Experiences in Finance

The bachelor of business administration finance major (BBA) prepares students to be exceptional leaders in business and finance by cultivating their understanding of how domestic and global finances work. Students obtain practical and theoretical knowledge of the various aspects of the field including financial management, information technologies, investment analysis, financial planning, and budgeting, among other vital skills. Finance majors learn how to appropriately make investment and financing decisions, recognize the inherent risk of these decisions, and how to adequately hedge against uncertainty. Students have access to the McCoy college of business student success center as well as a variety of options for membership in student organizations.
