

Mission

To research and develop model programs and self-sustaining learning communities that engage students from all backgrounds in doing mathematics at a high level.

Mathworks is a center for innovation in mathematics education at Texas State University. We conduct research of and develop model programs in the following areas:

- Summer Math Programs
- Teacher Professional Development
- Curriculum Research & Development

Support math learning opportunities for all students

January 2016

Best wishes for this new year!

- Summer Camps Professional Development Workshop
- Mathworks faculty and graduate students to attend ICME
- Rio Grande Valley Trip
- Apply now to the 2016 summer math camps!

Mathworks hosts professional development workshop at Texas State

Mathworks staff hosted a professional development workshop for Texas State University faculty and staff in early January. We shared our advice and recommendations for starting, managing, and sustaining summer camps. Summer programs serve as great tools for universities to conduct outreach programs and serve the surrounding community.

2016 International Congress on Mathematical Education

Hiroko Warshauer, of the Texas State mathematics department, will be attending the 2016 ICME in Hamburg in July. She will be attending with two Mathematics Education graduate students and giving an extended presentation about Mathworks and gifted programs.

Rio Grande Valley Trip

Dear Alumni,

Have you recently...
Moved?
Started graduate school?
Landed a new job?
Written a book?
Received an award?

Or simply want to reconnect with other alumni?

We at Mathworks would love to hear what alumni are doing these days!

Simply fill out this [online update form](#).

Mathworks at Texas State University e-newsletter

Max Warshauer and Terry McCabe visited south Texas and the Rio Grande Valley in late December. They visited IDEA Quest College Prep, the Science Academy, McAllen ISD, and UTRGV. They discussed potential partnerships with the teachers and administration at the respective institutions.

We are excited for a potential partnership between Mathworks and IDEA Quest College Prep that would involve the implementation of the Math Explorations curriculum.

Apply to the 2016 Summer Math Camps

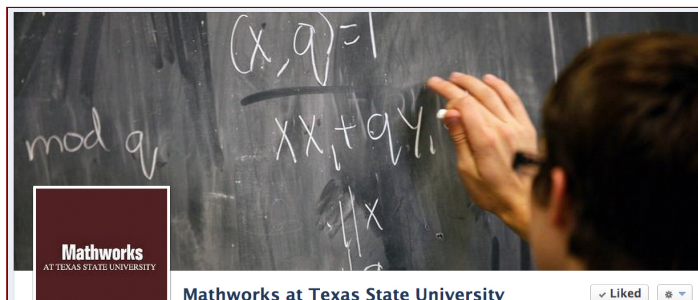

We have four programs in the summer:

- Half-day JSMC in San Marcos for 4th-8th grade students
- Half-day JSMC in Round Rock for 4th-8th grade students
- Residential JSMC at Texas State University for 6th-8th grade students
- HSMC at Texas State University for high school students
