

UNIVERSITY COLLEGE

Phone: (512) 245-2218

Office: Academic Services Building North, Room 100

Fax: (512) 245-8765

Web: <http://www.txstate.edu/ucollege/>

In order to acquire the fundamental skills and cultural background that are the marks of an educated person, all students at Texas State complete a program of general education core curriculum courses, which serves as the common foundation for all majors and accounts for about 35 percent of the approximately 128 semester credit hours required for a bachelor's degree.

Conceptually, the general education core curriculum experience starts with a common integrative University Seminar taken by all students who have not completed an equivalent college-level course elsewhere, branches out to a series of component areas, and then moves on to the student's chosen major.

Thus, at the end of the bachelor's program, the student is prepared not only in a departmental field of study, but also in the general abilities of questioning, explaining, and learning that remain universally useful in a rapidly changing world. Texas State graduates have the raw materials to build solutions as they fulfill career and civic responsibilities.

A list of courses and course choices that fulfill the general education core curriculum is given below. In many cases, the academic plans of various Texas State colleges, departments, degrees, majors, and certifications modify or exceed these standards, so students are urged to carefully examine all sections of this catalog, which apply to the academic program of their choice.

Depending on the catalog year assignment, students transferring from Texas public institutions of higher education may have to fulfill only those portions of the general education core curriculum not completed at their previous institutions. Students from private or out-of-state institutions or those who took coursework before the core curriculum was put into place (Fall 1999), will have their coursework evaluated to determine if it is equivalent to that required at Texas State.

For all students, specific major requirements may override those in the core curriculum. Those who have completed the core requirement for college math, for instance, may have to complete Calculus if such is required by their major. In all cases, the major and core requirements applicable are those in the year catalog to which the student is assigned. A list of general education core requirements at all Texas public institutions of higher education is available online at <http://statecore.its.txstate.edu>.

General Education Core Curriculum Components

Communication Component (9 hours)

ENG 1310 and 1320-College Writing, Parts I & II

COMM 1310-Fundamentals of Human Communication

Mathematics Component (3-4 hours)

Choose one from:

MATH 1315-College Algebra

MATH 1316-Survey of Contemporary Mathematics

MATH 1317-Plane Trigonometry

MATH 1319-Mathematics for Business & Economics I

MATH 1329-Mathematics for Business and Economics II

MATH 2321-Calculus for Life Sciences I

MATH 2417-PreCalculus Mathematics

MATH 2471-Calculus I

(See Department of Mathematics section of this catalog for minimum test scores and/or prerequisites required to enroll in these courses. Students may have to complete MATH

1300 - Pre-College Algebra or MATH 1311 - Basic Mathematics before enrolling in MATH 1315 - College Algebra.)

Natural Science Component (7-8 hours)

(If both courses are from the same science, one course may be non-laboratory.)

ANTH 2414-Physical Anthropology
 BIO 1320-Modern Biology I (for non-majors)
 BIO 1421-Modern Biology II (for non-majors)
 BIO 1430-Functional Biology (for majors)
 BIO 1431 Organismal Biology (for majors)
 CHEM 1310-Introductory Chemistry for Non-Science Majors
 CHEM 1430-Chemistry for Non-Science Majors
 CHEM 1341/1141-General Chemistry I
 CHEM 1342/1142-General Chemistry II
 GEOL 1410-Physical Geology
 GEOL 1420-Historical Geology
 PHYS 1110, 1310, 1320-Elementary Physics
 PHYS 1140-Introductory Laboratory in Astronomy
 PHYS 1340-Astronomy: Solar System
 PHYS 1350-Astronomy: Stars and Galaxies
 PHYS 1410-General Physics I
 PHYS 1420-General Physics II
 PHYS 1430-Mechanics
 PHYS 2425-Electricity & Magnetism (Engineering Sequence)

Humanities & Visual and Performing Arts Component (9 hours)

ART 2313, DAN 2313, MU 2313, or TH 2313-Introduction to Fine Arts
 PHIL 1305-Philosophy and Critical Thinking

Choose one from:

ENG 2310, 2320-British Literature before 1785, British Literature since 1785
 ENG 2330, 2340-World Literature before 1600, World Literature since 1600
 ENG 2359, 2360-American Literature before 1865, American Literature since 1865

Social and Behavioral Sciences Component (15 hours)

HIST 1310-History of the U.S. to 1877
 HIST 1320-History of the U.S., 1877 to date
 POSI 2310-Principles of American Government
 POSI 2320-Functions of American Government

Choose one from:

ANTH 1312-Cultural Anthropology
 ECO 2301-Principles of Economics
 GEO 1310-World Geography
 PSY 1300-Introduction to Psychology
 SOCI 1310-Introduction to Sociology

Texas State Component (3 hours)

US 1100-University Seminar

Choose two courses from:

PFW 1101-1139, 1150-1164, 1166-1225; DAN 1160, 1161, 1162, 1170, 1180, 1181, 1182, 1190, 1191, or 1192

Or take one course from the above and one from:

PFW 1140, 1149, 1165; MUSE 1111C, 2111C, 3111C, or 4111C (Marching Band).

A complete listing of the course offerings is available in the Health, Physical Education, and Recreation Department section of this catalog and in the Schedule of Classes. Veterans with a DD214 discharge form or those with similar active duty in the National Guard,

Reserves or Armed Forces of the United States or of another nation may receive up to 4 hours of PFW credit for that service. Students with documented disabilities should consult with the Health, Physical Education, and Recreation Department for appropriate accommodations.

Writing Intensive

Certain Texas State courses are designated as “writing intensive” and are labeled as (WI) in this catalog and the schedule of classes. In order to achieve this status, at least 65% of the course grade must be based on written assignments and a minimum of one extended piece of writing must be required. Academic colleges require a minimum of 9 credit hours of these courses for graduation. In addition to certain major and elective courses, the two History and one Philosophy course included in the general education core curriculum are writing intensive. These courses as well as other courses appropriate for writing intensive credit must be taken at Texas State.

Transfer Students

Students transferring from other institutions of higher education will have their transcripts initially evaluated by the Undergraduate Admissions Office to determine which courses will apply to Texas State requirements. Those seeking more specific evaluation of courses for fulfillment of general education core curriculum components may contact University College to initiate the process. Students should be prepared to provide documentation such as catalog descriptions, course syllabi and textbook information to facilitate verification of course content. Under the provisions of the Texas general education core curriculum, Texas State must accept courses that fulfill the core curriculum at other Texas public institutions (indicated by a 3-digit code on the transcript), and may not accept other courses unless they are equivalent to the required Texas State course.

Academic Advising Center

Phone: (512) 245-2218

Office: Academic Services Building North, Room 100

Fax: (512) 245-8765

Web: <http://www.txstate.edu/ucollege/advising.html>

University College provides academic advising for students who are undecided about a major, those who are changing majors, and those who are working toward admission into a particular program. Advisors will assist students in researching options, evaluating alternatives, and making decisions so that they may make realistic and satisfying choices of majors. They will also provide guidance in completing the general education requirements. The advising goal is to provide accessible, friendly, and accurate advising.

University College advising is located on the first floor of Academic Services Building North and is available between 8:00 and 5:00, Monday through Friday. Services include one-on-one appointments, registration advising sessions before and during early registration, and probation advising sessions. Electronic newsletters are sent to students with the major codes 100.00 (Undeclared) and 100.50 (Undeclared-Professional) each semester to provide reminders of the services available.

National Student Exchange (NSE)

The National Student Exchange (NSE) is a University College program that offers Texas State students a unique opportunity to expand their educational horizons by enrolling at a participating university for one or two semesters. Students can benefit from the NSE program by accessing different courses, internships, career options, and exploring graduate schools at over 175 colleges and universities around the nation while paying in-state tuition.

An exchange consists of a single semester or a full academic year of coursework at any college or university in the NSE consortium. Students can choose member institutions throughout 49 United States, as well as Guam, the U. S. Virgin Islands, and Puerto Rico. Credits earned at these host institutions can be transferred back to Texas State, allowing

students to maintain progress toward their academic objectives. For the privilege of NSE participation, Texas State students enjoy in-state tuition and fees at their host institution on Plan A payment status, or 15 hours of coursework at Texas State in-state rates on Plan B payment.

Applications for the NSE program are due in February for fall and spring exchanges. Interested students must have a full-time course load, have completed at least 30 hours, and maintain a 2.5 cumulative GPA. Requirements of the program include a completed application and a \$150 application fee. For more information about the National Student Exchange, contact University College or refer to the Texas State-NSE web site at <http://www.txstate.edu/ucollege/nse>

University Seminar

Phone: (512) 245-7952 Office: Academic Services Building – North, Room 410
 Fax: (512) 245-7908 Web: <http://www.txstate.edu/ucollege/universityseminar/>

The University Seminar course should be taken during a student's first semester at Texas State. Taught by approximately 100 faculty from every college of the university, the course introduces students to the process of college thinking by encouraging them to examine their present lives. Opening with the questions, "Who am I?", "What do I value?", "What do I want in life?", the course turns next to an investigation of the nature and purposes of a university. Finally, students are asked to relate these topics by exploring the connection between their university education and the lifestyle that they will build during and after college. This course presents the nature and structure of university education with special emphasis on the benefits and values of general education. University Seminar tries to help new Texas State students think through a most important question: "Why am I here; why is a university education for me?" The one-hour Seminar, required of all students new to Texas State who have not taken a similar college-level course elsewhere, is coordinated through University College. Distinct sections of the course serve freshmen and transfer students. These are labeled in the Schedule of Classes.

Course in University Seminar (US)

1100 University Seminar. (1-0) University Seminar is an introduction to the nature and aims of university education, with special emphasis on the value of broad learning.

Mitte Honors Program

Phone: (512) 245-2266 Office: Lampasas 407
 Fax: (512) 245-8959 Web: <http://www.txstate.edu/honors/>

The Mitte Honors Program combines the advantages of a small, liberal arts college with the resources and broader degree offerings of a premier public, student-centered, and doctoral-granting institution. As a core community of scholars dedicated to the highest purposes of university education, the Mitte Honors Program attracts and retains the most highly qualified students, provides a living embodiment of collegiate ideals, and thereby enriches the institution in its entirety.

The program offers a diversity of curricula in small, seminar-type classes (limited to 17 students), where honors students discuss ideas and raise questions stimulated by readings, field trips, and presentations. Faculty members promote interdisciplinary inquiry, curiosity, creativity, and a lifetime love of learning. Recent course offerings include Art and Artists: Catalysts of Social Change, New and Old World Philosophy, The Voices of Eros in Poetry, Baseball and the American Experience, Elementary Number Theory, Religion, Science and the Quest for Meaning, C.S. Lewis: Chronicles of a Master Communicator, The Theory of Language, Astronomy in Art, History and Literature, and the course, Film Analysis, taught entirely in Paris.

In 2005, a \$500,000 initial gift from the Roy F. and Joann Cole Mitte Foundation of Austin created a permanent endowment for the program, which was then named in honor of the Mitte family. Currently, the program directly involves more than 500 Texas State students. Additionally, Mitte Honors serves a much broader population through several collaborative programs: 1) the Scholars of Promise recruiting initiative to attract students from across the state, 2) the Scholars of Promise development initiative to groom Texas State students for nationally competitive scholarships, including the Rhodes, Fulbright, and Rockefeller competitions, 3) the Common Experience, a series of activities and course-based discussions that build on a common theme and foster dialogue across the campus and into the community, and 4) quality Study Abroad opportunities, such as recent programs offered in Paris and at Oxford University.

The Mitte Honors Program is now housed in the historic Lampasas building, adjacent to Old Main. The renovated space includes seminar rooms, a student computer lab, a conference room, offices for staff and for student academic organizations, and the Mitte Forum coffee house—a large area designed for coffee, conversation, and study, complete with wireless internet access.

Programs and Requirements. The Mitte Honors Program accepts students on a rolling admissions basis. Entering 1st year students from the top 10 percent of their graduating class, or those with a composite score of 27 on the ACT or 1180 on the SAT, are eligible to apply for admission to the program. Transfer or currently enrolled students with a GPA of at least 3.25 are also eligible to apply. Mitte Honors classes are filled on a first-come, first-served basis.

Students wishing to graduate in the Mitte Honors Program now have two avenues available for doing so: (1) the traditional Honors Program, where students complete at least five honors courses (15 hours), including the Honors Thesis and (2) a minor in Honors Studies, where students complete at least seven honors courses (21 hours), including the Senior Seminar (an integrative and culminating thesis/project development course) and the Honors Thesis. All Mitte Honors students must maintain a minimum GPA of 3.25 to remain in and to graduate from the program. Students may elect to participate in the Mitte Honors curriculum and community, but without completing honors graduation requirements. For additional details on either of the programs, please consult the Mitte Honors Program staff.

Programs Benefits. Mitte Honors students receive access to early pre-registration each semester. Students may receive special travel assistance from the Mitte Honors Program to present research at regional and national conferences and are eligible for a variety of scholarships awarded through the Mitte Honors Program.

Texas State rewards completion of the Mitte Honors Program requirements with recognition at Commencement (name and thesis title is included in the program), a special transcript annotation, and a Mitte Honors Program certificate as a supplement to the diploma. The Mitte Honors Program also provides a special medallion to its graduates, especially suited for wearing at Commencement.

Program Faculty. The Mitte Honors Program builds on the strength of master teacher-scholars from across the campus, many of whom have been recognized for their contributions in teaching, scholarship, or service. Faculty teaching in the Mitte Honors Program include persons who have garnered Presidential Excellence awards, Piper Professor and other state/national teaching awards, Fulbright Fellowships, and awards for their writing, research, and service contributions.

Current and recent Mitte Honors Program instructors include: S. Beebe (Communication Studies), J. Bell (Management), R. Bell-Metereau (English), M. Brennan (History), P. Cagniart (History), S. Crixell (Family and Consumer Sciences), D. Ferrero (Mathematics), B. Friedman (Family and Consumer Sciences), C. Frost (Psychology), G. Fulmer (Philosophy), H. Galloway (Physics), J. Garcia (Counseling and Guidance), D. Gilb (English), H. Ginsburg (Psychology), J. Gordon (Philosophy), R. Gorman (Political Science), A. Gragera (Spanish),

K. Grasso (Political Science), T. Grimes (English), C. Hanks (Philosophy), S. Hanson (English), T. Hindson (Political Science), E. Holt (English), P. Hutcheson (Philosophy), C. Jaffe (Spanish), G. Joy (Philosophy), L. Kelsey-Jones (Art and Design), Senator R. Krueger (Political Science), J. Leavell (Curriculum and Instruction), D. Lochman (English), B. Locklin (Spanish), V. Luizzi (Philosophy), G. Lumia (Psychology), R. Mandziuk (Communication Studies), C. Martin (French), S. Mayo (Theatre), D. McCabe (Mitte Honors), T. McCabe (Mathematics), A. McKinney (Philosophy), J. McWilliams (History), M. Menninger (History), M. Michell (Theatre), S. Morrison (English), J. Neely (Music), D. Olson (Physics), K. Peirce (English), R. Raphael (Religious Studies), O. Renick (Health Administration), P. Salem (Communication Studies), N. Schuler (Music), P. Sigenthaler (History), D. Stimmel (Psychology), S. Ugalde (Spanish), K. Ward (Political Science), R. Warms (Anthropology), M. Warshauer (Mathematics), N. Wilson (English), S. Wilson (English), and L. Yuan (Philosophy).

Courses in Honors (HON):

New Honors courses are created continually, a process that ensures innovative, thoughtful offerings not duplicated elsewhere. Faculty members who lead and students who participate in Mitte Honors classes represent many different academic departments and colleges from across the campus. Mitte Honors courses feature an explicitly interdisciplinary component, and all Mitte Honors courses are, by definition, writing intensive. The courses are also discussion intensive, and students are expected to communicate effectively orally, as well as demonstrate problem-solving skills. Many of the courses are designed to replace general education core requirements.

To see particular Mitte Honors courses that are offered within the general rubrics listed, please see course listings at the Mitte Honors Program website: <http://www.txstate.edu/honors>

(WI) **1390 History of Ideas I.** (3-0) A course centering on selected aspects of culture, how these aspects contribute to people's understanding of themselves and their universe, and the relevance of these aspects to contemporary society. Examples: The Evolution of American Culture; Origins of Civilization. Repeatable for credit with different emphasis.

(WI) **2370 Contemporary Issues in Mathematics and Computer Science** (3-0) A course that addresses current issues in mathematics and the computer sciences, especially those which have particular significance for today's society. Repeatable for credit with different emphasis.

(WI) **2380 Contemporary Issues in Natural Science** (3-0) A course that addresses current issues in the natural sciences, particularly those which have particular significance for today. Examples: Astronomy in Art, History, and Literature; Nanotechnology and the Science of the Very Small. Repeatable for credit with different emphasis.

(WI) **2381 Mathematical Foundations of Science** (3-0) A course that introduces liberal arts students to the fundamental ideas in science and provides the mathematical background necessary for an understanding of scientific subjects. Repeatable for credit with different emphasis.

(WI) **2390 History of Ideas II.** (3-0) A course that explores the quest for an ideal society and the ideologies that quest has produced. Examples: Old and New World Philosophy; Art and Artists: Catalysts of Social Change. Repeatable for credit with different emphasis.

(WI) **2391 History of Ideas III** (3-0) A course that focuses upon intellectual and cultural developments in western history, which have particular significance for contemporary society. Examples: Nature and the Quest for Meaning; Democracy in America. Repeatable for credit with different emphasis.

(WI) **3390 The Nature of Society** (3-0) A course that probes some of the antecedents of modern society as reflected in the philosophy, art, science, and religions of the medieval and early modern era of Western Europe. Examples: Renaissance Concepts of Humanity; The Problem of Evil. Repeatable for credit with different emphasis.

(WI) **3391 The Nature of Modernity** (3-0) A course which explores some of the philosophical and ethical problems in the realms of modern science, technology, urbanism, and social and cultural change. Examples: Elementary Number Theory; Philosophical Explorations in Film. Repeatable for credit with different emphasis.

(WI) **3392 The Nature of the Human Experience I.** (3-0) A course that explores some of the historical, philosophical, and cultural aspects of our relationship to each other and to our world. Examples: Religion, Science, and the Quest for Meaning; Technology, Gender, and Bodies in Film. Repeatable for credit with different emphasis.

(WI) **3393 The Nature of the Human Experience II.** (3-0) A course that focuses on some of the cultural, historical, technological, philosophical and ideological aspects of the modern world. Examples: Entrepreneurs, Leaders, Teams: Best Practices; Sex, Drugs, and Cabaret: Europe 1880-1914. Repeatable for credit with different emphasis.

(WI) **3394 The Nature of the Human Experience III.** (3-0) A course that focuses on some of the cultural and philosophical developments in history, which have particular significance for contemporary society. Examples: Consciousness: Interdisciplinary Perspectives; The Japanese Urban Experience. Repeatable for credit with different emphasis.

(WI) **3395 The Nature of the Human Experience IV.** (3-0) A course that focuses on some of the intellectual and cultural developments in the arts and sciences, which have particular significance for understanding today's world. Repeatable for credit with different emphasis.

(WI) **4390A Senior Seminar: Thesis Development.** (3-0) A course that provides a context within which students are asked to reflect on and integrate their prior Honors courses and their academic major, particularly as they prepare to conceptualize and design an independent research project or creative achievement that culminates in a thesis.

(WI) **4390B Honors Thesis.** (3-0) A course in which students pursue an independent project of research, study, or creative achievement that culminates in a paper, laboratory or field research problem, or creative project (play, book of poetry, artwork, etc.) of significant size and scope.

(WI) **Contracted Course Designation "H"** Any regular Texas State course can become a contract course with the concurrent approval of the student, faculty member, and Director of the Mitte Honors Program. A contracted class will count toward Mitte Honors Program requirements only when taken as a departmental elective.

Mathworks

Phone: (512) 245-3439

Office: Academic Services Building South 110

Fax: (512) 245-1469

Web: <http://www.mathexplorer.math.txstate.edu/>

Mathworks, a center for innovation in mathematics and math education, designs and hosts programs for students from kindergarten to high school, conducts research on math curriculum, and provides training for teacher education students as well as current teachers. In addition, outreach programs provide Texas State students with classroom experience and mentoring by experienced teachers. Mathworks received the 2001 Star Award for Closing the Gaps from the Texas Higher Education Coordinating Board.

Student Learning Assistance Center (SLAC)

Phone: (512) 245-2515

Office: Alkek Library 411

Fax: (512) 245-3002

Web: <http://www.txstate.edu/slac/>

Texas State's Student Learning Assistance Center (SLAC) provides a wide range of academic support programs. Whether students are seeking help with course content, study skills, or test preparation, SLAC provides a walk-in tutoring lab, Supplemental Instruction, campus presentations, and online services in writing and mathematics.

The Learning Lab gives academic assistance in accounting; sciences such as physics, biology, and chemistry; English; statistics; computer information systems; history; philosophy; languages such as Spanish; and a number of math courses. The Lab also contains study

materials, handouts, and computer-assisted instructional software on a wide range of topics and levels, from correcting comma splices to preparing for graduate school. Students may also visit SLAC for assistance in preparing for the Texas Higher Education Assessment (THEA) test and admissions tests for graduate (GRE), law (LSAT), and business (GMAT) colleges as well as local tests such as the School of Journalism and Mass Communication's Grammar, Spelling, and Punctuation (GSP) exam.

Supplemental Instruction, a nontraditional approach to collaborative learning, provides structured group study for students in historically difficult courses like HIST 1310 and 1320, ACC 2361 and 2362, PHYS 1310, CHEM 1341 and selected honors courses. Supplemental Instruction Leaders (SI's) act as role models and facilitate multiple study sessions per week in order to assist students, not only with course content, but also with the development of positive study skills and habits.

SLAC staff members also provide informational and interactive presentations on test-taking and anxiety management, learning styles, time management, note-taking, and other topics. Upon request, SLAC's staff will design specialized programs on study skills and academic improvement to fit the needs of a campus club, organization, or professor. In addition, SLAC works to facilitate the College Note-Taking session of PAWS Preview by showing incoming freshmen proper techniques and giving tips for successfully negotiating a college lecture.

SLAC also provides Texas State students with a number of online resources. By simply visiting www.txstate.edu/slac, students can access the Learning Lab's tutoring schedule and hours, times and locations of Supplemental Instruction sessions, information regarding becoming a lab tutor or SI Leader, content area handouts, and test preparation materials. SLAC also maintains an Online Writing Lab (OWL) and a Math Online Lab (MOL), providing tutoring in an electronic format accessible via email.

Athletic Academic Center (AAC)

Phone: (512) 245-2978 Office: Academic Services Building-North 210

Fax: (512) 245-1736

Web: <http://www.txstatebobcats.collegesports.com/academics/txst-academics.html>

The Athletic Academic Center (AAC) provides services and resources that aid student-athletes in maintaining excellence both in the classroom and on the playing field. The AAC staff strives to ensure the fulfillment of all five components of the program: Academic Excellence, Athletic Excellence, Community Service, Career Development, and Personal Development.

The AAC, open six days a week, houses a computer lab, a learning lab, areas for both individual and group study, and offices for the AAC staff. The AAC is staffed by a director, associate director and two student development specialists who serve as liaisons between the Athletic Department, College Academic Advising Centers and academic departments, and the administrative units of the University. In coordination with the Assistant Athletic Director for Compliance, the AAC staff also monitors academic eligibility and ensures that all athletes are maintaining satisfactory progress toward their degrees.

Texas Success Initiative Program (TSIP)

Phone: (512) 245-3942 Office: Academic Services Building-North 101

Fax: (512) 245-7648

Web: <http://www.txstate.edu/tsip/>

This office monitors the Texas Success Initiative, a legislatively mandated program for certain college freshmen and transfer students, and is located within the University College. Additional information about this program and its requirements can be found in the Academic Policies section of this catalog.

Testing, Research-Support and Evaluation Center (TREC)

Phone: (512) 245-2276 Office: Lower Commons Hall
Fax: (512) 245-2903 Web: <http://www.txstate.edu/trec/>

The Testing, Research-Support and Evaluation Center (TREC) administers national, state and local academic testing programs, including the Credit by Examination program. The TREC also maintains information and registration materials for several tests not administered at Texas State.

Among national tests available at Texas State are: the American College Test (ACT), a college entrance examination consisting of subtests in English, Mathematics, Reading and Science reasoning; and the Scholastic Aptitude Test (SAT), a college entrance examination measuring verbal and mathematical skills.

Tests for which the TREC maintains only registration materials include: the Graduate Record Examination (GRE), required for admission to most graduate schools; the Graduate Management Admissions Test (GMAT), required for most business schools; the Law School Admissions Test (LSAT); the Test of English as a Foreign Language (TOEFL) and the PRAXIS Series Professional Assessments for Beginning Teachers.

The TREC is also a testing center for the Texas Higher Education Assessment (THEA) test, which students must take before enrolling in any college coursework (see Academic Policies section).

Students who do not achieve an SAT math score of at least 480 or an ACT math score of at least 21 should take a math placement exam administered by the Testing, Research-Support and Evaluation Center. The examination determines which students must first enroll in MATH 1300 (Pre-College Algebra) and/or MATH 1311 (Basic Mathematics) before they can enroll in the appropriate required general education core curriculum math course.

Credit by Examination is a program that recognizes many students, independent of the college environment, have attained college-level proficiency in academic subjects. Credit by exam satisfies degree requirements in the same way credit earned by passing courses does except that it does not count as credit earned in residence. Students, who pass the same test as those who have successfully completed the course, can earn credit for certain courses without enrolling in them. The following options are available: 1) the College Board's Advanced Placement Examination Program (APP), 2) College Level Examination Program (CLEP), 3) SAT II Subject Tests, 4) International Baccalaureate (IB) Program, and 5) departmental examinations where available. Credit established in this manner through the TREC will be recorded as "credit only" ("CR") on the transcript and will not affect the GPA. Texas State is an institutional testing center and only those students who have attended Texas State or are currently enrolled are eligible to participate in the Credit by Examination program. Note that evidence of credit established by any of these means must be processed by the Center before it can be entered on a transcript. More detailed materials on this and other TREC programs are available at the TREC office.
