

Further Information on the Benefits of a Leo to Lion Membership

As a member of our Omega Leo Club there are benefits of continuing your life of service as a Lion Club member. Any Omega Leo member over 21 years of age can convert to regular Lion Club membership at any time. Or, you can remain as a Leo member until age 30. Anyone joining our Omega Leo Medical Explorers older than 30 must be registered as a regular Lion Club member. To qualify for the discounted Leo to Lion membership, you must have been a Leo member for the preceding year.

The benefits until age 35 include, 1) **a 50 % discount on international dues**, 2) count years as a Leo on your total years as a Lion Club member, 3) special designation and recognition as a “Leo to Lion” and the award of a special pin to be worn as a Lion Club member. There may be other benefits and recognition during Lion conventions.

You're welcome to continue your Lion service assigned to our Omega Leo Medical Explorers as long as you are not yet 30 years of age. There is no difference in your participation as an Omega Leo. You can participate in all our training and volunteer opportunities. At 30 years of age, you will need to register as a Lion Club member, but you are welcome to continue as a member of our organization, although as a Lion Club member. Ask a Senior Advisor for further clarification if necessary.

The Leo to Lion program is to your advantage if you are graduating or leaving our program but would like to continue a life of service as a Lion. You must declare your transfer to a Lion Club membership within a year of your ending your Omega Leo Medical Explorer membership.

Remember the fiscal year for Lions Clubs International begins July 1. If graduating in May, and leaving our membership, you must register as a Lion before July 1 of the following year to take advantage of this offer.
