MSCD-MA Professional Licensure Determination by State 2026

TEXAS STATE UNIVERSITY. Communication Disorders	The program makes every effort to provide current information regarding professional licensure requirements; however, state requirements are subject to change. Students are responsible for consulting the applicable state licensing or regulatory agency to confirm current requirements, including any additional requirements for specific employment settings, before beginning the program, participating in out-of-state clinical experiences, or seeking licensure. For state-specific information and regulatory contacts, visit ASHA's State and Territory Information.
