French Program webpage.
7. Graduating seniors must participate in an exit interview with French faculty in their last semester. Details about the exit interview are available in the Department’s main office and on the French Program webpage.
8. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a “C”.
9. This degree program is designed to prepare students for all-level teacher certification in French and requires that students pursue a double major by declaring and completing requirements for the major in French and the major in Education. The following courses are required for the major in Education:

Code	Title	Hours
Education Foundation:		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
Teaching and Learning:		
CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
Clinical Practice:		
EDST 4380	Clinical Teaching All-Level I	3
EDST 4381	Clinical Teaching All-Level II	3

10. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/) ([https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas\\_Educators%2FInvestigations%2FPreliminary\\_Criminal\\_History\\_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f94c8cbb%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPt%3D&reserved=0](https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f94c8cbb%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPt%3D&reserved=0)).

11. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list:

Code	Title	Hours
CI 2310	Education for Change	3

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
- Nine hours of writing intensive (WI) courses are required for graduation.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Students in the Bachelor of Arts (B.A.) degree with a major in German must complete 24 advanced hours in German and maintain a GPA of at least a 2.50 in all advanced German course work to meet graduation requirements.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.

## Minimum Hours: 120 Semester Credit Hours

### Admission Requirements

- All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (<http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/>).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (<http://mycatalog.txstate.edu/undergraduate/degree-program-information/>) (B.A.) requires three additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.
3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. The major in German requires 27 hours including 24 hours of advanced German coursework and LING 4307. Students must earn a “C” or higher in all major course work and maintain a major GPA of at least 2.50.
6. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a “C”.
7. This degree program is designed to prepare students for all-level teacher certification in German and requires that students pursue a double major by declaring and completing requirements for the major in German and the major in Education. The following courses are required for the major in Education:

Code	Title	Hours
Education Foundation:		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
Teaching and Learning:		
CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
Clinical Practice:		

EDST 4380	Clinical Teaching All-Level I	3
EDST 4381	Clinical Teaching All-Level II	3

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/) ([https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas\\_Educators%2FInvestigations%2FPreliminary\\_Criminal\\_History\\_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f94%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNv%3D&reserved=0](https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f94%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNv%3D&reserved=0)).
9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. ## Semester Credit Hours

**Admission Requirements**

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (<http://mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/>).

**General Requirements**

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (<http://mycatalog.txstate.edu/undergraduate/degree-program-information/>) (B.A.) requires three

additional hours of English literature, three additional hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor. For this program, the additional literature course may be satisfied by selecting a sophomore literature course for the 040 component of the core curriculum and the second major in Education fulfills the minor requirement.

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine hours of writing intensive (WI) courses are required for graduation.
5. The major in Spanish requires 27 hours including 24 hours of advanced Spanish coursework and LING 4307. Students must earn a "C" or higher in all major course work and maintain a major GPA of at least 2.50. Course requirements include the following:

Code	Title	Hours
SPAN 3307	Advanced Composition for Spanish Heritage Speakers	3
or SPAN 3308	Advanced Composition	
SPAN 3309	Introduction to Hispanic Literature and Literary Analysis	3
SPAN 3340	Advanced Spanish Grammar and Stylistics	3
Select 3 of the following:		9
SPAN 3301	Literatures of Spain I	
SPAN 3302	Literatures of Spain II	
SPAN 3305	Latin American Literatures I	
SPAN 3306	Latin American Literatures II	
SPAN 3370	Spanish Civilization	
SPAN 3371	Latin American Civilization	
Select 2 of the following:		6
SPAN 4302	The Spanish Novel	
SPAN 4330	The Latin American Novel	
SPAN 4341	Gabriel Garcia Marquez	
SPAN 4342	Don Quijote	
SPAN 4350	Hispanic Film	
SPAN 4361	Hispanic Poetry	
SPAN 4362	Hispanic Drama	
SPAN 4370	Hispanic Literature of the Southwest	
SPAN 4380A	Hispanic Nobel Prizes in Literature	
SPAN 4380F	Mexican Literature	
SPAN 4380G	Women, Minorities and Marginal Groups in Medieval Spanish Literature	
SPAN 4380H	Nature and Nation in Latin American Literature	
LING 4307	Foreign Language Acquisition	3
<b>Total Hours</b>		<b>27</b>

6. To satisfy graduation requirements for teacher certification, students must have at least a 2.75 Overall GPA and a GPA of at least 2.50 in all assigned courses in the professional sequence of the Education major with no grade below a "C".
7. This degree program is designed to prepare students for all-level teacher certification in Spanish and requires that students pursue a double major by declaring and completing requirements for the major in Spanish and the major in Education. The following courses are required for the major in Education:

Code	Title	Hours
Education Foundation:		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
Teaching and Learning:		
CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
Clinical Practice:		
EDST 4380	Clinical Teaching All-Level I	3
EDST 4381	Clinical Teaching All-Level II	3

8. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/) ([https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas\\_Educators%2FInvestigations%2FPreliminary\\_Criminal\\_History\\_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f9a%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNv%3D&reserved=0](https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Ftea.texas.gov%2FTexas_Educators%2FInvestigations%2FPreliminary_Criminal_History_Evaluation-FAQs%2F&data=02%7C01%7Cholschuh%40txstate.edu%7C9bbf815b943a454a19a608d656f08553%7Cb19c134a14c94d4caf65c420f9a%7C0%7C0%7C636791988354269026&sdata=iMfRHq4PpASueZ4L69PPbQjwNv%3D&reserved=0)).
9. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Arts degree with a major in Education at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list:

Code	Title	Hours
CI 2310	Education for Change (CI ELNA)	3
TCCN: EDUC 1301		
SPED 4344	Educating Students with Mild Disabilities (CI ELNA)	3
TCCN: EDUC 2301

**Minimum required: 120 semester credit hours**

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of math/science/logic/computer science courses, six hours of 2000-level modern language courses, and a minor.
- Nine hours of writing intensive (WI) courses are required.
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
- Students must complete a minimum of 36 advanced hours (3000 or 40000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Students in the Bachelor of Arts (B.A.) degree with a major in Spanish must complete 24 advanced hours in Spanish and maintain a GPA of at least 2.50 in all advanced Spanish course work to meet graduation requirements. Students must complete the following SPAN required courses: SPAN 3307 or SPAN 3308, SPAN 3309, and SPAN 3340.
- Nine hours must be chosen from the following SPAN Advanced Electives: SPAN 3311, SPAN 3312, SPAN 3313, SPAN 3314, SPAN 3315, SPAN 4300, SPAN 4600. No more than six hours of internship (SPAN 4300 and SPAN 4600) may be applied to the degree.
- Three hours must be chosen from the following SPAN Advanced Electives: SPAN 4302, SPAN 4330, SPAN 4341, SPAN 4342, SPAN 4350, SPAN 4361, SPAN 4362, SPAN 4370, SPAN 4380A, SPAN 4380F, SPAN 4380G, SPAN 4380H.
- Three hours must be chosen from the following SPAN Advanced Electives: SPAN 3301, SPAN 3302, SPAN 3305, SPAN 3306, SPAN 3310, SPAN 3311, SPAN 3312, SPAN 3313, SPAN 3314, SPAN 3315, SPAN 3370, SPAN 3371, SPAN 4300, SPAN 4302, SPAN 4311, SPAN 4312, SPAN 4330, SPAN 4341, SPAN 4342, SPAN 4350, SPAN 4361, SPAN 4362, SPAN 4370, SPAN 4380A, SPAN 4380F, SPAN 4380G, SPAN 4380H, SPAN 4390.

The Department of World Languages and Literatures offers a Certificate in Business Spanish. The program is intended for students who wish to gain targeted, advanced training in Spanish for business without having to complete the full major or minor in Spanish, as well as for those who wish to include the certificate as part of their major or minor. Students in the certificate program will broaden the scope of their scholastic mastery and develop/refine their professional skills, thereby increasing their likelihood of obtaining favorable employment using Spanish in business-related fields in the U.S. and internationally.

The program's advanced coursework in Business Spanish is designed to provide students a competitive advantage by professionalizing their written and spoken Spanish and Spanish/English skills while helping prepare them to meet market demands for Spanish-language proficiency and intercultural sophistication, particularly pertaining to business and commercial employment contexts

The certificate requires 9 semester credit hours of advanced Spanish coursework preceded by up to four lower-division prerequisite courses—between zero and credit 14 hours—or testing equivalency with credit optional. While all undergraduate students may pursue this certificate, it is primarily designed to benefit our many bilingual and heritage speakers of Spanish, who routinely test out of all 14 lower-division Spanish credit hours, and our students who will complete (or test out of) most or all lower-division Spanish courses for the foreign language requirement of all Texas State BA degrees.

Code	Title	Hours
<b>Required Courses</b>		
Testing equivalency or the following:		0-14
SPAN 1410 & SPAN 1420 & SPAN 2310 & SPAN 2320	Beginning Spanish I and Beginning Spanish II and Intermediate Spanish I and Intermediate Spanish II

SPAN 3311	Business Spanish I	3

SPAN 3312	Business Spanish II	3
<b>Total Hours</b>		<b>9-23</b>

Students interested in pursuing the certificate program should contact the Chair of World Languages & Literatures to discuss [testing options for prerequisite coursework](#) in Centennial Hall 214 or visit the Department website at <https://www.worldlang.txst.edu/>.

The Department of World Languages and Literatures offers a Certificate in Professional Spanish. This program is intended for students who wish to gain targeted, advanced training in professional Spanish contexts without having to complete the full major or minor in Spanish, as well as for those who wish to include the certificate as part of their major or minor. Students in the certificate program will broaden the scope of their scholastic mastery and develop/refine their professional skills, thereby increasing their likelihood of obtaining favorable employment related to their area(s) of expertise. The program will significantly expand student access to advanced coursework in professional Spanish.

The certificate requires nine semester credit hours of advanced Spanish coursework preceded by up to four lower-division prerequisite courses—between zero and 14 credit hours—or testing equivalency with credit optional. While all undergraduate students may pursue this certificate, it is primarily designed to benefit our many bilingual and heritage speakers of Spanish, who routinely test out of all 14 lower-division Spanish credit hours, and our students who will complete (or test out of) most or all lower-division Spanish courses for the foreign language requirement of all Texas State BA degrees

The minor in Arabic requires 26 semester credit hours, including 12 upper-division hours in the language. The first two years (or equivalent via testing) of beginning- and intermediate-level course work serve as prerequisites to all upper-division courses. These prerequisites include ARAB 1410, ARAB 1420, ARAB 2310, and ARAB 2320. For most students, the first two years of beginning (1410 and 1420) and intermediate level

(2310 and 2320) courses serve as prerequisites to all upper division courses. However, if a student can successfully complete the three-hour 2320 course or receive credit through testing, the other prerequisite courses may be waived in the minor requirement.

CHI 4390	Studies in Chinese Language and Culture	
<b>Total Hours</b>		<b>26</b>

The minor in French requires 29 semester credit hours. The first two years of beginning and intermediate level courses serve as prerequisites to all upper division courses. These prerequisites include FR 1410, FR 1420, FR 2310, and FR 2320. For most students, the first two years of beginning (1410 and 1420) and intermediate level (2310 and 2320) courses serve as prerequisites to all upper division courses. However, if a student can successfully complete the three-hour 2320 course or receive credit through testing, the other prerequisite courses may be waived in the minor requirement.

Code	Title	Hours
<b>Required Courses</b>		
FR 1410	Beginning French I	4
FR 1420	Beginning French II	4

FR 2310	Intermediate French I	3
FR 2320	Intermediate French II	3
Choose 15 hours of advanced courses in French		15
<b>Total Hours</b>		<b>29</b>

The minor in German requires 29 semester credit hours, including 15 upper division hours in the language. The first two years of beginning and intermediate level course work serve as prerequisites to all upper division courses. These prerequisites include GER 1410, GER 1420, GER 2310, and GER 2320. For most students, the first two years of beginning (1410 and 1420) and intermediate level (2310 and 2320) courses serve as prerequisites to all upper division courses. However, if a student can successfully complete the three-hour 2320 course or receive credit through testing, the other prerequisite courses may be waived in the minor requirement.

Code	Title	Hours
GER 1410	Beginning German I	4
GER 1420	Beginning German II	4
GER 2310	Intermediate German I	3
GER 2320	Intermediate German II	3
Advanced hours in German		15
<b>Total Hours</b>		<b>29</b>

The minor in Japanese requires 26 semester credit hours, including 12 upper division hours in the language. The first two years of beginning and intermediate level course work serve as prerequisites to all upper division courses. These prerequisites include JAPA 1410, JAPA 1420, JAPA 2310, and JAPA 2320. For most students, the first two years of beginning (1410 and 1420) and intermediate level (2310 and 2320) courses serve as prerequisites to all upper division courses. However, if a student can successfully complete the three-hour 2320 course or receive credit through testing, the other prerequisite courses may be waived in the minor requirement.

Code	Title	Hours
<b>Required Courses</b>		
JAPA 1410	Beginning Japanese I	4
JAPA 1420	Beginning Japanese II	4
JAPA 2310	Intermediate Japanese I	3
JAPA 2320	Intermediate Japanese II	3
Choose 12 hours of advanced hours in Japanese		12
<b>Total Hours</b>		<b>26</b>

The minor in Spanish requires 29 semester credit hours, including 15 upper division hours in the language. The first two years of beginning and intermediate level courses serve as prerequisites to all upper division courses. These courses are SPAN 1410, SPAN 1420, SPAN 2310, and SPAN 2320. In addition, SPAN 3307 or SPAN 3308 is a prerequisite to all other upper division courses, and SPAN 3309 is a prerequisite to all other upper division literature courses. For most students, the first two years of beginning (1410 and 1420) and intermediate level (2310 and 2320) courses serve as prerequisites to all upper division courses. However, if a student can successfully complete the three-hour 2320 course or receive credit through testing, the other prerequisite courses may be waived in the minor requirement. The internship SPAN 4300 is available for the minor, but not SPAN 4600.

**Associate Dean for Academic Affairs**

Chad Booth, Ph.D.

**Associate Dean for Research**

Paula Williamson, Ph.D.

**Assistant Dean for Outcomes and Assessment**

Gregory B. Passty, Ph.D.

**Department Chairs/School Directors**

Agricultural Sciences—Madan M. Dey, Ph.D.  
 Biology—Dittmar Hahn, Ph.D.  
 Chemistry and Biochemistry—William J. Brittain, Ph.D.  
 Computer Science—Hongchi Shi, Ph.D.  
 Ingram School of Engineering—Jesus Jimenez, Ph.D.  
 Engineering Technology—James Wilde, Ph.D.  
 Mathematics—Susan Morey, Ph.D.  
 Physics—Edwin Piner, Ph.D.

The College of Science and Engineering has a threefold mission:

To teach core concepts and promote literacy in science and mathematics for a diverse student body, while providing students with advanced knowledge and skills for careers in science, technology, engineering, mathematics, and related fields including education.

To support high-quality teaching and internationally recognized research programs in an inclusive, equitable, and accessible environment for students, staff, and faculty.

To serve the citizens of Texas and the nation with educational and research programs that embrace opportunities for innovation in solving regional and global challenges.

To ensure an understanding of basic scientific and engineering concepts, the college offers extensive opportunities for student participation. Students gain experience in laboratories, interact with the environment through field studies, conduct undergraduate research, participate in design experiences and train using technologically advanced instrumentation. A combination of student participation, rigorous classroom instruction, and hands on experiences gives majors a competitive advantage in career advancement or in the selection of professional or graduate programs. The non-science major is assured of adequate scientific knowledge to make informed decisions essential to citizens in a science-oriented, technological world.

The seven academic units in the College of Science and Engineering are the Departments of Biology, Chemistry and Biochemistry, Computer

Science, Engineering Technology, Mathematics, Physics, and the Ingram School of Engineering.

Majors offered in the College include applied mathematics, aquatic biology, biochemistry, biology, chemistry, civil engineering, computer science, concrete industry management, construction science and management, electrical engineering, engineering technology, industrial engineering, manufacturing engineering, mathematics, mechanical engineering, microbiology, physics, and wildlife biology. In addition, pre-professional minors are available for students interested in applying to physician assistant, dentistry, medicine, or pharmacy programs. Four programs offer a double major with education for students who wish to teach in a secondary education program.

## Academic Advising Center

Centennial Hall Room 202  
 T: 512-245-1315 F: 512-245-9210  
[www.cose.txstate.edu/advising/](http://www.cose.txstate.edu/advising/) (<http://www.cose.txstate.edu/advising/>)

The College of Science and Engineering Undergraduate Academic Advising Center advises current students on academic and administrative issues. Students are informed about matters related to academic general education core requirement, the selection of an appropriate major and minor, the selection of appropriate courses, transfer and correspondence courses, academic probation/suspension, the choice of an educational program leading to a bachelor's degree, and participation in pre-professional minors. The Advising Center is a resource for current students who are considering a major and/ or minor within the College of Science and Engineering and provides assistance for students applying for graduation. Career and professional counseling are available in the academic unit of the student's major and through Career Services.

## Teacher Certification

Currently, there are four programs that offer a double major with education leading to the Texas science- and math- related teacher certification.

- Chemistry (double major with B.S. in Chemistry and Education)
- Life Sciences (double major with B.S. in Biology and Education)
- Mathematics (double major with B.S. in Mathematics and Education)
- Physics/Mathematics (double major with B.S. in Physics and Education)

Students interested in a double major with education are strongly encouraged to see a Science and Engineering Advisor early in their undergraduate program.

## Minors

- Minor in Pre-Dental Studies (p. 650)
- Minor in Pre-Medical Studies (p. 651)
- Minor in Pre-Pharmacy Studies (p. 652)
- Minor in Pre-Physician Assistant Studies (p. 652)
- Minor in Pre-Veterinarian Studies (p. 653)
- Second Teaching Field in Physical Science (Grades 6-12) (p. 654)

The undergraduate minor in Pre-Dental Studies requires 60 semester credit hours. This minor contains prerequisite courses commonly required by dental schools in the United States. Individual dental schools may require or recommend additional courses, and prerequisites can

change without notice. Visit the admissions websites for dental schools you are interested in to ensure you meet all their requirements.

<b>Total Hours</b>		<b>46</b>

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

Agriculture Building Room 206  
Telephone: 512-245-2130

Agricultural Sciences majors have a choice of three different degree tracks:

- Agriculture,
- Animal Science,
- Agricultural Business and Management.

The Department of Agricultural Sciences offers programs reflecting the diversity of choices available and skills required in modern agriculture and its related professions. This dynamic, global industry uses new technologies to improve the production, management, manufacture, and distribution of food and agricultural products.

## Major in Agriculture

Agriculture majors provide a broad exposure to agricultural disciplines. With this curriculum, students may expect to manage a ranch or a farm,

or work in any career that requires a general agriculture education such as county extension agents, banking or government service. Students in this major may pursue the following concentrations/certifications:

- **Horticulture Concentration.** This concentration teaches management of commercial establishments and institutions that produce ornamental plants such as greenhouses and nurseries, floral shops and plant therapy businesses. The major also contains specialized courses in horticulture that utilize greenhouses, the Freeman Center and the Living Library Gardens.
- **Agricultural Mechanics Concentration.** This concentration offers one of the most popular agricultural pathways offered at the secondary level in the state of Texas. The junior agricultural mechanics shows at the major livestock shows and rodeos in Texas are also some of the most well attended events among secondary agriculture students.
- **Teacher Certification in Agriculture, Food and Natural Resources.** A comprehensive educational program concerned with the broad field of agriculture. Emphasis in the major is on production techniques, managerial skills and competencies necessary to function as agricultural scientists, educators, or agricultural managers in today's complex agricultural industry. Agriculture teachers are certified to teach in grades six through twelve in the public schools of Texas.

## Major in Animal Science

The study of all aspects of the livestock and poultry industries including commercial production and management; food processing; and animal feed/animal health including nutrition, biotechnology and veterinary medicine. Involvement of students in ongoing faculty research prepares graduates for careers in research and industry; and for further education in veterinary schools or graduate schools. Students may pursue a Pre-Veterinary concentration with this major. The Pre-Veterinary concentration provides specialized course work required for students planning to enter veterinary school.

## Major in Agricultural Business and Management

This major reaches far beyond the farm to encompass the activities involved in bringing food and fiber to consumers. The degree prepares students to be competent in agribusiness management, agricultural marketing in domestic and international trade, food safety, sustainability, and agricultural and natural resource policy.

## Internship

Students are encouraged to apply for internships and enroll in AG 4310 (<http://mycatalog.txstate.edu/search/?P=AG%204310>) after their junior year. Students will identify a faculty member to facilitate their experience and request permission for enrollment in the internship course. Students are required to have a 3.00 overall GPA. The department will assist students in securing internships in agriculturally related businesses or agencies.

## Minors

The Department of Agricultural Sciences offers five undergraduate minors (Agricultural Mechanics, Agriculture, Animal Science, Horticulture, and Plant and Soil Sciences). Students with a declared major within the Department of Agricultural Sciences require at least nine (9) unique hours to select a minor in another agriculture subject.

## Bachelor of Science in Agriculture (B.S.A.G.)

- Major in Agriculture (p. 662)
- Major in Agriculture (Agricultural Mechanics Concentration) (p. 663)
- Major in Agriculture (Horticulture Concentration) (p. 664)
- Major in Agriculture (Teacher Certification in Agriculture, Food and Natural Resources, Grades 6-12) (p. 666)
- Major in Animal Science (p. 667)
- Major in Animal Science (Pre-Veterinary Concentration) (p. 667)
- Major in Agricultural Business and Management (p. 668)

## Minors

- Agriculture (p. 670)
- Agricultural Mechanics (p. 670)
- Animal Science (p. 670)
- Horticulture (p. 670)
- Plant and Soil Science (p. 670)
- Second Teaching Field in Agriculture, Food and Natural Resources (Grades 6-12)

## Courses in Agriculture (AG)

### AG 1110. Careers in Agriculture.

This course is an introduction to careers available in the broad field of agriculture including an overview of personal and career qualifications needed for workplace success.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1131

### AG 1445. Basic Animal Science.

An introductory course designed to acquaint students with the importance of the livestock industry. A study of the types and breeds; market classes and grades of beef cattle, swine, sheep, goats, horses, and poultry; attention will be given to breeding, judging, care, and management.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1419

### AG 2275. Agricultural Safety.

This course covers the fundamentals of hazards, methods of injury prevention, safety education, regulations and advancing safety and health in the agriculture industry. This course will identify potential industrial hazards and means to mitigate these hazards and develop a culture of safety within an organization.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### AG 2313. Agronomic Crops.

A study of the production, harvest practices, storage, and use of cereal and feed grains, fiber crops, forages, and other related crops requiring special technology.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1307

### AG 2318. Anatomy and Physiology of Livestock and Poultry.

This course provides a fundamental knowledge of major anatomical and physiological features of the skeletal, muscular, endocrine, cardiovascular, urinary, respiratory, and nervous systems of various livestock species. Gross and microanatomy of livestock and poultry will also be covered. Prerequisite: AG 1445 with a grade of a "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### AG 2345. Horse Management.

A course designed as a broad but thorough coverage of most areas of horse husbandry and production, including anatomy, physiology, breeding, feeding, training, and health care. Laboratory sessions are designed to acquaint the student with modern methods of breeding, training, and care of the horse.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

### AG 2373. Introduction to Agricultural Engineering.

An introductory course designed to acquaint students with a wide range of concepts, principles and applied technologies in agricultural engineering. A problem solving course.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** AGRI 2303

### AG 2374. Metal Fabrication and Welding Technology for Agriculture.

This course covers the principles and practices of applied metallurgy and welding. Emphasis is given to the management of the technologies and techniques associated with oxy-fuel cutting, shielded metal arc welding (SMAW), Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), and Plasma Arc Cutting (PAC). Prerequisite: AG 2373 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 2379. General Horticulture.**

A survey of the general field of horticulture including general areas of employment.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1315

**AG 2383. Introduction to Agricultural Economics.**

The role of agriculture in the general economy; the study of basic economic concepts with their application to the agricultural firm; the structure and operation of the marketing system; the functional and institutional aspects of agricultural finance; international trade; and government farm programs.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Multicultural Content

**Grade Mode:** Standard Letter

**TCCN:** AGRI 2317

**AG 2390. Computer Applications in Agriculture.**

Introduction to computers and computer technology; operation and application of the computer in production agriculture and agricultural business, services and industries. Includes characteristics of computer hardware and software, accessing and using the computer in agriculture.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** AGRI 1309

**AG 2391. Livestock Behavior and Welfare.**

This course provides foundational knowledge on how livestock behave. It also provides the knowledge of how to handle livestock humanely. Livestock stress and physiological response to human interaction will also be discussed. Prerequisite: AG 1445 and [BIO 1330 and BIO 1130] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3300. Undergraduate Research in Agricultural Sciences.**

This course introduces students to the fundamentals of scientific inquiry in agriculture. Topics include quantitative and qualitative research methods, data management, data analysis, data interpretation, and data dissemination, with emphasis on their applications in agriculture. Prerequisite: A minimum 3.0 Overall GPA.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3301. Principles of Livestock Genetics.**

This course focuses on the fundamental principles of genetics and their application to animals. The physical basis of Mendelian inheritance, expression and interaction of genes, gene frequency, linkage, sex linkage, inbreeding, line breeding, and crossbreeding as applied to selection indices for livestock are examined. (WI) Prerequisites: AG 1445 and BIO 1130 and BIO 1330 all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 3302. Herbaceous Plant Materials.**

This course will include the identification, selection, use, and management of annuals, perennials, herbs, and ornamental grasses in the landscape. Each student will learn irrigation, fertilization, pruning, and other cultural needs of such plants. The laboratory will complement lecture.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3304. Propagation of Horticultural Plants.**

Principles and practices of propagating ornamental plants, vegetables, and fruits by sexual and asexual methods including germination of seed, layerage, graftage, division, cuttage, bulbs, corms, and other vegetative plant structures. Study of physical, physiological and environmental factors affecting propagation of ornamental plants.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3305. Woody Plant Materials for Outdoor Landscapes.**

Study of woody plant material including fruit and ornamental trees, shrubs, and ground covers and their identification, nomenclature, and use in the planting and development of home landscapes.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3306. Flowers and Plants for Interior Design.**

Study of flowers, cut flowers, foliage and blooming pot plants to enhance the interior design of homes and businesses including their identification, cultural requirements, uses, diagnoses and corrective measures of disorders. Basic principles of flower arrangement and the preparation of floral and plant decoration as used in interior design. (WI).

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**AG 3308. Organic Gardening.**

This course introduces the principles and practices of basic gardening using organic methods. Topics include an overview of soil preparation, warm and cool season crops, propagation of plants, and weed, insect, and disease identification and management.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3310. Agriculture Power and Machinery Technology.**

This course covers the principles of 2 stroke and 4-stroke cycle engines, ignition, and combustion types including injection systems. Components including power and power transmissions and hydraulic systems will also be addressed. Prerequisites: AG 2373 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3314. Animal Health and Disease Control.**

This course is designed to introduce immunology and provide a basic understanding of veterinary principles as applied to prevention and treatment of domestic livestock diseases. Common diseases of livestock are considered, with emphasis on immune function, symptoms, prevention, and treatment. Prerequisite: AG 1445 and AG 2318 and BIO 1330 and BIO 1130 all with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3317. Farm Management.**

Tools and techniques which are basic to the study of farm organization and decision making, the wise allocation of factors of production, the keeping of records, and income tax management. Prerequisites: AG 2383 and AG 2390 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] all with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3318. Agricultural Business Management.**

This course introduces institutions and functions of agribusiness. The institutional structure of agribusiness such as feed, farm machinery and equipment, farm chemicals, financial institutions and private and public agri-services will be delineated. Various agribusiness functions such as organizational behavior and financial, market and human resource management will be discussed. Prerequisite: AG 2383 and AG 2390 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3319. International Food and Fiber Systems.**

This course presents the food and fiber system from an international perspective. Analysis of food production and consumption patterns under different world economic systems, causes of surpluses and shortages throughout the world; the role of trade in solving food and agricultural problems. Global outlook and situation for food and fiber. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Multicultural Content

**Grade Mode:** Standard Letter

**AG 3321. Range Management.**

Practical problems met in managing native pastures and rangelands. Attention to determining range condition and proper stocking rates, methods of handling livestock on the range, range reseeding, brush control, and poisonous plants. The ecological and physiological response of range vegetation to grazing. Prerequisite: AG 1445 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3325. Animal Nutrition.**

Principles of animal nutrition with emphasis on digestion, absorption, metabolism, and function of nutrients; estimation of feedstuff nutritive value; and requirements of animals. (WI) Prerequisite: AG 1445 and BIO 1130 and BIO 1330 and CHEM 1141 and CHEM 1341 all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 3329. Economic Entomology.**

A study of the most common insects of field crops, fruits, and vegetables; life history, methods of attack, damage, and means of preventing and controlling. Collection and mounts of insects will be made.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3330. Applied Wildlife Nutrition.**

Basic and fundamental principles of nutrition for ruminant and non-ruminant wildlife with emphasis in North American and African wildlife. Attention will be given to digestive physiology and anatomy, feed sources, forage resources, and nutrient requirements. Prerequisite: AG 1445 or [BIO 1130 and BIO 1330] any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3331. Reproduction in Farm Animals.**

An examination of the anatomy and physiology of reproductive systems of livestock of economic importance. Attention is given to reproductive failure and disease. The laboratory includes pregnancy testing, semen collection and evaluation, artificial insemination techniques, and evaluation of breeding records. Prerequisites: AG 1445 and AG 2318 and [AG 3301 or BIO 2450] all with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3341. Leadership Development in Agricultural Sciences.**

This course focuses on the foundations of leadership concepts and theories useful in agricultural careers of science, government agency, non-profits and business. Emphasis is placed on the development of individual leadership skills, group situations, and strategies necessary for effective leadership."

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Multicultural Perspective

**Grade Mode:** Standard Letter

**AG 3345. Livestock Selection and Evaluation.**

Detailed consideration of the factors involved in the selection and evaluation of beef cattle, sheep, swine, rabbits, goats, and chickens. Emphasis will be placed on the care, grooming and exhibition of livestock projects. (Junior and Senior standing only) Prerequisite: AG 1445 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3350. Intermediate Microeconomics and Agricultural Application.**

This course focuses on intermediate-level microeconomics and its application in agriculture. The course covers topics such as consumer and producer theories, game theory, labor and capital markets, uncertainty, externalities, and public goods. Prerequisite: AG 2383 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3351. Agricultural Marketing and Sales.**

A study of the food marketing system and farm input sales; includes the functional systems approach that integrates the agricultural input industries into a discussion of food marketing; takes a micro approach to the development of marketing management skills needed in agribusiness; and provides a critical outlook on issues ranging from inputs to final food products. (WI) Prerequisite: AG 2383 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 3352. Quantitative Methods in Agricultural Economics.**

Principles involved in collection, tabulating and analyzing agricultural data. Topics include sampling procedures, questionnaire development, descriptive analysis of data, correlation, prediction and forecasting and tests of significance. Simple computer programs will be stressed for class exercises during the course. Prerequisite: MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3353. Agricultural Structures and Environment.**

Principles and practices associated with structural components, selection, materials of construction, heat and moisture control, and the environmental issues of waste management systems; a problem solving course. Prerequisites: AG 2373 and AG 2390 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] all with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3355. International Agricultural Trade.**

This course focuses on economic forces associated with trade in food and agricultural products between the United States and other countries. The course covers gains from trade, agricultural trade policies (of exporters and importers), exchange rates, and multilateral trade negotiations. The course also explains how economic principles and analytical techniques are applied to international trade and multi-national markets of agricultural products. Prerequisite: AG 2383 and ECO 2315 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471] all with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3367. Livestock Ultrasonography.**

This course provides students with the current developments and utilization of ultrasound technology in the livestock industry. Emphasis will be placed on understanding the functionality of an ultrasound machine and the use of ultrasonography in live animal carcass evaluation as well as reproductive techniques including pregnancy determination, fetal sexing, and fetal aging. Prerequisite: AG 1445 and AG 2318 both with grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3375. Management of Agricultural Machinery and Equipment.**

This course addresses the optimization of the equipment phases of agricultural production and processing. Emphasis will be placed on management and decision making principles concerned with the efficient selection, operation, repair, maintenance, and replacement of machinery and equipment. Prerequisites: AG 2373 and AG 2390 and CHEM 1141 and CHEM 1341 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] all with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3381. Beef Cattle Production.**

This course provides students with practical application in the principles of breeding, feeding, and management of commercial and purebred cattle. Students receive first-hand experience and knowledge of breeding techniques, animal handling, genetic selection, nutrition application, marketing, and technology. Prerequisite: AG 3325 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 3426. Soil Science I.**

This course introduces fundamental principles of soil science to acquaint the student with some physical, chemical, and biological properties of the soil. Prerequisites: CHEM 1141 and CHEM 1341 and [AG 2313 or AG 2379 or BIO 1330] all with grades of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 3427. Soil Science II.**

Management of soils as pertaining to their place in the environment. Special emphasis will be given to the role of soil in conventional agricultural systems, natural resource systems, waste management systems, and reclaimed and artificial soil systems. (WI) Prerequisite: AG 3426 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4113. Summer Programs in Agricultural Education.**

This course provides students field experience in summer agricultural education programming in secondary school settings. Students will receive individualized instruction during supervised visits while they are engaged in their field experience. The course includes program planning and educating diverse student learning populations. Prerequisite: AG 4212 with a grade of "C" or better.

**1 Credit Hour. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4185. Independent Study.**

This course provides advanced undergraduates with opportunities to study any subject matter of special interest in agricultural Sciences. May be repeated two times. (WI) Prerequisite: Department approval and a minimum 3.0 Texas State GPA.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Dual Enrollment Permitted|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4212. Program Building.**

This course focuses on program and curriculum development in agricultural education settings. Primary course elements will include determining program and curriculum goals and objectives, implementing the program, and curriculum evaluation. Corequisite: AG 4343 with a grade of "D" or better.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4300. Greenhouse and Nursery Management.**

Planning greenhouses for commercial and home use; plant-nursery layouts. Study of the physical and economic factors affecting the production of plants in the greenhouse and other forcing structures, and in the field; management techniques used in the production and marketing of greenhouse and nursery plants. (WI).

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4302. Fruit and Vegetable Crop Production.**

Factors influencing small-fruit and tree-fruit and vegetable crop production in the field including root stocks, varieties, soil, planting, transplanting, irrigating, fertilizing, pruning, insects, diseases, nematodes, weeds, chemicals, harvesting, storing, and marketing; greenhouse production of certain vegetables. (WI) Prerequisite: AG 2313 or AG 2379 either with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4304. Landscape Management.**

To acquaint students with the practices and techniques used in professional landscape construction and management, and with the scientific and technical basis for such practices.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4305. Landscape Design.**

Landscaping combines elements of art and science to create functional, aesthetically pleasing outdoor space. This class helps students develop knowledge of design elements and principles. Students learn site and client analysis techniques for critiquing landscapes. Students learn to communicate ideas through the planning and drawing of landscape plans.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4307. Professional Development in Agriculture.**

This course requires students to select a topic of current interest appropriate to the major. Critical analysis of the situation including both positive and negative aspects will be encouraged. Findings will be presented in both oral and written form. (Capstone Course).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4310. Agricultural Internship.**

This course integrates professional and academic experience through internship with an external employer. The internship is designed to provide actual work experience, observation and analysis in the student's chosen career field. Prerequisite: Minimum 3.0 Overall GPA.

**3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4311. Instructional Methods for Career and Technology Educators.**

An analysis of the instructional techniques, strategies and methods appropriate to the effective teaching of career and technology subjects. Teaching special populations and teaching in multicultural environments will be addressed. To be taken the Fall semester before student teaching.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4325. Feeds and Feeding.**

Study of feedstuffs used in livestock enterprises. Application of basic nutrients to the needs of different species of livestock. Formulating rations, methods of feeding, feed control laws, and feeding investigation. Prerequisites: AG 3325 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4326. Advanced Animal Science-Ruminants.**

The application of scientific and technological advances to production and management in ruminant animal production and management.

Prerequisite: AG 1445 and AG 2318 both with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4328. Advanced Animal Science-NonRuminants.**

Application of basic principles in the production and management of nonruminant animals. Scientific and technological advances with emphasis on overall management, health care, nutrition, genetics, physiology, and marketing of nonruminant animals. Prerequisite: AG 1445 and AG 2318 both with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4330. Food Technology: Processing Meats.**

Evaluation and grading of carcasses; wholesale and retail cuts of beef, pork, lamb, and poultry. Emphasis on quality controls, testing of finished products that have been frozen, cured, fried, pickled, and canned. Prerequisites: AG 1445 and BIO 1130 and BIO 1330 and CHEM 1141 and CHEM 1341 all with grades of "D" or better or instructor approval.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4331. Disaster Preparedness and Management in Agriculture.**

This course provides an investigation of past disaster events that have impacted the global and domestic food and agriculture supply. This course also provides the information needed to develop and execute an action response plan for disasters affecting agricultural operations. Both preparation and mitigation of the disaster will be covered. Prerequisite: AG 3341 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4343. Organization and Management for Laboratory Programs.**

This course examines instructional programs involving laboratory equipment and facilities. Curriculum, teaching methods, equipment and facility management practices including various aspects of safety, tool management, inventory and security are emphasized along with facilities layout planning. Must be taken in last semester of program. Corequisite: AG 4212 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4355. Precision Applications in Land Management.**

This course focuses on engineering practices used in surveying including differential profile leveling and construction surveys. Topics include the use of dumpy levels, transits, total stations, and Global Positioning Systems. This course introduces students to the fundamental components of small unmanned aerial systems (sUAS), sensors and platforms, UAS operational concepts, the principles of UAS data collection, the legal framework within which UAS should be operated and applied, and data processing software in agricultural settings.

Prerequisite: [MATH 1315 or MATH 1317 or MATH 1319] and AG 2373 and AG 2390 all with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4361. Agriculture Electric and Mechanical Systems.**

Electrical fundamentals applied to agricultural production and processing. Circuits, power, energy, wiring design, and motor fundamentals; selection, installation and operational characteristics. Sensors and control devices including switches, relays, timers, and circuit breakers will be studied. Prerequisite: AG 2373 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**AG 4371T. International Horticulture.**

The purpose of this program is to introduce students to the English culture and way of life, as well as England's historic role in Horticulture, past and present. Students will intensely study from the following four horticultural fields: Ornamental Horticulture, Landscape Design, Vegetables/Fruit Crops, and Vineyards and Hops. The program includes basic instruction in English history, as well as lectures and field trips.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**AG 4371V. Green Revolution & Agricultural Development in Asia.**

This course will provide a detailed retrospective of the Green Revolution in Asia, its achievement and limits in terms of agricultural productivity improvement, and its broader impact at social, environmental, and economic levels.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**AG 4371X. Data Analysis and its Application in Agriculture.**

This course is an introduction to data science that analyze big data with emphasis on its application in agriculture. Students will learn 1) how to analyze big data and make data-driven predictions through probabilistic modeling and statistical inference, 2) how to identify and utilize appropriate statistical and econometric methodologies to extract meaningful information for decision making in agriculture, and 3) how to use software such as Excel and R to implement statistical and econometric analysis and present results. Prerequisite: AG 2390 and AG 3352 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**AG 4371Y. Field Experiences in Regenerative Agriculture.**

This course focuses on experiential field-based activities and technologies in regenerative agriculture that improve the health and functioning of an ecosystem. Students will gain experience with metrics to assess agroecological health as well as methods, tools and technologies to improve soil biophysical qualities, biodiversity, water and nutrient cycling, and energy balance. Creating resilience to climate change, developing circular economies, and increasing farm profitability are explored. In a field setting, regenerative agriculture techniques with respect to crop production are practiced. Prerequisite: [AG 2313 or AG 2379] and AG 3426 both with grades of "C" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**AG 4379. Agriculture Irrigation Technology.**

This course teaches the principles associated with water management practices in maintaining soil productivity and the influence of water management on environmental quality. Emphasis will be placed on the selection and layout of irrigation and drainage systems, waste management systems, and the impact on the environment. Prerequisite: AG 2373 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4380. Agricultural Finance.**

This course introduces finance and financial problems faced by agribusiness managers. The subject matter includes financial analysis, planning, and control; capital budgeting; capital structure, liquidity, and risk management; and financial markets. Prerequisite: ACC 2361 and AG 2383 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4381. Agricultural Policy.**

Identification and analysis of governmental programs and policies affecting the production and marketing of agricultural products. An economic evaluation of alternative policies and their application for farmers, consumers and agribusinesses will be considered. (WI) Prerequisite: AG 2383 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4382. Agricultural Price Analysis.**

This course focuses on the forces that influence agricultural price movements and behavior, including consumer and producer theory, and market demand and supply with their associated determinants. The course also covers commodity futures and their use by agribusiness firms to reduce price risk. An explanation of simple and multiple regression is introduced to help the student understand empirical estimation of commodity demand and supply relationships, and reduced-form, price-dependent equations that offer insight into price-making forces. Price determination under alternative market structures is also reviewed and expanded. (WI) Prerequisite: AG 3350 and AG 3352 and [MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 or MATH 2471] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4383. Agricultural Resource Economics.**

This course introduces economic concepts and institutional factors relating to the use of agricultural resources such as land, air, water, energy, space, etc. Emphasis is on the conservation of resources and the environmental interactions resulting from the use of natural resources for agricultural production. (WI) Prerequisite: AG 2383 and [MATH 1315 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471] both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**AG 4390. Global Agriculture.**

This study abroad course focuses on global agricultural industries and markets, including analysis of production, marketing and trade. The course examines the shape of international agriculture; how culture, history and geography in foreign countries affect the production and management of agricultural products; agricultural policy formation; countries' natural resources and competitive strategies. Course may be repeated when topic varies.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4401. Genetics and Breeding for Crop Selection.**

This course covers traditional breeding and selection in crops with an emphasis on genetics. The course includes topics on phenology, phenotype, genotype, heritability and epigenetics. The course includes a lab. Prerequisites: AG 1445 and [AG 2313 or AG 2379] and BIO 1130 and BIO 1330 and CHEM 1141 and CHEM 1341 all with grades of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**AG 4681. Student Teaching in Agriculture, Food, and Natural Resources 6-12.**

Students will apply knowledge and skills learned during the teacher preparation program while engaging in clinical practice with experienced Agriculture mentor teachers in school settings with university instruction and supervision. This culmination experience is required for Texas teacher certification. Prerequisite: Minimum 2.75 Overall GPA and instructor approval.

**6 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Credit/No Credit

## Minimum required: 120 semester credit hours

### General Requirements

- Students cannot enroll in upper-level (3000 or 4000) agriculture courses until they have successfully completed MATH 1315, MATH 1319, or MATH 2417, and CHEM 1341 and CHEM 1141.
- If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of modern language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student's degree audit.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine semester credit hours must be writing intensive (WI).
- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

## Minimum required: 120 semester credit hours

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students cannot enroll in upper-level (3000-4000) agriculture courses until they have successfully completed MATH 1315, MATH 1319, or MATH 2417, (Freshman Year), and CHEM 1341 and CHEM 1141.
- If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of modern language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student's degree audit.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine semester credit hours must be writing intensive (WI).
- In addition to the general education core curriculum and major requirements, students must also complete 12 hours of professional sequence courses through the College of Education. All coursework must be completed prior to AG 4681.
- To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.
- The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in the student's criminal history, the student may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If the student has a criminal history, the student may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).
- A minor in Education is required for this major. Courses for the minor in Education are included in the following degree plan.

Total Hours: 120

## Minimum required: 120 semester credit hours

### General Requirements

- Students cannot enroll in upper-level (3000 or 4000) agriculture courses until they have successfully completed MATH 1315 or MATH 1319, or MATH 2417, and CHEM 1341 and CHEM 1141
- If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of modern language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student's degree audit.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

- Nine semester credit hours must be writing intensive (WI).
- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

## General Requirements

- Students cannot enroll in upper-level (3000 or 4000) agriculture courses until they have successfully completed MATH 1315 or MATH 1319, and CHEM 1341 and CHEM 1141.
- If two years of the same modern language are taken in high school, then no additional language hours will be required for the degree. In the absence of modern language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student's degree audit.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine semester credit hours must be writing intensive (WI).
- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- For transfer students, 36 semester credit hours may be transferred from a Texas public institution of higher education for the Agricultural Business and Management Field of Study and be applied to the Bachelor of Science in Agriculture (B.S.A.G.) degree with a major in Agricultural Business and Management at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. If transferring additional courses please contact the College of Applied Arts Academic Advising Center for assistance. The transferable Texas Common Course Numbers (TCCN) is listed below the Texas State University course numbers in the following course list.

Code	Title	Hours
MATH 1319	Mathematics for Business and Economics I	3

AG Electives

Code	Title	Hours
Select six hours of the following:		6
AG 3300	Undergraduate Research in Agricultural Sciences	
AG 3301	Principles of Livestock Genetics	
AG 3302	Herbaceous Plant Materials	
AG 3304	Propagation of Horticultural Plants	
AG 3305	Woody Plant Materials for Outdoor Landscapes	
AG 3306	Flowers and Plants for Interior Design	
AG 3308	Organic Gardening	
AG 3314	Animal Health and Disease Control	
AG 3321	Range Management	
AG 3325	Animal Nutrition	
AG 3329	Economic Entomology	
AG 3331	Reproduction in Farm Animals	

AG 3345	Livestock Selection and Evaluation
AG 3427	Soil Science II
AG 3455	
AG 4185	Independent Study (3 hour maximum)
AG 4300	Greenhouse and Nursery Management
AG 4302	Fruit and Vegetable Crop Production
AG 4304	Landscape Management
AG 4305	Landscape Design
AG 4310	Agricultural Internship
AG 4325	Feeds and Feeding
AG 4326	Advanced Animal Science-Ruminants
AG 4328	Advanced Animal Science-NonRuminants
AG 4330	Food Technology: Processing Meats
AG 4371V	Green Revolution & Agricultural Development in Asia
AG 4390	Global Agriculture
BLAW 3363	International Business Law

The minor in Agriculture requires 19 semester credit hours. A minor in agriculture is ideal for someone majoring in the life sciences, family and consumer sciences, or in any discipline where knowledge of the food and fiber industry would be beneficial. Agriculture majors may not select a minor in Agriculture due to course duplication.

Code	Title	Hours
<b>Required Courses</b>		
AG 1445	Basic Animal Science	4
AG 2313	Agronomic Crops	3
AG 2373	Introduction to Agricultural Engineering	3
Choose 9 hours of advanced AG courses		9
<b>Total Hours</b>		<b>19</b>

The minor in Agricultural Mechanics requires 18 semester credit hours. The minor in Agricultural Mechanics opens additional career opportunities for students in Engineering, Technology, Geology, and the students majoring in Agricultural Business.

Code	Title	Hours
<b>Required Courses</b>		
AG 2373	Introduction to Agricultural Engineering	3
AG 2374	Metal Fabrication and Welding Technology for Agriculture	3
AG 3353	Agricultural Structures and Environment	3
AG 4361	Agriculture Electric and Mechanical Systems	3
<b>Prescribed Electives</b>		
Choose 6 hours from the following:		6
AG 3310	Agriculture Power and Machinery Technology	
AG 3375	Management of Agricultural Machinery and Equipment	
AG 3455		
AG 4379	Agriculture Irrigation Technology	
<b>Total Hours</b>		<b>18</b>

The minor in Animal Science requires 19 semester credit hours.

Code	Title	Hours
<b>Required Courses</b>		
AG 1445	Basic Animal Science	4
AG 3325	Animal Nutrition	3
AG 3331	Reproduction in Farm Animals	3
Choose 9 hours from the following:		9
AG 3301	Principles of Livestock Genetics	
AG 3314	Animal Health and Disease Control	
AG 3321	Range Management	
AG 3352	Quantitative Methods in Agricultural Economics	
AG 4326	Advanced Animal Science-Ruminants	
AG 4330	Food Technology: Processing Meats	
<b>Total Hours</b>		<b>19</b>

The minor in Horticulture requires 18 semester credit hours.

Code	Title	Hours
<b>Required Courses</b>		
AG 2379	General Horticulture	3
AG 3302	Herbaceous Plant Materials	3
AG 3305	Woody Plant Materials for Outdoor Landscapes	3
Choose 9 hours from the following:		9
AG 3304	Propagation of Horticultural Plants	
AG 3306	Flowers and Plants for Interior Design	
AG 3308	Organic Gardening	
AG 3426	Soil Science I	
AG 3427	Soil Science II	
AG 3455		
AG 4300	Greenhouse and Nursery Management	
AG 4302	Fruit and Vegetable Crop Production	
AG 4304	Landscape Management	
AG 4305	Landscape Design	
AG 4379	Agriculture Irrigation Technology	
<b>Total Hours</b>		<b>18</b>

The minor in Plant and Soil Science requires 20 semester credit hours.

Code	Title	Hours
<b>Required Courses</b>		
AG 2313	Agronomic Crops	3
or AG 2379	General Horticulture	
AG 3426	Soil Science I	4
AG 4302	Fruit and Vegetable Crop Production	3
Choose 10 hours from the following:		10
AG 3304	Propagation of Horticultural Plants	
AG 3308	Organic Gardening	
AG 3329	Economic Entomology	
AG 3427	Soil Science II	
AG 3455		
AG 4401	Genetics and Breeding for Crop Selection	
<b>Total Hours</b>		<b>20</b>

For students who are seeking a teacher certification within their major and would like a second teaching field in Agriculture, Food and Natural Resources, the requirements are:

Code	Title	Hours
AG 2373	Introduction to Agricultural Engineering	3
AG 2374	Metal Fabrication and Welding Technology for Agriculture	3
AG 2383	Introduction to Agricultural Economics	3
AG 3345	Livestock Selection and Evaluation	3
AG 4212	Program Building	2
AG 4325	Feeds and Feeding	3
AG 4343	Organization and Management for Laboratory Programs	3
Select one of the following:		3
AG 2313	Agronomic Crops	
AG 2379	General Horticulture	
Select one of the following:		3
AG 3310	Agriculture Power and Machinery Technology	
AG 3353	Agricultural Structures and Environment	
AG 4361	Agriculture Electric and Mechanical Systems	
Select one of the following:		3-4
AG 3305	Woody Plant Materials for Outdoor Landscapes	
AG 3306	Flowers and Plants for Interior Design	
AG 3426	Soil Science I	
<b>Total Hours</b>		<b>29-30</b>

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

Supple Building Room 384  
T: 512-245-2178 F: 512-245-8713  
[www.bio.txstate.edu](http://www.bio.txstate.edu) (<http://www.bio.txstate.edu>)

Biology is the study of living systems and how they function. Because the biological sciences have had and continue to have profound impact on questions of concern to human society - longevity, environmental quality, biotechnology - knowledge of the biological sciences is an important aspect of higher education. The mission of the Department of Biology is to advance the life sciences through research and to educate and prepare the next generations of scientists, educators, professionals, and scientifically literate citizens. Students select one of four majors: Aquatic Biology, Biology, Microbiology, or Wildlife Biology.

Biology majors take a minimum of eleven courses that include the core curriculum of functional biology, organismal biology, genetics, a biological diversity course, a physiology course, ecology, and evolution. Additional required courses in chemistry, mathematics, and physics provide the broad scientific background that is foundational to biological sciences. At the sophomore level and above, a variety of courses in

cellular, molecular, computational and organismal biology assure a student can attain a broad education in the biological sciences as well as a level of specialization in its subdisciplines. A minor outside the Biology Department is required for all areas of study except for the Wildlife Biology program.

## Teacher Certification

Students may earn the Life Science (Texas Grades 7-12) certification through a double major with a B.S. major in Biology and a B.S. major in Education. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification are strongly encouraged to see the Science Education program advisor in the Department of Biology early in their undergraduate program or certification process.

## Bachelor of Science (B.S.)

- Major in Aquatic Biology (p. 684)
- Major in Biology (p. 686)
- Major in Biology (Secondary Education; Teacher Certification in Life Science, Grades Seven through Twelve, with Double Major in B.S. Education) (p. 687)
- Major in Microbiology and Molecular Genetics (<http://mycatalog.txstate.edu/undergraduate/science-engineering/biology/microbiology-molecular-genetics-bs/>)
- Major in Wildlife Biology (p. 690)

## Minors

- Biology (p. 692)
- Second Teaching Field in Life Science (7-12)

**Subjects in this department include: BIO (p. 671), GS (p. 684)**

## Courses in Biology (BIO)

### BIO 1130. Functional Biology Laboratory.

Fundamental techniques and instruments used in cellular biological research will be taught while emphasizing safety, measurements, and scientific methods. Students will design and implement controlled experiments, identify independent and dependent variables, analyze data, draw conclusions, and communicate results with appropriate tables and graphs in oral presentations and written papers.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** BIOL 1106

### BIO 1131. Organismal Biology Laboratory.

This course introduces the students to the basics of experimental design, scientific method and inquiry, use of statistical analyses and writing research papers. Topics covered include Mendelian and population genetics, natural selection, population ecology, phylogeny, and behavioral ecology.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** BIOL 1107

**BIO 1320. Modern Biology I, Molecules, Cells, and Physiology.**

Provides students with basic scientific and biological principles. Current problems in biology and the ethics of science are presented with perspectives of public policy from a scientific viewpoint. This course is not recommended for majors in the natural sciences, including biology.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** BIOL 1308

**BIO 1321. Ecology, Evolution and Society.**

This course provides the non-science major an overview of the ecological and evolutionary principles that govern relationships between living organisms, including humans, and their environment. Special attention is given to environmental issues of current concern, such as overpopulation, climate change, pollution, resource depletion, and conservation biology.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering|Multicultural Perspective

**Grade Mode:** Standard Letter

**TCCN:** BIOL 1309

**BIO 1330. Functional Biology.**

This course provides the students with a strong foundation in cellular and molecular biology. Topics include biochemistry, energy metabolism, molecular bases of gene regulation and protein functions, cell division and control, and cell signaling. This course is required for all biology majors and is not recommended for non-science majors. Prerequisite: College Readiness in English Language Arts and Reading (ELAR) according to the TSI regulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 1306

**BIO 1331. Organismal Biology.**

This course provides science majors with a foundation in organismal biology, Mendelian and population genetics, evolution and ecology. Topic include: patterns of inheritance, genetics, evolution, speciation, phylogenetics, and behavioral population, community, and ecosystem ecology. This course is required for all biology majors and is not recommended for non-science majors. Prerequisite: College Readiness in English Language Arts and Reading (ELAR) according to the TSI regulations and College Readiness in Mathematics according to the TSI regulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 1307

**BIO 2400. Microbiology.**

Principles of microbiology, morphology, anatomy, physiology and taxonomy of representative groups of non-pathogenic organisms. Laboratory methods stress studies of pure cultures, the use of laboratory apparatus in quantitative determinations and the detection and identification of microbial populations in the environment. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 and CHEM 1341 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 2421

**BIO 2410. Intermediate General Botany.**

An introduction to the biology of plants and plant-like organisms, emphasizing their role in ecosystem processes, relationships between structure and function, and the evolutionary relationships among the major plant groups. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 2411. Intermediate Zoology.**

Provides biology majors a strong foundation in animal biology at the organismal level. The format will include details of animal form and function as well as concepts relating to classification, phylogeny, evolution, and ecology. Topics will include natural history, biogeography, adaptations to local environments, shared characters, and behavior. All material is presented in an accepted phylogenetic sequence. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 2430. Human Physiology and Anatomy.**

A course on human physiology covering the various organ systems. Principles of molecular biology, cell and tissue structure, anatomy and relationship of structure and function are stressed. May not be credited toward a Biology major or minor.

**4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 2404

**BIO 2440. Principles of Microbiology.**

The Basic Principles of microbiology, morphology, physiology, immunology and the relationship of microorganisms to diseases. This course is designed primarily to meet the requirements for students in allied health sciences and other programs requiring only one semester of microbiology. This course may not be credited toward a biology major or minor. Prerequisites: BIO 1330 and CHEM 1341 both with grades of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 2420

**BIO 2450. Genetics.**

An introduction to basic principles of Genetics by studies of Mendelian, molecular, quantitative and population genetics. Topics include: classical transmission genetics, and gene mapping, DNA replication and repair, transcription, translation, control of gene expression, genetic engineering techniques, Hardy-Weinberg equilibrium, evolutionary change via natural selection, and genetic drift. Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 and CHEM 1141 and CHEM 1142 and CHEM 1341 and CHEM 1342 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 2416

**BIO 2451. Human Anatomy and Physiology I.**

Part I of a two semester course on the structure and function of the human body. Designed specifically to prepare students for nursing and other health professions. Prerequisites: BIO 1330 and CHEM 1341 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 2401

**BIO 2452. Human Anatomy and Physiology II.**

This course is the second part of a two semester course on the structure and function of the human body designed specifically to prepare students for nursing and other health professions. Prerequisites: BIO 1330 and BIO 2451 and CHEM 1341 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** BIOL 2402

**BIO 3200. Genetic Engineering Technology.**

This course introduces the technologies used for genetic engineering with an emphasis on the CRISPR-Cas system. Students will examine various applications in medicine, agriculture, and biotechnology and evaluate the potential benefits and problems, including the underlying technological, ethical and safety concerns. Students will gain hands-on experience tagging genes in the model nematode worm, *Caenorhabditis elegans*. Prerequisite: BIO 2450 with a grade of "C" or better.

**2 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 3210. Biology Pedagogy and Learning.**

This course provides an introduction to pedagogical ideas relevant to the teaching and learning of biology for biology learning assistants. Students will learn key education theories and methods from STEM education research and cognitive science. Students will evaluate the processes of teaching and learning and examine structures and practices that facilitate and/or inhibit student learning. Students will apply what they've learned to the teaching of biology as they collaborate with biology faculty as learning assistants for an undergraduate biology course and complete a final project. Prerequisite: Department approval.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 3300. Cell and Molecular Biology.**

Fundamentals of structure and function of prokaryotic and eukaryotic cells. This course includes cell and organelle structure, basic biochemistry, principles of thermodynamics and energy transformation, nucleic acid and protein synthesis, enzyme kinetics, cell motility and cell signaling. Prerequisites: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3301. Biology of Sex and Reproduction.**

This course focuses on animals, especially vertebrates, and covers topics such as the evolution of sexual reproduction, genetic variation, sex differentiation during development, reproductive anatomy and physiology, reproductive endocrinology, gestation, disease transmission, and reproductive technologies. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3308. Global Ecology.**

An interdisciplinary introduction to the science of global environmental change. Emphasis will be placed on understanding principles of earth system science, the scientific basis underlying the major components of global environmental change, the linkages between these components, and the central role of humanity in contributing to the observed changes. (WI) Prerequisites: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 3341. Aquatic Toxicology.**

This course examines the basic concepts of aquatic toxicology, including uptake mechanisms, interactions, and elimination of different toxicants. Students will understand how toxic substances impact freshwater and marine organisms and identify potential health impacts to humans. Topics to be discussed include nutrients, metals, oil, pesticides, radionuclides, plastics, and emerging contaminants. Prerequisites: BIO 1331 and CHEM 1341 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3371. Marine Resources.**

This course examines the exploitation and fragility of the marine environment and the economic importance of marine resources. Topics to be examined include ocean ownership, overfishing, aquaculture, shark finning, whaling, ocean mining, marine transportation, tourism, pollution, harvesting energy from the ocean, and the importance of creating marine reserves. Prerequisite: BIO 1331 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3376. Introduction to Biotechnology.**

This course is an introduction to biotechnology. It provides an insight into how biotechnological applications can solve scientific and societal problems for the benefit of humankind. Prerequisite: BIO 1330 and BIO 1331 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3406. Economic Botany.**

An introduction to the utilization of plants by humans and their economic and ecological significance. Laboratories will stress plant features beneficial to economic and societal needs. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 3421. Vertebrate Physiology.**

The study of the physiology of vertebrate organ systems, including the nervous system, musculoskeletal system, endocrine system, cardiovascular system, respiratory system, digestive system, reproductive system and urinary system. Mammalian systems will be emphasized. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 3425. Human Anatomy.**

This course introduces students to the anatomy of the human body. Aspects of both gross and micro anatomy of tissues, organs, and systems will be covered with an emphasis on hands-on laboratory exploration. This course is designed for students interested in a variety of health professions. Prerequisite: BIO 1330 and BIO 1130 and BIO 1331 and BIO 1131 and CHEM 1341 and CHEM 1141 and CHEM 1342 and CHEM 1142 all with grades of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3426. Human Physiology.**

This course focuses on human physiology and covers topics such as the nervous system, muscular system, endocrine system, cardiovascular system, respiratory system, digestive system, exocrine system, and reproductive system. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 3430. Mycology.**

A study of the fungal kingdom including slime molds and lichens. Laboratory studies will emphasize taxonomy, morphology and culture techniques. Prerequisites: [BIO 2400 or BIO 2410] and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 3442. Virology.**

The structure, multiplication and genetics of bacterial, plant, and animal viruses. The role of viruses in human and plant disease. (WI) Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 3460. Aquatic Ecology.**

An introduction to the diversity and ecology of aquatic organisms. Students will learn to use ecological concepts to understand aquatic ecosystems and how they are impacted by human activities. They will also summarize and extract relevant information from scientific papers in aquatic ecology, analyze collected data, and communicate the results effectively. The laboratory sessions will include both lab and field work and at least a one-day field trip. Prerequisite: BIO 4416 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 3461. Plant Taxonomy.**

Principles of identification and classification of plants; nomenclature and characteristics of various plant groups with emphasis on the higher plants. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 3480. Histology.**

A study of the structural and functional relationships between cells and tissues in organs. The laboratory includes the study of prepared slides and of microtechnique. This course is designed to meet the needs of pre-professional students. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4126. Immunology Laboratory.**

This laboratory-based course will cover cells of the immune system and basic serological reactions, including bacterial and viral agglutination reactions, precipitation, immunoelectrophoresis, immunofluorescence, and enzyme-linked immunosorbent assays. (WI) Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better. Corequisite: BIO 4326 with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4166. Medical Microbiology Laboratory.**

This laboratory-based course will cover pathogenic bacteria emphasizing identification of selected groups of pathogens and the biological basis for virulence. (WI) Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better. Corequisites: BIO 4366.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4176. Microbial Biotechnology Laboratory.**

This laboratory-based course will cover use of microbes for biotechnological applications and is designed to provide practical explorations into fields of biotechnology. Topics include laboratory techniques for recombinant protein purification, fermentation, identification of markers in genetically modified food and bioremediation of pollutants. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better. Corequisite: BIO 4376.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4299. Undergraduate Research.**

Supervised individual research projects in a mentor-student relationship with a biology professor. May be repeated once for credit. Prerequisites: BIO 2450 with a grade of "C" or better and a minimum 3.0 Texas State GPA and instructor approval.

**2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4300. Neurobiology.**

This course will give students an overview of neuroscience, particularly the areas of neuroanatomy, neurophysiology, and evolutionary and developmental neurobiology. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4301. Evolution.**

Basic genetic principles applied to natural selection, adaptation, populations, speciation and man's future. Consideration is given to the origin of life, nature of chromosomal variation, evolution of genetic systems and certain other selected topics. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4304. Wildlife and Recreation: Impact, Policy, and Management.**

Students will be introduced to the impact human recreational activities have on wildlife habitats and populations. Management practices to enhance human-wildlife encounters or to minimize detrimental effects on wildlife populations will be presented. Prerequisite: BIO 4416 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4305. Nature Study.**

This course provides a comprehensive survey of natural events. It includes laboratory and field work emphasizing observation, collection and discovery of relationships. It is creditable only for those seeking elementary or middle school certification and is required for those seeking grade 4-8 Science or Science/Mathematics teaching certification. This course must be taken the semester immediately prior to student teaching.

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4307. Ecology of Rarity.**

This course will examine the ecology of rarity and its ability to inform public awareness and environmental policy. This course will explore how we define rarity, persistence and viability and address the question, "Is rarity more or less common than might be expected, and is there anything we can or should do about it?" Prerequisite: BIO 4416 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4311. Cancer Biology.**

Cancer Biology provides a foundation for understanding the complex molecular, biochemical, and cellular processes associated with cancer development. Topics include the role of tumor suppressor genes, oncogenes, DNA repair, apoptosis, ECM, cell-cycle control, cell signaling pathways, immune function and cancer-causing viruses. Emerging diagnostics and/or therapeutics will also be discussed. Prerequisite: BIO 2450 with a grade of "C" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4317. Interpretive Biology Programming and Design.**

In this course, students will explore the methods and principles used by the National Park Service, museums, environmental centers, and state park systems to interest a variety of audiences as well as interpret biology and natural environments effectively. Students will practice skills in both personal and non-personal interpretation by creating science outreach programs, interpretive literature, brochures, path waysides, and other interpretive media. Service-learning is an integral and mandatory part of this course. (WI) Prerequisite: [BIO 2410 or BIO 2411] and BIO 2450 with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4319. Biological Resources: Conservation and Planning.**

This course is an introduction to the protection and sustainable use of populations, species, habitats, and ecosystems. Course also includes study of the methods used to analyze biodiversity and population regulation. Corequisite: BIO 4416 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4324. Natural History and Conservation of Large Mammals.**

This course will introduce students to advanced details of natural history, research, and conservation of large mammals. Topics considered will include natural history, range and population status (historic and current), importance to and interaction with humans, research design and analysis, and the development of conservation and management plans.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4326. Immunology.**

This lecture-based course will cover the biology of the immune system and its relationship to disease, emphasizing B and T cell immunity, immune diseases, hypersensitivities, transplantation, and cancer. (WI) Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4327. Issues in Irish Biodiversity and Conservation.**

In this course, students will learn about Irish flora and fauna, ecosystems, conservation strategies in areas of high ecological concern, and public involvement. Emphasis will be placed on case studies and service-learning opportunities. Prerequisite: BIO 1131 and BIO 1331 both with grades of "D" or better and instructor approval. Corequisite: BIO 4328 with a grade of "D" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4328. Field Biology of Ireland.**

In this course, students will use multiple techniques to explore biodiversity across multiple ecosystems in Ireland. Prerequisite: BIO 1131 and BIO 1331 both with grades of "D" or better and instructor approval. Corequisite: BIO 4327 with a grade of "D" or better.

**3 Credit Hours. 0 Lecture Contact Hours. 12 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4329. Raptor Ecology.**

This course will examine the evolution, taxonomy, ecology, behavior, anatomy, physiology, and conservation of birds of prey of the world with emphasis on diurnal raptors, including those from Texas. Field trips will include at least two overnight visits to significant migration and overwintering areas.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4331. Human Dimensions of Wildlife and Fisheries Conservation.**

Humans play a role in nearly every aspect of wildlife and fisheries conservation. This course will provide students with principles, concepts, and case studies to understand how the human experience (e.g., culture, politics, economics) influences conservation outcomes. Students will also have an opportunity to integrate human dimensions into local decision-making. Prerequisite: BIO 4416 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4332. Biology in Film and Television: An Analysis of the Biology in Fiction and Non-Fiction Film and TV.**

This course explores how biology is portrayed in popular motion pictures with an emphasis on analyzing biological accuracy, misconceptions perpetuated or portrayed, and investigating the rationale behind motion picture directors' and writers' decisions about how they portray biological content in the final product. Students will watch and discuss a curated list of films and television shows and write an analysis of each film or TV episode. Prerequisite: BIO 1330 and BIO 1130 and BIO 1331 and BIO 1131 with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4337. Biology and Conservation of Sharks.**

This course examines the biology and conservation of sharks and their relatives (skates, rays, chimaeras, and sawfish). Topics to be examined include evolutionary history, distribution, anatomy and physiology, daily movements and migration, diet, reproduction, relationship with humans, fisheries, conservation, and field methods used in shark research. Prerequisite: BIO 1331 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4338. Tropical Ecology and Conservation.**

In this course students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. This is an immersive and intensive study abroad course combining traditional lecture, field-based instruction, and primary literature-based discussions while observing actual tropical ecosystems. Prerequisite: BIO 1130 and BIO 1131 and BIO 1330 and BIO 1331 all with grades of "C" or better and a minimum 2.5 Overall GPA.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4343. Fish Physiology.**

This course examines the primary physiological functions in fish, including how fish sense and interact with the environment, maintain their energetic metabolism (respiration, digestion and excretion), reproduce and maintain water balance. Students will learn about the diverse adaptations fish use to cope with environmental and physiological challenges. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4350B. Biological Implications of Water Planning in Texas.**

Current topics in understanding the biological implications of water planning in Texas. This course will be of particular interest to students who have a background in aquatic biology and who intend to stay in Texas post-graduation. May be repeated once with different emphasis.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350D. Watershed Management Frameworks and Applications.**

Introduction to integrated watershed assessment and management tools for identifying programmatic water quality and quantity issues and their root causes and solutions, and their practical application. The scientific and socio-economic elements are considered within the context of planning and developing watershed protection plans and programs. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350E. Techniques in Aquatic Biology.**

This course will provide hands on experience with a suite of physical, chemical, and biological sampling techniques and gear used in applied river studies. Students will be exposed to the fundamentals of data quality objectives, accuracy, precision, detection limits, data visualization, exploratory analysis, univariate and multivariate statistics.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350I. Bird Conservation and Management.**

This course is an introduction to the conservation and management of bird populations in an ecological context. Course covers a variety of species and spatial scales from landscape to ecoregion. Laboratory portion will involve field trips, intensive computer-based labs, and class discussion. Corequisites: BIO 4416 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350J. Environmental Physiology of Animals.**

This course is a study of how animals respond physiologically to changes in environmental temperature, moisture, salinity, partial pressure of gases, and toxins. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350K. Genomics.**

The course is a lecture covering modern genomics, including principles of genome function, the human genome, comparative genomics, genome sequencing, evolution and genomic change, databases and medicine, ethical, legal and social issues. The course also includes discussion of transcriptomics, proteomics, metabolomics, directed evolution, protein design, and systems biology. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350M. Wildlife Policy and Law in North America.**

This course provides the student with a historical and cultural context within which wildlife policy and law have developed in North America, particularly in the United States. Federal treaties, statutes, case law, and regulations pertaining to wildlife will be presented. Wildlife law from representative states will be referenced as well. Corequisite: BIO 4423 or BIO 4435 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350P. Tropical Ecology and Conservation Lab.**

This laboratory course complements the lecture course, in which students will obtain a first-hand knowledge of the ecology, biodiversity, conservation, and culture of tropical ecosystems. It is an immersive and intensive study abroad course combining traditional lecture and field-based laboratory instruction in tropical ecosystems.

**3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.**

**Co-requisite(s):** BIO 43500

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350Y. Introduction to Laboratory Research Methods.**

This course is for students interested in undergraduate research and introduces the fundamental methods and practices utilized in biological research labs. This hands on course covers keeping a lab notebook, following standard protocols, and collecting/analyzing data. Student will be introduced to current research programs offered in the Biology department. Prerequisite: BIO 1330 and BIO 1331 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4350Z. Diversity and Cultural Impact of Geoparks.**

Students will explore biological differences in diversity across Geoparks in the United States and Ireland. Additionally, students will study the cultural impact that Geoparks have on the local community and national policy by focusing on differences between science communication strategies and community engagement practices conducted at the parks. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351A. Vertebrate Endocrinology.**

This course teaches function and organization of the endocrine system. It describes the major endocrine glands, the synthesis and release of their hormone products, and the interaction with target tissues. Endocrine control of digestion, growth, reproduction, and homeostasis will be compared between mammals and other vertebrate groups. Prerequisite: BIO 2450 and CHEM 2342 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351D. Ecology of Temporary Waters.**

Temporary waters (which regularly go dry) are often overlooked. This course explores their diversity, their ecological role and how these systems are impacted by humans. We will also look at the species that rely on temporary waters, their special adaptations, and their populations and community dynamics.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351E. Natural History of America.**

In this field course students will examine the terrestrial and aquatic wildlife of a chosen study area in relation to their conservation and management. Local geology and climate change impacts on wildlife diversity will also be discussed. Prerequisite: BIO 1331 and BIO 1131 both with grades of "C" or better and a minimum 2.5 overall GPA and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351F. Marine Ecology and Conservation.**

In this field course students will examine the ecology, management, and conservation of marine flora and fauna, and the impact of humans on marine life. Prerequisite: BIO 1331 and BIO 1131 both with grades of "C" or better and a minimum 2.5 overall GPA and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351H. Natural History and Conservation of Large Mammals.**

This course will introduce students to advanced details of natural history, research, and conservation of large mammals. Topics considered will include natural history, range and population status (historic and current), importance to and interaction with humans, research design and analysis, and the development of conservation and management plans.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351I. Global Change Biology.**

This course will give an in-depth analysis of the major global changes occurring in present day biological systems. The focus of the course will be on climate change, invasive species, eutrophication, land use change and biodiversity loss. Emphasis will be placed on peer-reviewed literature to better understand how biologists study processes at the global scale. Potential solutions to these global challenges will also be discussed.

Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351J. Comparative Immunology.**

While most textbooks would present the immune system of animals as a monolith with little variation between species, we are quickly learning that this is not the case. Indeed animal immune systems are immensely diverse. This class will consist of a taxonomic survey of metazoan immune systems, focusing on the evolutionary causes and ecological consequences of this diversity in immune systems across animals.

Prerequisite: BIO 4326 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351K. R for Biologists.**

This course broadly introduces biologists to the programming language R for statistical computing. The course will focus on the programming aspects of R using Base-R and tidyverse. This includes fundamentals like accessing the RStudio environment; loading, analyzing, and visualizing data; declaring variables, as well as navigating through and installing new modules. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351N. Marine Mammals, Reptiles, and Birds.**

This course is a field course where students will examine the ecology, management, rehabilitation, and conservation of marine mammals, reptiles, and birds. The impact of humans (e.g., pollution, climate change, habitat destruction, transportation, tourism) on their survival and rules and regulations in place to protect them will also be evaluated. Prerequisite: BIO 1331 and 1131 with a grade of "C" or better and Minimum 2.5 overall GPA and Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**BIO 4351P. Ecology and Conservation Abroad.**

The purpose of this course is to provide a first-hand understanding of the natural history, biodiversity, ecology, and conservation of ecosystems that do not occur in the United States. It is an immersive and intensive study abroad course combining traditional lecture and field-based instruction in the field. Corequisite: BIO 4351Q with a grade of "C" or better.

**3 Credit Hours. 20 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4351Q. Ecology and Conservation Abroad Lab.**

The purpose of this course is to provide a first-hand understanding of the natural history, biodiversity, ecology, and conservation of ecosystems that do not occur in the United States. It is an immersive and intensive study abroad course combining traditional lecture and field-based instruction in the field. Corequisite: BIO 4351P with a grade of "C" or better.

**3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**BIO 4360. Molecular Biology.**

This course offers advanced insights into the realm of molecular biology. The curriculum covers a range of subjects such as gene expression (which encompasses the transcription and translation processes in bacteria and other organisms), post-translational protein modifications, chromosomal DNA replication, controls at cell cycle checkpoints, DNA damage and its repair mechanisms, and theories related to cancer and aging. Prerequisite: [BIO 2450 and BIO 2400] or CHEM 3375 or CHEM 4375, with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4363. History of Medicine.**

This course covers significant concepts, developments, individuals, and events in the history of medicine from antiquity to modern day. Topics include the impact of disease on medical practice, the development of hospitals as sites for care, teaching, and research, how medical science and technology are continuously defined by social, cultural, and political ideas, and the historical roots of several themes in medical ethics. This course will be delivered as an Education Abroad course. (WI) Prerequisite: BIO 2400 or BIO 2440 or BIO 2450 or BIO 2451 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4364. Explorations in Physiology.**

This course will cover the basic principles of physiological systems and the function of organ systems with an emphasis on humans and other mammals. The focus will be on the interplay between and among multiple organ systems and holistic systems integration. Other topics include the pathophysiology underlying common diseases, drug therapies and treatments, and emerging physiological research. This course will also provide the opportunity for experiential learning gained in diverse cultural settings. Prerequisite: BIO 2400 or BIO 2440 or BIO 2450 or BIO 2451 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4366. Medical Microbiology.**

This lecture-based course will cover pathogenic bacteria and their relationship to disease, epidemiology and the biological basis for virulence. Students may take only one of BIO 4345, BIO 4350G or BIO 4445 for credit. Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4374. Principles of Zoo Management.**

This course is designed to introduce the principles of captive animal management within conservation and education-based zoos. Zoo management requires a broad understanding of the life history and biological needs of many different species; we will explore the ways modern zoos address these needs and the ways in which future zoos could address them more effectively. Specific topics will include animal husbandry, welfare, nutrition, and behavior as well as environmental enrichment, captive breeding, conservation, zoo regulatory frameworks, ethical concerns, and zoo careers. Prerequisite: BIO 2411 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4376. Microbial Biotechnology.**

This course provides an overview of how microbes (e.g., bacteria, viruses and yeast) are manipulated to solve practical problems through biotechnology. This course is based on topics of applied microbiology as recommended by American Society of Microbiology. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4377. Genome Informatics.**

The course will cover basic knowledge on genomics and its bioinformatics tools. Students will learn current topics on genomics and bioinformatics, and will analyze genomic data using statistical software. All the analyses will be performed using a personal and a cluster computer. Prerequisite: BIO 2450 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4388. Habitat Ecology.**

The course will introduce students to the importance of habitat in understanding a wide range of processes and patterns in Ecology. Course will explore the process of habitat selection, in the context of animal behavior as well as population dynamics. Students will learn methods and techniques of statistically analyzing the habitat associations of species. The central role of habitat in species conservation will also be discussed. Prerequisite: BIO 4416 with "C" or better and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4400. Plants Important for Wildlife.**

This course explores plant and plant part (specifically gall, fruit, seed, and twig) identification, phylogenetics, co-evolution of plant defenses, economic and ecological impacts of plant uses by wildlife. Prerequisite: BIO 2410 or BIO 2450 either with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4402. Earth Science I.**

The description and interpretation of earth phenomena considered from the standpoint of meteorology and astroscience. Includes field observations, methods of measurement and interpretation of data related to the physical environment and space technology. May not be counted toward a major or minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4403. Earth Science II.**

The description and interpretation of earth phenomena considered from the standpoint of geology and oceanography. Includes field observations, methods of sampling and interpretation of data related to the physical environment. May not be counted toward a major or a minor in biology. Required for those seeking grade 4-8 Science and Mathematics/Science certification.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4408. Science Processes and Research.**

Students will analyze scientific research design, design research, interpret data, and communicate results. Stress will be placed on broad-field structure and integration of major science concepts and research-based science pedagogy. This course must be taken the semester prior to student teaching and is required for those seeking 7-12 Life Science or Science teacher certification. This course may not count as one of the four upper-level Biology courses required of general Biology majors, or one of the three upper-level Biology courses required of Biology minors.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4410. Field Biology of Plants.**

Ecological relationships and natural history of plants, including historical geology, geography, soils, vegetational regions and surface geology of central Texas. Emphasis is placed on plant-soil-water relationships to develop conservation concepts. Students will make a representative collection of plants. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4411. Morphology of the Vascular Plants.**

The structure, life-cycles and evolution of fossil and living vascular plants. Emphasis on such topics as the origin of land plants, evolution of the ovule, angiospermy, the flower and fruit. Prerequisites: BIO 2450 and CHEM 1342 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4412. Plant Anatomy.**

The anatomy of vascular plants stressing descriptive, development and comparative aspects of seed plants and the anatomical adaptations of plants to environmental factors. Prerequisites: BIO 2450 and CHEM 1342 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4413. Parasitology.**

The biology and biological significance of the common parasites of man and animals. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4415. Ichthyology.**

An introduction to the morphology, taxonomy, natural history and evolution of fishes. Field trips will be made to collect specimens and laboratory periods will be devoted to morphological and systematic analysis. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4416. General Ecology.**

The ecological relationships that exist between organisms and those relationships that exist between organism and environment. Laboratory sessions will be devoted to literature review and/or specific ecological problems. This course or BIO 4454 is required of all biology majors. (WI) Prerequisites: BIO 2450 and [BIO 2400 or BIO 2410 or BIO 2411] both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4418. Field Ornithology.**

This course is designed to introduce and provide an advanced knowledge of the application of various field, laboratory, and statistical methods and techniques in the study of avian species. The course will include topics related to survey methodology, sampling design, marking/banding, measurement/sample extraction, and aging/sexing of avian species.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4420. Natural History of the Vertebrates.**

Environmental relationships and natural history of vertebrates. Emphasis is upon taxonomy, speciation and biotic provinces. The laboratory will include field trips for the study and collection of animals in their natural habitats. Students will assemble a representative collection of animals. (WI) Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better and instructor approval.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4421. Ornithology.**

Introduction to anatomy, behavior, ecology and identification of birds of Texas. Laboratory will emphasize field studies of birds and their habitat requirements. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4422. Mammalogy.**

The taxonomy, distribution, ecology, behavior and evolution of mammals with particular emphasis on wild animals of the southwest. Laboratory will emphasize anatomy, identification, preparation of specimens and field exercises in the methods of population analysis. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4423. Wildlife Management.**

Applications of the principles of ecology and natural history to the management of wildlife habitats and control of wildlife populations. Laboratory will involve demonstrations and practice exercises with wildlife management techniques and instrumentation and field trips to observe wildlife management projects. (WI) Prerequisites: BIO 2411 and BIO 2450 with grades of "C" or better and BIO 2410 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4425. Biometry.**

Basic principles of statistical methods as applied to biological problems such as sampling techniques, analysis of data, experimental design and population dynamics. Emphasis will be on practical application. Prerequisites: BIO 2450 and [MATH 1315 or MATH 2321 or MATH 2328 or MATH 2417 or MATH 2471] both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4429. Wetland Plant Ecology and Management.**

This course focuses on the biological, physical, chemical, and ecological aspects of major wetland ecosystems. The management and restoration of wetlands will also be discussed. Special attention will be spent on the ecology and identification of wetland plants. Prerequisite: BIO 2410 or BIO 2450 either with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4431. Bacterial Diversity.**

The overall goal of this research-based course is to isolate, cultivate, characterize, and identify under-explored bacterial lineages from environmental samples. Methods and techniques employed in this course include aseptic techniques, cutting-edge cultivation approaches, maintaining bacterial cultures, gel electrophoresis, DNA isolation, amplification, and sequencing. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4432. Bacterial Genomics.**

The course offers hands-on training on contemporary approaches, techniques, and bioinformatic tools used to study bacterial genomes. Topics covered include, DNA sequencing, genomic assembling, and annotation, with a strong emphasis in computation biology and genomic data handling/analytics. At the end of this course, students will be familiar with bioinformatics tools used to analyze genes and genomes. Prerequisite: BIO 4431 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4434. Herpetology.**

A course treating the origin and evolution of amphibians and reptiles; their reproductive and physiological tactics; taxonomy/systematics; and population biology. Emphasis will be placed on North American species and those groups inhabiting Texas. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4435. Techniques in Wildlife Management.**

The basic methodology of practical wildlife management. This involves techniques in monitoring and data collection related to population dynamics and habitat parameters of wildlife species. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better and instructor approval.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4436. Tropical Biology.**

This course entails an analysis and evaluation of the governing principles of tropical ecosystems, including wildlife ecologies, geological processes, and environmental-cultural interactions. In the laboratories, students will compare ecological relationships that influence tropical biology, discuss peer-reviewed literature and examine tropical flora and fauna during field trips to regional sub-tropical areas. Prerequisite: BIO 2410 and BIO 2411 and BIO 2450 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4441. Cellular Physiology.**

Advanced cellular biology, including membrane physiology, thermodynamics, energy transduction and distribution, and cellular movement in non-muscle and muscle cells. Laboratory includes discussion of current research and exercises in cellular physiology. (WI) Prerequisites: BIO 2450 and [CHEM 2330 or CHEM 2341 or CHEM 2342] both with grades of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4446. Microbial Ecology.**

This course will illustrate the wide variety of bacteria in nature, their interactions with other organisms and the environments, and their roles in global cycling of elements such as carbon, nitrogen, and sulfur. Undergraduate research is a major component of this course. (WI) Prerequisites: BIO 2400 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4447. Microbial Physiology.**

This course will cover fundamental concepts in bacterial and archaeal physiology, including central and specialized metabolism. Undergraduate research is a major component of this course. (WI) Prerequisites: BIO 2400 and BIO 2450 and CHEM 2142 and CHEM 2342 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4448. Bacterial Genetics.**

This course will cover concepts and mechanisms involved in the genetics of Archaea and Bacteria. Prerequisite: BIO 2400 and BIO 2450 both with grades of "C" or better. (WI).

**4 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4454. Plant Ecology.**

Physiological ecology and community structure and function in the organization of terrestrial plant ecosystems. Quantitative vegetational sampling and the use of field and laboratory physiological equipment are included in the laboratory. (WI) Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4455. Plant Physiology.**

Basic principles of plant physiology are studied in lecture and laboratory. One semester of organic chemistry is strongly recommended. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4464. Vertebrate Anatomy.**

This course is a comparative study of vertebrate anatomy. Fossil histories are evaluated to understand how vertebrate radiation occurred in the geological past, along with changes in structure of organs and organ systems. Lab includes dissection of representative members of each major vertebrate group. Prerequisite: BIO 2450 with a grade of "C" or better. (WI).

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4465. General Entomology.**

Principles of morphology, physiology and taxonomy of insects. Laboratory time will be devoted to a taxonomic study of the common orders and families of insects. Prerequisites: BIO 2411 and BIO 2450 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4470. Limnology.**

The physical, chemical, and biological factors affecting productivity in lakes, ponds, and streams. Limnological sampling methods, chemical, and biological analysis of samples and hydrographic surveying are included in the laboratory. (WI) Prerequisites: BIO 2450 and CHEM 1342 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4472. Animal Behavior.**

This course presents all the major facets of the study of animal behavior, giving special attention to its evolution and ecological significance. We will discuss major conceptual models guiding past and present research in the field. Laboratories will emphasize experimental techniques and statistical analysis. (WI) Prerequisites: BIO 2450 and [BIO 2400 or BIO 2410 or BIO 2411] both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**BIO 4480. Cytology and Microtechnique.**

A study of cellular structure and microscopic technique. The lecture portion of the course presents cytology of all cell types and theoretical aspects of microscopy including light and electron-based technologies. The laboratory portion of the course provides training in standard light and electron microscopy, laser scanning confocal microscopy, and digital microscopy. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**BIO 4481. Internship in Biological Laboratory Technologies.**

The student will participate in the work of a selected biology unit (private, commercial, or governmental). A research paper, reporting the internship experience conducted at the biological unit under the supervision of a faculty member, will be required. This course may be credited toward a biology major with prior approval of the biology department adviser and chair. Prerequisite: BIO 2450 with a grade of "C" or better.

**4 Credit Hours. 0 Lecture Contact Hours. 15 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**BIO 4490. Principles of Developmental Biology.**

This course will cover basic principles of developmental biology in both plant and animal systems. The course will mainly address cell, molecular and genetic mechanisms underlying the development of model organisms, mainly focusing on *Drosophila* (animal) and *Arabidopsis* (plant). Prerequisite: BIO 2450 with grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

---

## Courses in General Science (GS)

**GS 2310. Life Science Concepts.**

This laboratory course is designed to acquaint the student with the fundamentals of biological science and introductory chemistry. It cannot be taken for credit by science majors.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**GS 3310. Earth Science Concepts.**

This laboratory course acquaints students with the fundamentals of chemistry and earth space science. It is non-creditable for science majors but is a required course for select education majors. Prerequisites: PHYS 1310 or PHYS 1315 or PHYS 1320 or PHYS 1325 or PHYS 1360 or PHYS 1365 or PHYS 1370 or PHYS 1410 or PHYS 1420 any with grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). The recommended minor is Chemistry or Biochemistry. Minor and electives should be chosen in consultation with the academic advisor.
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine semester credit hours must be writing intensive (WI).
- If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Aquatic Biology at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

<b>15</b>		<b>15-14</b>

**Total Hours: 120-122**

<sup>1</sup> While PHIL 1305 or PHIL 1320 are strongly preferred, the department will allow other Language, Philosophy, and Culture Component Code 040 courses to satisfy this requirement.

<sup>2</sup> Biology advanced electives are 3000-4000 level Biology courses.

- Biology advanced electives cannot be chosen from: BIO 4305, BIO 4402, BIO 4403, or BIO 4408.
- BIO 4299 requires faculty and departmental approval, and in order to apply as an advanced biology elective, students must take BIO 4299 two times in succession.

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). The recommended minor is Chemistry or Biochemistry. Minor and electives should be chosen in consultation with the academic advisor.
4. The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
6. Nine semester credit hours must be writing intensive (WI).
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
8. For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Biology at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

- Biology advanced electives cannot be chosen from: BIO 4305, BIO 4402, BIO 4403, or BIO 4408.
- BIO 4299 requires faculty and departmental approval, and in order to apply as an advanced biology elective, students must take BIO 4299 two times in succession.

<sup>3</sup> Students may apply only one course from [BIO 3421 or BIO 3426] towards the biology major requirements.

## Minimum required: 120-121 semester credit hours

### Admission Requirement

- All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- This degree program is designed to prepare students for secondary teacher certification in Life Science and requires that students pursue a double major by declaring and completing requirements for both the major in Biology and the major in Education, which includes the following courses:

Code	Title	Hours
<b>Education Foundations</b>		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3

#### Teaching and Learning

CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
<b>Clinical Practice</b>		
EDST 4681	Clinical Teaching 7-12	6
<b>Total Hours</b>		<b>33</b>

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine credit hours must be writing intensive (WI).
- To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor
- If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- All students seeking teacher certification must apply for and be admitted to the Educator Preparation Program in order to enroll in education coursework and student teaching in the Junior and Senior years. Refer to the requirements for Admittance to the Educator Preparation Program through the Office of Educator Preparation (p. 263). (Hyperlink is <https://next.mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/> (p. 263))
- The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).
- For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Biology at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

- <sup>2</sup> Neither BIO 4305 nor BIO 4408 count as advanced electives in any other degree program in Biology.

# Minimum required: 121-125 semester credit hours

## General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 127. The number of elective hours a student completes depends on the number of hours a student may need to achieve the required 127 total or 36 advanced hours.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- Nine semester credit hours must be writing intensive (WI).
- If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- This Bachelor of Science degree plan includes courses in preparation for The Wildlife Society certification as an Associate Wildlife Biologist (<https://wildlife.org/learn/professional-development-certification/certification-programs/>), and does not require a minor.
- For transfer students, 24 semester credit hours in biology, chemistry and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Biology Field of Study and be applied to the Bachelor of Science degree with a major in Wildlife Biology at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

- <sup>1</sup> While PHIL 1305 or PHIL 1320 are strongly preferred, the department will allow other Language, Philosophy, and Culture Component Code 040 courses to satisfy this requirement.
- <sup>2</sup> Individual biology advanced electives can apply to only one requirement and cannot satisfy multiple requirements.
- <sup>3</sup> Students must complete (1) advanced vertebrate elective from group one and (2) vertebrate electives from group two.

## Electives

Code	Title	Hours
Advanced Vertebrate Elective Group One		
Choose 1 course from the following		
BIO 4350I	Bird Conservation and Management	
BIO 4418	Field Ornithology	
BIO 4420	Natural History of the Vertebrates	
BIO 4421	Ornithology	
BIO 4422	Mammalogy	
BIO 4434	Herpetology	
BIO 4436	Tropical Biology	
Advanced Vertebrate Elective Group Two		
Choose 2 from the following:		
BIO 4324	Natural History and Conservation of Large Mammals	
BIO 4338	Tropical Ecology and Conservation	
BIO 4350I	Bird Conservation and Management	

BIO 4351Q	International Ecology and Conservation of Wildlife
BIO 4415	Ichthyology
BIO 4418	Field Ornithology
BIO 4420	Natural History of the Vertebrates
BIO 4421	Ornithology
BIO 4422	Mammalogy
BIO 4434	Herpetology
BIO 4436	Tropical Biology
BIO 4472	Animal Behavior

**Botany Elective Option**

Choose 2 from the following:

BIO 3406	Economic Botany
BIO 3461	Plant Taxonomy
BIO 4351F	Marine Ecology and Conservation
BIO 4400	Plants Important for Wildlife
BIO 4410	Field Biology of Plants
BIO 4429	Wetland Plant Ecology and Management
BIO 4454	Plant Ecology

**Physiology Course Options**

Choose 1 from the following:

BIO 3421	Vertebrate Physiology
BIO 4343	Fish Physiology
BIO 4350J	Environmental Physiology of Animals
BIO 4455	Plant Physiology

**Policy Elective Option**

Choose 1 from the following:

BIO 4304	Wildlife and Recreation: Impact, Policy, and Management
BIO 4350M	Wildlife Policy and Law in North America
BIO 4307	Ecology of Rarity
BIO 4331	Human Dimensions of Wildlife and Fisheries Conservation

**Conservation Elective Option**

Choose 1 from the following:

BIO 4307	Ecology of Rarity
BIO 4319	Biological Resources: Conservation and Planning
BIO 4351P	International Ecology and Conservation of Plants
BIO 4351Q	International Ecology and Conservation of Wildlife

The minor in Biology requires 29 semester credit hours. A grade of "C" or higher is required in all prerequisite courses.

Code	Title	Hours
<b>Required Courses</b>		
BIO 1130	Functional Biology Laboratory	1
BIO 1131	Organismal Biology Laboratory	1
BIO 1330	Functional Biology	3
BIO 1331	Organismal Biology	3
BIO 2450	Genetics	4
Choose 9 hours of advanced BIO courses <sup>1</sup>		9
CHEM 1141	General Chemistry Laboratory I	1
CHEM 1142	General Chemistry Laboratory II	1
CHEM 1341	General Chemistry I	3

CHEM 1342	General Chemistry II	3
<b>Total Hours</b>		<b>29</b>

<sup>1</sup> Not to include BIO 4299, BIO 4305, BIO 4402, BIO 4403, or BIO 4408.

For students who are seeking a teacher certification within their major and would like a second teaching field in Life Science, the requirements are:

Code	Title	Hours
BIO 1330 & BIO 1130	Functional Biology and Functional Biology Laboratory	4
BIO 1331 & BIO 1131	Organismal Biology and Organismal Biology Laboratory	4
BIO 2410	Intermediate General Botany	4
BIO 2450	Genetics	4
BIO 4408	Science Processes and Research	4
BIO 4416 or BIO 4454	General Ecology Plant Ecology	4
CHEM 1341 & CHEM 1141	General Chemistry I and General Chemistry Laboratory I	4
CHEM 1342 & CHEM 1142	General Chemistry II and General Chemistry Laboratory II	4
<b>Total Hours</b>		<b>32</b>

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

The study of chemistry provides the essential knowledge needed to address many of society's most pressing needs, such as clean water, tapping new sources of energy, improving health and conquering disease, providing renewable substitutes for dwindling resources, strengthening our national security, and monitoring and protecting our environment.

Chemists and biochemists find careers in research, production, teaching, quality control, technical services, and/or sales. Graduates from the Department of Chemistry and Biochemistry have an excellent record of job placement in industrial, academic, and government positions. Many also seek advanced degrees or pursue careers in medicine, dentistry, pharmacy or other health-related professions.

The department fosters innovative research programs that expand knowledge through discovery and development, actively contribute to the broader scientific community, and address critical global needs. We are committed to the professional development and mentoring of a diverse and inclusive community of faculty, staff, and students.

Students are encouraged to actively engage in undergraduate research, and to work as laboratory instructors, learning assistants, and supplemental instructors for lower division courses. Students may also participate in internships and research programs both on and off campus, particularly during the summer.

The faculty, facilities, library holdings, and chemistry curriculum of the Department of Chemistry and Biochemistry have been accredited by the American Chemical Society. Recipients of a B.S. major in Chemistry or B.S. major in Biochemistry who have fulfilled the minimum requirements for professional chemists are awarded certification by the American Chemical Society. Receipt of the ACS certificate is recommended as preparatory training for work in industry or for continued graduate studies in chemistry or biochemistry. The Biochemistry program is also accredited by the American Society for Biochemistry and Molecular Biology and recipients of a B.S. major in Biochemistry are awarded an ASBMB certified degree upon successful completion of a scored examination. Students interested in careers in medicine, dentistry, pharmacy, or as physicians assistants are encouraged to choose a corresponding minor in Pre-Dental, Pre-Medical, Pre-Pharmacy, or Pre-Physicians Assistant Studies to prepare for post-graduate professional degrees.

Students seeking a B.S. major in Chemistry begin their studies taking foundation courses in chemistry, physics and mathematics. After completion of the foundation courses, students take advanced courses and laboratories in physical chemistry, analytical chemistry, inorganic chemistry and organic chemistry. A minor is required for this degree. (Chemistry majors are not allowed to double major in Biochemistry or choose a Minor in Biochemistry.)

Students seeking a B.S. major in Biochemistry begin their studies taking foundation courses in chemistry, biology, physics and mathematics. After completion of the foundation courses, students take advanced courses and laboratories to gain knowledge and experience in the modern techniques of biochemistry and molecular genetics. The Biochemistry curriculum meets the standards set by the American Society for Biochemistry and Molecular Biology. A minor is required for this degree. (Biochemistry majors are not allowed to double major in Chemistry or choose a Minor in Chemistry.)

Qualified chemistry or biochemistry majors completing their junior year of chemistry courses who plan to pursue advanced studies have the opportunity to complete both B.S. and M.S. degrees with one additional year of course work and research after receipt of a B.S. degree. Students must be active in undergraduate research prior to their senior year to be eligible for the program.

## Pharmacy

Pharmacy is a professional program leading to a Doctor of Pharmacy (Pharm.D.) degree. Minor in Pre-Pharmacy Studies provides a strong foundation for future studies and includes prerequisite coursework required in order to apply to professional programs in Pharmacy. The Pharmacy schools in Texas (including Texas A&M Health Science Center-Irma Lerma Rangel College of Pharmacy, Texas Southern University College of Pharmacy and Health Sciences, Texas Tech University Health Sciences Center School of Pharmacy, The University of Texas at Austin College of Pharmacy, The University of Texas-El Paso School of Pharmacy, The University of Texas at Tyler-Ben and Maytee Fisch College of Pharmacy, University of Houston College of Pharmacy, University of the Incarnate Word Feik School of Pharmacy, and University of North Texas Health Science Center College of Pharmacy) all require

prerequisite courses in chemistry, biology, math, physics, English, humanities and social sciences. Some requirements vary by professional school, so it is imperative that pre-pharmacy students consult with a pre-pharmacy advisor prior to and during completion of their major at Texas State.

## Teacher Certification

Students may earn a Chemistry (Grades 7-12) certification in Texas, while pursuing a double major with a B.S. major in Chemistry and a B.S. major in Education. Initial or additional certification may also be acquired as a post-baccalaureate or graduate student. Students interested in certification should meet with their academic advisor early in their undergraduate program or certification process.

## Bachelor of Science (B.S.)

- Major in Biochemistry (p. 698)
- Major in Biochemistry (American Chemical Society approved program) (p. 699)
- Major in Chemistry (p. 700)
- Major in Chemistry (Secondary Education; Teacher Certification in Chemistry, Grades Seven through Twelve, with Double Major in B.S. Education) (p. 701)

## Bachelor of Science (B.S.) and Master of Science (M.S.)

- Major in Biochemistry (Early-Entry Program) (p. 703)
- Major in Chemistry (Early-Entry Program) (p. 703)

## Minors

- Biochemistry (p. 703)
- Chemistry (p. 703)
- Second Teaching Field in Chemistry (Grades 7-12) (p. 703)

## Courses in Chemistry (CHEM)

### **CHEM 1135. Engineering Chemistry Laboratory.**

This laboratory course is designed to accompany CHEM 1335. This course introduces students to experimental measurements and the study of thermodynamics, kinetics, and equilibria. Corequisite: CHEM 1335 with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1109

### **CHEM 1141. General Chemistry Laboratory I.**

First of two laboratory courses in general chemistry for science-related majors. Course introduces the students to the basics of experimental measurements, including density, separation techniques, formula determinations, titrations, thermodynamics, gas laws, and descriptive chemistry. Corequisite: CHEM 1310 or CHEM 1341 either with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1111

**CHEM 1142. General Chemistry Laboratory II.**

Second of two laboratory courses in general chemistry. Laboratory techniques are emphasized, and applied to both qualitative and quantitative analysis. Prerequisites: CHEM 1141 and CHEM 1341 both with grades of "D" or better. Corequisite: CHEM 1342 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1112

**CHEM 1310. Introductory Chemistry for Non-Science Majors.**

A one semester principles course for students in non-science related majors, this course covers the major concepts of chemistry and the role of chemistry in contemporary society. (It is not intended as an introductory course for general chemistry or for science majors.).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1305

**CHEM 1320. Foundations of Chemistry.**

This course is a preparatory course for CHEM 1335 and CHEM 1341. It provides a background in fundamental chemical mathematics, in writing and understanding chemical formulas and equations and in the application of scientific laws in the behavior of matter from macro to atomic levels. Students have the option to complete online ALEKS modules and test out of this course. Corequisite: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 1330. Chemistry for Non-Science Majors.**

This is the second of two lecture courses for non-science majors. The course surveys organic and biochemistry and current topics which may include energy-related topics, nuclear chemistry, environmental chemistry, medicinal chemistry, and synthetic and natural polymers. Prerequisite: CHEM 1310 or CHEM 1341 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1307

**CHEM 1335. Engineering Chemistry.**

This course is a one-semester lecture course that focuses on engineering-related applications. Topics include stoichiometry, gases, chemical bonding and structure, periodic trends, materials, energy, kinetics, equilibrium, and electrochemistry. Prerequisite: [[MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Mathematics score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better]] and [[CHEM 1320 with any grade of "C" or better] or [ALCH00 score of 80 or better]].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1309

**CHEM 1341. General Chemistry I.**

This course is the first lecture course in the general chemistry sequence for science-related majors, and covers atomic and molecular structure, bonding, states of matter, solutions, and descriptive chemistry. Prerequisite: [[MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Mathematics score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better]] and [[CHEM 1320 with any grade of "C" or better] or [ALCH00 score of 80 or better]].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1311

**CHEM 1342. General Chemistry II.**

Second of two lecture courses in general chemistry for science-related majors, covering equilibrium processes, acid-base chemistry, and kinetics, and electrochemistry. A basic knowledge of algebra is needed. Prerequisite: CHEM 1341 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 1312

**CHEM 2130. Laboratory Technique in Organic Chemistry.**

An optional laboratory to accompany CHEM 2330, covers experimental techniques of preparation, purification, and determination of physical and chemical properties of organic compounds. Prerequisites: CHEM 1142 and CHEM 1342 both with grades of "D" or better. Corequisite: CHEM 2330 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 2141. Organic Chemistry Laboratory I.**

This laboratory introduces the student to the general techniques of organic chemistry. Prerequisites: CHEM 1342 with a grade of "C" or better and CHEM 1142 with a grade of "D" or better. Corequisite: CHEM 2341 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 2123

**CHEM 2142. Organic Chemistry Laboratory II.**

This laboratory involves the study of typical organic reactions. Prerequisites: CHEM 2341 with a grade of "C" or better and CHEM 2141 with a grade of "D" or better. Corequisite: CHEM 2342 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 2125

**CHEM 2150. Biochemistry & Metabolism Lab.**

An optional laboratory to accompany CHEM 2350. This laboratory examines the physical properties and chemistry of carbohydrates, amino acids, proteins, lipids and nucleotides. Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: [CHEM 2130 and CHEM 2330] or [CHEM 2142 and CHEM 2342] any with a grade of "D" or better. Corequisites: CHEM 2350 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 2330. Fundamentals of Organic Chemistry.**

A one-semester course which covers nomenclature, structure and reactions of organic compounds with an introduction to bioorganic molecules. Course is designed for students majoring in nutrition, clinical laboratory sciences and agriculture. Prerequisites: CHEM 1142 and CHEM 1342 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 2341. Organic Chemistry I.**

This course covers the nomenclature, reactions and reaction mechanisms of the hydrocarbons and the alkyl halides. Prerequisites: CHEM 1342 with a grade of "C" or better. Corequisite: CHEM 1142 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 2323

**CHEM 2342. Organic Chemistry II.**

This course covers the nomenclature, reactions and reaction mechanisms of the major functional groups. Prerequisite: CHEM 2341 with a grade of "C" or better. Corequisite: CHEM 2141 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** CHEM 2325

**CHEM 2350. Biochemistry & Metabolism.**

A one-semester study of carbohydrate, proteins, lipids and nucleotides which presents both structure and intermediary metabolism along with an introduction to the function of enzymes and coenzymes.

Course is designed for students majoring in nutrition, clinical laboratory science and agriculture. Prerequisites: [CHEM 2130 and CHEM 2330] or [CHEM 2142 and CHEM 2342] any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3190. Cooperative Education.**

This course provides cooperative education students the opportunity to study particular problems in chemistry and biochemistry in an occupational setting. Problems are related to the student's work assignment, culminating in an industrial supervisor's evaluation and the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: Minimum 2.25 Overall GPA and Instructor Approval.

**1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3245. Physical Chemistry Laboratory.**

Experiments illustrating principles and methods of physical chemistry are performed. Written reports on the experiments are prepared. (WI) Prerequisites: CHEM 3330 with a grade of "C" or better and CHEM 3410 with a grade of "D" or better. Corequisites: CHEM 3340 with a grade of "D" or better.

**2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**CHEM 3276. Experimental Biochemistry.**

Course introduces biochemistry minors to the fundamental techniques used in modern biochemistry. Experiments use the essential techniques employed in the study of proteins, enzymes and nucleic acids with emphasis on the use of modern instrumentation and the manipulation and analysis of experimental data. Prerequisites: CHEM 3375 or CHEM 4375 either with a grade of "C" or better.

**2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CHEM 3290. Advanced Cooperative Education.**

This course provides cooperative education students the opportunity to study particular problems in chemistry and biochemistry in an occupational setting. Problems are related to the student's work assignment, culminating in an industrial supervisor's evaluation and the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: Minimum 2.25 Overall GPA and instructor approval.

**2 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3330. Physical Chemistry I.**

The course covers principles of thermodynamics and thermochemistry, phase equilibria, electrochemistry and elementary kinetics including rate laws and mechanisms. Prerequisites: CHEM 1142 with a grade of "D" or better and CHEM 1342 and MATH 2472 both with grades of "C" or better.

**3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3340. Physical Chemistry II.**

The course covers kinetics, quantum mechanics, spectroscopy, and other selected topics. Prerequisite: CHEM 3330 and PHYS 2326 both with grades of "C" or better.

**3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3341. Descriptive Inorganic Chemistry.**

An analysis of atomic, molecular, and solid state bonding and structure with an emphasis on coordination compounds and bioinorganic chemistry. Representative compounds and reactions of the elements will be surveyed. Prerequisite: CHEM 2342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3375. Principles of Biochemistry.**

This course provides biochemistry majors and minors with a rigorous introduction to biochemistry. Topics include the chemical function and structure of proteins, nucleic acids, lipids and carbohydrates, and enzyme mechanisms, kinetics and regulation. Corequisite: CHEM 2342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3380. Analytical Biochemistry.**

This course is designed to acquaint the student with the chemical and physical principles of modern biochemical methods. Emphasis is placed upon the application of the methods to current problems in biochemistry and molecular biology and the interpretation of data. Prerequisite: CHEM 3375 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3381. Biochemistry Techniques.**

Course introduces biochemistry majors to techniques in analytical and physical biochemistry. Experiments reinforce fundamental concepts and utilize modern instrumentation. Experimental design, interpretation of results, and data reporting will be emphasized. (WI) Prerequisites: CHEM 3375 with a grade of "C" or better. Corequisite: CHEM 3380 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CHEM 3390. Physical Chemistry for Biochemists.**

A study of the theories and laws of physical chemistry as it relates to biochemistry. The topics covered include ideal and real gases, classical thermodynamics, reaction kinetics, phase equilibria, electrochemistry, quantum mechanics, spectroscopy and statistical mechanics. Prerequisite: MATH 2472 with a grade of "C" or better. Corequisite: PHYS 2325 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 3410. Quantitative Analysis.**

Course covers the general theory and practice of typical methods of gravimetric and volumetric analysis, satisfies the quantitative analysis requirements for chemistry majors, minors, pre-medical and pharmacy students. Prerequisites: CHEM 1342 with a grade of "C" or better and CHEM 1142 with a grade of "D" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CHEM 4099. Predoctoral Biomedical Research Development for Undergraduates.**

This course is a weekly professional development seminar for NIH-supported trainees and affiliates in the Texas State U-RISE program (NIH GM136483). Prerequisite: Instructor approval.

**0 Credit Hours. 0 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Credit/No Credit

**CHEM 4231. Advanced Laboratory I.**

An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of organic and inorganic materials. (WI) Prerequisites: CHEM 3245 and CHEM 3340 and CHEM 3410 all with grades of "D" or better. Corequisites: CHEM 4331 with a grade of "D" or better.

**2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**CHEM 4241. Advanced Laboratory II.**

An advanced integrated lab illustrating a variety of chemical techniques for the preparation, characterization and analysis of inorganic and organic materials. (WI) Prerequisites: CHEM 4231 and CHEM 4331 both with grades of "D" or better. Corequisite: CHEM 4341 with a grade of "D" or better.

**2 Credit Hours. 1 Lecture Contact Hour. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**CHEM 4295. Laboratory Development and Practice.**

This course develops the laboratory instructional abilities of students seeking either 8-12 Chemistry or 8-12 Physical Science Teaching Certification. Topics include both traditional laboratory techniques and guided inquiry techniques, safety, laboratory management, pedagogical theory and practical knowledge of laboratory experiments. Prerequisite: Minimum 2.5 Overall GPA.

**2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CHEM 4299. Undergraduate Research.**

This course is available to undergraduate chemistry or biochemistry majors only. It may be repeated for credit but a maximum of four semester hours from this course are applicable toward advanced chemistry electives. Prerequisite: Instructor approval.

**2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CHEM 4310. Medicinal Chemistry.**

This course surveys modern approaches to drug discovery and mechanisms of drug action with the focus on molecular structures of drugs. Examples of drug discovery for the chemotherapy of cancer, microbial and cardiovascular diseases will be examined. Prerequisites: [CHEM 2342 and CHEM 2350] or CHEM 3375 or CHEM 4375 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4312. Organometallic Chemistry.**

This course will survey the structure, bonding, and reactivity of organometallic complexes. Homogeneous catalysis of the transition metals as well as the main group elements along with specialized "seminal research papers" in the field of organometallic chemistry will also be presented. Prerequisites: CHEM 2342 and CHEM 3341 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4331. Instrumental Analysis.**

The theory and methodology associated with the quantitative analysis of materials, i.e., electronics, spectroscopy, electrochemistry and chromatography are presented. Prerequisite: CHEM 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4333. Spectroscopy.**

The study of various spectrometric techniques in qualitative and structural analysis of chemical substances. Prerequisite: CHEM 2342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4341. Advanced Inorganic Chemistry.**

This course will use group theory analysis to predict vibrational spectra and bonding in molecules, including metal complexes. Numerous approaches (acid/base, redox, etc.) will be employed to rationalize the products of inorganic and organometallic reactions. The materials properties of solids and nanomaterials will also be discussed. Prerequisites: CHEM 3340 and CHEM 3341 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4350. Modern Molecular Modeling.**

A study of the application of computational techniques to molecular modeling. Topics covered include quantum mechanical modeling, forcefield based molecular modeling, molecular energy minimization, molecular dynamics, vibrational spectra, solution of crystalline structures, diffraction patterns, molecular blends, phase equilibria, crystal morphology, physical property prediction and mesoscale modeling. Prerequisite: CHEM 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4351. Introduction to Polymers.**

This course is designed to develop the student's general understanding of polymer history and importance as well as terminology, structure, and synthesis. The overall scope of the course will be to develop the student's general knowledge of polymer synthesis and structure. Prerequisite: CHEM 2342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4360. Molecular Biology.**

This course provides Biochemistry majors and minors with advanced knowledge of the field of molecular biochemistry. Topics include gene expression (transcription and translation of genes in bacteria and higher organisms), post-translational modification of proteins, chromosomal DNA replication, cell cycle checkpoint controls, DNA damage and repair, as well as theories of cancer and aging. Prerequisite: CHEM 3375 or CHEM 4375 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4371. Directed Study.**

Independent study on a particular subject area in chemistry or biochemistry. The specific study area, resource material, goals, and achievements will be approved by the instructor. Prerequisites: CHEM 2342 with a grade of "C" or better and instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4375. Biochemistry.**

This course provides a challenging introduction to biochemistry, covering the structure and function of nucleic acids, proteins, lipids, and carbohydrates. Major metabolic pathways of carbohydrates and lipids are also examined. This course is not intended for biochemistry majors. Corequisite: CHEM 2342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4382. Advanced Biochemistry Research Laboratory II.**

This course is the second of two laboratory courses providing instruction in the modern techniques of biochemistry. Students will perform independent research projects involving isolation, manipulation and characterization of biomolecules. Results of these experiments and the scientific literature investigations will be used to prepare formal written reports and oral presentations. Prerequisite: CHEM 4481 with a grade of "C" or better. (WI).

**3 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CHEM 4385. Metabolism.**

A study of the biodegradation and biosynthesis of carbohydrates, lipids, amino acids, proteins, and nucleic acids. Prerequisite: CHEM 3375 or CHEM 4375 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CHEM 4390. Supramolecular Chemistry.**

This course is designed to be a survey of the nature of non-covalent interactions between host and guest species. Emphasis will be focused on the rational design of hosts, thermodynamic and kinetic parameters involved in binding and the applications of various binding/recognition phenomena. Prerequisite: CHEM 2342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CHEM 4481. Advanced Biochemistry Lab I.**

The first of two laboratory courses providing instruction in the modern techniques of biochemistry. Experiments are performed on the isolation, manipulation and characterization of DNA, RNA and proteins. Students will prepare formal written reports and oral presentations. (WI) Prerequisites: CHEM 3381 with a grade of "C" or better and CHEM 3380 with a grade of "D" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 8 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/>)

undergraduate/minors/). The recommended minor is Biology. Minor and electives should be chosen in consultation with the academic advisor.

- The minimum number of hours required for this degree program is 120. The number of free elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine semester credit hours must be writing intensive (WI).
- If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- Elective credit for CHEM 3190, CHEM 3290, and CHEM 4299 is limited to a total of 4 credit hours.

<sup>1</sup> Certification of the degree as approved by the American Chemical Society requires 2 credit hours of a combination of CHEM 3190, CHEM 3290, or CHEM 4299.

**Minimum required: 120 semester credit hours**

## General Requirements

- This Bachelor of Science (B.S.) degree with a major in Biochemistry will be certified as approved by the American Chemical Society (ACS). The ACS approved program provides external validation for the curriculum, faculty and resources in the Department of Chemistry and Biochemistry that will certify to potential employers that the department and curriculum has met certain industry standards, and thus should increase the student's marketable skills.
- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). The recommended minor is Biology. Minor

and electives should be chosen in consultation with the academic advisor.

- The minimum number of hours required for this degree program is 120. The number of elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Nine semester credit hours must be writing intensive (WI).
- If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- Elective credit for CHEM 3190, CHEM 3290, and CHEM 4299 is limited to a total of 4 credit hours.

<sup>1</sup> Certification of the degree as approved by the American Chemical Society requires 4 credit hours of a combination of CHEM 3190, CHEM 3290, or CHEM 4299.

Minimum required: 123 semester credit hours

Admission Requirement

- 1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

General Requirements

- 1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- 2. In addition to this chemistry major and general education core requirements, students must also complete 33 hours in a double major with the Bachelor of Science (B.S.) in Education (Secondary Education Teacher Certification) which includes:

Code	Title	Hours
Education Foundations		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
Teaching and Learning		
CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
Clinical Practice		
EDST 4681	Clinical Teaching 7-12	6

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
5. Nine credit hours must be writing intensive (WI).
6. To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of “C” or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
8. All students seeking teacher certification must apply for and be admitted to the Educator Preparation Program in order to enroll in education coursework and student teaching in the Junior and Senior years. Refer to the requirements for Admittance to the Educator Preparation Program through the Office of Educator Preparation (p. 263). (Hyperlink is <https://next.mycatalog.txstate.edu/undergraduate/education/office-of-educator-preparation/> (p. 263))
9. [The Texas Education Agency \(TEA\) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: \[https://tea.texas.gov/Texas\\\_Educators/Investigations/Preliminary\\\_Criminal\\\_History\\\_Evaluation-FAQs/\]\(https://tea.texas.gov/Texas\_Educators/Investigations/Preliminary\_Criminal\_History\_Evaluation-FAQs/\).](#)
10. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Science degree with a major in Education at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours

Qualified biochemistry majors completing their junior year of biochemistry courses who plan to pursue advanced studies in Biochemistry have the opportunity to complete both a Bachelor of Science and a Master of Science degree with two additional years (including summers) of course work and research in chemistry. Students may be admitted to the M.S. program without entrance qualification exams if they have a 3.00 GPA or higher in all chemistry and biochemistry courses, have completed CHEM 3380, CHEM 3381, and two semesters of CHEM 4299, have taken the Graduate Record Exam, and have been accepted by a graduate thesis advisor. Applicants will be evaluated by the Graduate Evaluation Committee to determine their suitability to enter the program. The application process is the same as for other graduate applicants to The Graduate College. Graduate status is provisional until the B.S. degree is awarded. The B.S. degree will be certified as approved by the American Chemical Society for students completing CHEM 3341 (fall only course) as an advanced elective.

[www.cs.txst.edu](http://www.cs.txst.edu) (<http://www.cs.txst.edu/>)

The mission of the Department of Computer Science is to advance the knowledge of computer science and technology through education, research, and service for the betterment of society.

The Department of Computer Science offers two degree options for students - a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.). The Bachelor of Science in Computer Science degree program is accredited by the Computing Accreditation Commission of ABET, [www.abet.org](http://www.abet.org) (<http://www.abet.org/>), under the commission's General Criteria and Program Criteria for Computer Science. All students complete a core sequence of courses designed to provide them with a solid foundation in computer science. The upper-division electives offer students the opportunity to explore cutting-edge topics aligned with the department's research strengths, ensuring that our graduates are well-prepared for the dynamic landscape of the computing industry. Upon completion of their studies, Computer Science graduates enter diverse professional domains, including software development, cybersecurity, User Interface (UI) and User Experience (UX) design, machine learning and data science, and game development. Students also enter graduate programs to further their knowledge and pursue research in computer science.

**Please note: Students cannot major/minor or double major within the Department of Computer Science.**

## Bachelor of Arts (B.A.)

- Major in Computer Science (p. 709)

## Bachelor of Science (B.S.)

- Major in Computer Science (p. 710)
- Major in Computer Science (Computer Engineering Concentration) (p. 712)

## Minor

- Computer Science (p. 714)

## Courses in Computer Science (CS)

### CS 1308. Computer Literacy and the Internet.

A study of the uses of computers and their effects on society. Text processing, spreadsheets, databases, and Web programming. Does not count for computer science credit towards a minor, a BS, or a BA in computer science.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** COSC 1301

### CS 1319. Fundamentals of Computer Science.

Provides fundamental knowledge of the six layers of computer science as per the ACM CS0 curriculum. The information, hardware, programming, operating system, applications, and communications layers are presented plus appropriate open computer laboratory exercises. Does not count for computer science credit towards a minor, BS, or BA in computer science.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** COSC 1336

### CS 1342. Programming for Scientists and Engineers.

This course is an introduction to computer science and problem solving techniques with applications in engineering and the physical sciences. Topics include an introduction to computer organization, data representation, algorithm development, and computer programming in a high-level language.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### CS 1428. Foundations of Computer Science I.

Introductory course for computer science majors, minors and others desiring technical introduction to computer science. Contains overview of history and structure of the digital computer, including binary data representation. Problem solving, algorithm development, structured programming, good coding style, and control structures of C++ are emphasized. Prerequisite: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Mathematics score of 520 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** COSC 1437

**CS 2308. Foundations of Computer Science II.**

The course is an introduction to Abstract Data Types (ADTs) including lists, stacks, and queues. Searching and sorting, pointers and dynamic memory allocation, and simple classes and objects also will be covered. The course is a continuation of CS 1428. Prerequisite: CS 1428 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** COSC 2336

**CS 2315. Computer Ethics.**

This course is primarily for computer science majors, focusing on the ethical codes of the professional societies, the philosophical bases of ethical decision-making, and the examination of several contemporary case studies. (WI) Prerequisites: CS 1428 and [COMM 1310 or COMM 2338] and [ENG 1310 or ENG 1320 or ENG 1321 or ENG 3303] and [PHIL 1305 or PHIL 1320] all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CS 2318. Assembly Language.**

A course covering assembly language programming, including instruction sets, addressing modes, instruction formats, looping, logic, data representation, subroutines and recursion; and the interface between hardware and software. Prerequisites: CS 2308 and MATH 2358 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** COSC 2325

**CS 3190. Cooperative Education.**

This course provides cooperative education students the opportunity to study particular problems in computer science in an occupational setting. Problems are related to the student's work assignment, culminating in the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: Minimum 2.25 Overall GPA and instructor approval.

**1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3279A. Career Preparation and Job Search Strategies.**

This course will help computer science students plan and launch their careers and find internships. Topics include career assessment, job search strategies, resume writing, interview skills, development of coding skills required for interviews, networking and negotiation. Prerequisite: CS 2308 and CS 2315 both with grades of "C" or better.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**CS 3290. Advanced Cooperative Education.**

This course provides cooperative education students the opportunity to study particular problems in computer science in an occupational setting. Problems are related to the student's work assignment, culminating in the student's technical report or presentation. A total of 3 hours of cooperative education credit may be applied to the student's major elective. Prerequisite: A minimum 2.25 Overall GPA and instructor approval.

**2 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3320. Internet Software Development.**

A course providing foundations for the construction and design of static and dynamic Web pages with database applications. This will include server-side and client-side software development. Prerequisite: CS 2308 with a grade of "C" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3339. Computer Architecture.**

This course provides instruction on the use of fundamental hardware components. Topics include arithmetic logic units (ALU), single and multiple cycle datapath and control, Reduced Instruction Set Computer (RISC) vs. Complex Instruction Set Computer (CISC), pipelining, caches, Input/Output, virtual memory and related performance issues. Prerequisite: CS 2308 and [CS 2318 or EE 3420] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3354. Object-Oriented Design and Programming.**

The course covers object-oriented design principles and programming for students with prior programming experience. The topics include inheritance and polymorphism, object-oriented design process, UML diagrams, design patterns, exception handling and multithreading. Students will design and implement programs in Java. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3358. Data Structures and Algorithms.**

This is a course that covers classic data structures and the analysis of algorithms. Prerequisites: CS 2308 and MATH 2358 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3360. Computing Systems Fundamentals.**

This course covers fundamental concepts underlying the design and implementation of computing systems. It introduces students to problems that reoccur in computing systems and the tools and algorithms used to solve them. Topics include performance evaluation, resource management and scheduling, concurrency and synchronization, and communication and networks. Prerequisite: CS 2318 and CS 3358 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3369. Embedded Computer Systems.**

This course studies the architecture of embedded systems, micro-controllers, their peripherals, languages, and operating systems and the special techniques required to use them. Prerequisite: CS 2318 or EE 3420 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3378. Theory of Automata.**

An introduction to automata theory, computability, and formal languages. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3393. Software Testing.**

This course introduces basic concepts and techniques for testing software and finding bugs. Topics include test design, test process, unit, integration and system testing, manual and automatic techniques for generation of test inputs and validation of test outputs, and coverage criteria. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 3398. Software Engineering.**

The study of software design, implementation, and validation techniques through team projects. Structured analysis, programming style, and project documentation are emphasized in large software projects. (WI) Prerequisite: CS 3354 and CS 3358 and [CS 2315 or EE 2400] all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CS 4100. Computer Science Internship.**

Provides on-the-job training supervised by computer scientists in industry internship programs approved by the department.

**1 Credit Hour. 0 Lecture Contact Hours. 20 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Credit/No Credit

**CS 4298. Undergraduate Research I.**

Supervised individual research project in a mentor-student relationship with a computer science faculty member. Cannot be given degree credit until the satisfactory completion of CS 4299. Prerequisites: Minimum 3.00 Major GPA and instructor approval.

**2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Credit/No Credit

**CS 4299. Undergraduate Research II.**

Supervised individual research projects in a mentor-student relationship with a computer science faculty member. Prerequisites: CS 4298 with a grade of "C" or better and instructor approval.

**2 Credit Hours. 1 Lecture Contact Hour. 2 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4310. Computer Networks.**

This course covers the fundamental concepts in the design of computer networks and networking protocols with emphasis on the Internet (TCP/IP) architecture. The covered topics include: protocol layering, media access, internet routing, transport protocols, and applications. Prerequisite: CS 3360 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4315. Introduction to Data Mining and Information Retrieval.**

This course covers fundamental concepts and techniques in data mining and information retrieval. Data mining topics include classification, cluster analysis and pattern mining. Information retrieval topics include Boolean retrieval, vector space model, and Web search. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4318. Compiler Construction.**

This course investigates theoretical and practical issues in the design and construction of modern compilers. Topics covered include lexical and syntactic analysis, syntax-directed translation, type checking, intermediate representation, code generation, and runtime systems.

A major portion of the course involves implementing a compiler from scratch for a C-like programming language. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4326. Human Factors of Computer Systems.**

Principles and methods in human factors and ergonomics applied to the design and use of computer systems. Prerequisite: CS 3358 with a grade of "C" or better. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CS 4328. Operating Systems.**

This course covers the principles of operating systems design.

The covered topics include: process management, CPU scheduling algorithms, inter-process communication and synchronization, memory management, virtual machines, and I/O device management.

Prerequisite: CS 3339 and CS 3360 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4332. Introduction to Database Systems.**

Introduction to database concepts, data models, file structures, query languages, database management systems. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4337. Introduction to Computer Vision.**

This course covers fundamental topics of computer vision. Topics include elementary image operations and transformations, template matching, feature extraction, object recognition, classification and tracking, deep learning, camera models and stereo vision, and image searching. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4346. Introduction to Artificial Intelligence.**

An introduction to the basic concepts of artificial intelligence; search techniques, knowledge representation, problem solving. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4347. Introduction to Machine Learning.**

This course provides systematic introduction to machine learning, covering basic theoretical as well as practical aspects of the use of machine learning methods. Topics include learning theory, learning methods, and recent learning models. Application examples include multimedia information retrieval, text recognition, and computer vision. Prerequisite: CS 3358 and MATH 3305 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4350. Unix Systems Programming.**

Fundamentals of Unix operating systems, Unix file system and environment, C memory allocation, development tools, processes and signals, threads, device drivers, and programming for security. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4353. Introduction to Graphical User Interfaces.**

This course covers abstract and practical foundations of graphical user interface design, evaluation, and implementation. Students will learn the fundamentals of computer graphics and interactive computer/human interfaces. The course includes a survey of usability measures, the major GUI standards, and GUI tools. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4355. Algorithms and Analysis.**

This course covers classic algorithms in computer science and their applications. Emphasis is on algorithm design, algorithm analysis, problem formulation, and problem solving. Topics include advanced tree and graph algorithms, advanced sorting and searching algorithms, greedy algorithms, dynamic programming, string processing algorithms, and algorithm complexity (time and memory). Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4368. Survey of Computer Languages.**

A survey of computer languages. Criteria for choosing languages to be covered include history, important development paradigms and environments, and language implementations. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4371. Computer System Security.**

Course covers practical aspects of computer system security including managing and producing code for secure systems. Theory, such as cryptography, is introduced as needed. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4372. Introduction to Digital Multimedia.**

The course covers concepts, problems and techniques in digital multimedia. Topics include digital representation and data compression of text, speech, audio, natural and synthetic images, and video, as well as multimedia applications, transmission, and standards. In addition, the course introduces perceptual aspects of multimedia signals and sources. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4379D. Distributed Ledger Systems and Blockchains: Theory and Applications.**

This course covers fundamental concepts underlying the design, implementation, research, and applications of Distributed Ledger Technology (DLT) systems (e.g., blockchains). It introduces implementations, applications, and performance evaluation of DLT systems. Topics include cryptographic encryption, security, anonymity, cryptographic data structures, DLT performance evaluation, DLT applications, and current DLT research. Prerequisite: CS 3358 with grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**CS 4379E. Introduction to Network Science.**

This course covers fundamental concepts and algorithms in the fields of social network analysis and network science as well as practical aspects of analyzing network-structured data. Topics include graph representations, network visualization, graph algorithms, random graph models, centrality measures, link analysis and ranking algorithms, and community detection and graph partitioning. Prerequisite: CS 3358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CS 4379Q. Introduction to Recommender Systems.**

This course covers the basic concepts of recommender systems, including personalization algorithms, evaluation tools, and user experiences. We will discuss how recommender systems are deployed in e-commerce sites, social networks, and many other online systems. Additionally, we will review current research in the field. Prerequisite: CS 3358 with a grade of "C" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**CS 4379Y. Introduction to Green Computing.**

Reducing energy consumption of mobile devices, cloud computing platforms, and supercomputers is a paramount but daunting problem. This course covers fundamental concepts and techniques in green computing, including a hardware energy efficiency roadmap; energy efficient software design, resource management, and storage solutions; and green data centers and mobile computing. Prerequisites: CS 3339 and CS 3358 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**CS 4380. Parallel Programming.**

This course teaches practical aspects of parallel programming. Topics include multi-core processors and shared-memory programming, hardware accelerator programming, and distributed-memory machines, and message-passing programming. Students will gain the knowledge and skills needed for developing parallel software by writing programs for a variety of parallel computers. Prerequisite: CS 3339 and CS 3360 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4381. Practical Game Development.**

This course teaches practical aspects of computer game design and implementation. Topics include graphics game engines, game physics, AI methods applied to games, and software architectures for computer games. Students will gain knowledge and skills needed for game development via team projects. Prerequisite: CS 3398 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4388. Computer Graphics.**

This course is a study of the hardware and software used in graphic representation and interpretation of data. Prerequisite: CS 3358 and [MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 or MATH 2472] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CS 4395. Independent Study in Computer Science.**

Open to undergraduate students on an independent basis by arrangement with the faculty member concerned. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Credit/No Credit

**CS 4398. Software Engineering Project.**

Students undertake a software development project. They work in teams, developing requirements and designs which they will implement and test.

Prerequisite: CS 3398 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three hours of math/science/logic/computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete 1410 and 1420 as prerequisites before attempting 2310.
3. For transfer students, 26-32 semester credit hours in computer science (or their equivalents) may be transferred from a Texas public institution of higher education for the Computer Science Field of Study and be applied to the Bachelor of Arts degree with a major in Computer Science at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. If transferring additional computer science courses please contact the Department of Computer Science for assistance. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
CS 1319	Fundamentals of Computer Science	3
TCCN: COSC 1336 or 1436 (CS 1319 + 1 hour CS ELNA)		
CS 1428	Foundations of Computer Science I	4
TCCN: COSC 1337 or 1437		
CS 2308	Foundations of Computer Science II	3
TCCN: COSC 2336 or 2436 (CS 2308 + 1 hour CS ELNA)		
CS 2318	Assembly Language	3
TCCN: COSC 2325 or 2425 (CS 2318 + 1 hour CS ELNA)		
MATH 2471	Calculus I	4
TCCN: MATH 2313 or 2413		
MATH 2472	Calculus II	4
TCCN: MATH 2314 or 2414		
PHYS 2325 & PHYS 2125	Mechanics and Mechanics Laboratory	4
TCCN: PHYS 2325 and 2125		
PHYS 2326 & PHYS 2126	Electricity and Magnetism and Electricity and Magnetism Laboratory	4

TCCN: PHYS 2326 and 2126

Total 26-32

4. Students pursuing the B.A. are required to complete an additional 3 hours of English beyond the general education core curriculum. Students may select from the following English courses.

Code	Title	Hours
<b>Choose one from:</b>		
ENG 2310	British Literature before 1785	3
ENG 2320	British Literature since 1785	3
ENG 2330	World Literature before 1600	3
ENG 2340	World Literature since 1600	3
ENG 2359	US Literature before 1865	3
ENG 2360	US Literature since 1865	3
ENG 2371	U.S. Literature: Writing Identities	3

5. Computer Science students must complete 37 hours of Computer Science courses, including one CS project course from: CS 4318, CS 4326, CS 4371, CS 4380, or CS 4398.
6. No more than 3 hours of credit may be applied to the student's major elective from any combination of the following courses:

Code	Title	Hours
CS 3190	Cooperative Education	1
CS 3290	Advanced Cooperative Education	2
CS 4100	Computer Science Internship	1
CS 4298	Undergraduate Research I	2
CS 4299	Undergraduate Research II	2
CS 4395	Independent Study in Computer Science	3
HON 4390B	Honors Capstone	3
RES 4399	Mentored Research and Creative Expression	3

7. Nine hours of writing intensive (WI) courses are required for graduation.
8. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).
9. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
10. In addition to satisfying the University graduation requirements, students must earn a grade of "C" or higher in all computer science and mathematics courses used to satisfy the requirements of the computer science major.
11. The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.
12. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

## Course Requirements

		Freshman	
First Semester Hours		Second Semester Hours	
CS 1428 (TCCN COSC 1437)	4	CS 2308 (TCCN COSC 2336 or 2436)	3
Mathematics Component Code 020 select one of the following:	3-4	MATH 2358 (BA Computer Science, Logic, Mathematics or science [TCCN MATH 2305 or 2405])	3
MATH 1317 (TCCN MATH 1316)		PHIL 1305 or 1320 (Language, Philosophy, and Culture Component Code 040 [TCCN PHIL 1301 or 2306])	3
MATH 1329 (TCCN MATH 1325)		Social and Behavioral Sciences Component Code 080	3
MATH 2321 (TCCN MATH 2313)		Government/Political Science Component Code 070	3

<b>15</b>		<b>12</b>	

**Total Hours: 120-121**

<sup>1</sup> Computer Science students must take eight hours (2 courses) of the Life & Physical Sciences Component Code 030 from: BIO 1330/BIO 1130 & BIO 1331/BIO 1131; PHYS 1315/PHYS 1115 & PHYS 1325/PHYS 1125 [or PHYS 2325/PHYS 2125 & PHYS 2326/PHYS 2126]; CHEM 1341/CHEM 1141, and CHEM 1342/CHEM 1142; or GEOL 1410 & GEOL 1420. The eight hours (2 courses) must be from the same science (BIO, CHEM, GEOL, or PHYS) as listed above. Field of Study requirements of PHYS 1430 and PHYS 2425 will be used to satisfy this requirement.

<sup>2</sup> Students may take ENG 3313 instead of ENG 3303. If students take ENG 3313, they will need to complete an additional CORE 010 course.

<sup>3</sup> A grade of C or better is required in ENG 3303 or ENG 3313 to satisfy the graduation requirements for the BA in Computer Science.

### Computer Science Project Course Options

Code	Title	Hours
Choose one from:

TCCN: PHYS 2326 and 2126		
Total		26-32

- Students pursuing this B.S. degree program are required to complete 3 hours of technical or scientific writing. A grade of C or higher is required in these hours to satisfy the graduation requirements of the computer science major. Students may select from ENG 3303 or ENG 3313.
- No more than 3 credit hours may be applied to the student's major elective from any combination of the following courses:

Code	Title	Hours
CS 3190	Cooperative Education	1
CS 3290	Advanced Cooperative Education	2
CS 4100	Computer Science Internship	1
CS 4298	Undergraduate Research I	2
CS 4299	Undergraduate Research II	2
CS 4395	Independent Study in Computer Science	3
HON 4390B	Honors Capstone (Department approval required)	3
RES 4399	Mentored Research and Creative Expression (Department approval required)	3

- The required courses for this major include 14 of the 20 hours of coursework required for a Mathematics or Applied Mathematics minor. Therefore, this degree plan includes two additional courses needed to complete one of these minors.
- Nine hours of writing intensive (WI) courses are required for graduation.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).

9. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirement will be added to the student's degree audit.

- Students must complete 43 hours of Computer Science courses, including one CS project course from: CS 4318, CS 4326, CS 4380, or CS 4398.
- The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

CS 4380	Parallel Programming	3
CS 4398	Software Engineering Project	3

**Minimum required: 120  
semester credit hours**

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- In addition to satisfying the University graduation requirements, students must earn a grade of C or higher in all computer science, computer engineering concentration, and mathematics courses used to satisfy the requirements of the computer science major.
- For transfer students, 26-32 semester credit hours in computer science (or their equivalents) may be transferred from a Texas public institution of higher education for the Computer Science Field of Study and be applied to the Bachelor of Science degree with a major in Computer Science at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. If transferring additional computer science courses please contact the Department of Computer Science for assistance. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.
- Students pursuing this B.S. degree program are required to complete 3 hours of technical or scientific writing. A grade of C or higher is required in these hours to satisfy the graduation requirements of the computer science major. Students may select from ENG 3303 or ENG 3313.
- Nine hours of writing intensive (WI) courses are required for graduation.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The required courses for this major include 14 of the 20 hours of coursework required for a Mathematics or Applied Mathematics minor. Therefore, this degree plan includes two additional courses needed to complete one of these minors.
- If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of language taken in high school, then two semesters of the same modern language (1410 and 1420) must be taken at the college level, and the requirements will be added to the student's degree audit.
- The number of free electives a student will complete varies, depending on the number of hours needed to satisfy the 120 and/or the 36 advanced or 9 hours writing intensive requirements. Students should consult with the academic advisor before enrolling in any free elective courses to ensure that electives are needed.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students

[www.engineering.txstate.edu](http://www.engineering.txstate.edu) (<http://www.engineering.txstate.edu>)

The Bachelor of Science (B.S.) degree with a major in Civil Engineering is designed to provide students with an education that addresses the emerging field of technology-enhanced (Smart) infrastructure, as well as fundamental concepts in environmental, geotechnical, materials, structural, transportation, and water resources engineering. In addition to being capable of designing a range of infrastructure assets, graduates will have experience with sensor devices, data transmission and storage systems, big data and machine learning methods, predictive modeling, and automated infrastructure management technologies. Further, students will be prepared to take the Fundamentals of Engineering and, later in their professional career, Principles and Practice of Engineering exams. The B.S. major in Civil engineering will seek accreditation in accordance with the process specified by the Engineering Accreditation Commission of ABET ([www.abet.org](http://www.abet.org) (<https://www.abet.org/>)).

The Bachelor of Science (B.S.) degree with a major in Electrical Engineering provides students with the background that is essential for the conception, design, development, and manufacture of electrical, electronic, computer, and information technology products and systems. Students may specialize in the areas of networks and communication systems, micro and nano devices and systems, or computer engineering. Proficiency in mathematics is especially important in Electrical Engineering. The B.S. with a major in Electrical Engineering and the B.S. with a major in Electrical Engineering with Computer Engineering Concentration are both accredited by the Engineering Accreditation Commission of ABET ([www.abet.org](http://www.abet.org) (<http://www.abet.org/>)).

The Bachelor of Science (B.S.) degree with a major in Industrial Engineering provides students the background that is essential for improving the productivity, quality, safety, sustainability, and cost effectiveness of all types of systems and processes. Industrial engineers are typically engaged in the areas of quality control, human factors and ergonomics, facilities design, work design, production and operations management, supply chain design or redesign, information technology, manufacturing and service systems optimization, and industrial safety. The B.S. major in Industrial Engineering is accredited by the

Engineering Accreditation Commission of ABET ([www.abet.org](http://www.abet.org) (<https://www.abet.org/>)).

The Bachelor of Science (B.S.) degree with a major in Manufacturing Engineering is designed to provide students with the mathematics, science, management, engineering, and applications skills needed to become manufacturing engineers. Manufacturing engineering is a broad area that includes the design and development of products, emphasizing their manufacturability. This engineering discipline involves researching and developing the tools, processes, machines, and equipment required for manufacturing. It also includes integrating facilities and systems to produce high-quality products using the most cost-effective manufacturing methods. The degree has a concentration in general manufacturing or mechanical systems. The B.S. major in Manufacturing Engineering is accredited by the Engineering Accreditation Commission of ABET ([www.abet.org](http://www.abet.org) (<https://www.abet.org/>)).

The Bachelor of Science (B.S.) degree with a major in Mechanical Engineering is designed to provide students with an education that combines a strong foundation in traditional mechanical engineering principles with a unique education in designing and developing mechanical products and systems that are intelligent, interconnected, and integrated with the virtual world and emerging digital infrastructure. The curriculum will prepare students to apply principles of engineering, basic science, and mathematics to model, analyze, design, and realize thermal and mechanical physical systems, components, or processes. In addition, students will have the necessary background to use modern tools and technologies such as engineering simulation, rapid prototyping, additive manufacturing, sensor systems, robotics, real-time communication, and big data and data analytics. The B.S. major in Mechanical Engineering will seek accreditation in accordance with the process specified by the Engineering Accreditation Commission of ABET ([www.abet.org](http://www.abet.org) (<https://www.abet.org/>)).

## The Ingram School of Engineering Mission Statement

1. To provide students with an exceptional education in various disciplines of engineering,
2. To establish, through dedicated faculty, a nationally recognized research program, preparing interested students to achieve excellence in graduate studies and research, and
3. To serve the State of Texas and the nation by creating highly skilled, diverse, and motivated professionals capable of technological innovation and dedicated to the improvement of society.

## The Ingram School of Engineering Vision Statement

The Ingram School of Engineering will be a nationally recognized institution of higher education, serving students and employers with a complete set of accredited engineering programs supported by a faculty which maintains high standards of teaching, research, and service. To accomplish this vision, we will:

1. Engage undergraduate and graduate students with innovative, multidisciplinary, and nationally recognized funded research programs,
2. Emphasize quality undergraduate and graduate education using a practical, interactive, and contemporary learning environment,
3. Produce first-generation professional college graduates as part of an HSI-designated university; be recognized for exceptional community service; and create tight bonds with alumni who will serve as professional mentors, sponsors, and advisors, and

4. Promote a student-centered culture based on collegiality, scholarship, enthusiasm, integrity, and mutual respect among diverse faculty, staff, and students.

## Admissions Requirements

### Electrical Engineering

1. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:

- ACT Math score of 24 or higher,
- SAT Math score of 550 or higher, or
- credit for one of the following math courses with a grade of "C" or higher:

Code	Title	Hours
MATH 1315	College Algebra	3
MATH 1317	Plane Trigonometry	3
MATH 1319	Mathematics for Business and Economics I	3
MATH 1329	Mathematics for Business and Economics II	3

2. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following math courses with a grade of "C" or higher may declare Electrical Engineering as their major:

Code	Title	Hours
MATH 1315	College Algebra	3
MATH 1317	Plane Trigonometry	3
MATH 1319	Mathematics for Business and Economics I	3
MATH 1329	Mathematics for Business and Economics II	3

## Bachelor of Science (B.S.)

- Major in Civil Engineering (p. 731)
- Major in Electrical Engineering (Computer Engineering Concentration) (p. 733)
- Major in Electrical Engineering (Micro and Nano Devices and Systems Concentration) (p. 735)
- Major in Electrical Engineering (Networks and Communication Systems Concentration) (p. 737)
- Major in Industrial Engineering (p. 739)
- Major in Manufacturing Engineering (Smart Manufacturing Concentration) (<http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/manufacturing-engineering-smart-concentration-bs/>)
- Major in Manufacturing Engineering (Mechanical Systems Concentration) (p. 740)
- Major in Mechanical Engineering (<http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/mechanical-bs/>)

## Minor

- Engineering (<http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/-engineering-minor/>)

### Subjects in this school include:

CE, EE (p. 715), ENGR (p. 722), IE (p. 724), ME (p. 726), MFGE (p. 729)

## Courses in Civil Engineering (CE)

### CE 1210. Introduction to Smart Infrastructure.

This course is an overarching study of municipal and private infrastructure and the use of modern technology and techniques to monitor and manage these assets. Topics and case studies examine transportation, water resources, utilities, and other construction projects. General topics related to the civil engineering profession are also covered.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### CE 2340. Infrastructure Materials.

This course examines the composition, production, engineering properties, and in-place behavior of materials used to construct and repair infrastructure assets. Sensing devices used to monitor a material are discussed. Students will learn to follow standard test methods, perform data acquisition, conduct data analysis, and visualize test data. Prerequisite: CHEM 1335 and ENGR 3311 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### CE 2350. Structural Analysis.

This course is an introduction to the loading, response, analysis, and monitoring of infrastructure assets. Determinate and indeterminate structures are studied. Analysis by classic and modern computational methods are covered. The analysis of data obtained from sensing devices in, on, or remote to an infrastructure asset is discussed. Prerequisite: ENGR 3311 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### CE 3310. Applications in Smart Infrastructure.

This course presents students with realistic civil engineering scenarios involving various infrastructure assets. The course is taught in a combination of classroom lectures and lab hands-on projects. With concepts learned in lectures, students work in teams on state of the art smart infrastructure sensor technologies to gather, transmit, and analyze measured data with the objective of developing a solution for each individual project. Prerequisite: CE 1210 and CS 1342 and ENGR 3373 all with grades of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 3320. Environmental Engineering.**

This course is an introduction to environmental engineering. Topics include treatment of water, wastewater, air pollution, solid waste pollution, and hazardous materials. Standard test procedures for evaluating physical, chemical, and biological treatment processes are introduced. The use of technology to manage treatment processes and facilities will be introduced. Prerequisite: CHEM 1335 and [(BIO 1130 and BIO 1330) or (BIO 1131 and BIO 1331) or GEOL 1410] all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 3330. Soil Mechanics.**

This course examines the engineering characteristics of soil. Topics include identification, compaction, shear strength, consolidation, vertical stress, and deformation. Standard laboratory test methods are followed. Advanced data analysis, interpretation, and visualization techniques are presented. Prerequisite: ENGR 3311 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 3331. Infrastructure Foundations.**

This course investigates foundation systems which support infrastructure assets. Shallow and deep foundations, piles, footings, mats, and retaining walls may be covered. Foundations are evaluated for consolidation, rate of settlement, stress distribution, elastic settlement, and bearing capacity. Life-cycle management of foundations will be examined. Prerequisite: CE 3330 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 3350. Design of Reinforced Concrete Infrastructure.**

This course covers the analysis and design of reinforced concrete infrastructure assets. Topics include columns, beams, one-way slabs, and footings. Students will learn how to read, interpret, and use specifications and design codes. The use of technology to monitor the behavior of a reinforced concrete infrastructure asset will be introduced. Prerequisite: CE 2340 and CE 2350 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 3360. Transportation Planning and Infrastructure.**

This course is an introduction to the planning and design of transportation infrastructure assets. Social, economic, safety, and engineering issues impacting transportation are examined. Interactions between users, vehicles, and the infrastructure will be addressed. The expanding use of technology to enhance transportation systems will be examined. Prerequisite: IE 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4100. Civil Engineering Undergraduate Research.**

Undergraduate students investigate a special topic in civil engineering by developing a research idea, conducting a literature review, researching the topic, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4200. Civil Engineering Undergraduate Research.**

Undergraduate students investigate a special topic in civil engineering by developing a research idea, conducting a literature review, researching the topic, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.

**1 Credit Hour. 0 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4300. Civil Engineering Undergraduate Research.**

Undergraduate students investigate a special topic in civil engineering by developing a research idea, conducting a literature review, researching the topic, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.

**1 Credit Hour. 0 Lecture Contact Hours. 9 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4310. Infrastructure Sensor Technologies.**

This course is an advanced study of the sensor technologies available to monitor the performance and behavior of infrastructure assets. Prerequisite: CE 3310 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4311. Communication Systems for Smart Infrastructure.**

This course examines the issues and processes involved in the transmission of data between sensor devices and data storage centers. Topics include data communication principles, transmission signals, wireless and wired communication systems, security, and examples of best practices. Prerequisite: ENGR 3373 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4320. Biological Wastewater Management.**

This course examines biological treatment processes for domestic and industrial wastewater. The use of sensor technologies to monitor the effectiveness of a treatment option is also addressed. Prerequisite: CE 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4321. Hazardous Waste Management.**

This course is a study of best management practices relative to hazardous waste. Topics include contamination processes, site investigations, detection, analysis methods, evaluation methods, and risk management, and treatment protocols. The use of technology to manage the life-cycle performance of contaminated hazardous wastes sites will be studied. Prerequisite: CE 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4322. Air Pollution Management.**

This course is an introductory study of air pollution. Topics include sources, quality, meteorological influences, atmospheric dispersion modeling, and control methods. The use of sensor technologies to monitor the effectiveness of an air pollution control option is also addressed. Prerequisite: CE 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4323. Physical and Chemical Treatment of Water.**

This course is a study of the physical and chemical processes used to clean water and wastewater. The use of sensors to monitor treatment processes is also addressed. Prerequisite: CE 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4330. Design of Retaining Structures.**

This course examines the design of geotechnical structures, such as a retaining wall, that retain soil or another material. The use of technology to manage the life-cycle performance of retaining structures will be studied. Prerequisite: CE 3331 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4350. Design of Prestressed Concrete Infrastructure.**

This course covers the analysis and design of prestressed concrete infrastructure assets. Topics include columns, beams, slabs, pipes, and piles. Students will learn how to read, interpret, and use specifications and design codes. The use of technology to monitor the behavior of a prestressed concrete infrastructure asset will be introduced. Prerequisite: CE 3350 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4351. Design of Steel Infrastructure.**

This course covers the analysis and design of steel infrastructure assets. Topics include connections, columns, beams, and beam-columns. Students will learn how to read, interpret, and use specifications and design codes. The use of technology to analyze the behavior of steel infrastructure assets will be introduced. Prerequisite: CE 2350 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4360. Intelligent Transportation Systems.**

This course is a study of the components, technologies, and infrastructure assets that comprise intelligent transportation systems (ITS). Smart technologies, data acquisition, and communication sub-systems will be examined within the context of personal, commercial, and public transportation. Coverage will include mobility, public safety, socio-economic and environmental factors impacting transportation systems. Prerequisite: CE 3310 and CE 3360 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4361. Highway Engineering.**

This course covers alignment, interchange, construction, and maintenance issues related to highways. Topics include cross-sections, horizontal and vertical alignment, sight distance, pavement design, drainage analysis, traffic engineering, highway capacity, and construction materials. The analysis of data obtained from sensing devices during construction or use of a highway is also discussed. Prerequisite: CE 3360 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4362. Traffic Engineering.**

This course is a basic introduction of the components of a highway traffic system and fundamentals of traffic engineering; analysis of traffic stream characteristics, levels of service, and capacity of urban and rural highways; study of warrants for traffic control devices; design and analysis of traffic signals and timing plans; analysis of urban and highway traffic characteristics using simulation software. Prerequisite: CE 3360 with a grade of 'C' or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4370. Hydraulics.**

This course is an examination of the properties, distribution, and circulation of water. Topics include pipe flow, pipe networks, pumps, and open channel flow. The use of sensors to monitor fluid flow, pressure, and leaks will be addressed. Advanced data analysis and visualization techniques will be presented. Prerequisite: ENGR 3380 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4371. Hydrology.**

This course is an examination of surface and groundwater hydrology. Topics include the hydrologic cycle, groundwater flow, wells, storm water management practices, open channel flow, stream flow measurements, hydrologic routing, modeling, probability, and applications. The use of sensors to monitor hydrologic activity is also addressed. Prerequisite: CE 4370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CE 4390. Civil Engineering Design I.**

This is the first in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course covers the planning, scheduling, budgeting, and management aspects of a technology-enhanced infrastructure design project. (WI) Prerequisite: CE 3330 with grade of "C" or better. Corequisite: CE 3310 and CE 3350 and CE 3360, all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CE 4391. Civil Engineering Design II.**

This is the second in a two-course sequence meant to prepare students for engineering practice with a culminating major design experience. This course focuses on the completion of all phases of the design project. Prerequisite: CE 3320 and CE 4390 both with grades of "C" or better. Corequisite: CE 3331 and CE 4370 and GEO 4356 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CE 4392. Sustainable Infrastructure.**

This course examines the sustainability characteristics of various infrastructure assets. The assets and characteristics examined will be established by the course instructor. Examples include pervious pavements, sustainable construction materials, and sustainability in the design process. The use of technology to manage the life-cycle performance of an asset will be studied. Prerequisite: CE 3331, CE 3350, CE 3360, and ENGR 3380 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

## Courses in Electrical Engineering (EE)

**EE 2400. Circuits I.**

This course provides an introduction to the profession of Electrical Engineering and its specialties. Fundamental DC and sinusoidal steady-state circuit analysis techniques include Ohm's law, power, Kirchhoff's laws, and Thevenin and Norton equivalent circuits. Prerequisites: MATH 2471 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 2420. Digital Logic.**

An introduction to fundamental computer technologies, including Boolean logic design, logic circuits and devices, and basic computer hardware are studied. Laboratories provide hands-on experience with electricity, combinational and sequential digital circuits, and computer hardware. Corequisite: CS 1428 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 3326. Numerical and Scientific Data Analysis Using Python.**

This course introduces Python programming for engineers. Topics include basics of Python programming, introduction to numerical Python (NumPy), scientific programming using Python (SciPy), data visualization using Matplotlib, data processing using Pandas and introduction to Object Oriented Programming using Python. Prerequisite: CS 1342 or CS 1428 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 3340. Electromagnetics.**

Topics in this course include wave propagation, Maxwell's equations, transmission lines, wave guides, and antennas. Prerequisite: EE 3400 and MATH 2393 and PHYS 2326 and PHYS 2335 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 3350. Electronics I.**

Analysis and design of active device equivalent circuits with emphasis on transistors, switching circuits, and operational amplifiers. Prerequisites: EE 3400 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 3355. Solid State Devices.**

Semiconductor materials, principles of carrier motion, operating principles and circuit models for diodes, bipolar transistors and field-effect transistors. Introduction to integrated circuits. Prerequisite: EE 3400 and PHYS 2326 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 3370. Signals and Systems.**

Frequency domain representation of signals and systems and frequency domain concepts for circuit analysis and design. Transfer function and frequency response, Laplace and z-transforms, Fourier series, Fourier transform, and sampling. Prerequisite: EE 3400 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 3400. Circuits II.**

This course includes a brief review of EE 2400, transient analysis, application of Laplace transforms, Bode plots, and network principles. Materials learning in EE 2400 is extended and applied here. Prerequisites: EE 2400 and MATH 3323 both with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 3420. Microprocessors.**

Introduction to microprocessors, principles of operation, assembly language programming, timing analysis, and I/O interfacing. Prerequisites: EE 2420 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**EE 4180. Electric Machines Lab.**

This course is the lab component of EE 4380 Electric Machines and consists of the hands-on exploration and analysis of various electric machines and their controllers. Prerequisite: EE 3340 with a grade of "C" or better. Corequisite: EE 4380 and EE 4360 with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4321. Digital Systems Design Using HDL.**

This course will cover the design of digital systems using HDL including implementation of custom microprocessor and peripheral architectures. Prerequisite: EE 3420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4323. Digital Image Processing.**

This course provides the necessary fundamental techniques to analyze and process digital images. It covers principles, concepts, and techniques of digital image processing and computer vision. Prerequisite: EE 3370 and EE 3420 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4331. Introduction to Machine Learning for Engineering Applications.**

This course covers an introduction to machine learning focused on deep learning techniques using engineering applications with Python. Topics include model characteristics, neural network theory, classifiers for network and signal processing applications, regression and convolutional modeling for object-detection, time-series and forecasting machine learning models for Smart City concepts. Prerequisite: CS 1428 or CS 1342 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4332. Introduction to Computer-Aided Engineering Simulation on HPC Systems.**

This course covers the introductory development of simulations for engineering applications that are solved using High-Performance Computing environments. Topics include programming techniques for multicore processors, processor and memory architecture, computation for dense and sparse linear algebra applications, computational temperature analysis, fluid dynamics, stencil, stochastic algorithms, and other applications. Prerequisite: CS 1428 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4350. Electronics II.**

Analysis and design of integrated circuits, feedback, and frequency response. Prerequisites: EE 3350 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Multicultural Perspective

**Grade Mode:** Standard Letter

**EE 4351. Fundamentals of Electroceramics.**

Introduction to binary and ternary phase diagrams, non-centro-symmetric crystal structures and symmetry groups, nonlinear dielectrics (including ferroelectricity, piezoelectricity, pyroelectricity), nonlinear magnetics, oxide wideband gap semiconductors, detectors and sensors, brief introduction to MEMS, radhard electronics, and spintronics technology. Research oriented labs related to materials processing, characterization, fabrication, and testing. Prerequisite: ENGR 2300 with a grade of "C" or better and a minimum 2.25 Overall GPA. Corequisite: EE 3355 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4352. Introduction to VLSI Design.**

Analysis of design of CMOS integrated circuits. Introduction to CAD tools for VLSI design. Prerequisites: EE 3350 and [CS 2420 or EE 2420] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4353. Fundamentals of Advanced Semiconductor Technology.**

Key concepts of advanced semiconductor technology including Moore's law, MOSFETs and CMOS, CMOS scaling, high-K gate dielectrics, new channel materials replacing silicon, three dimensional device structures, compound semiconductor MESFET, HEMT, LED, Lasers and solar cells. Prerequisite: EE 3355 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4354. Flexible Electronics.**

This course will cover the materials systems, processes, device physics and applications of flexible electronics. The materials range from amorphous and nanocrystalline silicon, organic and polymeric semiconductors to solution cast films of carbon nanotubes. Real device discussions include high speed transistors, photovoltaics, flexible flat-panel displays, medical image sensors, etc. Prerequisites: EE 3350 and EE 3355 and EE 4350 all with grades of "C" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4355. Analog and Mixed Signal Design.**

Operational amplifier design applications, feedback, offset, stability, and compensation. Introduction to random signals and noise, discrete time circuitry analog-to-digital converters, and digital-to-analog converters. Prerequisites: EE 3370 and EE 4350 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4356. Power Electronics.**

This course provides an introduction to power electronics and the use of such circuits for the control and conversion of electric power. Topics include semiconductor power devices and characteristics, DC-DC and multilevel converters, power inverters, and AC voltage controllers. Prerequisite: EE 4350 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4357. Introduction to Power Systems.**

This course introduces the analysis of various elements of power systems, including power generation, transformer action, transmission line modeling, symmetrical components, power factor correction, real and quadrature power calculations, load flow analysis, and economic considerations in operating systems. Prerequisite: EE 3400 or ENGR 3373 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4358. Introduction to Microelectromechanical Systems.**

This course will cover fabrication techniques for microelectromechanical devices and systems as well as provide an introduction to the design of micromechanical transducers. Co-requisite: MFGE 4392 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4359. Advanced Electronic Materials and Devices.**

This course introduces students to modern fabrication techniques, properties, and applications of conventional and emerging electronic materials. Topics include thin film deposition techniques and modern fabrication concepts, heterointerfaces, and structural, electronic, thermal, magnetic, and optical properties of electronic materials. The course includes discussions about practical devices, including solar cells, light-emitting devices, display devices, and emerging flexible electronic devices. Prerequisite: EE 3350 with a grade "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4360. Linear Control Systems.**

This course provides an introduction to linear continuous-time and discrete-time automatic control systems. Topics include time and frequency domain modeling and analysis, state variable analysis, feedback, transient and steady state response, stability, and sensitivity. Prerequisite: EE 3370 and MATH 3377 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4370. Communication Systems.**

This course covers transmission of signals through linear systems, analog and digital modulation, filtering, and noise. Prerequisites: EE 3370 and IE 3320 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4372. Communication Networks.**

This course covers data communication concepts, protocols, algorithms, 7-layer OSI model, physical media, LAN architecture and components, Ethernet, TCP/IP, and related standards. Prerequisite: EE 3420 with a grade of "C" or better. Corequisite: EE 3370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4374. Introduction to Wireless Communication.**

Principles, practice, and system overview of mobile systems. Modulation, demodulation, coding, encoding, and multiple access techniques.

Prerequisites: EE 4370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4375. Building a Smart Grid Architecture.**

In this course, students will learn the current 20th-century power grid structure and the key elements required to transform it to a 21st-century Smart Grid. Topics include two-way power/data flow to monitor, control, manage and integrate traditional bulk generation and bulk/renewable/distributed generation. Prerequisite: EE 3370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4376. Introduction to Telecommunications.**

Fundamentals of telecommunications, telephone networks, switching and transmission systems, circuit and packet switching, cell processing, and queuing theory and applications. Co-requisite: EE 4370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4377. Introduction to Digital Signal Processing.**

Discrete systems, convolution, spectral analysis, and FIR and IIR filter design. Prerequisites: EE 3370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4378. Data Compression and Error Control Coding.**

Introduction to information theory, information content of messages, entropy and source coding, data compression, channel capacity data translation codes, and fundamentals of error correcting codes. Corequisite: EE 4370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**EE 4380. Electric Machines.**

This course teaches the principles and analysis of electromechanical systems. Students will develop analytical techniques for predicting device and system interaction characteristics, strengthen understanding of the phenomena and interactions in electromechanics, and learn to design major classes of electric machines. Prerequisite: EE 3340 with a grade of "C" or better. Corequisite: EE 4180 and EE 4360 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4381. Sustainable Energy & Storage.**

This course examines the consumption and production of energy and the principles and technologies behind renewable energy sources. It also introduces the basics of energy storage systems such as batteries, gravitational, and hybrid. Prerequisite: EE 3400 and PHYS 2326 and CHEM 1335 all with a grade of "C" or better. Corequisite: EE 4357 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4382. Advanced Power Systems.**

This course is an advanced treatment of various elements of power systems, including symmetrical and unsymmetrical faults, symmetrical components, system protection, transient stability, transient operation of transmission lines, and supervisory control and data acquisition (SCADA). Prerequisite: EE 4357 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4390. Electrical Engineering Design I.**

This course is a team-based design of a system or component, which will include oral presentations and written reports. (WI) Prerequisites: EE 3420 and EE 3350 and EE 3370 and IE 3320 all with grades of "C" or better. Corequisites: EE 4352 or EE 4356 or EE 4360 or EE 4370 any with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**EE 4391. Electrical Engineering Design II.**

Advanced team-based design of a system or component, which will include oral presentations and written reports. (WI) Prerequisites: EE 4390 with a grade of "C" or better. Corequisite: EE 4352 or EE 4370 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**EE 4392. Microelectronics Manufacturing I.**

This course provides an overview of integrated circuit fabrication. This includes crystal growth, wafer preparation, epitaxial growth, oxidation, diffusion, ion-implantation, thin film deposition, lithography, etching, device and circuit formation, packaging, and testing. The laboratory component involves production and testing of a functional semiconductor device. Prerequisite: CHEM 1341 or CHEM 1335 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4394. Microelectronics Manufacturing II.**

Topics include atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes, e.g. CVD and PVD; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation. Prerequisite: EE 4392 or MFG 4392 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**EE 4399A. Dynamic Data Acquisition and Analysis.**

Methods for acquiring and analyzing dynamic (time-varying) data. Frequency domain analysis, analog-to-digital conversion, windowing, and digital filtering taught in the context of various industrial applications. Prerequisite: EE 3370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**EE 4399B. Overview of Information Theory and Coding.**

Fundamentals of Information Theory, Huffman coding, image encoding techniques, Hamming and BCH error control codes, Reed-Solomon coding, convolutional codes and the Viterbi decoding algorithm. Prerequisite: EE 3370 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**EE 4399I. Fundamentals of Sound Systems Engineering.**

This course provides an introduction to sound systems engineering and its fundamental principles applied in developing audio and sound systems for various industries. This course will develop a theoretical and practical understanding of the fundamentals of sound engineering, including acoustics, audio components, sound processing, and test & measurement. Prerequisite: EE 2420 and EE 3350 and EE 3370 and PHYS 2326 and PHYS 2126 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

## Courses in Engineering (ENGR)

**ENGR 1304. Engineering Graphics.**

This course covers the introduction to computer-aided drafting using CAD software and sketching to generate two- and three-dimensional drawings based on the conventions of engineering graphical communication in the tools and techniques utilized to produce various types of working drawings. Principles of multiview projections, geometric relationships, shape and size description, and pictorial methods are included with emphasis on technical applications and design problem solving. Corequisite: MATH 2417 or MATH 2471 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** ENGR 1304

**ENGR 2300. Materials Engineering.**

This course covers topics including structure, properties and behavior of engineering materials including metals, polymers, composites, and ceramics. Mechanical, electrical, magnetic, thermal, and optical properties are covered. Prerequisite: [CHEM 1335 and CHEM 1135] or [CHEM 1341 and CHEM 1141] with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 2301. Statics.**

This course covers the theory of engineering mechanics. Topics include forces, moments, and couples acting on stationary engineering structures. Additionally, two and three dimensional equilibrium, free-body diagrams, friction, centroids, and centers of gravity are covered. Prerequisite: PHYS 2325 and 2125 with grades of "C" or better. Corequisite: MATH 2472 or MATH 2473 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** ENGR 2301

**ENGR 2302. Dynamics.**

This course introduces the fundamentals of kinematics and kinetics of individual particles, systems of particles, and rigid bodies. Topics include the rectilinear, curvilinear, and general motion, Newton's laws of motion, work and energy relationship, principles of impulse and momentum, and application of kinetics and kinematics to the solution of engineering problems. Prerequisite: ENGR 2301 and MATH 2472 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** ENGR 2302

**ENGR 3190. Cooperative Education.**

This course provides cooperative education students the opportunity to study particular problems in engineering in an occupational setting. Problems are related to the student's work assignment and culminate in an industrial supervisor's evaluation and technical report or presentation. This course may be taken up to three times for a maximum of three credits applying towards the major elective. Prerequisite: A minimum 2.25 Overall GPA and instructor approval.

**1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 3290. Advanced Cooperative Education.**

This course provides cooperative education students the opportunity to study particular problems in engineering in an occupational setting. Problems are related to the student's work assignment and culminate in an industrial supervisor's evaluation and technical report. This course maybe taken up to 2 times for a maximum of 3 credits applying towards the major elective. Prerequisite: A minimum 2.25 Overall GPA and instructor approval.

**2 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 3311. Mechanics of Materials.**

This course covers the principles of the mechanics of materials and includes the following topics: stress and strain, elastic modulus and Poisson's ratio, constitutive equations, torsion, bending, axial, shear and bending moment diagrams, deflection of beams, and stability of columns. Prerequisite: ENGR 2301 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**ENGR 3315. Engineering Economic Analysis.**

Interest formulas, economic equivalence, rate of return analysis, techniques of economic analysis for engineering decisions and an introduction to cost estimation. Prerequisite: MATH 1315 or MATH 2417 or MATH 2471 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 3373. Circuits and Devices.**

In this course, circuits and devices are introduced. Topics include circuit analysis and network theorems with emphasis on applications of analog and digital electronic devices, transducers, sensors, and electromechanical devices. Prerequisite: PHYS 2326 and PHYS 2126 and [CS 1428 or CS 1342] with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**ENGR 3380. Fluid Mechanics.**

This course is an introduction to fluid motion. Fluid flow, pressure, energy, and momentum are examined. Dimensional analysis is also covered. Sensing devices used to monitor a fluid are discussed. Students will learn to follow standard laboratory procedures, perform data acquisition, conduct data analysis, and visualize test data. Prerequisite: ENGR 2301 and MATH 3323 with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 4299. Engineering Undergraduate Research.**

In this course undergraduates investigate a special topic in engineering by developing a research idea, conducting a literature review, researching the topic, writing a technical report, and presenting the findings. Research plans will be developed on an individual basis with strict faculty supervision.

**2 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 4390. Internship.**

Supervised on-the-job professional learning experience in engineering and other technical areas. This course provides practical work experience in their particular field of interest.

**3 Credit Hours. 0 Lecture Contact Hours. 20 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ENGR 4395. Independent Studies in Engineering.**

Open to undergraduate students on an independent basis by arrangement with the faculty member concerned.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

## Courses in Industrial Engineering (IE)

**IE 1310. Introduction to Industrial Engineering.**

This course gives an overview of what industrial engineering is, how this field of study has evolved, what contributions of individuals have been key to its development, what are some of the methods and techniques that industrial engineers use to solve company's problems and what job opportunities exist after earning a degree in industrial engineering.

Prerequisite: [MATH 1315 or MATH 1317 or MATH 1319 or MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 any with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [SAT Mathematics score of 520 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**3 Credit Hours. 2 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 3305. Introduction to Data Analysis.**

This course introduces principles and applications of data analysis using Microsoft Excel, Access, VBA, and machine learning. Students will utilize these applications to develop solutions to challenging industrial engineering problems. Emphasis will be placed on computing productivity in a spreadsheet-based setting to develop practical, useful decision support applications to facilitate engineering decisions. Corequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 3320. Engineering Statistics.**

This course covers the fundamentals of probability and statistics, including probability distributions, visualization techniques of large-scale datasets, interval estimation, hypothesis testing, and regression modeling. The students will be exposed to traditional engineering applications of statistical modeling, as well as those modern problems encountered in big data analysis. Prerequisites: MATH 2472 or MATH 2473 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 3330. Quality Engineering.**

Quality assurance systems, quality costs, statistical quality control, and approaches for engineering quality into products and processes.

Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 3340. Operations Research.**

This course covers models in operations research including linear programs, the simplex method, duality theory, sensitivity analysis, integer programs, and network flows. The emphasis is on learning to recognize, formulate, solve, and analyze practical industrial problems. The course also introduces commercial mathematical programming languages.

Prerequisite: [CS 1428 or CS 1342] and ENGR 3315 and MATH 3377 and IE 1310 all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 3360. Methods Engineering and Ergonomics.**

This course is a survey of methods for assessing and improving performance of individuals and groups in organizations. Techniques include various basic industrial engineering tools, work analysis, data acquisition and application, performance evaluation and appraisal, and work measurement procedures. Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4310. Statistical Design of Experiments.**

Statistically designed experiments for engineering applications. Topics include analysis of variance, randomized complete designs, factorial designs, empirical models generated from controlled experiments, and response surfaces. Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4320. Integrated Production Systems.**

Basic concepts in the design and control of integrated production systems to include forecasting, inventory models, material requirements planning, scheduling, planning, and shop floor control. Prerequisite: IE 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4330. Reliability Engineering.**

Reliability of components and systems, reliability models, life testing, failure analysis, and maintainability. Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4335. Lean Six Sigma Methodologies.**

This course covers the principles and methodologies of Six Sigma and Lean Six Sigma. Emphasis is on the tools and techniques used in Lean Six Sigma projects, including statistical process control, experimental design, project management and Lean tools. Prerequisite: IE 3330 and IE 4310 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4340. Non-Linear Optimization Techniques.**

This course introduces engineering applications of mathematical modeling and computational methods for non-linear programming problems. Prerequisite: IE 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4342. Advanced Linear and Integer Programming.**

This course discusses advanced mathematical modeling computational methods for solving linear and integer programming problems in engineering. Additional topics include solution techniques, such as stochastic and dynamic programming, that may also apply for solving non-linear programs, and formulation and solution of decision models arising in manufacturing, service, supply chain, healthcare and electrical systems. Prerequisite: IE 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4350. Supply-Chain Engineering.**

The analysis of supply chain problems to include facility location, customer assignment, vehicle routing, inventory management, and the role of information and decision support systems in supply chains. Prerequisite: IE 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4355. Facilities Planning.**

Planning, design, and analysis of facilities. Emphasizes the principles and methods used for solving plant layout, facility location, material handling, automation, computer integration, and warehouse operations. Prerequisite: ENGR 3315 and MFG 2332 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4360. Human Factors Design.**

This course will emphasize the applications of human factors engineering to systems design. Prerequisites: IE 3360 with a grade of "D" or better. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**IE 4370. Probabilistic Operations Research.**

This course describes probabilistic models in operations research to include queuing theory, simulation, and Markov chains. Emphasis will be placed on modeling applications to solve problems in industry and computing. Prerequisite: [CS 1428 or CS 1342] and IE 3320 with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4381. Introduction to Systems Engineering.**

This course is an introduction to the systems thinking process, systems of systems, and the fundamental considerations associated with the engineering of large-scale systems, or systems engineering. These topics include the system development process, needs analysis, concept exploration, concept definition, engineering design, integration and evaluation, and systems engineering management. Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**IE 4392. Industrial Engineering Design I.**

Student teams apply engineering principles and standards under realistic constraints to develop solutions for industrial problems and/or systems engineering issues. This course is the first part of a two-course sequence and is followed by Industrial Engineering Design II (IE 4393). Prerequisite: IE 3330 and IE 3340 and IE 3360 all with grades of "D" or better. Corequisite: 6 hours from [IE 4310 or IE 4355 or IE 4370] both with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**IE 4393. Industrial Engineering Design II.**

Student teams complete implementation of solutions to industrial problems and/or systems engineering issues with realistic constraints. This course is the the second in a two-course sequence, and is continuation of Industrial Engineering Design I (IE 4392). Prerequisite: IE 4392 and 6 hours from [IE 4310 or IE 4355 or IE 4370] all with grades of "D" or better. Corequisite: 6 hours from [IE 4320 or IE 4350 or MFGE 4396] both with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**IE 4399D. Heuristic Optimization Techniques.**

Heuristic methods that search beyond local optima such as simulated annealing, tabu search, genetic algorithms, ant-colony systems, and particle swarm. Papers from the literature, problem-specific heuristics, evaluation methods and serial/parallel implementations are discussed. This course is an advanced undergraduate course for students in engineering and related fields. Prerequisite: [CS 1428 or CS 1342] and IE 3340 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**IE 4399F. Introduction to Data-Intensive Analysis and Simulation.**

This course covers the foundational topics in data science and consists of three parts: The first part focuses on data extraction from databases, sensors and social media. The second part reviews data-intensive analysis through statistics and machine learning tools. The third part introduces the concept of farming data using design of experiments methodologies and computer simulation. Prerequisites: IE 3340 and IE 4310 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**IE 4399G. Special Topics in Project Management.**

This course provides undergraduate students with solid foundations of project management. Classical, prescriptive and adaptive methodologies are presented. Students will get to know different standards in project management, whereas the main focus will be on those from PMI (Project Management Institute). This course covers all phases of project management and introduces the most relevant tools and techniques to initiate, plan and execute projects in different contexts successfully. In addition to techniques, the "soft" perspective of managing people and their cooperation within projects will be addressed in detail.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

## Courses in Mechanical Engineering (ME)

**ME 1101. Introduction to Digital Mechanical Engineering Lab.**

This lab course introduces students to engineering labs and digital equipment. Topics include instruction in design labs, a brief introduction to computer-aided design (CAD), and digital additive manufacturing and making. Corequisite: [MATH 2417 or MATH 2471] and ENGR 1304 and ME 1201 all with grades of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 1201. Introduction to Digital Mechanical Engineering.**

This course introduces students to mechanical engineering as a discipline and a profession. Topics include instruction in the engineering design process, use of digital sensors, AI, the Internet of Things and the security of sensors in mechanical systems, engineering simulation and application of mathematical and scientific principles to solve practical problems, ethics, and career opportunities. Corequisite: MATH 2417 or MATH 2471 with a grade of "C" or better.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3112. Mechanical Behavior of Materials Lab.**

This laboratory course introduces students to experimental stress analysis techniques and tests used to characterize the mechanical behavior of materials. It also addresses the interpretation of experimental data and comparison of measurements to analytical predictions. The experiments investigate tension, compression, bending, hardness, impact, fracture toughness, cyclic fatigue, creep and relaxation, photoelasticity, and digital image correlation tests. Prerequisite: ENGR 2300 with a grade of "C" or better. Corequisite: ME 3311 with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3151. Smart Instrumentation and Measurement Lab.**

In this lab course, students conduct Internet of Things concept experiments for mechanical measurements using digital instrumentation and transducers via wireless digital communication and computer-based data acquisition tools. Lab experiments cover fundamental experimental techniques, operational principles of various digital instruments and transducers, and statistical data analysis techniques. Prerequisite: ME 1101 and ENGR 3373 and ENGR 3311 and ME 3330 all with grades of "C" or better. Corequisite: ME 3351 and IE 3320 both with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3311. Mechanics of Solids.**

This course covers advanced topics in solid mechanics including combined loadings, statically indeterminate loadings, thermal stresses, unsymmetrical bending, stress concentrations, inelastic deformations, stress and strain transformations, plane stress, plane strain, Mohr's circle, failure criteria, curved beams, and torsion of prismatic bars. Prerequisite: ENGR 3311 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3314. Machine Design.**

This course will apply knowledge of statics, dynamics, mechanics of solids, and engineering materials, to the design and selection of machine elements. Topics include fatigue failure theories, material selection, impact loading, and typical machine elements such as transmission shafts, keys, bearings, gears, springs, and fasteners. Prerequisite: ENGR 2302 and ME 3311 both with grades of "C" or better. Corequisite: ME 3112 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3330. Engineering Thermodynamics.**

This course covers introductory concepts of thermodynamics, energy transfer and general energy analysis, properties of pure substances, ideal gas model, mass and energy analysis of control volumes, first and second laws of thermodynamics, entropy, power cycles, and refrigeration cycles. Prerequisite: [PHYS 2325 and PHYS 2125] and MATH 2472 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3331. Heat Transfer.**

This course covers introductory concepts of heat transfer, steady-state and transient conduction in one- and two-dimensions, external forced convection, internal forced convection, natural convection, heat exchangers, and fundamentals of radiation. Prerequisite: ME 3335 and MATH 3323 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3335. Engineering Fluid Mechanics.**

This course is an introduction to fluid mechanics, fluid properties, fluid statics, fluid dynamics, control volume analysis, differential analysis of fluid flow, dimensional analysis, viscous flow in pipes, external flows, and open channel flows. Prerequisite: ENGR 2302 and MATH 2393 and ME 3330 all with grades of "C" or better. Corequisite: MATH 3323 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3351. Smart Instrumentation and Measurement.**

This course covers basic concepts and principles of instrumentation and measurement systems, analog and digital devices, basic electronics, sensors and transducers, introduction to the Internet of Things (IoT) and big data, cybersecurity of IoT devices, wireless digital network and communication, probability and statistics to characterize measurement uncertainty, data acquisition and analysis using software packages, and measurements of physical properties such as temperature, pressure, and strain. Prerequisite: ME 1101 and ENGR 3373 and ENGR 3311 and ME 3330 all with grades of "C" or better. Corequisite: ME 3151 and IE 3320 both with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 3361. Computer Aided Design and Digital Manufacturing.**

This course provides an in-depth study of computer aided design (CAD), computer aided manufacturing (CAM), and digital manufacturing. Topics include the product development process, CAD file formats and data exchange, fundamentals of computer numerical control (CNC) machines, numerical control programming for milling processes, CNC code generation and simulation by CAD/CAM software, and an overview of other digital manufacturing processes such as additive manufacturing, laser cutting, welding, and waterjet cutting. In the lab, students get hands-on experience in reading CAD drawing standards, lab safety, machine tools operation, and operation of digital manufacturing processes, including CNC machining, additive manufacturing, and laser cutting. Prerequisite: MATH 2472 and ENGR 1304 and ENGR 2300 and ME 1101 all with grades of "C" or better. Corequisite: ME 3311 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**ME 4131. Fluids/Thermal Lab.**

This laboratory course is designed for students to conduct experiments based on various principles of fluid mechanics, thermodynamics, and heat transfer. Students need to use proper experimental methods and interpret data using these principles and uncertainty analysis. Prerequisite: ME 3151 and ME 3331 and ME 3351 all with grades of "C" or better. Corequisite: ME 4390 with a grade of "C" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ME 4311. Mechanical Vibrations.**

This course introduces fundamental concepts on the vibration of mechanical systems. Topics include equations of motion, free and forced vibrations of damped/undamped single- and multi-degree-of-freedom mechanical systems, self-excitation and stability analysis, application of transfer functions for vibration problems, Lagrange's equations, and determination of natural frequencies and mode shapes of multi-degree-of-freedom systems. Prerequisite: ENGR 2302 and [MATH 3376 or MATH 3383] and MATH 3323 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4312. Mechanics of Composite Materials.**

This course focuses on the elastic properties of a wide range of composites, including unidirectional and multidirectional laminates, particulate and fiber-reinforced composites, invariant properties of an orthotropic lamina, classical lamination theory, strength of laminates, and use of general purpose computer codes for classical laminate theory. Prerequisite: [MATH 3376 or MATH 3383] and ME 3314 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4321. Applied Finite Element Analysis.**

This course provides an introduction to the finite element method (FEM). Two aspects are considered in the course: The theoretical foundations of the method and the use of existing finite element analysis (FEA) software. Topics covered in the theory portion include the direct method, the variational method, and the weighted residuals method. Topics covered in the laboratory portion include typical pre- and post-processing modules, different types of elements, analysis of simple time independent stress analysis and heat transfer problems, and practical aspects related to the creation of a finite element model. Prerequisite: MATH 3323 and [MATH 3376 or MATH 3383] and ME 3314 all with grades of "C" or better. Corequisite: ME 3331 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4332. Modern Heating, Ventilating, and Air Conditioning.**

This course focuses on current and upcoming practices in heating, ventilating, and air conditioning (HVAC), including psychometrics, standards, ventilation requirements, load estimates, filtration, air sterilization, and building energy system design, simulation, and control. Prerequisite: ME 3331 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4341. Computational Fluid Dynamics.**

This course introduces the scientific principles and practical engineering applications of Computational Fluid Dynamics (CFD). Although it provides a brief overview of the fundamental mathematics governing fluid flow and heat transfer phenomena, its emphasis is to apply the knowledge using commercial CFD software. Additional topics include set-up of appropriate CFD parameters, conduct of steady-state and transient fluid flow simulations, solutions for both isothermal and non-isothermal thermo-fluid applications, solutions for both incompressible and compressible fluid flow applications, solutions for fluid flow through porous media and rotating machinery, and extraction of the required results including plots. Prerequisite: MATH 3323 and [MATH 3376 or MATH 3383] and ME 3335 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4351. Control Systems.**

This course covers introductory concepts of linear control systems. Topics include mathematical modeling of physical systems, Laplace transform, transfer function, modeling and analysis in state space, transient and steady state responses, root locus and stability, control systems in time and frequency domains, Bode plot, and design of PID controllers. Prerequisite: ENGR 2302 and MATH 3323 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4355. Autonomous Systems and Robotics.**

This course introduces different types of autonomous systems, such as autonomous driving vehicles, drones, and robots. It provides an introduction to the methods and algorithms used in the design, construction, and operation of such systems. The emphasis is on the application of autonomous systems, their components, and their underlying control algorithms, including sensor fusion, real-time decision-making and learning, information processing, path planning, localization, and intelligent control. Prerequisite: ENGR 2302 and IE 3320 and [MATH 3376 or MATH 3383] and ME 4351 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**ME 4390. Mechanical Engineering Design I.**

This course is the first of a two-course sequence involving integrated design and development of products and processes, the impact of ethical issues on design, the discussion of real-world engineering problems and emerging engineering issues with practicing engineers, preparation of reports indicating use of appropriate engineering standards and multiple constraints, plans and specifications, cost estimation, project management, and communication. (WI) Prerequisite: ME 3331 and ME 3314 and ME 3361 all with grades of "C" or better. Corequisite: ME 4131 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**ME 4391. Mechanical Engineering Design II.**

This course is the second of a two course sequence involving implementation of Integrated design and development of products and processes; impact of ethical issues; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports indicating use of appropriate engineering standards and multiple constraints, plans and specifications; cost estimation; project management; and communication. Prerequisite: ME 4131 and ME 4390 both with grades of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**ME 5310. Continuum Mechanics.**

This course provides an introduction to continuum mechanics. Topics include indicial notation, tensor algebra, tensor calculus, curvilinear coordinates, kinematics of a continuum, strain, stress, constitutive models, field equations governing continuous media, and applications to problems in solid and fluid mechanics.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**ME 5312. Stress Analysis of Composite Materials.**

This course covers the mechanical analysis of continuous-fiber-polymer-matrix laminated composites. Topics include fabrication and testing of composite materials, lamination theory, micromechanics, design analysis and computerized implementation, environmentally induced stresses, and failure theories for composites.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

## Courses in Manufacturing Engineering (MFGE)

**MFGE 2132. Manufacturing Lab 1: Manufacturing Process and Digital Engineering.**

In this lab, students get hands-on experience in reading CAD drawing standards, lab safety, machine tools operation, welding, plastics and composites manufacturing, mechanical testing, and the use of Excel spreadsheets and functions in solving practical problems. Corequisite: MFGE 2332 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 2332. Material Selection and Manufacturing Processes.**

This course provides an overview of material processing, material selection, and process parameter determination. Processes covered include material removal, forming, casting, polymer processing, semiconductor manufacturing, and assembly. Corequisite: ENGR 1304 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 3116. Manufacturing Lab 2: Computer Aided Design and Manufacturing.**

In this lab, student conduct hands-on experiments on digital manufacturing processes including 2D and 3D CNC machining, additive manufacturing, laser cutting, and waterjet cutting. Corequisite: MFGE 3316 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 3316. Computer Aided Design and Manufacturing.**

This course introduces Computer Aided Design and Manufacturing (CAD/CAM), design process, description of wireframe, surface, and solid models, transformation and manipulation of objects, data exchange, process planning, and machine elements. Topics include fundamentals of computer numerical control (CNC) programming for turning and milling processes, fundamentals of Computer Aided Design and Manufacturing (CAD/CAM) systems, and CNC code generation by CAD/CAM software for 2D and 3D operations on CNC machines. Prerequisites: ENGR 1304 and ENGR 2300 and MFGE 2332 with grades of "D" or better. Corequisites: MATH 2471 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4176. Manufacturing Lab 3: Intelligent Robotics and Control.**

In this lab, students conducting hands-on experiments on intelligent robotics, control system and instrumentation including industrial robot applications, PLC control systems, PID control systems, sensors and devices Prerequisite: ENGR 3373 with a grade of "D" or better. Corequisite: MFGE 4376 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4315. Energy and Thermofluids Engineering.**

This course covers core engineering concepts of energy and thermofluids based on fluid mechanics, thermodynamics, and heat transfer. The main topics include properties of pure substances, fluid statics and dynamics, differential analysis of fluid flow, viscous flow in pipes, external flows, open channel flows, mass and energy analysis of control volumes, first and second laws of thermodynamics, steady-state and transient conduction, internal and external forced convection, natural convection, and fundamentals of radiation. Prerequisite: MATH 3323 and PHYS 2326 and PHYS 2126 with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4318. Additive Manufacturing.**

In this course CAD standards, development of additive manufacturing technology, photopolymerization, powder bed fusion, extrusion-based systems, printing processes, sheet lamination processes, beam deposition processes, design for additive manufacturing, and safety considerations in a hands-on approach will be explained. The concept learned from this course will help students manage large systems or complex infrastructures in a more efficient and sustainable way. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4355. Design of Machine Elements.**

This course will cover the general procedures in designing various machine elements. These elements include shafts and flexible elements, springs, welded/riveted/brazed joints, screw fasteners, rolling/sliding contact bearings, gears, cams, and followers. Emphasis will be placed on using standard design practices. Prerequisite: ENGR 3311 or TECH 2351 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4357. Dynamics of Machinery.**

This course will cover kinematics and kinetics of particles; kinematics and kinetics of rigid bodies in two and three dimensions; application of dynamics to the analysis and design of machine and mechanical components; mechanical vibrations; linkages; gear trains; and balancing of machines. Prerequisite: [ENGR 2301 or ENGR 3375] and MATH 3323 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4363. Concurrent Process Engineering.**

Integrated design and development of products and processes; impact of ethical issues on design; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports; plans or specifications; cost estimation; project management, communication and the fabrication of an engineered product/system. (WI) Prerequisites: ENGR 3311 and MFGE 4365 both with grades of "D" or better. Corequisites: IE 3330 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**MFGE 4365. Tool Design.**

Design of single and multi-point cutting tools, jig and fixture design, gage design, and the design of tooling for polymer processing and sheet metal fabrication. Laboratory projects will involve the use of computer aided design and rapid prototyping. Prerequisite: MFGE 3316 or TECH 2310 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**MFGE 4367. Polymer Properties and Processing.**

Structure, physical & mechanical properties, design considerations and processing methods for polymer-based materials are presented. Processing methods include: injection molding, blow molding, thermoforming, compression molding, extrusion, filament winding, lay-up methods, vacuum bag molding and pultrusion. Prerequisite: MFGE 2332 or TECH 4362 or ME 3361 any with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4376. Control Systems and Instrumentation.**

This course covers the theory of automated control systems and its application to manufacturing systems. Topics include modeling of systems, time and frequency domain feedback control systems, stability analysis, transducer and sensor technology, and digital control. Prerequisite: ENGR 2300 and PHYS 2325 and PHYS 2125 and [EE 3370 or MFGE 2332 or TECH 4362] all with grades of "D" or better. Corequisite: MATH 3323 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4377. Introduction to Polymer Nanocomposites.**

This course introduces reinforced polymer nanocomposites, focusing on materials, manufacturing, characterization, and applications. Topics include primarily nanoclay polymer matrix composites. The course will emphasize challenges in low-cost manufacturing for industrial applications, commercial successes, and impact on current and future materials market. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4378. Introduction to Industrial Robotics.**

This course covers the basic principles and techniques involved in industrial robotics. Emphasis is on industrial robot applications, analysis of robot manipulators, components of industrial robots, robot programming and control. Prerequisite: MFGE 4376 or [ME 3351 and ME 3151] with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4390. Manufacturing Engineering Design I.**

This course is the first of a two course sequence involving integrated design and development of products and processes, impact of ethical issues on design, the discussion of real-world engineering problems and emerging engineering issues with practicing engineers, preparation of reports, plans and specifications, cost estimation, project management, and communication. Prerequisites: ENGR 3311 with grades of "D" or better. Corequisite: IE 3330 and MFGE 4365 both with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**MFGE 4391. Manufacturing Engineering Design II.**

This course is the second of a two course sequence involving implementation of Integrated design and development of products and processes; impact of ethical issues; the discussion of real-world engineering problems and emerging engineering issues with practicing engineers; preparation of reports, plans and specifications; cost estimation; project management; and communication. Prerequisites: IE 3330 and MFGE 4390 both with grades of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**MFGE 4392. Microelectronics Manufacturing I.**

This course provides an overview of integrated circuit fabrication including crystal growth, wafer preparation, epitaxial growth, oxidation, diffusion, ion-implantation, thin film deposition, lithography, etching, device and circuit formation, packaging and testing. The laboratory component involves production and testing of a functional semiconductor device. Prerequisites: CHEM 1341 or CHEM 1335 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**MFGE 4394. Microelectronics Manufacturing II.**

This course covers topics including atomic models for diffusion, oxidation and ion implantation; topics related to thin film processes i.e. CVD, PVD; planarization by chemical-mechanical polishing and rapid thermal processing; and process integration for bipolar and MOS device fabrication. Students will design processes and model them using a simulation. Prerequisite: EE 4392 or MFGE 4392 either with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MFGE 4395. Computer Integrated Manufacturing.**

This course is an overview of computer integrated manufacturing in the digital world. Topics include control strategies for advanced manufacturing, automated testing, distributed manufacturing, automated material handling systems, manufacturing databases and their integration, and man/machine interfaces. (WI) Prerequisites: MFGE 3316 and [CS 1428 or CS 1342] with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**MFGE 4396. Manufacturing Systems Design.**

Applications of simulation modeling to the design and analysis of manufacturing systems are presented in this course. Topics covered include queuing theory and discrete event simulation methods. Design projects will involve the use of current simulation language for modeling and analysis of manufacturing systems. (WI) Prerequisite: IE 3320 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**MFGE 4399C. Introduction to Industrial Robotics.**

This course will cover the basic principles and techniques involved in industrial robotics. Emphasis will be placed on industrial robot applications, analysis of robot manipulators, components of industrial robots, robot programming and control. Prerequisite: MFGE 4376 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

## Minimum required: 126 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
4. No minor is required in this Bachelor of Science degree program because of the breadth of the foundation and support coursework.
5. Nine semester credit hours must be writing intensive (WI).
6. If two years of the same, non-English language are taken in high school, then no additional language hours will be required for the

degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

7. All students in the Civil Engineering degree programs must complete Civil Engineering (CE) course prerequisites with a grade of "C" or higher.
8. For transfer students, 39 semester credit hours in chemistry, engineering, mathematics and physics (or their equivalents) may be transferred from a Texas public institution of higher education for the Civil Engineering Field of Study and be applied to the Bachelor of Science degree with a major in Civil Engineering at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours

## Admission Requirements

1. The Bachelor of Science (B.S.) degree with a major in Electrical Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: <http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissiontext>
2. In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
3. ACT Math score of 24 or higher,
4. SAT Math score of 550 (re-centered) or higher, or
5. credit for one of the following Math courses with a grade of "C" or higher:

Code	Title	Hours
MATH 1315	College Algebra	3
MATH 1317	Plane Trigonometry	3
MATH 1319	Mathematics for Business and Economics I	3
MATH 1329	Mathematics for Business and Economics II	3

3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following Math courses with a grade of "C" or higher may declare Electrical Engineering as their major.

Code	Title	Hours
MATH 1315	College Algebra	3
MATH 1317	Plane Trigonometry	3
MATH 1319	Mathematics for Business and Economics I	3
MATH 1329	Mathematics for Business and Economics II	3

## General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. For transfer students, 30-31 semester credit hours may be transferred from a Texas public institution of higher education for the Electrical Engineering Field of Study and be applied to the Bachelor of Science degree with a major in Electrical Engineering at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
MATH 2471	Calculus I	4
TCCN: MATH 2413		
MATH 2472	Calculus II	4
TCCN: MATH 2414		
MATH 2393	Calculus III	3
TCCN: MATH 2315

EE 2400	Circuits I	4
TCCN: ENGR 2405 or 2305/2105		
<b>Total Hours</b>		<b>30</b>

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Nine semester credit hours must be writing intensive (WI).
5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
6. All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.
7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
8. The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.

### Course Requirements

	First Hours Semester	Second Hours Semester	Summer Hours	Freshman
CHEM 1335 (Life and Physical Sciences Component Code 030 [TCCN CHEM 1309 or 1409])	3	PHYS 2325 & PHYS 2125 (Life and Physical Sciences Component Code 030 [TCCN PHYS 2325 & 2125])	4 American History Component Code 060	3

EE 4382	Advanced Power Systems	3
ENGR 4395	Independent Studies in Engineering	3
EE 4357	Introduction to Power Systems	3
EE 4359	Advanced Electronic Materials and Devices	3

Choose a maximum of 3 hours from the following:

ENGR 3190	Cooperative Education
ENGR 3290	Advanced Cooperative Education

## Minimum required: 131 semester credit hours

### Admission Requirements

- The Bachelor of Science (B.S.) degree with a major in Electrical Engineering requires admission to the university and admission to the program. Information about the program admissions can be found at: <http://mycatalog.txstate.edu/undergraduate/science-engineering/ingram-school/#admissionstext>
- In order to declare Electrical Engineering as a major, students must meet one of the following prerequisites:
  - ACT Math score of 24 or higher,
  - SAT Math score of 550 (re-centered) or higher, or
  - credit for one of the following Math courses with a grade of "C" or higher:

Code	Title	Hours
MATH 1315	College Algebra	3
MATH 1317	Plane Trigonometry	3
MATH 1319	Mathematics for Business and Economics I	3
MATH 1329	Mathematics for Business and Economics II	3

3. Students who do not meet the above prerequisites may choose Pre-Electrical Engineering as their major. Pre-Electrical Engineering students who complete one of the following Math courses with a grade of "C" or higher may declare Electrical Engineering as their major:

Code	Title	Hours
MATH 1315	College Algebra	3
MATH 1317	Plane Trigonometry	3
MATH 1319	Mathematics for Business and Economics I	3
MATH 1329	Mathematics for Business and Economics II	3

### General Requirements

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- For transfer students, 30-31 semester credit hours may be transferred from a Texas public institution of higher education for the Electrical Engineering Field of Study and be applied to the Bachelor of Science degree with a major in Electrical Engineering at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
MATH 2471	Calculus I	4
TCCN: MATH 2413		
MATH 2472	Calculus II	4
TCCN: MATH 2414		
MATH 2393	Calculus III	3
TCCN: MATH 2315		
MATH 3323	Differential Equations	3
TCCN: MATH 2320		
PHYS 2325	Mechanics	4
& PHYS 2125	and Mechanics Laboratory	
TCCN: PHYS 2425 or 2325/2125		
PHYS 2326	Electricity and Magnetism	4
& PHYS 2126	and Electricity and Magnetism Laboratory	
TCCN: PHYS 2426 or 2326/2126		
CS 1428	Foundations of Computer Science I	4
TCCN: COSC 1420 or 1320		
EE 2400	Circuits I	4
TCCN: ENGR 2405 or 2305/2105		
<b>Total Hours</b>		<b>30</b>

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine semester credit hours must be writing-intensive (WI).
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
- All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.
- If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.

ENGR 3190	Cooperative Education
ENGR 3290	Advanced Cooperative Education
ENGR 4299	Engineering Undergraduate Research

Roy F. Mitte Building Room 2240

T: 512.245.2137 F: 512.245.3052

www.txstate.edu/technology (<http://www.txstate.edu/technology/>)

The mission of the Department of Engineering Technology is to prepare students for technical/professional careers in industry and education. The mission is accomplished through dedicated faculty offering programs in specialized areas with a formal, technical focus. Upon graduation, students are prepared to assume positions of professional responsibility in the areas of manufacturing, construction, concrete industry management, computer aided technologies, electronics, and education. Sixteen well-equipped technical laboratories serve to educate students in the techniques and processes used by contemporary world class industries.

## The Bachelor of Science major in Concrete Industry Management

The Bachelor of Science (B.S.) degree with a major in Concrete Industry Management (CIM) prepares students for professional careers in the concrete construction industry. The concrete construction industry requires graduates who are knowledgeable in concrete material technology and techniques, able to manage people and systems to promote products and technologies related to the concrete industry, and grounded in basic construction management principles. CIM students complete coursework related to concrete material science, concrete technology, concrete products, methods of concrete construction, and a required business administration minor. CIM graduates find a wide array of opportunities in the \$1 trillion concrete industry worldwide including positions in project management, estimating, sales, plant operations, technical services, logistics, quality control and quality assurance, environmental and regulatory, and safety professions. The Concrete Industry Management program at Texas State University is accredited by the Association of Technology, Management, and Applied Engineering (ATMAE).

## The Bachelor of Science major in Construction Science and Management

The Bachelor of Science (B.S.) degree with a major in Construction Science and Management (CSM) prepares students to enter professional careers in the construction industry. To meet the growing demands of industry, students may choose a residential or a commercial construction concentration. Many graduates become construction project managers, estimators, schedulers, field engineers, virtual design and construction (VDC) specialists, general and/or subcontractors, code inspectors, material suppliers and technical sales representatives. Students learn the technical aspects of how construction projects are built through classes in residential, commercial, and heavy civil/highway construction. They also learn how to manage construction through the required business administration minor and the major courses in estimating, scheduling, project management and construction finance. Career opportunities are many in this industry, with total national construction spending over \$1.98 trillion in 2023. Students entering this degree need to successfully complete the Pre-Construction Curriculum before registering for advanced Construction Science and Management courses. Also, an internship is required, where students spend 400 hours over 10 weeks working in the construction industry. Students interested in pursuing the Construction Science and Management degree program can receive more information on the major by contacting a CSM Faculty Advisor. The CSM degree program is accredited by the American Council for Construction Education (ACCE).

## The Bachelor of Science major in Engineering Technology

The Bachelor of Science (B.S.) degree with a major in Engineering Technology provides students with a comprehensive technical foundation for engaging in engineering projects. This program covers various aspects including planning and design of production processes and automated systems, creation of innovative products and production facilities, development of tooling solutions, establishment of quality assurance and continuous improvement procedures, implementation of test and maintenance plans, development of safety programs, and establishment of work methods and lean systems. Students can specialize in Electrical Engineering Technology, Civil Engineering

Technology, Environmental Engineering Technology, Manufacturing Engineering Technology, and Mechanical Engineering Technology. An internship is required, where students spend 10 weeks and 400 hours working in industry. A minor is not required for the B.S. in Engineering Technology degree. This degree program is accredited by the Engineering Technology Accreditation Commission of ABET, [www.abet.org](http://www.abet.org) (<https://www.abet.org/>).

## Admissions Requirements

### Construction Science and Management

1. Construction Science and Management majors must complete 30 semester credit hours of Pre-Construction coursework, which will consist of:

Code	Title	Hours
MATH 2328	Elementary Statistics	3
MATH 2417	Pre-Calculus Mathematics	4
PHYS 1315 & PHYS 1115	General Physics I and General Physics I Laboratory	4
CHEM 1335 & CHEM 1141	Engineering Chemistry and General Chemistry Laboratory I	4
PHYS 1325 & PHYS 1125	General Physics II and General Physics II Laboratory	4
CSM 1260	Introduction to the Construction and Concrete Industry	2
CSM 2313	Architecture Design I - Construction Documents	3
CSM 2342	Construction Materials and Processes	3
TECH 2351	Statics and Strength of Materials	3
<b>Total Hours</b>		<b>30</b>

2. When a student completes their Pre-Construction coursework, with the required GPA, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major" in the Construction Science and Management program.

3. After completing the Pre-Construction coursework, students will be allowed to enter the Bachelor of Science major in Construction Science and Management, and will be allowed to enroll in the following Construction classes:

Code	Title	Hours
CSM 2160	Introduction to Construction Surveying and Site Layout	1
CSM 2360	Residential I: Construction Practices	3
CSM 3360	Structural Analysis	3
CSM 3361	Commercial Building Construction Systems	3
CSM 3363	Heavy, Civil and Highway Construction Systems	3
CSM 3366	Soils and Foundations	3
CSM 3367	Mechanical, Electrical and Plumbing Systems	3
CSM 4360	Senior Construction Management Capstone	3
CSM 4361	Construction Estimating	3

## Bachelor of Science (B.S.)

- Major in Concrete Industry Management (p. 751)
- Major in Construction Science and Management (p. 752)
- Major in Construction Science and Management (Residential Construction Concentration) (p. 754)
- Major in Engineering Technology (Civil Engineering Technology Concentration) (p. 756)
- Major in Engineering Technology (Electrical Engineering Technology Concentration) (p. 758)
- Major in Engineering Technology (Environmental Engineering Technology Concentration) (p. 759)
- Major in Engineering Technology (Manufacturing Engineering Technology Concentration) (p. 760)
- Major in Engineering Technology (Mechanical Engineering Technology Concentration) (p. 762)

## Minor

- Engineering (p. 763) Technology (p. 763)

**Subjects in this department include: CIM (p. 743), CSM (p. 745), TECH (p. 747).**

## Courses in Concrete Industry Management (CIM)

### CIM 3330. Concrete Construction Methods.

This course covers forming, shoring, placing and reinforcing operations. Transporting, placing, consolidating, finishing, jointing and curing concrete for cast-in-place foundations, pavements, slabs on ground, structural frames, and other structural members are studied. Other topics include waterproofing concrete foundations and erecting precast concrete members. Corequisite: CIM 3420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### CIM 3340. Understanding the Concrete Construction System.

This course provides a detailed look at how the concrete construction industry works. The course includes a review of model building codes, building officials and their functions, concrete industry codes and standards, concrete construction processes, quality assurance systems, contract documents, estimating, construction scheduling and concrete construction markets. Prerequisite: CIM 3420 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 3350. Precast and Prestressed Management.**

This course provides students with an opportunity to further develop their technical and laboratory knowledge in precast/prestressed concrete topics to include common shapes and uses, materials and methods, mix designs and batching in precast/prestressed, reinforcing and formwork in precast/prestressed, plant management, layout and processes, logistics and supply chain, quality control, technical sales, and cost estimating.

Prerequisite: CIM 3420 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 3366. Applications of Concrete in Construction.**

This course is a detailed study of the many uses of concrete in the construction of buildings, pavements and other facilities. Emphasis will be placed on the advantages, disadvantages, and unique problems faced by materials suppliers, contractors and design professionals when concrete is chosen for specific applications. Prerequisite: CIM 3330 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 3420. Fundamentals of Concrete: Properties and Testing.**

This course examines effects of concrete-making materials (aggregates, cements, admixtures, etc.) on the properties of fresh and hardened concrete. Concrete mixture proportioning calculations and statistical analysis of strength tests are also studied. Prerequisite: MATH 2328 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CIM 4290. Capstone.**

This course will provide students the opportunity to work individually to develop a business plan with increased emphasis on the technical and financial aspects of the concrete industry, building upon previous coursework. Students then work in groups, preparing a proposal based on a real-world construction or concrete project. The final presentation will be made to an industry panel. A portion of this course includes guest speakers from the concrete industry. Prerequisite: CIM 4330 and CSM 3368 both with a grade of "C" or better.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 4299. Capstone II.**

This course is a continuation of CIM 4398; students continue developing a business plan with increased emphasis on the technical and financial aspects of the concrete industry, building upon previous coursework. The final presentation will be made to an industry panel. A portion of the course is a seminar with guest speakers from the concrete industry. Prerequisite: CIM 4398 with a grade of "D" or better.

**2 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 4310. Senior Concrete Lab.**

This course provides students with an opportunity to further develop their technical and laboratory knowledge and pursue a project of individual interest. A formal report/presentation will be required at the conclusion of the course. Prerequisites: CIM 3366 with a grade of "C" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 4330. Management of Concrete Products – Ordering and Scheduling.**

This course is designed to provide the student with a basic understanding of managing the ordering and delivery process common to all concrete products. Emphasis will be in planning, organizing and controlling at both the first-line supervisory and managerial levels.

Prerequisite: CIM 3340 with grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 4340. Concrete Problems: Diagnosis, Prevention and Dispute Resolution.**

Course involves diagnosing/preventing problems related to concrete production, testing, construction and performance. Students learn to identify causes of fresh and hardened concrete problems, i.e. fast and slow setting, air content variations, low strength, cracking and scaling. Pre-job conferences and dispute resolution methods are examined.

Prerequisite: CIM 3366 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 4350. Advanced Concrete Technology.**

This course provides students with an opportunity to further develop their technical and laboratory knowledge in advanced concrete properties, test methods and mix designs. Topics include high-performance concrete (HPC), self-consolidating concrete (SCC), roller compacted concrete (RCC), mass concrete, concrete repair, advanced fiber reinforcing, and chemical admixtures. Prerequisite: CIM 3420 with a grade of a "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CIM 4398. Capstone.**

This course covers the business aspects of the concrete industry with appropriate application to the student's career interests and builds upon the technical and practical industry components learned in previous courses. The final project will be presented to an industry committee. (WI) Prerequisites: ACC 2362 with a grade of "D" or better and CIM 4330 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Construction Science and Management (CSM)

**CSM 1260. Introduction to the Construction and Concrete Industry.**

This is an introductory course for Construction and Concrete Industry Management (CIM) majors. Residential, commercial, heavy, civil, and highway construction is explored including the concrete industry. The role of the contractor, architect/engineer, and owner are covered including contracts, careers, sustainability, and economic importance of the construction industry.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 1360. Introduction to the Construction Industry.**

This is an introductory course to the Construction and Concrete Industry. Major construction sectors are explored including: Residential; Building Construction; Heavy, Civil and Highway; and Industrial and Offshore, along with common construction materials used in the industry. The role of the Construction Owner, Architect/Engineer and Constructor are covered in addition to Contracts, Construction Documents, sustainability, and the economic and historical importance of the Construction Industry. Degree requirements, course sequencing and Construction Careers are also covered.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 2160. Introduction to Construction Surveying and Site Layout.**

Common construction surveying and site layout techniques are studied using both optical levels and total stations. Benchmarks, building lines, property lines, differential and profiling are discussed in lecture with applied exercises performed in the laboratory.

**1 Credit Hour. 1 Lecture Contact Hour. 1 Lab Contact Hour.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 2262. Construction Lab.**

This lab provides hands-on experience for students to apply technical construction processes, equipment safety, and teamwork by building components using industry-standard materials and equipment. Practical application of techniques used in residential and commercial construction will be performed, as well as the use of innovative technology associated with the Virtual Design & Construction (VDC) movement in the industry.

**2 Credit Hours. 0 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 2313. Architecture Design I - Construction Documents.**

This course is an introduction to the language and process of producing architectural construction documents in residential projects utilizing computers and CAD software. Site plans, floor plans, sections, elevations, and details are drawn individually and as a team as orthographic projection theory and its importance in resolving complex building geometry are covered.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 2342. Construction Materials and Processes.**

This course will introduce students to various types of construction materials including ceramics, ferrous, non-ferrous, and organic materials used in construction. Their properties, working characteristics and processes used to manufacture and assemble these materials are studied. Laboratory activities are used to reinforce lecture material. Prerequisites: [PHYS 1115 and PHYS 1315] or [PHYS 2325 and PHYS 2125] with grades of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 2360. Residential I: Construction Practices.**

This course deals with the process of constructing a home on an improved lot, including residential plan and specification interpretation, cost centers, profit and overhead, construction phases, subcontractor sequencing, materials, estimating, scheduling, building codes, permits, and mechanical, electrical and plumbing home requirements.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 2361. Construction Surveying.**

This course covers practical construction surveying and site layout applications for Construction Management. Topics covered include surveying terminology, the use of surveying equipment, grade, distance, and angular measurements, construction site layout and project control, surveying documentation with fieldwork conducted in the laboratory portion of the course. It also covers current technology in surveying equipment and processes. Prerequisite: MATH 2321 or MATH 2417 or MATH 2471 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 3360. Structural Analysis.**

This course is a structural engineering fundamentals class to include design loads, reactions, force systems, functions of a structure, and both the analysis and design of determinate structures by classical and modern techniques. Prerequisite: TECH 2351 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 3361. Commercial Building Construction Systems.**

This is a commercial building construction systems class that deals with soils, site work, heavy foundations, steel, reinforced concrete and pre-cast structures along with common assemblies. Commercial MEP's are studied along with CSI master format, as-built and shop drawings, schedule of values, AIA documents and appropriate building codes. Corequisite: CSM 2360 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 3363. Heavy, Civil and Highway Construction Systems.**

Selection, acquisition and capabilities of heavy construction equipment are presented. Applications of economics to performance characteristics and production of equipment is discussed. Sector-specific construction management methods are covered, including unit price estimating, equipment fleet design, repetitive scheduling and major components of highways, bridges and engineered facilities.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 3366. Soils and Foundations.**

The properties of subsurface materials and the principles of subsurface construction are studied. Topics include soil classification and testing, soil mechanics, and foundation systems, including site layout, excavation, caissons, piles, slurry wall, slab, and spread footings. Prerequisite: TECH 2351 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 3367. Mechanical, Electrical and Plumbing Systems.**

This course covers typical Mechanical, Electrical and Plumbing (MEPs) systems found in residential and commercial construction along with design and installation methods used to conserve both energy and water in new and remodeled structures.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 3368. Construction Finance.**

This course provides an introduction to financial analysis and financing of construction-related companies and projects. Topics include analysis of financial statements, contractor payment methods, construction loans, and project cost controls. Prerequisite: ACC 2301 or ACC 2362 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 3369. Residential II: Construction Business Practices.**

This course will prepare students in the business practices used by residential land developers and home-builders. Technical skills are applied to the work process inside conventional home-building departments and how those collaborating departments and co-workers operate to become an efficient and sustainable new home-building company. Prerequisite: CSM 2360 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 4313. Architectural Design II - Technology in Construction.**

In this course students create individual and group commercial projects which include plans, elevations, sections, details, and 3D drawings utilizing 3D building information modeling (BIM) and other current technologies used in the industry. Structural, mechanical, electrical, plumbing, accessibility, and sustainable building issues are discussed. Prerequisite: CSM 2313 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 4360. Senior Construction Management Capstone.**

In this course students work in groups, preparing a bid proposal based on a real-life construction project involving contract negotiations, construction documents interpretation, estimating, bidding, scheduling, safety, and quality control plans. Emphasis is on developing leadership, team building, and written and oral communication skills. Students will be prepared to sit for the AIC Level 1 Examination after this course. Prerequisites: CSM 4313 and CSM 4361 and CSM 4364 and CSM 4369 and TECH 2190 all with grades of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 4361. Construction Estimating.**

This course covers the fundamentals of construction estimating, including feasibility and constructability, quantities, units, labor, equipment productivity, and different types of estimates such as preliminary, engineering, range, and contractor's detail bids. Plans and specifications are used along with estimating software to develop estimates commonly used in the construction industry. Prerequisite: CSM 3361 or CIM 3340 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 4364. Construction Project Management and Scheduling.**

This course covers the concepts of construction management beginning with contract documents through the effective management of manpower, machines, material, and money necessary to complete construction projects on time and within budget. Gantt Charts and PERT/CPM schedules are developed using contemporary software. Prerequisite: CSM 2360 with a grade of "C" or better. Corequisite: CSM 4361 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**CSM 4368. Sustainable & Lean Construction Practices.**

This course covers environmentally sustainable and lean management practices in building design and construction. The LEED system will be used to guide the course on sustainable practices, which covers aspects of sustainable sites, water efficiency, energy and atmosphere, materials and resources, indoor environmental quality, and the CAD design process. It will also cover the integration and relationship between lean and sustainable construction.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**CSM 4369. Construction Contracts, Risks, and Ethics.**

Legal aspects of design and construction contract documents are presented, including contract formation, interpretation, rights and duties and changes. Legal liabilities are explored in the context of professional ethics for design firms and constructors. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**CSM 4370. Residential Capstone.**

This is a course in residential construction related to developing communities and building homes. Students work in groups to develop proposals to select and develop raw land into buildable lots, design and schedule site-specific homes, and develop a marketing plan. Students will be prepared to sit for the AIC Level 1 Examination after this course. Prerequisite: TECH 2190 and CSM 3369 and CSM 4313 and CSM 4364 and CSM 4369 all with grades of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**CSM 4380. Construction Safety.**

This course is an introduction to the fundamentals of occupational safety and health for the construction industry. Topics include Occupational Safety and Health Administration (OSHA) policies and compliance, governmental regulations, standards, laws, worker's compensation, record keeping, environmental safety and health hazard identification, the hierarchy of controls to mitigate hazards, and creation of a written Safety Management Plan (SMP). (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

## Courses in Technology (TECH)

**TECH 1311. Engineering Design Graphics.**

This course provides an introduction to the fundamentals of technical drawing and the related graphical tools used to communicate engineering design concepts. The topics include two dimensional graphics, orthographic projections, geometric dimensioning and tolerancing, computer-aided graphics, parametric solid modeling, and introduction to three dimensional graphics.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 1363. Manufacturing Processes I.**

The course will provide an overview of the manufacturing processes. Major emphasis is placed on machining theory, setup and tooling. Metal forming and fabrication procedures are introduced. Joining and assembly includes welding, mechanical fastening, adhesive bonding and surface finishing concepts. Laboratory demonstrations and tutorials involve machining, joining and forming techniques.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 1393. Manufacturing Processes II.**

The course involves the fundamentals of casting and molding processes. Emphasis is placed on casting terminology, molding sand, molding processes, pattern making, coremaking and quality control. Ferrous and non-ferrous alloy composition and casting geometry are explored. Plastic and composite forming concepts are included. Microelectronic manufacturing principles and processes are introduced. Prerequisite: TECH 1363 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 2190. Industrial Internship.**

This is a supervised experiential learning course in various technical disciplines as appropriate to a student's degree program. This work-integrated learning course helps the student link theory with practice. Prerequisites: Instructor approval and a minimum 2.25 major GPA.

**1 Credit Hour. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Credit/No Credit

**TECH 2310. Computer-Aided Design.**

In this course, principles of 3D modeling are introduced in the preparation of drawings for manufacturing processes. Emphasis includes the parametric solid modeling of machine elements, geometric dimensioning, and tolerancing. The laboratory component involves production of engineering drawings and simulations connecting this course to computer-aided engineering. Prerequisite: ENGR 1304 or TECH 1311 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 2340. Environmental Technology I.**

This course emphasizes the fundamental chemical, biological, ecological and hydrological principles, and mass and energy balances involved in solving environmental problems. Specific environmental areas covered include water, water quality and wastewater treatment. Environmental regulations and testing as pertinent to water will be covered. Prerequisite: CHEM 1335 and [PHYS 2325 or PHYS 1315] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 2344. Power Technology.**

This class deals with understanding the basic laws of thermodynamics. It probes efficiency and examines energy-converting devices from the inputs, processes, outputs model. Internal combustion engines, electric motors, hydraulic, pneumatic, and gearing systems, and fuel analysis are reviewed from a practical and theoretical perspective. Prerequisites: [MATH 1315 or MATH 1317 or MATH 2417 or MATH 2471] and [(PHYS 1115 and PHYS 1315) or (PHYS 2325 and PHYS 2125)] all with grades of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 2351. Statics and Strength of Materials.**

This course covers principles of statics and strength of materials to include forces, equilibrium, friction, centroids, and stress/strain relationships, axial stress and deformation, thermal stress and deformation, stress concentrations, factor of safety, torsional stress, beam stresses and combined stress. Prerequisite: [CSM 2342 or ENGR 2300 or CIM 3420] and [(PHYS 1115 and PHYS 1315) or (PHYS 2325 and PHYS 2125)] all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 2370. Electricity/Electronics Fundamentals.**

This course covers fundamentals of safety, Ohm's Law, series, parallel, and series/parallel circuits, meters, relays, DC/AC circuit analysis and basic semiconductors.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** ENGR 2305

**TECH 3322. Development of Technology.**

The role of technology in the development of Western World culture is studied from a technical perspective. Social repercussions resulting from the introduction of foundational technical developments are reviewed. Examples of technical areas examined are agriculture, transportation, manufacturing, engineering, defense, and communications. Readings focus discussions and papers on specific topics and encourage synthesis level understanding. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**TECH 3340. Environmental Technology II.**

This course covers air pollution, solid waste and hazardous waste management, sustainability and risk management. Environmental regulations and testing as pertinent to soils, sediments, residual and air will be covered. Prerequisite: TECH 2340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 3344. Applied Thermofluids.**

This course covers basic concepts, first and second laws of thermodynamics, and thermodynamic properties. Heat transfer by conduction, convection, and radiation, as well as fluid statics and fluid dynamics will also be discussed. Prerequisite: PHYS 2325 and PHYS 2125 and TECH 2344 all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 3345. Principles of Lean Systems.**

The course provides an in-depth understanding of the lean principles as they apply to manufacturing and service organizations with emphasis on lean tools and concepts such as Value Stream Mapping, 5S, kaizen, waste, takt/cycle time, visual control, six-sigma, mistake proofing, single piece flow, cell design and pull systems. (WI) Prerequisite: TECH 3364 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**TECH 3354. Applied Dynamics.**

This course provides the fundamentals of modeling dynamics of mechanical systems, including both particles and rigid bodies, mathematically. Topics covered include basic theory of engineering mechanics, mechanics of rigid bodies, Newton's Laws, work and energy relationships, principles of impulse and momentum, and the application of kinetics and kinematics to solve engineering problems. Prerequisite: TECH 2351 and MATH 2472 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 3357. Facilities Planning and Design.**

This project-based course provides students with a practical knowledge of designing efficient facility layout and material handling system. Systematic layout planning (SLP) based on a product and process information is studied in depth. Simulation tools are used for flow analysis. Prerequisites: TECH 2310 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 3364. Quality Assurance.**

This course covers the principles of quality management and control to include basic probability and statistics concepts, control charts for attributes and variables, statistical process control, sampling plans and methods, quality audits, and quality costs. Prerequisite: IE 3320 or MATH 2328 either with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 3370. Electronics.**

This course is a study of the characteristics of basic electronic circuits and their component parts. Course content includes the use of electronic test equipment, inductance, capacitance, reactance, impedance, rectification, switching, amplification, and electronic circuit fabrication. Prerequisite: EE 2400 or TECH 2370 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 3373. Communication Systems.**

This course deals with basic principles of communication systems. Specific topics include analysis of signals and systems, modulation techniques (digital and analog), analysis of transmitters and receivers, networking, and wireless communication systems.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 4330. Foundry & Heat Treatment.**

The technical aspects of foundry and heat treatment of ferrous and non-ferrous metals are reviewed. Students gain proficiency with interpretation of binary phase diagrams, mathematical modeling of gate and runner systems, micro-structural analysis, process cost evaluation, sand casting, and investment casting. The course includes writing technical reports and conducting experiments. Prerequisites: ENGR 2300 and [ENGR 1313 or ENGR 1304 or TECH 1311] and [MFG 2332 or TECH 1393 or ME 3361] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**TECH 4340. Design for Environment.**

This course covers the basic principles of design for environment. Topics covered include: industrial ecology, resource depletion, product design, process design, material selection, energy efficiency, product delivery, use, end of life and life cycle analysis. Prerequisite: TECH 3340 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 4362. Manufacturing Process Engineering.**

This course will provide students with fundamentals of manufacturing processes planning and engineering. Major emphasis will be placed on make-buy analysis, tolerance analysis and dimensional control, tool and fixture design, process and material selection, design for manufacturing, design for assembly, and process planning. Prerequisites: TECH 1393 and TECH 2310 both with grades of "C" or better.

**3 Credit Hours. 1 Lecture Contact Hour. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 4365. Machine Elements: Dynamics and Design.**

Principles of the design of mechanical components; theories of failure; material selection; design of shafts, gears, cams, fasteners, springs and brakes; dynamics; balancing of machinery and vibration control are studied. Prerequisite: TECH 2310 and TECH 2351 both with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 4372. Electronic Devices and Circuits.**

This course covers transistor configurations, field effect transistors and circuits, voltage regulation, amplifier feedback principles, operational amplifiers and circuitry, and unijunction transistors and applications.

Prerequisites: EE 2400 or TECH 2370 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 4373. Control Systems and Instrumentation.**

This course is an introduction to modern control systems and instrumentation. Topics covered include transducers, sensors, actuators, instrumentation, open and closed loop control systems, PID controllers, programmable logic controllers and ladder logic, and computer interface software and hardware. Prerequisites: EE 2400 or TECH 2370 either with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 4374. Digital Systems.**

This course covers solid state digital electronics from basic concepts to current industrial needs in terms of logic gates, number systems counters, registers, sequential control circuits, and shift register generator. Prerequisite: [PHYS 2326 and PHYS 2126] or TECH 2370 with a grade of "C" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 4380. Industrial Safety.**

This course introduces the field of industrial safety with emphasis on compliance with Federal and State regulations. (WI).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**TECH 4381. Senior Design I.**

This course is the first of a two-course sequence involving the application of technical and non-technical skills and knowledge, using a multidisciplinary team-based approach, for solving real-world problems related to product and process development. The topics include systematic product design, requirements analysis, material and process selection, project management, cost estimation, design documentation and presentation, prototyping, fabrication, and design test and verification. Prerequisite: EE 3400 or TECH 3340 or TECH 3370 or TECH 3345 any with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**TECH 4382. Senior Design II.**

This course is the second of a two-course sequence involving the application of technical and non-technical skills and knowledge, using a multidisciplinary team-based approach, for solving real-world problems related to product and process development. The topics include systematic product design, requirements analysis, material and process selection, project management, cost estimation, design documentation and presentation, prototyping, fabrication, and design test and verification. Prerequisite: TECH 4381 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 4390. Internship.**

Supervised on-the-job professional learning experience in construction, manufacturing, electronics, and other technical areas. This course provides practical work experience in their particular field of interest. Repeatable for credit. (WI) Prerequisites: Instructor approval.

**3 Credit Hours. 0 Lecture Contact Hours. 40 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Dual Enrollment Permitted|Time Conflicts Permitted|Writing Intensive

**Grade Mode:** Standard Letter

**TECH 4392. Micro and Nano Manufacturing.**

This course covers the basic principles of micro and nano manufacturing. Emphasis is placed on the process descriptions, terminology, equipment requirements, and processes for micro and nano systems. Basic physics and process chemistry is combined with control schemes to arrive at overall systems descriptions. Prerequisite: [CHEM 1335 or CHEM 1341] and [PHYS 1325 or (PHYS 2326 and PHYS 2126)] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 4395. Automated Manufacturing Systems I.**

This course primarily deals with automation in industrial systems. In particular, this course focuses on automation and control technologies in manufacturing systems at machine and device levels. Included in its structure are areas such as fundamentals of industrial automation, sensors and actuators, numerical control, robotics, and PLC.

Prerequisites: TECH 2310 with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 4396. Automated Manufacturing Systems II.**

This course primarily deals with automation, simulation, and digitization in industrial systems. Course topics include discrete-event simulation of manufacturing systems, automated quality control and inspection, automated identification, industrial Internet of Things, automated material handling, automated data acquisition systems, and applied finite element analysis. Prerequisites: TECH 4395 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TECH 4397. Special Problems.**

The investigation of a special topic by developing the problem, researching the topic, and presenting the findings as they apply to industry/technology. This course will be applicable to all areas of technology, and must be done only with the approval of the cooperating faculty member and Department Chair. Repeatable for credit with different emphasis. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TECH 4398. Senior Design.**

This course deals with application of technical and non-technical skills and knowledge using a multidisciplinary team-based approach for solving real-world problems related to product and process development. The topics include systematic product design, requirements analysis, project management, cost estimation, documentation and presentation, prototyping, fabrication and concurrent engineering. (WI) Prerequisites: EE 3400 or TECH 3340 or TECH 3370 or TECH 4372 or TECH 4395 any with a grade of "D" or better.

**3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

catalog for the Texas State requirements and options in the core curriculum, including Honors courses.

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- Nine semester credit hours must be writing intensive (WI).
- If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- A minor in Business Administration is required for this degree program. Courses for the minor in Business Administration are included in the following degree plan.

## Course Requirements

<sup>1</sup> Credit earned successfully through testing of previously earned course credit for MGT 3303 may be substituted for MGT 3301.

<sup>2</sup> Credit previously earned for BLAW 2361 may be substituted for BLAW 3301.

## Minimum required: 120 semester credit hours

### Admission Requirements

- This degree program requires admission to the university and admission to the program. Information about the program admissions can be found at: <http://mycatalog.txstate.edu/undergraduate/science-engineering/technology/#admissionstext>
- Students must complete the following 30 semester credit hours of Pre-Construction coursework:

Code	Title	Hours
MATH 2328	Elementary Statistics	3
MATH 2417	Pre-Calculus Mathematics	4
PHYS 1315 & PHYS 1115	General Physics I and General Physics I Laboratory	4
Choose 4 hours from the following:		

CHEM 1335 & CHEM 1135	Engineering Chemistry and Engineering Chemistry Laboratory	
CHEM 1341 & CHEM 1141	General Chemistry I and General Chemistry Laboratory I	
CSM 1260	Introduction to the Construction and Concrete Industry	2
CSM 2313	Architecture Design I - Construction Documents	3
CSM 2342	Construction Materials and Processes	3
<b>Total Hours</b>		<b>19</b>

2. When a student completes the above Pre-Construction coursework, with the required GPA, or is currently enrolled in their final Pre-Construction course(s), the student can apply to become a "Full Major".

## General Requirements

- Students are required to complete the following Pre-Construction Science Management coursework with grades of C or better and a overall GPA (for this set of courses) of 2.50 to be considered for the full major:

Code	Title	Hours
MATH 2328	Elementary Statistics	3
MATH 2417	Pre-Calculus Mathematics	4
PHYS 1315 & PHYS 1115	General Physics I and General Physics I Laboratory	4
Choose 4 hours from the following:		4
CHEM 1341 & CHEM 1141	General Chemistry I and General Chemistry Laboratory I	
CHEM 1335 & CHEM 1135	Engineering Chemistry and Engineering Chemistry Laboratory	
CSM 1260	Introduction to the Construction and Concrete Industry	2
CSM 2313	Architecture Design I - Construction Documents	3
CSM 2342	Construction Materials and Processes	3
<b>Total Hours</b>		<b>23</b>

- After completing the Pre-Construction coursework, students will be allowed to enter the major and to enroll in the following Construction courses:

Code	Title	Hours
CSM 2262	Construction Lab	2
CSM 2360	Residential I: Construction Practices	3
CSM 2361	Construction Surveying	3
CSM 3360	Structural Analysis	3
CSM 3361	Commercial Building Construction Systems	3
CSM 3363	Heavy, Civil and Highway Construction Systems	3
CSM 3366	Soils and Foundations	3
CSM 3367	Mechanical, Electrical and Plumbing Systems	3
CSM 4313	Architectural Design II - Technology in Construction	3
CSM 4360	Senior Construction Management Capstone	3
CSM 4361	Construction Estimating	3
CSM 4364	Construction Project Management and Scheduling	3
CSM 4368	Sustainable & Lean Construction Practices	3
CSM 4369	Construction Contracts, Risks, and Ethics	3

CSM 4380	Construction Safety	3
TECH 2190	Industrial Internship	1
TECH 2351	Statics and Strength of Materials	3
<b>Total Hours</b>		<b>48</b>

- The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
- Nine semester credit hours must be writing intensive (WI).
- If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
- A minor in Business Administration is required for this degree program. Courses for the minor in Business Administration are included in the following degree plan.
- No "D" grades received at other institutions will be credited towards the major.

<sup>1</sup> While ECO 2301 or ECO 2314 are strongly preferred, the department will allow other Social and Behavioral Sciences Component Code 080 courses to satisfy this requirement.

<sup>2</sup> While PHIL 1320 is strongly preferred, the department will allow PHIL 1305 to satisfy this requirement. Other Language, Philosophy, and Culture Component Code 040 courses will not satisfy this requirement.

<sup>3</sup> Credit earned successfully through testing of previously earned course credit for MGT 3303 may be substituted for MGT 3301.

## Minimum required: 120-121 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
4. Nine semester credit hours must be writing intensive (WI).
5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.

The minor in Engineering Technology requires 18 semester credit hours of Technology courses, of which 9 hours must be advanced. Courses will be determined by conference with a departmental faculty advisor or the Chair of the Department of Engineering Technology.

Math/Computer Science Building Room 470  
T: 512.245.2551 F: 512.245.3425

www.math.txst.edu

The study of mathematics spans over four millennia, brimming with an extensive tapestry of knowledge. Mathematics continues to be a dynamic

realm of inquiry, constantly giving rise to novel theories and intriguing questions. The wealth of accumulated wisdom and the puzzles being unraveled extend to many applications beyond pure mathematics, from business and finance to computation and engineering and science to social sciences.

Mathematics is a fundamental skill that permeates all facets of education and is indispensable to numerous professions. Our department's educational mission is to cultivate reasoning and computational skills, preparing our majors and minors for careers that demand a profound understanding of mathematics. We maintain a nationally recognized community of faculty and students in mathematics, mathematics education, and related disciplines.

## Centers for Excellence

Mathworks, a center for innovation in mathematics and math education, designs and hosts programs for elementary, middle, and high school students, researches and develops math curriculum, and provides professional development for prospective and practicing teachers. Mathworks received the 2001 Star Award for Closing the Gaps from the Texas Higher Education Coordinating Board and the 2007 Siemens Founders Award.

## Majors

The department offers a Bachelor of Science with a major in Mathematics, a Bachelor of Science with a major in Applied Mathematics, and a Bachelor of Arts with a major in Mathematics. Students majoring in Mathematics can obtain teacher certification in mathematics, grades 7-12, through a double major with a Bachelor of Science in Mathematics Education.

A student majoring in one of the programs offered by the Department of Mathematics who wishes to minor in a different program within the Department must take **18 hours** of math courses in addition to, and not duplicated by, those courses taken to satisfy the requirements of the Mathematics or Applied Mathematics Major programs. The 18 additional hours must be taken from the courses listed as electives for the desired minor.

## Bachelor of Arts (B.A.)

- Major in Mathematics (p. 769)

## Bachelor of Science (B.S.)

- Major in Applied Mathematics (p. 770)
- Major in Mathematics (p. 771)
- Major in Mathematics (Secondary Education; Teacher Certification in Mathematics, Grades Seven through Twelve, with Double Major in B.S. Education) (p. 773)

## Minors

- Applied Mathematics (p. 774)
- Mathematics (p. 775)
- Second Teaching Field in Mathematics (Grades 7-12) (p. 775)

## Courses in Mathematics (MATH)

### **MATH 1101. Math Education Intervention.**

Students benefit from innovative, research-based approaches for learning mathematics, and this course will deliver supplemental mathematical instruction as one such intervention. Students will be assessed using college readiness indicators or other information to determine individualized approaches. The course is designed for students in 1000 level mathematics courses who feel they would benefit from additional course based support. Prerequisite: Departmental Approval. Corequisite: MATH 1312 or MATH 1315 or MATH 1316 or MATH 1319.

**1 Credit Hour. 0 Lecture Contact Hours. 24 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Credit/No Credit

### **MATH 1300. Elementary Algebra.**

This course is designed to review and strengthen basic mathematical skills. Topics may include number concepts, computation, elementary algebra, geometry, and mathematical reasoning. The credit earned for this course does not count toward any degree offered at this university.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Developmental/ Remedial|Dif Tui- Science & Engineering

**Grade Mode:** Developmental

### **MATH 1311. Intermediate Algebra.**

This preparatory course for college algebra includes linear equations and inequalities, rational expressions, exponents and radicals, quadratics and word problems. This course is designed for students who've graduated from high school with no more than the minimum mathematics requirements or for students who've been away from mathematics for years. Prerequisites: TSI Assessment Test Score of 345 or more.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Developmental/ Remedial|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Developmental

### **MATH 1312. College Statistics and Algebra.**

Algebra (as used in elementary statistics) is studied, including linear and quadratic equations, inequalities, functions and their graphs, logarithms, systems of equations, and applications of mathematics. Emphasis is made on statistical concepts, such as least squares regression, distributions confidence intervals, & hypothesis testing. This course is not intended to substitute for MATH 1315 as a prerequisite. Prerequisite: College Readiness in Mathematics according to the TSI regulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

### **MATH 1315. College Algebra.**

Course topics include linear and quadratic equations, inequalities, functions, exponentials and logarithms, systems of equations using matrices, applications, and other college algebra topics as time permits. Prerequisite: College Readiness in Mathematics according to the TSI regulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1314

### **MATH 1316. Survey of Contemporary Mathematics.**

This course is a study of the uses of mathematics in society today. Emphasis is on concepts rather than technical details. Prerequisite: College Readiness in Mathematics according to TSI regulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1332

### **MATH 1317. Plane Trigonometry.**

This course covers right triangles, radian and degree measures, trigonometric functions and their graphs, trigonometric identities, including multiple and half-angle identities, inverse trigonometric functions, trigonometric equations, general triangles, and complex numbers. Prerequisite: [MATH 1315 with a grade of "C" or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1316

### **MATH 1319. Mathematics for Business and Economics I.**

Topics from college algebra and finite mathematics applied to business and economics are covered, including applications of equations and inequalities, simple and compound interest, and annuities. Prerequisite: College Readiness in Mathematics according to the TSI regulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1324

**MATH 1329. Mathematics for Business and Economics II.**

This course covers topics from finite mathematics and elementary differential calculus applied to business and economics. Prerequisite: [MATH 1315 or MATH 1319 with a grade of "C" or better] or [ACT Mathematics score of 27 or better] or [SAT Math Section score of 600 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1325

**MATH 2311. Principles of Mathematics I.**

This course is intended to build and reinforce a foundation in fundamental mathematics concepts and skills for teaching. It includes the conceptual development of the base ten numeration system, the structure and properties of the various number systems and operations, and number theory. All topics are explored with an emphasis on problem-solving and critical thinking. Prerequisite: MATH 1312 or MATH 1315 or MATH 1319 or MATH 2321 or MATH 2417 any with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1350

**MATH 2312. Informal Geometry.**

As a continuation of MATH 2311, this course builds and reinforces a foundation in fundamental mathematical concepts and skills. It includes the concepts of geometry, measurement, probability, and statistics with an emphasis on geometry and measurement as well as problem-solving and critical thinking. Prerequisite: MATH 2311 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1351

**MATH 2321. Calculus for Life Sciences I.**

This course studies exponential, logarithmic, and trigonometric functions and their applications, limits, derivatives, indefinite and definite integrals, and the Fundamental Theorem of Calculus. Applications from the life sciences receive particular emphasis. Prerequisite: [MATH 1315 or MATH 1319 or MATH 1329 or MATH 2417 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 2313

**MATH 2328. Elementary Statistics.**

This course is an algebra-based introduction to descriptive statistics, the interpretation of data, random sampling, design of experiments, probability, and the Central Limit Theorem. Inferential statistics topics include the foundational concepts for confidence intervals and hypothesis testing for simple experiments. Prerequisite: [MATH 1312 or MATH 1315 or MATH 1319 with a grade of "C" or better] or [MATH 1329 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "D" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Math Section score of 550 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 1342

**MATH 2331. Calculus for Life Science II.**

This course is an extension of MATH 2321 and includes techniques and applications of integration, differential equations, probability, and discrete and continuous distributions. Prerequisite: MATH 2321 with a grade of "C" or better or MATH 2471 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 2358. Discrete Mathematics I.**

This course is a study of discrete mathematical structures commonly encountered in computing hardware and software are studied. Topics include logic, functions, elementary set theory, proof techniques, mathematical induction, numeric sequences, elementary number theory, and graph theory. Prerequisite: [MATH 1315 or MATH 1329 with a grade of "C" or better] or [MATH 2417 or MATH 2471 with a grade of "D" or better].

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 2305

**MATH 2393. Calculus III.**

The course topics include vectors and the geometry of space, functions of several variables, vector-valued functions, partial derivatives, extreme values, multiple integrals, vector fields, line and surface integrals, Green's Theorem, Stokes' Theorem, the Divergence Theorem, and applications of the preceding in the sciences. Prerequisite: MATH 2472 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** MATH 2315

**MATH 2417. Pre-Calculus Mathematics.**

This course is a survey of functions, trigonometry, and analytic geometry. Students' algebraic skills are reinforced throughout the course.

Prerequisites: [MATH 1315 or MATH 1319 with a grade of C or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Math Section score of 550 or better] or [Accuplacer College Mathematics score of 86 or better] or [Compass College Algebra score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test of 263 or better].

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** MATH 2412

**MATH 2471. Calculus I.**

This first course in differential and integral calculus covers limits and continuity, functions and graphing, derivatives, integrals, and applications of calculus to science, engineering, and other technical fields. Prerequisites: [MATH 2417 with a grade of C or better] or [ACT Mathematics score of 27 or better] or [SAT Math Section score of 600 or better] or [Accuplacer College Mathematics score of 103 or better] or [Compass Trigonometry score of 46 or better] or [Next-Generation Advanced Algebra and Functions Test score of 276 or better].

**4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Mathematics Core 020|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** MATH 2413

**MATH 2472. Calculus II.**

This course continues the study of differential and integral calculus from MATH 2471. The topics include techniques of integration, improper integrals, parametric equations and polar coordinates, applications of calculus, sequences and series, and an introduction to partial derivatives. (MULP) Prerequisite: MATH 2471 with a grade of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Component Area Core 090|Mathematics CAO 092|Dif Tui- Science & Engineering|Lab Required|Multicultural Perspective

**Grade Mode:** Standard Letter

**TCCN:** MATH 2414

**MATH 2473. Integral Calculus with Multivariables and Series.**

This course is a continuation of differential and integral calculus. Select topics from Calculus II and Calculus III are covered including methods of integration, sequences and series, and introduction to partial derivatives. Prerequisite: MATH 2471 with a grade of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Component Area Core 090|Mathematics CAO 092|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3305. Introduction to Probability and Statistics.**

This is a calculus-based probability and statistics course. Topics include probability, conditional probability, discrete and continuous random variables, univariate and multivariate distributions of random variables, mathematical expectations, and moment-generating functions. Prerequisite: MATH 2472 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3306. Introduction to Statistical Methods.**

This is a calculus-based statistics course covering such topics as essential descriptive statistics, probability, discrete and continuous probability distributions, sampling distributions, concepts of estimation and hypothesis testing, confidence intervals, hypothesis tests based on one or more samples, and simple linear regression. Prerequisite: MATH 2472 with a grade of "C" or better and a 2.75 overall GPA.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3315. Foundations of Geometry.**

In this course students seeking teacher certification will study Euclidean Geometry and will be introduced to non-Euclidean Geometries. Dynamic geometry software and historical aspects of geometry will be integrated into the course. This course may not be applied to a minor in mathematics. Prerequisite: MATH 2321 or MATH 2471 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3323. Differential Equations.**

In this course various methods of solving common types of ordinary differential equations are studied. Students learn the conditions under which solutions to first-order and second-order ordinary differential equations exist and are unique. Applications to science, engineering, and technology receive emphasis throughout the course. Prerequisite: MATH 2472 or MATH 2473 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3324. Applied Multivariate Statistics.**

This course is an introduction to applied multivariate statistical methods including multiple regression, analysis of variance, logistic regression, and time series. In addition, this course introduces the student to the use of statistical software including the proper application, limitations, and interpretations of results. Prerequisite: [MATH 2471 or MATH 2321] and [MATH 2328 or MATH 3305] both with a "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3325. Number Systems.**

In this course, students construct the natural numbers algebraically, establishing the basic vocabulary and proof techniques of abstract algebra and the structural properties of the natural, integral, rational, real, and complex number systems. Corequisite: MATH 2471 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3330. Introduction to Advanced Mathematics.**

This course introduces fundamental methods of proof and the core language of modern mathematics. Topics include the theory of sets, logic, relations, functions, the cardinality of sets, and related subjects. Prerequisite: MATH 2471 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3348. Deterministic Operations Research.**

This course provides a broad overview of deterministic operations research techniques. Linear programming, including the simplex method, duality, and sensitivity analysis, will be covered. Further selected topics are integer programming, dynamic programming, scheduling models, game theory, and associated topics. Prerequisite: MATH 2472 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3376. Applied Linear Algebra.**

This course covers linear algebra and matrix theory while considering their computational aspects. Topics include a variety of methods for solving systems and related properties. Emphasis is placed on topics useful in civil engineering, applied mathematics, and other disciplines, serving as a preparatory course for the finite element method. Prerequisite: MATH 2472 or MATH 2473 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3377. Linear Algebra.**

An introductory course in linear algebra covering systems of linear equations, vector spaces, linear transformations, matrices, and additional topics as time permits. Mathematical proofs are an essential part of this course. Prerequisite: MATH 2472 with a grade of "C" or higher.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3380. Analysis I.**

This is a course covering the introduction to the theory of real functions. Topics include limits, continuity, derivatives, and associated topics. Prerequisite: MATH 3330 and MATH 2472 both with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3383. Numerical Analysis I.**

This course focuses on basic numerical methods in mathematics to solve functional problems in fields such as engineering and applied sciences.

This course covers instructions in computer arithmetic, solutions of equations, interpolation, numerical differentiation/integration, and applications to scientific and industrial applications. Prerequisite: MATH 2472 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 3398. Discrete Mathematics II.**

This course continues the studies in Discrete Math I, topics include combinatorics, countability and counting arguments, discrete probability, relations, recursion and recurrence, generating functions, algorithms, and growth of functions. Prerequisite: MATH 2358 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4302. Principles of Mathematics II.**

Algebraic reasoning and probability with selected topics from quantitative reasoning, measurement, statistics, and geometry are integrated with middle school pedagogical practices such as inquiry-based learning and the use of technology. Appropriate correlated lessons, writing components, and culturally responsive teaching are incorporated. (WI) Prerequisite: MATH 2312 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**MATH 4303. Capstone Mathematics for Middle School Teachers.**

A rigorous, integrated, analytical perspective of mathematical topics; quantitative reasoning, geometry and measurement, probability and statistics, number theory, and algebraic reasoning. This course may not be applied to a mathematics minor. Must be taken before student teaching. Prerequisite: [MATH 2331 or MATH 2472] and MATH 3315 with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4304. Capstone Mathematics for Secondary Teachers (of Mathematics).**

Basic concepts underlying algebra, geometry, trigonometry, and calculus are taught from an advanced standpoint, including historical, philosophical, and cultural significance. This course may not be applied to a minor in mathematics. Must be taken before student teaching. Prerequisite: MATH 3315 and [MATH 2331 or MATH 2472] with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4305. Advanced Probability and Statistics.**

This mathematical statistics course focuses on statistical inferences and data analysis. Topics include functions of random variables and their distributions, the Central Limit Theorem, point estimators and their properties, concepts and applications of interval estimation of population parameters, and the theory and applications of statistical tests of hypotheses. Prerequisite: MATH 3305 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4306. Fourier Series and Boundary Value Problems.**

Advanced solution methods for ordinary differential equations and partial differential equations are studied, focusing on series approximations and Fourier series solutions. Applications of boundary value problems typical of scientific applications are studied. Prerequisite: MATH 3323 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4307. Modern Algebra.**

This course covers structures, structure-preserving functions, and other fundamental concepts of modern algebra, emphasizing group theory. Prerequisite: MATH 3330 and [MATH 3325 or MATH 3377] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4311. Introduction to the History of Mathematics.**

This course is a survey of the development of major mathematical topics, including geometry, algebra, calculus, and advanced mathematics. Philosophical and cultural aspects will be integrated with the structure, theorems, and applications of mathematics. (WI) Prerequisite: MATH 3315 and [MATH 2331 or MATH 2472] both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**MATH 4315. Analysis II.**

A continuation of MATH 3380, this course's topics include differentiation, integration, series, and sequences of functions, and associated topics.

Prerequisite: MATH 3380 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4327. Introduction to Complex Analysis and Its Applications.**

This course introduces topics in the theory of functions of a complex variable (contour integrals, series, residues of analytic functions, and conformal mappings) with engineering and science applications.

These include solving boundary value problems, locating zeros of analytic functions, analyzing two-dimensional heat and fluid flows, and calculating inverse Laplace transforms. Prerequisite: [MATH 2393 or MATH 2473] and MATH 3323 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4330. General Topology.**

In this course, students study the concepts of convergence, continuity, compactness, connectedness, and fixed points in topological spaces, particularly in metric spaces. Prerequisite: MATH 3330 and MATH 2472 both with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4336. Studies in Applied Mathematics.**

This course covers selected topics including Laplace transforms, complex variables, advanced calculus for applications, calculus of variations, integral and differential equations, vector analysis, and other topics from applied mathematics. It may be repeated once for credit with a different topic. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4337A. Topological Data Analysis.**

This research-based course introduces students to computational topology and topological data analysis. In addition to studying existing data studies from the recent scientific literature, students will also analyze a data set they have personally chosen. Students will present their progress and results both orally and in writing. Prerequisite: MATH 3377.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**MATH 4337B. Research in Discrete Mathematics.**

This course is an introduction to creative mathematical activities. It provides an opportunity to perform research in discrete mathematics, as well as to learn how to present mathematical results both orally and in writing. These skills are essential for those students continuing into graduate studies. Prerequisite: Texas State GPA 3.25; MATH 2358. Corequisite: MATH 3398.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**MATH 4337C. Numerical Methods for Ordinary Differential Equations.**

This research-based course has students investigate known methods of numerically solving ordinary differential equations (Runge-Kutte, Adams, Predictor-Corrector, etc.). Students will research the effect of variations on these methods by implementing their algorithm modifications in mathematical software and reporting on their results. Prerequisite: MATH 2472 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics|Writing Intensive

**Grade Mode:** Standard Letter

**MATH 4337D. Topics in Topology and Algebra.**

This course introduces students to modern research methods in topology and algebra. Specific topics will vary based on student interest and input, but the basic concepts and methods of algebraic topology (homology and cohomology groups, homotopy groups), homotopy theory, and simplicial methods form the backbone of this course. Prerequisite: MATH 3330 with a grade of "C" or better and a minimum 2.0 Texas State GPA.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**MATH 4337H. Undergraduate Research in Topology and Artificial Neural Networks.**

The course will introduce the mathematics behind Artificial Neural Networks (ANN) with an eye towards applying topology to study ANN's. Topics include general machine learning concepts, feedforward neural networks, the gradient descent algorithm, the universal approximation theorem, convolutional neural networks, topology, and VC dimension. Students will customize a basic artificial neural network written in Python through hands-on projects. Prerequisite: MATH 2471 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**MATH 4350. Introduction to Combinatorics.**

This course presents fundamental combinatorial concepts, including standard techniques and methods of proof specific to the field. Topics include advanced counting, generating functions, linear and nonlinear recurrence relations, combinatorial designs. Applications of the topics will be explored as time permits. Prerequisite: MATH 2472 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4383. Numerical Analysis II.**

This course focuses on various mathematical and computational methods in modeling, analyzing, and simulating scientific and engineering problems. Topics include approximation, optimization, differential equations, scientific computation, and scientific and industrial applications. Prerequisite: MATH 3383 and MATH 3323 both with a grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**MATH 4393. Introduction to Finite Element Methods.**

This course introduces weak formulations of the partial differential equations and the finite element approximation of this weak form. Theory and computations are balanced. Topics include finite element methods for approximating solutions of partial differential equations and related properties. Emphasis topics are in civil engineering, applied mathematics, and related disciplines. Prerequisite: [MATH 3376 or MATH 3377] and MATH 3323 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

## Minimum required: 120 semester credit hours

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature, three hours of mathematics, science, logic, or computer science courses, a minor and six hours of 2000-level modern language courses. Most students will have to complete the 1410 and 1420 language courses as prerequisites before attempting the 2310 course.
3. Nine hours of writing intensive (WI) courses are required for graduation.
4. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>).

- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- The minimum number of hours required for this degree program is 120. The number of free elective hours a student will complete depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours.
- Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

## Minimum required: 120 semester credit hours

### Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. This degree program is designed to prepare students for secondary teacher certification in Mathematics and requires that students pursue a double major by declaring and completing requirements for both the major in Mathematics and the major in Education. The following courses are required for the major in Education:

Code	Title	Hours
Education Foundation		
CI 2310	Education for Change	3
CI 3325	Adolescents and Society	3
CI 4332	Secondary Teaching: Curriculum and Technology	3
Teaching and Learning		
CI 3340	Teaching for Linguistic Diversity	3
CI 4343	Instructional Strategies for the Secondary Teacher	3
CI 4370	Building Relationships in the Secondary Classroom	3
CI 4372	Teaching in Communities	3
RDG 3323	Teaching Literacies in the Content Areas	3
SPED 4344	Educating Students with Mild Disabilities	3
Clinical Practice		
EDST 4681	Clinical Teaching 7-12	6
<b>Total Hours</b>		<b>33</b>

3. To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
5. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.
6. Nine credit hours must be writing intensive (WI).
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
8. All students seeking teacher certification must apply for and be admitted to the Educator Preparation Program in order to enroll in education coursework and student teaching in the Junior and Senior

years. Refer to the requirements for Admittance to the Educator Preparation Program through the Office of Educator Preparation (p. 263).

9. The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

10. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Science degree with a major in Education at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

Code	Title	Hours
CI 2310	Education for Change (CI ELNA)	3

For students who are seeking a teacher certification within their major and would like a second teaching field in Mathematics, the requirements are:

Code	Title	Hours
MATH 2471	Calculus I	4
MATH 2472	Calculus II	4
MATH 3306	Introduction to Statistical Methods	3
MATH 3315	Foundations of Geometry	3
MATH 3330	Introduction to Advanced Mathematics	3
MATH 3377	Linear Algebra	3
MATH 3380	Analysis I	3
MATH 4304	Capstone Mathematics for Secondary Teachers (of Mathematics)	3
MATH 4307	Modern Algebra	3
<b>Total Hours</b>		<b>29</b>

All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: [https://tea.texas.gov/Texas\\_Educators/Investigations/Preliminary\\_Criminal\\_History\\_Evaluation-FAQs/](https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/).

Roy F. Mitte Building Room 3240  
T: 512.245.2131 F: 512.245.8233  
[www.txstate.edu/physics/](http://www.txstate.edu/physics/) (<http://www.txstate.edu/physics/>)

Physics, the study of matter and energy, is at the root of every field of natural science and underlies all physical phenomena. The problem-solving skills learned in the study of physics are valuable even if one's career is not in a physics-related field.

The B.S. with a major in Physics provides a rigorous background in physics as a preparation for graduate studies or a career in industry. The B.A. with a major in Physics is for students who want a background in physics but plan to pursue fields of interest other than physics as a life's work. The B.S. with a major in Physics (Astronomy Concentration) provides a rigorous background in physics as well as an overview of modern astronomy as a preparation for work at astronomical observatories or graduate study in astronomy.

Career opportunities for a physics major exist in a wide variety of settings, from teaching in a classroom to basic research in an industrial or government laboratory, as a self-employed consultant, or as a member of a multidisciplinary research team.

Students who enter Texas State needing mathematics at a level below MATH 2417 are urged to attend a summer session to avoid any delay in starting their physics courses.

For more information contact the College of Science and Engineering Advising Center or the departmental advisor for the Department of Physics. For information on engineering technology, mechanical engineering, electrical engineering, civil engineering, industrial engineering, and manufacturing engineering, see the Ingram School of Engineering or The Department of Engineering Technology sections of this catalog.

Students may not both major and minor in programs offered by The Department of Physics except for those students who are double

majoring in physics and education who have the opportunity to minor in advanced physics.

## Teacher Certification

Physics teacher preparation is one of the specialties of the Department of Physics. Through various peer teaching opportunities in the department, students may discover at any point during their undergraduate career that they have an interest in teaching physics at the secondary level (grades 7-12). There are multiple pathways for becoming a physics teacher, and which one is best for a particular student depends partly on the stage of degree progress at which the student identifies their interest. For those who identify a teaching interest early on, the recommended pathway is to pursue a B.S. Major in Physics (Secondary Education; Teacher Certification in Physics/Mathematics, Grades Seven Through Twelve, with Double Major in B.S. Education). This double major is required for any physics student wishing to graduate with a bachelor's degree and physics teacher certification. Students may choose to add a minor in Advanced Physics if they want to study all of the standard undergraduate physics curriculum that is offered in the regular B.S. Major in Physics. Students who are not pursuing Teacher Certification may not pursue the minor in Advanced Physics. Some students choose to pursue teacher certification after graduation. In any case, the department provides customized, one-on-one advising to each future physics teacher. Students should contact the department's Faculty Undergraduate Advisor as early as possible if they are interested in pursuing physics teaching.

## Bachelor of Arts (B.A.)

- Major in Physics (p. 781)

## Bachelor of Science (B.S.)

- Major in Physics (p. 782)
- Major in Physics (Astronomy Concentration) (<http://mycatalog.txstate.edu/undergraduate/science-engineering/physics/physics-astronomy-bs/>)
- Major in Physics (Secondary Education; Teacher Certification in Physics/Mathematics, Grades Seven through Twelve, with Double Major in B.S. Education) (p. 783)

## Minors

- Advanced Physics (<http://mycatalog.txstate.edu/undergraduate/science-engineering/physics/advanced-physics-minor/>)
- Physics

## Courses in Physics (PHYS)

### PHYS 1115. General Physics I Laboratory.

First of two laboratory courses in General Physics for science-related majors. The course introduces students to the basics of measurement. Topics cover mechanics and heat. Corequisite: PHYS 1315 or PHYS 1335 either with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1101

### PHYS 1125. General Physics II Laboratory.

This is the second of two laboratory courses in general Physics. The course introduces the students to experimental measurements and demonstration of principles of electricity, magnetism, optics, modern physics, electromagnetic waves. Corequisite: PHYS 1325 or PHYS 1345 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 2 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1102

### PHYS 1310. Elementary Physics I.

This course is a non-mathematical survey of mechanics, properties of matter, heat, and sound. These topics are described conceptually with applications relating to the world around us. PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1305

### PHYS 1315. General Physics I.

This is the first course in a two semester sequence which is a survey of the basic laws and principles of physics and includes the topics of mechanics and heat. The course is designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisite: [MATH 1315 or MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Mathematics score of 520 or better] or [SAT Math section score of 550 or better] or [Next-Generation Advanced Algebra and Functions Test score of 263 or better]. Corequisite: PHYS 1115 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Co-requisite(s):** PHYS 1115

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1301

### PHYS 1320. Elementary Physics II.

This course is a non-mathematical survey of electricity, magnetism, light, relativity, and atomic and nuclear physics. These topics are described conceptually with applications relating to the world around us. PHYS 1310 and PHYS 1320 are designed for the liberal arts student. The order in which they are taken is not important. They are not recommended for pre-engineering students or majors and minors in science.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering|Lab Required

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1307

**PHYS 1325. General Physics II.**

This is the second course in a two semester sequence which is a survey of the basic laws and principles of physics and includes the topics of waves, light, electricity and magnetism. This course is designed for students whose program requires technical physics, but who are not pre-engineering students or majors or minors in physics. Prerequisites: PHYS 1315 or PHYS 1335 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Co-requisite(s):** PHYS 1125

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1302

**PHYS 1335. General Physics I for Life Sciences Majors.**

This is the first course in a two-semester sequence which surveys the fundamental principles of physics. This focus of this first course is on the topics of mechanics, fluids, and heat. The course is designed for biology, pre-health, and life-science majors whose program requires technical physics. Credit for both PHYS 1335 and PHYS 1315 cannot be given.

Prerequisite: [MATH 1315 or MATH 1317 or MATH 2321 or MATH 2417 or MATH 2471 with a grade of "C" or better] or [ACT Mathematics score of 24 or better] or [New ACT Mathematics score of 25 or better] or [SAT Mathematics score of 520 or better] or [SAT Math section score of 550 or better] or [AAF score of 263 - 300]. Corequisite: PHYS 1115 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 1340. Astronomy: Solar System.**

A study of the solar system. Topics included are a study of the sun, the planets and their satellites, the comets, and other components of the solar system. Some aspects of telescopes and ancient astronomy will be included also.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** ASTR 1304

**PHYS 1345. General Physics II for Life Science Majors.**

This is the second course in a two-semester sequence which surveys the fundamental principles of physics. The focus of this second course is on the topics of oscillations, light, and electrical phenomena. This course is designed for biology, pre-health, and life-science majors whose program requires technical physics. Prerequisite: PHYS 1315 or PHYS 1335 with a grade of "C" or better. Corequisite: PHYS 1125 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 1350. Astronomy: Stars and Galaxies.**

A study of the universe beyond the solar system. Topics included are a study of the stars and star clusters, nebulae, galaxies, and an introduction to some aspects of cosmology.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** ASTR 1303

**PHYS 1365. Physics for Educators.**

This studio-style course introduces physics concepts through active exploration and discussion of physical phenomena. Course content includes developing concepts of force and motion, light, sound, waves, electricity, magnetism, energy, and conservation laws. Focus is on how physics helps make sense of everyday experience, and on the learning and teaching of children in grades K-8.

**3 Credit Hours. 4 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**TCCN:** PHYS 1310

**PHYS 2125. Mechanics Laboratory.**

This course introduces students to experimental methods in the study of motion, forces, energy, momentum, and other topics in mechanics. This laboratory course is designed to accompany PHYS 2325. Corequisite: PHYS 2325 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2126. Electricity and Magnetism Laboratory.**

This course introduces students to experimental methods in the study of electric charges and fields, electric circuits, magnetic materials, and electromagnetic induction. This laboratory course is designed to accompany PHYS 2326. Corequisite: PHYS 2326 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2135. Waves and Heat Laboratory.**

This course introduces students to experimental methods in the study of geometrical and physical optics and of thermodynamics. This laboratory course is designed to accompany PHYS 2335. Corequisite: PHYS 2335 with a grade of "D" or better.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2150. Professional Development for Beginning Physicists.**

This course introduces to physics majors career options and opportunities for internships, scholarships, and research internal and external to the university. The course also develops essential practical skills for job seekers. Prerequisite: PHYS 2326 and PHYS 2126 and PHYS 2335 and PHYS 2135 all with grades of "D" or better.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2230. Introduction to Computational Modeling for Physics.**

This course is an introduction to computational concepts and tools that physicists use for data analysis, simulation and modeling, and visualization in research and dissemination. Python and its various libraries are emphasized. Prerequisite: PHYS 2325 and PHYS 2125 with grades of "C" or better. Corequisite: [PHYS 2326 and PHYS 2126] or [PHYS 2335 and PHYS 2135] with grades of "C" or better.

**2 Credit Hours. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2325. Mechanics.**

This course covers the principles of introductory classical mechanics through problem-solving and research-validated interactive instruction. Corequisite: MATH 2471 with a grade of "C" or better and PHYS 2125 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2326. Electricity and Magnetism.**

This course covers the principles of classical electricity and magnetism through problem-solving and research-validated interactive instruction. Prerequisite: PHYS 2325 and [MATH 2472 or MATH 2473] with grades of "C" or better. Corequisite: PHYS 2126 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Life & Phys Sciences Core 030|Life & Phys Sciences CAO 093|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 2335. Waves and Heat.**

This course covers the principles of thermodynamics, geometric optics, and physical optics through problem solving and research-validated interactive instruction. Prerequisite: MATH 2471 and PHYS 2325 with grades of "C" or better. Corequisite: [MATH 2472 or MATH 2473] with a grade of "C" or better and PHYS 2135 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3210. Physics Cognition and Pedagogy.**

This course is an introduction to physics-specific pedagogy and the methods and results of physics education research (PER). Students will investigate relevant literature in PER and cognitive science, engage in discussions about physics teaching and learning, and reflect on their own teaching practice in the role of Physics Learning Assistants. (WI).

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**PHYS 3301. Musical Acoustics.**

A survey of the physics of sound and acoustic measurement. Special emphasis will be placed on sound production, propagation, and perception as applied to music.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3311. Classical Mechanics.**

This course discusses the fundamentals of classical mechanics focusing on the physical description of the behavior of single and multiple particle systems. Topics include advanced problem-solving strategies for systems with position and velocity dependent forces, simple harmonic oscillators, and non-inertial reference frames. Prerequisite: PHYS 2335 and PHYS 2135 with grades of "C" or better. Corequisite: PHYS 3320 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3312. Modern Physics.**

This course is an introduction to the foundations of modern physics, including the following topics: relativistic mechanics, foundational experiments in the development of quantum mechanics, light and energy, wave nature of particles, and nuclear physics. Prerequisite: PHYS 2335 and PHYS 2135 with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3313. Astrophysics.**

This course surveys a variety of issues in astrophysics through problem solving, quantitative measurements, and theoretical reasoning. Topics include celestial mechanics, stellar dynamics and evolution, galaxy evolution, and cosmology. Corequisite: PHYS 3312 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3315. Thermodynamics.**

This course is a fundamental study of thermodynamics and statistical mechanics. Prerequisite: MATH 3323 and [(PHYS 2335 and PHYS 2135) or (ENGR 2300 and PHYS 2326 and PHYS 2126)] all with grades of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3318. Galactic and Extragalactic Astrophysics.**

A survey of the physical properties, dynamics, and distribution of galaxies. Topics include the contents, origin, and evolution of the Milky Way and other galaxies; the large-scale distribution of galaxies in groups, clusters and superclusters; interactions between galaxies; dark matter; active galaxies and supermassive black holes; high redshift Universe.

Prerequisite: PHYS 3313 with a grade of "D" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3320. Introduction to Mathematical Physics.**

This course is an introduction to the mathematical methods of theoretical physics with emphasis on development of mathematical tools used in upper division core physics courses. Students will also develop their ability to communicate mathematical ideas in the context of physics.

Prerequisite: MATH 2393 and PHYS 2326 and PHYS 2126 all with grades of "C" or better. Corequisite: MATH 3323 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 3411. Advanced Physics Laboratory.**

This course is an introduction to experimental modern physics, with emphasis on the design and assembly of physics apparatus and the development of practical skills for controlling and automating data collection. (WI) Prerequisites: PHYS 2326 and PHYS 2126 with grades of "C" or better. Corequisites: PHYS 2335 and PHYS 2135 with grades of "C" or better.

**4 Credit Hours. 2 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Lab Required|Writing Intensive

**Grade Mode:** Standard Letter

**PHYS 3416. Applied Electronics.**

This Laboratory/lecture course is an introduction to electronic test bench methods for the construction, operation and analysis of important DC/AC circuits utilizing resistors, capacitors, diodes, BJTs, FETs, and OpAmps. The behavior of the circuits will be modeled in SPICE. Elementary semiconductor device physics and microfabrication methods will be discussed. (WI) Prerequisites: PHYS 2326 and PHYS 2126 and PHYS 2335 and PHYS 2135 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 4 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**PHYS 3417. Optics.**

This course is a one-semester survey of geometrical and physical optics accompanied by laboratory experience. Topics covered include electromagnetic waves and their propagation, geometrical optics, polarization, interference, diffraction, Fourier optics, and holography. (WI) Prerequisites: PHYS 2326 and PHYS 2126 and PHYS 2335 and PHYS 2135 all with grades of "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**PHYS 3418. Methods in Observational Astrophysics.**

This course is an introduction to methods and instrumentation used in observational astrophysics. Topics include image processing, data acquisition and analysis, and detectors for data across the electromagnetic spectrum. Prerequisite: PHYS 2326 and PHYS 2126 and PHYS 2335 and PHYS 2135 all with grades "C" or better.

**4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

**PHYS 4121. Undergraduate Research.**

This course represents a student's research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Prerequisite: Instructor approval.

**1 Credit Hour. 0 Lecture Contact Hours. 3 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4221. Undergraduate Research.**

This course represents a student's research project in physics to be carried out under the supervision of a faculty member. The student must contact a faculty member in advance to arrange the topic and specific course objectives. This course may be repeated for credit. Prerequisite: Instructor approval.

**2 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4305. Statistical Physics.**

Statistical physics is the study of energy flow and energy distributions within systems in equilibrium. Students will explore a range of phenomena including black-body radiation, diffusion, phase transitions, and magnetism. Emphasis will be placed on topics of entropy, probability, free energy, Boltzmann distributions, and the atomic behavior of these systems. Prerequisite: MATH 3323 and PHYS 3312 and PHYS 3320 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4310. Electromagnetic Field Theory I.**

An introduction to the electromagnetic field theory of classical physics for static fields. Topics included will be the electrostatic field, polarization and dielectrics, electrostatic energy, magnetic field of steady currents, magneto static energy, and magnetic properties of matter. Prerequisite: [MATH 2393 or MATH 3373] and MATH 3323 and PHYS 3320 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4311. Condensed Matter Physics.**

Application of physics principles to solid materials. Topics include crystal structure and the reciprocal lattice, including x-ray diffraction, crystal binding and elastic properties, lattice vibrations, energy bands, semiconductors and metals. Prerequisite: PHYS 3312 and PHYS 3320 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4312. Quantum Mechanics I.**

This course introduces students to quantum mechanics. Topics include mathematical foundations, fundamental postulates, time development, and one dimensional problems. Prerequisite: PHYS 3312 PHYS 3320 both with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4315. Electromagnetic Field Theory II.**

An introduction to the electromagnetic field theory of classical physics for time varying fields. Topics included will be electromagnetic induction, time varying electric and magnetic fields, Maxwell's equations, electromagnetic energy, electromagnetic waves and radiation, and a brief introduction to some specialized topics. Prerequisite: PHYS 4310 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4320. Selected Study in Physics.**

Topics are chosen in theoretical and experimental areas of current interest in physics with specific topic to be discussed agreed upon prior to registration. May be repeated once with different emphasis and professor for additional credit. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4321. Undergraduate Research.**

A research project in physics to be carried out under the supervision of a faculty member by upper division physics majors. Student must contact a faculty member in advance to arrange topic and specific course objective. Course may be repeated only as an elective towards the BS or BA in physics. Prerequisite: Instructor approval.

**3 Credit Hours. 0 Lecture Contact Hours. 9 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4330. Relativity.**

This course includes a review of special relativity, an introduction to the mathematics of tensor calculus and differential geometry, and covers such topics from general relativity as the Schwarzschild solution, black holes, tests of general relativity, cosmological models, gravitational waves, and the Einstein equation. Prerequisite: PHYS 3312 and PHYS 3320 with a grade of "C" or better. Corequisite: PHYS 3311 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4345. Biophysics.**

This course applies the principles of physics to the study of living organisms. An emphasis will be placed on the topics of structure, fluids, diffusion, entropy, probabilities, and stochastic processes, as well as on scientific modes of thinking, including modeling, estimation, and data analysis. Prerequisite: PHYS 3320 and PHYS 2230 and PHYS 2335 and PHYS 2135 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering

**Grade Mode:** Standard Letter

**PHYS 4350F. Astronomical Spectroscopy.**

A lecture course introducing students to spectroscopy in astronomy, with particular emphasis on molecular spectroscopy. The course will cover a broad range of aspects including the development of spectroscopy in astronomy, the theory of atomic and molecular spectra, spectra in different astrophysical environments, instrumentation and data reduction.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**PHYS 4350G. Nuclear and Particle Physics.**

This course covers the theoretical, phenomenological, and experimental foundations of nuclear and particle physics including the fundamental forces, particles, and composites. An emphasis will be on the fundamental structure of nucleus (nuclear masses and nuclear sizes), nuclear interactions (alpha, beta, and gamma radiation), Fission, Fusion, beyond nuclear physics (quarks and leptons as basic constituents of matter), brief introduction to the Standard model: electroweak interactions, Higgs boson, QCD and basic nuclear Astrophysics (nucleosynthesis of stellar particles). Prerequisite: PHYS 2326 and PHYS 2126 and PHYS 3312 all with grades of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Dif Tui- Science & Engineering|Topics

**Grade Mode:** Standard Letter

**PHYS 4350H. Optical Materials and Characterization Methods.**

This course is an introduction to optical properties of solids including electronic and vibrational transitions in inorganic and organic thin films and multilayers. Various optical characterization methods and techniques will be reviewed including Raman, FTIR, Photoluminescence, and X-ray Fluorescence spectroscopy. Students will learn to work with those characterization methods and learn how to interpret the various spectra.

**3 Credit Hours. 3 Lecture Contact Hours. 1 Lab Contact Hour.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**PHYS 4360. Physics Cognition and Pedagogy II.**

This course addresses historical, philosophical, and cognitive perspectives on the learning, teaching, and discovery of physics, including results from contemporary research on learning. It is recommended for students pursuing teacher certification. Prerequisite: PHYS 3210 with a grade of "C" or better.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Dif Tui- Science & Engineering|Writing Intensive

**Grade Mode:** Standard Letter

Minimum required: 120 semester credit hours

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition to the general education core curriculum requirements, the Bachelor of Arts degree (p. 60) (B.A.) requires three additional hours of English literature; three hours of mathematics, science, logic, or computer science courses; a minor; and six hours of 2000-level modern language courses. Most students will have to complete the 1410 and 1420 language courses as prerequisites before attempting the 2310 course.
3. Nine hours of writing intensive (WI) courses are required for graduation.

4. Students must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). Students should consult the department advisor or the College of Science and Engineering Advising Center before choosing a minor.
5. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
6. The minimum number of hours required for this degree program is 120. The number of free elective hours a student completes depends on the number of hours a student may need to achieve the required 120 total or 36 advanced hours. Students should consult the department advisor or the College of Science and Engineering Advising Center before choosing the electives.
7. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.

## Minimum Required: 120 semester credit hours

### Admission Requirement

1. All students pursuing teacher certification must apply and be accepted to the Office of Educator Preparation (p. 263).

### General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (p. 58) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. In addition, to the general education core curriculum requirements, students must also complete 33 hours in a double major with the Bachelor of Science (B.S.) in Education in the College of Education. All coursework must be completed prior to enrolling in EDST 4681.

Code	Title	Hours

Total Hours		33	First Hours Semester	Second Hours Semester	Summer Hours	
3. To satisfy graduation requirements for teacher certification, students must have an Overall GPA of at least 2.75, as well as grades of "C" or better in all courses within the Major(s), Teaching Field(s), Certification area(s), and/or in the Education Minor.			PHYS 1340 or 1350	3 MATH 2472 (Component Area Option Code 090/092 [TCCN MATH 2414])	4 American History Component Code 060	3
4. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).						
5. Nine credit hours must be writing intensive (WI).						
6. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course. Students may be required to earn an additional elective to reach the 120 minimum total credit hour requirement for the awarding of a degree.			MATH 2471 (Mathematic Component Code 020 [TCCN 2413])	4 PHYS 2325 & PHYS 212 (Life and Physical Sciences Component Code 030 [TCCN PHYS 2325 and 2125])	4 POSI 2310 (Governmen Political Science Component Code 070 [TCCN GOVT 2306])	3
7. If two years of the same foreign language were taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.						
8. All students seeking teacher certification must apply for and be admitted to the Educator Preparation Program in order to enroll in education coursework and student teaching in the Junior and Senior years. Refer to the requirements for Admittance to the Educator Preparation Program through the Office of Educator Preparation (p. 263).			US 1100	1 MATH 3315	3 POSI 2320 (Government/ Political Science Component Code 070 [TCCN GOVT 2305])	3
9. <u>The Texas Education Agency (TEA) requires multiple background checks for progression through the Educator Preparation Program. Based on information recorded in your criminal history, you may be ineligible for issuance of a teaching certificate upon completion of the Educator Preparation Program. If you have a criminal history, you may obtain a Preliminary Criminal History Evaluation from TEA. For more information, go to: <a href="https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/">https://tea.texas.gov/Texas_Educators/Investigations/Preliminary_Criminal_History_Evaluation-FAQs/</a>.</u>						
10. For transfer students, 6 semester credit hours in Curriculum and Instruction and Special Education may be transferred from a Texas public institution of higher education for the Associate of Arts in Teaching Field of Study and be applied to the Bachelor of Science degree with a major in Education at Texas State University. More information about the Field of Study ( <a href="http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/">http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/</a> ) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

University Seminar (US 1100 (<http://mycatalog.txstate.edu/search/?P=US%201100>)) helps first-year students transition successfully to Texas State University by connecting new students to the campus and its resources, developing skills that support academic success, encouraging involvement in the university community, and exploring career opportunities. The course is designed to be taken during a student's first semester at Texas State, and its small class setting allows students to get to know each other as well as their faculty member.

The course is taught by a diverse group of professors, staff members, and administrators from departments across the university. All have at least a master's degree and lend their unique and varied perspectives to enrich each classroom. Distinct sections of the course may serve students with common interests. These are labeled in the Schedule of Classes.

Subjects in this department include: US

## Course in University Seminar (US)

### US 1100. University Seminar.

University Seminar is an introduction to the nature and aims of university education, with special emphasis on the value of broad learning. US 1100 is required of all undergraduate students entering the university with 0-15 semester credit hours completed since high school graduation.

The Texas Success Initiative (TSI) is a statewide initiative created to improve student success in college-level coursework. As part of the program, all students enrolled in Texas public colleges or universities complete required assessments to determine Math, English/Language Arts, and Reading proficiency. Developmental course instruction is provided to students needing to strengthen their basic academic skills. More information about this program, assessment requirements, and exemptions may be found in the Academic Policies section of the catalog under Texas Legislative Requirements.

Located on the lower level of Harris Dining Hall, the Athletic Academic Center (AAC) is an integral part of the life of Bobcat student-athletes and has a vast number of services and assistance available. The AAC is structured to provide student-athletes with five basic components, Academic Excellence, Athletic Excellence, Community Service, Career Development, and Personal Development. The AAC, which is open six days a week (Sunday-Friday), houses a state-of-the-art computer lab, areas for both individuals and group study, and offices for the AAC staff.

The AAC is led by seven full-time professional staff members, four graduate assistant students, and university-trained tutors. The AAC staff, in conjunction with the Assistant Athletic Director for Compliance Services, strives to educate student-athletes about the numerous NCAA rules and regulations while monitoring their progress for continuing eligibility.

Each student-athlete works with their College (Major) Advisor to make sure that they are enrolled in the correct classes to graduate. The AAC staff verifies the classes to ensure that the student-athlete is working towards their degree, making yearly satisfactory progress, and meeting GPA requirements.

Texas State will not discriminate against any person in employment or exclude any person from participating in or receiving the benefits of any of its activities or programs on any basis prohibited by law, including race, color, age, national origin, religion, sex, disability, veterans' status, or sexual orientation. Equal employment opportunities include: personnel transactions of recruitment, employment, training, upgrading, promotion, demotion, termination, and salary.

The information in the 2024-2025 Graduate Catalog is subject to change without notice and may not reflect the most recent changes. This catalog is a general information publication only. It is not intended to, nor does it contain, all regulations that relate to students. In the event of a conflict between the provisions of this catalog and the *Rules and Regulations* of the Board of Regents of the Texas State University System, the latter shall prevail. The provisions of this catalog do not constitute a contract, express or implied, between an applicant, a student, a faculty member, or a staff employee and Texas State University or the Texas State University System. Texas State reserves the right to withdraw courses at any time, to change fees or tuition, calendar, curriculum, degree requirements, admissions and graduation requirements or procedures, and other requirements affecting students. Changes will become effective whenever authorities determine and will apply to both prospective students and those already enrolled. Questions regarding current information should be addressed to the office of the Provost and Vice President for Academic Affairs.

## University Organization

Texas State University is organized into the College of Applied Arts, the Emmett and Miriam McCoy College of Business, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the College of Liberal Arts, the College of Science and Engineering, Honors College, and The Graduate College.

## Overview of Graduate Studies

### Authorization

The establishment of The Graduate College at Texas State was authorized by the Board of Regents at its meeting on June 15, 1935. Graduate courses were first offered during the summer of 1936, and the first master of arts degree was conferred at the 1937 spring commencement. The first doctoral programs were authorized by the Board of Regents in 1996 in geographic education and environmental geography. The first doctorates were awarded in 2000.

### Mission of The Graduate College

The mission of The Graduate College is to provide vision, leadership, and direction for achieving excellence in graduate education at Texas State University with the goal of offering the optimal infrastructure and learning environment for the training of innovative and successful scholars, teachers, and professionals. The Graduate College does so by:

- articulating, promoting and supporting the highest standards of quality in graduate education in keeping with the University's overall mission of teaching, research and public service
- constructing and maintaining an environment conducive to successful graduate education in concert with all graduate programs

- supporting programs' efforts to foster a diverse student population who actively participate in a global society
- promoting and supporting rigor in graduate education
- providing key process and procedure guidance and support to graduate programs from admission to graduation
- aiding in student recruitment, application processing, policy monitoring and degree auditing
- leading initiatives designed to provide best practices in graduate education leading to timely degree completion
- providing graduate student support for creative and scholarly activities
- offering professional development opportunities for graduate students at key stages in their graduate career
- engaging in research on graduate education.

## Characteristics of Graduate Study

Graduate study affords students of exceptional academic ability many opportunities to continue their intellectual growth and development.

Doctoral study in particular seeks to integrate students into the professional community of scholars in a manner that emphasizes the completion, presentation, and publication of original research.

Graduate education differs from study at the undergraduate level in at least the following respects:

- Graduate students are expected to assume greater responsibility and demonstrate more self-initiative in meeting their academic goals;
- Graduate students are expected to engage in more extensive reading, emphasizing primary source material in a specialized field;
- Graduate students are expected to become familiar with the current literature in their fields, with emphasis on recently published developments in research methods and results;
- Doctoral students are expected to assume responsibility for the planning, completion, and presentation of original scholarly research;
- Doctoral programs utilize seminar courses that stress active participation by students in intellectual exchange with both faculty and peers and in the critique of published research;
- Doctoral course-work emphasizes integrating student research into the norms of an academic discipline; and:
- Master's courses differ from undergraduate courses, and doctoral courses differ from master's courses in their learning outcomes and in the breadth and depth of readings and assignments.

- Council on Accreditation of Parks, Recreation, Tourism, and Related Professions
- Council on Social Work Education, Commission on Accreditation
- Joint Review Committee on Education in Radiologic Technology
- National Accrediting Agency for Clinical Laboratory Sciences
- National Association of Schools of Music, Commission on Accreditation
- Network of Schools of Public Policy, Affairs, and Administration Commission on Peer Review and Accreditation

**The following organizations not recognized by either the Council on Higher Education Accreditation (CHEA) or the U.S. Department of Education (USDE) accredit or certify other Texas State degree programs.**

- AACSB International - The Association to Advance Collegiate Schools of Business
- ABET - Accreditation Board for Engineering and Technology
- American Chemical Society
- American Society of Biochemistry and Molecular Biology
- Association of University Programs in Health Administration
- Foundry Education Foundation
- National Association of School Psychologists
- Texas Certified Public Manager Program

The following organizations accredit Texas State academic support services.

- Accreditation Association for Ambulatory Health Care, Inc.
- American Psychological Association Commission on Accreditation
- National Administrator Credential (NAC)

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. During the first century, the Legislature retained the regional designation in the name, but as its mission changed it became first Normal College, then successively Teachers College, College and University. These changes reflected the transformation from a teacher-preparation institution to a regional university. In 2003, the Legislature dropped the regional designation and the institution became Texas State University-San Marcos, and in 2013 the place name was eliminated as Texas State University became an emerging research university within the state.

The demographics of the university's student body more closely mirror the population of Texas than any other public university in the state. Texas State became a Hispanic Serving Institution (HSI) in 2010, and continues to expand efforts to promote diversity, equity, and inclusion among all faculty, staff, and students.

While Texas State was originally renowned for preparing public school teachers, today it has grown into a major institution of higher education approaching an enrollment of 40,000. The university's two campuses currently offer programs not only in the College of Education, but also in the College of Applied Arts, Emmett and Miriam McCoy College of Business Administration, College of Fine Arts and Communication, College of Health Professions, Honors College, College of Liberal Arts, College of Science and Engineering, and University College. University College oversees first-year advising as well as other activities of the first-year experience in addition to guiding students who have not yet chosen a major. The Graduate College provides opportunities for continued intellectual growth through advanced and specialized education that develops leaders in the professions and in research up through the doctoral degree.

As Texas State's student population has grown — from 303 in 1903 to nearly 38,376 in 2022 — the campuses, too, have expanded and today Texas State is the seventh largest public university in the state.

Texas State's San Marcos campus is located in a Hill Country community about halfway between Austin and San Antonio. Its location on the banks of the San Marcos River provides recreational and leisure activities for students throughout the year.

Overlooking the San Marcos campus from Chautauqua Hill and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur. In 1979, after adding a number of classroom buildings and residence halls on the San Marcos Campus, Texas State purchased the former San Marcos Baptist Academy adjacent to the original campus. In 1981, South Texas entrepreneur Harry M. Freeman donated a 3,500-acre ranch to Texas State to be held in perpetual trust as the Harold M. Freeman Educational Foundation. The working ranch is used as a laboratory for students in agriculture, animal science, anthropology, biology, and a variety of other academic disciplines. In 1990, the university opened the seven-story Albert B. Alkek Library. The building, conveniently located in the center of campus, is named for the noted Texas rancher, oil man, and educational philanthropist who died in 1995.

Texas State acquired one of the most unique ecosystems in the world in 1994 when it purchased the former Aquarena Springs resort and theme park. The purchase allowed Texas State to serve as steward of the headwaters of the San Marcos River, preserving and protecting one of the oldest inhabited spots in North America for future generations of Texans. Now called The Meadows Center for water and the Environment, the 90-acre property is the site of a wide variety of educational and research pursuits. The Meadows Center is home to eight endangered species of plants and animals that exist nowhere else in the world.

In 1998, as the lead institution, Texas State joined forces with other area universities to establish the Round Rock Higher Education Center, now known as the Texas State University Round Rock Campus (RRC). The RRC, located on 101 acres north of Austin, houses the majority of Texas State's health professions academic programs, and offers upper-division and graduate educational opportunities in Williamson County and Austin.

Texas State became part of the Texas State University System in 1911. The System, governed by a nine-member Board of Regents, also includes Lamar University, Lamar Institute of Technology, Lamar State College—Orange, Lamar State College—Port Arthur, Sam Houston State University, Sul Ross State University, and Sul Ross University Rio Grande College. The first president of Texas State was Mr. T.G. Harris, who served from 1903 to 1911. He was followed by Dr. C.E. Evans, 1911–1942; Dr. J.G. Flowers, 1942–1964; Dr. James H. McCrocklin, 1964–1969; Dr. Leland E. Derrick, 1969; Dr. Billy Mac Jones, 1969–1973; Mr. Jerome C. Cates, 1973–1974; Dr. Lee H. Smith, 1974–1981; Mr. Robert L. Hardesty, 1981–1988; Dr. Michael L. Abbott, 1988–1989; Dr. Jerome Supple, 1989–2002; Dr. Denise M. Trauth, 2002–2022; and Dr. Kelly Damphousse, 2022–present.

**Function**

Recommends Graduate College policies to the Dean of The Graduate College, who in turn administers the policies or submits recommendations to the Provost and Vice President for Academic Affairs and the President’s Cabinet. The Graduate Council also reviews standards for admissions, retention, and enrollment patterns, in concurrence with the Dean. The Graduate Council also approves membership standards for graduate faculty.

Texas State University is a public, student-centered research institution dedicated to excellence, discovery, and innovation. We create new knowledge, embrace a diversity of people and ideas, foster cultural and economic development, and educate our students to participate fully and freely in the communities of Texas, the nation, and the world.

**Shared Values**

In pursuing our mission, we, the faculty, staff, and students of Texas State University, are guided by a shared collection of values:

- Teaching and learning based on research, student needs, and the free exchange of ideas in a supportive environment;
- Research and creative activities that encompass the full range of academic disciplines;
- Meaningful student engagement built on active involvement, accessibility, and intentional educational experiences;
- The cultivation of university community that consistently practices integrity, civility, compassion, and respect;
- A shared commitment to creating a sense of belonging across unique communities, identities, ideas, and contributions;
- A welcoming spirit and a global perspective;
- Dedication to service and leadership for the public good;
- Responsible stewardship of our resources and environment; and
- Continued reflection and evaluation to ensure that our strengths always benefit those we serve locally and globally.

**The Graduate College Mission**

The mission of The Graduate College is to provide vision, leadership, and direction for excellence in graduate education at Texas State University with the aim of providing the appropriate infrastructure and learning environment for the training of innovative and successful scholars, teachers, and professionals. The Graduate College does so by

- articulating, promoting, and supporting the highest standards of quality in graduate education in keeping with the university’s overall mission of teaching, research, including creative expression and service;

- constructing and maintaining an environment conducive to successful graduate education in concert with all graduate programs;
- supporting programs' efforts to foster a diverse student population which participates in a global society;
- promoting and supporting rigor in graduate education;
- providing key process and procedure guidance and support to graduate programs from admission to graduation;
- aiding in student recruitment, application processing, policy monitoring, and degree auditing;
- promoting initiatives designed to provide best practices in graduate education leading to timely degree completion;
- providing support to graduate students for creative and scholarly activities;
- offering professional development opportunities for graduate students at key stages in their graduate careers; and
- engaging in research on graduate education.

The stakeholders of The Graduate College include students, faculty, and staff involved in graduate education at Texas State University.

Texas State is committed to the value of a racial and ethnic diversity and believes that the primary purpose of higher education is to promote learning for all and to stimulate inquiry for truth in an atmosphere of freedom. Accordingly, Texas State encourages students to exercise the rights of citizenship. However, these rights are subject to reasonable limitations necessary for the orderly operation of the university. Texas State expects students to accept their responsibilities as citizens and members of a scholarly community. Paramount among these responsibilities is respect for the rights of others, academic and personal integrity, and adherence to federal, state, and local law as well as university regulations.

The faculty and administration are genuinely concerned with the physical and ethical welfare of students. To that end, Texas State has established rules of conduct and has published these in a Code of Student Conduct and Honor Code. These regulations guide students in achieving personal and academic goals and help the university function in an orderly way. Since students voluntarily associate themselves with Texas State, they should know that these rules are honestly and faithfully enforced. The rules include clear prohibitions against sexual or discrimination and racial harassment.

Texas State has established a grievance procedure for the prompt and equitable resolution of complaints related to illegal discrimination or harassment. Texas State, to the extent not in conflict with federal or state law, prohibits discrimination or harassment on the basis of race, color, national origin, age, sex, religion, disability, veterans' status, sexual orientation, gender identity, or expression. This grievance procedure is described in University Policy and Procedure Statement 04.04.46 (<http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML>), *Prohibition of Discrimination*. The Texas State University System Sexual Misconduct Policy outlines our policy and procedure related to Title IX (sexual misconduct). Students should follow the procedures for reporting instances of discrimination or harassment.

The administration and faculty encourage students to participate in managing Texas State through its system of advisory councils and committees. Students are invited to serve as voting members on many of these groups, and are expected to contribute actively to their success. Students may submit recommendations for changes in policy, not only

through the committee structure, but also through their own student government.

In 1990, Congress enacted the *Crime Awareness and Campus Security Act of 1990* which amended the *Higher Education Act* of 1965. In 1998, the law was renamed *the Clery Act*. This law requires institutions that participate in the federal student financial aid programs to disclose crime statistics and security information to the campus community. Among such requirements, the university must prepare and distribute an Annual Security and Fire Safety Report (ASFSR) annually. The ASFSR must include crime statistics for the three most recent calendar years concerning reported crimes that occurred on campus; in on-campus student housing facilities; in non-campus buildings or property owned or controlled by the university or a recognized student organization; and on public property within, or immediately adjacent to and accessible from, the campus. Additionally, the report contains information about law enforcement authority, timely warnings or emergency notifications of crimes that represent a threat to the campus community, the daily crime log, missing student notification procedures that pertain to students residing in on-campus student housing, crime reporting policies, programs to prevent dating violence, domestic violence, sexual assault and stalking, and the procedures the university will follow when one of these crimes is reported. The university must also disclose fire safety information and fire statistics for the three previous calendar years for on-campus student housing facilities, among other safety and security information.

Texas State's Annual Security Report section applies to the San Marcos, Round Rock, and Advanced Law Enforcement Rapid Response Training Center (ALERRT Center) campuses, and the Fire Safety Report section applies only to the San Marcos Campus as Round Rock and the ALERRT Center do not currently have on-campus student housing facilities.

You may request a paper copy of the ASFSR by contacting Institutional Compliance and Ethics at Elliott Hall A (201 Talbot Street, San Marcos, TX 78666), by calling (512)245-4961, or by emailing [cleryreport@txstate.edu](mailto:cleryreport@txstate.edu). A PDF of the Texas State ASFSR can be accessed electronically at <http://www.clery.txst.edu/report> (<http://www.clery.txst.edu/report/>).

## Correct Data

All students are responsible for making certain Texas State has correct demographic data. A student's name will appear on official records as it is stated on the application for admission, unless a student has previously attended Texas State under a different name. Changes in name, local and/or permanent address, telephone number, marital status, etc. should be reported immediately to the Office of the University Registrar. Texas State is not responsible for loss of correspondence credits due to unreported name changes. Address changes can be completed through Texas State Self-Service. .

## Family Educational Rights and Privacy Act of 1974 (FERPA)

FERPA protects the privacy of educational records, establishes the right of students to inspect and review their educational records, and provides guidelines for the correction of inaccurate or misleading data. Students also have the right to file complaints with the U.S. Department of Education, Student Privacy Policy Office, 400 Maryland Ave, SW, Washington, DC 20202-8520, concerning alleged failures by Texas State to comply with the Act. University policy explains in detail the procedures to be used in complying with the Act. The policy is available

at [www.registrar.txst.edu/legislative-policies/ferpa.html](http://www.registrar.txst.edu/legislative-policies/ferpa.html) (<https://www.registrar.txst.edu/legislative-policies/ferpa.html>). The Dean of Students and the Office of the University Registrar both presume that each student is independent of their parents when dealing with the student's educational records. Procedures for establishing dependency status are available in both offices.

## Communications

Most university offices use Texas State email as the official means of communication. Students are expected to set up and read their Texas State email frequently.

As required by the Texas Occupations Code, Section 1, Chapter 53, Sections 53.151 – 53.152, amended in 2017 by House Bill 1508, if you are applying for admission to or currently enrolled in an educational program that may prepare an individual for an initial occupational license as defined under Texas Occupations Code Section 58.001 and/or if you later decide to change to an educational program that prepares you for an initial occupational license as defined under Texas Occupations Code Section 58.001, in accordance with state law, please be advised of the following:

1. An individual who has been convicted of an offense may be ineligible for issuance of an occupational license upon completion of the educational program.
2. Each licensing authority that may issue an occupational license to an individual who completes an educational program must establish guidelines that state the reasons a particular crime is considered to relate to a particular license and any other criterion that affects the decisions of the licensing authority.
3. Local or county licensing authorities may issue additional guidelines related to criminal history. Applicants should contact their respective local or county licensing authority for more details.
4. A person may request a criminal history evaluation letter regarding the personal eligibility for a license issued by a licensing authority under Texas Occupations Code Section 53.102.

Applicants are encouraged to review all applicable eligibility requirements related to the respective occupational license. Questions related to eligibility requirements should be directed to the applicable licensing authority.

A list of the Texas State University degree and certificate programs that prepare a student for an initial occupational license as defined under Texas Occupations Code Section 58.001 is available here. (<http://www.txstate.edu/curriculumservices/programs/occupational-license-HB-1508.html>)

Abandoned and unclaimed personal property discovered on campus is turned over to the University Police Department (UPD) Community Engagement Office. UPD utilizes Crowdfind Program to assist with managing abandoned and unclaimed personal property and is located on the UPD website under programs and services. Items of value should be sent or bought to UPD for safekeeping. Examples of these items: are credit cards, wallets, jewelry, watches, handbags, computers, computer storage, storage media, electronic devices and items considered valuable. All other property found on campus may be disposed of by the department that oversees the building in which the property was found. Examples include inexpensive clothing, personal care supplies, and similar items that do not include ownership identification. Abandoned and unclaimed property held by UPD will be disposed of after 60 days. For

further information please see UPPS 05.01.20 Abandoned and Unclaimed Property (<https://policies.txstate.edu/university-policies/05-01-20.html>).

### Alkek Library

[www.library.txst.edu](http://www.library.txst.edu) (<http://www.library.txst.edu/>)  
Telephone: 512-245-2686 Fax: 512-245-0392

The Albert B. Alkek Library, located in the heart of the San Marcos Campus, is where students and researchers come to find abundant information resources, cutting-edge technology, and diverse work and study spaces that support successful research and academic endeavors. The Alkek Library is the architectural centerpiece and intellectual hub of the campus and is open year-round with early-morning and late-night hours during the fall and spring semesters. In addition, the library's online services and resources can be accessed through the University Libraries website ([library.txst.edu](http://library.txst.edu) (<http://library.txst.edu/>)).

Special holdings of the library include The Wittliff Collections ( includes the Southwestern Writers Collection, the Southwestern and Mexican Photography Collection and the Texas Music Collection) and the Special Collections & Archives. The Alkek Library is also a selective depository for federal government documents. As a member of the Texas Digital Library, the library's Research and Scholarship Repository ([digital.library.txstate.edu/](http://digital.library.txstate.edu/) (<http://digital.library.txstate.edu/>)) features unique Texas State collections, including scholarly works authored by university faculty, students and staff. A separate repository houses Digital Collections from The Wittliff and Special Collections & University Archives ([dc.library.txstate.edu](https://dc.library.txstate.edu/) (<https://dc.library.txstate.edu/>)).

Wireless access to the university network is available within the Alkek Library. Laptop computers may be checked out for building use and there are multiple workstations, laser printers and scanners located throughout the building.

The first floor of the library known as Alkek One, includes a suite of creative technology spaces designed to give students from all disciplines access to resources that will help them explore, create, and discover. These spaces include: the Immersion Studio, for exploring virtual, augmented and mixed realities; MakerSpace, for creating physical innovations; GeoSpace, for GIS and data story telling exploration; DesignSpace for discovering 2D and 3D design possibilities; and the YouStar Studios, for recording audio and video projects and editing polished productions.

The Alkek Library also boasts a Graduate Commons space for graduate students and other education, instruction, and research spaces and features within its seven stories.

The library maintains cooperative borrowing agreements with other libraries in the region. Through TexShare, a statewide resource sharing program, students and faculty may borrow materials held by most public and private university libraries in the state. In addition, books and articles not available through Texas State can be requested through Interlibrary Loan and they will be borrowed from libraries across the country and sometimes even internationally.

### LBJ Student Center, 5th Floor

[www.careerservices.txstate.edu](http://www.careerservices.txstate.edu) (<http://www.careerservices.txstate.edu/>)  
Telephone: 512-245-2645

Career Services prepares, inspires, and empowers students for career success, serving as a bridge between students' college experience and life after Texas State University. Starting their first year, and continuing

beyond graduation, we are here to help support students on their career journey. In addition we help them connect their experiences—whether from the classroom, campus activities, on- or off-campus employment, internships, or even graduate school—to their post-graduation goals.

Among our services are:

**Career Planning and Exploration** - Career center staff are available to help you learn how skills and interests relate to prospective career opportunities, research career pathways, and plan and implement post-graduation goals.

**Job Search Assistance** – Whether seeking part-time or fulltime employment, career center staff are available to provide support throughout the job search process, including identification of job opportunities, developing resumes, writing cover letters, and improving interview skills.

**Internships** - There are multiple internship pathways available to Texas State students. Career center staff are available to help you research, identify, and apply to a variety of internship opportunities.

**Employer Connections** - Career Services works with employers to create opportunities for students to connect with potential internships and jobs while building their professional network. This is achieved by hosting a wide range of engagement and discovery opportunities including career fairs, information sessions, on-campus interviews, and networking events.

LBJ Student Center 5-5.1  
www.ods.txst.edu/ (<https://www.ods.txst.edu/>)  
Telephone: 512-245-3451 Fax: 512-245-3452

The Office of Disability Services (ODS) at Texas State University is dedicated to promoting equal access to all university programs and activities for students with disabilities through the coordination of academic accommodations and support services. Texas State students should contact the ODS to discuss the services the office can provide and how to register with the office. It is the student's responsibility to provide documentation of their disability. Forms of documentation include the student's self-report and evidence from external sources (e.g., medical records, school records).

Texas State University does not discriminate on the basis of disability in the recruitment and admission of students or in the operation of any of its programs and activities. Students with disabilities must meet the same admission requirements as all other prospective students. If a student believes their educational and/or personal goals for success have been negatively impacted due to disability-based reasons, then they may address these issues in the supplemental essay portion of the admission application. Students needing sign language services for meetings with Admissions, the Office of Disability Services, or their academic advisor should contact the ODS at least one week prior to the event to ensure interpreter availability.

Students with disabilities may receive financial assistance from the following entities: Federal Student Aid, which is an Office of the U.S. Department of Education; the Texas Workforce Commission (TWC); the Texas State University Financial Aid and Scholarships and the Office of Disability Services.

The Office of Disability Services has a procedure for enrolled students to file a concern they may have with a faculty and/or staff member related to their accommodations. Students have the option to raise their concern

to a grievance if they feel it is appropriate; however, an ODS staff member may raise a concern into a grievance if deemed appropriate. Texas State University has established grievance procedures for the prompt and equitable resolution of complaints related to accommodations associated with a disability and illegal discrimination on the basis of disability, which are outlined respectively in the ODS Dispute Resolution Procedure and UPPS No. 04.04.46 (<http://www.txstate.edu/effective/UPPS/UPPS-04-04-46.HTML>), "Prohibition of Discrimination". Students who have concerns or complaints should contact the ODS Director at 512-245-3451 or [ods@txstate.edu](mailto:ods@txstate.edu).

J.C. Kellam Building Room 105  
www.va.txstate.edu (<http://www.va.txstate.edu>)  
Email: [veteransaffairs@txstate.edu](mailto:veteransaffairs@txstate.edu)  
Telephone: 512-245-2641

Students attending Texas State (TXST), while receiving educational assistance under one of the public laws for veterans and/or their dependents, must utilize the VA Portal provided at [www.va.txst.edu](http://www.va.txst.edu) (<https://www.va.txst.edu/>) to submit a Certification Request and upload the required forms.

All students applying for GI Bill® or Hazlewood benefits must provide digital copies of required documents for their specific benefit type to our online certification request system. Required documents are listed here: <https://www.va.txstate.edu/required-documents.html>. (<https://www.va.txstate.edu/required-documents.html.html>) Do not email, fax, or mail documents to the office as they will be deleted, shredded, or returned via US Post. Requests for benefit processing are completed online each semester.

All students must follow their degree requirements to receive the maximum benefit payout. Students who are eligible for Hazlewood are subject to Academic Progress for Waivers and Exemptions (APWE) policies. For more information, go to <https://www.sbs.txstate.edu/students/waivers-exemptions.html>.

It is the student's responsibility to notify the Office of Veterans Affairs of any adds, drops, course, or program changes.

No benefit pays the university directly for living or meal expenses, which are due prior to the start of each semester. GI Bill® benefit payments are made in arrears.

## Pending Payment Compliance

In accordance with Title 38 US Code 3679(e), Texas State University adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post-9/11 G.I. Bill® (Ch. 33), or Vocational Rehabilitation & Employment (Ch. 31) benefits, once confirmed to be eligible and while payment to the institution is pending from VA. Texas State University will not:

- Prevent the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students are required to:

- Produce the VA Certificate of Eligibility (COE) by the first day of class;
- Complete the online request to be certified;
- Provide additional information needed to properly certify the enrollment as described in other institutional policies

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA).

302 Academic Services Building North  
[www.distancelearning.txst.edu/](http://www.distancelearning.txst.edu/) (<http://www.distancelearning.txst.edu/>)  
 Telephone: 512-245-2322 Fax: 512-245-8934  
 Toll-free: 800-511-8656

The Office of Distance and Extended Learning, in addition to administering the self-paced correspondence, extension, and continuing education programs, provides information on Texas State's distance learning programs, courses, initiatives, and resources.

## Mission Statement

The Office of Distance and Extended Learning expands access to academic credit learning experiences and lifelong learning opportunities for students through distance learning, extended studies, and continuing education.

## Core Values

The Office of Distance and Extended Learning achieves its mission through strong collaboration among our team and other departments on campus; mutual respect for faculty, staff, and students; effective and accurate communication; and conscientious action in our daily operations.

## Distance Learning Programs

At Texas State, online learning reflects our passion for teaching and learning, the courage and discipline to prioritize, a deep commitment to core values, and the allocation of resources where we can deliver superior performance and distinctive impact. Texas State offers both undergraduate and graduate degrees via online learning, all of which are developed and taught by our university faculty. These degree programs require formal admission to the university, and applicants must meet Texas State's general admission requirements, as well as those specified by the individual degree program. A list of fully online distance learning programs is available at <https://online.txst.edu>. Additional information about online programs is also available at [www.distancelearning.txst.edu](https://www.distancelearning.txst.edu) (<https://www.distancelearning.txst.edu/>).

The university offers many courses and programs via distance learning and extended hours on evenings and weekends at the San Marcos and Round Rock campuses.

All graduate courses and programs offered to distance learners carry the same course number, title, and description as those offered at the San Marcos and Round Rock campuses.

For F-1 international students, no more than the equivalent of one class or three credits per term may be counted toward the full course of study requirement if the class is taken online or through distance education and does not require the student's physical attendance for classes, examination, or other purposes integral to completion of the class.

Courses offered at a distance are identified each term in the Texas State Schedule of Classes and on CatsWeb. For more

information on distance and extended learning at Texas State, visit <http://www.distancelearning.txstate.edu> (<http://www.distancelearning.txstate.edu/>).

With a wide range of learning opportunities, the Office of Distance and Extended Learning offers Continuing Education opportunities that extend the resources of Texas State and contribute to the professional and economic development of Texas. Enrollment is open to all interested persons on a non-credit-hour basis; therefore, the courses are not offered through The Graduate College and do not apply toward a graduate degree, nor are they considered for regular admission. For information about continuing education programs, go to <http://www.txstate.edu/continuinged/>.

The Office of Distance and Extended Learning offers many college courses not normally offered through the academic departments/schools. Extension courses may be offered on campus, online, hybrid/blended, or as part of a faculty-led Study-in-America or Off-Campus program. The times and locations for such courses depend on student need, faculty availability, and demand. Enrollment for an extension class is completed through the Office of Distance and Extended Learning and does not constitute acceptance as a regular student at Texas State.

## Degree Credit for Extension Course Work

The department chair and the dean of The Graduate College must approve extension work for it to be credited toward a graduate degree. Students must meet the admission requirements as identified under the "Master's and Doctoral Degree-Seeking Applicants" section and be accepted in a degree program before extension work can receive degree credit. **Extension course work cannot be used toward a doctoral degree at Texas State.**

A maximum of 12 semester hours of graduate credit may be earned in extension courses offered by Texas State.

## Extension Transfer Credit

Up to three semester hours of the total allowable six hours of transfer credit for a degree may be earned through extension courses from another accredited institution. Students admitted on "Conditional Admission" or students on "Probation/Suspension" will not receive credit for transfer work taken under the aforementioned status.

For more information on Extension Studies at Texas State, visit <http://www.extension.txstate.edu/>.

[www.txst.edu/cpm/](http://www.txst.edu/cpm/) (<https://www.txst.edu/cpm/>)  
 Telephone: 512-245-3453 Fax: 512-331-7293

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer the CPM Program. The CPM Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any time during the year; programs are held approximately every two to three months depending on location. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM Program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not-for-profit-sector. The program's primary goal is to improve the performance of public and not-for-profit sector managers and the organizational performance of

state, local, and federal government. The program is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant's agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program, a 7-course sequence which leads to a nationally accredited public manager certification, is offered by Texas State University's William P. Hobby Center for Public Service.

Thornton International House  
344 W. Woods Street

Telephone: 512-245-7966 Fax: 512-245-8264

## Our Mission

### Vision

ISSS will be nationally recognized as a leader in campus internationalization and excellence in international student services.

### Mission

ISSS advances campus internationalization at Texas State University by offering intentional, holistic, and inclusive immigration and integration services for international students, faculty, and staff.

### Goals

- To support Texas State international students by providing immigration, integration, and intercultural expertise to the University community.
- To advance Texas State's efforts to increase and retain international students.
- To deliver meaningful and informed programming initiatives that support international student success at Texas State and post-graduation.

### Who is an international student?

An international student is a student enrolled in a U.S. academic program in a non-immigrant visa classification.

- Common non-immigrant visa classifications are: A-1, A-2, B-1, B-2, E-1, E-2, F-1, F-2, H-1, H-4, J-1, J-2, K-1, L-1, L-2, M-1, R-1, R-2, TN, and TD.
- F-1 Student is the most common non-immigrant visa classification at Texas State with over 90 percent of international students in F-1 status.
- A student who has applied for or received an immigrant classification such as permanent residency or refugee or asylum status, or who is undocumented is not categorized as an international student.

### General Regulations

The following regulations govern F-1 and J-1 international students enrolled at Texas State:

International students are required to:

- attend a mandatory F-1 Student Immigration Check-in session or J-1 Orientation.

- enroll in a full course of study every fall and spring semesters. Summer is an authorized break period, however, full-time enrollment is required in summer for students whose first semester begins in summer;
- obtain permission from International Student and Scholar Services (ISSS) before dropping below a full course of study for any reason. (See Reduced Course Load (<https://www.international.txstate.edu/current/Reduced-Course-Load-RCL-.html>));
- obtain permission from International Student and Scholar Services before engaging in off-campus employment. (see Curricular Practical Training (CPT) (<https://www.international.txst.edu/work-authorization/curricular-practical-training-cpt.html>) or Optional Practical Training (OPT) (<https://www.international.txst.edu/work-authorization/optional-practical-training-opt.html>));
- not work more than 20 hours per week while participating in on-campus employment in the fall and spring semesters. Students may work more than 20 hours per week during the summer and authorized break periods (see On-campus Employment (<https://www.international.txstate.edu/Work-Authorization/oncampus.html>));
- report address changes or personal information to International Student and Scholar Services within 10 days of the change. (see Change of Address Update (<https://tim.txstate.edu/internationalofficeaddresschange/Login/?returnurl=%2finternationalofficeaddresschange%2f>));
- report any changes in program of study (change of major, adding a minor/concentration, etc.) to International Student and Scholar Services;
- apply for a program extension from International Student and Scholar Services prior to the end date on the I-20;
- apply for concurrent or transient enrollment approval when taking courses at an institution other than Texas State University (see Concurrent Enrollment);
- obtain a travel signature from International Student and Scholar Services for all international travel;
- request a transfer of their SEVIS record from International Student and Scholar Services to transfer to a new SEVIS-certified institution (see SEVIS Transfer-out (<https://www.international.txstate.edu/current/TransferOut.html>));
- notify International Student and Scholar Services upon approval of a change of non-immigration status, or an adjustment of status to permanent residency; and
- maintain continuous health insurance coverage from the time of enrollment to the time of completion of the degree program or until otherwise cease to be a student at Texas State by obtaining coverage under the designated international student health insurance policy, or apply for a waiver and present acceptable proof of other comparable and adequate health insurance coverage (see Health Insurance (<https://www.international.txstate.edu/current/Health-insurance-.html>)).

### An Overview of Our Services:

- Assist international students and academic departments with immigration processes and issues related to non-immigrant F-1 and J-1 students;
- Assist international faculty and staff and hiring departments with employment authorization issues;
- Provide mandatory F-1 Student Check-in and host International Student Resource Fair;
- Advise and advocate for international students and scholars;

- Plan and host programs for international students and scholars;
- Provide statistical reports
- For the complete list, click here ([https://www.international.txstate.edu/about/about\\_us/Services.html](https://www.international.txstate.edu/about/about_us/Services.html)).

Dr. Julie Lessiter  
Vice President, TXST Round Rock  
Round Rock Campus Administration Office

1555 University Blvd.  
Round Rock, TX 78665-8017  
[www.rrc.txstate.edu](http://www.rrc.txstate.edu) (<http://www.rrc.txstate.edu/>)  
T: 512-716-4001

In the face of Williamson County's substantial annual growth, with a population now almost 700,000, the Round Rock Campus is strategically positioned to continue meeting the evolving needs of the area. The campus proudly presents a diverse array of programs, encompassing 27 undergraduate and 11 graduate options in critical areas such as healthcare, business, computer science and technology, education, psychology and social work, as well as communications. Whether students are incoming freshmen, transfer students, or graduate students, Texas State Round Rock Campus offers academic options to suit all needs.

Texas State Round Rock Campus is committed to delivering affordable, hands-on learning experiences that equip students for successful careers. Emphasizing flexible class times, the educational experience extends beyond conventional boundaries, offering a dynamic mix of face-to-face and online classes. Beyond traditional academic programs, the Professional Studies division enriches the campus offerings by providing a range of certifications and upskilling programs, allowing individuals to enhance their knowledge and skills to navigate today's digital and rapidly changing economy.

For those seeking more information, prospective students can explore Texas State Round Rock Campus or peruse the academic program offerings at [www.rrc.txst.edu](http://www.rrc.txst.edu) (<http://www.rrc.txst.edu/>). Alternatively, they can reach out to the admissions office or the graduate college. Texas State Round Rock Campus stands as the intersection where excellence meets opportunity, encouraging students to ignite their potential.

Thornton International House  
344 W. Woods Street  
[www.educationabroad.txstate.edu](http://www.educationabroad.txstate.edu) (<https://www.educationabroad.txstate.edu/>)  
Telephone: 512-245-1967  
Email: [educationabroad@txstate.edu](mailto:educationabroad@txstate.edu)

An education abroad experience expands students' intellectual and personal development as they become immersed in other cultures. Students gain a critical self-awareness, an appreciation for a multicultural world, and a clearer understanding of their own culture. Education abroad prepares students to assume their role as responsible world citizens and to succeed professionally in today's global environment. Education Abroad offers unique experiential learning opportunities in professional and community settings that enables students to apply knowledge, acquire marketable skills, and develop career readiness.

The Education Abroad office offers students the opportunity to participate in a variety of education abroad programs in hundreds of locations around the world. The academic credit students earn may be

applied toward a degree at Texas State. Some of these programs involve direct enrollment in an overseas institution, while other programs are led by Texas State faculty.

Through Texas State Education Abroad programs, students can spend from one week to a full academic year in another country either learning another language, concentrating their studies related to a specific topic in their field of study, or participating in an internship. Texas State Education Abroad programs include a variety of activities that allow students to learn and experience the culture of the host country. In some of these programs, students may take the opportunity to live with a host family and become fully immersed in the culture of the host country for a more comprehensive learning experience.

Program locations vary from year to year. Students may learn more about these programs from current information located on the Education Abroad website.

The Education Abroad Fair, as well as many other events and presentations, are held throughout the year to provide information to students interested in studying, teaching, interning, volunteering, working, and/or researching abroad.

## Financial Assistance for Education Abroad Programs

Most of the financial aid that students would normally receive for studying at Texas State may be applied toward Texas State Education Abroad programs. Additionally, there are colleges and education abroad providers that offer financial support for participating in their programs. If a student is receiving federal or state financial aid, it is recommended that the student speak with a representative of the Texas State Office of Financial Aid and Scholarships to determine the application of such aid to any Education Abroad program and the possible adjustment to meet the student's needs.

Education Abroad also has information on internal and external scholarships that are available to students who plan to participate in an education abroad program. The International Education Fee Scholarship (IEFS) is funded through the student service fee account and distributed in a competition open to all undergraduate and graduate Texas State students who meet the established eligibility requirements.

Financial Aid and Scholarships  
JC Kellam Suite 240

T: 512.245.8978

Texas State makes every effort to help students who need assistance in paying for the cost of their education. Various financial aid programs are available. Interested students should contact Financial Aid and Scholarships or visit the office's website to view the types of assistance that are available.

## Federal and State Aid Programs

Texas State participates in both federal and state financial aid programs. Financial Aid and Scholarships offers grants, work study, student loans, and other types of aid.

## Applying for Financial Aid

To apply for financial aid, a student must complete and submit the Free Application for Federal Student Aid (FAFSA) online at <https://fafsa.ed.gov> and include the Texas State University school code – 003615.

### Deadlines

- March 15 is the priority date for filing a FAFSA for the upcoming academic year (fall and spring). If the deadline is missed, a student may still apply and receive some types of assistance such as student loans.
- March 1 is the priority deadline for filing the separate summer financial aid application prior to the upcoming summer semester. This separate summer application, which can be found online at <http://www.financialaid.txstate.edu/>, is in addition to filing the appropriate year's FAFSA.

## Satisfactory Academic Progress Requirements

Federal regulations require students to meet certain minimum academic standards in order to remain eligible for financial assistance. The requirements are that a student:

1. maintain a minimum cumulative Texas State GPA;
2. complete at least 67% of all course work; and
3. not exceed a maximum limit of attempted hours toward their degree.

Additional program-specific requirements also exist. View these SAP criteria in more detail at <http://www.financialaid.txstate.edu/> by selecting *Graduate Aid* from the dropdown menu and then *Maintain My Eligibility*.

## Courses Counting

The federal government requires that a student's aid eligibility only be based on those courses that count toward the completions of the student's degree. So to be considered a full-time student for financial aid purposes, a student would want to enroll in 12 credit hours as an undergraduate (or 6 credit hours as a graduate) **that count toward their degree**. Remember, to be eligible for most financial aid, a student only needs to be enrolled at least half-time (6 hours for undergraduates and 3 hours for master's and 5 hours for doctoral students). For more details, visit [www.finaid.txst.edu](http://www.finaid.txst.edu) (<https://www.finaid.txst.edu/>), select *Financial Aid* from the menu and then *Receive My Aid*.

## Alternative Loan Resources

For information on alternative loans, visit <http://www.financialaid.txstate.edu/>, select *Graduate Aid* from the dropdown menu and then *Types of Aid*.

## Official Withdrawals and Financial Aid

If a student withdraws or is expelled from the university on or prior to the 60-percent point of the semester, the student is required to repay any unearned portion of their federal Title IV aid. For more details, visit <http://www.financialaid.txstate.edu/>, select *Graduate Aid* from the dropdown menu and then *Withdrawing, Non-Passing Grades and Attendance*.

[www.financialaid.txstate.edu/](http://www.financialaid.txstate.edu/), select *Graduate Aid* from the dropdown menu and then *Withdrawing, Non-Passing Grades and Attendance*.

## Unofficial Withdrawals and Financial Aid

If the student fails to earn a passing grade in at least one of their courses (i.e., all U's, all I's or a combination of all U's, W's or I's) during a semester, the student is considered to have, for purposes of federal Title IV funds, unofficially withdrawn from the university. As a result, a federal withdrawal calculation must be performed to determine the amount of Title IV funds the student must repay. For more details, visit <http://www.financialaid.txstate.edu/>, select *Graduate Aid* from the dropdown menu and then *Withdrawing, Non-Passing Grades and Attendance*.

## Non-Attendance and Financial Aid

If the student is a Pell Grant, Iraq-Afghanistan Service Grant (IASG) or TEACH Grant recipient, federal regulations require the student to have begun attending the courses for which the student is enrolled and receiving these grants. If on the census date roster (e.g., 12<sup>th</sup> day of each fall and spring semester) the student is reflected as not attending a course, the student is assumed (for financial aid purposes) not to have begun attendance for that course. The student's grant will then be adjusted or cancelled based on the courses the student has actually begun attending. For more details, visit <http://www.financialaid.txstate.edu/>, select *Graduate Aid* from the dropdown menu and then *Withdrawing, Non-Passing Grades and Attendance*.

## To Withdraw

The student must complete the form entitled "Texas State Official Withdrawal Request" from the University Registrar's Office. Financial aid recipients should speak with a Financial Aid and Scholarships representative before the withdrawal is processed. The withdrawal date is defined as the date on which a student first indicates his or her intent to withdraw.

The scholarships listed below are competitively based and are available to qualified students who are regularly admitted through The Graduate College. Students who are not Texas residents and receive a Texas State competitive scholarship of at least \$1,000 may be eligible to pay resident tuition. More information regarding eligibility criteria, the application procedures and deadlines for each of the scholarships and fellowships listed below is available on our funding page.

Information about additional scholarships, as well as teaching and research assistantships, may be available through individual academic colleges and departments, as well as the BOSS scholarship system.

## Graduate College Scholarships

The Graduate College provides these scholarships (<https://www.gradcollege.txst.edu/funding/scholarships/gc-scholarship.html>) to encourage students with intellectual, creative, and leadership promise to complete a master's or doctoral degree at Texas State University. These scholarships are available for newly admitted and continuing students.

## Graduate College Doctoral Research Support Fellowships

The Graduate College provides Doctoral Research Support Fellowships (<https://www.gradcollege.txst.edu/funding/scholarships/doctoral-research.html>) to support graduate student research at the doctoral level. Each award of up to \$5,000 is to be used to cover expenses directly

related to conducting dissertation research. There are two rounds of funding applications each year.

## Graduate College Thesis Research Support Fellowships

The Graduate College provides Thesis Research Support Fellowships (<https://www.gradcollege.txst.edu/funding/scholarships/thesis-research.html>) to support graduate student research at the master's level. Each award of up to \$2,000 is to be used to cover expenses directly related to conducting thesis research. There are two rounds of funding applications each year.

## Texas State Merit Fellowships

The Graduate College's *Texas State Merit* fellowships are intended for use in recruiting doctoral and master's students of the highest quality to Texas State University. The fellowship provides a percentage of the student's tuition for their first academic year of study (paid in early September, January, and June). These fellowships can be combined with graduate assistantships or departmental scholarships to create an attractive financial aid package for top-quality applicants. Doctoral program directors are encouraged to identify and nominate eligible applicants. Admitted students in eligible programs will be automatically considered, no application or nomination is required.

## External Funding

The Graduate College provides resources to assist students seeking or applying for external funding (<https://www.gradcollege.txst.edu/funding/external.html>). The Graduate Funding Opportunities Database (<https://www.gradcollege.txst.edu/funding/external/databases.html>) houses grants, scholarships, fellowships, internships and other awards/prizes specific to Texas State graduate students. Through the Shop Talks (<https://www.gradcollege.txst.edu/events/shoptalks.html>) professional development series, funding experts present general information about external funding as well as details about specific opportunities. The Graduate College also employs in-house external funding coordinators to advise students with funding applications and grant proposals.

## Admission Requirements

The requirements set forth on each individual program page (detailed both in the *Graduate Catalog* and on The Graduate College website) are the minimum standards for admission to enter a graduate program at Texas State. Some programs also recommend that applicants arrange a personal interview with the appropriate graduate faculty. Meeting the stated requirements does not necessarily ensure acceptance into a graduate program.

Applicants who are currently on probation or suspension at other colleges or universities are not eligible for admission consideration by The Graduate College. The dean of The Graduate College may refuse admission to any applicant, regardless of whether or not the applicant meets the admission requirements, if the dean of The Graduate College judges that such action is in the individual's or the University's best interest. The University reserves the right to deny admission to any prospective or former student who has a criminal record including any conviction of a felony, offenses involving moral turpitude, or other offenses of a serious nature.

## Start Term

Applications are for specific terms. Applicants wishing to change their application to a future term or apply to another program will be required to submit a new application and pay the application fee.

## Communication

The Graduate College will email applicants important information pertaining to their admissions application and application decision; therefore, it is imperative that applicants provide a working email address on their application that will remain active throughout the entire application process. It is the responsibility of the applicant to confirm that they are receiving emails from The Graduate College, to check their email accounts often, and to read all communication sent from admissions.

## Decision Process

Applicants are encouraged to check the status of their application online in order to expedite the process of completing the application. After all admission requirements have been received, the grade point average will be calculated and the departmental graduate admission committee will make an admission recommendation. Final admission decisions are made by the dean of The Graduate College, and The Graduate College will notify the applicant of the admission decision. Applicants will receive an email notification when admitted to a program. Students who have been admitted into a degree program and do not enroll for the term of acceptance are not guaranteed acceptance for future terms.

## Decision Timeline

Admission decisions for programs admitting on a "rolling" basis will follow within 4-6 weeks from the time all application materials have been received. If the program has a firm deadline, the admissions committee may wait until after the program deadline has passed to review eligible applications. The number of applicants for a particular program influences the response time.

## Admissions Appeal

Applicants may submit an admission appeal to the dean of The Graduate College for a denial decision within three weeks of the date of the decision. An admission decision appeal form for the graduate dean is available on The Graduate College's website. (<https://www.gradcollege.txst.edu/>) The written appeal should include additional supporting documentation. Admission appeals will be answered via email within three weeks of receipt of the applicant's appeal.

Deadlines represent the last date an application will be guaranteed to be considered for admission. Many programs strictly enforce the published deadlines, and applications received after the deadline will not be considered for admission. However, other programs will review applications for domestic applicants received after the published deadline dates on a space-available basis only. For more information about specific program deadline types and dates, visit the program's admissions page on our website.

All required application materials should be submitted to through the admission portal no later than the following standard deadline dates (though some programs may have earlier deadlines and others may continue to receive applications after these deadlines) to ensure admission consideration for the desired term:

## U.S. Citizen Deadlines

Semester	Deadline
Fall	June 15
Spring	October 15
Summer I	April 15
Summer II	June 1

## International Student Deadlines

No international student applications will be processed after the published deadlines.

Semester	Deadline
Fall	June 1
Spring	October 1
Summer I	March 15
Summer II	No admission

## Admission Requirements for U.S. Citizens and applicants with Permanent Resident status

Each program's catalog or web page details the specific admission requirements for applicable semester of entry during the current academic year. Submission instruction, additional details, and changes to admission requirements for semester other than the current academic year can be found on The Graduate College's website. (<http://www.gradcollege.txst.edu/>)

## Admission Requirements for International Applicants

Texas State defines an international student as anyone who is in a non-immigrant visa status including H1-B visa holders. If you are not a U.S. Citizen, permanent resident, refugee, or asylee, you would be classified as an international student. Students who are not on a visa and are graduating from a Texas high school after three years in residence in Texas (please review Senate Bill 1528) are considered domestic applicants.

In addition to meeting the application requirements found on each program's catalog or web page, international applicants or applicants with international credentials must submit:

- \$90 non-refundable application fee.
- official transcripts (and marksheets if applicable) from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English)
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or The Graduate College for more information about these requirements.

## F-1 Visa Enrollment Requirements

A student under an F-1 international student visa must be enrolled full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. Also, F-1 international students not holding an assistantship can be enrolled in fewer than 9 hours and be considered full-time under two conditions: a) if they have completed all course work and are completing an internship integral to their degree program (student must apply for Curricular Practical Training to work off-campus), b) if they have completed all course requirements and are working on their thesis/dissertation only. The exception under a) can be granted for one semester only. The exception under b) can be granted for multiple semesters provided the student makes progress on the thesis/dissertation. A student enrolling less than full-time must apply for a reduced course load prior to enrolling or dropping a course that results in less than full-time enrollment. For more information or to submit your Reduced Course Load (RCL) request go to ISSS RCL (<https://www.international.txst.edu/current/reduced-course-load-rcl.html>) or contact International Student and Scholar Services (<https://www.international.txst.edu/>) at 512-245-7966 for more information.

For F-1 international students only one (1) distance learning class/online course per semester may be counted toward the full-time status requirement.

The chart below shows the minimum face-to-face credit hours needed for the fulfillment of full-time status. The online hours are the maximum number of online or distance learning courses that can count towards the full-time status requirement. contact International Student and Scholar Serv (https://www.international.txst.edu/es) (https://www.international.txst.edu/) at 512-245-7966 for more information.

Online	Face-to-Face
3 hours	6 hours

## Regular Admission Requirements

Regular degree-seeking admission, for most programs, may be granted if applicants:

1. have a minimum\* grade-point average (GPA) of 2.75 overall or a 2.75 on a 4.0 scale calculated on:
  - a. undergraduate work before the bachelor's degree at an accredited four-year institution,
  - b. undergraduate work before the bachelor's degree taken at an accredited four-year institution plus any completed graduate course work taken at an accredited institution, or,
  - c. undergraduate work, including those on a second baccalaureate degree. (This is the only circumstance in which undergraduate credit hours taken beyond the first baccalaureate degree are used in admission evaluation.)
2. **and** meet program specific requirements as designated on the program's catalog or web page.

Only courses with letter grades or numerical equivalents will be used in calculating the grade-point average.

\* Some graduate programs have higher GPA requirements and/or subject-specific GPA requirements. These requirements are detailed on each program's catalog or web page.

## Conditional Admission Status

The graduate advisor may recommend to the dean of The Graduate College that applicants be conditionally admitted even though they may not meet the minimum requirements for admission. This recommendation is based on evidence that an applicant can successfully pursue graduate study and governed by the stated admission policies in the prospective program. Conditional admission is not available for all programs and also not for applicants who require an "F" or "J" Visa.

When applicants are conditionally admitted to a graduate degree program, the graduate advisor, with the approval of the dean of The Graduate College, will impose certain requirements, or "conditions of admission". Each term, The Graduate College and the graduate advisor will review the progress of students admitted conditionally. When students meet the conditions of their admission, they will be eligible for regular admission to the program. When students do not satisfy the conditions of their admission, they will be dismissed from the program. Appeals may be submitted to the dean of The Graduate College and are reviewed by both the departmental graduate admission committee and dean of The Graduate College. Decisions made by the dean of The Graduate College are considered final.

## Graduating Senior Admission Requirements

Undergraduate students at Texas State who have superior academic records and lack 12 or fewer semester hours toward graduation may apply for graduate admission to a degree-seeking program to begin taking graduate course(s) during the final term of undergraduate study. Graduate course(s) taken under this status will be applied to the student's prospective master's degree. The following requirements must be met:

1. The student must be admitted with regular admission status.
2. The graduate advisor in the student's proposed major program must submit a recommendation to the dean of The Graduate College requesting that the student be admitted into the proposed major program of study as a graduating senior.

Since concurrent registration in an undergraduate and graduate program may affect financial aid awards, students should contact a financial aid officer prior to seeking graduating senior status ([www.finaid.txst.edu/fin-aid/eligibility.html](http://www.finaid.txst.edu/fin-aid/eligibility.html) (<https://www.finaid.txst.edu/fin-aid/eligibility.html>)).

Applicants who would like to take graduate courses for personal enrichment or to fulfill prerequisites for another program can take course(s) as a non-degree-seeking student. Non-degree-seeking students are not pursuing any of The Graduate College's degree programs.

## Admission Requirements for U.S. Citizens and applicants with Permanent Resident status

The items listed below are required for admission consideration:

- completed online application
- \$20 nonrefundable application fee

OR

- \$60 nonrefundable application fee for applicants with international credentials
- a baccalaureate degree from a regionally accredited university
- official transcripts (and marksheets if applicable) from the institution that shows the highest degree earned
- completed non-degree-seeking student form for each semester for which enrollment is sought

## Admission Requirements for International Applicants

Texas State defines an international student as anyone who is in a non-immigrant visa status including H1-B visa holders. If you are not a U.S. Citizen, permanent resident, refugee, or asylee, you would be classified as an international student. Students who are not on a visa and are graduating from a Texas high school after three years in residence in Texas (please review Senate Bill 1528) are considered domestic applicants

The following items, in addition to those listed for U.S. citizens, are required for admission consideration.

- official transcripts from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English).
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or The Graduate College's website for more information about these requirements.

## F-1 Visa Enrollment Requirements

A student under F-1 international student visa status must be enrolled full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. Please contact the International Student and Scholar Services at 512-245-7966 or [international@txstate.edu](mailto:international@txstate.edu) for more information.

Students currently pursuing graduate degrees at another institution may enroll in graduate courses at Texas State with the permission of the dean of The Graduate College and the graduate advisor of the Texas State academic program, and the student's primary institution. Visiting students are taking courses at Texas State to transfer credit back to their graduate-degree-granting institution and are not eligible for financial aid or certain veteran benefits.

## Admission Requirements for U.S. Citizens or applicants with Permanent Resident status

The items listed below are required for admission consideration:

- completed online application
- \$20 nonrefundable application fee
- OR
- \$60 nonrefundable application fee for applications with international credentials
- visiting student form requiring:
  - approval to take the course from the primary institution, or the institution granting the degree
  - approval from the graduate advisor or department chair in the program/department offering the course at Texas State

Visiting students should return the form signed by all appropriate parties for the dean of The Graduate College to approve at least two weeks prior to registration. The form must be completed prior to enrollment each term students wish to enroll as visiting students.

## Admission Requirements for International Applicants

Texas State defines an international student as anyone who is in a non-immigrant visa status including H1-B visa holders. If you are not a U.S. Citizen, permanent resident, refugee, or asylee, you would be classified as an international student. Students who are not on a visa and are graduating from a Texas high school after three years in residence in Texas (please review Senate Bill 1528) are considered domestic applicants.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration for international applicants or applicants with international credentials:

### International Visiting Applicants

- official English proficiency exams scores

### International Exchange Students

- the application fee is waived
- official English proficiency exams scores **or** the completed English Proficiency Waiver Form for Graduate Exchange Students

Refer to the International Admission Documents section of this catalog or the international applicant webpages for more information about these requirements. All immigration-related documents will be collected by the International Student and Scholar Services. Students seeking to attend Texas State under the F-1 status will receive an email with the next steps to request their I-20 document after they have been admitted. Visit the International Student and Scholar Services (ISSS) web site ([international.txst.edu](https://www.international.txst.edu) (<https://www.international.txst.edu/>)) for more information on the next actions to take as a prospective international student. For further information, students should contact ISSS directly via 512-245-7966 or by email at [international@txstate.edu](mailto:international@txstate.edu).

Texas State offers several certificate programs. Applicants who hold baccalaureate degrees from regionally accredited institutions must

apply through The Graduate College. All certificate course work must be completed within four years of initial enrollment.

## Admission Requirements for U.S. Citizens and applicants with Permanent Resident status

Each certificate program's catalog or web page details the specific admission requirements. Minimally, the following are required:

- completed online application
- \$20 nonrefundable application fee
- OR
- \$60 nonrefundable application fee for applications with international credentials
- baccalaureate degree from a regionally accredited university
- official transcripts (and marksheets if applicable) from **each institution** where course credit was granted

## Admission Requirements for International Applicants

Texas State defines an international student as anyone who is in a non-immigrant visa status including H1-B visa holders. If you are not a U.S. Citizen, permanent resident, refugee, or asylee, you would be classified as an international student. Students who are not on a visa and are graduating from a Texas high school after three years in residence in Texas (please review Senate Bill 1528) are considered domestic applicants.

**In addition** to meeting the application requirements found on each certificate's catalog or web page, international applicants or applicants with international credentials must submit:

- official transcripts from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English).
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official English proficiency exams scores

Refer to the International Admission Documents section of this catalog or The Graduate College for more information about these requirements.

## F-1 Visa Enrollment Requirements

A student under an F-1 student visa must be enrolled full-time (9 hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who has recently gained admission into the U.S. with a program start date to begin in the summer session must enroll full-time for that summer session. For more information go to [international.txst.edu](https://www.international.txst.edu) (<https://www.international.txst.edu/>) or contact International Student and Scholar Services at 512.245.7966 or [international@txstate.edu](mailto:international@txstate.edu).

## Certificate Course Work

Students must maintain a minimum GPA of 3.0 in order to receive a certificate of completion for the program. A final course grade of "C" or higher is required for any graduate course that may be applied towards a graduate certificate at Texas State. All certificate course work must be completed within four years of initial enrollment.

Students who are later admitted to a degree program can petition up to six hours of certificate course work to count toward the degree as long as the course work is graduate-level and completed with a grade of "B" or higher.

## Completion of Texas State Certificate

In order for students to receive their certificates, they must submit the graduation application (even though they are technically not "graduating" and are not eligible to participate in commencement) in the semester in which they plan to complete their certificate course requirements. Students in both a degree program and a certificate program who wish to apply for both programs at once must select both at the time the graduation application is submitted. Students who finish their certificate course requirements prior to their degrees can apply for the completion of a Texas State Certificate before they finish the graduate degree. Incomplete grades should be cleared through the University Registrar's Office at least ten days before the commencement date for which the certificate is to be awarded.

It is the student's responsibility to ensure completion of all certificate requirements as listed on the degree audit and required by the certificate program. It is also the student's responsibility to apply for completion of the certificate by the published deadline. Students who miss the application deadline must contact [gcdegspcl@txstate.edu](mailto:gcdegspcl@txstate.edu) for assistance.

The Educator Preparation Program (EPP) prepares candidates for numerous initial teacher certificates. The program produces teachers who are certified to teach in Texas public, charter, and private EC - 12 schools.

Post-baccalaureate students can earn initial teacher certification through the following options:

- alternative certification
- master's degree + certification
- second bachelor's degree program with teacher certification (see undergraduate catalog for admission and program requirements)

## Admission Requirements for U.S. Citizens Alternative Teacher Certification

The items listed below are required for admission consideration:

- completed online application
- \$20 nonrefundable application fee
- OR
- \$60 nonrefundable application fee for applications with international credentials
- baccalaureate degree from a regionally accredited university
- official transcript (and marksheets if applicable) from **each institution** where course credit was granted
- a 2.75 overall GPA or a 2.75 GPA on your last 60 hours of course work toward a degree

- Requisite baccalaureate coursework. Details vary according to the specific certificate chosen. Visit the program's web page for more information.

## Master's Degree + Certification Programs

Master's Program	Certification Program
Elementary Education	<b>4 - 8 English Language Arts/Reading/Social Studies</b>
Elementary Education	<b>4 - 8 Science</b>
Elementary Education	<b>4 - 8 Math</b>
Elementary Education	<b>4 - 8 Generalist</b>
Elementary Education	<b>EC - 6 Core Subjects ESL</b>
Elementary Education	<b>EC - 6 Core Subjects Bilingual</b>
Secondary Education	<b>See list of Secondary and All Level certificates</b>
Secondary Education - Teacher Recruitment Program (TRP)	<b>Contact TRP for available Secondary and All Level certificates</b>
Special Education	<b>EC - 12 Special Education</b>

## Admission Requirements for International Applicants

Texas State defines an international student as anyone who is in a non-immigrant visa status including H1-B visa holders. If you are not a U.S. Citizen, permanent resident, refugee, or asylee, you would be classified as an international student. Students who are not on a visa and are graduating from a Texas high school after three years in residence in Texas (please review Senate Bill 1528) are considered domestic applicants.

The following items, in addition to those listed for U.S. citizens, are required for admission consideration. **These items apply to both alternative certifications and master's degree + certification programs.**

- official transcripts (and marksheets if applicable) from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English)
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official (iBT) TOEFL scores with a minimum of 24 on the speaking, 22 for listening, 22 for reading, and 21 for writing. The Texas Education Agency (TEA) does not accept any other English proficiency exams.

Refer to the International Admission Documents section of this catalog or The Graduate College's website (<http://www.gradcollege.txst.edu/>) for more information about these requirements.

## F-1 Visa Enrollment Requirements

A student under F-1 international student visa must enroll full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. For more information go to [international.txst.edu](http://international.txst.edu)

(<https://www.international.txst.edu/>) or contact International Student and Scholar Services at 512.245.7966 or [international@txstate.edu](mailto:international@txstate.edu).

## Admission Requirements for the Educator Preparation Program (EPP)

In addition to the above requirements, the State Board for Educator Certification (SBEC) and Texas State University require the following items:

- completed application to the Educator Preparation Program
- accepted offer of admission and nonrefundable \$35 fee
- completed application for a Certification Plan and nonrefundable \$75 fee

Admission requirements are subject to change in response to state law and university policy and do not adhere to a particular catalog year. Review the Office of Educator Preparation website (<http://www.education.txst.edu/oep/>) for current admittance information and processes.

## Teacher Certification Requirements\*

Successful teaching requires a combination of both academic and interpersonal skills. Behaviors, skills, abilities, and dispositions which are required for successful teaching as well as the candidate's general level of readiness for teaching in EC - 12 classrooms are regularly assessed.

All candidates requesting placement in EC - 12 schools must complete a criminal background check. Each school district has its own background check process and requirements that must be met before the school district will approve a candidate's placement.

### Course Work Requirements

Once admitted to the program, candidates must apply for a certification plan and pay a fee. Each certification has different course requirements that may vary according to a candidate's academic background.

### Field Experience

A minimum of 30 clock hours of field experience observation is required; students must complete this requirement before student teaching either in a field block experience or as a stand-alone placement embedded in specific course work. Candidates must consult OEP and/or a program advisor before deciding how to fulfill this requirement.

### Student Teaching and Internship

Candidates with bachelor's degrees have two options for state-required culminating experience of the teacher certification process. Clinical teaching (student teaching) is a one-semester (six credit hours), usually unpaid, full-time experience in a local public school classroom. All course work from the certification plan must be completed prior to the student teaching semester. Students may also be approved pursue a year-long, paid internship. All course work from the certification plan and testing requirements must be completed prior to yearlong paid teaching internship.

### Teacher Certification Exams

The Texas Examination of Educational Standards (TEXES) is the state required teacher examination for all Texas Educators. A candidate's certification area and level will determine which TEXES tests are required.

Candidates are allowed five attempts for each certification test and must request approval from the OEP for each attempt. Review the OEP website for the test approval process. Candidates are eligible for test approval up to 2 years after completing the program.

### Certification Recommendation

The certification officer will recommend candidates to the state for issuance of a teaching certification, after all the following have been completed:

- passing scores on all the required certification exams
- credit for student teaching or internship posted to the transcript
- bachelor's degree on file with the university
- completed application for certification through TEA

\* Program requirements are subject to change in response to state law and university policy and do not adhere to a particular catalog year. Review the Office of Educator Preparation website (<https://www.education.txst.edu/oep/>) for current program requirements and processes.

## Holders of Valid Out-of-State Certificates

The State Board for Educator Certification (SBEC) reviews out-of-state teacher certificates. Contact the SBEC at 888-863-5880.

Professional and specialist teacher certifications are available for principal, counselor, superintendent, and reading specialist. These programs are offered as stand-alone certifications (for those who already have a master's degree) or as part of a master's degree program (master's degree + certification). Refer to each individual departmental section of this catalog for specific information or visit The Graduate College's website. (<http://www.gradcollege.txst.edu/>)

## Admission Requirements for U.S. Citizens Stand-Alone Certifications (Principal, Superintendent)

The items listed below are required for admission consideration:

- completed online application
- \$20 nonrefundable application fee
  - or
- \$60 nonrefundable application fee for applicants with international credentials
- baccalaureate degree from a regionally accredited university
- master's degree from a regionally accredited university
- official transcripts (and marksheets if applicable) from **each institution** where course credit was granted
- a 2.75 overall GPA or a 2.75 GPA on the last 60 hours of undergraduate course work toward a degree
- copy of official teaching certificate documenting initial teaching certification (Principal, Superintendent, and Reading Specialist only)
- copy of official teaching service record documenting at least one year's teaching experience in public or accredited private school (Principal, Superintendent, and Reading Specialist only)
- copy of official principal certificate\* (for superintendent certification applicants only)

\* The program will also accept the equivalent of a principal certificate issued by another state or country or the completion of the

superintendent certificate application and approval from the Texas Education Agency (TEA) to substitute three years' managerial experience in lieu of a principal certificate.

Admission Requirements for International Applicants

Texas State defines an international student as anyone who is in a non-immigrant visa status including H1-B visa holders. If you are not a U.S. Citizen, permanent resident, refugee, or asylee, you would be classified as an international student. Students who are not on a visa and are graduating from a Texas high school after three years in residence in Texas (please review Senate Bill 1528) are considered domestic applicants. The following items, in addition to those listed for U.S. citizens, are required for admission consideration.

- official transcripts (and marksheets if applicable) from every institution attended: one in the native language of the country where the university is located and one certified English translation (if transcripts are issued in a language other than English)
- two copies of the graduation/degree certificate (diploma) showing the type of degree and the date in which the degree was earned, one in the native language of the country where the university is located and one certified English translation.
- official (iBT) TOEFL scores of 78 or higher, with a minimum of 26 on the speaking section and a minimum of 19 in all other sections. The Texas Education Agency (TEA) does not accept any other English proficiency exams.

Refer to the International Admission Documents section of this catalog or The Graduate College's website (<https://www.gradcollege.txst.edu/>) for more information about these requirements.

F-1 Visa Enrollment Requirements

A student under F-1 international student visa status must be enrolled full-time (nine hours) in the fall and spring terms. The only exception to this rule is if you are currently under a Post-Completion OPT period and in good F-1 status. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gained admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. For more information go to [international.txst.edu](https://international.txst.edu) (<https://www.international.txst.edu/>) or contact International Student and Scholar Services at 512.245.7966 or [international@txstate.edu](mailto:international@txstate.edu).

[www.txst.edu/cpm/](https://www.txst.edu/cpm/) (<https://www.txst.edu/cpm/>)  
Telephone: 512-245-3453 Fax: 512-331-7293

Texas State has been officially designated by the National Consortium of Certified Public Managers (CPM) to offer the CPM Program. The CPM Program offers a systematic training program to enhance the quality and efficiency of management in government and to improve professionalism and effectiveness of government managers. Individuals may enroll at any

time during the year; programs are held approximately every two to three months depending on location. Admission to Texas State is not required. Courses may be completed for academic credit.

The CPM Program is a nationally accredited comprehensive statewide management development program specifically for managers in federal, state, and local government and for managers in the not-for-profit-sector. The program's primary goal is to improve the performance of public and not-for-profit sector managers and the organizational performance of state, local, and federal government. The program is a comprehensive course of study by which public managers can acquire and apply the best practices and theory to their management behaviors and strategies using prescribed sets of professional standards. The curriculum uses theory as the foundation and applies it to practical problems facing the participant's agency/department, and the citizens. Those who complete the program earn a national trademark designation of CPM (Certified Public Manager®).

The Texas CPM Program, a 7-course sequence which leads to a nationally accredited public manager certification, is offered by Texas State University's William P. Hobby Center for Public Service.

Applicants

Applicants wishing to change their application to a different term will be required to submit a new application and pay the non-refundable application fee.

Admitted Students

Students who are accepted into a degree program and fail to enroll for the term of acceptance are not guaranteed acceptance for future terms. In some programs, students may contact admissions about the possibility of a deferral for a maximum of two full terms.

Once admitted, students are expected to enroll each fall and spring term (summer is optional for most programs).

Previously enrolled students must submit the update enrollment form (<http://www.gradcollege.txstate.edu/forms/update.html>) in order to enroll if it has been less than a year since their last enrollment.

Previously enrolled students who fail to enroll within a one-year period will be required to submit a new admission application and non-refundable application fee. Other application documents may be required in certain circumstances. Students should review additional enrollment requirements and policies that relate to their program of study. Please see the leave of absence policy in the Academic and Grading Policies section of this catalog for more information.

Students who wish to pursue a second simultaneous or subsequent graduate degree or change a major must submit an application for admission and all required admission documents as indicated on the program's catalog or web page. This procedure must be completed in ample time to meet the admission deadlines.

Admission to one program does not guarantee admission to another program. No courses applied toward one graduate degree may be simultaneously applied toward another graduate degree. Students changing majors and admitted to a new graduate degree program may be permitted to count some or all of the graduate-level courses taken in their previous program toward their new graduate program. At the recommendation of the graduate program advisor, graduate-level courses from another program may be petitioned to the dean of The

Graduate College for degree credit provided a degree was not awarded for the previous program. No credit will be applied toward the master's degree for work completed more than six years before the date on which a student's degree is to be conferred unless an exception has been approved by the graduate advisor and dean of The Graduate College.

Students on probation or suspension (p. 814) may not change programs without a recommendation and request from the prospective department. The dean of The Graduate College will review the request and make the final decision.

If a student was previously granted admission as a post-baccalaureate/post-graduate student and wishes to apply for admission to a degree program, the student must submit an application for admission as well as the required admission documents as indicated on The Graduate College's website (<https://www.gradcollege.txst.edu/>). This procedure must be completed in ample time to meet the admission deadlines.

After students are regularly admitted to a graduate degree program, they may be permitted to count some of the graduate-level courses taken under the post-baccalaureate or post-graduate status toward their graduate degrees. At the recommendation of the student's graduate advisor, up to six hours of graduate-level courses taken under the post-baccalaureate or post-graduate status with a grade of "B" or better may be petitioned to the dean of The Graduate College for degree credit.

Thornton International House  
<https://www.tsie.txst.edu/>  
T: 512-245-7966

The Texas State Intensive English (TSIE) Program offers non-credit intensive English-as-a-Second-Language (ESL) courses for students who:

- want to improve their command of the English language prior to beginning /or during college or university-level programs of study;
- would like to polish their English language abilities for academic readiness, test preparation, self-improvement, and/or cultural integration.

Classes emphasizing academic reading, writing, listening, and speaking are offered during the fall, spring, and summer sessions in a face-to-face format. International students on F-1 visas are required to enroll in a full course of study every fall and spring semester. When registering for TSIE classes, these students should consult International Student and Scholar Services for instructions on maintaining visa status.

All admission materials must be submitted to The Graduate College through the appropriate channel and in the requested format. Materials submitted become the property of the university and cannot be released, except in accordance with the Federal Family Educational Rights and Privacy Act or the Texas Public Information Act. Non-required admission materials mailed or emailed will not be retained, nor will documents submitted without the officially designated admission application. Submission instructions and information can be found on our website.

## Submission Instructions

Additional details for the items below are located on The Graduate College's submission information web page.

## Application

Applications for admission to The Graduate College must be submitted online through the admission application portal. Applications are for specific programs and specific semesters. Applicants wishing to change their application to a different semester or program will be required to submit a new application and pay the non-refundable application fee.

## Application Fees

A non-refundable application fee of \$55 is required for all degree-seeking applicants. Degree seeking applications with international credentials will incur a \$90 application fee. A \$20 non-refundable application fee is required for applicants seeking certification, certificate, non-degree, or visiting student status. Non degree-seeking applications with international credentials will incur a \$60 application fee. In addition to the \$55 application fee, a \$25 non-refundable application fee is required for applicants to the doctor of physical therapy program. No application will be processed until the necessary fees are paid. Please note that a \$30 returned item fee will be charged if the payment is returned for Insufficient Funds, Account Closed, or a Stop Pay has been put on the payment.

## Official Transcripts

Applicants must submit official transcripts from each institution attended to admissions prior to registration. Applicants may upload copies of all official transcripts directly to the application portal for application review purposes.

Applicants must hold a four-year baccalaureate degree from a regionally accredited institution at minimum. The requirements for international transcripts can be found in the International Admission Documents section of the catalog.

Transcripts must be sent directly from the university or college attended, via USPS or secure electronic delivery, or submitted in a sealed university envelope with the University Registrar's signature on the back of the envelope in order to be considered "official". The transcript must reflect all college work attempted and any degree(s) conferred. Scanned or faxed copies of transcripts will not be considered official. Texas State students are not required to supply transcripts for course work completed at Texas State or transfer work found on their Texas State transcript.

## Departmental Requirements

Additional admission requirements vary per program and are detailed on each program's catalog or web page.

## Test Scores

### Graduate Record Examination (GRE)

Some programs require official GRE scores to be on file prior to admission consideration. Official GRE scores may be required by other programs if the GPA is below the minimum. Additional information can be found on each program's catalog or web page.

Applicants who must submit official GRE scores should take the general portion (verbal and quantitative sections) of the exam. The writing section is also required for some programs. Subject examinations are neither required nor accepted.

The GRE score is valid for five years after the exam date and must be sent directly from the testing center. Scores requested by the student

before the deadline, but received by admissions after the deadline, will be considered late.

## Graduate Management Admission Test (GMAT)

The GMAT is required to be on file with prior to admission consideration for some programs. Additional information can be found on each program's catalog or web page.

The GMAT score is valid for five years after the exam date and must be sent directly from the testing center. Scores requested by the student before the deadline, but received by admissions after the deadline, will be considered late.

## English Proficiency Exam Scores

The Requirements for the Test of English as a Foreign Language (TOEFL), Pearson Academic English Language Test (PTE Academic), International English Language Testing System (IELTS), Duolingo (DET), or TOEFL Essentials can be found in the International Admission Documents section of this catalog.

## Documentation of Meningitis Immunization

Universities in Texas are required by state law to collect proof of bacterial meningitis vaccination, or proof of an exemption, for incoming students under the age of 22. For more information on this requirement, please visit the admissions webpage at <https://www.admissions.txst.edu/admitted-students/meningitis-vaccination.html>.

In addition to all general admission requirements, applicants with international credentials (including any study abroad or exchange course work) or English proficiency exam scores, may be required to submit the following requirements for admission consideration.

## Application Fee for Applications with International Credentials

Applicants who require a visa and those with documents that require the review of any non-U.S. credentials or English proficiency exam scores must submit a nonrefundable application fee of \$90. No application will be considered until the necessary fees have been paid.

## Official Transcripts/Marks Sheets

The Graduate College requires two official, university-sealed transcripts (and marksheets if applicable) from every university attended: one in the native language of the country where the university is located and one certified translation into English. If the native language of the country where the university is located is English, only one official transcript is required. Transcript evaluations are not required. Academic records (transcripts and mark sheets) must be submitted directly to The Graduate College by post in an envelope sealed by the university recognized by the appropriate bodies of that country and must include official stamps, seals, and/or signatures from the university's Registrar or Controller of Examinations. These documents must be printed on university letterhead in order to be considered official. Copies of official transcripts and mark sheets may be uploaded to the application portal for application review purposes.

## Graduation/Degree Certificate (Diploma)

The Graduate College requires two copies of official diplomas or degree certificates: one in the native language of the country where

university is located and one certified translation into English. Certificates must include the type of degree earned and the date the degree was awarded, as well as all official stamps, seals, and/or signatures from the university's Registrar or Controller of Examinations Office.

## Official English Proficiency Exam Scores

Fluency in English is expected of all accepted students, specifically in the areas of listening, reading, speaking, and writing; therefore, English proficiency exam scores through the Test of English as a Foreign Language (TOEFL), Pearson Test of Academic English (PTE), International English Language Testing System (IELTS), Duolingo (DET), or TOEFL Essentials are required of all applicants.

ALL TOEFL, PTE, IELTS, DET, or TOEFL Essentials scores submitted for admission consideration must be less than two years old as the testing service sites will not maintain or release official score records beyond this time. ALL TOEFL, PTE, DET, or TOEFL Essentials scores must be submitted to The Graduate College directly by the testing organization. IELTS scores may be reported by the applicant by completing the TRF Verification Form on the applicant's application portal. The applicant's IELTS scores will be confirmed with IELTS by the Graduate College; score reports bearing the designation of "applicant copy" or "institutional scores" will not be considered official for admission purposes. Scores requested by the student before the deadline, but received by The Graduate College after the deadline, will be considered late.

## English-Proficiency Admission Requirements

Applicants must submit a TOEFL internet-based test (iBT) score of at least 78 overall, a PTE score of 52 overall, or an IELTS (academic) test score of at least 6.5 overall with 6.0 in each individual module scores, a DET score of 110 overall, or TOEFL Essentials score of 8.5 overall in order to be considered for regular admission based on English proficiency\*. Some programs may require a higher overall score or specific minimum individual iBT section scores in order to be considered for regular admission. Additionally, some programs may require that applicants submit scores for one specific type of test. These requirements are listed on each program's catalog or web page.

\* Regular admission based on English proficiency does not guarantee regular academic admission.

All immigration-related documents will be collected by the International Student and Scholar Services. Students seeking to attend Texas State under the F-1 status will receive an email with the next steps to request their I-20 document after they have been admitted. Visit the International Student and Scholar Services (ISSS) web site ([international.txst.edu](http://international.txst.edu)) (<https://www.international.txst.edu/>) for more information on the next actions to take as a prospective international student. For further information, students should contact ISSS directly via 512-245-7966 or by email at [international@txstate.edu](mailto:international@txstate.edu).

## Registration and Course Credit

Since applications are for specific semester or terms, applicants should notify The Graduate College as soon as possible if they will not be enrolling for the semester of admission.

If you are an international student with an issued I-20 from Texas State, and are planning on deferring your attendance, you should also notify International Student and Scholar Services (ISSS) by filling out the

deferral form (<https://www.international.txst.edu/prospective/deferral-i20request.html>).

Texas State uses an online registration system referred to as Texas State Self-Service which requires admission to the university and an associated NetID and password. Texas State Self-Service can be accessed through CatsWeb (<http://www.catsweb.txstate.edu/>). For more information, students should access the Office of the University Registrar's website at <http://www.registrar.txstate.edu>.

## Registration Termination

Registration in The Graduate College beyond the first term depends on satisfactory progress in fulfilling any admission conditions that may have been imposed and making satisfactory progress.

The dean of The Graduate College may terminate the registration of any student who fails to comply with Graduate College and/or other appropriate university regulations.

## Course Load and Overloads

### Course Load

A master's level student under F-1 international student visa status must be enrolled full-time (six semester hours) in the fall and spring terms. A doctoral level student under F-1 international student visa status must be enrolled full-time (nine semester hours) in the fall and spring terms. An F-1 student does not have to enroll during the summer if the student is eligible and intends to register for the next term. A new initial F-1 student who recently gain admission into the U.S. with a program start date set to begin in the summer session must enroll full-time for that summer session. Also, an F-1 international student not holding an assistantship can be enrolled in fewer than above outlined hour minimum and be considered full-time under two conditions: a) if they have completed all course work and are completing an internship integral to their degree program (student must apply for Curricular Practical Training to work off-campus), b) if they have completed all course requirements and are working on their thesis/dissertation only. The exception under a) can be granted for one semester only, the exception under b) can be granted for multiple semesters provided the student makes progress on the thesis/dissertation. A student enrolling less than full-time must apply for a reduced course load prior to enrolling or dropping a course that results in less than full-time enrollment. For more information or to submit your Reduced Course Load (RCL) go to ISSS RCL (<https://www.international.txst.edu/current-f1-students/reduced-course-load-rcl.html>) or contact International Student and Scholar Services (<https://www.international.txst.edu/>) at 512-245-7966 for more information.

For F-1 international students only one (1) distance learning class/online course per semester may be counted toward the full-time status requirement.

The chart below shows the minimum face-to-face credit hours needed for the fulfillment of full-time status. The online hours are the maximum number of online or distance learning courses that can count towards the full-time status requirement. contact International Student and Scholar Services (<https://www.international.txst.edu/>) at 512-245-7966 for more information.

Online	Face-to-Face
Masters 3 hours	Masters 6 hours
Doctoral 3 hours	Doctoral 6 hours

The department or operating unit will determine the permissible course load of employees of the university under their supervision. Graduate assistants should refer to the *Salaried Graduate Student Employment Procedures* outlined in UPPS 07.07.06.

A student receiving Veterans Affairs (VA) benefits must check with the VA office (512-245-2641) for enrollment requirements.

### Overloads

Course loads of 16 hours or more require written approval from the dean of The Graduate College. To request an overload, the student must make a request to the major department advisor who must submit a written request to the dean of The Graduate College at least three days before registration. Note that different limits apply to students holding graduate assistantships as described in <https://policies.txst.edu/university-policies/07-07-06.html>.

### Credit Hour

For purposes of this catalog and in accord with federal regulations regarding the definition and assignment of credit hours under section 600.0 and 600.24(f) of the Higher Education Opportunity Act, a credit hour is an amount of work that reasonably approximates:

- not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately 15 weeks for one semester or trimester hour of credit, or 10 to 12 weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time;
- at least an equivalent amount of work as outlined in the item above for other academic activities as established by the institution including laboratory work, internships, practicum, studio work, and other academic work leading to the award of credit hours.

A semester credit hour is defined by the Texas Higher Education Coordinating Board as a unit of measure of instruction consisting of 60 minutes, of which 50 minutes must be direct instruction over a 15-week period in a semester system. Credit hours must be presented in whole numbers. Academic administrative units are responsible for ensuring that credit hours are awarded only for work that meets this requirement. Students should expect to invest a minimum of two hours of additional work for each hour of classroom or faculty instruction per week.

## Adds and Drops/Schedule Changes

Information regarding schedule changes can be found on the Office of the University Registrar's website at <http://www.registrar.txstate.edu/>. Schedule changes and withdrawal dates are published each term in the official university calendar that can be found at: <http://www.registrar.txstate.edu/persistent-links/academic-calendar.html>.

For assistance, contact the Office of the University Registrar.

## Auditing a Course

To audit a course, a student must be admitted to The Graduate College. After the student has registered on *CatsWeb*, he or she must contact the Office of the University Registrar in person by the 4<sup>th</sup> class day in the summer or by the 12<sup>th</sup> class day in the fall or spring. Check the University Academic Calendar for the exact date. A student will pay the same fees as if the course were taken for credit and the course will be entered on his or her transcript record, but the student will not receive credit for the course.

Senior citizens, 65 or older, may audit courses without payment of a fee if space is available. Registration is permitted just prior to the start of the term, with reductions made by the tuition adjustment clerk, in Student Business Services (JC Kellam Administration Building 188), after registering.

## Course Numbers

Texas State follows a four-digit numbering system. The first digit indicates the level of the course: 1-freshman, 2-sophomore, 3-junior, 4-senior, 5- and 6-graduate and post-graduate, and 7-doctoral. Courses numbered 5000-6000 are open to all graduate students. Courses numbered 7000 are designed for doctoral students but may be open to other graduate students. The second digit of the course number indicates the semester credit hours the course carries. For example, a course numbered 5300 would carry three semester hours of graduate-level credit. The last two digits usually indicate the location of the course in the department's curriculum. The letter (A, B, C, etc.) at the end of a course number usually indicates a topics course whose content may vary from semester to semester. Numbers in parentheses (3-4) following a course title indicate the clock hours per week spent in lecture and laboratory, respectively.

## Dropping a Class

Dropping a class is an official action whereby a student drops one or more courses, yet remains enrolled in at least one hour. Refer to the registration instructions at <http://www.registrar.txstate.edu> for details on dropping a class.

1. The drop deadline is the first 60 percent of the term. Please refer to the academic calendar on the Office of the University Registrar's website for the most current dates.
2. A "W" grade will be assigned automatically when a student drops one or more classes by the automatic "W" deadline, the first 60 percent of the term.

## Withdrawal from all classes

Withdrawing from the university (dropping all classes) is an official action whereby a student completes the online withdrawal form that goes to the Office of the University Registrar. The deadline to withdraw (go to zero hours) from Texas State is two weeks preceding final examinations during the fall and spring semesters and one week preceding final examinations during the two parts of summer term.

1. The deadline to receive an automatic "W" is the first 60 percent of the term. Refer to the academic calendar on the Office of the University Registrar's website for the most current dates.
2. After the automatic "W" period, faculty assign grades to students who officially withdraw from the university. Faculty assign a "W" grade only to those students who have a passing average at the time the withdrawal action is officially completed. Otherwise, faculty assigns a "U" grade.
3. Please refer to the academic calendar on the Office of the University Registrar's website for the withdrawal deadline.

Visit the Office of the University Registrar's website at <http://www.registrar.txstate.edu/> or contact the Office of the University Registrar at 512.245.2367 for the proper procedures. Students living in university residence halls must also contact the Department of Housing and Residential Life in person, by letter, or by fax.

## Course Credit and Level

A student must be in attendance in class, fulfill the course requirements, and be evaluated by the course instructor in order to receive course credit for that class. The attendance requirement to receive class credit does not affect enrollment for thesis, dissertation or independent study.

A student must be enrolled in the course during the term or summer session in which they receive credit for that class. A student may not enroll in a class to:

1. Receive credit for course work performed in a preceding term or summer session.
2. Receive credit for work performed at another college or university.

## Course Level

All courses required for the graduate degrees offered at Texas State are at the 5000-level or above. Courses required for the doctoral level are at the 7000-level.

## Repeating Courses

A student may repeat a course but cannot receive credit for the course more than once unless the course description in the catalog specifically provides that the course may be repeated for credit. When a course is taken more than once, the second grade (first repeat) and all subsequent grades (repeats) are included in computing the Texas State hours attempted, grade points earned, and GPA. "W", "PR", and "I" grades are excluded. If a course taken at Texas State University is to be repeated, it must be retaken at Texas State University.

## Post-Graduate Credit

After a student is regularly admitted to a graduate degree program, they may be permitted to utilize some of the courses taken as a post-graduate, teacher certification, non-degree, or certificate student toward their graduate degree. At the recommendation of the student's graduate advisor and with approval of the dean of The Graduate College, up to six hours of graduate-level courses taken under the post-graduate status with a grade of "B" or better may be petitioned for degree credit.

## Transfer Credit

After a student is regularly admitted to a graduate degree program, they may be permitted to utilize some graduate level courses taken at another institution toward their graduate degree program. Acceptable transfer credit may be applied to a graduate degree program as follows:

- up to 6 hours for degree programs with 30-35 credit hours,
- up to 9 hours for degree programs with 36-41 credit hours, and
- up to 12 hours for degree programs with 42+ hours.

(Note that the total approved course transfer credit and prior learning assessment (PLA) credit approved together must not exceed those amounts.)

An exception to the standard maximums is the mathematics education doctoral program (p. 3256). Transfer credit will be accepted and applied upon confirmation of the following requirements:

1. The credit was earned in graduate courses completed in residence at a regionally accredited institution.
2. The courses are at the appropriate level and applicable to the student's degree program at Texas State.

3. Courses have not been, and will not be, used for credit toward another degree program.
4. If the credits were earned **prior** to the student's admission to his or her degree program within The Graduate College, the student must have his or her program graduate advisor submit a written request to the dean of The Graduate College asking for acceptance of the transfer work toward the student's Texas State degree program.
5. If the credits are to be earned **after** the student is admitted to The Graduate College or enrolled in a graduate degree program, the student must initiate a request for a letter of good standing well in advance of the time of anticipated enrollment at another university. Transfer credit **cannot** be permitted if the student fails to obtain a letter of good standing from the dean of The Graduate College prior to enrollment in the course(s) to be transferred. In order to obtain a letter of good standing, the student will need to:
  - a. Receive permission from the departmental graduate advisor to take a course elsewhere.
  - b. Have the graduate advisor submit a written request to the dean of The Graduate College so that the dean can issue an official letter of good standing. The request from the advisor should identify the course(s) by name and number and should state what term(s) and where the course(s) will be taken. If the dean of The Graduate College approves the request, a letter of good standing will be sent by the dean of The Graduate College to the university where the student will enroll.
  - c. Have an official transcript of the work forwarded to The Graduate College at Texas State as soon as the grade(s) posts to the transcript at the other institution.

**Transfer work will be accepted only** if it bears a letter grade of "B" or higher, or a numerical equivalent. A grade of "Credit," "Pass," "Satisfactory," etc., is unacceptable. Transfer work will not be accepted for graduate degree credit from another institution if such courses are designated as non-degree, background, preparatory, etc. No credit will be awarded until an official transcript showing the course work to be transferred is on file in The Graduate College. The student may also be requested to provide a catalog from the transferring university that gives course descriptions for any transfer work requested. Students admitted on "Conditional Admission" or students on "Probation/Suspension" will not receive credit for transfer work taken under the aforementioned status. The dean of The Graduate College determines the applicability of transferred credit toward a graduate degree program at Texas State based on the recommendation of the program's graduate advisor. Applicability of transferred credit is made on a course-by-course basis. Students may appeal courses deemed non-transferrable. The dean of The Graduate College, or designee, and graduate advisor review student appeals for re-evaluation of transferred credit.

## Transcripts for Transfer Work

Texas State transcripts will separate transfer course work from Texas State course work. On the transcript, transfer work will be listed first, followed by Texas State course work. In each section, course work will be listed chronologically. The transcript will show the number of hours transferred, Texas State hours attempted, Texas State hours passed, Texas State grade points, and Texas State GPA.

Credits transferred are included in the total hours the student has earned, but the grades and quality points do not affect the student's Texas State GPA. However, transfer grades and quality points do calculate into an overall GPA.

## Prior Learning Assessment

Prior Learning Assessment (PLA) is the process for awarding course credit for specific knowledge and skills the student has acquired outside of an institution of higher education, prior to beginning the student's program of study at Texas State University. PLA must always be tied to official student learning outcomes of a specific course at Texas State and that course requirement is then waived for the student.

There are a limited number of credits that can be waived through PLA, which depend on the number of credits in the degree program. Approved PLA credit may be applied to a graduate degree program as follows:

- up to 6 hours for degree programs with 30-35 credit hours,
- up to 9 hours for degree programs with 36-41 credit hours, and
- up to 12 hours for degree programs with 42+ hours.

(Note that the total approved PLA credit and approved course transfer credit together must not exceed those amounts.)

PLA is program-specific, not all programs have approved PLA processes, and requirements may differ from program to program. If a program allows PLA credit, specific requirements are described on the overview section of that program's catalog entry.

## Continuing Education

With a wide range of learning opportunities, Texas State Global offers Continuing Education opportunities that extend the resources of Texas State and contribute to the professional and economic development of Texas. Enrollment is open to all interested persons on a non-credit-hour basis; therefore, the courses are not offered through The Graduate College and do not apply toward a graduate degree, nor are they considered for regular admission. For information about continuing education programs, go to <http://www.txstate.edu/continuinged/>.

## Distance and Extended Programs

The university offers many courses and programs via distance learning and extended hours on evenings and weekends at the San Marcos and Round Rock campuses.

All graduate courses and programs offered to distance learners carry the same course number, title, and description as those offered at the San Marcos and Round Rock campuses.

Courses offered at a distance are identified each term in the Texas State Schedule of Classes and on CatsWeb. For more information on distance and extended learning at Texas State, visit <http://www.distancelearning.txstate.edu> (<http://www.distancelearning.txstate.edu/>).

For F-1 international students only one (1) distance learning class/online course per semester may be counted toward the full-time status requirement.

The chart below shows the minimum face-to-face credit hours needed for the fulfillment of full-time status. The online hours are the maximum number of online or distance learning courses that can count towards the full-time status requirement.

For more information contact International Student and Scholar Services at [international@txstate.edu](mailto:international@txstate.edu) or 512-245-7966.

## Extension Courses

The Distance and Extended Programs department offers many college courses not normally offered through the academic departments/schools. Extension courses may be offered on campus, online, hybrid/blended, or as part of a faculty-led Study-in-America or Off-Campus program. The times and locations for such courses depend on student need, faculty availability, and demand. Enrollment for an extension class is completed through the Office of Distance and Extended Programs department and does not constitute acceptance as a regular student at Texas State.

For F-1 international students the same requirements apply as in the distance or extended courses. For more information contact International Student and Scholar Services at [international@txstate.edu](mailto:international@txstate.edu) or 512-245-7966.

### Degree Credit for Extension Course Work

The department chair and the dean of The Graduate College must approve extension work for it to be credited toward a graduate degree. Students must meet the admission requirements as identified under the "Master's and Doctoral Degree-Seeking Applicants" section and be accepted in a degree program before extension work can receive degree credit. **Extension course work cannot be used toward a doctoral degree at Texas State.**

A maximum of 12 semester hours of graduate credit may be earned in extension courses offered by Texas State.

### Extension Transfer Credit

Up to three semester hours of the total allowable six hours of transfer credit for a degree may be earned through extension courses from another accredited institution. Students admitted on "Conditional Admission" or students on "Probation/Suspension" will not receive credit for transfer work taken under the aforementioned status.

For more information on Distance and Extended Programs at Texas State please visit the Distance and Extended Learning page (p. 794).

## Class Attendance

Texas State expects students to attend every scheduled class meeting. General requirements for class attendance are as follows:

1. Faculty are encouraged to establish mandatory attendance requirements in each course.
2. Each faculty member will inform students of the course attendance policy at the initial class meeting.
3. Students are responsible for understanding the attendance policy for each course in which they enroll and for meeting the attendance requirements.
4. Failure to meet the attendance requirements in a course may lower a grade.
5. Students who do not begin attendance will be administratively dropped from the course during the roster certification period.

### Religious Holy Days

"Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code. In accordance with Texas Education Code Section 51.911, if a student notifies the instructor(s) of each class from which they will be absent due to the observance of a religious holy day, the student

will be allowed to take an examination or complete an assignment scheduled for that absent day within a reasonable time after the absence. The Education Code includes excused absences for travel to and from the religious holy day observance. The student may make up class assignments or examinations without penalty within a reasonable time after the absence. A student who is excused under this section shall not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time. Each instructor may establish additional procedures to accommodate the needs of students who are absent from classes to observe a religious holy day. These procedures must not conflict with the state law.

Coordinating Board rules provide for an appeal of a disagreement between the student and a faculty member over an absence related to a religious holy day. If a student and an instructor disagree about the nature of the absence being for the observance of a religious holy day, or if there is a disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the president or the president's designee. The president or the president's designee must consider the legislative intent of Education Code Section 51.911. The student and instructor shall abide by the decision of the president or the president's designee. The academic dean of each college serves as the president's designee to hear requests for decisions on these matters from either the faculty member or the student. Any questions concerning this policy should be directed to the Dean of Students Office.

## Course Grades

### Grade Symbols

Texas State grades are assigned as follows "A," excellent; "B," good; "C," passing (**not at the doctoral level**); "D," passing (**not at the graduate level**); "F," failure; "I," incomplete; "U," unearned "F" (student was not academically engaged until end of term) or withdrawn failing; "DA" (Dropped administratively due to never attended); and "W," withdrawn passing. A grade of "PR," in most instances may be temporary and non-punitive, but may be assigned in selected courses where the required clock hours needed to complete requirements extend beyond the regular term or summer session. A grade of "CR" is assigned when credit only is given for a course, as, for example, in a thesis course after completion of the thesis. A grade of EP (emergency passing) may be used during significant disruptions to academic operations credited by health pandemics or natural disasters. The EP grades indicates passing credit given and counts toward attempted hours, excess hours and repeat calculations. The EP grade does not count in GPA calculations. For a complete list of grades currently and previously used at Texas State visit the Office of the University Registrar's website at <http://www.registrar.txstate.edu/our-services/grades.html>

### Incomplete Grade (<http://www.registrar.txstate.edu/our-services/grades.html>)

The "I" grade may be assigned when a student, for non-academic reasons beyond their control, has not completed a portion of the course. If a student needs to repeat a course or a significant portion of a course, a "W", "F", or "U" grade should be assigned according to regulations governing the assignments of such grades. An "I" grade from Texas State will not count as hours completed until another grade is assigned.

One year from the semester in which a Texas State "I" grade is assigned, or a time period specified by the instructor, whichever is shorter, the I

grade will automatically be changed to an "F" if the coursework has not been completed. The grade of "I" may be changed only to another letter grade and may not be extended beyond one year from term in which the original grade was assigned. A grade of "I", once changed to an "F" or another letter grade, may not be changed back to a grade of "I".

Once the grade of "I" has been changed to another letter grade, it will be computed in the student's grade point average (GPA). An "I" grade transferred from another institution remains as "I" on the Texas State record until an updated transcript is received from the other institution.

A graduate student cannot graduate with an "I" grade on their record. If the student wishes to graduate and if the course is not needed for the degree requirement, the "I" grade will have to be converted to an "F" regardless of whether the one-year time period has passed or not. A grade change request may be submitted by no later than the end of the final examination period before the student's graduation. If no grade change request is received, the grade of "I" will convert to an "F" and will be computed in the student's overall GPA.

## Withdrawal Grade

A "W" grade cannot be assigned if the student has not officially dropped the course within the semester deadline. A grade of "W" is assigned if a student drops a course by the Automatic "W" Drop/Withdrawal Deadline (see University Calendar in this catalog). After the Automatic "W" Drop/Withdrawal Deadline, a "U" or "W" will be assigned depending on whether the student is passing ("W") or failing ("U") the course at the time the drop/withdrawal action is officially completed. For a complete list of grades currently and previously used at Texas State visit the Office of the University Registrar's website at [www.registrar.txst.edu/our-services/grades.html](http://www.registrar.txst.edu/our-services/grades.html) (<https://www.registrar.txst.edu/our-services/grades.html>).

## Change of Grade

An individual course grade may be changed when the involved faculty member certifies to the Office of the University Registrar that an error was made in computing the original grade. The grade change must be approved by the department chair/school director and the appropriate college dean. Students who wish to protest a grade earned in a course should first discuss the grade with the instructor. If no resolution is reached, the student may appeal the grade to the department chair. If no satisfactory conclusion can be reached at this level, the student may appeal to the college dean in which the course is offered, whose decision is final. In accordance with Texas State's records retention policies, a student appeal for a change of grade must be filed no later than two years after the grade is issued.

## Grade Point Average (GPA)

Texas State utilizes the four-point system. The GPA is the total number of grade points earned divided by the number of semester hours attempted. Semester grade symbols have the following values: "A" = 4 points; "B" = 3 points; "C" = 2 points; "D" = 1 point; "F" and "U" = 0 points. Neither hours nor grades are calculated for "I", "CR", "PR", "NC", or "W".

## Student Indebtedness

All University property in a student's possession must be returned and all debts to Texas State, including past due indebtedness to loan funds, must be satisfactorily adjusted before the student is eligible to receive a statement of good standing, an official transcript of credit, graduation, or re-admission to Texas State. Moreover, continued failure to adjust such debt may result in the student's losing the privilege of attending class.

## To Whom the Policy Applies

Doctoral students who have achieved candidacy, and thus have a continuous enrollment requirement during long (fall and spring) semesters, may take an approved Leave of Absence during graduate study under certain conditions and for certain periods of time. A Leave of Absence must be approved by both the student's graduate advisor and the dean of The Graduate College. A Leave of Absence cannot be approved retroactively for a previous semester and must be submitted no later than the 12th class day of the semester for which the leave is being requested.

Pre-candidacy doctoral students and master's students are not required to complete Leave of Absence paperwork if stopping out; however, it is recommended that they do so as the process provides a vehicle for more easily resuming their studies. Leave of Absence forms are located here (<https://www.gradcollege.txst.edu/forms.html>).

## Purpose and Limitations

Students may need to discontinue their studies ("stop out") for a short period of time for reasons of personal or family exigency. Students who do not receive an approved Leave of Absence may be denied readmission to their program when attempting to reenter the program. Students who do not receive an approved Leave of Absence but are still readmitted may experience delays in registration and/or face additional fees. An approved Leave of Absence preserves the student's status in their degree program. Leaves of Absence may not be granted for the student to avoid exceeding the state doctoral hour limit, to avoid paying tuition, to avoid the regulation on continuous enrollment of doctoral students, or to avoid the full-time requirement for international students.

## Access to University Resources During a Leave of Absence

Because the Leave of Absence is intended to be taken for reasons of personal or other exigency as opposed to degree progress, there is no support — whether faculty or university resources (library, office space, etc.) — provided to the student during the Leave of Absence period; students must register if making use of university resources or faculty time. A Leave of Absence does not extend a student's time-to-degree requirement. Discontinuing studies for a semester or more, with or without a Leave of Absence, may affect the student's eligibility for other university areas beyond The Graduate College's domain (such as financial aid, health insurance, etc.), and the student is responsible for consulting with those offices about the impact of not maintaining enrollment in the degree program.

## Length Limitations of a Leave of Absence

A Leave of Absence can be granted for no more than three long semesters (fall and spring) total. The exact length of the Leave must be made explicit in the Leave of Absence request. Rationale for the Leave must be documented by the applicant.

## Process for Requesting a Leave of Absence

Doctoral students who have advanced to candidacy must fill out the Doctoral Candidate Leave of Absence form ([https://www.gradcollege.txst.edu/docs/Leave\\_of\\_Absence\\_Form\\_for\\_Doctoral\\_Degree\\_Candidates.pdf](https://www.gradcollege.txst.edu/docs/Leave_of_Absence_Form_for_Doctoral_Degree_Candidates.pdf)), which will require justification from the appropriate graduate advisor. The form

must be submitted to The Graduate College for the dean's review and approval.

## Process for Returning to the University after an Approved Leave of Absence

Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not an approved Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Enrollment form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to reapply to the program.

Depending on the length of time the student is away from the university, a new graduate catalog and/or program degree requirements may be in effect. With an approved Leave of Absence, the student may opt to complete their degree under the previous degree requirements or the new requirements with the approval of the graduate advisor; if the student was away from the university for a semester or more without an approved Leave of Absence on file, the student must complete their degree under the new degree requirements.

The university has a continuous enrollment policy for one category of graduate students, namely doctoral students who have achieved candidacy. For other categories of graduate students – pre-candidacy doctoral students, specialist degree students, and master's degree students – while there is an expectation of enrollment each semester in order to make progress toward the degree, there is no specific continuous enrollment requirement. For that reason, The Graduate College does not require notification if a student decides not to enroll in a given semester. However, students may want to inform their program that they are stopping out for a period of time, and programs may find that information useful in tracking student progress. In those cases, students may complete the *Leave of Absence Form for Master's Degree, Specialist Degree, and Pre-Candidacy Doctoral Students* form and provide it to their program. The program should then provide the form to The Graduate College to expedite processing readmit applications.

Leave of Absence is a separate process from withdrawing. Withdrawing from the university (dropping all classes) is an official action whereby a student informs Texas State that they will cease to attend all classes in which they are enrolled. The deadline to withdraw (go to zero hours) from Texas State is two weeks preceding final examinations during the fall and spring semesters and one week preceding final examinations during the two parts of the summer term. Visit the registrar's office website at [www.registrar.txst.edu](http://www.registrar.txst.edu) (<https://www.registrar.txst.edu/>) or contact the registrar's office at 512.245.2367 for the proper procedures.

## Process for Returning to the University after a Leave of Absence

Upon resuming graduate studies after a semester of non-enrollment, all students must submit reentry paperwork, regardless of whether or not a Leave of Absence form is on file. If the student is returning after an absence of less than one calendar year, only the Update Enrollment form is required. If the student is returning to studies after an absence of over a calendar year, it is necessary to submit a readmit application to the program through the admission portal.

As members of a community dedicated to learning, inquiry, and creation, the students, faculty, and administration of our university live by the

principles in this Honor Code. These principles require all members of this community to be conscientious, respectful, and honest.

## We are Conscientious

We complete our work on time and make every effort to do it right. We come to class and meetings prepared and are willing to demonstrate it. We hold ourselves to doing what is required, embrace rigor, and shun mediocrity, special requests, and excuses.

## We are Respectful

We act civilly toward one another and we cooperate with each other. We will strive to create an environment in which people respect and listen to one another, speaking when appropriate, and permitting other people to participate and express their views.

## We are Honest

We do our own work and are honest with one another in all matters. We understand how various acts of dishonesty, like plagiarizing, falsifying data, and giving or receiving assistance to which one is not entitled, conflict as much with academic achievement as with the values of honesty and integrity.

## The Pledge for Students

Students at our university recognize that, to ensure honest conduct, more is needed than an expectation of academic honesty, and we therefore adopt the practice of affixing the following pledge of honesty to the work we submit for evaluation:

"I pledge to uphold the principles of honesty and responsibility at our university."

## The Pledge for Faculty and Administration

Faculty at our university recognize that the students have rights when accused of academic dishonesty and will inform the accused of their rights of appeal laid out in the student handbook and inform them of the process that will take place:

"I recognize students' rights and pledge to uphold the principles of honesty and responsibility at our university."

## Addressing Acts of Dishonesty

Students accused of dishonest conduct may have their cases heard by the faculty member. The student may also appeal the faculty member's decision to the Honor Code Council. Students and faculty will have the option of having an advocate present to ensure their rights. Possible actions that may be taken range from exoneration to expulsion. Information about the Honor Code Council and its policies and procedures may be found at <http://www.txstate.edu/honorcodecouncil/>.

A prospective graduate/doctoral assistant must be enrolled as a regular, degree-seeking student in The Graduate College. Graduate/doctoral assistants may be employed as teaching assistants, instructional assistants, research assistants, or graduate assistants. The information below can also be found in UPPS 07.07.06. Salaried Graduate Student Employment.

## Types of Graduate Assistantships

- **Graduate Teaching Assistants and Doctoral Teaching Assistants (GTA/DTA)** are currently enrolled students employed by an

academic department, paid from faculty salaries and reported as the “teacher of record” for an organized undergraduate class. Graduate teaching assistants and doctoral teaching assistants receive a faculty contract for a semester or the academic year, are paid on a monthly basis, and are exempt from The Fair Labor Standards Act (FLSA). The student must hold a master’s degree in the teaching discipline or have completed eighteen graduate semester hours in the teaching discipline. (Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Principles of Accreditation.)

Graduate teaching assistants and doctoral teaching assistants must submit a complete faculty applicant packet that consist of a faculty employment application, official transcripts from all degree-granting institutions, a current vita or resume, a Criminal Background Check Consent Form and an English Proficiency Form.

- **Graduate Instructional Assistants and Doctoral Instructional Assistants (GIA/DIA)** are currently enrolled students employed by an academic department, paid from faculty salaries, but are not reported as the “teacher of record.” Graduate instructional assistants and doctoral instructional assistants are responsible for a specific group of students (typically undergraduate students) and assign some portion of these same students’ grades. If graduate students are assigned as instructional assistants in graduate courses, they cannot grade other students’ work nor have access to their grades. The dean of The Graduate College will allow an exception for doctoral instructional assistants assigned to master’s level classes, provided there is no conflict of interest. Prior to making the appointment, programs should consult with the graduate dean. The academic department may pay graduate instructional assistants’ salaries for those assisting in the operation of a lab or an activity or recitation group from course fees collected for this purpose. Graduate instructional assistants and doctoral instructional assistants are appointed for a semester or the academic year, paid on a monthly basis, and are exempt from the FLSA.
- **Graduate Research Assistants and Doctoral Research Assistants (GRA/DRA)** are currently enrolled students employed by a department or university office and may receive pay from grants or sponsored programs, indirect cost recovery, designated lines in faculty start-up accounts approved by the Division of Research, restricted accounts if the funding source allows, or other accounts approved by the Provost.. Chapter 10 of the US Department of Labor’s Field Operation Handbook defines research assistants as students “engaged in research in the course of obtaining an advanced degree and the research is performed under the supervision of a member of the faculty in a research environment provided by the institution under a grant or contract.” If employed on a grant, the work performed must directly relate to the objectives of the grant. Graduate research assistants and doctoral research assistants can be appointed for a semester, the academic year, or the duration of a research project or any portion thereof, and paid on a monthly basis. They are classified as exempt under FLSA.
- **Graduate Assistants and Doctoral Assistants (GA/DA)** are currently enrolled students employed by a department or university office and may receive pay from grant or university funds. Responsibilities may include research (not under the supervision of a faculty member), technical assistance, and institutional support. To avoid conflicts of interests, graduate and doctoral assistants cannot have access to records of graduate students of their degree-granting department. Graduate assistants and doctoral assistants who have access to records must be Family Educational Rights and Privacy Act (FERPA) trained and sign a confidentiality agreement. Graduate and doctoral

assistant positions are non-exempt and are subject to the minimum wage and overtime provision of the FLSA. Students employed in these positions must enter all hours worked that deviate from their default schedule in the SAP Employee Self-Serve Portal. Time entry guidelines can be found on the Human Resources website (<http://www.hr.txstate.edu/benefits.html>). Students employed in these positions are not eligible for concurrent employment as a teaching, instructional, or research assistant.

## Academic Expectations

All assistants must have unconditional acceptance into a graduate degree program. All assistants must maintain a minimum 3.0 Texas State GPA in course work leading toward completion of a graduate degree.

## Course Load

The minimum course load required during a fall/spring term of employment as a graduate assistant is nine graduate semester hours. Students who enrolled in nine graduate semester hours during the prior spring and fall semesters (or with an approved exception on file) are not required to enroll during the summer; otherwise, enrollment in three graduate hours is required for the summer term. Assistants taking more than 12 graduate semester hours during the fall/spring terms must have approval from the dean of The Graduate College. Similarly, assistants taking more than six graduate semester hours per summer session must have approval from the dean of The Graduate College. If an international student starts their degree program in the summer they must be enrolled in 9 semester hours in the summer.

## Required Teaching Assistantship Courses

As a condition of employment, all GTAs, DTA, GIAs, and DIAs must complete a total of three hours of professional development course work. The course titles for the required in-service teaching courses vary by department. Some departments offer one three-hour course, some departments offer a two-hour and one-hour course for a combination of three hours, and other departments offer a one-hour course to be taken three times. Assistants enroll in the course offered by the department in which they are employed during their first term of employment and continue to enroll in subsequent terms until the three-hour requirement is met, as applicable. **Students may not enroll in this course work beyond the required three hours.** Up to a total of three semester hours may be used with other graduate courses to satisfy the minimum nine semester hours of enrollment required as a condition of employment. The University administration will cover the fees and tuition for the required teaching assistantship course (up to a total of three semester credit hours only). The hiring department must submit the Mandatory Graduate Assistantship Courses form, which requires the student’s signature, prior to census day. The form is located under University Approved Forms at [www.sbs.txst.edu/students/waivers-exemptions.html](http://www.sbs.txst.edu/students/waivers-exemptions.html) (<https://www.sbs.txst.edu/students/waivers-exemptions.html>).

## Allowable Work Hours

During the fall and spring terms, assistants may work up to 50% (20 hours per week) full time equivalent (FTE). During the summer term, assistants may be approved by the dean of The Graduate College for additional hours, up to a maximum of 75% FTE (30 hours per week) only if the entire position is externally grant-funded and up to a maximum of 100% FTE if the position is externally funded and the project is directly related to the student’s thesis or dissertation thesis/dissertation. An exception request with justification from the graduate advisor or department chair approved by the dean of The Graduate College must be on file with The Graduate College for employment requested over 50% FTE.

## Teaching Load for Graduate/Doctoral Teaching Assistants

The usual semester hour teaching load during the fall or spring term is six semester hours or two classes. The usual semester hour teaching load during a six-week or eight-week summer session is one course (up to a maximum of four hours). A twelve-week summer session carries a normal teaching load of six hours. The dean of The Graduate College must approve any exceptions to these teaching loads.

These policies are designed to protect the graduate/doctoral assistant from bearing an unfair employment and course load, which could impede the timely completion of the degree.

Refer to UPPS 07.07.06 (<http://www.txstate.edu/effective/UPPS/upps-07-07-06.html>), Salaried Graduate Assistant Employment Procedures, for more detailed information regarding salaried graduate student employment procedures.

### Assistantship Orientation

Most departments conduct one or more orientation sessions for new assistants. Newly-hired assistants should inquire about orientation attendance requirements with the department or university office at the time they apply for employment.

## Academic Eligibility Requirements

To see a detailed list of academic and enrollment requirements needed to be eligible for a specific assistantship position, please view The Graduate College's guide ([https://www.gradcollege.txstate.edu/docs/gapcr\\_checklist.pdf](https://www.gradcollege.txstate.edu/docs/gapcr_checklist.pdf)).

## How to Apply for a Graduate Assistantship

Applications for assistantships should be made directly to the department or university office following their application procedure. It is also possible to apply for certain assistantship positions online through Career Services at Handshake (<https://txstate.joinhandshake.com/login/>).

## Selection and Appointment

Offers of assistantships are contingent on available funds and admission of the applicant to a degree-seeking graduate program. Graduate assistantship appointments range from a four-and-one-half month period during a summer term to a nine-or-twelve-month period during the fall or spring term. The term of an appointment for a Research Assistant may be based on the period of available grant funding. Renewal is at the discretion of the department or university office for which the student is employed. In all cases, the account manager or the manager's designee will decide who is hired in accordance with the qualifications and standards required for the position.

## Supervision and Evaluation

Teaching assistants are the "teacher of record" for the course(s) assigned; however, they are under the direct supervision of a faculty member experienced in the teaching discipline. Instructional assistants are supervised by the Instructor of Record or Laboratory Coordinator of the courses assigned. Research assistants are usually supervised by the faculty member or office supervisor with whom they work. All assistantship positions undergo regular evaluation as required by the department in which they are employed.

## Salaries and Benefits

Assistants are paid in accordance with the University Pay Plan salary schedule which can be viewed at [www.hr.txst.edu/compensation/universitypayplan/studentemployees.html](http://www.hr.txst.edu/compensation/universitypayplan/studentemployees.html) (<https://www.hr.txst.edu/compensation/universitypayplan/studentemployees.html>).

## Eligibility for In-state Tuition

Graduate assistantship types may qualify for tuition waivers through the office of Student Business Services. For more details, please refer to the Tuition Waivers and Exemptions webpage here: <http://www.sbs.txstate.edu/students/waivers-exemptions.html>.

## Health Insurance

Graduate Assistants, employed at least half-time (50% FTE) for a minimum period of four and a half consecutive months, are eligible for employer group insurance plans administered by the Human Resources Benefit Office. Assistants may choose between the Student Insurance Plan administered by the Student Health Center and the Employer Group Insurance Program administered by the Human Resources Office. Also, some assistants may already be covered by insurance outside the university and, therefore, may choose not to enroll in a health insurance option offered by Texas State. Assistants should refer to the comparison summary on the Human Resources Office web site in order to make an educated decision. UPPS 07.09.04 International Student Health Insurance, requires all enrolled international students with non-immigrant F-1 and J-1 visa classifications to purchase coverage under the designated international student health insurance policy as a condition of enrollment. The premium will be automatically billed to the international student's account.

## Non-Discrimination

Texas State University's graduate student employment policy and procedures must comply with UPPS 04.04.46, Prohibition of Discrimination.

## Student Employee Termination, Separation, and Grievance Procedures

The policy and procedures for addressing unsatisfactory job performance and separation are outlined in UPPS 07.07.04. This policy also describes the available employment grievance procedures available to student employees.

A graduate or post-graduate student as defined in this catalog is required to maintain a 3.0 cumulative grade-point average (GPA) for all Texas State University 5000-, 6000-, and 7000-level courses (excluding required leveling courses) listed on a student's degree audit for a graduate degree. Cumulative GPAs are computed at the end of the fall term, the spring term, and the summer.

If a **graduate student's** cumulative GPA falls below 3.0 during any term of enrollment at Texas State, the student will be placed on academic probation. In the next term of enrollment, the student **must** raise his or her cumulative graduate GPA to 3.0 or above or be suspended from further graduate study at Texas State. When the student has achieved a cumulative GPA of at least 3.0 at the end of the term of probation, the student will be removed from probation status. In the event a student has enrollment with no punitive grades for the semester, such as W or I grades, the academic standing from the previous semester will remain. When a grade changes, then the academic standing rules apply and updates are made to the student's record.

## Readmission

A student on suspension may petition the graduate dean for permission to re-enroll in The Graduate College. An appeal form for the graduate dean is available on The Graduate College's website (<https://www.gradcollege.txst.edu/forms.html>). This written appeal should include additional supporting documentation. The appeal will be reviewed by the graduate advisor and subsequently by the dean of The Graduate College. Each readmission decision is made on an individual basis and the dean of The Graduate College's decision is final. If a reinstatement is approved, the date of the reinstatement depends on the timing of the appeal, program policies, and/or conditions of the reinstatement. If a student is readmitted after being suspended, the student must maintain a 3.0 cumulative GPA or be suspended again. Individual graduate programs may also impose additional cumulative GPA or course restrictions for their students.

## Change of Major

Graduate students on probation may not change programs or admission status without a recommendation and request from the prospective department. The dean of The Graduate College will review the request when making the final decision. If a suspended student wants to pursue a different program, the student must first submit an appeal to be reinstated to the dean of The Graduate College. The written appeal should include a justification. If the dean of The Graduate College grants permission to a student to pursue a different program, the student must submit an application for admission in the online application portal and comply with instructions as identified under the degree-seeking admission requirements section of the catalog. This procedure must be completed in ample time to meet the admission deadlines. Acceptance in one program does not guarantee acceptance in another program.

## Financial Aid

If a student is receiving financial aid, the student must also meet the satisfactory academic progress requirements for financial aid. See the Financial Aid section under General Information for further details.

## SACSCOC Accreditation

Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) accreditation is institutional in nature. Although many programs are accredited by other agencies, SACSCOC accredits the university as a whole, not specific degrees or programs.

## Degree Audit

On the admission application, a student must select from available choices: major, minor, cognate, no minor option, area of concentration, degree type (M.A., M.Ed., M.S., Ph.D., etc.), and, for the master's degree, thesis, or non-thesis track. After being admitted to a program, the student may access a degree audit from Texas State Self-Service (CatsWeb) using *Degree Works* software. The degree audit will guide the student in selecting courses for registration each term. The student should meet with their graduate advisor during the first term of admission to discuss options and review the degree program. Requests for changes to a student's degree audit must be submitted by the student's advisor to the dean of The Graduate College for approval.

Because graduate degree programs are individualized according to degree type and student goals, a student's particular degree program may exceed the number of hours identified for the program in this catalog.

## Background/Leveling Course Requirements

Students should refer to the appropriate departmental pages in this catalog for specific information about background/leveling requirements or contact the graduate advisor for their program of study.

Course work identified on a student's official degree audit as background/leveling is not awarded graduate degree credit and is not used in the computation of the graduate GPA. See the "General Graduation Requirements" section.

Graduate advisors may stipulate that one undergraduate course be taken as a background requirement. All other background course deficiencies must be satisfied by the student enrolling in graduate-level leveling courses.

## Degree Time Limit

A program leading to a master's or specialist degree must be completed within six years from the date of a student's initial enrollment in the program for which they were admitted. An exception to the standard six-year time limit is the nursing program. No credit will be applied toward the master's degree for work completed more than six years before the date on which a student's degree is to be conferred unless an exception has been approved by the graduate advisor and dean of The Graduate College. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for time extensions must be submitted to a student's graduate advisor, who in turn submits a petition through the degree audit system to the dean of The Graduate College for final approval.

A program leading to a doctoral, Ph.D. or Ed.D. degree must be completed within ten years from the date of a student's initial enrollment in the program for which they were admitted. No credit will be applied toward the doctoral degree for course work completed more than ten years before the date on which a student's degree is to be conferred unless an exception has been approved by the program director and dean of The Graduate College. This time limit applies to credit earned at Texas State as well as credit transferred to Texas State from other accredited institutions. Requests for time extensions must be submitted to a student's doctoral program director, who in turn submits a petition to the dean of The Graduate College for final approval. Doctoral students should refer to the appropriate departmental section of this catalog for specific time limit requirements regarding advancement to candidacy and dissertation completion.

## 99 Hour Rule

In accordance with Texas Education Code, Section 54.066, the university will incur a penalty once a doctoral student accumulates 100 or more doctoral semester credit hours. In response, the Texas State University System has a tuition structure (excessive hours fee) in which a doctoral student will be charged tuition at a rate equivalent to non-resident tuition for all doctoral semester credit hours exceeding 99. Courses taken by a doctoral student at the master's or undergraduate level will not count towards the 99 hours. If the student is admitted to a doctoral program from the bachelor's degree, the count begins after 30 hours of graduate course work. This tuition structure applies to Texas residents as well as out-of-state residents and international students who were eligible to be charged tuition at the resident rate as a result of scholarship and fellowship awards or employment as graduate assistants. Students

should contact their doctoral program directors regarding an available appeal process.

## Catalog

Students completing graduate programs within the degree time limits may graduate under the catalog in effect when they begin the graduate program. In certain programs, additional hours may be added to the degree for accreditation or additional research purposes. Should a program change occur and the student wish to graduate under the new program requirements, the student must submit a request to their graduate advisor, who in turn submits a petition in the degree audit system for final approval from the Graduate Dean. A student who has questions should contact either The Graduate College or their graduate advisor.

Academic advising for students is handled through the student's major department (or minor department if applicable) after the student has received formal acceptance to The Graduate College. This method of advisement ensures that students will receive sound academic advice from faculty in their chosen field of study. Students must adhere to program-specific policies and procedures listed in departmental handbooks and may wish to discuss these policies and procedures with their graduate program advisor.

## Applying for Graduation and Participation in Commencement

In order to graduate and participate in commencement activities, students must apply for graduation during the semester they plan to graduate. It is the responsibility of the student to ensure completion of all degree requirements as listed on the degree audit and required by the department. It is also the student's responsibility to apply for graduation by the published deadline posted on the University Academic Calendar. That date, as well as other deadline dates and instructions outlining how to apply for graduation, are posted on The Graduate College website each term and communicated via the *GradBulletin* and social media and the academic calendar. For further information, contact The Graduate College at 512-245-2581 or visit our website (<https://www.gradcollege.txst.edu/>).

## The Difference Between Participating in Commencement and Graduating

"Graduating [receiving a diploma]" and "participating [walking across the stage]" in the commencement ceremony are two distinctly different things. Candidates will be considered "graduated" when they have officially met all of the following:

1. have applied for graduation online by the posted semester deadline
2. have had their application approved by The Graduate College
3. have completed all degree requirements
4. have had final semester grades posted to their Texas State transcript
5. have paid any outstanding fees owed to the University
6. Graduate College Dean, has certified candidates as graduates

Participating in the ceremony does not mean that a candidate has completed the requirements for graduation. "Walking/participating" at a commencement ceremony is not synonymous with "graduation;" yet the act of obtaining public recognition may provide a false impression that a

candidate has met all requirements and has therefore "graduated" with a diploma in hand.

Ultimately, the final awarding of degrees, honors, and mailing of the diplomas is contingent upon the satisfactory completion of the appropriate requirements by each candidate and the Graduate Dean's final certification.

### Letter of Completion

If students fail to apply for graduation by the published deadline date, a letter of completion may be requested. Students must submit a new graduation application by the published deadline on the University Academic Calendar, and the diploma will be mailed the following term.

### Reapplication for the Degree

If students fail to complete degree requirements in time for their planned graduation, they must then reapply for the next (or later) graduation within the period announced on the University Academic Calendar graduation.

## Comprehensive Examination

All candidates for graduate degrees must pass one or more comprehensive examinations, either written, oral, or both, covering at least the field of concentration and the thesis or dissertation if one is written. Students seeking more than one degree must take a comprehensive examination for each degree major. The examination for a master's degree may not be taken until the student has completed at least 18 semester hours of graduate degree credit and may not be taken before the final term if the student has a grade deficiency.

Students must be enrolled in at least one credit hour of coursework when taking the comprehensive examination. If a student has completed all required coursework in a previous semester but still needs to complete the comprehensive examination, the student should enroll in GC 5100: Comprehensive Examination Contingency. GC 5100 is a course designed for non-thesis master's degree students who have completed all program requirements except the comprehensive examination, and enrollment in GC 5100 is required each term in which the comprehensive examination is taken **only if no other courses are being taken that term**. GC 5100 does not generate a grade and does not count toward degree requirements.

F-1 non-immigrant international students must contact the International Office at 512-245-7966 to verify that they are in lawful F-1 status, especially if the comprehensive examination is the final requirement remaining.

Arrangements for the examination may be made with the student's graduate advisor or the department chair. The Master's Comprehensive Examination form should be filed in The Graduate College by the last day of the term as published on the academic calendar. The department is responsible for submitting the report to The Graduate College.

## GPA Requirements for Graduation

To be eligible for graduation, a student must have a GPA of at least 3.0 for each major and minor/cognate listed on the degree audit. A final course grade of "C" or higher is required for any graduate course that could be applied towards a graduate degree at Texas State. Some degree programs may call for higher minimum GPA and/or course grade requirements. In addition, no grade earned below "B" on any graduate course may apply toward a doctoral degree at Texas State with the exception of the Doctor of Physical Therapy program.

## Background/Leveling Work

Background/leveling work is not computed in the graduation GPA requirement, nor is graduate-degree credit granted for background work for the degree to be earned.

## Incomplete Grades

Incomplete grades should be cleared through the University Registrar's Office **at least ten days before the commencement for which the degree is to be conferred.**

## Hours Requirements

Graduate degree programs range from 30-99 hours of coursework. Master's degree programs require a minimum of 30 semester credit hours with a maximum of 69. Students obtaining certification may be required to complete additional hours.

Doctoral students should refer to the appropriate departmental section of this catalog for specific credit hours to satisfy degree requirements. Doctoral degree programs range from 46-99 semester credit hours.

## Residency Requirement

Texas State University has specific guidelines regarding the number of hours that can be transferred in (see the section of this catalog on transfer credit (<http://mycatalog.txstate.edu/graduate/regISTRATION-course-credit/course-credit/>)). With appropriate justifications, exceptions can be granted by the dean of The Graduate College. However, at least one-third of credit hours required for a graduate or a post-baccalaureate professional degree must be earned through instruction at Texas State. In addition, doctoral students must satisfy a one-year residency requirement: This means that doctoral students, as part of their required hours of coursework, must take at least 18 graduate credit hours offered by Texas State during consecutive fall, spring, and summer terms. These courses can be offered in any format (face-to-face, online, hybrid). In other academic years, doctoral students can be enrolled in fewer hours. This is to ensure a substantial engagement with the subject area, ideally at the beginning of their studies.

## Recommendation for the Degree

The dean of The Graduate College certifies candidates for graduation after the completion of all requirements for the appropriate graduate degree and with the approval of the departments concerned. Degrees are conferred publicly at the close of the fall term, the spring term, and the summer term.

If a student is admitted to a master's degree program with a thesis option for the degree, a committee to direct the written thesis will be established. The thesis must demonstrate the student's capability for research and independent thought. Preparation of the thesis must conform to the Thesis & Dissertation Resource Guides (<https://www.gradcollege.txst.edu/students/thesis-dissertation/resources.html>).

## Thesis Proposal

The student must submit an official Thesis Proposal Form (<https://www.gradcollege.txst.edu/docs/thesis-proposal.pdf>) and proposal to his or her thesis committee. Thesis proposals vary by department and discipline. Please see your department for proposal guidelines and requirements. After signing the form and obtaining committee members' signatures, the graduate advisor's signature and the department chair's signature, the student must submit the Thesis Proposal Form with one copy of the proposal attached to the dean of The Graduate College for

approval before proceeding with research on the thesis. If the thesis research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board prior to submitting the proposal form to The Graduate College. The IRB approval letter should be included with the proposal form. If the thesis research involves vertebrate animals, the proposal form must include the Texas State IACUC approval code. It is recommended that the thesis proposal form be submitted to the dean of The Graduate College by the end of the student's enrollment in 5399A. Failure to submit the thesis proposal in a timely fashion may result in delayed graduation.

## Thesis Committee

The thesis committee must be composed of a minimum of three approved graduate faculty members. The committee must have a majority of members from the student's current program at Texas State.

## Thesis Enrollment and Credit

The completion of a minimum of six hours of thesis enrollment is required. For a student's initial thesis course enrollment, the student registers for thesis course number 5399A. After that, the student will enroll in thesis B courses in each subsequent semester until the thesis is defended with the department and approved by The Graduate College. Preliminary discussions regarding the selection of a topic and assignment to a research supervisor does not require enrollment for the thesis course.

Students must be enrolled in thesis credits if they are receiving supervision and/or are using university resources related to their thesis work. The number of thesis credit hours students enroll in must reflect the amount of work being done on the thesis that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the thesis process. Failure to register for the thesis course during a term in which supervision is received may result in postponement of graduation. After initial enrollment in 5399A, the student will continue to enroll in a thesis B course as long as it takes to complete the thesis. Thesis projects are by definition original and individualized projects. As such, depending on the topic, methodology, and other factors, some projects may take longer than others to complete. If the thesis requires work beyond the minimum number of thesis credits needed for the degree, the student may enroll in additional thesis credits at the committee chair's discretion. In the rare case when a student has not previously enrolled in thesis and plans to work on and complete the thesis in one term, the student will enroll in both 5399A and 5399B. Thesis hours are not permitted to count as elective credit.

The only grades assigned for thesis courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a thesis course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the thesis is completed. Thesis hours are not permitted to count as elective credit in non-thesis track degrees. The thesis credit remains on the transcript as a PR grade and in the open electives block of Degree Works. Thesis credit ("CR") will be awarded only after the thesis has been both approved by The Graduate College and released to Alkek Library.

A student who has selected the thesis option must be registered in at least one hour of thesis course credit each fall and spring semester (and summer, if receiving thesis supervision and/or using university resources) until the thesis has been completed, defended, submitted, and approved by The Graduate College.

## Thesis Deadlines and Approval Process

Thesis deadlines are posted on The Graduate College (<http://www.gradcollege.txstate.edu/>) website under "Current Students." Students must consult with their committee chair to determine the date by which the thesis must be submitted to their thesis committee chair and thesis committee, prior to the defense date. Some students will have additional revisions to complete after the thesis defense. Once the final version of the thesis is approved by the committee, the student must submit the correctly-formatted thesis to Vireo on or before the deadlines listed on The Graduate College website. No edits are permitted under any circumstances after the thesis is approved by The Graduate College. Theses submitted after the Vireo submission deadline will not be reviewed for formatting or approved until the following semester. Students must be enrolled in the semester they graduate.

The following must be submitted to The Graduate College by the thesis deadline listed on The Graduate College website:

1. The Thesis Submission Approval Form bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the thesis in final form, approved by all committee members, uploaded in the online Vireo submission system.

After the thesis is approved by The Graduate College, revisions to the document are no longer allowed and Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student's embargo selection). Students should discuss the appropriate embargo selection before submitting the thesis to Vireo. Students have the following options for the embargo:

1. No embargo
2. One or two-year embargo
3. Five-year embargo
4. Specials request embargo (inventions, discoveries, patents, privacy hold)

All forms must have all appropriate signatures. In addition to original (wet) signatures, the following methods of signing are acceptable:

- printing, signing, scanning, and emailing the form
- notifying the department in an email from their university's or institution's email account that the committee chair can sign the form on their behalf
- downloading and digitally signing the form per our instructions using the university's licensed platform (which is currently Adobe Acrobat)\*

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

All theses and dissertations are submitted to the Library through Vireo, the electronic thesis and dissertation deposit platform. The Library harvests approved these and dissertations from this system for the online repository. The Library will retain a print copy of every student's thesis/dissertation for their circulating collection and a microfilm copy for the University Archives, regardless of the embargo selection. Supplementary files are excluded from this policy. The Library does not provide binding services. Some programs require the student to deposit a hard copy with the department, so students should check with their departments regarding bound copies of theses/dissertations.

The student is responsible for paying all binding fees for personal and departmental copies. Please contact Alkek Library for more information.

The dissertation must demonstrate the student's capability for original scholarly contributions to their field of study. The preparation of the dissertation must conform to Thesis & Dissertation Resource Guides. All forms referenced in this section can be found on The Graduate College website. Where indicated, forms must be completed and signed by the student, the committee members, the committee chair, the doctoral program director, and the department chair and then forwarded to The Graduate College for review and approval by the dean of The Graduate College. The preparation of the dissertation must conform to Thesis & Dissertation Resource Guides (<https://www.gradcollege.txst.edu/students/research-thesis-dissertation/thesis-dissertation.html>).

## Dissertation Committee

The dissertation committee must be composed of approved doctoral graduate faculty members. The minimum number of committee members varies by doctoral program. The majority of the committee members must be from the student's current program at Texas State. The student should consult with the doctoral program director regarding the composition of the committee. To form the dissertation committee, the Dissertation Committee Request Form ([https://www.gradcollege.txst.edu/docs/Dissertation\\_Committee\\_Request\\_Form.pdf](https://www.gradcollege.txst.edu/docs/Dissertation_Committee_Request_Form.pdf)) must be completed and signed as indicated on the form.

## Dissertation Proposal and Defense

The student must submit the dissertation proposal and an official Dissertation Proposal and Proposal Defense Form ([https://www.gradcollege.txst.edu/docs/Dissertation\\_Proposal\\_and\\_Proposal\\_Defense\\_Form.pdf](https://www.gradcollege.txst.edu/docs/Dissertation_Proposal_and_Proposal_Defense_Form.pdf)) to his or her dissertation committee. If the dissertation research involves human subjects, the student must obtain exemption or approval from the Texas State Institutional Review Board (IRB) prior to submitting the proposal form to The Graduate College. The IRB approval letter must be included with the proposal form. If the dissertation research involves vertebrate animals, the Dissertation Proposal and Proposal Defense Form must include the Texas State IACUC approval code. Each Ph.D./Ed.D. program prepares its own procedures for the dissertation proposal defense. The procedures may be obtained from the doctoral program director. Following the dissertation proposal defense, members of the dissertation committee, the doctoral program director and the department chair sign the Dissertation Proposal and Proposal Defense Form. The signed form and one copy of the proposal are then submitted to the dean of The Graduate College for approval before the student proceeds with research on the dissertation.

## Dissertation Enrollment and Credit

A Ph.D./Ed.D. student may typically begin enrolling in a dissertation course during the term following completion of required course work as specified by the Ph.D./Ed.D. program. The number of dissertation credit hours students enroll in must reflect the amount of work accomplished on the dissertation that semester. It is the responsibility of the committee chair to ensure that students are making adequate progress toward their degree throughout the dissertation process. **Once the student advances to candidacy, the student must continue to enroll in at least one hour of dissertation course credit each fall and spring semester (and summer, if receiving dissertation supervision and/or using university resources) until the dissertation has been completed,**

**defended, submitted, and approved by The Graduate College.** The minimum number of hours of required dissertation credit varies by Ph.D./Ed.D. program. Dissertation projects are by definition original and individualized projects. Thus, depending on the topic, methodology, and other factors, some projects may take longer than others to complete.

If the dissertation requires work beyond the minimum number of dissertation credits needed for the degree, the student may enroll in additional dissertation credits at the committee chair's discretion.

The only grades assigned for dissertation courses are PR (progress), CR (credit), W (withdrew), and F (failing). If acceptable progress is not being made in a dissertation course, the instructor may issue a grade of F. If the student is making acceptable progress, a grade of PR is assigned until the dissertation is completed. Dissertation credit ("CR") will be awarded only after the dissertation has been approved by The Graduate College and released to Alkek Library.

A student must be registered for a dissertation course during the term in which the degree will be conferred. For summer graduation, student must be registered for dissertation course in Summer I (during the summer, the dissertation course runs ten weeks for both sessions)..

## Dissertation Deadlines and Approval Process

Dissertation deadlines are posted on The Graduate College (<https://www.gradcollege.txst.edu/>) website under "Current Students." Students must consult with their committee chair to determine the date by which the dissertation must be submitted to their dissertation committee chair and dissertation committee, prior to the defense date. Some students will have additional revisions to complete after the defense. Once the final version of the dissertation is approved by the committee, the student must submit the correctly formatted dissertation to Vireo on or before the deadlines listed on The Graduate College website. No edits are permitted under any circumstances after the dissertation is approved by The Graduate College. Dissertations submitted after the Vireo submission deadline will not be reviewed for formatting or approved until the following semester. Students must be enrolled in the semester they graduate.

The following must be submitted to The Graduate College by the dissertation deadline listed on The Graduate College website:

1. The Dissertation Submission Approval Form, bearing original (wet) and/or electronic signatures of the student and all committee members.
2. One (1) PDF of the dissertation in final form, approved by all committee members, uploaded in the online Vireo submission system. Some doctoral programs may require additional copies; the student should check with the doctoral program director regarding additional program requirements.

After the dissertation is approved by The Graduate College, Alkek Library will harvest the document from the Vireo submission system for publishing in the Digital Collections database (according to the student's embargo selection). Ph.D./Ed.D. students must submit the completed Survey for Earned Doctorates (SED) online by The Graduate College dissertation approval deadline which is available on The Graduate College website. It is recommended that students discuss the appropriate embargo selection before submitting the dissertation to Vireo. Students have the following options for the embargo:

1. No Embargo
2. One or two-year embargo
3. Five-year embargo
4. Special request embargo (inventions, discoveries, patents, privacy hold)

All forms must have all appropriate signatures. In addition to original (wet) signatures, the following methods of signing are acceptable:

- printing, signing, scanning, and emailing the form
- notifying the department in an email from their university's or institution's email account that the committee chair can sign the form on their behalf
- downloading and digitally signing the form per our instructions using the university's licensed platform (which is currently Adobe Acrobat)\*

If this process results in more than one document with signatures, all documents need to be submitted to The Graduate College together.

All theses and dissertations are submitted to the Library through Vireo, the electronic thesis and dissertation deposit platform. The Library harvests approved theses and dissertations from this system for the online repository. The Library will retain a print copy of every student's thesis/dissertation for their circulating collection and a microfilm copy for the University Archives, regardless of the embargo selection. Supplementary files are excluded from this policy. The Library does not provide binding services. Some programs require the student to deposit a hard copy with the department, so students should check with their departments regarding bound copies of theses/dissertations. The student is responsible for paying all binding fees for personal and department copies. Please contact Alkek Library for more information.

Doctor of Philosophy (Ph.D.)  
 Doctor of Education (Ed.D.)  
 Doctor of Physical Therapy (D.P.T.)  
 Specialist in School Psychology (S.S.P.)  
 Master of Accountancy (M.Acy.)  
 Master of Applied Geography (M.A.Geo.)  
 Master of Arts (M.A.)  
 Master of Arts in Interdisciplinary Studies (M.A.I.S.)  
 Master of Business Administration (M.B.A.)  
 Master of Education (M.Ed.)  
 Master of Fine Arts (M.F.A.)  
 Master of Health Information Management (M.H.I.M.)  
 Master of Healthcare Administration (M.H.A.)  
 Master of Music (M.M.)  
 Master of Public Administration (M.P.A.)  
 Master of Science (M.S.)  
 Master of Science in Communication Disorders (M.S.C.D.)  
 Master of Science in Criminal Justice (M.S.C.J.)  
 Master of Science in Interdisciplinary Studies (M.S.I.S.)  
 Master of Science in Nursing (M.S.N.)  
 Master of Science in Recreation and Leisure Services (M.S.R.L.S.)  
 Master of Science in Respiratory Care (M.S.R.C.)  
 Master of Social Work (M.S.W.)

**Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and The Texas State University System Board of Regents.**

The table below lists all graduate majors and degrees as they appear on a diploma and a transcript. Please note that a number of these programs have additional options or concentrations available. Program hours depend on degree options selected. Consult the program page inside this catalog for more detailed information.

Major	Degree	Thesis	Program Hours
Accounting (p. 1076)	M.Acy.	None	30
Accounting (Integrated) (p. 1084)	B.B.A./M.Acy.	None	150
Accounting and Information Technology (http://mycatalog.txstate.edu/graduate/mccoy-business-administration/computer-information-systems-quantitative-methods/ms/#requirementstext)	M.S.	None	36

**Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and the Texas State University System Board of Regents.**

Minor hours required are in addition to the hours required for the student's chosen major. If you select a minor that has more hours than your degree plan requires, your total degree hours will increase by the number of excess hours in the minor. If you select a minor with fewer hours your degree plan requires, you must still meet the minimum hours required toward the degree. To change your minor please complete the change of minor/concentration form ([https://www.gradcollege.txst.edu/docs/Change\\_of\\_Minor\\_or\\_Concentration\\_Form.pdf](https://www.gradcollege.txst.edu/docs/Change_of_Minor_or_Concentration_Form.pdf)).

Click the name of the minor to find the course requirements and other requirements that may apply such as admission, GPA, etc.

Psychiatric Mental Health Nurse Practitioner (p. 2343)	St. David's School of Nursing	29 hours for completion

## Texas State Certificate Program Application of Completion

Students in the certificate programs must maintain a minimum GPA of 3.0 in order to receive a certificate of completion for the program. See the table above for the specific GPA and course grade requirements per certificate program. A final course grade of "C" or higher is required for any graduate course that may be applied towards a graduate certificate at Texas State. All certificate course work must be completed within four years of initial enrollment.

In order to receive the certificate, a student must apply for graduation in the semester in which they plan to complete the certificate; although they

are not eligible to participate in commencement ceremonies unless they are also earning a degree simultaneously. Late applications will not be accepted. It is the responsibility of the student to ensure completion of all certificate requirements as listed on the degree audit and required by the department. It is also the student's responsibility to apply for graduation by the published deadline posted on the University Academic Calendar. That date, as well as other deadline dates, and instructions outlining how to apply for graduation are posted on The Graduate College website each term. Deadlines are also communicated via the GradBulletin. Students who have missed the application deadline will have to apply for graduation during the next semester. For further information regarding the graduation application deadline, contact The Graduate College at 512.245.2581 or visit our website at: <http://gradcollege.txstate.edu/students/deadlines.html>. (<http://www.gradcollege.txstate.edu/students/deadlines.html>)

**Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and the Texas State University System Board of Regents.**

The tuition and fees rates are available on the TXST One Stop (<https://onestop.txst.edu/cost-payments/cost-attendance/tuition-rates.html>) website.

The University reserves the right to change fees in keeping with the acts of the Texas Legislature and the Board of Regents of the Texas State University System.

### Tuition

#### Doctoral Excess Hours (99-hour Rule)

In accordance with Texas Education Code §54.012 (<http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm#54012>), the university will incur a penalty once a doctoral student accumulates 100 or more doctoral semester credit hours. In response, the Texas State University System has a tuition structure (excessive hours fee) in which a doctoral student will be charged tuition at a rate equivalent to non-resident tuition for all doctoral semester credit hours exceeding 99. Courses taken by a doctoral student at the master's or undergraduate level will not count towards the 99 hours. If the student is admitted to a doctoral program from the bachelor's degree, the count begins after 30 hours of graduate coursework. This tuition structure applies to Texas residents as well as out-of-state residents and international students who were eligible to be charged tuition at the resident rate as a result of scholarship and fellowship awards or employment as Graduate Assistants. Students should contact the Ph.D. Program Director regarding this appeal process.

## Special Fees and Charges

Admission Application Fee (mandatory & non-refundable)	\$75.00
Admissions Application & Evaluation Fee for International Applicants (mandatory & non-refundable)	\$90.00
Athletic Training Fee (to sophomores who have earned competitive admission to the undergraduate athletic training education program)	\$100.00

Auditing Fee	same as if course were taken for credit
Certificate Fee (payable when applying for teacher certification)	
Texas Standard Certificate	\$77.00
Deficiency Plan Fees (for students seeking teacher certification)	
First Plan	\$75.00
Additional Plans (each)	\$25.00
Late Payment Fee	\$65.00
Electronic Course Fee	\$50.00/semester credit hour
Evaluation of Foreign Credentials (for domestic applicants)	\$15.00
Payment Plan Enrollment Fee (for handling & other processing)	\$30.00
Late Registration Fee	
Prior to initial payment deadline	\$25.00
1st 7 class days - fall/spring	\$100.00
1st 2 class days - summer	\$25.00
8th-12th class day - fall/spring	\$200.00
3rd-4th class days - summer	\$25.00
Off-Campus Course Fee	\$30.00/semester credit hour
Transfer, International, and Other Types Orientation Fee	\$60.00
Physical Therapy Application Fee	\$50.00
Post-Baccalaureate Teaching Intern Application Fee	\$500.00
Returned Item Fee (for handling and other processing)	\$30.00
Transcript Fee (official copy)	\$10.00

## Auditing Fees

Where auditing of a course is permitted, all fees will be the same as if the course were taken for credit. Eligible senior citizens, 65 or older, may audit courses without payment of a fee if space is available. For additional information, please visit the Auditing a Course (<https://www.registrar.txst.edu/registration/reg-home/audit.html>) page.

## Campus Parking/Vehicle Registration

Every student, faculty, and staff person who operates or parks a vehicle on campus must:

1. register the vehicle with Parking Services;
2. purchase a permit;
3. properly display a Texas State physical or virtual parking permit any time the vehicle is parked on campus; and
4. become familiar with and abide by the Traffic and Parking Rules.

The rules are enforced at all times throughout the year. The purchase of a permit and registration of the vehicle do not guarantee a parking space. Information on parking options can be found on the parking Services webpage. The online vehicle registration process can be accessed through the Parking Services portal at [txstate.aimsparking.com](http://txstate.aimsparking.com) or via CatsWeb.

Fees for vehicle registration will be published each year in the official rules and regulations and on the Parking Services website. Additional

information concerning the purchase and issuance of parking permits may be obtained by contacting Parking Services at 512.245.2887.

## International Student Health Insurance Fee

All International students on non-immigrant F-1 and J-1 visas are required by university policy to have health insurance coverage while a student at Texas State University. The international student health insurance premium will be billed to an F-1 and J-1 international student's university account during the time of registration for classes. A student can submit a waiver to opt out of the insurance charge if the student has existing health insurance that meets one of the following criteria:

- Student is covered by a U.S. employer health insurance plan or by a parent/spouse's U.S. employer health insurance plan that is compliant with the Affordable Care Act (ACA).
- Student's sponsored plan (US Government or Foreign Government) is recognized by the U.S., and the sponsor guarantees payment of all healthcare expenses, including medical evacuation and repatriation, and are in compliant with the Affordable Care Act (ACA).

Detailed information on the health insurance or how to request an insurance waiver will be sent to international students by the International Student and Scholar Services. This information is available on the International Student and Scholar Services website: [www.international.txstate.edu/current/Health-insurance-.html](http://www.international.txstate.edu/current/Health-insurance-.html) (<http://www.international.txstate.edu/current/Health-insurance-.html>).

Should you have any questions about the international student health insurance requirement, you may contact International Student and Scholar Services at [intlhealth@txstate.edu](mailto:intlhealth@txstate.edu).

**IMPORTANT:** Students will receive notices about the health insurance requirement through their Bobcat mail account.

## International Students Operations Fee

All international students with an immigration status of "F" or "J" will be charged \$85.00 per semester for the maintenance of records, compliance with government regulations, and other services.

## Laboratory Fees

The amount of lab fees varies on a per course basis. See the Schedule of Classes for current lab fees.

## Testing Fees

Administration fees will be charged for Proctoring Exam Services for Texas State Students and Non-Texas State students who wish to take a course exam at the Testing, Evaluation, and Measurement Center (TEMC) in San Marcos, or the Round Rock Campus Testing Center. The charge is \$40.00 per test for exams two hours or less. The fee amount will vary with longer time limits. This fee also applies to students who wish to take a course exam through the TEMC rather than at the times offered as part of distance education courses. Students who request make-up exams allowed by Texas State faculty will also be charged \$40.00 per test for exams two hours or less.

Varying fees will also be charged for:

- Exams for credit
  - CLEP
  - Departmental
  - ACTFL-OPI
- Placement and college readiness tests
  - Accuplacer/Texas Success Initiative Assessment (TSIA)
  - Texas Higher Education Assessment (THEA)
- Upper-level barrier exams
  - ATI TEAS BSN
  - Punctuation, Usage, and Grammar (PUG)

Visit [www.txstate.edu/temc](http://www.txstate.edu/temc) (<https://www.txstate.edu/temc/>) for specific fees, additional services, and information.

## Students' Financial Obligations

Tuition and fees are to be paid in full before the beginning of the semester or paid under an installment plan with an initial payment due before the beginning of the semester. Students are expected to meet their financial obligations to Texas State within the designated time allowed. For additional information, please visit the TXST One Stop (<https://onestop.txst.edu/cost-payments.html>) website.

As consequences for the student's failure to meet financial obligations, the university may:

1. withhold official transcripts;
2. deny registration and payment confirmation of subsequent semesters;
3. assess additional fees for delinquent payments and returned items as detailed on the Student Business Services (<http://www.sbs.txstate.edu/>) website;
4. report unpaid university obligations to credit agencies;
5. cease university-provided services; and
6. place warrant holds with the State Comptroller's Office stopping state payment to the individual owing the debt.

## Payment of Fees

Please visit the Payment Options (<https://onestop.txst.edu/cost-payments/make-payment.html>) and Payment Methods (<https://onestop.txst.edu/cost-payments/payment-methods.html>) pages of the TXST One Stop website for information regarding payment of tuition, fees, room and board.

### Please note the following:

- A 2.95% convenience fee with a minimum \$3 per transaction fee is applied to credit/debit card payments (effective 5/2023). The convenience fee is not collected by the university and is therefore non-refundable.
- Mailed payments must be **RECEIVED**, not postmarked, **BY THE DUE DATE**. You must make allowances for any postal delays. Please include the student ID number.

### Financial Aid and Tuition Adjustment Recipients:

Students receiving financial aid and/or a tuition adjustment, should check their student account by logging in to the Payment Portal on the TXST One Stop (<https://onestop.txst.edu/cost-payments/make-payment.html>) website to ensure that credit was applied.

- Approved tuition adjustments will apply to the student account once received and processed. The Billing and Payment site does take 24 hours to update with this information.
- Students with a financial aid credit or tuition adjustment that covers 100% tuition, fees, and room and board do not need to take action.
- If the financial aid or tuition adjustment is not sufficient to cover 100% of the charges, the student must pay the total balance due or enroll in a payment plan to avoid course cancellation.

## Installment Payments

Students are responsible for making their installment payments by the due date. The installment due dates are listed on the Important Dates (<https://onestop.txst.edu/important-dates.html>) page of the TXST One Stop website. Students can check their balance, installment amounts, and make payments online by visiting the Student Business Services (<https://www.sbs.txstate.edu/>) website.

## Late Payment Fee

A delinquent charge of \$65 will be assessed the first business day after the final payment due date of the semester. Under Texas Education Code §54.007, a student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made. A student who fails to make full payment prior to the end of the semester or term may be denied credit for the work done that semester or term. See the Students' Financial Obligation section for more details.

## Returned Checks

If a check or EFT is returned unpaid for any reason other than the admitted error of the bank, the student must pay for the returned check with cashier's check, money order or credit card (MasterCard, VISA, Discover, Diners Club or American Express) immediately. A \$30.00 service fee is assessed for each returned check. Until the check is paid, the student will be on "Cash Only" status. Cash Only status is a denial of check cashing privileges on campus. A hold may also be placed on the student account.

Individuals who have three returned checks or EFT within a 12-month period will be placed on Cash Only status.

Stopping payment on a check for fees or allowing the check to be returned unpaid by the bank for any reason does not constitute official withdrawal. Failure to follow procedures for withdrawing from Texas State may result in financial penalties and delays with future enrollment at the University.

## Residency for Tuition Purposes

The determination of residency classification for tuition purposes is governed by statutes enacted by the Texas Legislature and rules and regulations promulgated by the Texas Higher Education Coordinating Board. A student or applicant is classified either as a resident of Texas, a non-resident, or a foreign student for tuition purposes. An individual's residency classification is based on information from his or her admission application. If an applicant or student is classified as a non-resident and wishes to be considered for reclassification as a resident, it is necessary to submit the Residency Core Questions available from the Office of Undergraduate Admission. Documentation may be requested by the institution to resolve issues raised by the information provided in response to the Core Residency Questions.

Chapter 21 of the Texas Higher Education Coordinating Board Rules includes the following provisions covering some of the more common residency situations. They are neither exhaustive nor complete and should not be interpreted as such. Full regulations are available in the Coordinating Board publication *Rules and Regulations for Determining Residency Status* available at [www.collegeforalltexans.com/](http://www.collegeforalltexans.com/) (<http://www.collegeforalltexans.com/>) (Search: Residency).

## Determination of Residence Status

1. The following persons shall be classified as Texas residents and entitled to pay resident tuition:
  - a. a person who graduated from a public or accredited private high school in this state or received the equivalent of a high school diploma in this state, and maintained a residence continuously in this state for the thirty-six months immediately preceding the date of graduation or receipt of the diploma equivalent, as applicable; and the 12 months preceding the census date of the academic term in which the person enrolls in an institution.
  - b. a person who established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.
  - c. a dependent whose parent established a domicile in this state not less than 12 months before the census date of the academic term in which the person enrolls in an institution; and maintained a residence continuously in the state for the 12 months immediately preceding the census date of the academic term in which the person enrolls in an institution.
2. The following non-U.S. citizens may establish a domicile in this state for the purposes of subsection (a) (2) or (3) of this section:
  - a. a Permanent Resident;
  - b. a person who is eligible for permanent resident status;
  - c. an eligible nonimmigrant that holds one of the approved types of visas. A complete list is available on the Coordinating Board website at [www.thecb.state.tx.us/Rules](http://www.thecb.state.tx.us/Rules) (<http://www.thecb.state.tx.us/Rules/>);
  - d. a person classified by the USCIS as a Refugee, Asylee, Parolee, Conditional Permanent Resident, or Temporary Resident;
  - e. a person holding Temporary Protected Status, and Spouses and Children with approved petitions under the Violence Against Women Act (VAWA), an applicant with an approved USCIS I-360, Special Agricultural Worker, and a person granted deferred action status by USCIS;
  - f. a person who has filed an application for Cancellation of Removal and Adjustment of Status under Immigration Nationality Act 240A (b) or a Cancellation of Removal and Adjustment of Status under the Nicaraguan and Central American Relief Act (NACARA), Haitian Refugee Immigrant Fairness Act (HRIFA), or the Cuban Adjustment Act, and who has been issued a fee/filing receipt or Notice of Action by USCIS; and
  - g. a person who has filed for adjustment of status to that of a person admitted as a Permanent Resident under 8 United States Code 1255, or under the "registry" program (8 United States Code 1259), or the Special Immigrant Juvenile Program (8 USC 1101(a) (27) (J)) and has been issued a fee/filing receipt or Notice of Action by USCIS.

3. The domicile of a dependent's parent is presumed to be the domicile of the dependent unless the dependent establishes eligibility for resident tuition under subsection (a) (1) of this section.
4. A domicile in Texas is presumed if, at least 12 months prior to the census date of the term in which he or she is to enroll, the person owns real property in Texas, owns a business in Texas, or is married to a person who has established a domicile in Texas. Gainful employment other than work-study and other such student employment can also be a basis for establishing a domicile.
5. The temporary absence of a person or a dependent's parent from the state for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, U.S. Department of State, as a result of an employment assignment, or for educational purposes, shall not affect a person's ability to continue to claim that he or she is a domiciliary of this state. The person or the dependent's parent shall provide documentation of the reason for the temporary absence.
6. The temporary presence of a person or a dependent's parent in Texas for the purpose of service in the U.S. Armed Forces, Public Health Service, Department of Defense, or service with the U.S. Department of State, or as a result of any other type of employment assignment does not preclude the person or parent from establishing a domicile in Texas.

## Exceptions

A non-resident or foreign student may qualify to pay in-state tuition. Students should direct questions and documentation for these waivers to Student Business Services.

1. The student or student's spouse or parent is a member of the Armed Forces or a commissioned officer of the Public Health Service and is stationed in Texas. (Military and Public Health Service personnel who maintain their official home of record as Texas or who meet the criteria for establishing a domicile in Texas are considered Texas residents.)
2. The student or student's spouse or parent is employed at least half-time as a teaching or research assistant in a position related to the assistant's degree program at a Texas public institution of higher education.
3. The student or student's spouse or parent is employed at least half-time on a regular monthly salaried basis as a teacher or professor at a Texas public institution of higher education.
4. The student holds an approved competitive scholarship from Texas State of at least \$1000 for the academic year or summer awarded by an official Texas State scholarship committee.
5. The student or student's spouse or parent has located in Texas as an employee of a business or organization that became established in this state as part of the state economic development and diversification program. (Note: Go to [www.thecb.state.tx.us/Rules](http://www.thecb.state.tx.us/Rules) (<http://www.thecb.state.tx.us/Rules/>) Chapter 21, Sub Chapter X for a list of qualified employers.)
6. The student is a New Mexico resident who resides in a county bordering Texas.
7. The student is a Louisiana resident who resides in a parish bordering Texas.
8. The student is a resident of Mexico who has demonstrated a financial need as determined by the financial aid office.

Refer to the Refund Information (<https://onestop.txst.edu/cost-payments/refund.html>) page of the TXST One Stop website for detailed information of the University's refund policy. **Please note:** Withdrawing

and dropping a class are **two different actions** and are defined below. ***These actions have separate refund policies.***

- **Withdrawal:** Reducing semester credit hours to zero is considered a withdrawal. You MUST do this through the Office of the University Registrar.
- **Dropping a class:** Removing one or more classes from your schedule, while remaining enrolled in at least one course.

Any refund due will be applied to any unpaid financial obligation with Texas State. If the refund exceeds any unpaid balance, a refund will be processed within 30 days. Payments made by credit card are refunded back to the card. Other payment types will be deposited to the student's bank account if they have signed up for direct deposit (eRefund) or issued as a check and mailed to the appropriate address on file. Mailing addresses for refunds are selected in the following priority: (1) Mailing (2) Local (3) Permanent. Students may update their addresses as needed on Catsweb.

### Drops

IMPORTANT: Dropping credit hours or withdrawing from the semester may affect your financial aid award. Students receiving financial aid should contact the Financial Aid Office before dropping or withdrawing. If you have dropped hours or withdrawn from the University, the term balance may not reflect the necessary adjustments. Please allow a minimum 10 business day waiting period for award adjustments to be processed.

Dropping a course or courses means that there is at least one other course left in the registered schedule for a semester/term. Refer to the Academic Calendar or the Refund Information page of the TXST One Stop website for semester/term specific deadlines for drop refunds.

\*Please note: Summer semesters have several different terms within the semester. Please contact TXST One Stop if you have questions regarding drop dates for summer.

### Withdrawals

Withdrawing means a student will no longer be attending any course for the semester/term. Students must withdraw from ALL courses to be considered as withdrawn for the semester. Withdrawals are initiated in the Office of the University Registrar. Please refer to the Academic Calendar or Refund Information page of the TXST One Stop website for semester/term specific deadlines for withdrawal refunds. Withdrawal Information is available on the Office of the University Registrar website.

\*Please note: Summer semester have several different terms within the semester. Please contact TXST One Stop for specific withdrawal dates for summer. Additionally, during the summer, please allow a minimum of 10 business days waiting period for billing account adjustments to be processed.

The College of Applied Arts' mission is to prepare undergraduate and graduate students for careers through programs of high quality in academic, professional, and technical areas; to further faculty excellence in teaching supported by quality scholarship; and to enhance our involvement with local, state, national, and international constituencies.

Hines Academic Center Room 108  
Telephone: 512-245-2174 Fax: 512-245-8063  
<http://www.cj.txstate.edu/>

Located in the Hines Academic Center, the School of Criminal Justice and Criminology offers master's- and doctoral-level programs that address a wide range of social issues and research opportunities.

The School of Criminal Justice and Criminology is a vibrant academic unit, with approximately 60 students pursuing the M.S. or Ph.D. in criminal justice. Full-time faculty members are involved in educating students as well as engaging in a wide range of research endeavors. The School also administers a number of institutes and centers, such as the Center for Geospatial Intelligence and Investigation and the Texas Justice Court Training Center. Further, the School maintains close working relationships with the Advanced Law Enforcement Rapid Response Training (ALERRT) Center and the Texas School Safety Center.

There are multiple tracks of the M.S. program, which prepares students for entry level and leadership positions in criminal justice agencies, as well as laying the groundwork necessary for success in a doctoral program.

The Ph.D. in criminal justice equips students with the skillsets and experience necessary for careers as researchers, policy analysts, and academicians. Students may pursue the degree either full-time or part-time. Full-time students are eligible for funding, such as through teaching or research assistantships.

## Doctor of Philosophy (Ph.D.)

- Major in Criminal Justice (p. 829)

## Master of Science in Criminal Justice (M.S.C.J.)

- Major in Criminal Justice (Executive Concentration) (p. 840)
- Major in Criminal Justice (Non-thesis Option) (p. 835)
- Major in Criminal Justice (Research Concentration) (p. 844)

## Minor

- Criminal Justice (p. 850)

## Program Overview

The School of Criminal Justice and Criminology at Texas State offers a doctoral program for:

1. criminal justice professionals who seek advanced education and
2. students who will pursue academic appointments at colleges and universities in Texas and around the nation.

Texas State is located in the heart of the central Texas corridor, near 16 state criminal justice offices and 13 Texas counties, including Travis (Austin) and Bexar (San Antonio). The university's geographic proximity to state criminal justice agency headquarters for law enforcement, criminal courts, and corrections, and to managers and executives in these agencies, makes it an ideal location for offering a doctoral-degree program.

The doctoral program is part of a vibrant school, with approximately 1000 bachelor's students and 30 master's students. Twenty-three full-time faculty members are involved in a wide range of research. A list of faculty and their research interests is available at <http://www.cj.txstate.edu/people/faculty> (<http://www.cj.txstate.edu/people/faculty/>). The School of Criminal Justice and Criminology also administers a number of institutes and centers, including the Center for Geospatial Intelligence and Investigation and the Advanced Law Enforcement Rapid Response Training Center (ALERRT).

Courses are offered in the evenings for the convenience of working professionals. Students are classified as either full-time (nine hours per term) or part-time. All students will be given the opportunity to initiate, complete, present, and publish original research. Each student develops an appropriate degree plan to meet their career and academic goals. The degree plan will include a mix of theoretical, analytical, and elective courses that will prepare students to work independently and in multidisciplinary teams.

It is expected that students will pursue their courses and research activities in an efficient and timely manner. If it is determined that a student is not making adequate progress toward completion of the doctoral degree requirements, consultations will be undertaken between the student, the student's dissertation chair (when applicable), the program director, and the School's doctoral executive council to develop a remediation plan, which may include revising a student's program of study or research. Failure to successfully remedy documented deviancies will result in termination of the student's enrollment in the doctoral program at the discretion of the doctoral executive council. Students removed from the doctoral program in this manner may appeal to the dean of The Graduate College for reinstatement in the program.

## Educational Goal

The central educational goal of the Ph.D. program in criminal justice at Texas State is to prepare doctoral students to assume leadership roles in academic, public policy, and administrative positions within a rapidly changing criminal justice system. The Ph.D. program produces outstanding researchers who are qualified for academic positions and prepares practitioners to conduct research in criminal justice agencies. The school has developed a programmatic perspective that is sensitive to the importance of research skills, balanced with theoretically informed policy analysis, so that students can more effectively address the challenges in criminal justice in Texas and across the nation. Students gain expertise to apply statistically advanced research methodologies to

conduct empirical studies in crime, law, public policy, and administration of the criminal justice system.

Other educational goals and objectives are to:

- Identify the theoretical perspectives and foundations of current research in the study of crime, law, and public policy decision-making undertaken by criminal justice agencies to assist law enforcement, court personnel, and corrections staff to plan, develop, and implement timely, efficient, and sound responses to crime.
- Apply precise, empirically validated, and tested research methods to investigate, analyze, and improve theory and policy to provide policy makers with the most current research and applicable technology to address emergent public safety growth areas.
- Communicate effectively to educate and inform professional managers and administrators of criminal justice agencies, their service personnel (e.g., police) and the community at-large about the 'best practices' for addressing the control of crime at the neighborhood, community, state, and national levels.
- Recognize ethical dilemmas and make ethically sound decisions to ensure that recommended criminal justice policy becomes a useful guide, if not benchmark procedure, for executives and heads of criminal justice agencies as they develop their strategic plans to address crime and public safety at the local, state, and national levels.

Apply a broad understanding of the legal and empirical elements of criminal justice administration in leadership positions to encourage current and future working professionals and executives in criminal justice agencies to incorporate more comprehensive training using the 'best practices' in leadership and management theory when developing, planning, and implementing policies that effect their own agencies and the surrounding communities they serve.

## Financial Assistance

Assistantships and scholarships are available to qualified applicants. The School of Criminal Justice and Criminology offers doctoral instructional assistantships and teaching assistantships on a competitive basis to full-time students enrolled in the criminal justice Ph.D. program. An offer of financial support will normally be made at the time that a student is accepted into the program. The Graduate College can provide further information regarding scholarships.

## Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the current academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the current academic year can be found on The Graduate College's website (<http://www.gradcollege.txstate.edu>). International students should review the International Admission Documents page (p. 806) for additional requirements.

- completed online application
  - \$55 nonrefundable application fee
- or
- \$90 nonrefundable application fee for applications with international credentials
  - baccalaureate degree from a regionally accredited university (Non-U.S. degrees must be equivalent to a four-year U.S. Bachelor's

- degree. In most cases, three-year degrees are not considered. Visit our International FAQs (<https://www.gradcollege.txst.edu/international/faqs.html>) for more information.)
- master’s degree in criminal justice or a related field from a regionally accredited university
  - official transcripts from **each institution** where course credit was granted
  - minimum 3.5 GPA in all completed graduate course work
  - official GRE (general test only) with competitive scores in the verbal reasoning and quantitative reasoning sections
  - statement of purpose describing the student’s personal history and life goals that are relevant to obtaining a doctoral degree
  - three letters of recommendation indicating the student’s skills and capacity to be successful in the Ph.D. program

Approved English Proficiency Exam Scores

Applicants are required to submit an approved English proficiency exam score that meets the minimum program requirements below unless they have earned a bachelor’s degree or higher from a regionally accredited U.S. institution or the equivalent from a country on our exempt countries list (<http://www.gradcollege.txstate.edu/international/language.html#waveir>).

- official TOEFL iBT scores required with a 78 overall
- official PTE scores required with a 52
- official IELTS (academic) scores required with a 6.5 overall and minimum individual module scores of 6.0
- official Duolingo scores required with a 110 overall
- official TOEFL Essentials scores required with an 8.5 overall

This program does **not** offer admission if the scores above are not met.

Degree Requirements

The Doctor of Philosophy (Ph.D.) degree with a major in Criminal Justice requires 51 semester credit hours. No grade earned below “B” on any course work may apply toward a Ph.D. degree in criminal justice at Texas State.

All doctoral students are required to enroll in CJ 7309 Proseminar during their second or third year to learn about the criminal justice discipline, teaching, publishing, grants and fellowships, writing dissertations, and post-doctoral employment. Doctoral students selected for teaching assistantships will be required to enroll in CJ 7301 Instructional Assistant Supervision during the first semester they teach.

Course Requirements

Code	Title	Hours
First-Year Required Courses		
CJ 7311	Advanced Criminological Theory	3
CJ 7320	Quantitative Research Methods	3
CJ 7321	Linear Regression for Criminal Justice Research	3
CJ 7323	Applied Statistics and Quantitative Data Analysis	3
Required Course		
CJ 7309	Proseminar	3
Area Electives		
Criminal Justice System (Choose 3 hours from the following)		3
CJ 7310	Philosophy of Law, Justice, and Social Control	

CJ 7314	Policing	
CJ 7315	Corrections	
Advanced Statistics (Choose 3 hours from the following)		3
CJ 7350A	Forecasting, Trend Analysis, and Data Interpretation	
CJ 7350E	Discrete Multivariate Models	
CJ 7350I	Introduction to Structural Equation Modeling	
Advanced Research Methods (Choose 3 hours from the following)		3
CJ 7322	Advanced Research for Planning and Evaluation	
CJ 7330	Qualitative Research Methods	
CJ 7336	Survey Research Methods for Criminal Justice	
Nature and Causes of Crime (Choose 3 hours from the following)		3
CJ 7313	Race and Ethnicity in Crime and Criminal Justice	
CJ 7350F	Environmental Criminology	
CJ 7350G	Seminar in Macro Criminology	
CJ 7350L	Sex Offenders: Theory, Research & Policy	
Prescribed Electives		
Choose 12 hours from the following or from courses not taken in the Area Electives:		12
CJ 7331	Law and Behavioral Science	
CJ 7350B	Academic Scholarship and Communication	
CJ 7350C	Qualitative Data Collection, Coding and Analysis	
CJ 7350K	Criminal Justice Forecasting and Policy Analysis	
CJ 7360	Independent Study	
May choose advisor-approved electives from outside the school		
Dissertation		
Choose a minimum of 12 hours from the following:		12
CJ 7199	Dissertation	
CJ 7299	Dissertation	
CJ 7399	Dissertation	
CJ 7599	Dissertation	
CJ 7699	Dissertation	
CJ 7999	Dissertation	
Total Hours		51

Qualifying Examination

All students take a qualifying examination one to two weeks after completion of their first year in the program. The qualifying examination integrates criminological theory, quantitative methods, and regression. The examination is graded by those professors who taught the first-year required courses or those in a pool who have previously taught the courses. One re-examination is offered at midsummer for those who fail. Students who fail the re-examination will be dismissed from the program.

Comprehensive Examination Requirements

All candidates for graduate degrees must pass one or more comprehensive examinations.

Advancement to Candidacy Application for Advancement to Candidacy

Students can download the “Application for Advancement to Candidacy form” from The Graduate College website. The student should complete

and sign the upper portion of the form and return it to the program director. When all requirements for admission to candidacy have been met (completion of course-work, a passing grade on the comprehensive examination, approval of dissertation chair and committee, and submission of an approved dissertation proposal), the program director will forward the Application for Advancement to Candidacy form to the dean of The Graduate College for review and approval.

The dean of The Graduate College approves advancement to candidacy once all requirements are met and at the recommendation of the program director.

In addition, before advancement to candidacy, students are required to complete the following:

1. Completion of all courses toward the doctoral degree with a GPA of 3.0 or higher on a 4.0 scale.
2. Passing grade on the comprehensive examination. "Pass" is the only satisfactory grade.
3. The student must select a dissertation chair, and that chair must be approved by the doctoral executive council. The student also must select a dissertation committee comprised of three additional members of the doctoral faculty, one of whom must be an external member from outside the School of Criminal Justice of Texas State University.
4. The student must choose a topic with the approval of the student's dissertation advisor and committee.
5. The student will submit a title and a written proposal for the dissertation to the student's dissertation committee and successfully defend the proposal in an oral presentation with the dissertation committee. The proposal will include a statement of the problem to be studied, a discussion of the relevant literature, and the research method of the proposed dissertation topic.
6. The program director will make a recommendation to the graduate dean who makes the final decision on the student's advancement to candidacy. The Graduate College will notify the student once the decision has been made.

## Advancement to Candidacy Time Limit

Full-time, traditional students should be advanced to candidacy within five years of initiating Ph.D. course-work applied toward the degree. Non-traditional, part-time students may request extensions from the Doctoral Executive Council as long as they maintain a GPA of 3.0 and are making consistent progress toward fulfilling their degree requirements. The Doctoral Executive Council will review part-time students' requests for extensions on an individual, case-by-case basis.

No credit will be applied toward a student's doctoral degree for course-work completed more than five years before the date on which the student is admitted to candidacy. This time limit applies to course credit earned at Texas State, as well as course credit transferred to Texas State from other accredited institutions.

## Grade-Point Requirements for Advancement to Candidacy

A minimum GPA of 3.0 on all course work undertaken as a doctoral student in the criminal justice program is required for admission to candidacy. No grade earned below "B" on any course work may apply toward a Ph.D. degree in criminal justice at Texas State.

Incomplete grades must be cleared through The Graduate College at least ten days before approval for advancement to candidacy will be granted.

## Dissertation Proposal

A dissertation proposal prepared by the student and approved by the student's dissertation chair and a majority of the other members of the dissertation committee is a requirement for Advancement to Candidacy status. The proposal must outline the substance and scope of the dissertation research, present the methodology to be used, and survey the relevant literature. The student's dissertation chair and other dissertation committee members must indicate approval of the dissertation proposal on the "Dissertation Proposal and Proposal Defense" form. This form can be downloaded from The Graduate College website. A final copy of the dissertation proposal, accompanied by the signed approval form, must be turned in to the program director, who will forward it to the dean of The Graduate College for review and final approval.

## Advancement to Candidacy Comprehensive Examination

The comprehensive exam involves completion of an empirical research project (with data analysis) and a single-authored article about it (not to exceed 6,000 words, excluding references) that, in the examination committee's view, is suitable for publication in a refereed journal. The purpose of the comprehensive exam is to assess a student's ability to critically assess previous research on a topic, develop a research question on it, and complete independent research to address the question. Students need to disclose to the examining committee if the article originated in a class or if there are other potential conflicts with it.

The examining committee is comprised of a chair and two other members. All must be members of the doctoral faculty, and the chair must be a member of the Core Doctoral Faculty. The chair is chosen by the student, and the other two committee members are chosen at random by the Doctoral Program Director from a list of doctoral faculty members. A form with the committee's composition must be filed with Doctoral Program Director when the committee is constituted. The committee must be constituted no later than when a student has completed 27 hours of doctoral coursework. The committee must approve the topic for a student's article, and a written description of the topic will be distributed to all members of the doctoral faculty. The examining committee's assessment of the student's article will be based on: (1) the quality of the research question, (2) the appropriateness of the methods and data analysis, (3) the adequacy of the articles connection to previous research, (4) the appropriateness of the interpretations of the data analysis, and (5) the quality of writing. A simple majority vote (2 of 3) is sufficient for deciding a grade. After completing 27 hours of coursework, a student can submit an article to their committee for grading. A student has until the semester after, they have completed 39 hours of doctoral coursework to receive a passing grade on an article. If a passing grade is not achieved by this point, the student will be dismissed from the program. Articles can be submitted for grading to the examining committees during the first three weeks of the fall semester or the first three weeks of spring semester.

The examining committee will have graded a submitted article within three weeks of receiving it. The grade options are "pass", "fail", and "revise and resubmit." If a student's article is assigned a "revise and resubmit," the student will have one semester to submit a revised version in order to receive a passing grade. The chair of the student's committee will summarize in writing what changes need to be considered in the revision for a "pass." If a student's article is assigned a "fail," the student will have one semester to submit an article on a new topic and receive a

passing grade for it. The chair of the student's committee will explain in writing reasons for the failure. The same three graders will be used for an article that is assigned a "revise and resubmit." A student can select a new committee chair for a "failed" article, and two new committee members will be assigned by the Doctoral Program Director. In the event that a student's second resubmission of an article is assigned a "fail," the student will be dismissed from the program.

Full-time, traditional students are expected to pass their comprehensive examination by the end of their third year. For non-traditional, part-time students, the three years can be extended on an individual, case-by-case basis. However, extensions will require the approval of the doctoral council.

### Recommendation for Advancement to Candidacy

The program director recommends the applicant for Advancement to Candidacy. Students must submit an official "Application for Advancement to Candidacy" form when all requirements are met (completion of coursework, a passing grade on the comprehensive examination, approval of dissertation chair/committee, and submission of an approved dissertation proposal). This form can be downloaded from the Graduate College website. The results of the comprehensive examination and the completed Application for Advancement to Candidacy form must be filed in the Graduate College before the dean of The Graduate College gives final approval to candidacy. The Program director is responsible for submitting these forms to The Graduate College.

## Dissertation Research and Writing

All doctoral students are required to complete a dissertation. The dissertation must present a systematic inquiry into a relevant research question, be informed by prior research, and add to the body of knowledge in the field. In most cases, the research will be quantitative in nature, although qualitative or legal research may be utilized in some cases. It is expected that the dissertation will provide the content for one or more publishable articles in academic journals.

Students are required to complete the following dissertation requirements:

1. The student will complete the dissertation, which must be an original contribution to scholarship and the result of independent research in a significant area of criminal justice. The student is expected to write the dissertation and orally defend it in an announced public presentation within three years of the official date of being advanced to candidacy. Questions posed to the student are initially limited to the dissertation committee membership. However, at the discretion of the presiding chair and when time permits, questions will also be solicited from the attending public audience. The approval of the dissertation requires the approval of the dissertation chair and the approval of a majority of the other members of the committee. A written notice of the dissertation committee's approval will be forwarded to the program director and then to the graduate dean.
2. If the dissertation committee decides not to approve the candidate's dissertation, the dissertation chair will prepare a written response to the doctoral executive council, accounting for the decision and outlining the steps required for approval. These steps will also be communicated to the candidate.
3. The student will submit the final, approved dissertation to The Graduate College in the prescribed format.

4. The program director will conduct a final review of the coursework and recommendation from the student's dissertation committee before making a recommendation to the graduate dean that the student be awarded the Ph.D. degree with a major in criminal justice. The graduate dean will certify that the student has met all of the requirements and can be awarded the degree.

## Dissertation Enrollment Requirements

After being admitted to candidacy, students must be continuously enrolled for dissertation hours each term until the defense of their dissertation. If a student is receiving supervision on the dissertation during the summer or the student is graduating during the summer, the student must be enrolled in dissertation hours for the summer. All candidates for graduation must be enrolled in dissertation hours during the semester in which the degree is to be conferred. Students must complete a minimum of 12 semester hours of dissertation credit.

## Dissertation Time Limit

It is expected that the dissertation will, in most cases, be completed in two terms of concentrated effort and in no more than six terms. Students must appeal to the doctoral executive council for an extension beyond six terms. The student must pass an oral defense of their dissertation before final completion of the doctoral program.

## Dissertation Committee

The dissertation committee will oversee the research progress of a doctoral student and the writing of the student's dissertation. The committee will consist of at least four members, including the student's dissertation chair and three additional members of the doctoral faculty, one of whom must be an external member from outside the School of Criminal Justice of Texas State University. The student's dissertation chair will be a member of the core doctoral faculty in the School of Criminal Justice. The student, program director, school director, and the dean of The Graduate College will approve the composition of dissertation committee. The student is responsible for obtaining committee members' signatures on the "Dissertation/Research Advisor Assignment form: and the "Dissertation Committee Request form" which can be downloaded from the Graduate College website.

## Dissertation Defense

The dissertation defense may not be scheduled until all other academic and program requirements have been fulfilled. A complete draft of the dissertation must be given to the members of the dissertation committee at least 65 days before the date of commencement during the term in which the student intends to graduate. After committee members have reviewed the draft with the student and provided comments, the student, in consultation with the dissertation chair, will incorporate the recommended changes into a second draft of the dissertation. When each committee member is satisfied that the draft dissertation is defensible, the dissertation defense may be scheduled.

The student is expected to orally defend the dissertation in an announced public presentation within three years of the official date of being advanced to candidacy. Questions posed to the student are initially limited to the dissertation committee. However, at the discretion of the dissertation chair and when time permits, questions will also be solicited from the attending public audience. The approval of the dissertation requires the approval of the dissertation chair and the approval of a majority of the other members of the committee. A written notice of the dissertation committee's approval will be forwarded to the

program director, and then to the dean of The Graduate College. Specific information on the examination procedure can be found in the School of Criminal Justice Ph.D. Handbook or obtained from the doctoral director.

## Approval and Submission of the Dissertation

Following approval of the dissertation by the members of the dissertation committee, the student must submit one copy of the dissertation and a signed "Thesis/Dissertation Committee Approval form" to the office of The Graduate College for final approval. Specific guidelines for approval and submission of the dissertation can be obtained from The Graduate College.

Doctoral level courses in Criminal Justice: CJ

## Courses Offered Criminal Justice (CJ)

### CJ 7199. Dissertation.

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.

**1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

### CJ 7299. Dissertation.

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.

**2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

### CJ 7301. Instructional Assistant Supervision.

This course prepares doctoral students employed as research or teaching assistants to perform effectively in diverse instructional settings. The course provides for regular and planned opportunities for continuing evaluation of students. This course does not earn graduate degree credit.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Graduate Assistantship|Exclude from Graduate GPA

**Grade Mode:** Leveling/Assistantships

### CJ 7309. Proseminar.

This course introduces students to information that is useful to their success as Ph.D. students and after graduation. Topics include the criminal justice discipline, teaching, publishing, grants and fellowships, writing dissertations, and post-doctoral employment. Emphasis is placed on identifying and coordinating opportunities for research and scholarship among faculty and students. Must have completed 12 hours of doctoral credit in Criminal Justice to enroll in this course.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### CJ 7310. Philosophy of Law, Justice, and Social Control.

A current, thorough, and comprehensive review of the criminal justice system focused on how the system functions, and its current needs and future trends. Students submit extensive critiques and participate in panel discussions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### CJ 7311. Advanced Criminological Theory.

An overview of the major criminological paradigms is presented focusing on the causes of crime and deviant behavior. The course includes a discussion of criminological theories from a philosophy of science perspective focusing on such issues as theory construction, theoretical integration, and the formal evaluation of theory and policy.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### CJ 7313. Race and Ethnicity in Crime and Criminal Justice.

An exploration of how issues related to racial and ethnic minorities and criminal behaviors impact criminal justice reactions. Topics include racial disparities related to law enforcement and sentencing, and policy implications related to policing, probation, pre-sentencing and post-release issues. (MULT).

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Multicultural Content

**Grade Mode:** Standard Letter

### CJ 7314. Policing.

This course examines current problems in American policing and the role of research in their examination and solution. Official crime and victimization statistics and measure of police performance are explained, with a focus on their collection, development, limitations, and utility. Methods and issues in policing research are explored.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### CJ 7315. Corrections.

This course examines the history, forms, and functions of correctional institutions, their programs and policies, as well as theories of punishment. Topics include the structure and functions of prisons and jails, community corrections, intermediate sanctions, reentry, supermax prisons, and the death penalty.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

### CJ 7320. Quantitative Research Methods.

A course that demonstrates the practical aspects of conducting criminal justice research that uses quantitative methodologies and design. Topics include the philosophy of science; research ethics; methodological designs in establishing causation; nonexperimental/descriptive research; sampling techniques; secondary data sources and data gathering techniques.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7321. Linear Regression for Criminal Justice Research.**

Instruction on the use of advanced linear modeling techniques in criminal justice research is addressed. After completing this course, students should be able to evaluate quantitative research articles in the major criminal justice journals and be prepared to complete a major quantitative research project of their own.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7322. Advanced Research for Planning and Evaluation.**

An introduction to evaluation and research design methodologies, assessment techniques including modeling and case studies, agency management issues, and on-going policy implications. Course gives students an understanding of the principles and techniques commonly used to evaluate the effectiveness and efficiency of criminal justice interventions.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7323. Applied Statistics and Quantitative Data Analysis.**

This is a course in statistics and data analysis for the purposes of original quantitative research. Topics include descriptive statistics, statistical inference for single and multivariable analysis, and principles underlying the techniques. This course makes extensive use of statistics software and data preparation techniques.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7330. Qualitative Research Methods.**

A discussion of the methods and techniques used for achieving interpretable qualitative results in social research. Topics covered include ethnography, focus groups, in-depth interviewing and case studies. Students will be trained in inductive reasoning and coordinating qualitative with quantitative methods.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7331. Law and Behavioral Science.**

A review of the issues addressed in the application of the behavioral sciences to the criminal law system. Topics include criminal sanctions and diminished responsibility, civil commitment, victimology, psychology in the courtroom, the role of media, drugs, and alcohol to violence, and how the justice system reacts to violent offenders.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7336. Survey Research Methods for Criminal Justice.**

This course addresses the procedures and techniques used to create social surveys including question formulation, metrics, and question scaling. Students learn how to prepare face-to-face, telephone, and mail surveys, and are trained in sampling procedures related to survey administration.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Grade Mode:** Standard Letter

**CJ 7350A. Forecasting, Trend Analysis, and Data Interpretation.**

A review of quantitative approaches to public policy analysis, the diverse conceptions of the goals and objectives that should be served by policy, and the appropriate role of the policy analyst. Policy consequences are traced to indirect and subtle incentives and disincentives.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350B. Academic Scholarship and Communication.**

A course on conducting academic research, interpreting results and how to prepare manuscripts for publication in refereed journals. Included is a survey of the audiences, topical focus, and submission requirements of the major criminal justice, criminology, and law publications, along with specialized knowledge on achieving success in the scholarship environment.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350C. Qualitative Data Collection, Coding and Analysis.**

This course takes a structured approach to understanding and implementing the various information collection methods used in qualitative research, including formatting the information for coding, coding schemes, and information interpretation.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350E. Discrete Multivariate Models.**

This course focuses on regression models for discrete outcome variables, sometimes called limited or categorical dependent variables. Topics include maximum likelihood estimation, binary and multinomial logistic models and negative binomial models. Prerequisite: CJ 7321 with a grade of "B" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350F. Environmental Criminology.**

Crime distributes unevenly in space/time. As such, the course examines such questions as (1) What places are dangerous? (2) Why do we study specific crime types? (3) Where do crime types concentrate? (4) Where do offenders go in their normal activities? (5) What are the temporal patterns for crime? Prerequisite: CJ 7311 with a grade of "B" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350G. Seminar in Macro Criminology.**

This course has a macro focus, examining criminological theory and research that takes cities, geographical regions, states, and nations as the units of comparison. The importance and relevance of macro criminology for understanding the causes of crime and key criminal justice issues, such as police resources, are explored in depth.

Prerequisite: CJ 7311 with a grade of "B" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350I. Introduction to Structural Equation Modeling.**

The course provides an introduction to structural equation modeling, which is sometimes called mean and covariance structure analysis or latent variable analysis. Topics include recursive and non-recursive models, path analysis, measurement models, and factor analysis.

Prerequisite: CJ 7321 with a grade of "B" or better or instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350K. Criminal Justice Forecasting and Policy Analysis.**

This course examines the inputs and outputs of criminal justice programs. It covers forecasting methods using statistical bootstrapping techniques including line fitting methods, moving averages, cohort propagation matrixes, and systems simulations.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7350L. Sex Offenders: Theory, Research & Policy.**

This course will focus on application of theory to explain sexual offenses, research design issues related to researching this salient population of offenders (e.g., ethical issues, gaining IRB approval, research design limitations, social desirability problems in self-report data, and examining available data sources), and examining policy related issues.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing|Topics

**Grade Mode:** Standard Letter

**CJ 7360. Independent Study.**

Students will work closely with a particular doctoral faculty member and develop in-depth knowledge in a specific topic area of criminal justice.

Topics vary according to a student's program needs. Repeatable once for credit with different emphasis. Prerequisite: Instructor approval.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

**CJ 7399. Dissertation.**

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.

**3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

**CJ 7599. Dissertation.**

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.

**5 Credit Hours. 5 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

**CJ 7699. Dissertation.**

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.

**6 Credit Hours. 6 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

**CJ 7999. Dissertation.**

Original research and writing in criminal justice to be accomplished under direct supervision of the dissertation advisor. While conducting dissertation research and writing, students must be continuously enrolled each long semester for at least three dissertation hours.

**9 Credit Hours. 9 Lecture Contact Hours. 0 Lab Contact Hours.**

**Course Attribute(s):** Exclude from 3-peat Processing

**Grade Mode:** Credit/No Credit

## Program Overview

The School of Criminal Justice and Criminology offers a Master of Science in Criminal Justice (M.S.C.J.) degree with a major in Criminal Justice. The M.S.C.J. degree program has a 36-hour Non-thesis Option, a 30-hour Research Concentration Thesis Option, and a 30-hour Executive Concentration Non-thesis Option. The curriculum for the 36-hour Non-thesis Option provides for a broad overview of criminal justice research and practice, allowing students to develop further knowledge and skills at the graduate level. This program is suitable for those seeking additional training in criminal justice to prepare them for an array of careers within the field. The curriculum for the Research Concentration provides for the development of theoretical, methodological, and analytical skills in order to evaluate and conduct scientific inquiry into the criminological and criminal justice issues. This Research Concentration is a competitive program specifically designed for those seeking to eventually complete a doctoral program and/or careers in research-related fields. The curriculum for the Executive Concentration provides for the development of skills in criminal justice program planning, implementation, and evaluation to ensure a meaningful contribution to this important area of community and human services. This Executive Concentration is also

a competitive program targeted at full-time employed criminal justice professionals, and is completed part-time.

## Application Requirements

The items listed below are required for admission consideration for applicable semesters of entry during the current academic year. Submission instructions, additional details, and changes to admission requirements for semesters other than the current academic year can be found on The Graduate College's website (<http://www.gradcollege.txstate.edu>). International students should review the International Admission Documents page (p. 806) for additional requirements.

- completed online application
- \$55 nonrefundable application fee
- or
- \$90 nonrefundable application fee for applications with international credentials
- baccalaureate degree in criminal justice or related field from a regionally accredited university (Non-U.S. degrees must be equivalent to a four-year U.S. Bachelor's degree. In most cases, three-year degrees are not considered. Visit our International FAQs (<https://www.gradcollege.txst.edu/international/faqs.html>) for more information.)
- official transcripts from **each institution** where course credit was granted
- a 3.0 overall GPA or a 3.0 GPA in the last 60 hours of undergraduate course work (plus any completed graduate courses)
- GRE not required
- statement of purpose indicating career aspirations and reasons for pursuing the M.S.C.J. program
- two letters of recommendation from persons best able to assess your ability to succeed in graduate school
- curriculum vitae or resume

### Approved English Proficiency Exam Scores

Applicants are required to submit an approved English proficiency exam score that meets the minimum program requirements below unless they have earned a bachelor's degree or higher from a regionally accredited U.S. institution or the equivalent from a country on our exempt countries list (<http://www.gradcollege.txstate.edu/international/language.html#wave>).
