REQUEST FOR QUALIFICATIONS FOR DESIGN/BUILD SERVICES
TEXAS STATE UNIVERSITY
SAN MARCOS, TEXAS
CHARLES AUSTIN DRIVE GARAGE
RFQ No.: 758-26-09110

SECTION 1 – GENERAL INFORMATION & REQUIREMENTS

- 1.1 **GENERAL INFORMATION:** The Texas State University System (“Owner”) on behalf of **Texas State University** (“Institution”), are soliciting Statements of Qualifications (“Qualifications”) for selection of a Design/Build firm for the **Charles Austin Drive Garage** (“Project”), on the University’s site located in San Marcos, Texas. This solicitation sets forth the terms, conditions, and requirements for prospective Design/Build firms to be considered for this work. (Prospective Design/Build firms are hereinafter referred to as “Respondents”).
- 1.1.1 This Request for Qualifications (“RFQ”) is the first phase in a two-phase process for selecting a Design/Build firm for the Project as provided by *Texas Education Code* §51.780. This RFQ provides the information necessary to prepare and submit Qualifications and for the Owner to evaluate each Respondent’s experience, technical competence, capability to perform, the past performance of the Respondent’s team and members of the team, and other appropriate factors submitted in response to the RFQ, except that cost-related or price-related evaluation factors are not permitted through the initial qualification and ranking of the Respondent. Each Respondent must certify to the Owner that each architect and/or engineer (“A/E”) that is a member of its team was selected based on demonstrated competence and qualifications in the manner provided by Section 2254.004, *Texas Government Code*. The response to the RFQ will provide all the information necessary for consideration and initial ranking by the Owner. Based on the initial ranking, the Owner may select a short list of up to five (5) of the top ranked Respondents for an interview. Short-listed Respondents may be required to submit additional information in connection with the interview.
- 1.1.2 In phase two, the Owner may request additional information regarding each short-listed Respondent’s demonstrated competence and qualifications, considerations of the safety and long-term durability of the project, the feasibility of implementing the project as proposed, the ability of the Respondent to meet schedules, costing methodology, and other factors as appropriate. The Owner will not require Respondents to submit detailed architectural or engineering designs as part of the proposal. The Owner shall rank each proposal submitted on the basis of the criteria specified in the RFQ, the additional information submitted in connection with the interview, and the interview itself, if held. The owner shall select the Design/Build firm that submits the proposal offering the best value for the Institution on the basis of the published selection criteria and on its ranking evaluations.
- 1.1.3 As part of phase two, the short-listed Respondents will be required to submit a proposal on the Owner-provided proposal form. The proposal form shall be submitted in a sealed envelope with the RFQ number and the Respondent’s name clearly stated on the outside of the envelope. The proposal form will include line items that require each of the following to be stated separately: the Proposed Pre-Construction Phase Fee, the Proposed Construction Phase Fee, and the Proposed General Conditions costs by line item category. **All proposed fees and general condition costs shall exclude any and all architectural and engineering fees.**

- 1.1.4 After the evaluation of information provided under phase two, and any subsequent re-ranking of the short-listed Respondents, the Owner shall first attempt to negotiate a contract with the highest ranked Respondent. If the Owner is unable to negotiate a satisfactory contract with the selected Respondent, the Owner shall, formally and in writing, end all negotiations with that Respondent and proceed to negotiate with the next Respondent in the order of the selection ranking until a contract is reached or negotiations with all ranked Respondents end. In the course of negotiating the contract, the Owner shall rely on the fee and cost proposals provided by the Respondent under phase two. Time is of the essence for the Owner in the negotiation of contracts and Respondent shall take all necessary measures to assure that proposals and revisions to proposals are expedited. Failure of the Respondent to be responsive and maintain a satisfactory and expedited negotiating schedule shall form the basis for the Owner to end all negotiations with the Respondent.
- 1.1.5 The Owner has established a Design/Builder's Budget Limitation ("DBBL") amount of Forty Million Five Hundred Thousand Dollars (\$40,500,000) The DBBL includes a Construction Cost Limitation ("CCL") of Thirty-Seven Million Five Hundred Thousand Dollars (\$37,500,000). The selected Design/Build firm will be expected to present a Guaranteed Maximum Price Amount (including a mutually agreed upon construction contingency) for Owner's approval at the completion of the one hundred percent (100%) Design Development Documents.
- 1.1.6 Following selection of a Design/Build firm, that firm's A/E shall complete the design, submitting all design elements for review and determination of scope compliance by the Owner before construction. An architect shall have responsibility for compliance with the requirements of Chapter 1051, *Texas Occupations Code*. An engineer shall have responsibility for compliance with the engineering design requirements and all other applicable requirements of Chapter 1001, *Texas Occupations Code*.
- 1.1.7 The successful Respondent will be required to use the Owner's web-based project management software.
- 1.2 **PUBLIC INFORMATION:** All information, documentation, and other materials submitted in response to this solicitation are considered non-confidential and/or non-proprietary and are subject to public disclosure under the Texas Public Information Act (*Texas Government Code*, Chapter 552.001, *et seq.*) after the solicitation is completed. The Owner strictly complies with all statutes, court decisions, and opinions of the Texas Attorney General with respect to disclosure of RFQ information. Additionally, pursuant to the provisions of *Texas Government Code* Section 2261.253, the contract resulting from this solicitation will be posted on the Owner's website. Without limiting the foregoing, the requirements of Subchapter J, Chapter 552, *Texas Government Code*, may apply to this solicitation and the Respondent agrees that the contract can be terminated if the contractor or vendor entering into the contract pursuant to this solicitation knowingly or intentionally fails to comply with a requirement of that Subchapter.
- 1.3 **TYPE OF CONTRACT:** Any contract resulting from this solicitation will be in the form of the Owner's Standard Design/Build Contractor Agreement ("Agreement" or "Contract"), a copy of which is posted on Owner's website at: <http://www.tsus.edu/offices/finance/capital-projects.html>
 - 1.3.1 The Contract should be viewed as a draft and is subject to change. The 2022 Uniform General Conditions for Construction Contracts referenced in the Contract may be viewed on the Owner's website at:
<http://www.tsus.edu/offices/finance/capital-projects.html>

Any responses to inquiries, clarifications, or interpretations of this RFQ that materially affect or change its requirements will be issued formally by the Owner as a written addendum. All such addenda issued by the Owner before the Qualifications are due become part of the RFQ. Respondents shall acknowledge receipt of and incorporate each addendum in its Qualifications submittal. Respondents shall be required to consider only those clarifications and interpretations that the Owner issues by addenda. Interpretations or clarifications obtained in any other form, including oral statements, will not be binding on the Owner and should not be relied on in preparing Qualifications. It is the responsibility of all Respondents to check the status of formal addenda regularly and five (5) days before the submission deadline.

I. GENERAL:

- A. The Optional Pre-Submittal Conference was held on August 18, 2026, at Texas State University. The Attendance Sign-In Sheets are included as part of this Addendum along with the questions and answers presented in response to this solicitation:

1. **Question:** We have a question regarding Section 3.3.1, which requests examples of the team's Design-Build project experience completed within the past five years. Given the impact the pandemic had on delaying or halting many large construction projects, would the University consider expanding the timeframe to include projects completed within the past 10 years? Expanding the timeframe would allow firms to highlight additional relevant Design-Build experience that is directly applicable to this project and provide the University with a more comprehensive understanding of each team's qualifications.

Answer: Refer to Revision A. under Part II REVISION, below.

II. REVISION:

- A. Page 15 of 26, Section 3.3. CRITERION THREE: RESPONDENT'S PAST PERFORMANCE ON REPRESENTATIVE DESIGN/BUILD PROJECTS: (Criterion Weight: 20%): *The following section of the RFQ is revised as follows:*

3.3.1 Identify and describe the Respondent's team's past experience for providing Design/Build services that are **MOST RELATED TO THIS PROJECT within the last ten (10) years**. Provide not less than three (3) but not more than five (5) examples. List the projects in order of priority, with the most relevant project listed first. Provide the following information for each project listed:

III. ADDITION:

- A. Page 18 of 26, Section 3.7. CRITERION SEVEN: RESPONDENT'S ABILITY TO IDENTIFY AND RESOLVE PROBLEMS (Criterion Weight 5%): *Add the following section for response under RFQ Criterion Seven:*

3.7.4 Describe Respondent's past experience constructing a pre-cast parking structure any "lesson learned" from that experience.

G. Parking and Permitting Information

- Contractors, service providers, and vendors with a University contract must purchase and display a valid parking permit to park on campus at all times, except in park-and-pay lots or garages. Permits do not guarantee a parking space. All vehicles on University property must comply with [University Traffic and Parking Regulations](#) and display a current permit. Unauthorized parking or lack of a visible permit may result in ticketing, booting, or towing at the owner's expense. For details on parking violations and fines, refer to the University Traffic and Parking Regulations.
- Please visit the Parking Services <https://www.parking.txst.edu/construction-contractors.html> website.

H. Veteran Heroes United in Business Submittal Requirements

It is the policy of the Owner and each of its Member Institutions, to promote and encourage contracting and subcontracting opportunities for service-disabled veterans, referred to as Veteran Heroes United in Business ("VetHUB" or "VetHUBs"), in all contracts. Accordingly, specific plans and representations by Respondents that appear to facilitate the State's commitment to supporting VetHUB enterprises are required in the selection process. Failure to submit specific plans and representations regarding VetHUB utilization, or failure to address the subject at all, will be interpreted by the Selection Committee as an intention not to support the program and will disqualify the Respondent. A State of Texas Subcontracting Plan is required as a part of the Respondent's Qualifications.

The State of Texas Subcontracting information may be downloaded from the Texas State Comptroller's website at the following URL link: VetHUBprogram@cpa.texas.gov

Questions regarding the State of Texas Subcontracting Plan requirements can be directed to: HUB@txstate.edu
