The College of Liberal Arts provides students with the foundation for a liberal education, preparing graduates to think independently, to choose freely, to base personal and professional decisions on a broad understanding of history and culture, and to live full, rewarding lives. Recognizing the central importance of liberal education, the university requires that more than fifty percent of the general education core curriculum be taken in the College of Liberal Arts, and students increasingly declare majors or minors in one of the college's nine departments or special programs.

The College of Liberal Arts offers the Bachelor of Arts in each of its nine departments: Anthropology, English, Geography, History, Modern Languages, Philosophy, Political Science, Psychology, and Sociology. The Bachelor of Science is awarded in Anthropology, Psychology, and Geography. The college also offers three special degrees: the Bachelor of Science in Applied Sociology (BSAS), the Bachelor of Arts in International Studies (BAIS), and the Bachelor of Public Administration (BPA). The college houses nine interdisciplinary minors: Media Studies, Medieval and Renaissance Studies, Nature and Heritage Tourism, Religious Studies, Southwestern Studies, Studies in Popular Culture, U. S. Ethnic Studies, Value Studies, and the Women's Studies minor. The college provides education not only in the traditional humanities but also in the practical application of the humanities to professional careers.

Academic Advising Center

The Liberal Arts Advising Center works in cooperation with our departments and centers to provide academic advising and information to majors or minors in the College of Liberal Arts. The Advising Center is a resource for counseling on academic and administrative issues. Students can be informed about general education/core curriculum requirements, majors and minors, semester course selection, transfer and correspondence courses, academic probation and suspension, progress toward degree completion, study abroad opportunities, and career guidance.

Academic advisors strongly recommend the timely completion of degree audits and summaries to better assist our students with academic planning. Academic advisors offer explanations of these documents, and assist in the process of applications for graduation. The advising center maintains course syllabi for each semester and refers students to campus resources and support services when necessary. Academic advisors work closely with departments and centers in the College and at the University, from new student orientation to graduation to ensure that each of our students has a successful academic career.

In Texas and throughout the United States, demand for graduates with knowledge of international business, cultural and area studies, and language skills continues to increase. The growing movement toward intercontinental and international trade blocs, such as NAFTA and the European Union, has created a need for persons who are not only skilled in business and communications technology, but also cultural understanding and international business practices. The Bachelor of Arts in International Studies (B.A.I.S.) degree offered by the Center addresses this need and prepares students for work in multinational corporations, state and federal governmental agencies with international divisions, and nonprofit corporations.

In addition to its academic programs, the Center gives its students several opportunities to develop global awareness and intercultural sensitivity during their undergraduate years including internships and study abroad.

Academic Advising. The Center employs an academic advisor to help students with selecting appropriate courses. The advisor also provides information on graduate study, internships, and career opportunities. The Center works closely with the Office of Career Services to prepare students for internationally-focused careers in various fields.

Minors Offered

- U.S. Ethnic Studies
- Women's Studies

The Center for Multicultural and Gender Studies helps prepare students to work and live in a pluralistic society by providing students with resources that support an interdisciplinary curriculum that addresses race class, gender, and ethnicity. The Center manages both a minor in U.S. Ethnic Studies and a minor in Women's Studies. It sponsors a variety of curriculum development and co-curricular projects for faculty, staff, and students aimed at expanding the discourse on ethnicity and gender.

Key issues for prospective minors to consider:

- Tomorrow's graduates will be entering a work force dominated by technological, service, and communication industries with an increasingly diverse workplace and clientele.
- Employer demand is increasing for diversity knowledge and skills among today's college students.
- In 2005, the Hispanic and African American population in Texas grew to approximately 51%--or the majority in the state. Texas already has the second largest Hispanic population, the third largest African American population, and the fourth largest Asian population.
- Well-rounded graduates have included in their liberal arts education a greater-knowledge of their cultural history and traditions.

Minor in U.S. Ethnic Studies

The 18-hour minor provides an interdisciplinary approach to U.S. Ethnic Studies. It also provides conceptual frameworks for exploring new perspectives that recover the history, creative expression, and voices previously excluded by the traditional approaches to higher education. The minor fosters students' development of self, voice, and moral vision to prepare them to live and work effectively in a pluralistic society. Although a concentration is not required, the minor currently offers students the option of a concentration in African American, Native American/American Indian or Mexican American Studies.

The required core course, (3 hours) ETHS 3301, offers a general, multidisciplinary and comparative survey. It focuses on different contemporary and historical research methodologies currently being used by the various academic disciplines analyzing the diverse social, economic, political and cultural facets of ethnic groups in the United States. Students in this course gain a working understanding of the current issues and research techniques used by professional and academic researchers. Guest lecturers from various disciplines and departments offer students recent research in their fields regarding ethnic studies and their applied methodologies.

The general requirement block (9 hours) focuses on African American, Mexican American, and Native American/American Indian groups and/or link the studies of their country of origin with current and historical research on race and ethnic relations in the U.S. Approved General Requirement Electives include: ANTH 3314, 3315, 3324, 3331A, 3331C, 3332, 3345, *3375C; ENG 3331, 3344; HIST 3320, 3327, 3329, 3359, 4371, 3369Z, 4372; MU 3375; POSI 4331, 4331B, 4331C; SPAN 3305, 3306, 3371 and 4370.

The general concepts electives block (6 hours) deals more broadly with concepts of ethnicity and need not be limited to the specific groups listed above. These courses provide a

theoretical framework for understanding comparative, interdisciplinary approaches to the study of race, ethnicity, and gender. Approved General Concepts Electives include: ANTH 1312, 3370; ARTH 4301; ASD 3310; COMM 3329, 4322; ENG 3345, 3346; FCD 4351; GEO 3306, 3308, 3329, 3353; HIST 3353, 4376, 3372, 3375A, 3380, 4337; HON 3392E; MC 4308; POSI 3319, 3395; PSY 3334; SOWK 4310, SOCI 3327, 3366, 3375; SPAN 4330.

*Special topic courses (those offered on a selective basis) may count toward the minor with the permission of the U.S. Ethnic Studies Program Director.

Minor in Women's Studies

The 18-hour minor offers an interdisciplinary program that concentrates on the images and realities of women. Drawing on recent scholarship on women and gender, it provides a flexible, coherent program that enables students to consider the significance of gender.

On a personal level, courses in this program enhance the human potential of both men and women. Knowledge about how societies construct gender relations can encourage students to examine their own attitudes and behavior. On an academic level, a minor in Women's Studies provides study of the ongoing scholarship about women and gender and offers students the opportunity for exciting intellectual growth. On a professional level, the minor provides a valuable specialty to prepare students for opportunities in a variety of fields, including business, counseling, education, government, health and medicine, human resources, law, politics, psychology, social work, and graduate studies. The Women's Studies minor helps students recognize their opportunities in a rapidly changing society and flexibly complements any major.

All courses within the minor focus principally (at least 60% of course content) on women and/or gender roles. They reflect recent research in the field and differences such as ethnicity, class, sexualities, age, cultures, and social context among women and women's experiences. Courses within the minor also include critical analyses of the construction of knowledge and gender, foster an understanding of the intersection of gender with politics, economics, culture and society and improves student's critical thinking skills related to gender. Finally, these courses connect knowledge about gender to women's lived experiences and behavior in personal and professional contexts.

The two required core courses (6 hours) are WS 3376: Images of Women and WS 3377: Realities of Women. Both of these courses are interdisciplinary and include lectures by faculty from several disciplines and academic departments.

The remaining four elective courses (12 hours) may be chosen from the following: ANTH 3324, 3350; CJ 4326; COMM 3328, 3334; ENG 3388, 3392; HIST 3369Y, 3373; HON 3392A, 3392G, 3392P; MC 4308; PHIL 3333; POSI 4330; PSY 3332; SOCI 3350, 3370. Topics courses, offered on a selective basis, may also count toward the minor with permission from the Women's Studies Program Director.

Course in U.S. Ethnic Studies (ETHS)

3301 Introduction to U.S. Ethnic Studies. (3-0) Students in this course will be given a multi-disciplinary survey of different contemporary and historical research methodologies currently used by the various academic disciplines analyzing the many diverse cultural facets of ethnic groups in the United States. Special attention will be given to current academic studies examining African-American, Native American/American Indian, and Mexican American ethnic groups and their cultures. Students should gain a working understanding of the current issues facing researchers of the various ethnic groups as well as of research techniques currently used by professional and academic researchers. Students will also identify their own ethnicity in the American experience through researching the oral history of their own family.

Courses in Women's Studies (WS)

(WI) **3376 Images of Women.** (3-0) This course, one of two multi-disciplinary team-taught women's studies courses, is a survey of the changing images of women in the United States since 1800 through the eyes of historians, writers, artists, orators, the media, and educators.

Minor Offered

- Southwestern Studies

The Center for the Study of the Southwest in the College of Liberal Arts, established in February 1990, has a threefold mission: curriculum development, public outreach, and research. Its 18-hour interdisciplinary minor, administered jointly with the Department of English, was approved in 1992. The Center draws faculty from varied disciplines (Art, Biology, English, Geography, History, and others); it disseminates information about its programs and research through *Southwestern American Literature*, a biannual journal devoted to the literature and culture of the Greater Southwest, and *Texas Books in Review*, a quarterly that monitors publications from or about Texas.

Cooperatively housed with the Center for the Study of the Southwest is the Southwest Regional Humanities Center. This Center is one of nine regional centers designated by the National Endowment for the Humanities. The Southwest Regional Humanities Center promotes the exchange of knowledge about regional humanities issues among individuals, communities, and institutions across the four-state region of Texas, New Mexico, Arizona, and Nevada. The Center encourages students, teachers, and the general public to understand the power of place to build identity, honor diversity, strengthen community, and celebrate the human spirit.

- BS, major in Anthropology

Minor Offered

- Anthropology

Anthropology is the study of human cultural and biological variation and evolution. In other words, it is holistic discipline taking into consideration all aspects of human existence. Anthropology is divided into four major fields: socio-cultural and biological anthropology, archaeology, and linguistics. The anthropology program at Texas State offers coursework and training in each of these areas. Graduates enter a wide range of professions including foreign affairs journalism, education, medical research, human resources, health services, academia, criminal justice, museum science, international business, and contract archaeology.

Anthropology majors may choose from two degree plans. The Bachelor of Arts (BA) degree in Anthropology is designed to prepare students for professional or graduate study in any or all four major fields of study. An understanding of the world's cultural and biological diversity is especially valuable in today's global economy. The Bachelor of Science (BS) degree in Anthropology is specifically designed to prepare students in physical anthropology and archaeology for careers that may require or prefer a Bachelor of Science. This degree will prepare students in these areas for graduate education and help to expand their science training and better prepare them for advanced work or study in physical anthropology and archaeology.

Although housed in a single department, English includes three disciplines: writing, literature, and language. The department teaches first-year composition and offers upper-division creative writing and technical writing courses. Its literature program includes a range of courses from Shakespeare and modern drama to film and women's literature. The department also teaches courses about the history and structure of the English language. English majors learn to think, write, and speak clearly; to read literature with pleasure and understanding; and to appreciate the power and subtlety of language.

While gaining a broad liberal education, English majors also learn practical skills that provide a base for almost any career. Graduates traditionally enter the fields of education, journalism, publishing, or communications. They also work for computer, engineering, and public relations firms or pursue careers in politics and government. An English background provides excellent training for law school and other graduate programs.

Texas State Geography boasts the largest undergraduate program in the United States. *The Journal of Geography*, the Association of American Geographers, and a National Program Effectiveness Survey recognized the Department as among the best undergraduate Geography programs in the nation. Additionally, the Department of Geography's internship program is the largest of its kind, placing students in both government agencies and private enterprises to provide students real-world experience to complement their academic program. The Department also offers highly acclaimed field experiences to places such as Big Bend National Park, the Southwestern United States, Europe and Mexico, where students gain invaluable firsthand geographical knowledge while gaining academic credit.

The undergraduate geography program offers a variety of major concentrations of study. Students may select a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.). The degrees provide students programs and courses designed to increase their understanding of the world they live in and to help students develop analytical skills necessary to interpret and solve real-world problems. The B.A. requires a minimum of 30 semester hours of Geography while the B.S. requires a minimum of 36 hours of Geography coursework. Geography majors may include a maximum of two additional Geography courses towards their major. General Education Core requirements are listed in the University College section of this catalog. Geography majors are required to complete a minor and are encouraged to select a minor in consultation with an academic advisor.

Admission Process. Students meeting university admission standards enter the undergraduate Geography program as pre-majors. To become majors, students must:

Degree Program Offered

- BA, major in Philosophy

Minors Offered

- Philosophy
- Religious Studies
- Value Studies

Philosophy raises some of the most fundamental questions about our world and ourselves—questions about the nature of reality, knowledge, morality, God, and society. Students of philosophy study the thinking of major philosophers on such matters and learn to think critically and clearly on their own.

Since philosophy is the home of the study of logic and the principles of good argumentation, it lends itself well to being joined with virtually any course of study. Some philosophy majors pursue careers in business, journalism, law, medicine, and education. In these cases students recognize that the successful practitioner is the good thinker and turn to philosophy to develop their critical and creative powers. Other majors develop an interest in becoming professional philosophers and enroll in some of the nation's best graduate programs in philosophy.

For those students with special interests in a particular area, the department offers the following recommendations:

Pre-Professional Study of Philosophy. Students interested in pursuing graduate work in philosophy are advised to take PHIL 3320, 3340, 4356, and 4370. They should also develop a language proficiency in French or German.

Pre-Law. All pre-law students should consider an undergraduate major in philosophy, given the importance that both philosophy and law attach to analysis, argumentation, and the evaluation of evidence. Pre-law students should also consider taking the following electives: PHIL 2330, 3320, 3322, 3323, 3331, and 3332.

Pre-Professional Study of Religion. Students interested in pursuing graduate work in religion or divinity should consider a Major in Philosophy with a Minor in Religious Studies. As part of the philosophy major, students should elect PHIL 3317, 3318, 4371, and 4370. For the Minor in Religious Studies, students should consult the course requirements at the end of the Department of Philosophy section.

Political science is the study of government-the most important decision-making part of society-and of the social, economic, and other institutions and practices that influence this decision-making process. On the one hand, it is a discipline that can trace its roots to the ancient Greek political community, the polis; but it is also a modern social science, which uses techniques such as content analysis, public opinion surveys, and statistical analysis to create and evaluate generalizations about how government and people behave.

As a liberal arts discipline, the department is dedicated to developing analytical skills and promoting critical thinking. Students are encouraged to reflect not simply on their career goals, but also on what type of persons they want to become, and on their rights and duties as citizens. The department offers students the opportunity to earn up to six credit hours in an internship program in which students gain practical experience by working for various federal, state, local or non-profit community agencies.

Political science prepares students for careers in various fields, not only in government, law, and education but also in business, journalism, urban planning, and many fields on which public policies have a significant effect.

Degree Programs Offered

- BA, major in Psychology
- BS, major in Psychology

Minors Offered

- Psychology
- Forensic Psychology
- Sports Psychology

Psychology is the science that studies how individual people and animals behave. To psychologists, behavior means not only actions, but also thoughts and feelings. Beyond its introductory course, the department offers classes in individual differences, biological, social, and learned bases of behavior. Psychology majors take courses in these areas and in methodology. Later they may participate in advanced theory, individual research, and internship classes to prepare for graduate programs in psychology.

To become a psychologist in clinical or industrial psychology requires a graduate degree beyond the bachelor's level. Many psychology majors, however, plan to enter jobs in business, government, health, and education immediately, with a BA or BS in Psychology. For more information to help you plan courses for a degree suited to your goals, obtain the "Guide for Psychology Majors" available in the department office, or on-line at www.psych.txstate.edu/.

Admission Process

Students who meet university admissions requirements (intended majors) enter Psychology as pre-majors. However, admission to the major itself and to the PSY 3301 and 3302 courses in Group 0 require:

1. Completion of PSY 1300, PSY 3330, and MATH 1315 (or their equivalents) with a grade of "C" (2.0) or higher in each course.
2. A Texas State GPA of 2.25 or higher in all course work taken at Texas State. (Transfer students must meet with a departmental advisor early in their first semester to have previous course work evaluated for admission to the major, or permission to enroll in any courses with prerequisites.)

Completion of the above requirements allows a student to apply to become a major. Admission to the major is required for enrollment in PSY 3301 (all substitutions for these courses based on transfer of credits from other colleges and universities must be approved by the Chair of the Department of Psychology.) Satisfactory completion of PSY 3301 (defined as a grade of "C" or higher) is a prerequisite for enrolling in PSY 3302.

Minor in Psychology

A minor in Psychology requires 18 hours, including PSY 1300, and 15 hours selected from any PSY courses, of which at least 12 hours must be advanced (3000- or 4000-level).

Minor in Forensic Psychology

Forensic is defined as "evidence" or "relating to, used in, or appropriate for courts of law." This minor looks at forensic issues from both psychological and criminal justice perspectives. The minor is suitable for criminal justice majors or any individual wishing to pursue a background in psychology and criminal justice. The minor also would be good preparation for those individuals wishing to pursue pre-law or social work and for individuals considering graduate coursework in forensic psychology. Students wishing to pursue this minor need to complete a minor declaration form in the Department of Psychology office, located in the Psychology Building, Room 208.

A minor in Forensic Psychology requires 21 hours, including the following: CJ 1310, 2360, 3329; PSY 3315 or 3316; PSY 3331 and 3335; one course selected from ANTH 3344, CJ 4340, SOCI 3343, or an elective approved by the Department.

Psychology majors pursuing the forensic psychology minor cannot double count courses toward their major and the minor. Enrollment in the required PSY courses assumes that non-psychology majors will have completed PSY 1300 as part of their social science core curriculum component. If not, PSY 1300 is a prerequisite for PSY 3315, 3316, 3331, and 3335. The prerequisite requirements for CJ 3329 and 4340 will be waived only for students pursuing this minor. This is justified by the fact that students will be exploring many of the issues covered in those requisite courses in the psychology coursework portion of the minor.

Minor in Sports Psychology

Sports Psychology examines the relationships between psychological concepts, theories and an individual's thoughts toward health and exercise. Current theoretical perspectives of

personality factors in exercise, why people exercise, exercise adherence, mental skills and the psychological effects of exercise will be investigated. The minor will focus on topics such as methods of training and coaching, teamwork and leadership, motivation and stress, and social issues in sport. Students will study the relationships between brain biology and behavior. Students will learn to apply psychological theories and perspectives toward understanding thoughts about exercise, an individual's willingness to exercise, choice of exercise, and to assess the relationships between physical health and mental health.

A minor in Sports Psychology requires 21 hours, including the following: PSY 3331 and 4390L; PSY 3350 or 3361; PSY 3321 or 4322; PE 3317 and 3329; one course selected from PHIL 3325, SOCI 3340, or an elective approved by the Department.

Psychology majors pursuing the sports psychology minor cannot double count courses toward their both major and the minor. Enrollment in the required PSY courses assumes that non-psychology majors will have completed PSY 1300 as part of their social science core curriculum component. If not, PSY 1300 is a prerequisite for PSY 3321, 3331, 3350, 3361, 4322, and 4390L.

Degree Programs Offered

- BA, major in Sociology
- BSAS, major in Applied Sociology

Minors Offered

- Sociology
- Social Gerontology
- Studies in Popular Culture

Sociology contributes both to the classic liberal arts tradition and to the practical application of the liberal arts to the world of work. The Department of Sociology provides academic advising and encourages all students considering a major in sociology to take advantage of these services. Suggested degree plans, while helpful in planning an academic schedule, should not be used in lieu of academic advising.

Sociology majors may choose the Bachelor of Arts, major in Sociology, which prepares them for professional or graduate study in the liberal arts tradition, or the Bachelor of Science in Applied Sociology, major in Applied Sociology, which provides practical research skills for students who wish to attend graduate school or to enter the work force upon graduation. The BA in sociology is a 33-hour traditional degree for students interested in entering the professions. As such, it is a pre-professional degree that includes courses designed to prepare students for professional or graduate study. Students who are interested in collecting, analyzing, interpreting, and presenting data on a variety of social phenomena may select the BA. The BSAS is a 36-hour major designed for students who intend to apply sociological principles and practices in governmental and business settings.

Majors in both degree programs learn to conduct social research, to work with computers, and to enhance the practical skills of writing and analysis. Graduates enter a variety of fields, including law, management, education, the ministry, public administration, and human resource management in business, government and industrial settings.
