Events photographer	Archivist
Commercial photographer	Librarian
Self-employed	Graphic design
Photographer	Videographer
	Website production
	Magazine production

Experiences in Photography

The photography major offers a broad spectrum of historically informed course work to provide a rigorous and supportive environment. Students investigate all aspects of the medium and garner the essential technical skills necessary to establish their own personal voices. After seven core classes ranging from traditional darkroom, to advanced digital, to readings in photography, each student participates in a two-semester thesis capstone. During these two final courses students generate a professional caliber body of work culminating in a portfolio and exhibition. With an emphasis on individual artistic development, visual literacy, and critical inquiry, our program prepares well-informed, thoughtful, and highly skilled graduates. The student experience may include membership in student organizations, internships, study abroad, and participation in a wide variety of events.
