Think critically and make informed decisions

Analyze and solve problems focusing on efficiency and outcomes

Communicate clearly and effectively in interpersonal interactions, collaborative team settings, and professional written formats

Develop continuous learning skills and apply knowledge toward career progression

Effectively lead in small teams and manage projects from inception to completion

Apply innovative technologies to support professional objectives

Experiences in Integrated Studies

The bachelor of general studies degree, major in integrated studies (INTS), is an interdisciplinary program for students with a broad range of interests. The curriculum is individualized for students by choosing one, two, or three minors, specifically chosen electives, and completing two INTS courses to support a unique career goal. Students are encouraged to meet with their college of education advisor each semester to take full advantage of the coursework tailored to their interests. The program includes an optional human resource development internship and concludes with a digital career portfolio. With this broad and flexible major, students can take advantage of numerous experiential opportunities and educational experiences that would enhance the marketability of this well-rounded degree.

Career Opportunities

As an interdisciplinary degree, the career possibilities are endless. A few examples are:

Administrative service

Applied professions

Computers & technology

Education roles

Fine arts professions

Health professions

Human resources

Liberal arts professions

Management

Marketing

Nonprofit roles

Sales

State & federal government positions

Teaching
