# Ditto Director Quick Guide
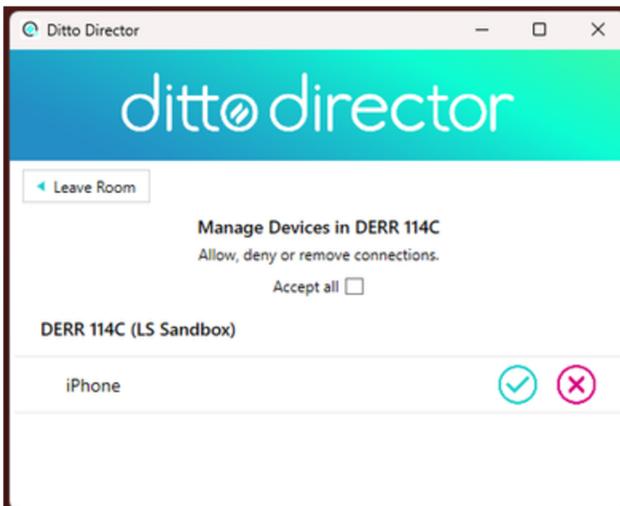

Ditto Director is an **app on the Room PC** that can be used to **moderate Ditto sharing** sessions. Use it to **approve or deny share requests** to the system and to terminate existing shares.

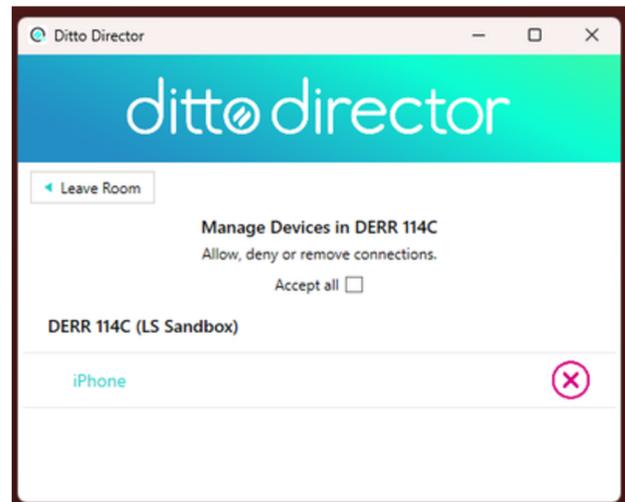

Enter the **Room Code** to connect to the room. The code will appear on the monitor/projector that Wireless Share is selected on.

Once connected, enter the **on-screen code** that appears on the monitor/ projector.

When someone starts a share, **approve (check) or deny (X) the share**.

When someone is sharing, **click on the X to end the share**.
