

ST. DAVID'S SCHOOL OF NURSING AT TEXAS STATE UNIVERSITY

Standardized Patients Needed

A Standardized Patient (SP) is someone trained to accurately and consistently portray a patient with a specific medical condition. SP's play a key role in helping healthcare students practice and improve their clinical and communication skills in a safe, supportive, and realistic learning environment.

No medical experience? No problem! SP's come from all backgrounds. If you're reliable, enjoy working with people, and want to make a real impact in healthcare education, this could be the role for you.

What does it take to be an SP?

- Follow instructions carefully
- Be punctual, reliable, and flexible
- Maintain confidentiality
- Communicate clearly and professionally
- Have strong memory and attention to detail

Why join?

- Contribute to future healthcare training
- Flexible scheduling
- Paid at \$20/hour
- No acting or healthcare experience needed
