
SOCCER LEAGUE TO BE LAUNCHED HERE IN FALL

A soccer league, which will affiliate with the American Association, is to be organized next fall under the supervision of T. J. Warhurst, a soccer enthusiast from England. The league officials will merely solve the usual knotty problems that each team forms about the schedule of matched games and postponements.

A cup which was donated by another England soccer veteran, Arthur C. Drury, is on display in the window of the Hertzberg Jewelry Company. bears the inscription, "Drury cup for competition in soccer football by the San Antonio schools."

An entry of eight teams is expected when the season opens for play next fall.
