### Experiences in Criminal Justice

The bachelor of science in criminal justice is designed to provide students with the tools necessary to gain employment in related criminal justice fields such as probation, parole, policing, asset protection and other non-practitioner roles such as research and rehabilitation counseling. The curricula address a wide range of social issues and research opportunities which provide a foundation of knowledge necessary to excel in a challenging world. Students may participate in Education abroad or Study in America trips, learn with peers in major related organizations, develop a professional community at networking events, compete in student competitions, or join general student organizations for a well-rounded experience.
